

LEGISLATIVE DEBATE FEDERAL HOUSE CLOSES

LIBERAL CANDIDATES NOMINATED IN SKEENA AND ATLIN CONSTITUENCIES

Government Budget Accepted at Ottawa Today by 165 to 53

OTTAWA, May 16.—After an all night session to end the budget debate, the division was taken this morning at 7.15 o'clock and the government budget was accepted by a majority of 112. The vote was 165 for and 53 against.

Three Liberals—W. D. Euler of Waterloo North, H. Marler of St. Lawrence-St. George, and W. G. Raymond of Brantford—voted against the budget as did one Progressive, William Elliott, of South Waterloo. With these exceptions, Liberals and Progressives supported the budget.

All the Conservatives voted against the amendment of J. S. Woodworth, Labor, Winnipeg, calling for an immediate and substantial reduction in the tariff on necessities of life, an income tax on unimproved land exempted from taxation and for a graduated inheritance tax. It was defeated by 294 against and 16 for, the majority against being 188.

The vote was taken after a debate which, for length and the number of speeches, has probably never been surpassed in the history of the Canadian parliament. The budget was brought down over a month ago and with intervals there has been debate thereon practically ever since.

RUSSIA GETS APOLOGY BUT NOT ENOUGH

Germany Sends Note Saying That Police Exceeded Prerogative in Making Raid

BERLIN, May 16.—The German government, in a note to the Soviet government of Russia, expresses regret that the Berlin police exceeded their prerogative in making a raid recently on the Russian trade mission here. This note is not expected to end the controversy since Russia is reported to be making demands the satisfaction of which it is regarded will be incompatible with Germany's honor.

BONUS VETOED BY PRESIDENT

Coolidge Throws Out Bill Which Was Passed by Congress and Senate

WASHINGTON, May 16.—President Coolidge yesterday vetoed the Soldiers' Bonus Bill which was passed by the House and Senate. He declared that no bonus was due able bodied veterans as their services could not be paid for. The gratitude of the nation was not to be expressed in dollars and cents and patriotism could not be bought or sold. He also stated that the country could not afford the vast expense that the scheme would entail.

THOMAS DUNLOP BELIEVED DEAD

Government Engineer at Smithers Presumed to Have Drowned in Bulkley River

SMITHERS, May 16.—Thomas Dunlop, assistant engineer for the provincial department of public works in Omineca district, is believed to have lost his life by drowning yesterday afternoon. Being seen then inspecting a pier of the bridge over the Bulkley River back of Smithers, he has been missing since. It is surmised that he fell into the river and lost his life. The provincial police are conducting a thorough search.

Mr. Dunlop was about 35 years of age and had been in this district for several years, being with the provincial department of public works for about five years. He was an efficient and popular official. He was born in the north of Ireland and has a wife and two children resident at Smithers.

DR. WRINCH FOR SKEENA

Nominated Unanimously at Hazelton Convention After Compromise

HAZELTON, May 16.—Neither Olof Hanson of Prince Rupert nor E. T. Kenney of Terrace received the Liberal nomination for Skeena riding here yesterday, although both had delegates in their favor. Instead, Dr. H. C. Wrinch, superintendent of the Hazelton hospital, was chosen. He received the unanimous endorsement of the convention after a compromise had been reached.

After all efforts had been exhausted to choose between Mr. Kenney and Mr. Hanson, Dr. Wrinch, being specially summoned, accepted the nomination.

Dr. Wrinch is numbered among the earliest living white residents of Hazelton. He came here many years ago as a medical missionary and is known and respected by almost every person in the district. It is not anticipated that he will have any trouble in carrying the district for the Liberals.

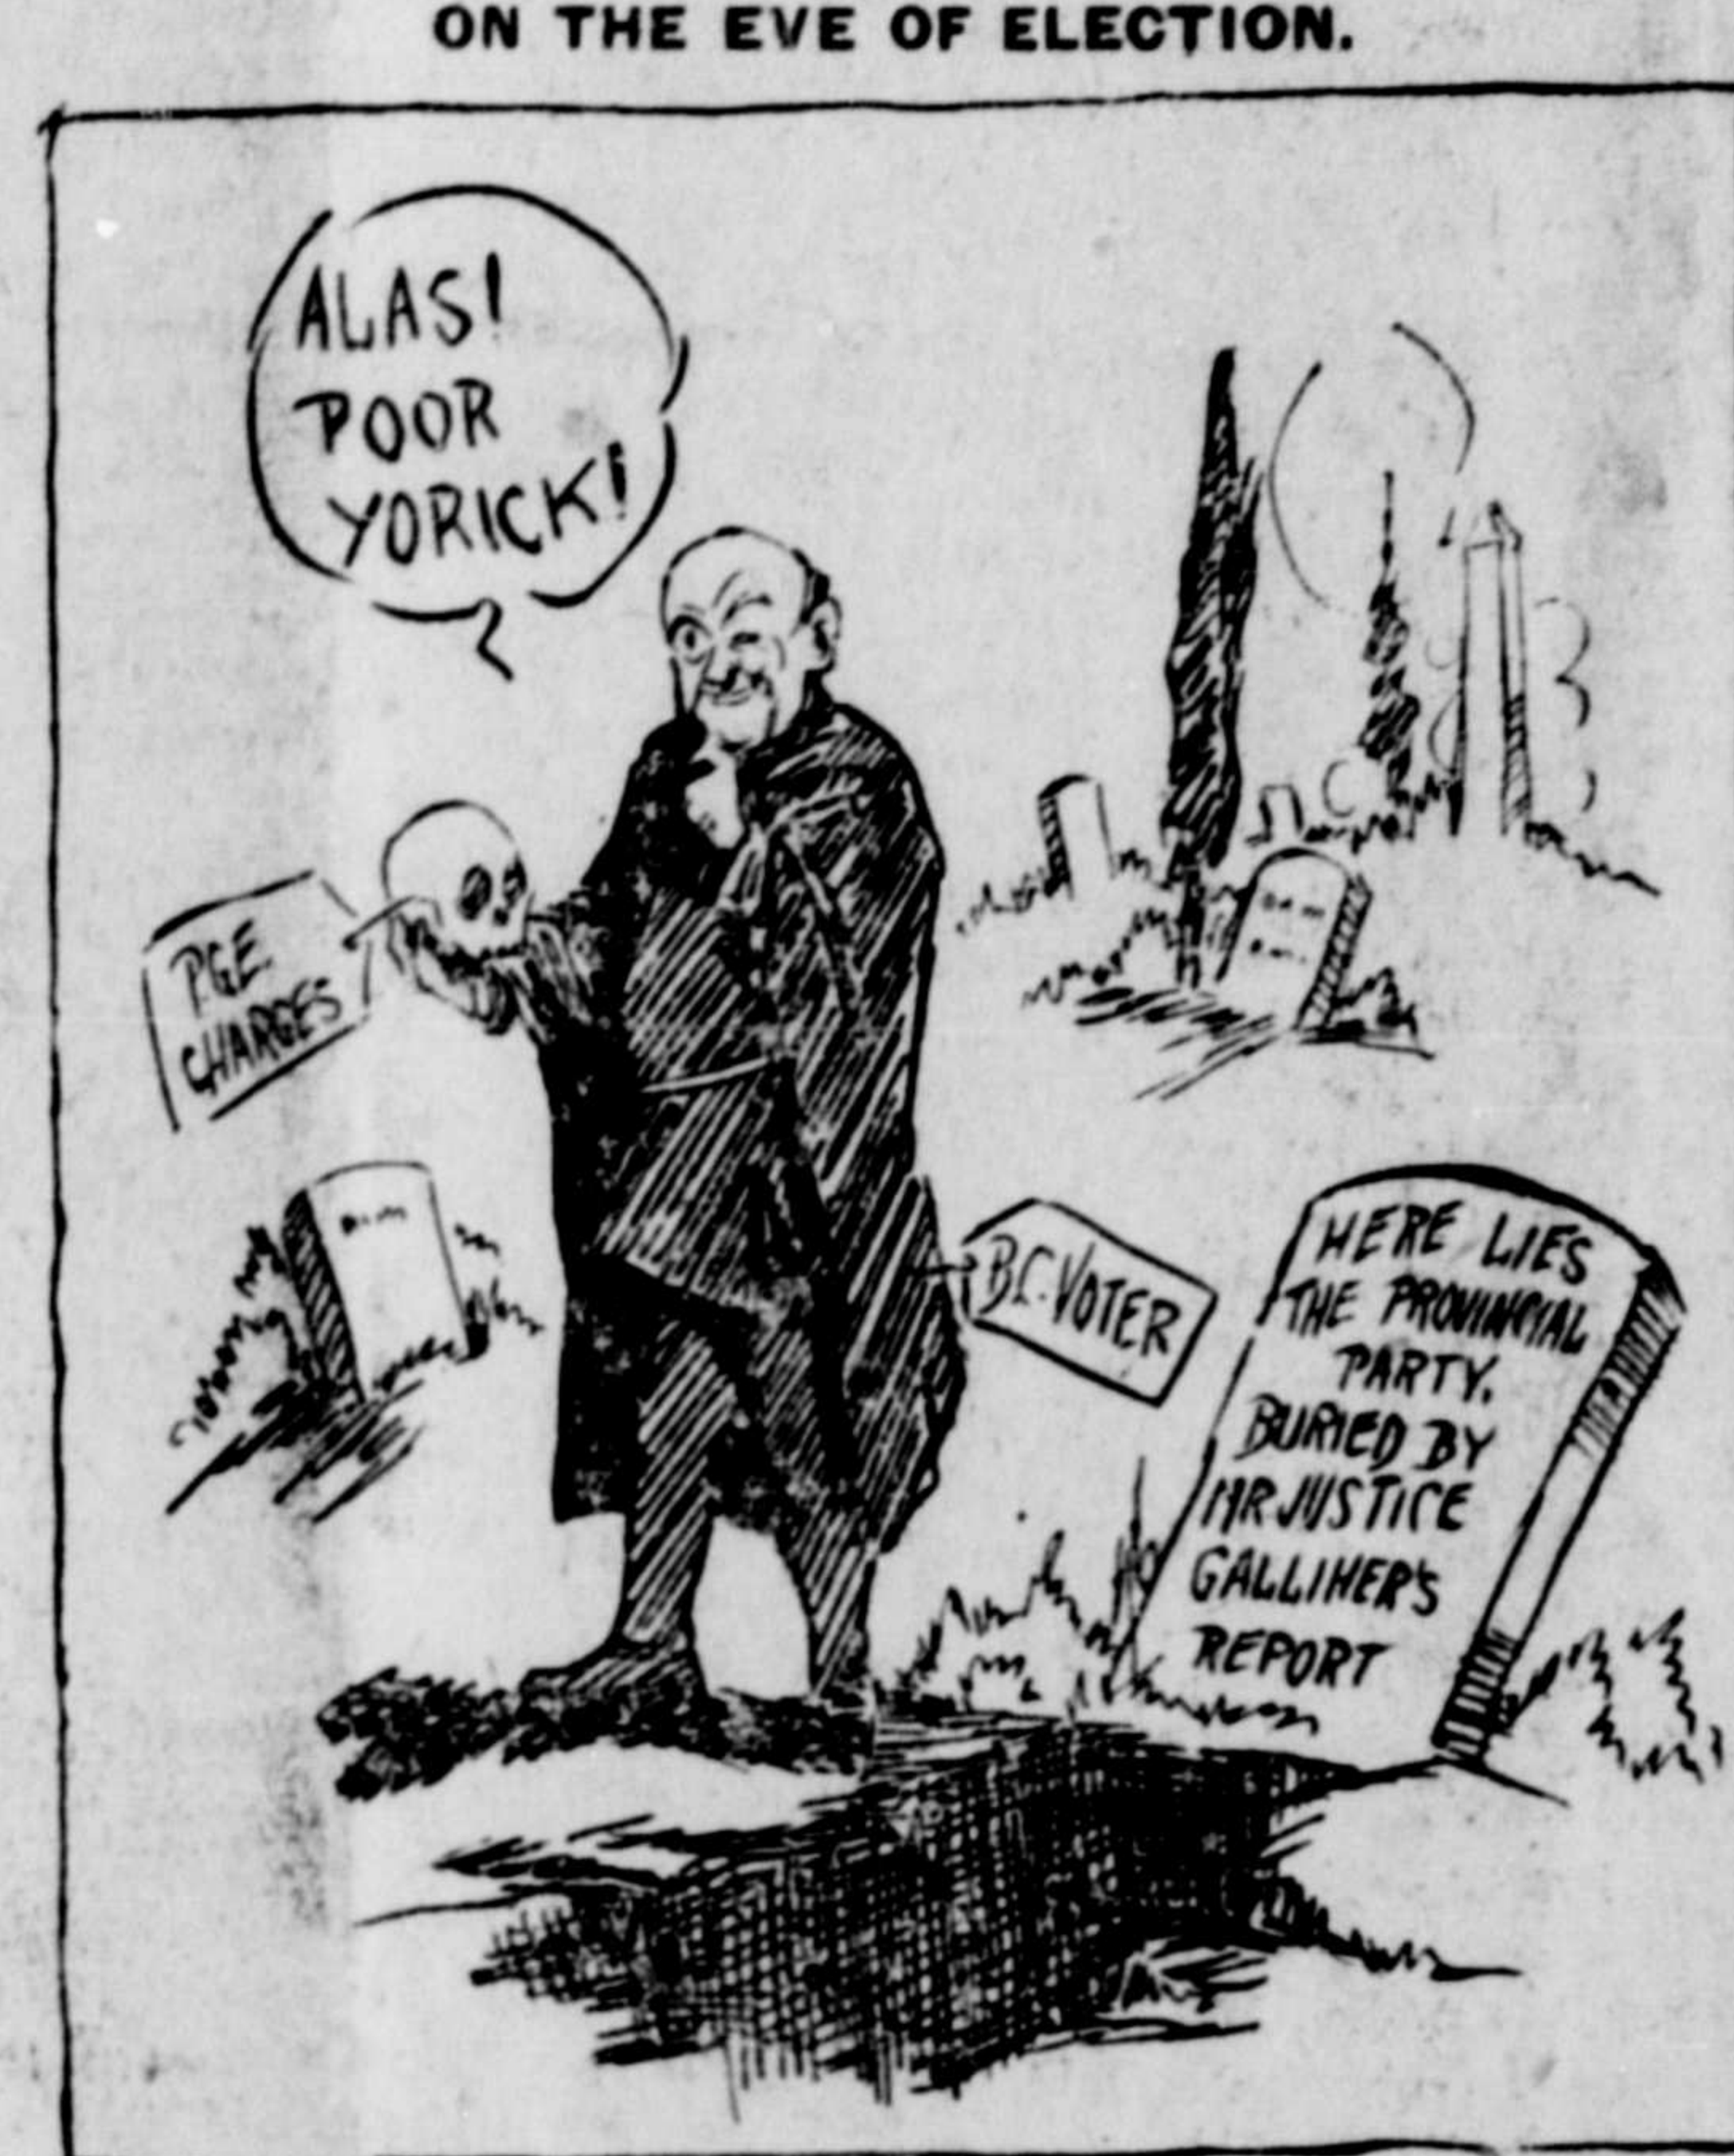

R. S. Sargent of Hazelton will be the Conservative candidate and F. M. Dockrill of Telkwa, former Conservative candidate in Omineca, is said to be the probable nominee of the Provincial Party.

CONTRACT FOR CHURCH LET

Mitchell & Currie Will Erect Edifice For Presbyterians

At a meeting of the board of management of the Presbyterian Church held yesterday afternoon to open tenders for the erection of the new church on Fourth Avenue East, the following were received:

E. H. Shoekley, \$27,299. Mitchell & Currie, \$25,800. As the tender of Mitchell & Currie was the lowest it was agreed to place the erection of the building in their hands.

KERGIN IS NOMINATED

Present M.L.A. is Again Candidate—Armour is Provincial Choice

(Special to Daily News) ANYOX, May 16.—H. F. Kergin, M.L.A., was unanimously chosen at the Liberal nominating convention here Wednesday evening to contest Atlin constituency in the forthcoming provincial election. There were twenty delegates present from various parts of the district and much enthusiasm was manifested. Having given his riding good service during the last parliament, it is confidently expected that Mr. Kergin will be returned with a substantial majority.

The Provincial Party also held its convention here on Wednesday but it was not as harmonious as that of the Liberals. The contest for the nomination resulted in Bob Armour, steam engineer of Anyox, being chosen candidate over H. W. M. Roiston, the Stewart newspaperman, by one vote.

PATTULLO AT OCEAN FALLS

Minister Had Enthusiastic Meetings There and at Q.C.I. Points

(Special to Daily News) OCEAN FALLS, May 16.—Hon. T. D. Pattullo, minister of lands, had very encouraging and well attended meetings at Skidegate and Queen Charlotte City on Monday and a very large and enthusiastic meeting here last night. D. G. McKay, Liberal nominee for MacKenzie constituency, also spoke.

LONDON, May 16.—Captain Charles Hodder, marine superintendent for the Canadian Pacific Railway, is dead here.

New Clam Cannery at Tow Hill Will be Running Shortly With Big Payroll; Settlers Wanted

That the new clam cannery situated at Tow Hill, 16 miles east of Massett, Queen Charlotte Islands, will be completed and running, employing 200 men and women, by the end of the month, was the statement made this morning by Capt. H. B. Babington of the Langara Fish & Packing Co. who, in company with Capt. E. H. Simpson, a business associate, arrived in the city last night on the company launch Waterfall. A new warehouse has been built at Massett adjoining the government dock for handling the inward and outward freight during the season. The launch Waterfall had a cargo of canned clams for the south and will take empty cans back to Tow Hill.

Mining Active

The P.B.C. Mining Company of Seattle are looking into the placer mining possibilities on the north end of the island and have had an engineer and crew working there all winter, Capt. Babington states. An assay office and an experimental smelter employing half a dozen men, have been started. Several Philadelphia mining capitalists interested in the company are now on the islands in connections with the development work.

Hebridean Settlers

Capt. Babington is negotiating with the immigration department of the Canadian National Railways for the securing of settlers from the Hebrides for the Queen Charlotte Islands. However, nothing definite in this direction has yet been arranged.

If Capt. Babington can complete his business in the city in time it is his intention to return to Tow Hill on Saturday evening on the launch Waterfall.

LLOYD GEORGE MADE PROMISE

Report Circulated in Belfast Further Complicates Irish Boundary Dispute

BELFAST, May 16.—A report has been circulated here to the effect that Ex-Premier David Lloyd George gave privately to the late Michael Collins, president of the Irish Free State, assurance that the boundary settlement would involve the transfer of a large portion of Ulster territory to the Free State and that Collins imparted this information to Sir James Craig, the premier of Ulster. The boundary commission, it is stated, was to have become operative failing an agreement being reached between Ulster and the Free State.

PATTULLO WILL MEET ELECTORS

Last Chance To Get On List.

A court of revision on the provincial voters' list will sit on Monday from 10 o'clock until 5 o'clock. This will positively be the last opportunity for prospective voters to get on the list and all those who are entitled to vote but who have not yet taken the necessary steps to be registered are urged to act accordingly.

Applicants are required to appear in person. Transfers from one constituency cannot be made within thirty days of nomination day and, as nomination day—May 30—is within this period, no transfers may now be made for the forthcoming election. Such voters on the list at other places may vote for a candidate at such other place but not for a candidate here.

Liberal Return To Power Seems Likely.

The fifteenth legislature of British Columbia has passed into history and it will be less than six weeks until the votes are counted for the sixteenth.

The new House will have forty-eight members instead of forty-seven. Three representatives have been cut off by the combining of Grand Forks-Greenwood, Rossland-Trail, and Cowichan-Newcastle. However, five new ridings have been created under the redistribution bill passed last session. These are Burnaby, Mackenzie, Skeena, Creston and Salmon Arm. One old riding, Kaslo, has disappeared altogether, part of it being included in the Creston and part in Slokan.

For the first time since party lines were drawn in British Columbia, over twenty years ago, there are three distinct parties in the field. The advent of the Provincials, under General A. D. McRae, is conceded to mean the return of the Oliver administration by a handsome majority.

An unbiased summary of the election chances by leading newspapermen give the government a minimum of twenty-eight seats, out of the forty-eight. Few there are who concede the Provincials even two seats, while plenty of wagers have been offered that the McRae forces would be left without a winner at all.

With a short and whirlwind campaign, action is being speeded up rapidly. The Premier will make a tour of the province, while the policy of the reigning party will be fully explained to the electorate by experienced speakers.

Speaking German In French Parliament.

It will seem anomalous for the Chamber of Deputies in France to listen to addresses in German and much more so to have a member who can speak nothing else. When it further comes to having such a member a Communist the situation is more novel than ever. However, M. Hucher may be just as loyal a Frenchman as any of the others. He has probably grown up in Alsace under German rule, which the French did not relish, and perhaps never had the opportunity of ridding himself of the superficial effects thereof among which was the compulsory and exclusive speaking of the German language.

SPEAKERS TELL OF HOSPITAL

Interesting Addresses at Rotary Club Yesterday by McRae and Campbell

There was a large gathering at the Rotary Club luncheon, held in the St. Regis Cafe yesterday, when the members of the Hospital Board, Miss E. McCaul, matron, and Harry Birch, secretary to the General Hospital, were the guests of honor. Other visitors of the day included Mrs. D. W. Morrissey, representing the Ladies' Hospital Auxiliary; S. D. Macdonald, representative of the city council to the board and Dr. E. A. H. Bennett of Ocean Falls. D. C. McRae, president, and S. K. Campbell, vice-president of the Hospital Board were the principal speakers giving short talks on hospital matters.

An interesting ceremony during the luncheon was the presentation of a \$1,000 cheque by the Rotary Club to the Hospital Board this being the amount promised by the Rotarians for the completion of the upstairs portion of the new Nurses' Home. The presentation was made by Rotarian Geo. Rorie, secretary of the Rotary Club, in a neat and humorous speech. D. C. McRae, president of the Hospital Board, accepted the cheque on behalf of the Hospital Association suitably thanking the donors.

President's Talk

In talking on hospital matters D. C. McRae, president of the hospital board, said that the idea of a National Hospital Day was rather a new one. The date, May 12, was chosen because it was the birthday of Florence Nightingale who was born in 1820.

One of the objects of Hospital Day was to get everybody talking hospital. As a matter of fact most people did not think hospital and it seemed to be one of the things that they did not want to think about. The majority of people seemed to shudder at the mention of hospitals, doctors and dentists but this was only because people did not know anything about them and did not understand them. When one got in touch with the hospital and knew the workings of an institution, such as that in Prince Rupert, it was an easy matter to walk in and out of a hospital. Although not one individual possessed any financial stock in the Prince Rupert Hospital Association, nevertheless it was the people who lived in the city that owned the hospital. It was just as much a public institution as the city hall or the schools except that the municipal institutions were carried on by paid officials and if there was any deficit the people of the city had to come to the rescue either through the city council or by passing the hat. People did not realize that the hospital was just as much a municipal institution as the schools, etc.

Work Accomplished

During the past year the hospital had been able to accomplish several undertakings of interest. Mr. McRae said. The completion of the new Nurses' Home at a cost of \$20,000, was one of the most important. Additional X-ray equipment had also been installed at a cost of \$1850 which was not all paid for. The sterilizer had also been converted from a gasoline burner to electricity. The electrical wiring had been put in conduit at a cost of \$605. The equipment inside the hospital had also to be taken care of which is being done as fast as money can be obtained. The building had to be painted and also the grounds had to be improved but it was hard to see where the money was coming from.

Speaking of the hospital executive the speaker said that in the matron and the secretary the association had a team of which they could be justly proud.

S. K. Campbell

S. K. Campbell, vice president of the hospital board, in his talk, traced the growth of the medical profession and the organization of hospitals from 4000 years B.C. In speaking of finances in connection with the hospital he said that when he came to grips with actual cases and saw the injustice of the present system of raising revenue he sometimes considered the advocating of municipal or state control of hospitals. He felt it was a psychological fact that if

a person invested his money in an object that he would follow it with keen interest. However, if the control of hospitals were left entirely to state or municipal operation they would lack the personal touch in carrying on the work. In conclusion the speaker said "If the human touch is there there is no doubt in the world of the financial part."

Other speakers were George Rorie, T. Ross Mackay and E. H. Mortimer.

Snowy Bed Linen—fragrantly clean

Clothes washed with Sunlight Soap are naturally cleaned, not chemically cleaned. The pure Sunlight lather goes through and through the clothes, loosening dirt and restoring each thread to a natural state of cleanliness.

HOW sweet and wholesome is that welcome sense of fragrance which comes from well washed linen. How refreshing it is to lie between clean sheets, to rest one's head on a snow-white pillow case; to breathe deeply in an atmosphere of purity; to feel and to know that the things around you are absolutely clean.

To bring about this refreshing sense in the mind of guest or family is a triumph well worth the attention of any housewife. It is best accomplished by using Sunlight Soap.

To get bed clothes snowy white it is not necessary to boil them or rub holes on the wash board. The sure power of Sunlight Soap itself extracts every trace of soil while the things are soaking. In the rinse it all comes away—all the dirt and every particle of soapy matter, leaving not gray-whiteness, not yellow-whiteness, but snowy white purity and cleanliness.

HONESTY EXEMPLIFIED

EDMONTON, May 16.—"Were you in Dawson City, in the Yukon in 1903 with the Royal Northwest Mounted Police?" asked a burly chap who walked into the office of Inspector J. S. Piper at headquarters of "A" division of the Alberta provincial police, recently.

"I was," responded the inspector.

"Well, I borrowed fifty cents from you in 1903," said the stranger, "and here is your money."

With that the man left the office, refusing to disclose his name.

MANY SETTLERS ARE ARRIVING

European Immigrants Landing in Large Numbers at Atlantic Ports

MONTREAL, May 16.—Close upon 2,200 new settlers will arrive in Canada over the week-end through the ports of Quebec and Halifax according to reports received yesterday by James Morrison, general passenger and freight agent in charge of steamship traffic, Canadian National Railways. They will proceed to Montreal in six special trains over the National system. Of the number 1,500 will disembark at Quebec and the remainder at Halifax.

The White Star Dominion liner Regina is expected to arrive at Quebec late on Saturday evening from Liverpool and Belfast with 722 passengers. Among them are four specially conducted parties, these having been brought to Canada by the Ontario government, the Salvation Army and the British Dominions Immigration Society. These are for the most part new settlers destined for points in Ontario and Western Canada. In addition are a party of Dutch immigrants who will settle in the neighborhood of Chatham, Ontario.

The Ausonia of the Cunard line is also due at Quebec sometime on Saturday from Southampton and Cherbourg with 516 passengers, including a special party being brought to Canada under the auspices of the Church Army and who are destined for Western Ontario points. Another steamer due to arrive at Quebec on Saturday is the Anchor-Donaldson liner Saturnia with 268 new settlers from Glasgow.

There were two arrivals at Halifax yesterday. The new Amsterdam of the Holland-American line from Rotterdam arrived with 97 passengers. Today will see the arrival of the Swedish-American liner Stockholm from Scandinavian ports with 176 passengers, tomorrow the Lapland of the Red Star line will arrive from Antwerp and Southampton. La-Bourdonnais, a steamer of the French line from Bordeaux, is expected to land passengers at Halifax on Sunday. All will proceed to Montreal and west by special train over the Canadian National Railways.

FISH ARRIVALS

Eight Boats Marketed 122,000 Pounds at Exchange Today

Three American and five Canadian schooners landed a total of 122,000 lbs. of halibut this morning. Of this total the Americans had 93,000 lbs. and the Canadians 29,000 lbs. Prices offered on the Fish Exchange remained about the same as yesterday for American fish while Canadians received a cent more for first class fares.

BY NO MEANS ALLOW YOUR BOWELS TO GET CONSTIPATED

If you allow your bowels to become constipated you will have bilious attacks, sick headaches, coated tongue, foul breath, sallow complexion, specks floating before the eyes, whites of the eyes dull and yellow, hoarseness, water brash, etc.

Keep your bowels regular by using Milburn's Laxa-Liver Pills, as by doing so you will be able to keep well and have no more trouble with your liver.

Mrs. I. Rubin, Halbrite, Sask., writes: "I was very badly troubled with constipation, often had bad headaches, my tongue was coated, and I felt anything but well."

After taking Milburn's Laxa-Liver Pills I have felt much better as they certainly did me a lot of good."

Milburn's Laxa-Liver Pills are 25c. a vial at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

Red salmon landings were heavy today when four packers landed a total of 14,150 lbs. which sold around 12c. The arrivals were:

American

Atlantic, 23,000 lbs., at 10.2c and 5c to the Booth Fisheries Canadian Co.
Panama, 25,000 lbs., at 9.7c and 5c to the Canadian Fish & Gold Storage Co.
Vansee, 45,000 lbs., at 10.3c and 5c to the Alfin Fisheries for Ketchikan delivery.

Canadian

Joe Baker, 4,000 lbs., at 10.1c and 5c; Scrub, 7,000 lbs., at 10.1c and 5c; Fanny F., 3,500 lbs., at 10.1c and 5c, to the Canadian Fish & Gold Storage Co.
Gibson, 8,000 lbs., at 10.2c and 5c to the Alfin Fisheries.
Ha, 6,500 lbs., at 10.2c and 5c to the Booth Fisheries Canadian Co.

Salmon

Elkin, 350 reds and Siljan, 600 reds, at 12c; Overtime, 4,800 reds, 1,400 white at 12.6c and 3c to the Alfin Fisheries.
Taplow, 5,400 reds sold to the Canadian Fish & Gold Storage Co. at 11.8c.

SELF DENIAL WEEK

Your generous support will be greatly appreciated by Captain and Mrs. Coleman of the Salvation Army in connection with the Self Denial Tag Day tomorrow, Saturday.

In times past, the citizens of Prince Rupert have not failed in their timely help toward this good and noble cause. So once again the time has come for all to be given an opportunity to do their best.

Will you help them hit their target of \$800.00?

DECIDED TO FORM BASEBALL LEAGUE

Three Teams Will Enter, Sons of Canada, Gil's and Columbus Club—First Game, May 24

It was decided at a meeting of the Prince Rupert Baseball Association last night to form a City League comprising teams to be known as the Sons of Canada, Gil's and Columbus Club, the last mentioned being under the auspices of the Knights of Columbus. The first game of the season will be on May 24 between the Sons of Canada and Columbus Club.

The players will be lined up later and the schedule will be issued towards the end of the month.

The possible was 30.

If the rifles arrive in time, it is proposed to hold the first shoot at the McNicholl Creek range on Sunday next.

Sport Chat

The Sons of Canada and Sons of England meet in tonight's football league fixture to break the tie that now exists between the two aggregations for league leadership. Both teams have won their opening games—the Englishmen having been successful over the Callies and the Canadians over the Great War Veterans. The popular opinion may be slightly in favor of the Canucks but the Old Country men made a pretty good showing against the Callies in the first game of the season and are fielding their team of new blood tonight with the expectation that they will give the native sons all they want to handle. There will doubtless be a good crowd of interested spectators.

TY COBB IS REAL RECORD SMASHER

DETROIT, May 16.—Ty Cobb is smashing major league records this year every time his name appears in a box score.

During 19 years Cobb has played more games than any other American League player. The figure stood at 2,449, when the season opened, and each appearance this year establishes a new high mark.

Cobb also sets a new record this season every time he has a time at bat, every time he singles every time he triples, every time he hits safely, and every time he scores. Demolition of these records automatically results in the fracture of others. Each triple, for example, adds to his record of the most extra base hits and also to his record for the most extra bases on hits. Likewise, every safe hit increases his record total bases.

In addition to these marks that are daily targets of the Tiger manager, there are others that are likely to tumble if he plays in 100 or more games, among them his record of having batted .300 or better for 18 seasons.

HOSPITAL HAD MANY VISITORS

New X-Ray Equipment Proved Interesting — Was Fully Demonstrated

National Hospital Day was fittingly observed at the Prince Rupert General Hospital yesterday afternoon when from 3 to 5 o'clock the institution was thrown open for inspection. The popularity of the Hospital Day movement was clearly demonstrated by the large number of citizens who took advantage of the opportunity to see the hospital organization in operation. D. C. McRae, president of the Hospital Board, Miss Edith McCaul, matron, and Harry Birch, secretary to the hospital, received the guests as they arrived and willing nurses were on hand to show the visitors around. The operating room, the nursery, surgical ward, women's ward, men's ward, in fact one and all of the various departments came in for commendation and gifts of flowers and fruit found their way to the bedsides.

X-Ray a Wonder

The most frequented portion of the building and the one to create the most interest was the X-Ray room situated in the basement. Secretary Birch and Dr. L. W. Kergin demonstrated the work so easily performed by the equipment which was recently installed. The ease with which the apparatus is worked and the results so quickly obtained must be seen to be realized. When the average person thinks of X-raying he is apt to conjure up electric shocks and all sorts of weird happenings but there is nothing of the kind to worry about.

There are three main parts to the apparatus which is of considerable dimensions. First there is the generator, controls and switch board which throws the penetration of electrical current through high tension wires to the second part of the apparatus, the X-ray proper, otherwise known as the Coolidge tube. The penetration through the Coolidge tube thrown on to a movable table underneath it on which the patient is laid on a Bucky diaphragm gives an X-ray of the body or members thereof, photographs being taken on a sensitized plate.

The third piece of the apparatus is called the fluoroscope which consists of a screen like piece of furniture connected with tubes at the back and in front of which is a movable heavily frosted plate, similar to the viewfinder of a camera. This plate works up and down at will. A patient placed behind it, the bones, heart and other parts of the body are plainly discernible. With the fluoroscope it is possible for the doctors to locate a fracture or break in the wrist, arm or leg immediately and when such injured member has been set this part of the X-ray apparatus will show whether the member has been correctly set.

BRIDGE PARTY

WARNING WORD WILDCAT STOCK

Issued by F. H. Mason, Mining Writer, in Vancouver Sun

In the past the people of British Columbia have shown such complete indifference to the possibilities of the mineral industry of their province that one hates to run the chance of checking the little enthusiasm that has been aroused within the last few months. Still, a note of warning is necessary. Just now a good deal of mining is being done on paper. For the purpose of selling stock or of raising the market quotations of stocks that already has been sold some promoters and brokers have been issued absurdly extravagant statements about the values of ores and the geological conditions occurring on mineral properties. Ore values running into the thousands of dollars per ton are being tossed around with a savoir faire that might lead the uninitiated to believe that the promoters know something about what they are saying.

One concern stated that the geological conditions at the surface of a property indicated that the grade of ore found in the outcrop, which assayed more than \$1000 per ton, persisted to a depth of 1000 feet.

Will Do Harm

This kind of thing is all poppycock, promulgated to snare the unwary into buying stock. If there were the slightest geological indication that ore assaying \$1,000 per ton persisted to a depth of 1,000 feet it is safe to say that the shares of the company owning it would not be on the market. There are scores of well-financed concerns hunting for anything one-tenth as attractive and willing to pay a good price for it—if they could find it. This claptrap, however, catches a certain class of people—unfortunately, those who can least afford to lose their money—and if not exposed is certain in the long run to harm the mining industry of British Columbia.

Risks Are Great

People who are asked to invest in the exploration of prospects should be told candidly and fairly that the risks are great, but in the event of success the rewards also are great and usually more than commensurate with the risks. The exploration of prospects is an expensive enterprise, and usually can be done successfully only by combined efforts; hence the formations of companies for this purpose are fair and legitimate promotions, provided their are not hoodwinked out of their money by false and extravagant statements. Some undoubtedly promising mining investments are being offered to the public at this time, but, also, some exceedingly doubtful ones are being offered. It behooves investors, therefore, to make a careful investigation into any concern into which they propose to put their money, and particularly to ascertain that the money subscribed is used for mining and not for promotion.

INTO THE ATTIC

Few youngsters today ever saw a horse-hair sofa. They wouldn't know what to do with a fire taper, carpet stretcher, or coal oil lamp. They couldn't braid rags into a rug, or wind yarn without tangling. But they know the how and why of typewriters, phonographs, telephones, automobiles; what happens when a push of the button gives light, or a kodak's flash fixes their image on paper.

Their education is as modern as the advertisements they see. They have no more use for the lamp and chimney of yesterday than you for the wick and tallow of the day before.

Advertisements induce such progress. They urge wide use that means improvement. They help you lift the out-of-date into the attic—rid you of the water buckets and soap kettles of slavery. They bring late improvements within your reach.

Read the advertisements regularly. Keep alert to the new.

Without advertising, you would never know a product's worth until you had bought it.

PET BEAR CUB BITES LITTLE TERRACE GIRL

Susie is a Little Too Playful for Miss Kathleen Burnett

TERRACE, May 16.—Kathleen Burnett, the twelve year old daughter of Mr. and Mrs. W. Burnett, had her lip badly cut in two places by Susie, their pet bear cub. They had been playing together and Kathleen had just picked the cub up and was burying her face in the fur when the bear, continuing the romp, bit her lip.

Susie was brought to town a couple of months ago by some Indians who had killed her mother and taken the cub from the den. When the Burnetts got her she only weighed two pounds but has gained rapidly. She has a playful disposition and is the pet of the whole neighborhood. Mr. Bennett had already written to Jasper Park and to Vancouver offering to present her to them and will keep her till he receives a reply from them.

GERMANY IS LOSING MUCH MAN-POWER

Emigration to New Worlds Undermining Country's Reconstruction Ability

BERLIN, May 15.—Germany had six per cent less population at the beginning of 1924 than it had at the beginning of 1913, according to the estimates of the German statistical office. The total population is now placed at 63,500,000.

An analysis of the figures shows the decrease in man power has been more marked than the general decline. There are now seven per cent fewer men between the ages of 15 and 65, and the number of able-bodied men between 20 and 45 has been dropped 13 per cent. Also the proportion of children under ten has dropped from 33 per cent to 18 per cent.

Emigration is making violent reductions in population of the very character that Germany needs most for reconstruction. Discussing the migration of the sturdiest of Germany's young farmers, industrial workers, tradesmen and technicians, Dr. Berger, counsellor to the cabinet on subjects relating to emigration, says Germany's ability to reconstruct itself speedily is being undermined by the flight to the new world.

While he does not advocate the restriction of emigration, he suggests that the social condition of the working class must be raised so as to make it more inviting for the workers to remain in Germany.

ATTEMPT WILL BE MADE THIS YEAR TO SCALE MOUNT ROBSON

EDMONTON, May 16.—An attempt to scale Mount Robson will be made by members of the Alpine club of Canada this summer according to plans of the directors of the club. Arrangements are also being made for an expedition to the summit of Mount Logan, Canada's highest peak, in 1925. Abandonment of the attempt this year was necessitated owing to difficulties encountered in organizing the party and also lack of financial backing. A representative of the American Alpine club has been invited to join the party and the offer has been accepted.

The expenses connected with such an undertaking are considerable, it being estimated that it will take at least \$11,500 to properly finance the expedition. The club has at present approximately \$4,000 toward this end and the officers of the organization expect the remaining sum will be raised before the spring of 1925.

COAL SHIPPING ON P.G.E. COMMENCES

Business Will be Encouraged and Drive for Settlers is to Start

VICTORIA, May 16.—The announcement is made by Hon. J. D. MacLean, provincial secretary and minister of railways, that shipments of coal from the P.G.E. Railway country have commenced. Every encouragement was given by the government to the mine-owners, who will produce about 200 tons per day if the coal meets market conditions.

During this summer special inducements are being offered settlers to take up land along the government line and business interests will be shown the country and its business prospects. A determined drive for settlers has started.

SYNOPSIS OF LAND ACT AMENDMENTS

PRE-EMPTIONS

Vacant, unreserved, surveyed Crown lands may be pre-empted by British subjects over 18 years of age, and by aliens on declaring intention to become British subjects, conditional upon residence, occupation, and improvement for agricultural purposes.

Full information concerning regulations regarding pre-emption is given in Bulletin No. 1, Land Series, "How to Pre-empt Land," copies of which can be obtained free of charge by addressing the Department of Lands, Victoria, B.C., or to any Government Agent.

Records will be granted covering any land suitable for agricultural purposes, and which is not timber land, i.e., carrying over 5,000 board feet per acre west of the Coast Range and 8,000 feet per acre east of that Range.

Applications for pre-emption are to be addressed to the Land Commissioner of the Land Recording Division, in which the land applied for is situated, and are made on printed forms, copies of which can be obtained from the Land Commissioner.

Pre-emption must be occupied for five years and improvements made to value of \$10 per acre, including clearing and cultivating at least five acres, before a Crown Grant can be received.

For more detailed information see the Bulletin "How to Pre-empt Land."

PURCHASE

Applications are received for purchase of vacant and unreserved Crown lands, not being timberland, for agricultural purposes; minimum price of first-class (arable) land is \$5 per acre, and second-class (grazing) land \$2.50 per acre. Further information regarding purchase or lease of Crown lands is given in Bulletin No. 16, Land Series, "Purchase and Lease of Crown Lands."

Mill, factory, or industrial sites on timber land, not exceeding 40 acres, may be purchased or leased, the conditions including payment of stumpage.

HOMESITE LEASES

Unsurveyed areas, not exceeding 20 acres, may be leased as homesites, conditional upon a dwelling being erected in the first year, the being obtainable after residence and improvement conditions are fulfilled and land has been surveyed.

LEASES

For grazing and industrial purposes areas not exceeding 640 acres may be leased by one person or a company.

GRAZING

Under the Grazing Act the Province is divided into grazing districts and the range administered under a Grazing Commissioner. Annual grazing permits are issued based on numbers ranged, priority being given to established owners. Stock-owners may form associations for range management. Free, or partially free, permits are available for settlers, campers and travellers, up to ten head.

LAND ACT.

Atlin Land District, District of Cassiar.

Take Notice that Reginald Brook, of Atlin, occupation miner, intends to apply for permission to purchase the following described lands: Commencing at a post planted one hundred yards to the east of the mouth of Rupert Creek, one mile east of Golden Gate on Tahsis Lake, thence south twenty chains, thence west to shore line, thence along shore line to point of commencement.

MILLION DOLLAR CROSS GOES BACK TO ITALIAN PRIEST

Scottish Courts Decide that Jewelled Emblem Belongs to Church

LONDON, May 16.—After several years of litigation in Glasgow courts, a Byzantine cross, encrusted in jewels and valued at more than \$1,000,000, has been ordered to be returned to the parish priest of a church in the province of Aquila, Italy, to which it once belonged.

There were two claimants to the property, an Italian ice-cream shop assistant of Glasgow named Attilo Franche, and the priest of the parish in Aquila. The cross disappeared from the church in 1918 and was not heard of until May, 1921, when Franche offered it for sale in Glasgow. Franche's story was that he found it in the ruins of his family castle after the earthquake at Messina. The court, however, did not see anything in common with the earthquake and the jeweled cross.

STEPHEN LEACOCK ON TRAINING OF CHILD

MONTREAL, May 16.—Professor Stephen Leacock does not believe in premature education for the child with its sheer, mechanical repetition as a substitute for thought; he doubts the value of long hours and afternoon schooling, and is inclined to question the old assertion that the board of education is a necessary adjunct to education—so much emerged in salient relief from a lecture which he delivered before the Catholic Women Teachers' Association in Congress Hall, his
