POLICY OF NEW GOVERNMENT IS OUTLINED

COLONIAL SECRETARY WOULD HAVE BRITISH SPEND MONEY WITHIN EMPIRE

Trade Within Empire is Keynote of King's Speech at Opening of the British Parliament Today

LONDON, Dec. 9.—King George opened Parliament in state today and the speech from the throne was filled with important announcements. He declared that British relations with foreign countries continued friendly. Egypt had accepted Britain's demands for redress, following a campaign of hostility against British interests in Egypt and the Sudan, culminating in the assassination of the Sirdar.

The Government, he said, was unable to recommend Parliamentary consideration of the Soviet treaties but the desire was expressed that "normal intercourse between the two countries be not interrupted."

The Government proposed to proceed with the naval base at Singapore.

Invitations had been received for the Prince of Wales to visit Argentina next year when visiting South Africa.

The closest co-operation with the Dominions and India would be the guiding principle of the government, which also would adhere to the policy of encouraging Empire settlement and mutual trade. The Government was submitting to Parliament further Imperial preferences based on the proceedings of last

PLEBISCITE TO BE SUBMITTED

City Council Decides to Take Expression of Opinion on Matter of City Management.

A plebiscite on the matter of city management is to be put to the people at the civic election in January. This was decided by the city council last night on motion of Ald. Gasey seconded by Ald. Gollart. The request to this effect from the Prince Rupert Ratepayers' Association had been tabled by the council pending action being taken on the matter by the legislature. Nothing having been done as far as the council knew, the decision was taken to at least obtain the expression of opinion asked for. Whether city management is approved or not by the electorate it will be impossible to put it into effect unless it is authorized by provincial legislation. The plan has yet to be adopted by any city in British Columbia although Kamloops has a system which somewhat resembles it.

BUILDING BYLAW GETS ITS THIRD READING

No Restrictions on Position of Residences on the Lot or Number of Houses

The amended Building Bylaw was given its third reading at last night's council meeting. The matter of fire walls for buildings within the fire limits was laid over for more explicit specifications.

There was considerable discussion as to the advisability of introducing a building line setting the distance that residences might be built from the front of lots and, after several difficulties had been pointed out, it was decided to delete this matter and possibly have it dealt with in a separate bylaw.

Respecting the number of buildings that might be built on a single lot, the city solicitor pointed out that this was regulated per acre by statute. It was decided to require chimneys to be built of brick or concrete at least four feet from the roof instead of two feet as at present required.

MCRAE PLANS IN MILLIONS

Dollar Added to Royalty Gives Seven Millions to Millionaire

VICTORIA, Dec. 9.—Every dollar royalty added to licensed timber by the provincial government enhances the holdings of General McRae in crown granted and Dominion timber by seven million dollars, according to a memorandum handed to the Premier by Hon. T. D. Pattullo, answering General McRae's letter urging that royalties be increased.

It was indicated at last night's council meeting that the twenty-year agreement proposed by F. L. Buckley for taxes, water and power in connection with the Seal Cove sawmill which it is proposed to reopen is not going to be acceptable to the city. Feeling that Mr. Buckley should have some reply to his communication, Mayor Newton brought the matter up. Speaking for the utilities committee, Ald. Macdonald stated that 1 1/2¢ per kilowatt hour for power seemed to be the lowest rate that in fairness could be given. Mr. Buckley had asked for 3¢, the rate the mill formerly had. As far as water was concerned, the committee might feel disposed, Ald. Macdonald said, to recommend the flat rate of \$10 per month whether or not the mill was in operation. Ald. McMordeie was opposed to any 20 year agreement as far as assessment was concerned and questioned the fairness of a fixed assessment. As far as power was concerned, he did not see why the mill should get a lower rate than the 1 1/2¢ offered the elevator. General disapproval was expressed of any twenty-year agreement.

CONCESSIONS FOR BUCKLEY

Council Does Not Seem Disposed to Agree to All Requests

The matter will probably come up for final decision on the part of the council next week. The utilities committee will deal with its end at its meeting Friday night and the finance committee with its on Saturday.

MOTHER OF LOCAL LADY PASSES AWAY

Mrs. D. B. McDougall Receives Sad News of Her Mother's Death at Yakima, Washington

Mrs. D. B. McDougall, Palmer House, yesterday received the sad news that her mother Mrs. Palmer, had passed away at seven o'clock in the morning at the home of her sister, Mrs. Armstrong, in Yakima, Washington.

Mrs. Palmer's health had been very bad for the past few years. She leaves to mourn her loss four daughters and four sons. The remains will be taken to Gurlew, Washington, where they will be laid along-side those of her husband who died on September 16, 1916.

Mrs. Pater was in Prince Rupert last March and made many friends here who will regret her demise.

DOUKHOBORS CONVENTION

Delegates Gather at Brilliant to Choose Successor to Peter Veregin

NELSON, Dec. 9.—Doukhabor delegates from the prairies and points in British Columbia arrived for the ceremonies at Brilliant in conjunction with the choice of a spiritual successor to the late Peter Veregin and the election of the new president for the Christian Community of Universal Brotherhood.

The program opens today with "Three Days of Remembrance" for the late leader. A visit will be made to the grave each forenoon when there will be prayers and exhortations and singing.

MEXICAN STEAMER IS AFIRE AND CREW HAS ABANDONED HER

SAN PEDRO, Dec. 9.—A radio message received early this morning stated that the Mexican steamer Oaxaca was reported afloat off the west coast of Mexico and that she had been abandoned and her crew of 27 landed forty miles south of Mazatlan.

SHORTAGE OF HOUSES IN CITY IS CLAIMED

Number of People Looking for Residences and Cannot Find Them

A number of people are looking for residences in the city and are unable to find them. Recent comers who are anxious to bring their families here have been trying to secure houses and have been looking at everything that offers, yet a number have been unable to secure anything that seems suitable. People who contemplate leaving have their houses spoken for months beforehand and it seems as if the shortage would become even more acute in the spring.

Just what steps will be taken to meet the demand does not seem apparent. It looks just now as if a little speculative house building would be a good thing here.

MR. WILLISROFT'S SALARY INCREASE

Council Accepts Recommendation From Finance Committee and Treasurer That He Receive \$145 Per Month

The city council last night, on recommendation of the finance committee, granted an increase in salary to W. E. Willisroft of the treasurer's department from \$135 to \$145 per month. The increase was also recommended by City Treasurer Matheson who reported that Mr. Willisroft's predecessor had received \$150 per month and had more help.

In this connection, a report was received from the city auditor approving the suggestion of a bylaw setting out City Hall salary schedules. The report deemed, however, that the time was not now opportune for the formulation of such a bylaw.

The Canadian Australian freighter Wairuna is due at Ocean Falls next week to load paper for Australia.

FLURRY OVER AN EXECUTION

People of Hull Wanted Murderer Set Free But He Was Hanged Today

HULL, England, Dec. 9.—William Smith, a young painter, whose condemnation to death for murdering a young woman, aroused intensive appeals for clemency, was hanged this morning.

The populace was greatly stirred over the case, filling the churches for hours. A meeting of ten thousand people yesterday threatened violence if the reprieve was not granted. The appeal was made direct to King George.

One argument for the reprieve was that Smith was not shown the same impartiality as another man who was proved guilty of murdering his wife at the same time as Smith and who was condemned and sentenced for only ten years.

SPECIAL RATE FOR WINDOW LIGHTING

Merchants Will be Charged \$1.00 Per Month For 150 Watt Lamps So Used

The city council last night adopted a report from the utilities committee giving a flat rate of \$1.00 per month to merchants for 150 watt lamps used for window lighting purposes. An amendment calling for this rate to be included in the bylaw governing rates was also passed.

Ald. Macdonald explained that the utilities committee had been in conference with a delegation of merchants on the matter. It had been felt that the city would be benefitted to a certain extent through better shop window lighting. The suggestion that the rate proposed be embodied in the bylaw by formal amendment was made by Ald. Gollart after the city solicitor had stated that such action would be necessary.

LIGHT AND PHONES PAID IN NOVEMBER

Surpluses Aggregating Nearly \$5,000 Reported by Superintendent of Utilities to Council

During the month of November, the municipal electric light department showed a surplus of \$3,577.99 according to report of the superintendent of utilities submitted to the city council last night. Revenue is estimated at \$9,200 and expenditures was \$5,622.01. Capital expenditure during the month amounted to \$242.36.

The telephone department report for the month showed a surplus of \$1,271.35, revenue being estimated at \$3,850 and expenditure being \$2,578.65. Capital expenditure for the month totalled \$345.36.

BLATCHFORD AGAIN EDMONTON'S MAYOR

EDMONTON, Dec. 9.—Mayor Kenneth Blatchford was returned to office for a second term with a majority of about 2,000 at the civic election held here yesterday.

Colonial Secretary Would Help Build up Nations of the Empire Rather Than Aid Foreign Nations

LONDON, Dec. 9.—Lieut. Col. Amery, colonial secretary, addressing the Australian Club here last night, said that Great Britain, in the past two generations had squandered millions of its finest people and thousand of millions of pounds of money largely in building up other nations which neither in war nor peace would ever be what an enlarged Australia, Canada, New Zealand or South Africa might have been.

Lieut. Col. Amery said he trusted that ever increasing pressure would be brought to bear on the government to carry out a policy of Imperial preference not only in tariffs but in every other direction to strengthen the Empire.

FIVE FOOT VEIN AT TERMINUS MINE

H. A. Heywood, manager of the Terminus Mine at Stewart, is a passenger going through on the Cardena today bound for Victoria where he will spend the Christmas holidays. Mr. Heywood reports that recent developments in the Terminus mine uncovered a five-foot vein of high grade ore containing a considerable amount of native silver.

COLONEL PECK IS GALLERY STRANGER

VICTORIA, Dec. 9.—Cy Peck, V.C., "retreated according to plan" when he was routed out of the press gallery by Major Gus Lyons, M.C. Col. Peck likes to look down from the heights and climbed into the press men's gallery over the speaker. For some time he sat there unnoticed, and then the eagle eye of Major Gus Lyons saw him.

"Mr. Speaker, I see strangers in the press gallery," said Major Lyons. Col. Peck looked startled, and as all eyes turned his way he leaned back. "Strangers in the gallery," Mr. Speaker, insisted Major Lyons and sat down. Just then C. F. Davie of Cowichan-Newcastle rose to speak and it was too much for Col. Peck. He slid out of his chair and down from the gallery.

SMITHERS MAN WANTED HERE

City Police Had Warrant Out for Man Who is Charged With Hold up Over Gambling Table

It was disclosed at the city police station this morning that there was a warrant out here for the arrest of Mike Sennick, who was apprehended by the provincial police at Smithers on Sunday following a hold-up over a gambling table there. Sennick was wanted for fraudulently obtaining food and lodging from David Gibb of this city. It is also believed that Sennick had taken a gun from Mr. Gibb's house and probably this was the weapon he used at Smithers. The local police are today in communication with the Smithers police on the matter.

LAST NIGHT'S GALE SEVERE

But No Serious Damage Was Reported This Morning—Old Timers Reminiscent

Last night's gale, the highest in velocity and the most continuous yet this fall, recalled to old-timers' memories blows of 1910 and 1911 when such buildings as the Alder Block, the Catholic Church and other structures then in course of construction were bowled over. Many pioneers were this morning discussing experiences of those days.

As far as could be ascertained this morning, little damage of a serious nature was occasioned by last night's hurricane, although many citizens lay awake in their beds momentarily waiting for their roofs to blow away or their homes to leave their foundations. Some roofs did sustain damage and in one or two cases it is reported that the shaking of houses caused interior damage. All telegraph lines out of the city were out of commission this morning as was also the telephone line to the wireless station at Digby Island.

THREE YEARS FOR BURGLARY

William Duke Who Stole Revolvers and Ammunition Convicted and Sentenced

William Duke, who stole guns and ammunition from the store of Wilfrid Gratton, and who later was arrested by Police Sergeant Bailey who secured a confession of guilt, was this morning convicted by Judge Young and sentenced to three years in the penitentiary at New Westminster.

Accused was committed for trial by Magistrate McGlymont on Thursday morning. This morning he decided to take speedy trial before the county court judge, pleaded guilty and was sentenced. He will be taken to New Westminster on the next boat.

A report from the Board of Works recommending that a local improvement bylaw for a four-foot board walk on Claude Street and Seventh Avenue be introduced was returned to the committee by the city council last night. It was felt that it might be of better advantage to the property owners concerned and the city as a whole to have a road put in instead of a sidewalk. The cost of the sidewalk was estimated at \$225. The ground being quite level, it was felt that the road would not be a very costly proposition.

Unless the Canadian Fish & Gold Storage team can make a clean sweep over the St. Andrew's in tonight's second division billiard tournament there will be no change in the standings of any of the teams and, at that, the men from the fish plant can only get ahead of the Grotto in fourth place by a narrow margin. The St. Andrew's, in third place, have no chance of overtaking the Veterans in second. Of course, a decided victory for either team will put them in a better position and for that reason both will be out to win.

Preparations are being made to build an open air skating rink at Vanderhoof. Weather having been very good for the making of a rink, flooding was started at the first of this week. Sufficient money was guaranteed by public subscription to launch the undertaking and the rink will undoubtedly be well patronized and successfully conducted. The Vanderhoof Athletic Association will undertake the financial responsibility in connection with running the rink during the winter season.

In recent football games between the Uruguayan Olympic team and an Argentine eleven in Montevideo and Buenos Ayres, bottles and stones were thrown at the opposing players. There was also jeering and calling of names. Both Argentine and Uruguayan papers have lectured the spectators severely for their lack of sportsmanship in their treatment of visiting players and are advocating the discontinuance of international contests calculating that national friendship will not be enhanced by means of them.

MANY CLAIMS TO VALUABLE LEGACY

Correct Use of Famous Title has Encouraged Pretenders

About the year 1880 the pioneer prospectors of British Columbia discovered a remarkable coal. After many trials and tests it was positively established that this coal represented the same of economy, efficiency and comfort. To this fuel they gave the new famous name of "Nanaimo-Wellington," representing all that was best in coal.

No sooner was it found that the public insisted on getting this Wonder Fuel than other coals were put on the market under very similar names. So much so that the public were at a loss to say which was the genuine and which the imitation. Of course it was easy after a trial—a single sack will prove it—more lasting and more powerful heat from a few shovelfuls, hardly any ash, no clinker or creak, all these points stand out when you make a practical test in furnace, fireplace, heater or cook-stove.

This famous Nanaimo-Wellington coal is sold only by Albert & McCaffery to whom all orders should be phoned direct. Prompt delivery service given by their own teams and trucks. Their phone numbers are 116 and 564.

VICTORY GOES AGAIN TO COLTS

Fans Enjoyed Seeing Comeback of Team That Started Poorly

Colts, 31; Sons of Canada, 18.
 Colts, 39; Regiment, 13.
 Maple Leafs, 24; Gil's, 14.

The surprise of last night's league basketball games was the victory of the Colts over the Sons of Canada in the Senior League. Laboring under the difficulty of having one of their strongest players—George Mitchell—in- incapacitated and, besides this, being faced with the full strength of the Sons, the Colts not only were victorious but won out by the substantial score of 31 to 18. The game delighted the fans and tends to lighten up the league race although the Canucks are still in the lead. A re-arrangement in the Colts' line-up was responsible for their victory. Bob Bartlett played centre instead of guard and Willie Mitchell played as running guard. Bob Smith was responsible for most of the scoring and the whole team played an excellent game. The Sons were not in form and marred their play with wild passes. The Canucks forwards were not given much chance to shoot.

The teams lined-up as follows:
 Colts—E. Zetterman, R. Smith, R. Bartlett, W. Mitchell and D. Frizzell.
 Sons of Canada—R. B. Skinner, H. Menzies, V. Menzies, A. Mitchell, G. Anderson and G. Shenlon.
 Dave Balfour refereed.
Intermediate League

The Colts ran true to form in the Intermediate League and won over the Regiment by 39 to 13, incidentally regaining the exclusive league leadership which the Grotto was sharing with them.

Regiment—Louis Astori, Sidney Hazell-Jones, Charlie McKeown, A. Horrobin and H. Floyd.
 Colts—W. Whiffball, Ralph Smith, G. Shenlon, Douglas Frizzell and Arthur Phillips.
 R. B. Skinner was referee.

Ladies' League

The Maple Leafs scored their fourth victory of the season over Gil's in the Ladies' League, this time by a more substantial margin of 24 to 14. It was an easy victory.

Gil's—Gatherine Harvey, Caroline Mitchell, Willa Dyer, Leona Parker, M. Long, Marjorie Lancaster.
 Maple Leafs—Myra Harvey, Lillian Lowe, Louie Fisher, Aileen Stephens, Marguerite Casey, Margaret Graham and Laura Frizzell.
 R. B. Skinner was referee.

"Nerves in Bad State Could Not Sleep"

Mrs. H. N. Tardell, Harrowsmith, Ont., writes:

"My nerves were in a very bad state, and for nearly six months I did not know what it was to have a good night's rest. I could not eat, and never felt well. I heard about Dr. Chase's Nerve Food, and thought I would try it. After taking it for a few days I began to feel better, and soon was able to sleep well at night. My appetite also returned, and I felt stronger and better, and after taking three boxes of Dr. Chase's Nerve Food I was quite well. I have also given the Nerve Food to my little girl, with good results."

HER HEADACHES WERE SO BAD SHE COULDN'T DO ANYTHING

Once the head starts to ache and pain you may rest assured that the cause comes from the stomach, liver or bowels, and the cause must be removed before permanent relief may be had.

There is no better remedy for head aches of every description than

BURDOCK BLOOD BITTERS

as it removes the cause of the headaches in a way that no other remedy will do.

Mrs. Wm. Heward, Lower Stewiacke, N.S., writes:—"I suffered for a long time with my head. It would ache and ache until it made me so sick I could not do anything, but after taking four bottles of B.B.B. I feel that I cannot recommend it too highly to all those suffering from headaches of any kind."

B.B.B. has been on the market for the past 46 years and is recognized by all who have used it to be without an equal as a remedy for headaches; put up only by The T. Milburn Co., Limited, Toronto, Ont.

TIMBER GROWS FAST AS USED

This Only Province of Dominion Where Depletion Not Equal to Growth

British Columbia is believed to be the only province in Canada where the rate of depletion of the forests is not greater than the annual growth, under present conditions. This fact, referred to by the Royal Commission on Pulpwood in its report, is the basis for the belief that the province will eventually assume an even more important position in pulp and paper manufacture than it now holds. The commission expressed the opinion that the annual cut of timber in British Columbia could be increased several-fold, if annual losses from fire, etc could be avoided.

Pulp and Paper

The pulp and paper industry is new to British Columbia. Pulp has been made longer than paper which has a record of only eight years on the coast. The industry was undoubtedly attracted by the large supplies of cheap raw material available just as in the United States, saw mills and paper mills were established in the Pacific coast states, when the forests of the East began to be depleted. Since beginning the manufacture of pulp, British Columbia has shown very steady development, as the following table indicates:

	Pulp tons	Paper tons
1913	61,354	
1914	56,352	
1915	65,823	
1916	78,655	
1917	111,875	79,004
1918	173,161	122,516
1919	194,126	135,310
1920	218,482	147,289
1921	165,053	98,004
1922	198,126	130,600
1923	217,712	155,373

In addition to this substantial production of pulp and paper, British Columbia is the leading producer of saw timber in Canada.

Not a Big Exporter

British Columbia exports but little pulpwood, although the provincial legislation is such as to make the obtaining of a permit for such exportation comparatively easy. But there are few "pulpwood" farmers in British Columbia. The distances are great; the logs are large, and the forest areas are not widely opened up for settlement. British Columbia's problem is not then one of preventing export of pulpwood; exports are not likely to increase largely under present circumstances, but rather one of making the most effective use of the timber that is cut, and of protecting the forests from losses due to fire and fungi.

It is not to be forgotten that British Columbia's distance from most of her markets has made necessary the local manufacture of raw materials. Although she is now successfully competing in world markets, British Columbia is rather isolated, topographically, from the rest of the Dominion.

Barrier to Transportation

The Rocky Mountain system offers a barrier to transportation by rail which can be surmounted only by the payment of expensive rail charges. Looking in other directions, and with the exception of neighboring states, the province is separated from the rest

of the world by the Pacific. On both sides she is confronted with transportation charges upon her products which have in some manner to be overcome. Had these transportation difficulties not existed, however, there is at least some doubt that industries would have been developed to the degree in which they now exist; the very isolation of British Columbia resources—if they are to be brought under exploitation—necessitated the influx of capital in order that the handicap of excessive transportation charges

might be reduced to the lowest possible minimum, namely, by the local manufacture of raw materials. The one thing which has served to attract the very necessary capital has been the abundance and general high quality of British Columbia timber; a coniferous forest, equalled nowhere in the world except in the adjoining states, offered the incentive to outside capital, and by large-scale production of high-class products, the handicaps of distance have in a measure been overcome.

Must Protect Her Forests

With such reserves, British Columbia is hardly likely to take action to curtail cutting of timber, pulpwood, and in other kinds of timber. The tendency is more likely to be in the direction of development toward increased use, but along lines and under methods which will insure perpetuation of the stand. The maintenance of advantage which the province enjoys in quantity, quality, and growth of timber—so essential to the overcoming of other disadvantages with which the industry is beset—depends the more careful and more

complete use of timber which is harvested, and the protection of it, and of the young timber stands, from fire.

GRAIN IS RUSHING TO LAKE HEAD IN ORDER TO GET AWAY

WINNIPEG, Dec. 9. — Live elevator operators in prairie provinces continue to rush their grain to the lake head in the attempt to move as much as possible before navigation closes according to grain reports issued by Canadian National officials.

While farmers' deliveries to the elevators are commencing to stack up, loadings over the Canadian National lines are maintaining an even level, and from 20,000 to 40,000 bushels are being loaded daily from elevators. Grain in storage at country points on Canadian National lines on Saturday night amounted to 11,370,000 bushels. Loadings during the days were 507 cars containing 658,000 bushels, while inspections over the week end

amounted to 1079 cars. Nine vessels cleared from the lake head Saturday with 1,853,000 bushels of grain, four loaded yesterday and nine are due to arrive.

Saskatchewan maintains the high loading record so far with 241,000 bushels marketed, 311,000 bushels loaded, and 50,255,000 bushels in storage on Saturday. Alberta marketed 180,000 bushels, loaded 159,000 bushels and had 3,109,000 bush-

els in store.

A total of 56,473 cars containing 7,537,000 bushels have been loaded on C.N.R. lines since August 18, and of these a total of 1,287 cars had been delivered to Vancouver.

SENATE REFORM IS DIFFICULT

Second Body is Strongly Entrenched: Many Have Attempted to Make Change

OTTAWA, Dec. 9. -- (By Canadian Press) -- If Premier King introduces legislation during the next session of Parliament to restrict the veto powers of the Senate, as he has intimated he will, it will be the eighth occasion on which Senate reform has been before the Parliament of Canada in one form or another. While the Prime Minister's proposals are scarcely as sweeping as some of the measures that have been put forward in times past, they would, if passed, permit Commons legislation to become law if passed three times by the lower House and in spite of any Senatorial veto. Although the Prime Minister has not announced any further measures, it is stated that the proposals will include a retiring age for members of the Senate.

Earlier Proposals The earliest attempt to amend the constitution of the Senate was made in 1874 when the British North America Act had barely emerged from its experimental stages. At that time David Mills, who was later Minister of Justice and member of the Supreme Court, moved in the House of Commons that "Our Constitution ought to be amended so as to confer upon each province the power of selecting its own senators, and to define the mode of their election." The debate on this resolution was adjourned. The following year the resolution was revived by Mr. Mills, who said in his speech that until all the provinces were directly represented in the Senate, the Federal compact was constitutionally imperfect. As the motion was merely to con-

sider a proposition to be developed later, the Commons, on a vote of 77 to 74, went into committee of the whole but rose immediately with power to sit again. But Mr. Mills was not prepared to submit the details of his scheme and his motion was withdrawn.

Abolish Life Tenure For thirty years the matter of Senate reform was untouched. In April, 1906, Mr. McIntyre, member for Perth proposed to abolish the life tenure of Senators and limit the tenure of appointment to three parliaments and to provide a fixed age for retirement. Following a debate the motion was withdrawn but was revived again in 1908. In 1909, 1910 and 1911 Mr. Lancaster, member for Lincoln, charged the Senate with grave delinquencies and moved that an address be presented to His Majesty asking for the abolition of the Senate. This was finally defeated by 22 to 111. In 1909 Sir Richard Scott introduced the question into the Senate proposing an elective system for two-thirds of the Senate with a term of appointment or election of seven years. No vote was taken on this.

Whether or not the legislation planned by Premier King will require an amendment to the British North America Act or not, is a matter now being discussed unofficially. In the event of an amendment to the B.N.A. Act being required, there are several steps necessary before constitutional procedure is complete. Sir George Ross in his book "The Senate of Canada, its Constitution, Powers and Duties Historically Considered," states that (1) Before Parliament could entertain any proposal for Senate reform, except as an academic one, the consent of all the provinces should be obtained for the change which it was proposed to make; (2) the approval of both Houses of Parliament, and (3) the ratification by the Imperial Parliament.

AUDITOR'S REPORT

Local Improvement Work Financed Out of General Fund to be Reimbursed Later

Report of George Barrie, city auditor, covering nine months of the current year up to September 30 was received at last night's council meeting and tabled for a week. The report announced that all books and transactions had been kept up to date by the treasurer's department and that cash business of the city for the period stated had amounted to some \$770,000.

Ald. Casey inquired as to how local improvement work had been financed since the first of the year and was told by the mayor that all payments had been made out of general fund which would be reimbursed on the sale of the debentures.

"BROKEN BARRIERS"

A story of new morals—and old. A fearless handling of the most vital problem of our time that will hit home in every household. The mad pace of jazz crazed youth pitted against the slow tread of convention. The tale of a typical modern girl who craved freedom spent everything on clothes to advertise her sex and advanced back to Babylon for a moral code—then came true love and the awakening. A photo-play that proves there are no new temptations—only old ones wearing a new guise. Superb scenery and dresses. Ten big stars and strong supporting cast. James Kirkwood, Norma Shearer, Robert Agnew, George Fawcett, Adolphe Menjou, Robert Frazer, Winifred Bryson, Mae Busch, Vera Reynolds, Ruth Stonehouse and others.

SERVICE NOT SERVITUDE

Has it ever occurred to you that the multitude of "Household Helps" offered for sale are of themselves lifeless and incapable of service unless controlled and directed by the already overburdened housewife.

Laundry service alone is alive, vital, imposing no new obligations, and asking nothing but your friendly disposition, to change servitude into service. May we call?

MCCARTHY ENTHUSES OVER VALVE COMPANY

Declares he Found Everything in Vancouver as Represented and Expects Company Will Succeed

R. McCarthy of this city, representing the local stockholders of the B.C. Valve Company Ltd., who has visited Vancouver for the express purpose of investigating the affairs of the concern, states that he found everything exactly as represented to the people here. The factory near the C.N.R. station on Terminal Ave. just off Main Street is just about completed. This is costing \$75,000 and will not only turn out valves, which are their specialty but also will do all kinds of brass work such as in constant demand on the coast. This will include such things as boat propellers, bearings, and castings of all kinds.

Mr. McCarthy further says that the plant superintendent and secretary-treasurer of the company is a valve manufacturer of 36 years standing, his firm having supplied work of that kind for the British and Japanese navy and for the American railways. He is expected here within a few days to meet the local stockholders.

Fred A. Brown, the managing director, is also a metallurgical practitioner, who knows his business and all the men having to do with the business are of the right type and he thinks should make good.

Mr. McCarthy is very enthusiastic over the concern and believes it will be a success.
