UNITED STATES FLYERS ARRIVE AT SITKA

FINANCE MINISTER ANNOUNCES PLANS FOR DOMINION FINANCES THIS YEAR

Reduction in National Debt and Reduction in Taxation is Provided for in Budget

OTTAWA, April 10.—A reduction in taxation of \$24,000,000 is estimated by Hon. J. A. Robb, acting minister of finance, in his budget speech delivered in the House of Commons late today.

"Our budget," said Mr. Robb, "shows a reduction in the debt of \$30,000,000 from last year and a reduction in taxation of \$24,000,000 this year. We confidently expect that the reductions will give much impetus to trade and that it will result in greater development and prosperity of all the provinces of Canada."

Manufacturers of agricultural implements are to have "free entry" on pig iron, bar iron and bar steel when used in the manufacture of binders and reapers in lieu of a drawback of 99 per cent.

A summary of the taxation proposals for the fiscal year now beginning follows:

Sales tax reduced from 6 to 5 per cent on a large list of agricultural and dairy implements also on mining, quarrying, lumbering and logging machinery, provisions and breadstuffs.

Sales tax reduced fifty per cent on boots and shoes, biscuits, canned vegetables, canned fruits, jams and preserves.

Customs tariff reductions on agricultural and dairy implements, mining, quarrying, lumbering and logging machinery.

All fertilizers on free list.

Materials entering into the cost of aforesaid items and other implements on which the duty is reduced to be entitled to entry at seven and a half per cent under all tariffs.

All mail for fisheries to be made free of customs duties, sales tax on rubber boots is reduced from 6 to 4 1/2 per cent.

Sales tax removed from cereal foods, macaroni, vermicelli, sago, rice, meals, salted or smoked.

Sales tax reduced from 6 to 2 1/2 per cent on biscuits, canned vegetables, canned fruits, jams, preserves.

Sales tax on boots and shoes including rubber footwear reduced from 6 to 2 1/2 per cent.

Sales tax removed from milk foods.

Materials entering into the manufacture of woollens to be exempt from sales tax.

Income Tax Same

There will be no change in income tax for fiscal year 1924-25. Certain changes will be made in the incidence of the Sales Tax. Well drilling machinery and apparatus will be exempted, while crutches will be free of both sales tax and customs. The value for free entry for purchases of traction ditching machines has been increased from \$3,000 to \$3,500.

For the better protection of revenue, sections of the Sales Tax referring to manufacturers doing business under \$10,000 a year will be repealed. The list of exemptions from Sales Tax will be enlarged in connection with the discount on importations under the British Preferential Tariff passed last session. It is proposed that in computing the ad valorem rate of duty on tea purchased in the United Kingdom in bond, the value for duty shall not include the amount of customs duty payable on tea for consumption in the United Kingdom.

NEW GERMAN BANK

BERLIN, April 10.—A new gold discount bank has been established here and will begin operations at an early date.

BRINGING DOWN BUDGET TODAY

Optimistic Outlook Indicated by Acting Minister of Finance J. A. Robb

OTTAWA, April 10.—A more optimistic financial position than has been possible since the outbreak of the war will be shown today when Hon. J. A. Robb, acting minister of finance introduces his budget to the House of Commons.

The general expectation is that there will be cuts in the sales tax and possibly a lightening of the income tax.

TWO HANGED LONDON TODAY

Third Man Condemned to Life Imprisonment Was Accessory to Murder

LONDON, April 10.—Sidney Murrell, 26 years of age, the Melbourne bank bandit and slayer of Russell Campbell, garage man of that village, and Clarence Topping, 23 years of age, formerly of Stratford, who shot to death Geraldine Durston, 18, his sweetheart here last November, were both hanged this morning.

Harry Williams who was also condemned to death as accessory to the Melbourne crime has his sentence commuted to life imprisonment.

DAWSON SAYS MAY BE DAYS BEFORE CONTRACT IS LET

A telegram received from F. G. Dawson at Montreal states that the steamer tenders were opened on April 8 but on account of the numerous plans and specifications and prices submitted it will take some time to figure them out and it may be several days before the contract is let.

BUILD SMELTER PRINCE RUPERT

Stewart Editor Urges That This is the Most Suitable Point to Locate it

Unless Granby puts in a lead stack in order to care for the ores offering in this district there should be a smelter built at Prince Rupert, according to H. W. Rolston, editor of the Portland Canal News of Stewart.

Mr. Rolston passed through the city northbound last night after a holiday in Vancouver and Victoria and he noticed that the Vancouver Sun was advocating the erection of a smelter near Vancouver. He was quite outspoken in opposition to any such move, stating that it was not the suitable place for it. Already there were two on Vancouver Island, one each at Ladysmith and Crofton and neither of them were used. The Tacoma smelter was near enough to care for all ores offering in the district. Here, however, things were different and Mr. Rolston urged that Prince Rupert was the logical point where the ores from the interior and those from the coast points could be assembled. Somewhere between here and the Skeena River was, he thought, the most suitable location.

Mr. Rolston is naturally interested in mining, and he says they expect a very busy summer in Stewart. Portland canal properties are developing well and the Dunwell he thinks will be shipping this fall.

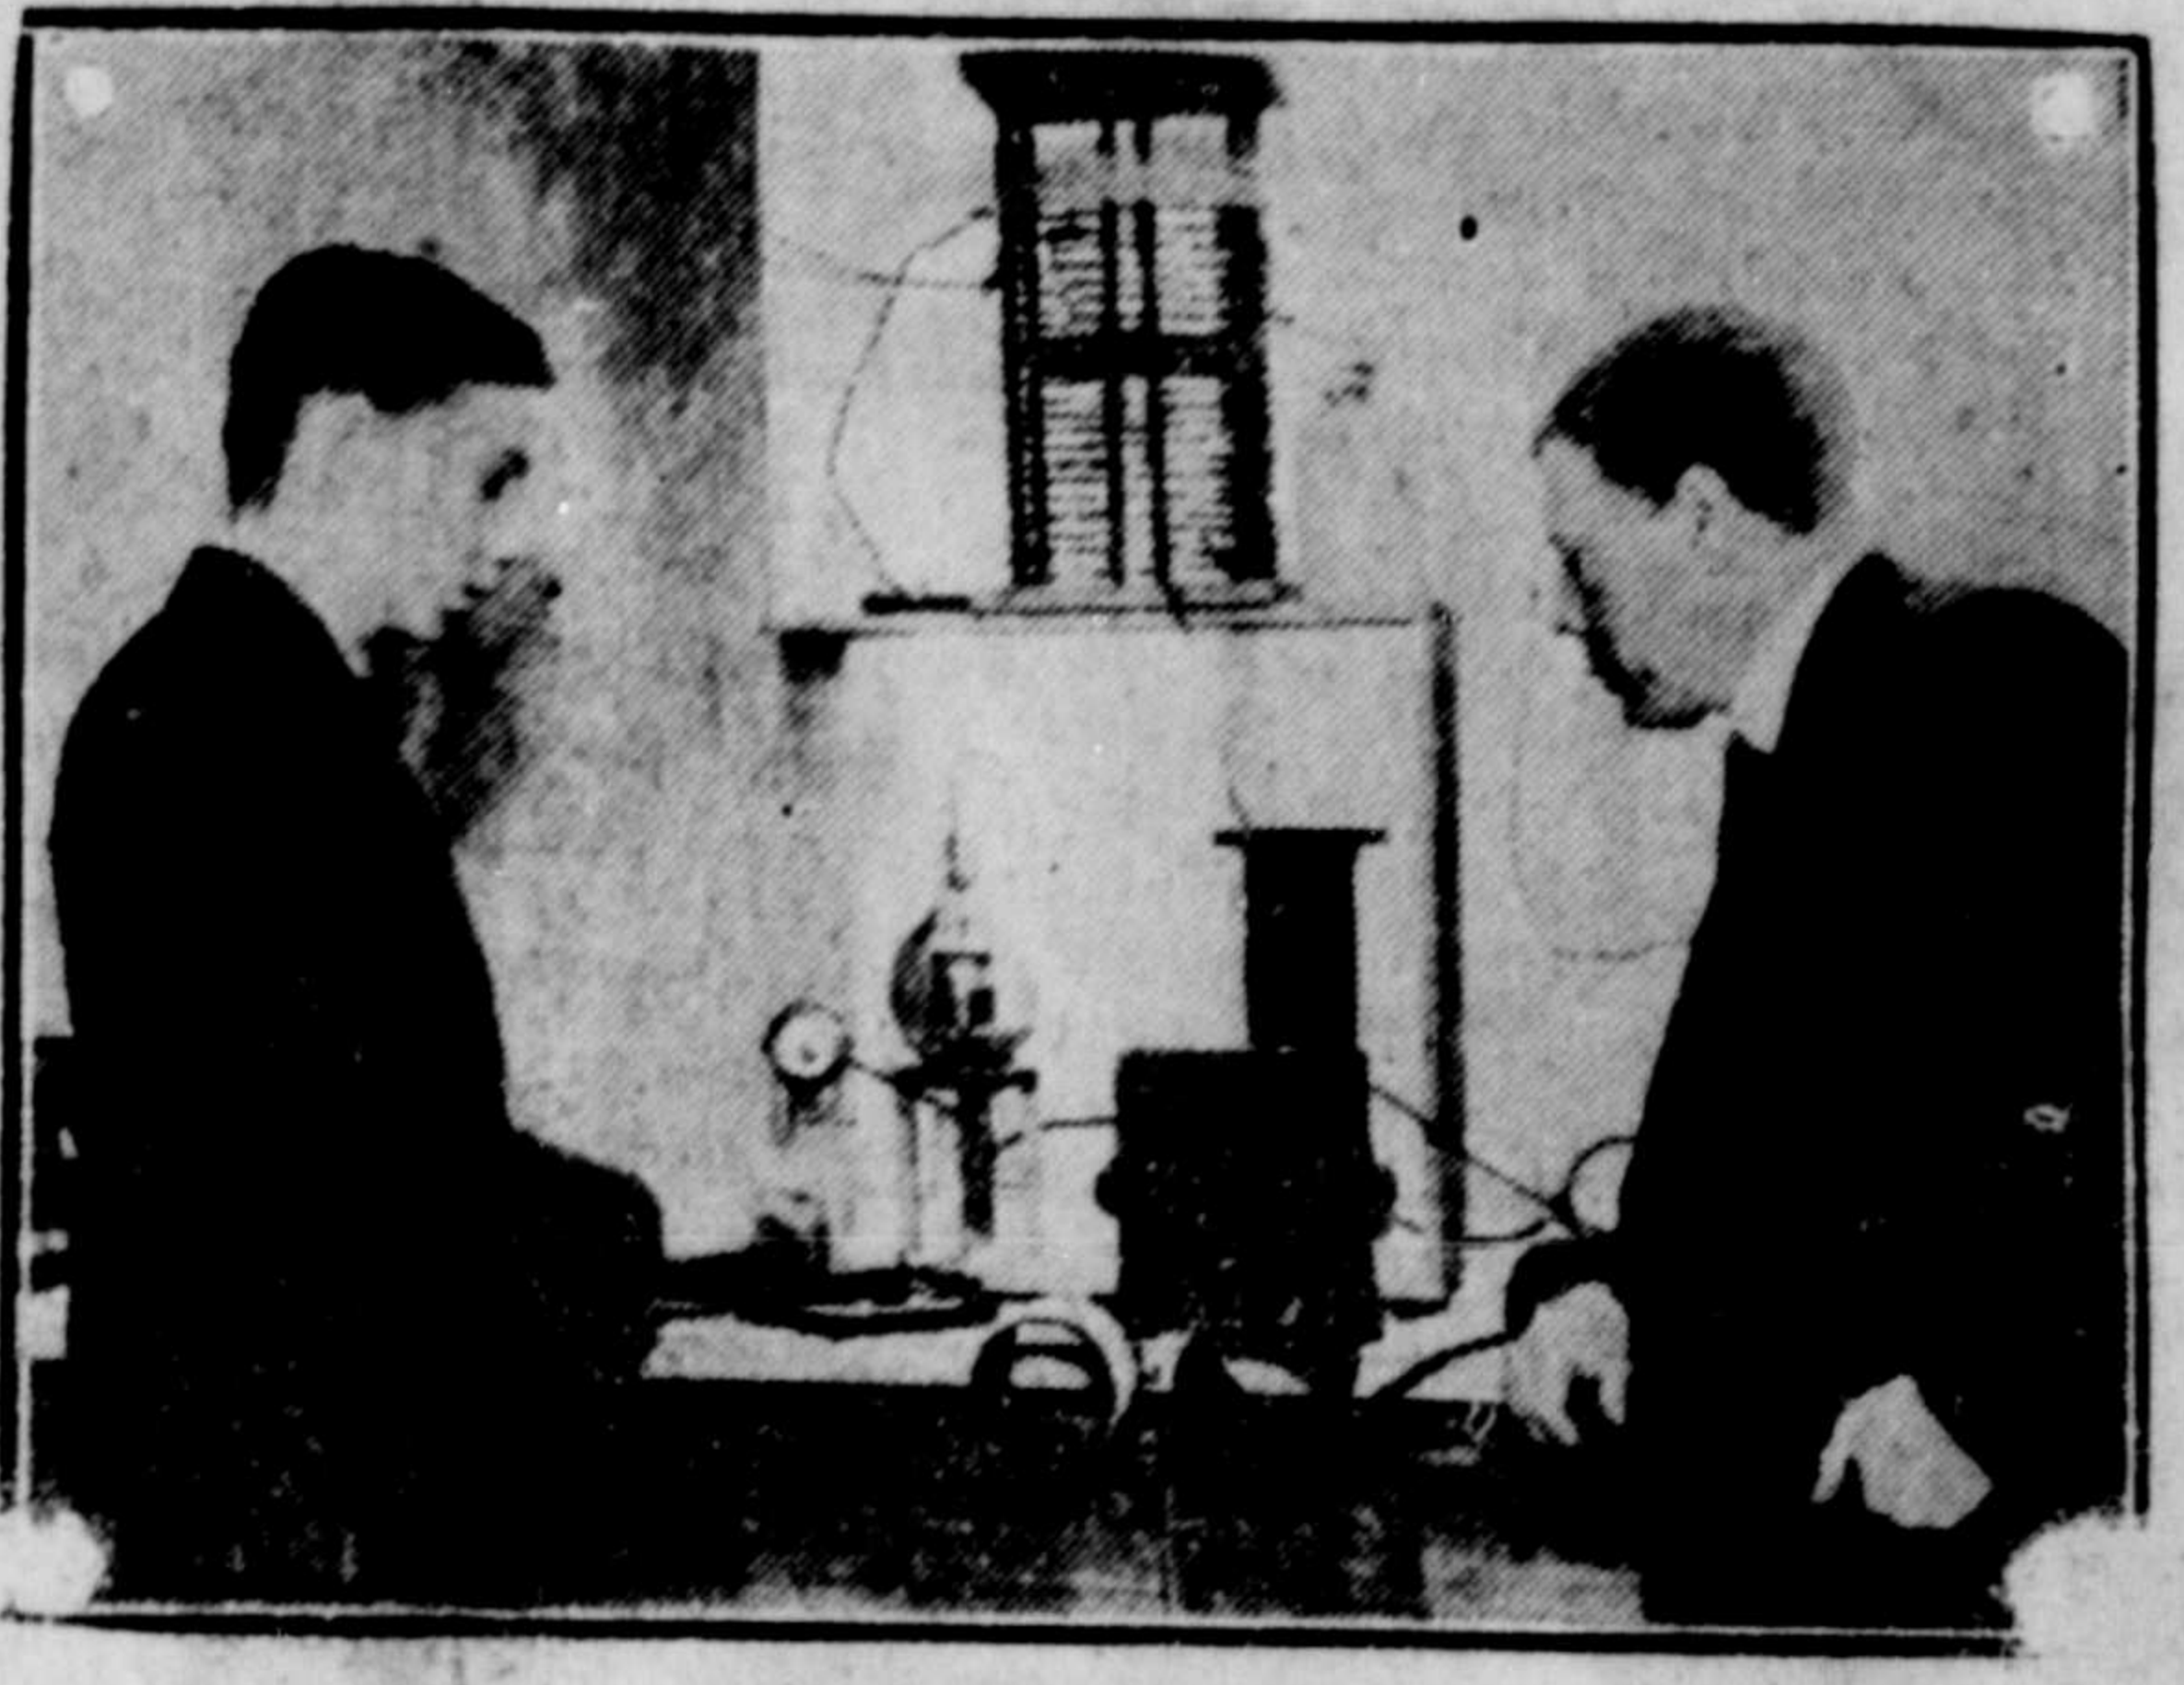

URGE OTTAWA TAKE ACTION

Oliver to go to Federal Capital in Interests of this Province

ELECTION AND PLEBISCITE

VICTORIA, April 10.—Premier Oliver may go to Ottawa this week in order to press for action by the Federal Government on British Columbia problems.

The decision to hold the beer plebiscite and the general election on the same date as announced yesterday has been decided upon in order to save the extra expense of two polls. No definite date is yet set but it is understood it will probably be in June or July.

France Thinks the Reparations Report Justifies Their Action and Belgium is Much Pleased

PARIS, April 10.—The Temps says: "The primordial truth that stands out from the experts report is that Germany can pay." This is the dominant note of French comment on the report of the reparations commission, which was handed out yesterday.

Newspapers of different shades of opinion agree that the committee found in Germany a situation which justifies the French attitude regarding reparations. The newspapers praise the impartiality of the experts but there appears scepticism of the successful working of the machinery proposed and doubt of the acceptance of the scheme in good faith by Germany.

The report does not deal with the amount of the total reparations Germany is to pay. This was expressly left out of the consideration of the committee.

BRUSSELS, April 10.—Considerable satisfaction is felt in Belgian government circles that the experts had agreed upon the one thing that Germany must pay reparations and strong hopes were expressed that a practical solution of the tangle would result.

SUDDEN DEATH LOCAL AGENT

Thomas Webster Herne Passed Away Suddenly Early Hour Today

The death occurred very suddenly at 5 o'clock this morning from hemorrhage of the brain of Thomas Webster Herne, government agent at Prince Rupert. Deceased was apparently enjoying the best of health up to the time he retired last night and his demise came as a terrible blow to his widow and a distinct shock to the many friends Mr. Herne had made officially and privately since coming to the city less than a year ago from Prince George to take up the post of government agent here. This morning all flags in the city raised at half-mast as a mark of respect.

Born in Scotland

The late Mr. Herne was born in Scotland on August 6, 1874, the son of Lieut.-Col. George Edward Herne and Mrs. Herne. He attended college in England and was a crack oarsman. He came to Canada twenty-three years ago and entered the B.C. provincial civil service in 1907 as a clerk in the Nelson agency. Two years later he was appointed assessor at Hazelton and in 1911 he was promoted to be government agent at Fort Fraser on the opening of offices there. He moved to Fort George during the summer of 1912 and, for eleven years, he administered the numerous duties attached to that extensive agency. Last year he was appointed government agent at Prince Rupert to succeed J. H. McMullin, now superintendent of provincial police.

A funeral service will be held at St. Andrew's Anglican Church, Archdeacon G. A. Rix officiating, tomorrow afternoon and the remains will be forwarded on the Princess Mary for interment in Victoria.

FLYERS ARRIVED SAFELY AT SITKA

The four United States round-the-world air cruisers reached Sitka safely at 12:34. Sitka time, or 1:44 Prince Rupert time, this afternoon. Taking 9:22 as the time of departure from here, the 297 mile flight was made in four hours and 22 minutes. A big reception has been planned for the aviators at Sitka. Information of their arrival at the first Alaska stop was received here by wireless.

MINISTERS TO RUN IN OLD CONSTITUENCIES

VICTORIA, April 10.—Opposition followers, Conservatives and Provincial alike, are busy making the government's plans for the coming election. They have this minister running in a certain constituency and that minister running in another. However, the truth of the matter is that every member of the Oliver cabinet intends to seek re-election at the hands of his old supporters. All will run in the constituencies they now represent. Thus, once again is the lie given to incorrect reports that mean nothing but an attempt to mislead.

Air Cruisers Take off from Prince Rupert on Next Hop World Flight

Almost simultaneously at 9:30 this morning, the four United States round-the-world air cruisers took off on their flight from Prince Rupert harbor to Sitka—the next lap of their globe encircling cruise. On departing, Major Martin expected that they would reach Sitka in four hours. The distance from here to there, according to the fliers' charts, is 297 miles. Tomorrow, it is hoped, the flight from Sitka to Cordova, a distance of 540 miles, may be accomplished.

Weather conditions here were anything but promising and the take-off was made with a heavy rain prevailing though it was calm. Reports from Sitka, however, were more favorable and it was on the strength of these that it was decided to fly today.

At 9:45 the machines were reported heard but not seen over Port Simpson.

Major Martin and his officers rose early this morning at 5 o'clock in readiness to make an early start but, on account of the unfavorable weather outlook, decided to wait for a while. About 7:15 they left the Prince Rupert Hotel for Seal Cove and put the final touches to their machines.

At 8:30 Lieut. Nelson taxied his machine from the mooring place to the middle of the harbor. Lieut. Wade, Lieut. Smith and Major Martin followed in order at intervals of several minutes. Lieut. Smith was the first to take the air at 9:20. Lieut. Nelson and Major Martin rose at 9:25 and Lieut. Wade was off at 9:27. After circling overhead a few minutes and gaining altitude the course of all four was set over Metlakalla and beyond with Lieut. Smith in the lead.

United States Consul A. E. Wakefield and Vice-Consul Fred Weaver were at Seal Cove at an early hour and bid the fliers farewell before they taxied off.

The moving picture men were out and recorded all the proceedings attending the taking off.

WILL GERMANY ACCEPT PLAN?

General Opinion in Britain That She Will; France's Position

LONDON, April 10.—That the plan of the committee of experts should prove unacceptable to Germany is unbelievable to British officials. They qualify this by saying one never can tell whether Germany would display commonsense or stupidity at the critical moment in her dealings with the powers. The hypothesis of experts that fiscal and economic unity of Germany must be restored to the Germans, is welcome here. While the signatures of the French experts, which, it is assumed, are appended to the findings, are taken as an indication of a French change of heart regarding the whole scheme of reparations settlement.

EVICIONS BILL IS INTRODUCED

Provides for Payment of Tenant's Rent by Local Authorities

LONDON, April 10.—The new Evictions Bill was given its first reading in the House of Commons Wednesday. It prohibits the eviction of a tenant that is unable to pay his rent because of financial distress and provides for reimbursement of the landlord by the local authorities paying such rent.

A tenant unable to pay rent is to be provided with a certificate of immunity from eviction. Local authorities must investigate and, if necessary supplement the tenant's resources sufficiently to enable him to retain his home.

GERMANS NOT AGAINST PLAN

Only Few Newspapers Oppose Recommendations of Reparations Experts

BERLIN, April 10.—Editorial comment in the papers today inclines to the opinion that the report on reparations issued yesterday by experts constitutes a basis for negotiations. Only in isolated instances of nationalist organs is opposition to the recommendations voiced.

PROPOSE STARTING SUMMER RESORT ON NORTH VANDERHOOF

Enroute to Stuart Lake where they are planning to establish a summer resort and an automobile stage service to connect with the Canadian National Railways, Mr. and Mrs. Paul Walter of Gisko, Oregon, are in the city today. They arrived from the south on the Prince George yesterday afternoon and will proceed east tonight. They were met here by R. C. W. Lett, C.N.R. colonization and development agent.

Mr. and Mrs. Walter have not yet selected a site for their venture but they propose locating about 40 miles north of the railway. The district, it is said, is most picturesque and offers all manner of outdoor diversion.

One Voting Day
 is Good Move.

The decision of the B.C. cabinet to hold the elections and
 the beer plebiscite on the same day is one to be strongly com-
 mended. It would have been useless to have held two polls
 when one would serve the purpose. In addition to that the vote
 will be larger and it can be expected that great interest will be
 taken in the polling on that day.

The Daily News made its position quite clear in regard to
 the matter and we are glad to give the government credit for
 seeing the point.

Planes Have Gone
 And Left Clean Memory.

The planes have been here and gone and the visit of the
 Americans has left a clean and pleasant memory. They were
 men who seemed to be intent on their job and they refused to
 succumb to any distractions. Conditions were not very good for
 their arrival and their departure was not under glowing circum-
 stances, but they went with nothing but the best wishes from
 everyone. The long flight will be followed with much interest
 by residents here.

Making Ready For
 Provincial Elections.

If the elections are to be held about midsummer, doubtless
 there will be considerable activity among the various parties.
 For this district it is to be assumed that Hon. T. D. Pattullo will
 be renominated but there is so far no opposition in sight. The
 Conservatives will undoubtedly have a man in the field but there
 seems to be no outstanding person in sight. The names of sev-
 eral local businessmen have been mentioned and of course
 Mayor Newton is a possibility.

Reparations Plan
 Should Succeed.

The reparations plan as recommended by the committee of
 experts seems like one that might succeed. It goes further than
 many expected and clearly indicates, as the French newspapers
 say, that Germany is able to pay.

That the scheme of depreciating the currency was a deep
 laid plan seems clear from information which is gradually com-
 ing to hand. One man who was among the first to enter Ger-
 many after the war states that he was told semi-officially at that
 time that the currency would be depreciated.

Newspaper Reporting
 Very Accurate Here.

Major Martin and Lieut. Lowell Smith of the United
 States round-the-world flying party stated to a Daily News re-
 presentative before leaving that they were particularly struck
 with the accuracy of the reports published and sent out from
 here. This was one of the pleasing features of their visit.

**Our Tourist
 Trade**

Written for the Daily News by
 Margaret Palmer
 in Pattullo Competition

If Prince Rupert is to have a
 future as brilliant as her pros-
 pects indicate, then she demands
 capital. This capital is to be
 found in her tourist trade, could
 we but realize this fact. Should
 we not then, avail ourselves of
 opportunity, and encourage so
 valuable an asset?

It is through tourist traffic
 that people of other cities are to
 become acquainted with Rupert's
 natural wealth. Therefore it is
 through this traffic that the in-
 vestment of newcomers will bring
 development to our city. Van-
 couver and Victoria have adopted
 this policy of arresting the in-
 terest of tourists and we have
 seen how successful have been
 their efforts to encourage visi-
 tors.

Should Entertain Them
 Tourist trade is the surest me-
 dium through which outside in-
 terest is to be stimulated, and
 this interest has proven absolute-
 ly essential to the progress of
 any city. When visitors pass
 through Prince Rupert we have
 no means of pleasure to offer
 them, and practically no available
 conveyance to places of interest.
 Consequently hundreds pass
 through here without imbibing
 any knowledge of our natural as-
 sets and our places of interest.

Then it behooves our citizens
 to employ some magnetic force
 which shall attract the interest
 of tourists, and encourage their
 investments. The cost of a tennis
 court, or other such facilities to
 provide pleasure to tourists,
 would be trivial in comparison to
 the gain we would receive, could
 we but arouse the interest of vis-
 itors. If our southern neighbors
 have found this such a beneficial
 policy, then we should find it
 doubly so. We do not realize
 what a wonderful asset the Salt
 Lake would be to our city, were
 we to turn a little attention to
 its improvement and swimming
 equipment.

Golf Links
 Now that a survey has begun on
 our out of town road we may
 consider the prospect of golf
 links in the near future which
 might be placed at the disposal
 of tourists. Such movements as
 these could not fail to draw the
 attention of tourists and hence
 their capital.

Let it not rest, then, solely on
 a few energetic citizens or our
 city council to make such im-
 provements, to attract tourists.
 Every citizen and organization
 should rally now towards in-
 creasing this trade, which will
 procure the financial means that
 our city demands.

[Miss Margaret Palmer writes
 a very interesting article, but it
 is not perhaps just as practical
 as it might be. Many of the sug-
 gestions are excellent. The style
 is a little stilted as if she were
 trying to write like someone else
 instead of using her own words
 and her own ideas, based on ex-
 perience or study.—Editor.]

**BATHING PARTY LIKE
 THAT OF MOTHER EVE**

Scenes in Flaming Youth Here at
 Week End Are Exotic and
 Sensational

A bathing party—a la silhou-
 ette. Such a party is one of the
 high-lights of "Flaming Youth," a
 First National screen version of
 Warner Fabian's sensational
 novel of the same title, which
 comes here this week.

"Flaming Youth," a daringly
 dramatic story of contemporary
 society life, tells the story of the
 lives and loves of a modern
 mother and her three ultra-mod-
 ern daughters, members of a
 household famous for its exotic
 merrymaking.

At the biggest party of the year
 interest appears to wane. "Let's
 go bathing," some one suggested.
 "Where are the bathing suits?"
 asks another.

"What difference," one
 answers.

So they all run for the private
 pool, where, divesting themselves
 of divers garments, they jump in.
Bathing Pool

The bathing pool scene is one
 of the most startling features of
 a picture which, like the story
 from which it was adapted, has
 occasioned considerable comment
 for the manner in which it tears
 aside the veil and exposes life in
 certain circles of American soci-
 ety.

With Colleen Moore in the
 leading role, "Flaming Youth"
 unfolds a powerful and absorb-
 ing story of romance and love
 with a colorful background con-
 trasting the real love of the lead-
 ing characters with the super-
 ficiality of the people with whom
 they associate.

Unconventional Youth

"Flaming Youth" is a story of
 reckless, unconventional youth.
 Patricia Fentress, naive, curious,
 brought up in an atmosphere
 where the life is lived to its full-
 est, regrets that she is too young
 to take part in the merriment of
 the Fentress home.

The night of a big dancing
 party, she sees love-making and
 drinking wherever she peers.
 Arraying herself in the evening
 clothes of one of her sisters she
 mixes in the festivities unrecog-
 nized. She receives her first real
 kiss and her first taste of life.
 She wants more.

Mona Fentress, her mother,
 dying, exacts a promise from Dr.
 Robert Osterhout, a member of
 the family, to write her after she
 is dead giving his impressions of
 Patricia. She asks him to put
 the letters in a safe in her bou-
 doir and she will come back and
 read them.

Before she dies she tells Patricia
 of the arrangement that the
 daughter may get advice and
 counsel from these letters.

Patricia capers from one love
 to another, finally awakening to
 a realization that she is becoming
 notorious in her set because of
 her promiscuous love making.

True Love Comes

True love is aroused in the
 girl with the return from Europe
 of Gary Scott, her mother's old
 sweetheart. She sweeps the older
 man off his feet, but refuses to
 marry him, declaring that mar-
 riage will spoil romance, point-
 ing to the unhappy marriages of
 her two sisters as examples.

Leo Stenak, a musician, charms
 Patricia after Scott leaves for
 Europe on a diplomatic mission.
 He asks all that love implies
 without marriage. The girl con-
 sents and agrees to join a yacht-
 ing party to the Tropics. On the

**AMENDMENTS TO THE
 HALIBUT TREATY WERE
 EXCEEDINGLY TRIVIAL**

Under the amendment to the
 treaty which came before the
 House of Commons a few days
 ago, one amendment had to do
 with an omission from the orig-
 inal bill which made it read that
 a fishing boat might be seized at
 any time whereas it was intended
 to apply only to the time of the
 close season.

Another amendment provided
 for the striking out of a section
 which was simply a repetition of
 another and yet which provided
 that only foreign vessels should
 be seized whereas the treaty ap-
 plies to foreign and Canadian
 vessels.

 did not pay much attention to it. I kept
 on with my household duties, but seemed
 to become worse and worse, and finally
 had to call in a doctor. He said I was
 all run down and was a nervous wreck.
 I had a severe pain in my chest which

Dissolve

Just pour Rinso into a saucer and add boiling water. It dissolves instantly and makes a thick, creamy solution. Use enough Rinso to get rich lathering suds.

Use enough

Then fill the tub half full with lukewarm water. Pour the thick soap solution into your tub and whip up the suds at once. Put your hand through the suds into the water—if you have used enough solution the water will feel soapy all through. Even after you have put your clothes into the tub, the suds should stand up. If they do not, add more Rinso solution.

Soak

Soak your clothes in these lathering suds for an hour or two—overnight, if you wish. (Colored clothes not longer than half an hour.) This soaking takes the place of rubbing. It loosens the dirt so that it rinses right out—no need for that only—sock bands and cuff edges and seams and faces of child-rod's playclothes need any rubbing. For this light rubbing just sprinkle a little dry Rinso right on the fabric. "Don't rub your year's away!"

With Rinso—snowy-white clothes just by soaking

SIMPLY soaking in Rinso suds loosens dirt, so that it rinses right out. The old wearing method of rubbing soap on the clothes and then rubbing the clothes is done away with. There is no need of it with Rinso. Only the dirtiest places—where dirt was actually ground in—will need just a light rubbing. Where this is necessary, use a little dry Rinso. Rinso is made by the makers of LUX—the largest soap makers in the world. It does the family wash as wonderfully as Lux does fine things.

Rinso

does the whole job— with it you need no other soap

MESSAGE OF SYMPATHY ON DEATH OF MR. HERNE

At the Rotary Club luncheon this afternoon President Hugh Grant referred to the loss the community had sustained in the death of Government Agent Thomas W. Herne. He had been elected a member of the Rotary Club just recently although he had not had an opportunity to complete his membership. The club was the loser. They would extend every sympathy to Mrs. Herne.

AN AWFUL ATTACK OF PIMPLES ALL OVER HIS FACE

Pimples breaking out on the face and other parts of the body is a sure sign that the blood is not in proper shape. While the skin is the object of the attack the real seat of the disease is in the blood on account of the entire circulation being poisoned.

Burdock Blood Bitters quickly and effectively banishes pimples and all other skin diseases as it goes right to the root of the trouble by cleansing and enriching the blood.

Mr. Conrad Anderson, Kelfield, Sask., writes:—"A year ago I had an awful attack of pimples. They broke out all over my face and I could not get rid of them in any way. One day a friend told me about your Burdock Blood Bitters and let me have a bottle he had to spare. After using it I noticed a change, so I bought three more bottles, and now I don't know there is such a thing as pimples."

Sport Chat

John Levi, American Indian football and baseball star, will attempt to win a berth on the American Olympic team which will compete in Paris this summer. The gigantic Arapaho brave, regarded the greatest Indian athlete since the days of Jim Thorpe, will enter the preliminary Olympic tryouts at the University of Kansas stadium on May 30 and 31. The Indian has carried his 200 pounds of brawn over the 120 yard high hurdles in 0:15 2-5; over the 220 yard low hurdles in 0:25 2-5 and has high jumped six feet. He has put the 16 pound shot 43 feet 7 1/2 inches, and thrown the discus 136 feet 8 inches. He has scored firsts in intercollegiate in the javelin and is a fairly fast quarter and half miler, although he has never competed in these events. He has treated track competition as an "athletic sideline."

With the Olympics looming, Levi will concentrate on the events of the decathlon alone, spending but little time on spring football practice and baseball. The coaches believe that by so doing he can better his records to a marked degree. Levi so greatly values his amateur standing that he refused offers to tryout with several major league teams this spring, among them the New York Yankees, in order that he might be eligible for the Olympic games and for football next fall. The big Indian is in his early twenties. He intends to return to the gridiron next season.

Big league baseball fans will soon again be hard at their annual speculations. The Pacific Coast League started yesterday and next week the American and National League will be commencing. With a good number of shake-ups in the various line-ups having taken place during the winter—some judged at this distance for better and some for worse—there are very diverse views on the respective merits of the several teams. It is a general opinion, however, that all the

RADIO MIND ACROSS SEA

Edmonton Lady Heard Sounds and Felt Vibrations Sitting Alone in Room 13

Another example of the supposed existence of ghosts has been cited by a well-known Edmonton lady, who asked that her name not be published. In a letter to the Edmonton Journal she says:

"It was when my son was somewhere in France and the mothers and fathers of Edmonton were eagerly scanning the bulletin boards and the daily newspapers for news of their beloved ones. I was stopping in an apartment house and had room No. 13. As I was sitting in my room one evening I heard groans and crying—not very loud but more like they were borne to me in vibrations. It gave me the impression that someone had suffered terribly in that room.

"As I heard it again the second evening I quite made up my mind that if it happened again I would ask for another room. The third evening I plainly heard my son crying as he used to cry when he was a little boy and hurt himself. The only difference was that the crying was in his man's voice. Then I felt sure that he was hurt.

Passed Her Bed
"As I awoke the next morning I felt rather than heard someone pass by my bed. Again it seemed like vibrations, almost as a wind blowing, only it seemed like a person and alive. About nine o'clock the same morning as I sat alone in the room I heard a rap, seemingly a short distance away. Then there was a loud knock upon the door as if someone had struck it with their fist. I arose and opened the door but nobody was there.

"It took generally about four weeks to hear from France. Then a wire came that my son had been wounded in the Battle of Cambrai, nearly a month before. This battle lasted three days. I felt that my son had been very near death and I called it vibrations. As he and I were constantly thinking of each other we did not need any modern invention such as the wireless to bring us together. Nothing could separate us. Even the sounds of that terrific battle were carried to me.

Rappings Curious
"I am unable to account for the rappings but they came in love and why should I fear? I prayed constantly for the safe return of my son, and he came home again.

YOU CAN GET RID OF DYSPEPSIA

By Taking the Fruit Treatment In the Form of "Fruit-a-tives"

You can get rid of the pain; the heavy, uncomfortable feeling; the bilious attacks, headaches and constipation that accompany this trouble. The Fruit Treatment—which is the intensified juices of apples, oranges, figs and prunes combined with tonics—all always relieve Dyspepsia.

Mrs. Thomas Evans, Everett, Ont., says: "I have been troubled for years with Dyspepsia, Liver and Kidney Disease from which it was impossible to get relief until I took 'Fruit-a-tives'. Thanks to their wonderful results, I am free of these ailments and am in normal health again."

This is the kind of proof that convinces. The Fruit Treatment—"Fruit-a-tives"—is sold by all dealers at 25c. and 50c.—or sent postpaid by Fruit-a-tives Limited, Ottawa, Ont.

SLANDER SUIT AGAINST PARSON

Dr. Clem Davies of Victoria Comes to Trial on Skidoo Day This Month

VICTORIA, April 10.—The hearing of the slander suit of J. P. "Doc" Smith, the R.C.M.P. narcotic operative, against Rev. Clem Davies, pastor of Centennial Church here, has been set for April 23, in Vancouver. Frank Higgins, K.C., and C. L. Harrison, city prosecutor, of this city, are acting for Dr. Davies, while "Doc" Smith will be represented by a Vancouver firm of barristers.

It is understood that Dr. Davies will ask for a trial by petty jury. He has four days in which to make a decision in this respect.

Friends of the popular Centennial pastor have started a movement to collect funds for his defence in the coming slander suit. It is realized that, like most clergymen, the doctor is not overburdened with worldly goods, and while in this instance the issue is not one of drug trafficking, but a civil suit, they feel their pledges of moral and financial support to Dr. Davies during the Royal Commission inquiry on narcotics should be fulfilled. Promises of support have come in from members of all creeds, and it is thought that Rev. Dr. Davies' financial requirements will be met during the coming week. Dr. Davies last confirmed the report that he was receiving contributions of money at the parsonage, and thanked anonymous donors who wished him well with their offerings.

The Man in the Moon SAYS—

YOU do not need to ask a girl if she is conservative or liberal. You seem to get a hunch.

THE nurses are at home to their friends today. It must be great to be a friend.

By the shores of Ciffieura, By the sparkling Pluto Water Lived the Prophylactic Chicklet, Dandarine, fair Buick's daughter. She was loved by Instant Postum Son of Sun-kist and Victrola. Hair apparent to the Mazda Of the tribe of Coca Cola. Through the Tantea strolled the lovers,

Through the Shredded Wheat, they wandered, "Lovely little Wrigley Chicklets," Were the words of Instant Postum,

"No Pyrene can quench the fire Of my Presto-lite desire; Let us marry, little Djer Kiss," —Ottawa Citizen.

By the shores of Rupert harbor Stands a city mid the muskegs Rising like the walls of Athens With a destiny assured. There the men on sidewalks

wooden Pass and repass, daily meeting; Cheer each other gaily greeting, And they wait for things to turn up.

Like the wise and great Micawber, Moping long and suffering meanwhile, Dreaming of a brilliant future.

Gathering up the grains of gossip O'er their cups, their tiny tea-cups,

Telling tales about each other, Sit the ladies, daily meeting, Wondering what sensation likely Will come to them ere the morrow.

Or in games of bridge they battle Lively till for little prizes, While the game of life they pass up.

All about them are the mountains, All around them nature calling, Everywhere is beauty greeting, Art they every day are meeting, Yet they pass her as a stranger, Fearing, like they would some danger,

Lest they be contaminated By the fringes of her raiment, But the children! ah the children!

There is hope and consolation In the future of the youngsters, As they romp upon the muskeg, As they play upon the sidewalks, Gaining strength and gaining muscle,

Brain and brawn for any tussle.

Let us hope the generation That is coming will be greater Seeing things that lie around them.

Faking time to enter into All the joys of real achievement, While their elders play with cardboard,

Chips and clinking glasses daily, While the life that flows around them Passes by and togeth' no man.

THERE once was a very gay Mr. Who called on a girl and then Ke.

But his manners were such That he did it too much, And her lips soon started to Br.

ADVOCATES UNION OF YUKON WITH PROVINCE

Vancouver Paper Urges That With Only 4,000 People Separate Existence Ridiculous

The Vancouver Sun advocates the union of the Yukon with this province. It says:

"British Columbia and Yukon Territory should be amalgamated. It is ridiculous that an area containing only 4,000 people should duplicate in large part the governmental organization of a full-sized province.

"The prairie provinces are no more naturally one area from an economic standpoint than British Columbia and Yukon.

"The principal industry of the latter is a principal industry of the former. The people are of the same western type.

"And Victoria is not only much nearer Dawson than Ottawa, but understands the problems of the north far better.

"A lot of unnecessary overhead expense could be eliminated if Yukon became Northern British Columbia instead of a separate

Not Like a Clam

CLAMS live to themselves. You can't. You link lives with your neighbor across the street, across the province, across the continent. You are influenced by what he wants, buys, uses, enjoys.

When enough of your neighbors want, buy, use, enjoy the same thing, you begin to see advertisements about it--- advertisements to arouse you to similar use and enjoyment. They paint glowing, truthful pictures . . . try to get you interested in what will really interest YOU.

Convenient, courteous information is yours at a minute's glance. Style, variety, price, where obtained. That minute's glance may mean the difference between buying unworthy wares and the best.

You don't want to be like a clam--- even in your judgments. Read the advertisements to be guided by others' choice. When they choose something again and again, it must be good.

Each Advertisement is Written to You--- to Help You Choose--- to Save You Money.

"Except that the Yukon people like their present political status, there seems to be no good reason why the sixtieth parallel of latitude should not be abolished as a boundary."

Premier Oliver, however, does not want it.

"We have enough troubles of our own now without adding to them," Premier Oliver remarked today when he was asked what he thought of the proposal, advanced in the Canadian Senate, that British Columbia should take over the administration of the Yukon. "The idea does not appeal to me at all and has not been considered."

PAY FOR NEXT WAR IN CASH SAYS BANKER

American Economist Tells Ottawa People Industrial Machine Must Be Rebuilt

OTTAWA, April 10.—Economic reasons will do more to prevent future wars than anything else, in the opinion of John F. Sinclair, American author, banker and economist, in addressing the Canadian club here.

"Let Canada and the United States cooperate in the re-building of their industrial machine, so terribly wrecked by the war. Kill this war business, in which there has been so much traffic and intrigue that even the bankers themselves have been fooled," he said.

"If there is to be another war," Mr. Sinclair said, "then the cost of the war must be paid in cash. 100 cents to the dollar. It must not be a charge on future generations, as was the last war."

For a nation to rank as first class, according to Mr. Sinclair, it is necessary that it meet two

NEW OFFICERS WAR VETERANS

Fred Pyle Elected to Head Organ-
ization at Semi-Annual Gen-
eral Meeting Last Night

The half-yearly meeting of the Great War Veterans' Association was held last evening.

The financial statement for the past six months showed the association to be in a thoroughly sound financial position. The secretary's report revealed heavy expenditures for relief, benevolent and improvement purposes. A large increase of membership was also reported.

Election of Officers
Hon. president, Col. Cy. Peck, V.C.
Hon. vice-president, Major J. McGregor, V.C.

Nominations for president were: Fred Pyle and Percy Tinker. The result of the voting placed F. Pyle in the chair by a majority of eight, the figures being: Pyle 32, Tinker 24. Percy Tinker was then elected vice-president by acclamation. Chas. Youngman for the second vice-presidency was also elected by acclamation.

Voting for the executive was as follows: E. Lore, 48; Walter Smith, 38; O. K. Lord, 32; T. Silversides, 29; Hugh Killin, 28; J. F. Hutchinson, 26; Fred Piper, 26. The first five were elected in the order named.

The newly elected president thanked the meeting for the honor conferred, and after a vote of thanks to the retiring officers, the meeting adjourned by the singing of the National Anthem.

FRECKLES

Now is the Time to Get Rid of
These Ugly Spots

There's no longer the slightest need of feeling ashamed of your freckles, as Othine—double strength—is guaranteed to remove these homely spots.

Simply get an ounce of Othine—double strength—from any druggist and apply a little of it night and morning and you should soon see that even the worst freckles have begun to disappear, while the lighter ones have vanished entirely. It is seldom that more than an ounce is needed to completely clear the skin and gain a beautiful complexion.

Be sure to ask for the double strength Othine as this is sold under guarantee of money back if it fails to remove freckles.

lowing being pleasant indeed. The rooms in the church were prettily decorated.

Henry Heilbronner was toastmaster. The toast of the King was proposed by Ivan Cameron and that "To our Dads" by Jack Stevens. S. E. Parker responding to the latter, expressed the hope that such events might now become a regular institution. Rev. G. G. Haeker gave a brief address on "Ghums." There was also community singing.

After the banquet, the sons took the fathers to the gymnasium and there attempted to show them how to play volleyball. Great was their surprise that the fathers w.m. An exhibition basketball game between two picked sides concluded the evening's program.

OLIVER CHALLENGES BOWSER AND MCRAE TO RUN AGAINST HIM

VICTORIA, April 10.—That W. J. Bowser, K.C., leader of the Conservative party, and General A. E. McRae, leader of the Provincial party, come to Victoria and run against him here, as they appear so anxious to meet him in an election fight, was the suggestion made by Premier Oliver today. Commenting on reports in the Vancouver press to the effect that he intended to run in Vancouver at the next election, the premier said "Why should I go to Vancouver? If Mr. Bowser, as he says in press interviews, is so anxious to run against me and if General McRae shares the same ambition let them come here. I shall certainly welcome them. This, after all, is Mr. Bowser's home town."
