## DUTHIE INVESTS IN PRINCE RUPERT REALTY

### GOOD PROGRESS DURING 1923 AND BRIGHT FUTURE PROMISE RECORDED

#### Seattle Capitalist Purchases 3,365 Lots in Sections Three, Four and Nine from G.T.P. Co.

The largest individual real estate deal in area of land ever recorded in the city of Prince Rupert was closed yesterday when John Frederick Duthie, the capitalist shipbuilder of Seattle and of Hudson Bay Mountain mining fame, became the owner of 3,365 lots in Sections 3, 4 and 9. The vendor was the Grand Trunk Pacific Development Co. Ltd., and the price was \$33,650. The sale, which includes 788 lots in Section 3, 820 lots in Section 4, and 1,757 lots in Section 9, practically clears up the entire holdings of the Grand Trunk Pacific Development Co. Ltd. in the Prince Rupert townsite.

#### HORSE-WHIPPED SON TO DEATH

William Milsaback, Prairie Farmer, is Charged With Murder

CALGARY, Jan. 5.—William Milsaback, farmer of Hanna, has been arrested and charged with murder following the alleged horse-whipping of his six-year-old son and ten-year-old daughter because they refused to find the key to his violin case. The boy died and the girl may die. The man, who was apparently demented, now claims he did not know he was doing more than threatening his children with the whip.

#### GET RID OF SQUAW FISH

B.C. Hatchery Exterminates Many Coarse Fish Feeding on Young Salmon

OTTAWA, Jan. 5.—The Department of Marine and Fisheries announces the destruction of 28,000 coarse fish, principally squaw fish, by the staff of the Cultus fish hatchery in British Columbia during the past summer. The destruction followed the discovery that squaw fish were feeding on young salmon.

#### DIGBY ISLAND WHARF DAMAGED

Corner of Quarantine Pier Blown Away by Gale Yesterday

The force of the gale last evening blew the northeast corner off the quarantine wharf at Digby Island. Some 200 feet of the front and about 100 feet off the north end were swept away but the rest of the wharf remains intact. The wreckage was floating up the harbor this morning.

#### VERY COLD IN CHICAGO

Thermometer Reached 15 Below—Several Deaths Are Reported

CHICAGO, Jan. 5.—Cold weather records of December were broken here today when the temperature reached 15 below zero. Several deaths from cold in various parts of the country are reported. The cold wave will break tomorrow, it is expected.

#### BODY OF TYEE'S COOK IS FOUND

Remains Washed up in Pedder Bay Believed Those of Antill

VICTORIA, Jan. 5.—The body of a man, believed to be that of one of the members of the tug Tyee, which foundered on Christmas Eve with all hands, was found yesterday in Pedder Bay. It may be the body of Antill, cook on the ill-fated boat.

#### PIONEER OF CROW'S NEST COUNTRY DEAD

George Hogarth, Proprietor of Cranbrook Hotel, Died Yesterday

CRANBROOK, Jan. 5.—George Hogarth, a resident of southeastern British Columbia since 1887, died yesterday aged 62 years. Deceased was the proprietor of the Cranbrook Hotel for twenty years.

#### WILL INCORPORATE CATHOLIC DISTRICT

OTTAWA, Jan. 5.—The Canada Gazette contains notice that Bishop E. M. Buno of Prince Rupert will apply to parliament at the coming session for a private bill to incorporate the Roman Catholic diocese of Prince Rupert as a corporation.

#### SCHOONER HARVESTER TOWED TO SIMPSON

Motorship Bellingham Rescued Distressed American Fish Boat Yesterday

The American fishing schooner Harvester, which was reported by the steamer Prince Rupert to be in difficulties off the mouth of the Naas River yesterday morning, has been towed into Port Simpson by the motorship Bellingham, Capt. Len Williams, of Kelchikan.

The Canadian Fish & Gold Storage Company's tugboat Zibassa, Capt. Svenson, despatched to the aid of the Harvester yesterday afternoon in response to a wireless request, is expected to return to port this afternoon.

#### DISTANCE IS LOGGED OFF

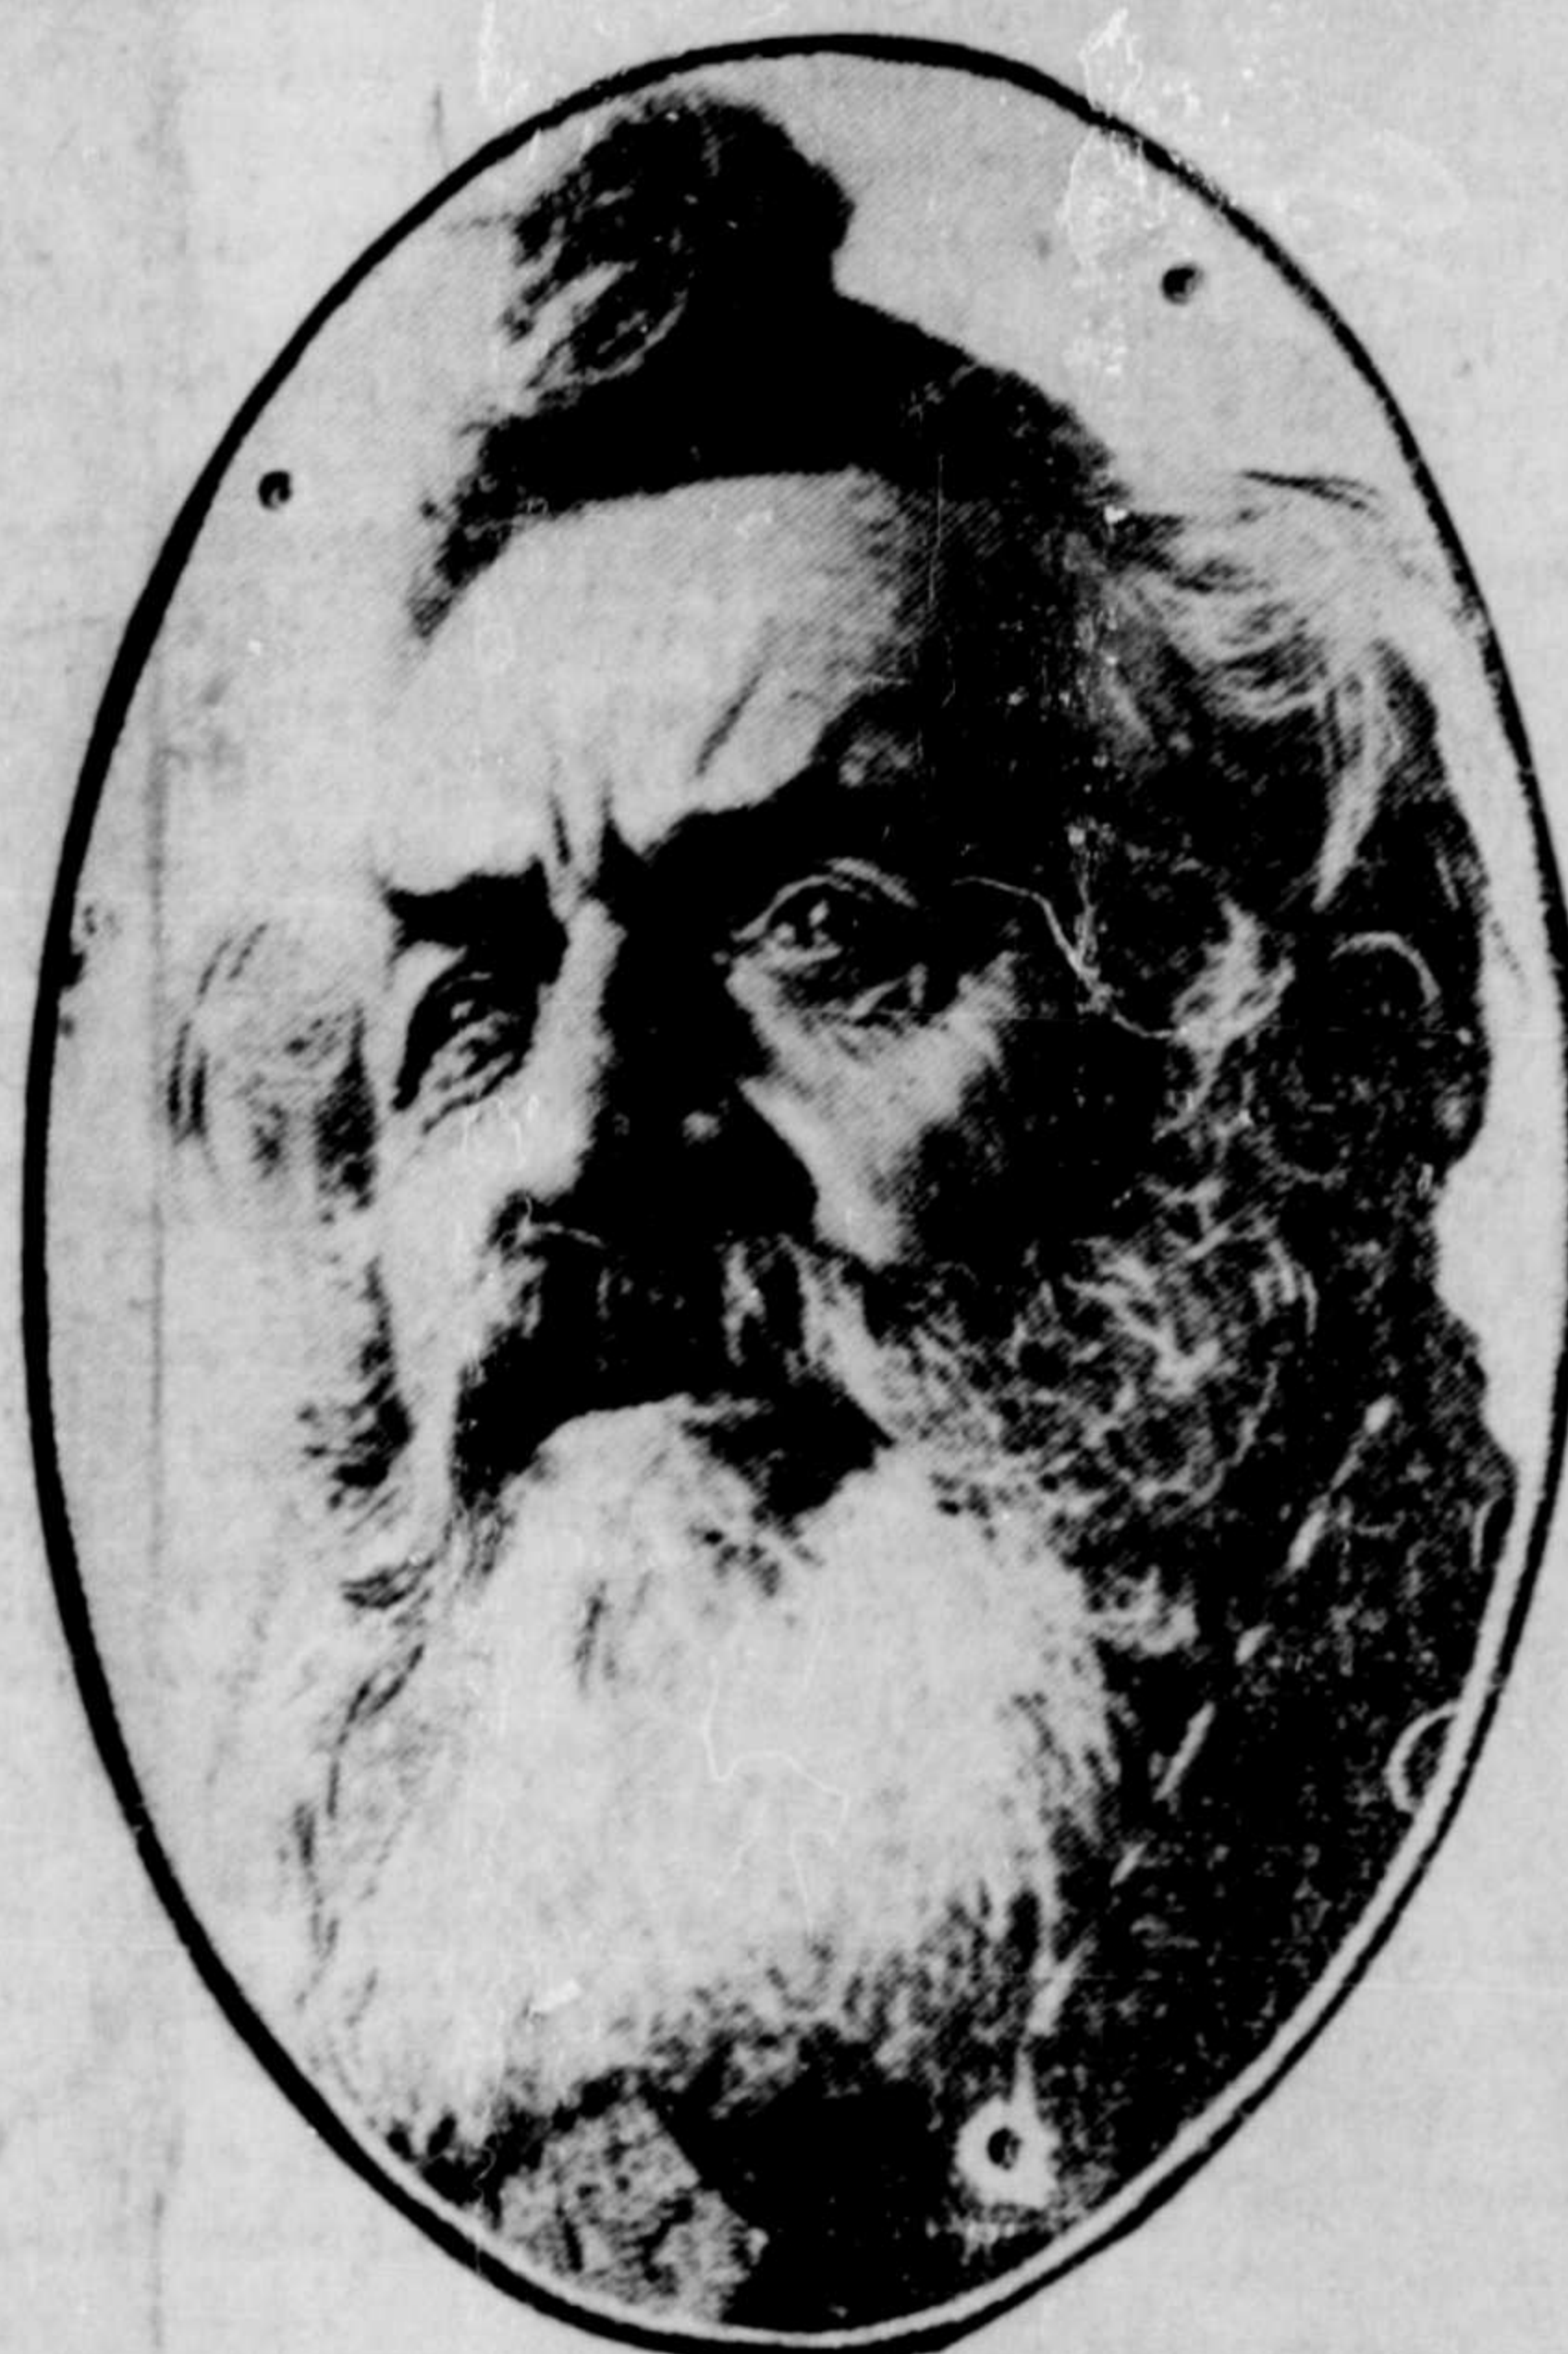

Master of Highlander Finds Rupert Much Nearer Yokohama Than Vancouver

Reginald Beaumont, local C.G.M.M. superintendent, reported to the Board of Trade last night that the exact distance between Prince Rupert and Yokohama had been logged off by Capt. R. J. Fisher of the Canadian Highlander, and it was found to be 3,852 miles as compared with 4,284 1/2 miles from Vancouver. According to Capt. Fisher the distance from Vancouver to Yokohama via Prince Rupert is only 50 1/2 miles further than from Vancouver direct. The last passage of the Canadian Highlander from Prince Rupert to Yokohama took 17 days and two hours including delays by fog and a stop at Tokio.

#### LATE GOVERNOR OF QUEBEC IS BURIED

Ecclesiastical and Military Pomp United at Last Rites—Cardinal Begin Officiated

QUEBEC, Jan. 5.—Ecclesiastical and military pomp united today to pay last tribute to the mortal remains of Lieut. Governor Louis P. Brodeur. The funeral took place at Beloeil, the birthplace of deceased. Cardinal Begin officiated.

Photograph shows Andreas Lang, who will play the role of Peter with the Oberammergau players when they portray the "Passion Play" on this continent.

#### Trade Board President Ablly Reviews Activity of District Past Year

Recording a year of very satisfactory industrial and commercial progress in Prince Rupert and district and optimistically predicting further development and expansion in 1924, the report of E. C. Gibbons, retiring president, was received with enthusiasm at the annual meeting of the Prince Rupert Board of Trade last night. It was apparent that the large gathering of members present concurred with Fred Stork, M.P., who, in moving the adoption of the report, described it as the most gratifying that the board had ever listened to. Mr. Stork also paid tribute to the most efficient and painstaking work of Mr. Gibbons during the year and stated that all members felt a sense of appreciation for his unselfish and unsparing efforts. In seconding the motion for adoption of the report, J. W. Nicholls said that Mr. Gibbons had set a pace that it would be difficult for a predecessor to keep up.

Mr. Gibbons reported that eleven monthly meetings, two special meetings and ten meetings of the council had been held during the year in addition to numerous committee meetings. He urged a more faithful attendance at monthly meetings. The membership had increased from 68 at the first of the year to 139 at the end, the energy of D. Thomson, S. K. Campbell and J. W. Scott, the membership committee, being responsible.

#### Colonel Peck Is Being Boomed in South to Supplant Bowser as Conservative Party Leader

VICTORIA, Jan. 5.—The possibility of Col. Cy. Peck, V.C. becoming leader of the Conservative party in place of Hon. W. J. Bowser suddenly blossomed forth at Premier Oliver's meeting held at Sidney Thursday night.

Conservatives of Sidney, who have nominated Col. Peck as the Conservative candidate for the Islands constituency, are telling people of the district that the Colonel is going to be the new Conservative leader. Secretary Dawes of the Sidney Board of Trade stated Friday night, "The Conservatives are spreading this idea all around the district."

Dawes said after the premier's meeting. Just before the close of the meeting Dawes made a similar statement publicly. This assertion caused amazement among politicians today. The idea of Col. Peck as Conservative leader had not been suggested before. The suggestion is all the more surprising in view of the fact that the Islands constituency is considered one of the safest government seats in the province. The present member, M. B. Jackson, is expected to be re-elected without difficulty at the next election. It is anticipated that Colonel Peck will immediately repudiate the idea that he is seeking the leadership. According to Dawes, followers of Colonel Peck are pushing him forward for the position.

#### Biological Station is to be Established Here, Member of Board Definitely Announces

That a biological station is to be established at Prince Rupert or in the near vicinity of the city was the announcement made to the Prince Rupert Board of Trade last night by John Dybhavn, member of the biological board under the department of marine and fisheries, on his return from Ottawa where he attended a meeting of the board. An engineer of the department will soon be here to select the site Mr. Dybhavn also stated.

Telling of the meeting at Ottawa, Mr. Dybhavn stated that it was an entirely new venture for him but it had been most interesting. The scope of the board was very wide in that it had to do with anything concerning the fisheries. Eight University professors and himself had attended the meeting so he felt like "a sheep among wolves."

Heretofore, the board had carried on biological stations at St. Andrew's, N.B., and Departure Bay, B.C., and the work had been purely scientific but now it was planned to embark on a more educational program. Besides at Prince Rupert, a new station was to be established at Halifax. The work at Halifax would be for research along commercial lines but the Prince Rupert station would probably be different. At Halifax courses would be given to cannery managers and others on canning of fish and there would also be courses for fisheries officials. He did not think such work as that would be essential on this coast and the station here would likely be along different lines. The matter of what program was to be followed here would be decided following the arrival of the engineer to select the site.

Members of Board  
Members of the biological board are as follows: Chairman, Professor A. P. Knight, of Kingston University; secretary-treasurer, Professor E. E. Prince, director of fisheries, Ottawa; members, Professor J. P. McMurrich, University of Toronto; Dr. A. H. Mackay, Dalhousie University, Halifax; Professor C. J. Connolly, St. Francis Xavier University, Antigonish, N.S.; Dr. Huntsman, director of the biological station, St. Andrews, New Brunswick; Dr. Cox, University of New Brunswick; Mr. Clements, director of the biological station, Nanaimo; John Dybhavn, representing the Pacific coast; and A. H. Whittman, of Halifax, N.S., representing the Atlantic coast.

#### VESSLS ARE SAFE TODAY

Harold Dollar Proceeding and Wheatland Montana Standing by Kyosei Maru

SEATTLE, Jan. 5.—The steamship Harold Dollar is proceeding safely towards port today and aid last night reached the steamer Kyosei Maru according to messages received here. Both vessels were found adrift with steering gear troubles in the Pacific Ocean 2,500 miles west of here. The freighter Wheatland Montana has sent a message saying she is standing by the Kyosei Maru.

#### EARTHQUAKE TURKESTAN

Eighty-three People Killed and 400 Houses Are Destroyed

MOSCOW, Jan. 5.—Terrific storms which did much property damage culminated today in an earthquake in Russian Turkestan in which 83 people were killed and four hundred houses were destroyed. Great fissures were left in the earth. Terrific storms in Crimea and heavy snows at Odessa are causing much privations.

#### MCLEOD IS PRESIDENT

Manager of Royal Bank Heads Board of Trade For Year 1924

S. J. McLeod, manager of local branch of the Royal Bank of Canada, was unanimously elected president of the Prince Rupert Board of Trade at its annual meeting last night.

J. W. Scott was chosen vice-president and the council was selected as follows: E. C. Gibbons, F. G. Dawson, David Thomson, C. H. Orme, S. K. Campbell, D. G. Stewart, S. E. Parker, John Dybhavn, J. W. Nichols, W. E. Williams, Olof Hanson, N. B. Walton, G. W. Nickerson, Thomas McClymont, H. F. Pullen, and W. H. Tobey. The appointment of a secretary to succeed C. V. Evitt, resigned, was left in the hands of the executive.

#### SALMON EGG COLLECTION

Total for B.C. in 1923 Reached Highest Figure Since 1915

OTTAWA, Jan. 5.—The largest collection of salmon eggs in the province of British Columbia since 1915 has just been completed. The total number collected during the year was 109,243,900. They will go to the hatcheries conducted by the Department of Marine Fisheries.

#### SEVEN NEWFOUNDLAND FISHERMEN GO DOWN WHEN BOAT FOUNDERS

CURLING, Nfld., Jan. 5.—The 98-ton fishing vessel Donald L. Silver left Bay of Islands on Monday and on Thursday encountered a snowstorm and heavy gale in which she foundered with her crew of seven men.

#### Distinct Loss In Resignation Of Gouin.

With the resignation on account of ill-health of Hon. Sir Lomer Gouin, minister of justice, the cabinet of Premier Mackenzie King has suffered a distinct loss. Having a long experience in public affairs and a successful practice of the legal profession behind him, the brilliant French-Canadian minister was pre-eminently qualified for the post which he held and it will be a difficult matter to find an equal to succeed him. It is to be hoped, however, that Sir Lomer's health will become so improved that he will before long be able to return to the realm of active political service in which he has so long and efficiently served. Coupled with this hope comes another that Hon. W. S. Fielding, minister of finance, who has been seriously ill of late, may not be required to give up his cabinet duties. With the loss of these veteran ministers, the Federal cabinet would lose perhaps its two most able members and the loss to Canada's executive administration would be serious indeed.

#### Weather Figures Were Misleading.

The record of 128.74 inches of rain having fallen in Prince Rupert during 1923 may give a very misleading opinion as to the actual pleasantness of the weather in this city. While official figures are not at hand to verify it, the statement might safely be hazarded that Prince Rupert enjoyed as much if not more actual sunshine last summer than it did in any summer previous despite the fact that the total rainfall for the year was higher. Having remembrances of the beautiful summer in their minds, many residents expected that the total rainfall record for 1923 would be lower than average. Great was their surprise then when they learned it was really greater. The continuous precipitation during the months of November and December when nearly 50 inches fell was responsible for the high total. However, there is some comfort in the knowledge that while we might have had our heaviest year's rainfall in 1923 we also probably had our highest total of sunshine in a year.

#### Parents More To Blame Than Children.

Helen Gregory McGill, Judge of the Juvenile Court in Vancouver recently wrote an article covering phases of her work from which we quote: If mothers and fathers will not or can not show children how to be upright and decent citizens, not only the child is the victim, but the whole community suffers. Every child has a right to a proper moral training, and in the juvenile court where parents will not try to impart it, they can be punished for not doing so. Sometimes the child can not be taught in its own home because the parents themselves are immoral or weak. So the work of the Juvenile Courts is first to show the way and then enforce the following of it under discipline and supervision. Child offenders are not called criminals, but delinquents, and they are tried entirely by themselves. The court is not an "open" court, the trials are private and no one outside of the children, their parents and lawyers, if they have any, may be present without the permission of the judge. No names may be published without that permission, and practically it is never given.

### TRADE BOARD PRESIDENT ASSESSMENT OF DISTRICT PAST YEAR.

(Continued from Page One.)

indebted to the unflinching courtesy of officials and employees of the dry dock and cold storage plants whenever visits were paid to those establishments. In view of the probable increase of tourist traffic this way, Mr. Gibbons recommended that the C.N.R. be urged to complete construction of its proposed hotel as soon as possible and arrange for better service in showing tourists the various attractions and advantages of the district. The provincial government should be urged to make improvements at the Salt Lakes now that it has acquired the property.

The Board has also been active in publicity work and had published leaflets and booklets which had been widely circulated. Picture post cards advertising Prince Rupert as a grain outlet had also been sent to members of the federal house, prairie legislatures and other public men.

#### Items of Development

Mention was also made in the report to the inauguration of a trans-Pacific freight service from here, provision of a lumber assembly wharf, completion of the C.N.R. warehouse and use of the shipyard.

The principal item in the public works category was the continued striving for a road leading out of the city. Progress had been made in that an agreement had been reached between the provincial government and the G.T.P. Development Co. as to share of cost. At the instance of the Board, repairs had also been made to the Cow Bay road by the provincial government.

The Board had been largely instrumental in the sending to Ottawa of a delegation which interviewed the federal cabinet and railway authorities on port development. Premier King had expressed sympathy with any move that would be made by the railway company towards the fulfillment of original G.T.P. plans. The Board was indebted to Hon. T. D. Pattullo, C. H. Orme, Olof Hanson and S. J. McLeod for voluntary and able services as delegates and to Fred Stork, M.P. and F. G. Dawson who made arrangements for interviews and aided the delegates in every way.

#### Outstanding Event

The initial visit of inspection of Sir Henry Thornton, president of the Canadian National Railways, had been perhaps the outstanding event of interest during the year. Mr. Gibbons' report stated:

Results of that visit were the agreement of Sir Henry to recommend the operation of small boats out of Prince Rupert, the construction of a suitable hotel and the securing of a steamer to develop Alaska trade through the port. Sir Henry had also promised to "take a shot" at an elevator when he went East. Arrangements for benefit of the lumber traffic had also been made including a reduction of rail rates from interior points to Prince Rupert. The promises of Sir Henry, it seemed, were being implemented as rapidly as good business permitted—authority had been given the superintendent of the C.G.M.M. to procure two small boats, plans were being completed for an Alaska steamer and hotel. "I am fairly convinced that a grain elevator is as assured for this year as it is possible for a government dependent upon the voting funds of parliament to commit itself," this section of the report concluded.

The visit of Sir Henry Thornton had also left the impression that the C.N.R. was under capable and aggressive management and that a new spirit was manifest throughout the whole organization. Earnings were showing wonderful increases and any improvements were bound to be reflected on the port of Prince Rupert. When the railway was operating properly full advantage would have to be taken of the harbor here and the port's strategic position.

#### Essential Industries

The report referred to the increase of over four million pounds in halibut fares during

1923 and recommended the remedying at once of the system employed in handling the gasoline tax rebate. The possibility of having removed the 2c duty on Canadian halibut entering the United States had received a great deal of attention. The only satisfactory settlement, in Mr. Gibbons' opinion, would come through a treaty arrangement for a number of years. A conservation treaty between the two countries was practically completed. Arrangements might also be made co-incidentally for equality in marketing the fish.

Out of a total salmon pack for B.C. in 1923 of 1,341,681 cases, 875,807 cases had been put up in District No. 2. The advantage of the district in sockeye packing was still more marked. The pack in District No. 2 of sockeye had been 285,963 cases out of a total for the province of 334,647 cases.

#### Mining Activity

All producing mines of 1923 had continued in 1923 and more capital had come into the district for development. The greatest new development of the year had been at the Duthie Mine on Hudson Bay mountain. Already a substantial shipment had been made from it through Prince Rupert. Congratulations were tendered by Mr. Gibbons to the provincial government on the excellence of its annual mining report which had resulted in the inspection of many properties.

Agriculture in the district had become self-sustaining and importations of potatoes and vegetables from the south had given way almost entirely to local produce. A better system of handling Bulkley Valley beef had obtained. Further industrial activity was necessary in market expansion as far as the district was concerned.

#### Lumber Industry

In the lumber industry there had been a very marked increase in the district during 1923. The cut of saw logs had increased from 102,000,000 feet in 1922 to over 175,000,000 feet last year. Contracts were now being filled between Prince Rupert and Endako for 1,000,000 feet and from Endako east to the Alberta border there would be approximately another 800,000.

A total of 3,154,666 feet of lumber had gone through the port of Prince Rupert for Oriental markets during the year and the United States market had taken practically the entire production of the Massett Timber Co.'s extensive plant at Buckley Bay. In addition there were some rail shipments East from mills along the line of the C.N.R.

It was simply a matter of time before more pulp mills would be opened in the district. Prince Rupert was vitally interested in this development and the best efforts of the Board should be expended in this direction. A shortage of cheap power was, however, one of the most serious handicaps.

#### Other Activities

Other activities of the Board during the year had been towards securing a daily mail service, the distribution of mail, north of here, the erection of a suitable federal office building and securing of visits from the Canadian and British navy. The Board had championed the building of a bridge across the Skeena at Terrace and this work was already under way. The case of Prince Rupert had also been

# Price Changes of Dr. Chase's Medicines

By increasing the contents of the boxes the cost to the user remains unchanged

THIS revision of prices affects only three of Dr. Chase's Medicines—the Kidney-Liver Pills, Nerve Food and Catarrh Powder.

In spite of the constantly increasing cost of doing business ever since Dr. Chase's Medicines were placed on the market many years ago there has been no change in the prices of these three medicines to the consumer.

It has now become absolutely necessary to make some changes, but this has been worked out in such a way that the cost to the user remains the same.

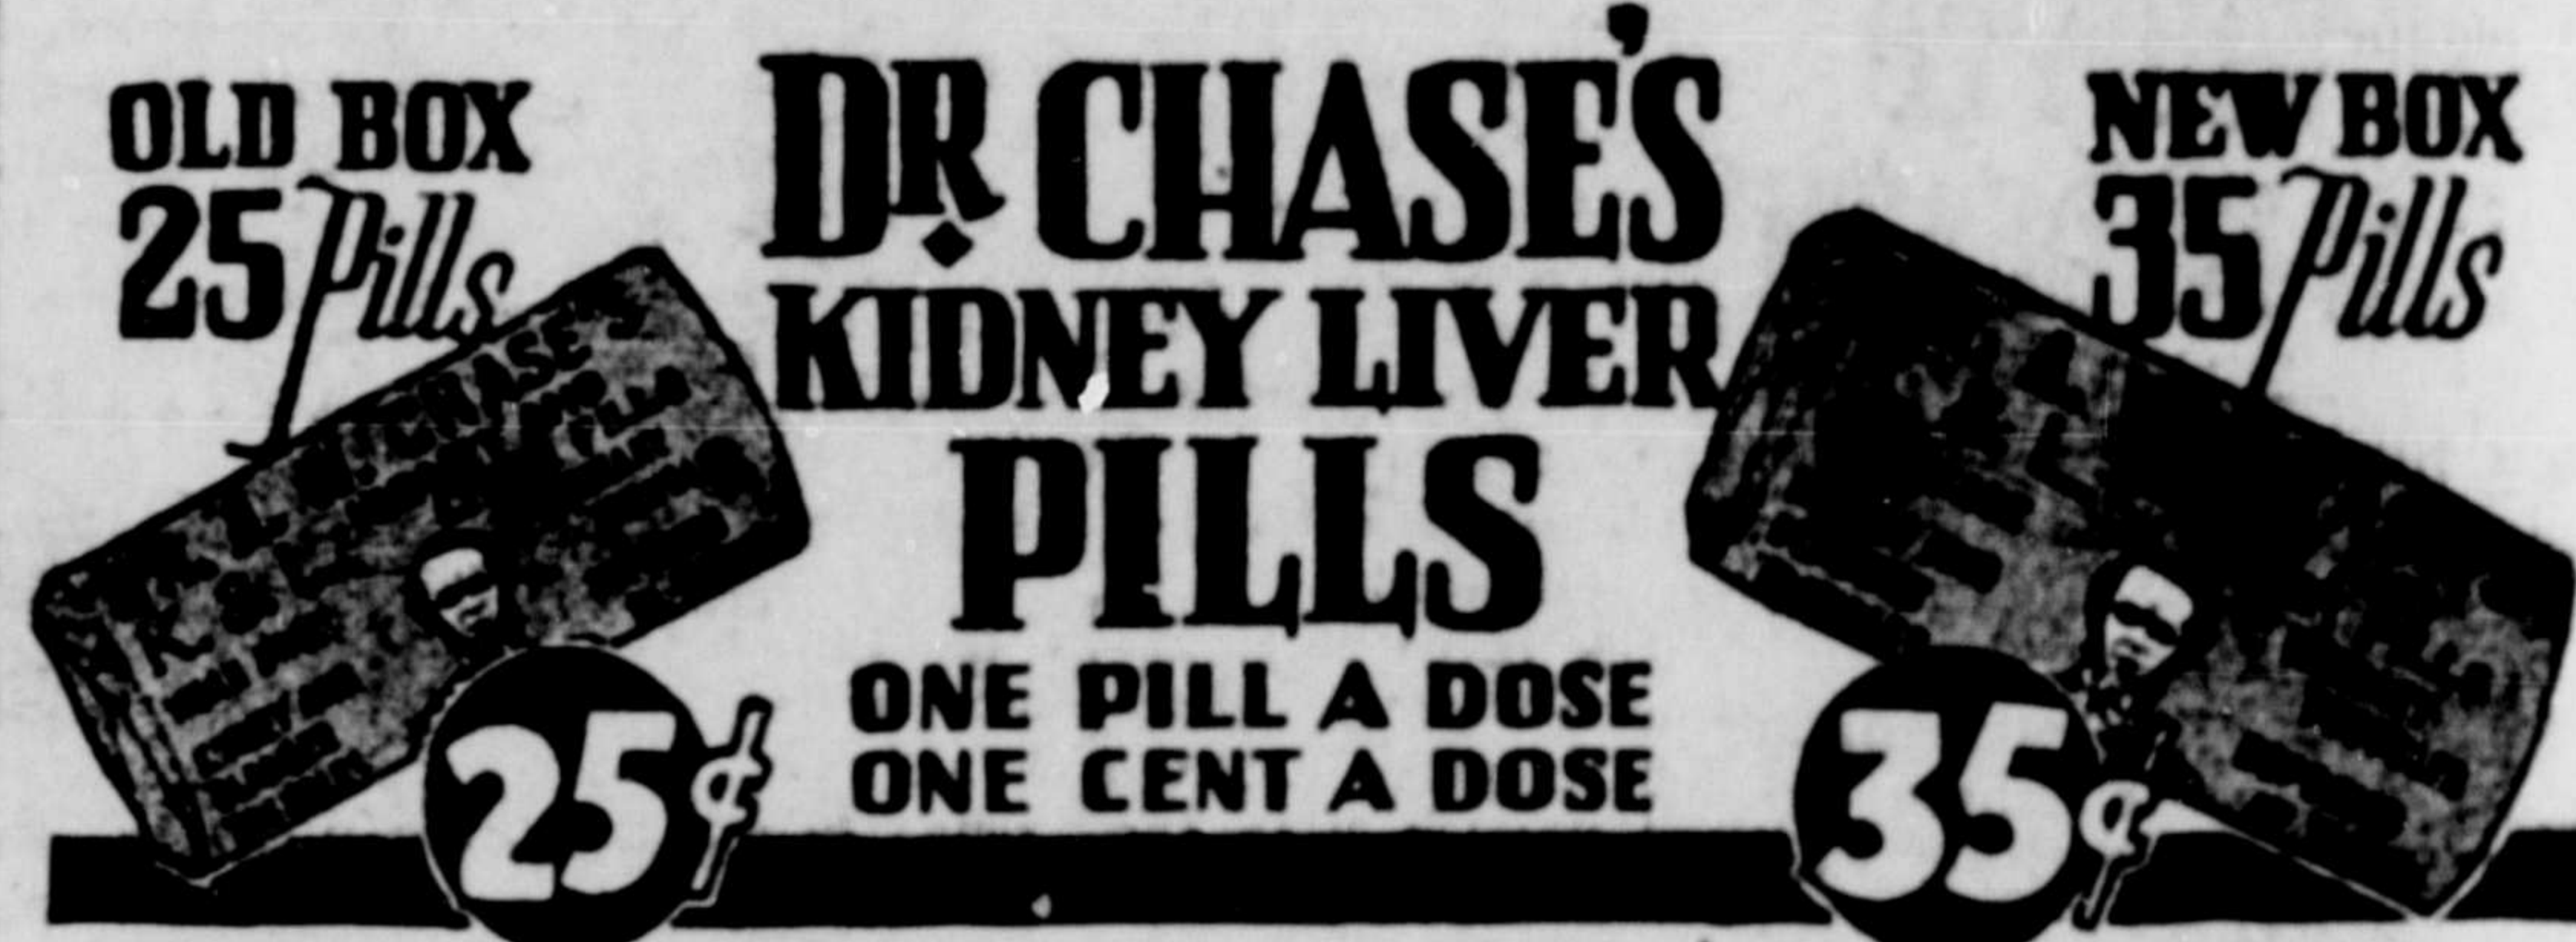

The slogan for Dr. Chase's Kidney-Liver Pills will therefore remain "One pill a dose—One cent a dose," for while the price will be 35 cents instead of 25,

the contents of the box will be 35 instead of 25 pills as formerly.

The same applies to Dr. Chase's Nerve Food, which will sell at 60 cents a box instead of 50 cents, since the contents of the box is now 60 pills instead of 50.

With the exception of Dr. Chase's Catarrh Powder, which is now 35 cents a box, the prices of Dr. Chase's other medicines remain unchanged.

Dr. Chase's Almanac has now been mailed and distributed to practically every home in Canada, 1,550,000 copies, if you did not receive yours kindly advise us and we shall mail you a copy free of charge. Edmondson Bates & Co., Limited, Dr. Chase Building, Toronto.

placed fully by the board before the Royal Grain Commission.

The Board had prospered financially due to the increase of membership and, with all bills paid, a working surplus was left to carry on the fight to advertise the district, prevent harmful legislation and promote the business interests of the members. Expressing regret at the resignation of C. V. Evitt secretary, Mr. Gibbons' report acknowledged the faithful and efficient service that Mr. Evitt had given the Board for years.

Concluding his report, Mr. Gibbons referred to the hearty co-operation that had been given him by all members. It had been an honor to serve as president in 1923.

## VICKS RELIEVES HER CATARRH

"Cannot Praise It Too Much," Says Mrs. Cayer

Melt a little Vicks VapoRub in a spoon. Inhale the vapors. Then insert some in nostrils, "snuffing it well back. You will be delighted to see how it clears the head. Catarrh sufferers seem to think they have to endure it forever because they live in a "catarrh climate." The disease is hard to get rid of, but Vicks brings welcome relief and in many cases permanent benefit.

Vicks is a quick-acting treatment for all cold troubles—absorbed like a liniment and at the same time inhaled as a vapor.

Mrs. J. B. Cayer, Ste. Anne, Manitoba, says: "I am a sufferer from catarrh and Vicks VapoRub has done me a great deal of good. I tried everything without success until I used your salve. I cannot praise it too much. I will never be without it. I recommend Vicks to all sufferers from catarrh and cold in the head."

At all drug stores, 50c a jar. For a free test size package, write Vick Chemical Co., 344 St. Paul St., W., Montreal, P.Q.

Though Vicks is new in Canada it has a remarkable sale in the States. Over 17 million jars used yearly.

C.P.R. steamer Princess Mary, Capt. Ormiston, arrived from the north at 8 o'clock this morning and left for Vancouver and way ports at 9 a.m. Passengers from Alaskan points for Prince Rupert included: Staff Sgt. S. L. Warrior, R.C.M.P.; Mrs. V. C. Clausen, S. Ryan, H. Martin, Mrs. M. Collier and Mrs. P. Haldane.

### NEW LAMP BURNS 94% AIR

Beats Electric or Gas

A new oil lamp that gives an amazingly brilliant, soft, white light, even better than gas or electricity, has been tested by the U.S. Government and 35 leading universities and found to be superior to 10 ordinary oil lamps. It burns without odor, smoke or noise—no pumping up, is simple, clean, safe. Burns 94% air and 6% common kerosene (coal oil).

The inventor, G. A. Johnson, 595 McBurnet Ave., Winnipeg, is offering to send a lamp on 10 days' FREE trial, or even to give one FREE to the first user in each locality who will help him introduce it. Write him today for full particulars. Also ask him to explain how you can get the agency, and without experience or money make \$250 to \$500 per month.

Gulbransen Trade Mark

### At the End of a Day

As the roll unwinds, music works its magic. Gone are the cares of a work-a-day world. A dear old tune touches the chords of tender memory—brings back boyish dreams—stirs the fires of inspiration.

Whatever your mood as you sit down before the Gulbransen registering piano you find it sympathetic, responsive. For it is as ready to reflect the exuberance of youth in the latest and gayest of popular tunes as it is to free the majestic music prisoned in the score of a composer's masterpiece.

We invite you to our store today and try the Gulbransen registering piano. A few moments will reveal the pleasures it offers. We will gladly explain the advantages of its many exclusive features.

## TO COMPLETE NURSES' HOME

Hospital Board Advances \$5,000 to Committee—Total Cost, \$17,332.28

All funds already on hand for the purpose having been exhausted, the hospital board last night decided to advance \$5,000 to the Nurses' Home committee to cover the balance to be paid on account of the construction of the home. S. K. Campbell reported to the board that the total cost of the building would be \$17,332.28. All of this sum had been paid with the exception of \$1,625 which it was now required to find. He moved that a loan of \$5,000 be granted by the board to the committee to complete the building. Items enumerated by Mr. Campbell in the construction of the building were as follows: Clearing lots, \$151; excavation, \$406.16; foundation walls, \$1,003.12; heating, \$1,393.64; hardware, \$209.51; electric fixtures, \$162.50; mechanical contract including extras, \$13,191; plans and specifications, \$605; insurance, \$880; other items, \$55.

Mr. Collier inquired about furniture and was told by President Stewart that it was intended to use that which the board already had. Mr. Collier also had other questions to ask about the construction of the building and received answers to his satisfaction. T. Ross Mackay, President Stewart and Mr. Campbell showed that the cost had been well within the estimate of A. A. Cox. E. H. MacIntyre inquired where the board was to obtain the \$5,000 requested and was told by President Stewart that it could be borrowed at the bank. President Stewart also stated that the drive had obtained about \$12,500 for the building.

Mr. Campbell's motion was seconded by D. C. McRae and carried. T. Ross Mackay reported that the building should be completed by Saturday, January 19. Some of the painting might be left over until spring when weather was more favorable.

## ENCOURAGING ANYOX BOYS IN BOXING ART

Instruction Will be Given and Medals Put up for Competition

ANYOX, Jan. 5.—In order to encourage the art of boxing among the school children of Anyox, Stan Pamphill of the Beach and Mr. Williams of the Mine have agreed to instruct youngsters desirous of learning something of the game's fine points. To further create interest three medals have already been offered for a competitive evening to take place some time in March, the donors being Wm. Robertson, A. L. Poyart and F. M. Kelley. These competitions for medals are to be open to school children only.

## HOLIDAY SEASON AT ANYOX CELEBRATED

Wine Mess Had New Year's Dinner—Salvation Army and Anglican Entertainments

ANYOX, Jan. 5.—The Mine Mess celebrated the holiday season on New Year's Day with a five o'clock dinner, turkey, pudding and all the rest of Christmas staples being supplied in abundance by the Granby Company. A concert was provided in connection with this dinner and every-

**Better Than Pills for Liver Ills**  
You can't feel so good but want to feel better.

body enjoyed it. At the noon hour, the Anyox brass band attended and played appropriate selections. The Salvation Army provided a treat for Mine children on the afternoon of the same day and the Anglican Church entertained the Sunday school children on the evening of the day following.

## FINE NEW YEAR'S DANCE AT ANYOX

Affair Held Under Elks' Auspices Was Both Novel and Successful

ANYOX, Jan. 5.—The dance on New Year's Eve in Recreation Hall under the auspices of Anyox Elks had the biggest turnout since the night of the hospital dancing affair. The committee in charge extended themselves on this occasion in every way to pull over something worth while and different and they succeeded.

The hall was decorated with streamers arranged tastefully, the colors being those of the order. This effort was carried out in the lighting as well, the lamp shades being colored in keeping with the general scheme.

At the hour of eleven the customary service of Elks gathered together was observed, and when supper had been partaken of and the hour of midnight approached a novelty in the shape of a monster snowball was deposited in the centre of the dance hall and from it, as the hour struck the departure of the Old Year, the Wives Bonnie Chapman and Jean Moffatt stepped out and executed a pretty little dance which was loudly applauded. This was the signal for general wish-ishing; fancy headgear was passed around and dozed and great quantities of confetti and serpentine were used in fittingly welcoming 1924.

The chairman of the Elks' entertainment committee is Harry Thorley, on whom the greater burden of the work in connection with the dance fell, although he had able and willing assistants in Messrs. Nickerson, Lafortune and St. Clair. Others who helped were H. A. Berry, W. Robertson, H. Boston, H. Chapman and C. Gray.

A welcome surprise was furnished the great crowd present when an orchestra of six pieces struck up the opening number. The musicians gave the greatest satisfaction throughout the evening, the orchestra consisting of piano, Mrs. Sawney; violins, C. McMillan and G. Leslie; cello, P. Stevenson; trombone, S. Stevenson; drums, E. Waterman.

## The Man in the Moon SAYS—

IT'S funny how easily some men could settle the European tangle and yet the same men are all at sea when it comes down to settling a little domestic tangle.

THE new slogan of Japan is "Tennank and grow tall." The Japs are evidently selling it by the length.

THE old bar-room elbows with inflated flippers and non-skid treads are relics of the past.

TALKING of elbows they are mighty useful weapons to women when trying to get first at the bargain counters.

WHO said Prince Rupert was a windy city?

A DOCTOR has said that smoking after meals is an aid to digestion. Probably the cuspidor will become conspicuous at the afternoon teas in future.

IT is rumored that the runner one hears so frequently on the street was surely a runner of the runner named by the runner.

IT is said that controversy waxes hot around the Ford motor plant as to where the doors in a Lizzie should actually be put. Might be a good idea to furnish a can opener with each car and then the doors could be put just where the purchaser thought he'd like to see it.

## Ten Years Ago in Prince Rupert

January 5, 1914. Mr. and Mr. F. C. Wright of Graham Island are here enroute to Vancouver on a holiday. Mr. Wright is local manager for the Graham Island Coal and Timber Syndicate.

Says Graham for Bales and Rogers, concrete contractors on the G.V.P., have returned after a business trip to the south. He states that the concreting of Boss' big tunnel would be completed within the next six weeks. The tunnels around Kitselas are done and the slow order to the trainmen are taken off. At mile 44 about forty feet at the west end entrance of the tunnel is being concreting and it will be ready in a few days.

**MR. COLLISON INTERESTING**

**St. Andrew's Society Hears Indian Agent on Progress of Natives**

W. E. Collison, Indian Agent, gave a very interesting address on "The Development and Progress of the Pacific Coast Indian" before the St. Andrew's Society last night in the society's rooms. In spite of the inclement weather the attendance was large.

In his address Mr. Collison dwelt upon the marvellous progress the Indians on the coast had made collectively during the past 50 or 60 years. Half a century ago the natives on the Pacific coast were living in practically the stone age but, through the education they had received at the hands of the white missionaries and others, they had progressed rapidly and today were just as far advanced in their style of living as was the white men.

Mr. Collison also dealt with the different theories which had been advanced as to the origin of the Indian race. As far as could be ascertained, in view of the fact that the Indian had no written language and consequently no written history, the Indian had sprung from the peoples of northern Asia at some very remote period.

"What is going to become of the Indian?" asked the lecturer. In answering the question Mr. Collison advanced the opinion that the Indian of today would, in years to come, become so advanced in civilization that he would be absorbed into the white race. In speaking of the character of the Indian the lecturer stated there were good and bad Indians just the same as there were good and bad white men. In the north country he had met among the Indians some of the finest men and women he had ever seen in his life. Mr. Collison said that his own godfather was an Indian and that he was proud of the fact.

So interesting was the lecture by Mr. Collison that the St. Andrew's Society will endeavor to have him lecture again during the next syllabus on the Indian Polite.

The Admiral of the Mosquito fleet reports the halibut landings for the week light, accounted for by the fact that the ushering in of the New Year interfered in a measure with the regular business. The boys spent a quiet but very enjoyable time on New Year's Day and the behaviour of all ranks was exemplary. The old man vovs there is not a better behaved fishing fleet in the world when it comes down to morale and being on the job. The festivities were confined to purely family entertainments and no general upheaval took place. Keen optimism is evident along the waterfront for the improvement of conditions in the nautical game. Those officers and men engaged in the salmon trolling and cannery business predict a much earlier start in all departments of the fishing game this year, claiming that arrangements have already been made for crews, boats, etc. The majority of members of both the American and Canadian fishing fleets have taken advantage of the holiday season to be home with their families and this has consequently affected the landings. Boats of the Canadian fleet which have been overhauled during the past two months will shortly be getting into the game again and the southern fleet will be coming out stronger with the advent of better weather conditions. The only untoward nautical happening over the festive season was the stranding of the American schooner Summer, Capt. Soriano, outside Ketchikan early on Tuesday morning. The boat went on the rocks at high tide but was successfully refloated and arrived in port on Thursday morning with a very satisfactory catch. The damage was not so serious as was first thought. Few of the small boats engaged in trapping operations have yet put into port with any fur but some good arrivals are expected during the month.

house building will be introduced in this instance. In addition to a revolving staircase the bath room will contain a billiard table. The idea of the billiard table is that one can have a game of billiards while waiting for the bath to fill up. Frank has taken all the lumber necessary aboard and has returned to Porcher to commence building operations.

**Fish Business**  
During the week 171,000 lbs. of halibut has been marketed on the Fish Exchange. Americans were high at 18.7c and 10.1c and low at 16.2c and 10c. The arrivals were: Pioneer, Tom and Al. Wireless, Summer.

**Yard Activities**  
The N. M. McLean shipyard ways are full to capacity and all the loose tools around the place are working. The fishing schooner Eagle is off the ways after undergoing her annual overhaul and will in all probability be out over the week end chasing the hairless halibut. The Ringleader, Capt. Sollows, is the next boat to go into the chair for a general looking to. The hull and deck is to be recaulked and the engine thoroughly gone over. The Suga yards are occupied with the building of a trolling boat which is rapidly taking shape and will be ready for the water before the month is out. Bone Yard Creek is full with small boats being put into shape in readiness for the forthcoming dash to the salmon grounds. Capt. Khort is busy building a rowboat. It is understood he has several boats of this type on order.

The power boat Skeena City is in port from the Skeena river for supplies.

**Zorra is Watched**  
The secret service of the fleet have been much exercised lately over the remarkable antics of the power boat Zorra, Capt. Brown. It is said this craft often goes out backwards to make believe she is coming in. According to a nautical celebrity, another remarkable feature is the powerful engine. In fact it is said to be so strong that it will turn canned milk sour.

**Skaters Out**  
The launch Oh Baby, Capt. Myhill Jones, otherwise known as the ship of romance, made several trips on New Year's Day to the Salt Lakes with bappy parties on skating bent. The weather was ideal and while the ice was a bit rough it served the purpose excellently. Observers say that several pretty and poetic little love romances were witnessed during the day. It's funny how a good sheet of ice and a pair of skates will awake the love sentiment of the youthful. In fact it is not always necessary to be the proud possessor of two skates in some cases one skate is sufficient. Unfortunately the sad break in the weather has killed the joy of the ice for a while at any rate.

**The Storm**  
The heavy wind storm and the new house have not been rain which struck the city on public exhibition it is said Thursday night and continued that several new innovations in throughout yesterday was gen-

**MILLIONS and Movies**

**T**HROUGH the medium of slender strips of celluloid an actor appears simultaneously on thousands of screens in as many different towns. On the same evening, he entertains great armies of film fans who eagerly pay their money to see his performance.

So the movie star commands a king's ransom for a salary, and a fortune is spent profitably, to provide a proper background for his art. The movie multiplies personality—and earning power.

Advertising does the same thing for a merchant or manufacturer. In a single day it takes his message into thousands of homes—to tell folks why they should have his goods and how to get them. Advertising endows him with a thousand voices with which to tell his story.

But the value of advertising is by no means confined to the advertiser. It has a very definite value to you.

A glance through this paper enables you to sift out the things that interest you. Sitting in your easy chair you can compare values and prices. In a moment you can tell exactly where to go for what you want and how much to pay.

Figure how much useless walking and talking and how much actual money you can save by spending a few moments daily with the advertisements.

eral along the North Coast. The steamer Prince Rupert reported the American schooner Harvester with her engine broken down off the mouth of the Naas as a consequence of dirty weather and heavy seas. Several logging boats in for the holidays had made all the preparations to clear from port yesterday morning but upon hearing the reports as to the condition of the elements outside the harbor they decided to remain inside. Not a single fishing boat put in on Friday morning. Boats outside evidently thought it expedient to seek shelter and come to anchor until the wind abated.

The launch Joy Bird, Capt. Jimmy Thomas, has been busy during the past week between the Cow Bay base and Metlakatla.

**Rate Again**  
Skipper Sandy Finlayson, assistant commodore of the Prince Rupert Yacht club, is suffering with a bad attack of the rats again. Since his appointment as chief rat catcher to the Mosquito fleet Sandy has been waging terrible war upon the rodents. This week he has the distinction of taking unto himself an additional rat's tail having caught one of the vermin trying to swipe his travelling trunk. When Sandy spied the monster rat his trunk was quickly vanishing through the door the rat pushing behind. But for the fact the trunk caught on the side of the door in all probability the rat and trunk would have been on its way south now. It is Sandy's ambition to catch one of the giant rodents alive with the idea of floating a syndicate to stage a side show at the next fair. Sandy says if one could only catch a rat alive and train it to harness it would

## SMOKING CONCERT WAS SUCCESSFUL AFFAIR

G.W.V.A. Staged Entertainment Last Night — Songs, Music and Speeches

A very successful smoking concert was held by the Great War Veteran's Association last night, President W. E. Denning occupying the chair. Prior to the commencement of the concert the usual one minute silence was observed in honor of departed comrades.

An excellent musical program was furnished during the evening by the band of the First North B.C. Regiment under the leadership of Bandmaster Beale. A splendid program of songs was rendered by Wright Davis, A. J. Bishop, Bob James and Jim Murray. A pianoforte solo by Fred Hayter was much appreciated. During the entertainment appropriate addresses were given by Fred Stork, M.P., American Consul E. A. Wakefield and Mayor S. M. Newton. Delightful refreshments were served by George Richmond of the St. Regis Cafe.

The company broke up a little after midnight with the singing of the National Anthem. Those responsible for the success of the evening were Norman Short, C. L. Youngman, A. J. Bishop and R. James.

## FOR 15 YEARS WAS TROUBLED WITH ECZEMA

There is no other remedy like Burdock Blood Bitters that can possibly give such relief to all sufferers from eczema, salt rheum and all other diseases of the blood for the reason that this old and well tried remedy goes right to the seat of the trouble and completely and permanently drives these diseases out of the system by cleansing the blood and making it pure and rich.

Mr. F. W. H. Schultz, Pembroke, Ont., writes: "Having been troubled with eczema for fifteen years, during which time I tried everything I could think of, including doctors, but without getting anything to do me much good I finally decided to take Burdock Blood Bitters, and I was certainly surprised to find that two weeks after I had started to take it I was relieved of my trouble. That was nine months ago, and I have not had a sign of it since. I surely wish to thank you for this wonderful medicine and strongly recommend it to anyone suffering from the same trouble as I had."

B.B.B. is manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

## CANADIAN HIGHLANDER LOADS 579,000 FEET AND SAILS FOR SOUTH

The Canadian Government Merchant Marine freighter Canadian Highlander, Capt. Fisher, completed the loading of 579,000 feet of lumber for the Orient yesterday afternoon and left port at 8 o'clock last night for Chemainus where she will remain for three days to take on additional lumber cargo. From Chemainus the Highlander will proceed to Vancouver prior to sailing for Yokohama.

## MOTOR ACCIDENTS IN MONTREAL INCREASE

Seventy-seven Deaths From Car Accidents in 1923—Sixty-five in 1922

MONTREAL, Jan. 5.—Seventy-seven persons were killed in automobile accidents in this city and vicinity during 1923. Deaths from this cause show a steady increase compared with former years. There were 45 such accidents in 1921 and 65 in 1922. Of the 77 deaths this year, 40 were adults and 37 were children.
