NO NEWS AVIATOR MARTIN BUT THOUGHT MIGHT HAVE GONE NORTHERLY

Armed Masked Bandit Held up Train but Lost his Nerve When Parson Refused to Come Through

VANCOUVER, May 3.—An armed masked bandit boarded the Great Northern train near Still Creek Crossing at the east end of Vancouver last night and robbed two Vancouver men of \$130 but he lost his nerve when Rev. A. E. Cooke of the First Congregational Church refused to submit to his threats. He jumped from the train and eluded the police who went in pursuit. The train was crowded with passengers returning from the Bellingham tulip festival.

URGES AGAINST CHURCH UNION

Lawyer Tells Committee of House it Invades Religious Freedom

OTTAWA, May 3.—In the House of Commons committee yesterday, F. M. Chrysler, K.C., of Ottawa, challenged the right of church unionists to secure legislation merging the three churches. He said that "no such bill had ever been passed by the parliament of Canada or, as we believe, by any British parliament. It invades the religious freedom of tens of thousands of people to put out of existence a church to which they owe allegiance."

REFUSE IMMIGRANTS WHO NOT ELIGIBLE U.S. CITIZENSHIP

Coolidge Favors Such a Proposal He Intimates to Callers at White House

WASHINGTON, May 3.—President Coolidge announced to callers at the White House his endorsement of a proposal to exclude immigrants ineligible to citizenship. It was explained by spokesmen for the president that he desires to phrase provisions of such a sort as to give the least possible offense to friendly nations.

RALSTON MENTIONED FOR THE DEMOCRATS

Suggested As Possible Candidate For President of The United States

NEW YORK, May 3.—Within the past few days the city and state of New York have been flooded with copies of a little pamphlet on the first page of which are pictures of Samuel Moffett Ralston, of Indiana, and the late Grover Cleveland. Under the pictures is the line: "These men look alike. Does the resemblance end here?"

Cleveland was selected as presidential nominee by the Democratic convention of 1884 and swept the country in the subsequent election. Will the Democratic convention of 1924 increase the "resemblance" by selecting Senator Ralston as standard-bearer? This is the question political observers here have been asking—and many of them, attempting to answer—since the circulation of the pamphlet brought the boom to the East.

The majority seem to hold the view that "the dark horse which pastures in the Hoosier state" stands a very good chance of being the choice of the convention. One apparently unbiased writer declares that if you ask those who pretend to be in closest touch with the Democratic political situation as to the choice of the Madison Square Garden gathering, "nine times out of ten the answer will be Ralston."

SURPRISE PARTY IN HONOR OF BIRTHDAY OF MRS. F. W. HART

The occasion being Mrs. Hart's sixtieth birthday, a group of friends last night formed a surprise party on Mr. and Mrs. F. W. Hart, 210 Ninth Avenue West. They brought with them a beautifully decorated cake bearing six candles and sixty decorations. Mrs. Hart was presented with a leather handbag, silver mounted, as a mark of esteem and Mr. Hart received a baby doll. The evening was most enjoyably spent in singing, card playing and story-telling.

Those present were Mr. and Mrs. James Clark, Mr. and Mrs. H. D. Johnson, Mr. and Mrs. John Bulger, Mr. and Mrs. K. Hallberg, Mr. and Mrs. L. O. Larsen, Mr. and Mrs. W. D. Moxley, Mrs. John Dybbavn, Mrs. Ramanov, Mrs. J. Field, Mrs. Thor Johnson, E. Stockland and John Bergman.

DELEGATES ELECTED

LILLOET, May 3.—The delegates elected to the provincial party convention at Squamish are H. Boothman of Lilloet, E. Carson of Pavilion and F. Bishop of Mola.

BODY IS LOCATED

LILLOET, May 3.—The remains of Bert J. Carpenter, who was accidentally drowned, March 23, 1920, have been located in Summit Lake at Birken.

William J. Lynch, of Boston, Mass., is believed to be the fastest sorter in the postal mail service. He has sorted 850 letters in nine minutes and thirty seconds without error. His usual daily record is 94 a minute.

SAW FLYERS AT SEWARD

Major Martin Was Having Serious Trouble There, Says Story Who is in City

That Major Frederick L. Martin, commander of the United States round-the-world flying cruiser squadron, was still having trouble with his machine "The Seattle" at Seward is the report of B. Story of that town who reached the city from the north yesterday afternoon.

Mr. Story saw both the landing and the take-off of the squadron at Seward. Major Martin admitted there that his engine was not turning over properly and this was demonstrated at the take-off. The three other cruisers rose easily and circled over the town before setting out for Chignik. Major Martin, however, had trouble in rising and, after taxiing twice as far as the other machines, was still flying very low when he headed straight out of the harbor. Later he was forced down near Kanatak and was rescued by the destroyer Hull. The Hull later came into Seward. This destroyer and the Gorry, both of which were in the late President Harding's convoy when he visited Alaska last summer, are now laying cables in the Gulf of Alaska.

NEW ENGINE

After Major Martin's machine was taken to Kanatak, a new engine was brought from Dutch Harbor and installed. New engines have also been installed at Dutch Harbor in the three other planes, Mr. Story reports. Mr. Story is of the opinion that Major Martin got into his present predicament as a result of being forced down in a snow storm after leaving Chignik for Dutch Harbor.

Mr. Story, who has been in Seward for the past eight years in the manufacturing business, is leaving here on tonight's train for St. Paul, Minnesota. He does not expect to return to Alaska.

LIBERAL CONVENTION

Omineca to Nominate Candidate at Fort Fraser on May 22

BURNS LAKE, May 3.—The Liberals of Omineca will nominate a candidate for the provincial legislature at a convention to be held at Fort Fraser on May 22.

It is thought that the only candidate whose name is likely to come before the convention is Hon. A. M. Manson, the present member for Omineca, and attorney general for the province.

KING ON VISIT TO EXHIBITION

Goes There With Queen, Weighs on Scales and Eats at Restaurant

LONDON, May 3.—An informal visit to the British Empire exhibition was paid by the King and Queen yesterday. While visiting the palace of industry the King stepped on the scales and weighed 153 pounds. Their majesties lunched at one of the ordinary restaurants.

The visit of King George and Queen Mary effectually disposed of rumors that the health of Queen Alexandra is giving disquietude. The queen mother, while exceedingly frail, goes out daily.

REFUSE TO ACCEPT LAST SEASON'S RATE

Alaska Fishermen at San Francisco Will be Replaced by Non-Union Crews

SAN FRANCISCO, May 3.—The Alaska Fishermen's Union refused to work this season for last year's prices of 7 1/2 to 8 cents a fish, according to a vote of the members which was almost unanimous. Twelve hundred members of the union here will work on steam schooners and other craft.

The Alaska Packers' Association announces that it will send out its boats with non-union crews.

MISSIONARY CENTENARY OF METHODIST CHURCH

TORONTO, May 3.—Canadian Methodists will observe their missionary centenary this summer and fall. Local celebrations will be encouraged in accordance with decisions announced by the executive of the missionary board here.

Looking for Martin in Tundra to North Where he may have Descended

BREMERTON, May 3.—Up to half past three o'clock this morning no word had been received here from Gordova or other wireless stations in Alaska concerning the probable fate of Major Martin.

FALSE PASS, May 3.—A dog team was to go today from Chignik to the north side of the Alaska peninsula to search for Major Martin, the globe flyer, along the Bering Sea. It is feared that the airman might have been endeavoring to take a more direct line of flight than the southern coast and cross to the Bering Sea side.

A tundra of swamp commences at a point north of Chignik and runs westward along Bering Sea for 75 miles and it is 20 miles wide. Apprehension is entertained that Martin might have come down in this tundra.

The weather early today was such as it is believed the three other aviators would depart from Dutch Harbor, 180 miles west.

C.N.R. Fiash CORDOVA, May 3.—(Noon)—No trace of Major Martin has been seen up to noon today.

LUTHER LEAGUE WAS FORMED LAST NIGHT

Young People of St. Paul's Lutheran Church Had Organization Meeting

A Luther League in connection with St. Paul's English Lutheran Church was organized last night at a meeting at the home of Henry Jackson, Ninth Avenue.

Campbell.

FAMOUS BANK IS ABSORBED

Child & Co., Oldest Financial Institution in England, Merged With Glyn Mills Co.

LONDON, May 3.—Child & Co., the oldest private bank in England and perhaps in the world, is to be absorbed by Glyn Mills Co. in accordance with the will of the Eighth Earl of Jersey, the senior partner.

The Childs' Bank was founded about the year 1560 and occupied the site of its present office in Fleet Street ever since. It is replete with historic associations. Oliver Cromwell, Samuel Pepys, Horace Walpole, Dryden, Charles the Second, and his paramour, Nell Gwyn, are among the prominent figures in English history who has accounts in the bank.

MANY MATTERS BEFORE BOARD

Meeting Last Night Takes up Questions of Minor Importance to Prince Rupert

The regular monthly meeting of the Prince Rupert Board of Trade was held last night in the city council chamber. The attendance of members was small owing to the inclemency of the weather and counter attractions. Business was of an unimportant nature, about an hour being spent reading and dealing with a sheaf of letters from the secretary's files. Those present were President S. J. McLeod, John Dybhavn, Thomas McMeekin, D. G. Stewart, J. H. Pillsbury, E. C. S. K. Campbell, George Bryant Gibbons, W. R. Love, J. W. Scott, and Secretary Arthur Brooks-bank.

A letter from the department of marine and fisheries stating that suggested improvements to Prince Rupert harbor and its entrance had been referred to the department of public works was filed.

A suggestion from the St. John Board of Trade that the local board in conjunction with all other boards in Canada petition the federal government for a change in manner of dealing with the tariff question was briefly discussed. Stating that the tariff in the past had been made a political football, the recommendation offered was that it should be taken out of the hands of the government and handled in future by a non-political commission. D. G. Stewart thought the idea was a good one, S. K. Campbell felt that it was a matter to be taken up by the Associated Boards of Trade. It was finally decided to acknowledge receipt of the communication with an expression of favor for the recommendation.

C. D. N. A. Excursion

A letter from the Canadian Daily Newspaper Association asking for advance information as to any entertainment that might be tendered the excursion party which will be here on the evening of June 4, was referred to the entertainment committee. President McLeod suggested that as many of the members as possible meet the train on arrival here.

A solicitation from the Canadian Gazette offering advertising space in a publication "The Romance of Canada" which is to

be circulated at the British Empire Exhibition was filed.

A copy of a new freight rate classification sheet from the Canadian Freight Association was filed for future reference.

Wade Wants Literature

A letter from F. C. Wade, K.C., agent general at London, acknowledging receipt of 200 publicity pamphlets and asking for 10,000 pieces of such literature for the British Empire Exhibition, was referred to the publicity committee with power to increase the order of 5,000 pamphlets, now being published. Mr. McLeod reported that the new booklets would be out in about three weeks' time.

A letter from the Moderation League of Ontario asking the Board to reply to a letter recently published in the Toronto Globe which referred in a detrimental manner to the administration of the Government Liquor Act in B.C. pointing to Prince Rupert as an example was filed, the members feeling that it was not a matter for the Board to deal with.

Fleet Not Coming

Foreign trade bulletins submitted by the International Trade Developer were filed for future reference. S. K. Campbell, inquired as to the secretary's filing system and was told that such documents as this were always readily accessible to the members.

Letters from Fred Stork, M.P., the minister of naval defence, and the Admiralty in London, stating that it would not be practicable for the naval squadron coming to the coast this summer to visit Prince Rupert, were filed.

The Vanderhoof Board of Trade sent a letter to the effect that a Peace River railway resolution similar to that drafted by Prince Rupert had been despatched from there. In this connection, there was also a letter from Sir Henry Thornton stating that the matter was under consideration.

Smithers' Support

A letter from the Smithers Board of Trade stating that several resolutions of the Prince Rupert Board had been endorsed was filed. The manner in which the interior board dealt with these resolutions has already been published in the Daily News.

Letters from the Minister of Marine and Fisheries with regard to Fred Stork's agitation for the abolition of the central fisheries inspector's office at Vancouver was filed. The minister stated that the matter was being thoroughly investigated

prior to making final decision.

The Associated Boards of Trade sent a letter enclosing a memorandum on the Crow's Nest freight rates agreement prepared by Premier Oliver and pointing out that this agreement would again come into effect on July 6 unless it was dealt with at the present session of the House of Commons. The communication was filed.

Daily Milk Service

A letter from Valentin's Dairy urging that daily milk train service be given between Prince Rupert and interior points was referred to the railways and navigation committee. The suggestion offered was that the fast freight now running in here on Sunday be switched to Tuesday when no regular express train arrives.

A communication from the Regina Board of Trade and clipping from the Regina Leader urging more prosperity for Canada but not giving a definite idea as to how much was to be obtained was ordered acknowledged and filed.

President McLeod reported that, as a result of a recent editorial in the Toronto Globe on the advantages of the port of Prince Rupert and a letter on the port by a Mr. Brown, there had been further correspondence with Mr. Brown and he had become quite interested in the place. President McLeod also reported that the publicity campaign was working well, judging from the number of inquiries that had been received recently.

Copping's Elevator

A cable from C. A. Copping of London, England, stating that financial arrangements for the establishment of an elevator at Prince Rupert were proceeding satisfactorily and asking that financial assistance for the preliminaries be give here was received. Mr. Copping also asked that a three months' option on a site be obtained. President McLeod reported that he had replied to Mr. Copping stating an option on a site could undoubtedly be secured by a responsible party from the railway company. No assurance was given, however, as to local financial assistance.

The resignation of N. B. Walton as a member was received with regret on motion of D. G. Stewart and John Dybhavn and the membership committee was instructed to consult with Mr. Walton's successor.

PIONEER CONTRACTOR IS REVISITING CITY

Angus McInnis Arrived From Keno Hill Yesterday and Will Leave Tonight for Boston

Angus McInnis, who had large contracts here when the Section One streets were being graded in 1911 and who is now interested in mining at Keno Hill, Yukon, reached the city from the north on the Princess Mary yesterday afternoon. He is leaving on tonight's train for Boston on a holiday trip and expects to return later this year. Mr. McInnis came out from Keno over the snow by the winter modes of travel—mushing, dog sleighing and staging.

DYSPEPSIA WAS SO BAD COULD HARDLY EAT ANYTHING

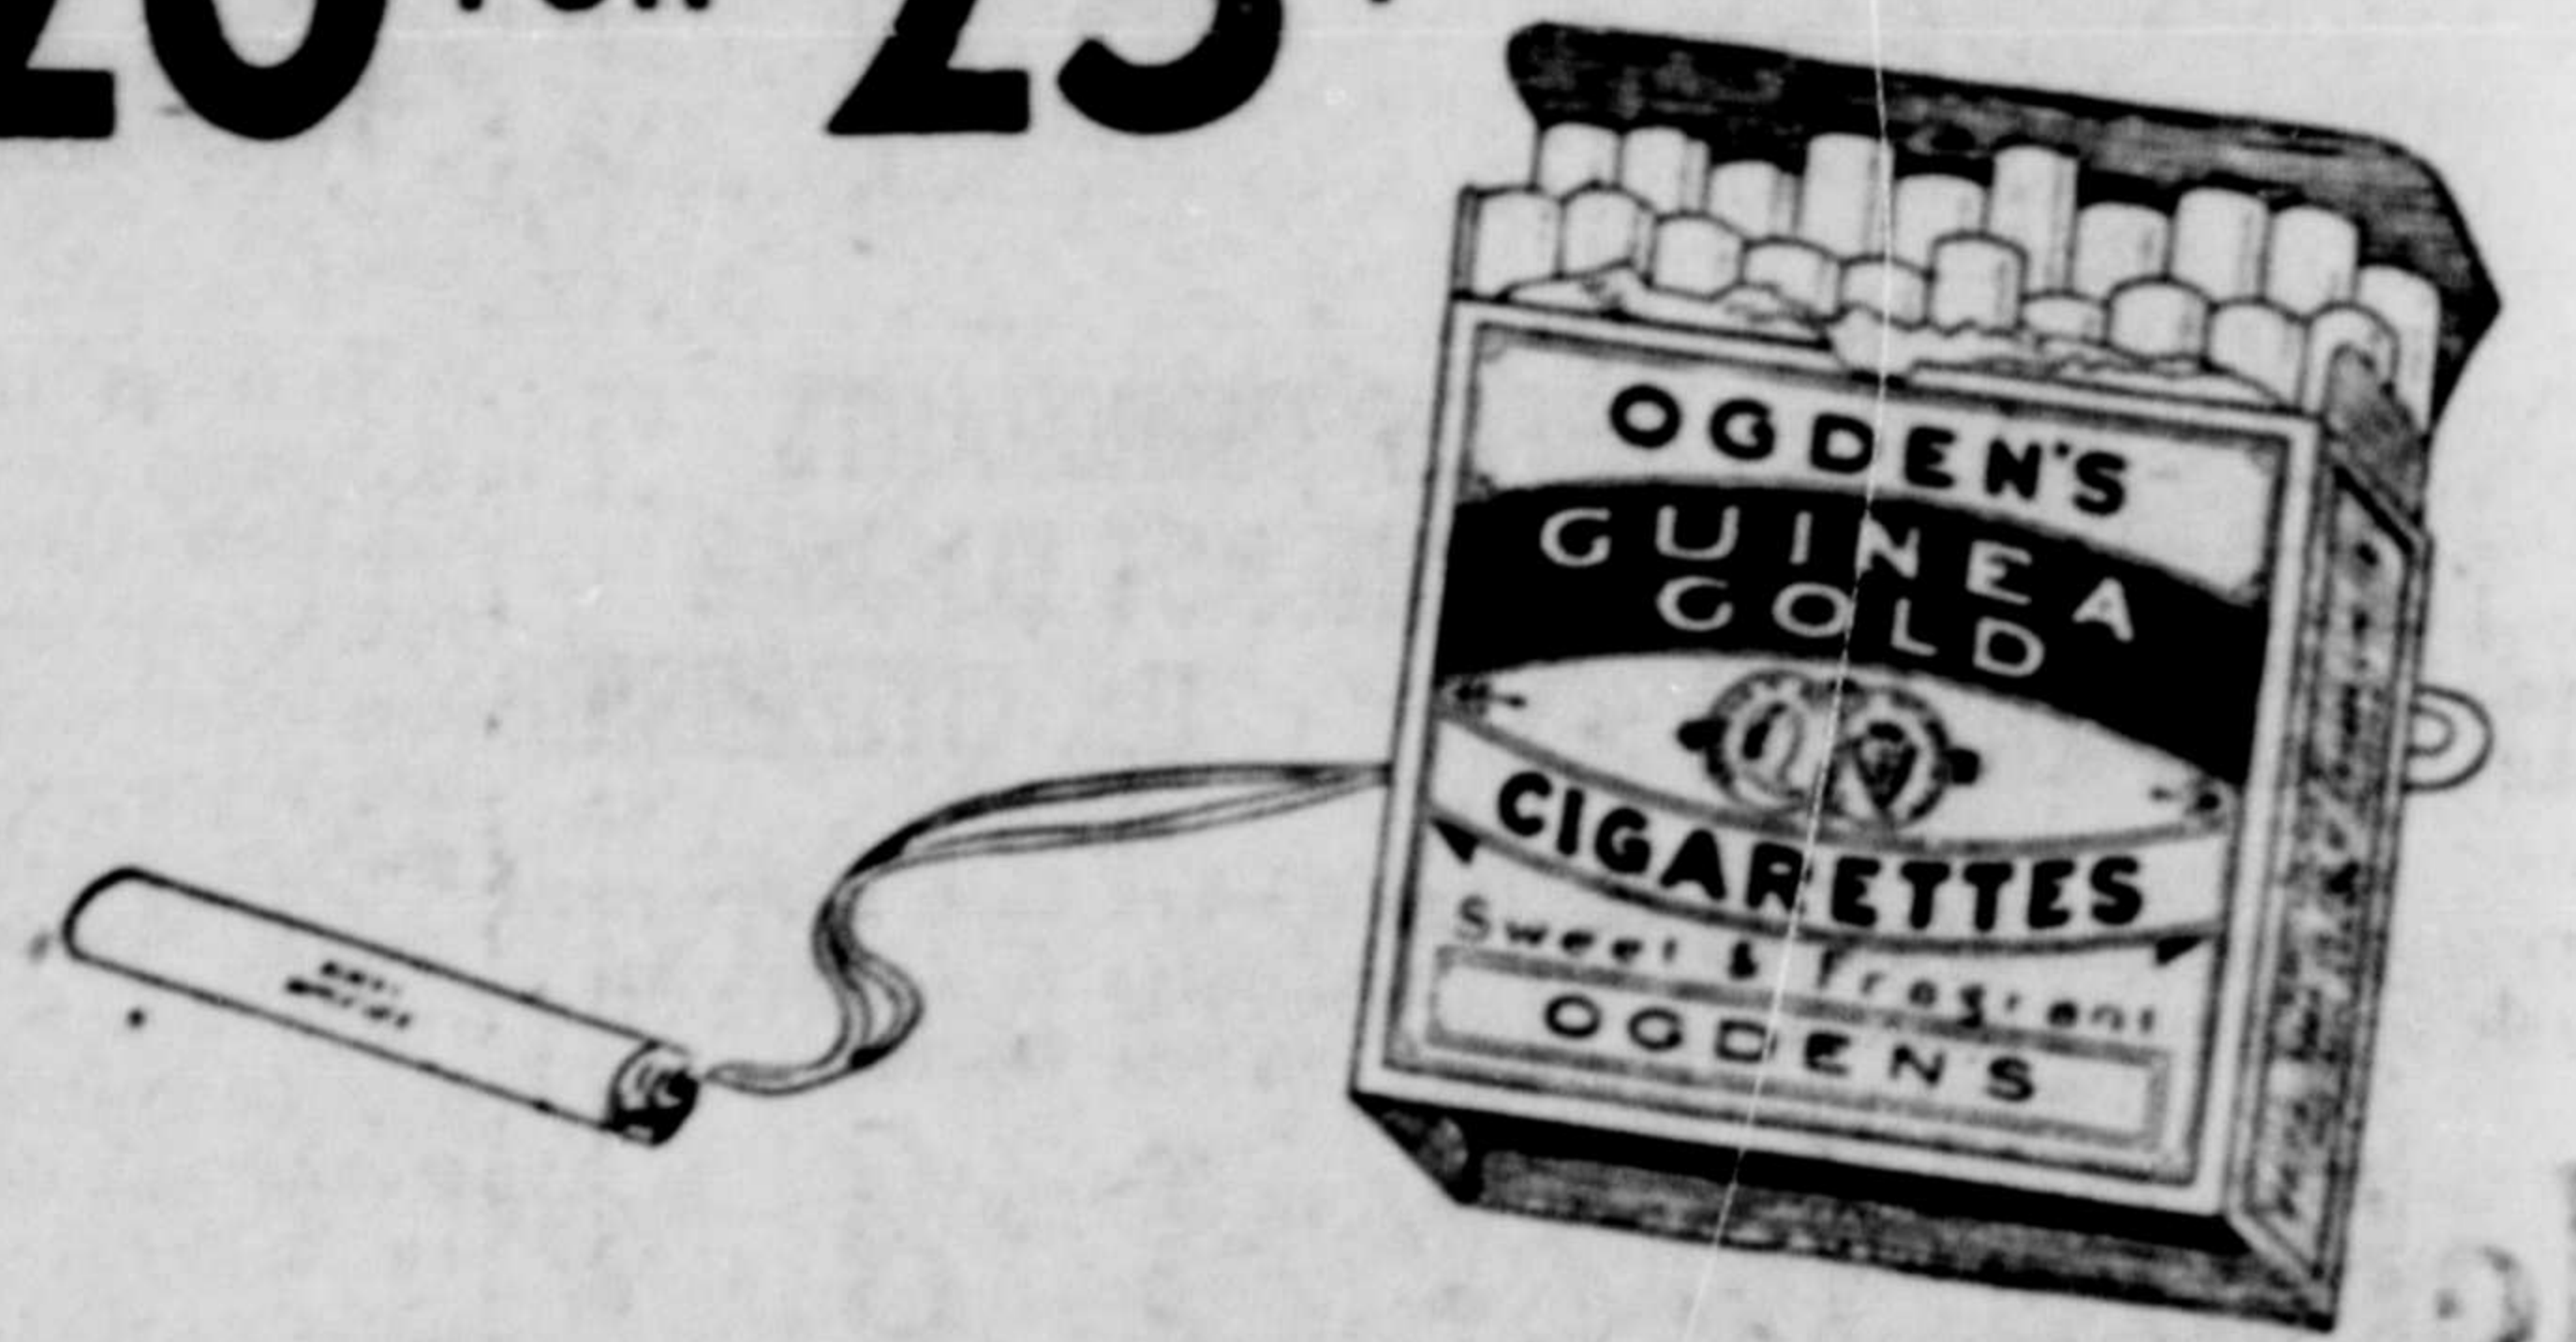

Mrs. C. Stone, Nanticoke, Ont., writes:—Some time ago I had a very serious attack of dyspepsia, and was also troubled with gas on my stomach. I could hardly eat anything, and very often had pains after meals. I had used different medicines, but they didn't seem to do me any good. At last I happened to run on the truck of Burdock Blood Bitters, and after using it for a short time I felt a lot better. I continued its use until I was completely relieved and now I am ready to recommend it to anyone troubled as I was.

## SPRING RACES AT NEWMARKET

Two Thousand and One Thousand Guineas Take Place Next Week

PRINCE RUPERT, May 3.—By Canadian Press.—The big spring handicaps which furnish the chief attraction in the first six weeks of the flat racing season have all been decided for this year and, with the spring meeting at Newmarket which opens on Tuesday next, racing takes on a more serious aspect for the owners of the three-year-olds and the two-year-olds.

Two of the four classics for three-year-olds which have had so great an effect on the English turf will be run at Turf headquarters next week, the Two Thousand Guineas for colts and fillies, foaled in 1925, being held on Wednesday, with the One Thousand Guineas for three-year-old fillies alone, on Friday. For the Two Thousand Guineas nominations for 1936 had been received when the entries closed on October 29, 1935, while the "ladies" classic had 282 entries. The names of the two classics to be run next week are not a true indication of their value to the owner of the winner. Originally two thousand guineas—about \$16,000—and one thousand guineas were the stakes of the races, but now, with the stakes of 100 sovereigns, the value of the Two Thousand is approximately \$16,000, while the One Thousand last year was worth \$8,100.

## AT 80 YEARS OF AGE WAS TROUBLED WITH SHORTNESS OF BREATH PALPITATION OF THE HEART AND FAINTING SPELLS

Mr. H. McManis, Vancouver, B.C., writes:—I have been troubled, most of my life, with shortness of breath, palpitation of the heart and fainting spells. I was advised by a friend to try Miller's Heart and Nerve Pills, which I did, and at once found relief, and I have never had a cough like that since.

I am 80 years of age and always keep them in the house, and when I feel any symptoms of an old trouble coming on all I have to do is take a few doses. With the help of your pills I expect to see many more years. I always recommend them to any one who is suffering from heart trouble.

Miller's Heart and Nerve Pills are the best at all doctors, or direct from the manufacturer, by the T. Miller Co., Limited, Toronto, Ont.

## SPORT CHAT

The Canadian Parliament, official organ of the I.C.R.A., advises provincial rifle associations to arrange the dates of their meetings so as not to conflict with the meeting of the I.C.R.A. at Ottawa, August 28 to 29. Free transportation of six competitors from each province will be given. Of these four must be two shots and the only other restrictions are that they must be members of either the permanent force of militia or the cadet corps and selected at the provincial meets.

This year's Biely team will consist of two officers and eighteen shooting members who will sail from Quebec on June 12.

The municipal golf course at Edmonton is proving to be a very profitable undertaking. Since the opening of the course less than a month ago, it has turned in a net profit of \$761 which is a gain of \$61 on the earnings up to the same date in 1935. Up to Sunday last thirty-six rounds, eighteen twenty-round and 528 day tickets had been sold. Six dozen golf balls were disposed of and forty-seven bunkers rented.

Teams in the opening game of the league football season on Monday evening between the Sons of England and Celtic will line up as follows:

- Sons of England—H. S. Burn, J. Murray, F. Hodgkinson, C. E. Dickson, H. M. D. Lambie, H. F. Thompson, A. R. Lane, G. Howe, George Hill, Jr., L. Patterson, F. C. Hayter, Perry Tucker, L. F. Parks, P. Cameron, G. Kelley and A. J. H. Woodson.
- Celtic—A. Murray; H. Hamilton and D. A. Jack; J. Sims, G. Cochrane and D. Main; W. Hamilton, W. Mitchell, O. K. Lord, S. Elder and J. Andrews. Reserves—J. Campbell, M. Andrews and A. Hunter.

Everything conspired to make the tennis club dance held last night one of the most pleasing events of the dancing season. The decorations were artistic and the music by the Eason band was unique, the orchestra was excellent and there was not a dull moment throughout. Supper was served early, members of the Tennis Club serving, the committee in charge being Miss Caroline Mitchell and H. A. D. Lambie, with Mrs. Carroll. Most of the 140 persons present stayed right to the end. Art Eason made an efficient M.C.

The decorations of the hall, which was in the hands of a committee consisting of Sidney Bazzett-Jones, Miss Pete Tremayne, Miss Grace Curtin, W. H. Hamilton and A. Carmichael and the president of the club, W. Cruikshank, was done in blue and white throughout. There were streamers of the club colors overhead and along the walls were nets and raquets with the initials P.R.T.C. in the centre. The orchestra played in a canopy of blue and white streamers, the members of the orchestra being A. A. Eason, Miss Pryce, Kenny Rood, Jack Barnsley, Sidney Bazzett-Jones, Alex. Mitchell, and George Rorie Jr. Miss St. Cyr took the piano for the extras.

The moonlight effect was secured by means of Japanese lanterns in the centre of the hall. The orchestra was so liberal with its encores that it was three o'clock when the home waltz was concluded.

## HARD FOUGHT GAME OF BASKETBALL AT ANYOX IN FINAL

ANYOX, May 3.—The most exciting and hard fought game of basketball ever staged in Anyox was the sports dish the fans enjoyed on Wednesday night in Anyox gymnasium, the Bluebirds and Pals of the Ladies' League, having battled to a tie in the league schedule, had to meet in a play-off, the best two out of three to decide who would be the owners of the sterling silver hon-bon dishes going with the championship. The first of these games was played on Thursday night last and resulted in a win for the Bluebirds. On Wednesday night the Pals turned the table, but it was only after a mighty effort, the game going ten minutes of overtime before a decision was reached, and then the final score was 19 to 18. This score represented the character of the game. At no time during the play was one team more than two points ahead of the other, and one team was as often in the lead as the other, except in the final few minutes when the Pals maintained the score one opening of the new racetrack at up. George Williscroft handled the whistle and favored neither side in the play. The teams lined up as follows: Pals, Mrs. Chap-

Doings of the Mosquito Fleet which is the chief source of Prince Rupert's prosperity

The deep sea banks were hit by a strong gale during last week ending to skippers of the big boats which came into port on Monday morning and fishing has given somewhat of a setback to the industry. The twenty boats arriving on Monday with 330,000 lbs. of halibut had made their previous to the storm coming up. Doubtless the gale has not done with the light boats during the week. On Monday the arrivals dropped 2,000 pounds when the price of Canadian fish jumped from 12c to 12.2c and Canadian fish 8.5c to 10.2c for first class while second class fared up a cent. On Wednesday and Thursday a total of 36,000 pounds of halibut was landed by Canadian schooners when class fish sold around 11c and second around 7c. Yesterday American and two Canadian schooners brought in 82,000 pounds of halibut and two trollers landed 1,100 lbs. of salmon and 200 pounds of fish.

**Fish Business**  
During the week 500,500 lbs. of halibut has been marketed on the Fish Exchange. Canadians were high at 11.9c and 7.5c and low at 8.5c and 5c. Americans were high at 12c and 6c and low at 8.8c and 5c. Arrivals were: Canadian—Reveille, Sherman, Serub, Kouyaku, Mayflower, Tootie, Joe Baker, M. & S. King, leader, Bingo, Pocoloco, Malamaie, Dolphin, Hauaco, Marguerite, Imperieuse, Annie May, Point May, Shizu, Volanteer, Ha, Salem and Skeena City. American—Mariner, Baltic, Middleton, Mildred H. Reliance, Wizard, Liberty, Seymour, Senator, Eidsvold, Kanatak, Alton, Valorous, Gladys, Polaris, Helgeland and Portlock.

**Fresh Herring Bait at Captain's Cove and Jap Inlet.**  
The power boat Wizwan arrived in port on Thursday with a seaw load of box lumber from the Georgetown mill for the Canadian Fish & Cold Storage Co.

**Pleasure Fleet Out**  
The bright sunshine on Sunday brought out a number of pleasure boat owners and the Rupert Yacht club wharf was a popular spot from an early hour until darkness. One of the best spots on the waterfront is the club gridiron and it is the usual seasonal rendezvous of launch owners to get ready for copper painting. The launch Harla, skipper-her owner George Bryant, was fishing partly out at sunset Sunday to Mile 24 to try luck. Several other launches, who had their boats in the water for trips to try out

run to Dundas Island. From Dundas the Overtime will go to Wark Canal.

Capt. Jimmy Thomas took the power boat Viner up to the Tucks Inlet cannery on Wednesday afternoon on business in connection with the fish packing in which he is engaged.

Steve King recently purchased the launch Augwan from Dave Bone. The launch is to be renamed The Faith.

George Davis is busy copper painting his speed boat Wild Swan and looking to the engine. It is understood George will shortly be leaving on a mineral prospecting trip.

**Matrimonial Intentions**  
Girls, if you want to get your feet wet in the matrimonial sea there is a male chance running around loose on the waterfront. The secret is out and the romance is on. Capt. Khort, of "Just II" fame, is on the war path seeking a bride. So determined is he to become mated that financial overtures were made to a certain nautical magnate recently, the skipper stating that he was about to be married. Upon being questioned as to who the damsel was Cap naively replied that he hadn't seen her yet but was keeping a sharp look out and when he did spot the object of his affections the compass needle would point south for a honeymoon journey, or to use his own words "I'll take a chance on a step in the dark." The secret service of the Mosquito fleet have ascertained that the future bridegroom is already lavishing his affections on a young lady in the city but at a distance. Upon the secret agents quizzing Cap they learned that the sweet young thing had rather expensive tastes. When a girl eats onions with herring and changes her lid twice a day, Cap thinks that probably his bank account wouldn't stand the strain through a prolonged life. However, he still has high hopes that—like the measles—these expensive tastes will leave her and when that day arrives the wild plunge will be taken. With the matrimonial

idea in his attic the power boat "Just II" is to be transformed forthwith into a coastal cruiser by the skipper on which the first great journey in the new life will be taken. A Roman style bathroom is to be installed in the pilot house and a boudoir is to replace the fish hold. A patent dishwasher will also be fitted for the convenience of the cook in the form of a rainwater barrel on deck in which the dishes will be placed and become automatically cleaned. There is absolutely no reason why skipper Khort should not, in the very near future, join the noble army of washing machine turners and curling iron engineers. Hurry up girls, hurry up.

The N.M. & R. Fish Co., and the Bradbury & Yell interests have ceased their herring seining activities and have stowed away all gear, etc. The power boats N.M. & R., and Bethune, which have been engaged in this work will engage in the fish packing business for the remainder of the season. An ample supply of herring bait has been put up in Captain's Cove and Jap Inlet sufficient to last the halibut fleet well into the fall.

**Treed by "Cougar"**  
One of the latest additions to the Ketchum Logging Co.'s staff of windfall buckers had an exciting experience out Tucks Inlet way early in the week. The bucker had been sent into the bush to buck some windfalls. After an absence of an hour or so the rest of the gang were surprised to see "his nibs" careering madly back towards the camp, with his axe behind his ear, and puffing like a fifty year old steam roller. Upon being asked what the trouble was he exclaimed in between his struggles for breath, "Had been working some when a weird noise I hear coming out of bush. On looking for sound I see a big cougar with his horns lowered coming at me and bellowing like a bull. Blinding him with a packet of Bull Durham I

# AMAZING RESULTS IN GOOD HEALTH FROM THE FRUIT TREATMENT

**Intensified Fruit Juices in the Form of "Fruit-a-tives" Promptly Relieves Many Diseases**

You have always known that Fruit is healthful. Doctors say "eat more fruit." Experts on food and diet urge the eating of fruit. But—fresh fruit is expensive—and there is only a very small quantity of the medicinal or healing principle in fruit.

Now, a 50c. box of "Fruit-a-tives" contains all the medicinal principle of dozens of oranges and apples and pounds of figs and prunes.

By the wonderful discovery of a well known physician, it is possible to obtain the medicinal properties of the fresh juices of apples, oranges, figs and prunes concentrated and intensified in a small tablet, with tonics added.

This is "Fruit-a-tives"—the Fruit Treatment—the quick, pleasant, inexpensive way to make you well and keep you well.

### Seems Almost a Miracle

Just read this letter from Mrs. Clara Sloat, Perth Junction, N.B.

"For many years I was a great sufferer from Indigestion, Constipation and Chronic Rheumatism. My stomach was weak and gave me constant distress, while the Rheumatism in my joints made me almost a cripple. Physicians and their medicines did me no good. Finally, I was induced to try "Fruit-a-tives" and at once this wonderful fruit medicine seemed to help me. Soon the Constipation and Indigestion were relieved and the Rheumatism began to go away and, in a few months, entirely disappeared."

Take "Fruit-a-tives" and get well. 25c and 50c a box, at all dealers or sent postpaid by Fruit-a-tives Limited, Ottawa, Ont.

### Well Known Resident of Portland, Maine

Mr. Otis M. Bryant, of 49 Anderson Street, is most enthusiastic about this famous fruit medicine. He writes "I was troubled with Constipation ever since I can remember; as a result, I have suffered from distressing headaches and pain in my left side. I tried many and various remedies for the Headaches and Constipation, without receiving relief. About four months ago, I began the use of "Fruit-a-tives." Since then, I have been free of Headaches, bowels regular, no pain in my side. After the use of several boxes of "Fruit-a-tives," I feel justified in pronouncing them a remedy of true and exceptional merit."

### Thanks To "Fruit-a-tives," Am Once More Well

Mrs. Honore Valiquette, 1133 Notre Dame St. West, Montreal, is deeply grateful to this famous fruit medicine. She says, "I wish I could tell every sufferer in the world what "Fruit-a-tives" have done for me. For three years, I was much troubled by Bad Headaches, Nervous Dyspepsia and Liver Trouble. Then I commenced taking "Fruit-a-tives." Very soon my condition improved, and now, thanks to these wonderful tablets, I am once more entirely well."

just had time to scramble up a tree. The cougar sniffed and snorted around the tree for a while. At last he stood with head up and seeing my chance I slid down his horns on the ground and made for camp." Of course the boys knew that only the wildest of wild cougars have horns such a wonderful specimen they buckled on their armor and were just about to go forth to the hunt when the dinner gong sounded and they went in to eat instead. Latest reports from the camp state that to date the horned cougar has not been sighted but all men are armed and on the lookout. Meantime the wood bucker in question is being escorted to and from the scene of his wood bucking exploits by an armed mob.

### Bryant's Boat

One of the latest inventions of interest to nauticals, and one in which there should be big money if properly exploited under efficient management, has been devised by skipper George Bryant of the coastal cruiser Harla. The contrivance is fixed to the bow of the tender boat, usually attached by a painter to the launch, and prevents the boat from bumping against and marking the motor boat in any way. It also acts as a sort of shock absorber when landing at a wharf. The contrivance which George is using is a masterpiece of inventive ingenuity and consists of an old rubber boot stretched over the bow with the sole and heel turned "eyes front." If rowing the boat at full speed and encountering an obstruction—other than a rock—the rubber boot engages the enemy first and causes it to gently bump backwards like a new football. It is quite feasible to use the same idea on the keel of a launch. If the launch struck a rock, when equipped with a string of these rubber heels, it

## Why You Need a Tonic In the Springtime

NO SEASON of the year is welcomed like the Spring.

The Winter is always too long. The warm weather is always too slow in coming.

Gradually the heat of the sun increases, the buds swell and burst and all Nature is aroused to new life and vigor.

But we do not often feel our best in the Spring. It is in fact the season of greatest mortality.

The accumulation of poisons in the system as the result of sedentary, indoor life and artificial foods of winter; the undermining effects of winter colds; the strain of sudden changing temperature; all these effect a climax in the Spring.

Hence the tired feelings, the brain fag, the lack of energy and the nervous troubles which weigh us down at the very season of

the year when all Nature out of doors is arousing to new life.

In the spring as at no other time does the human system require assistance. Then it is that Dr. Chase's Nerve Food proves a friend indeed.

The blood has become thin and watery. The nerves are starved. The whole vital machinery of the body has become slowed down.

But a few weeks use of Dr. Chase's Nerve Food will work wonders. Not in any miraculous way. But simply and naturally by supplying to the human system the elements from which rich, red, life-giving blood is created.

Many thousands have found out how to avoid the fatigue and discomfort of Spring by using Dr. Chase's Nerve Food. 60 pills 60 cents at all dealers or Edmansson, Bates & Co., Ltd., Toronto.

**Sets New Fashion**  
It has taken skipper Frank Dobb to set a new fashion in boat decoration. Frank is painting the hull of the million dollar looking craft Wylo with a coat of green copper paint instead of the regulation copper colored paint. It is said that the green paint is a big improvement over the other kind in that it misleads the barnacles and other marine debris. It is so much like the salt chuck in color that the barnacles and other miscellaneous junk pass up the Wylo and cling to other unsuspecting craft hulls. While it is a brainy idea of Frank's it does not speak very well for his careful thought of the other fellow's hull troubles.

The launch Starlight, owned and skippered by J. A. Hinton, has recently been fitted with one of the latest Ford 12-14 horse power marine engines and has been out on several trial runs. The boat is deriving a higher rate of speed.

W. G. Walford has nearly completed the building of the new launch for Bill Smith on the provincial dock. Finishing work is now being done on the cabin and the boat will be ready for launching within the next few days.

## COLLECTS 600 SKINS OF FLEAS

Charles Rothschild Had Curious Hobby: Spreaders of Disease Taken

LONDON, May 3.—A little explored field of research in natural history lost a zealous indefatigable pioneer by the death recently of Hon. X. Charles Rothschild, who was a noted authority on fleas and left a large collection of these insects to the British museum.

Fleas have to some minds a suggestion of the delicate, and arouse in others a sense of misplaced humor or idle levity, says a correspondent of the Times, but in reality, like all parasites, they are of great pathological importance. The practical value of the Rothschild flea collection was revealed when the connection was established between the rat flea and the bubonic plague, the dreaded scourge which devastated whole districts, including our own city of London, in the middle ages, and even in recent times has taken its toll. Moreover, the existence of this comprehensive collection enabled a rather puzzling discrepancy to be cleared up in India, where in spite of the general prevalence of rats, incontestably proved to be spreaders of the disease, the plague was epidemic only in patches. The explanation, as often happens, turned out to be simple; there are three rat fleas, but only one of them carries the plague germ.

### Microscope Started Him

Mr. Rothschild, like Lord Rothschild, his brother, showed a love for natural history from childhood. He was still a school boy when he acquired some microscope slides, which drew his attention to the exceedingly interesting structure of fleas. Usually included in the same order as the flies these insects are marvelously specialized for their parasitic life; the entire abdomen of the wings, the smooth body segments, the adaptation of the legs for hopping, all make for easy and rapid movement among the fur or feathers of the host, and the sucking mouth parts are even more remarkable. His scientific curiosity thoroughly

aroused, Mr. Rothschild tried to identify the few species he possessed, only to find that practically no research on this group of insects had taken place in Great Britain since the days of Curtis and Westwood, early in the 19th century.

When at Cambridge he became more closely acquainted with the methods, aims and results of comparative zoology, and seeing the excellent field offered by these parasites for research in pure science determined to leave it no longer neglected. While still an undergraduate he interested etomologists and others in the subject, and collected assiduously himself during vacation. He soon brought together a considerable amount of British material.

### Also Made Slides

The collection contains about 600 species. Only a few months before his death Mr. Rothschild entered into correspondence with Russian men of science and collectors with a view to obtaining some of the species still lacking. He was anxious to form as complete a collection as possible, because he had planned a catalogue of it in which every species would be illustrated and described. The collection contains approximately 3550 microscopic slides, besides 40,000 specimens preserved in alcohol and 20,000 duplicates of common species.

Articles of wearing apparel carry disease, and should be disinfected if once returned on approval or exchange. Once and for all we refuse to sell our goods at the expense of Public Health Safety. We provide fitting rooms in our store, and every convenience to eliminate the return of goods from homes which may have had scarlet fever, diphtheria, measles or smallpox. This is the protection you receive by dealing at home. It is now admitted that the mail order houses by their liberal return privileges during the flu epidemic of 1918 did more to spread death throughout the country than any other agency. Every spring this spreading of disease via returned germ laden wearing apparel continues. Can you afford to invite disease into your home?

## IMMENSE MAJORITY PREMIER MUSSOLINI

English newspapers give details of the election returns in connection with the recent return of Premier Mussolini, the Fascist leader. The vote was as follows:  
 Government Party . . . . . 375  
 Popular Party . . . . . 40  
 Liberal Democrats . . . . . 17  
 Constitutional Opposition . . . . . 12  
 Social Democrats . . . . . 11  
 Republicans . . . . . 7  
 Ethical Minorities . . . . . 4  
 Peasants' Party . . . . . 3  
 Sardisti . . . . . 2  
 Democratic Socialists . . . . . 25  
 Maximalist Socialists . . . . . 22  
 Communists . . . . . 17  
 The Popular Party have lost 66 seats, the Democratic Socialists 57 seats, and the Maximalists 18 seats. The Communists, on the other hand, have gained four seats and the Republicans one. The Slavs have lost two seats and the Germans two seats.

The Fascist majority was gained partly by the change in the electoral system and partly by Mussolini's popularity both in his conduct of home affairs and in foreign policy.
