## ADMIRAL SIR FREDERICK FIELD URGES BUILDING OF CRUISERS IN CANADA

### Urges Building Four Cruisers by Canada; Pacific and Atlantic

VICTORIA, June 24.—The most spectacular feature of yesterday's activities of the officers and men of the special service squadron was the parade of 1,400 picked seamen and marines in the afternoon and the ball at Government House last night.

Vice-Admiral Sir Frederick Field was the speaker at a public luncheon when he emphasized the importance of the Canadian navy as the result of the country's growing sea commerce and the expansion of Asiatic countries.

While disowning any intention of interfering in Canada's affairs, Sir Frederick stated that he personally believed that Canada should equip and maintain four cruisers, two on the Pacific and two on the Atlantic.

The Hood, Repulse and the Australian cruiser Adelaide sail tomorrow morning for Vancouver.

(Special to Daily News) VICTORIA, June 24.—Nobody knows what will happen politically. There is an awful mess that has to be cleared up. With the defeat of the two political leaders there will have to be readjustments made but it is probable nothing will be done until after the count is complete, three weeks from now.

The defeat of W. J. Bowser solves the opposition problems and the party will now be able to choose a new leader. The defeat of John Oliver is a different matter. If he resigns it will leave a gap that will be difficult to fill. Yet it is hardly likely he will seek another constituency, although such a solution is very generally suggested.

If Mr. Oliver resigns, as is very likely he will, he will recommend for his successor whatever man is chosen by the Liberal caucus as leader. A number of names are suggested and each minister of the Oliver cabinet, with the exception of the minister of agriculture, seems to have his backers for the position. Also there are one or two names mentioned outside the cabinet. The job of carrying on the government will be a difficult one and the position of Premier is not one to be eagerly sought as would be the case if the party had a large majority.

### FLOODS DAMAGE FOO CHOO, CHINA

Min River Overflows and Three-fourths of City is Under Water

SHANGHAI, June 24.—Millions of dollars of damage and many casualties are reported in one of the most disastrous floods in the history of the Min river. Three-fourths of the city of Foo Choo which lies at the mouth of the Min River is flooded.

ANOTHER STORM ALONG MISSISSIPPI

CHICAGO, June 24.—One of the worst storms in recent years swept the upper Mississippi valley Sunday causing four deaths and hundreds of thousands of dollars worth of damage.

### SETTLEMENT OF STRIKE LIKELY

Dominion Fisheries Has Report It is Over—Cannery Manager Expects It to End

The Dominion Fisheries office received a wire from Port Esquimalt last night stating that the strike of Japanese fishermen had been settled.

The Daily News inquired from J. Field Strang, manager of Sunnyside Cannery, this morning. He stated that the strike had not yet been settled but it was expected that it would be some time today.

The Japs were still out this morning but white fishermen were going to fish tonight and Indians were expected in a few days. The strike started among the Japs and is only a local affair, Rivers Inlet and the Naas River not being affected. Fishing however, is not fully under way on the Skeena River yet.

Reports received from the Naas River yesterday indicated that the season was starting very satisfactorily, the average being 15 sockeyes to a boat.

C. W. PECK, V.C.

Who was elected to represent the Islands

### SLIGHT GAIN FOR PATTULLO RESULT FURTHER RETURNS

Hon. T. D. Pattullo, minister of lands, gains one vote over Mayor Newton as a result of the returns from Banks Island, Buckley Bay, Oona and Refuge Bay which have just been received. The standing of the candidates is now: Pattullo, 799; Newton, 580; Mackay, 33.

The vote at the four divisions just heard from went as follows:

Lib. Con. Pro.  
Banks Island ... 2 0 0

Buckley Bay ... 6 4 0

Oona ... 4 0 0

Refuge Bay ... 2 6 0

The polling divisions yet to be heard from are Cumshewa, Jedway, Lockport, Oceanic, Ostrand, Sandspit and Thurston Harbor.

### LEAGUE BASEBALL

#### American League

Cleveland 4-4, Chicago 3-1.  
Washington 5-4, New York 3-2.  
Philadelphia 2-6, Boston 0-3.  
Detroit-St. Louis, rain.

#### National League

Boston 3-7, Philadelphia 7-11.  
New York 12, Brooklyn 5.  
Pittsburg 4, Cincinnati 2.  
Only games scheduled.

### FISH ARRIVALS

Halibut arrivals were light this morning, three American boats selling 42,000 pounds and one Canadian, 4,000 pounds.

Arrivals and sales:

#### American

Norma, 7,000 lbs., at 14.4c and 7c, and Reliance, 17,000 lbs., at 14.2c and 7c, to the Pacific Fisheries.

Forward, 18,000 lbs., at 14.1c and 7c, to the Canadian Fish & Cold Storage Co.

#### Canadian

Pair of Jacks, 4,000 lbs., at 13c and 7c, to the Canadian Fish & Cold Storage Co.

#### Salmon

Overtime, 5,700 lbs., at 11.2c to the Atlin Fisheries.

#### HALIFAX CELEBRATING

HALIFAX, June 24.—The city of Halifax yesterday celebrated its 175th anniversary of its founding by Lord Cornwallis on June 24, 1749.

Subscribe for the Daily News.

Mme. Germaine Granvaud, daring French woman, declared a new parachute would work quickly and to prove it leaped successfully from an airplane only 300 feet in the air.

### Wireless Tests on Continuous Wave Instruments are Being Carried out at Digby Island

In order to ascertain the transmitting and receiving distance capabilities of the new continuous wave radio set at the Digby Island wireless station, a series of tests is being conducted twice daily with the Canadian Pacific steamer Empress of Canada which is now on her way across the Pacific Ocean from Vancouver to Yokohama. Although it is hardly expected that direct communication will be maintained for the full distance of 3,800 miles, there was communication for well over half that distance at 3.30 this morning when the vessel was 2,100 miles out. The tests take place at 2.30 in the afternoon and 3.30 in the morning and commercial messages are being handled apart from the straight tests.

### LONG FLIGHT IN 18 HOURS

#### PRINCE CELEBRATES THIRTIETH BIRTHDAY

Lieut. Maughan Makes Coast to Coast Flight Between Dawn and Dark

King and Queen of Denmark Lunch at Buckingham Palace With General Pershing

SAN FRANCISCO, June 24.—Lieut. Maughan completed his transcontinental flight between dawn and dark yesterday, making five stops en route. He arrived here at 9.44 last evening.

The total time for the flight was 18 hours 20 minutes, and the total time that elapsed between leaving New York and arriving here was 21 hours 48 minutes.

The plane landed without mishap and Maughan was given a remarkable demonstration by the vast crowd that watched him alight here.

BIRTH

A son was born at the Prince Rupert General Hospital on June 24 to Mr. and Mrs. Axel Enochson, Seal Cove Circle.

Advertisement in the Daily News

### Strike of Postal Employees has Completely Failed; Executives Ask that they be Allowed Back

MONTREAL, June 24.—The executives of the Letter Carrier's Association and the Postal Clerk's Association asked Postmaster Gaudet this morning to take back the members of the postal strikers union unconditionally. Gaudet promised to consider each individually.

TORONTO, June 24.—What was intended to be a Dominion wide strike of Canadian postal employees has become a fight between the striking workers in Montreal, Toronto and Windsor, and the Federal government. At all other points in the country the service is functioning normally while in Montreal it is expected the mail will be handled efficiently in a few days.

WINNIPEG, June 24.—Registered mail service between western Canada and Montreal was restored today. Talk of a strike has completely subsided here.

### Abattoir to be Built Cow Bay by P. Burns Co. Cost of \$25,000

P. Burns & Co. Ltd., are to erect an abattoir here and packing house plant which will be designed primarily for use in handling the stock raised in the Bulkley Valley and in distributing the Burns products to all the north coast points. The cost of the new building at present planned will be about \$25,000, but it will be capable of extension.

At the meeting of the city council last night, letters from W. J. Blake Wilson, general manager of the company at Vancouver, and from R. Moore, the local manager, asking for permission to erect the building and establish the plant within the city limits were read and the permission granted subject to the visit of the medical health officer.

A site has already been leased from the railway company on the foreshore between Cow Bay and the Imperial Oil dock. It has a frontage of 100 feet and is eminently well suited for the purpose, being close to the road and track. It is adjoining the two hundred feet which it was proposed to exchange for the Cow Bay property some years ago.

#### Distributing Centre

The intention of the company is to do a regular packing house business at the new plant and to make this the distributing centre for the whole north coast. Already the company does a large business here and at points along the coast but the new plant will enable this to be handled more economically and at the same time to the benefit of the farmers of the interior, whose complaint for years has been that there was no market for their products.

The company has been influenced by the news of the new developments which are to take place here. The erection of an elevator and the building of the Alaska steamer here will make this a busy centre and the Burns Company is intending to take advantage of the activity which is coming and will be prepared to keep pace with the developments.

### DR. WRINCH'S LEAD INCREASED BY DOWN THE COAST RETURNS

Returns from Swanson Bay, Surf Inlet and Bute Inlet increase Dr. Wrinch's lead in the election contest for Skeena seat. The Liberal candidate now has 582 votes against 203 for R. S. Sargent, the Conservative, and 437 for Frank Dockrill, the Provincial.

The vote in the three down the coast polling divisions was as follows:

Lib. Con. Pro.	Swanson Bay	7	4	1
	Surf Inlet	14	7	4
	Bute Inlet	4	3	0

The divisions yet to be heard from in Skeena constituency are Claxton, Dutchie Mines, Evelyn, Kitimaat, Kitsumkalum, Kispiox, Little Canyon, Rosswood.

### FIRPO AGREES TO FIGHT HARRY WILLS

NEW YORK, June 24.—Tex Rickard has received a telegram from Luis Firpo definitely accepting the terms proposed for a bout with Harry Wills, the Negro heavyweight, the fight to take place probably in Boyle's Thirty Acres, Jersey City, at the end of August.

The heavyweights have agreed to meet on a percentage basis.

### HERTZOG NOW PREMIER S.A.

Takes Place of General Smuts Who Recently Resigned; Labor to Take Part

PRETORIA, June 24.—General Hertzog, leader of the Nationalist Party, which was victorious at the recent general election, today accepted the premiership of South Africa, succeeding General Smuts, who resigned yesterday.

Hertzog has begun the formation of a cabinet which it is expected will include three members of the Labor party, with which the Nationalists formed an election pact.

### PAUL REVERE NOT SPHINX

Democrats Open Convention at Madison Square, New York Today

NEW YORK, June 24.—America needs a Paul Revere, not a Sphinx in the White House to call it back to duty and high resolve. Senator Harrison of Mississippi declared today in sounding the keynote at the Democratic National Convention which opened to day in Madison Square, in an address condemning the republican administration and its policies both domestic and foreign.

Chairman Harrison called upon democrats everywhere with victory within their grasp "to unite against the common enemy."

The convention came to order for the first session at 12.45 o'clock.

### SIX SENTENCED TO HANG IN OCTOBER

MONTREAL, June 24.—Six men have been found guilty of the murder of Henri Cleroux and were yesterday sentenced to be hanged on October 24.

PARLIAMENT IS LIKELY TO RISE ABOUT NEXT WEEK

OTTAWA, June 24.—The session of Parliament is likely to end next week. Prorogation at that time is gaining favor in the House if the business can be put through in time. Redistribution is the most contentious measure to come before the House before it rises.

### Member of Audit Bureau of Circulations.

DAILY EDITION

Tuesday, June 24, 1924.

### Developments Are Commencing Here.

The decision of P. Burns Co. Ltd. to erect an abattoir and packing house here is an indication of the general trend of affairs in this city. It shows that the big concerns are looking to this port as a future shipping point. Even though the new plant is not a very large one, the proposed cost being only \$25,000, it is the beginning of a new movement and is capable of indefinite extension.

The company has sufficient waterfront for much more pretentious premises and these will follow as the business develops.

### Should Be Aid To Farmers Of District.

The farmers of the Bulkley Valley and also on the Islands of the coast should benefit from the establishment of this plant. They will be able to find a ready market for their cattle or sheep and this will be an advantage hitherto not enjoyed. While much of the produce will still be marketed direct, the new abattoir will steady the market and should remove the disadvantage under which the farmers claim they have been operating in the past.

### Gyros At Last Get Chance To Go Ahead.

The members of the Gyro Club have worked hard to secure playground equipment for the use of the young people of this city. At times it has seemed as if they received scant encouragement, but now apparently everything has been arranged and the work is to proceed with the playground to be installed at McGlynn Park.

While the playground will not be ready until rather late in the season it should prove a boon to the youngsters and is in line with what is going on at other places.

### Which Boys Are Best Trained?

Money is often a handicap and this is seen particularly in connection with the training of young people. The boy who has all the money he wants does not learn to help himself and misses much of that excellent training which comes to the lad who has to fight his way.

The extreme abuse of money was seen recently in the murder case at Chicago when two young college boys took the life of another in a most brutal manner. These boys never had a chance, like the boys of ordinary parents, for they were taught to look on life from the wrong angle. Their parents were self-made millionaires who looked upon everyone as a lawful prey for their financial operations. It was but natural that the boys should imbibe a similar spirit although it is difficult to understand the brutality which was carefully planned beforehand and carried out so carefully.

### Shows Danger Of Becoming Rich.

The Chicago case is simply one of hundreds less extreme which indicate the dangers of becoming very rich. People long for riches and then it is usually found that riches are their undoing. If they are parents, the children usually turn out bad, and if they are not parents, the men themselves do not usually live a very happy life. Those of us who have to work hard and who do not get very adequate remuneration for our labors can congratulate ourselves that if we have a continual struggle to make ends meet, we do not have the dangers which come to the very rich.

### "Tired and Worried Nervous and Despondent"

Mrs. M. Chevalier, Bella River, Ont., writes:

"For eight years I suffered from despondency and nervousness.

Sometimes I could not sleep at night for worrying and the next day I would be so tired that my work was a burden to me. I began using Dr. Chase's Nerve Food and can say I am now entirely relieved of the nervousness from which I used to suffer, and things do not worry me as they used to.

Dr. Chase's Ointment also relieved me of eczema on my arms, which had bothered me for three years. My house is never without our Dr. Chase's Medicines."

Dr. Chase's Nerve Food

60 caps. a box of 60 pills. Edmaston, Bates & Co., Ltd., Toronto

### CONTRACT LET FINISH CHURCH

Anglican Edifice to Have Main Floor Added at Cost of \$7,800

The contract for the completion of the Anglican Church has been let to Beatty and Greer of this city, the price being somewhere in the neighborhood of \$7,800. This provides for the addition of another storey to the building, which is the cathedral church of the diocese of Caledonia, comprising the whole of northern British Columbia.

The part of the building now used as a church is really the diocesan hall, where the synod will hold its gatherings and where the Sunday School will meet and other church affairs will take place.

The contract now let does not provide for heating or lighting and the cost of this will be something like two thousand dollars more and will be necessary before the new part can be used in the autumn. The seats in the present building will be removed to the new part.

The entrance to the new part of the building, which will then be the church proper, will be on the level from the street. The building will have an imposing appearance and will be eminently well suited for the purpose for which it was designed.

The present structure, which was erected during the building era about twelve years ago, was designed to be completed in just the manner now decided upon. It is somewhat of a departure from the ordinary church building but lends itself peculiarly to conditions which exist here. It will be one of the landmarks of the city.

### Safety First in Anyox

Prize Essay in Competition put on by Granby Company

This branch of engineering science is of comparatively recent development, although the idea of safety first can readily be traced back to the instincts of primitive man, whose entire life was dependent on "safety first" or eternal vigilance. Should he venture out from his cave to forage for food, he had to go fully armed as a protection against wild animals, and his every move had to be preceded by extreme caution to avoid running into a possible ambush that might have been set by some neighboring warlike tribe.

Coming down to our times and right here in Anyox, although we have outlived the necessity of exercising the extreme vigilance of our ancestors, still our existence is largely dependent on the principles of "safety first."

#### Influence of Machinery

Modern industry owes its existence to the development of machinery, which in turn is the father of the modern idea of "safety first." When machinery was first introduced no attention was paid to protecting workmen from such things as whirling flywheels and slapping belts; the general attitude of the employer's was that it was nobody's fault but the victim of the accident, for not taking due precautions.

This attitude has in recent years been changed by laws brought in from time to time making it compulsory for owners of machinery to install guards and such other safety devices as are designed to minimize the possibility of accidents.

In a plant the size of ours here in Anyox, the problem of safety first is an all-embracing one, as it includes not only the safety of the men at their work, but also the safety of the families who are in town. This problem is such an important one that the Company employs an engineer, whose duty it is to see that suitable safety devices are installed, and recommend changes in present installations, where he considers them necessary.

#### Due Precaution

While the law can enforce the employer to protect his workmen from accidents by installing these safety devices and employers co-operating by employing safety engineers, in the last analysis accidents can only be brought to a minimum by the exercise of due precaution and

# Guinea Gold CIGARETTES

Mild and Extra Fine 20 for 25¢

common sense by every member do so, having lost the use of his of the community. The work-arm. Upon awakening in the shop is not the only scene of accidents. A neglected scratch may develop into blood poisoning which will result in the loss of a limb or life itself, while a carelessly flung match may cause a fire that would wipe out a whole town.

As accidents are likely to happen to us at any moment from the time we try to crawl out of our cradles till we are finally held in our last resting place, the principles of "Safety First" should be taught to the child by its parents when it first develops understanding, and the education should be continued until it becomes almost an instinct with the child, thus equipping it with a most useful foundation for its future battles in the process of life.

### The Man in the Moon SAYS:-

WHY does a woman use So much powder and paint Trying to make herself look Like something she ain't?

THE latest fable is that a number of men are glad to see the long skirts return.

DOWN brakes kiddo. You're going around a dangerous curve, the up to the minute girl remarked to the railwayman who put his arm around her waist.

People who drink moonshine diadem sight quicker than those who don't was the sentence used to illustrate the use of the word "diadem" by the bright boy of the class.

THE way to keep peace in the family is to listen carefully to the admonitions of the children.

### Ten Years Ago in Prince Rupert

June 24, 1914.

Claiming that this city has the best fire equipment but the highest insurance on the coast, local agents have just despatched a length telegram to the Mamland Board of Underwriters demanding a reduction in rates.

Just as a relief party was being organized to search for them, John Anderson, road foreman at Stewart, and a number of men who were making a trip into the Groundhog country arrived at Station Six on the Dominion Telegraph line yesterday.

The country traversed by the G.T.P. has boundless opportunities and the Stuart River valley is a kingdom in itself declares C. L. Poston of Stuart River who is on a trip outside.

H. H. HEMMINGS HAD CURIOUS DREAM: WAS UNFORTUNATELY TRUE

H. H. Hemmings, who is visiting his daughter, Mrs. J. H. Smith, in West Vancouver, is confined to his bed as the result of a slight paralytic stroke affecting his right arm. Word to this effect reached Mrs. Hemmings in a letter from her daughter. Mrs. Smith says that Mr. Hemmings dreamt he was trying to sign a cheque but could not

## PLAYGROUND DISCUSSION

**City Agrees to Spend \$350 for Gyro Club and Charge it to Board of Works**

A request from Ald. Perry, chairman of the Board of Works, that the expenditure of a further sum of \$350 to prepare the ground in McGlymont Park for the Gyro Club's playground equipment be authorized, precipitated considerable discussion at last night's city council meeting. The finance committee was prone to have any further money spent from general fund this year in McGlymont Park and in this attitude was supported by other members of the council. The outcome of the debate on the subject was a snap motion by Ald. McMordie and Ald. Clapp that the necessary work be done and that the cost be charged to the Board of Works.

In bringing up the subject, Ald. Perry said that the Gyro Club now had its equipment ready and was prepared to pay for the concrete piers but had not the funds to undertake the levelling and draining of the ground. The city had gone so far that it could not back down now and he hoped the necessary finance would be arranged immediately so there would be no further delays.

Ald. Macdonald was of the opinion that the thing should be seen through if at all possible. He did not want to see the swimming pool project delayed, however, and, if it came down to a point of choosing between that and the preparing of the grounds for the playground equipment, he would be in favor of foregoing the latter.

Collart objects. Ald. Collart thought \$350 was a good deal of money for this work and suggested that the Board of Works try to reduce the estimate. Instead of levelling the ground off, they might be terraced.

Ald. Perry replied that \$350 was as close an estimate as could be made. Terracing would cost more than levelling.

Ald. Casey declared that improvements to the ground were necessary. In their present state they were little better than a bog and it would be folly to put in the equipment under such conditions. He was willing to forgo the swimming pool if necessary and have this work done.

Ald. Collart suggested that the \$350 be taken from the Board of Works estimates but this did not meet with the approval of Ald. Perry. Ald. Clapp thought the swimming pool might be eliminated in favor of improving the grounds.

### Not City's Fault

Ald. Macdonald took the view that it was no fault of the city if the Gyro Club was unable to live up to its financial undertaking.

Ald. Casey thought the project might as well be proceeded with and charged to the Board of Works. Ald. Perry then agreed with this and the resolution to such effect was put through.

### Sport Chat

The stage is all set for the semi-final tonight between the Sons of Canada and the Great War Veterans' Association in the Dominion Day pup ties. The side which wins this match will engage in the final on Dominion K. of C. . . . .

Day with the Sons of England who beat the Canadas in the first play-off last week. The Canadas are not worrying about their ability to win again while the Vets, on the other hand, are confident that they will give the native sons a run for their money. They will not be beaten, they say, until the final whistle has been sounded by referee George Russell, and then they have hopes of being on top. The Vets will field the following team: W. Knox; O. K. Lord and W. Barton; J. Campbell; W. Murray and F. Hunter; F. Russell, H. Norwood, J. Johnson, W. Mitchell and F. Conway; reserves, G. Findlay, D. Gurvich and Don Corker.

The Commercial Grads of Edmonton, women's basketball champions of North America, left their home town last Thursday morning for Paris where they will represent Canada in the Olympic games. Thousands of Edmontonians gathered at the Canadian National depot to see them off and wish them good luck. The Edmonton girls constitute one of the finest basketball aggregations that has ever been assembled on the continent and seldom have they ever suffered defeat. Members of the team are known to several people in Prince Rupert who will follow their activities across the Atlantic with no little interest. About the last game the team had at home were the encounters with the Favorite Knits of Cleveland whom they defeated handily in a two game series for the championship of the world.

## SONS OF CANADA BEAT CATHOLICS

**Baseball Fixture Last Night Resulted in Score of Nine to Five**

The Sons of Canada beat the Columbus Club by a score of 9 to 5 in last night's City League baseball game. The Canadas got off to a lead of three to two as a result of the first inning and maintained their supremacy throughout the match. Both sides fielded well and it was the hitting of the Sons that was responsible for their victory.

Limestone and Balfour comprised the Canadian battery for the entire game while the Catholics jugged their battery. G. McKeown opened in the box with Harry Astoria behind the bat.

These positions were reversed in

the fourth inning and in the fifth

McKeown injured his finger and had to retire. Bert Kelly was put in his place for one inning and Bob Frizzell finished up the game.

Howard Frizzell umpired balls

and strikes and Norman McLean

of the steamer Prince Rupert,

bases.

health. Look at me," Sir Herbert bared his arms and chest, which are bronzed the color of an Indian.

"I never really lived before, and at fifty-six I feel a youngster," he said. "The treatment has made me impervious to colds, and without my clothes I am as warm as when wearing them."

"When you are pigmented as I am, there are many ideal spots on the south coast which could be set aside for curative bathing keeping the sexes segregated. Every seaside town and others possessing open-air baths, should appreciate the value of sun bathing.

"There are many ideal spots on the south coast which could be set aside for curative bathing keeping the sexes segregated. Every seaside town and others possessing open-air baths, should appreciate the value of sun bathing.

"I am satisfied that people must go back to the sun for

### LARGE SALMON RUN CORDOVA, ALASKA

Number of Fish Taken Exceeds That of Many Years Past

JUNEAU, June 24.—The Cordova region is seeing the largest run of red salmon in many years. Every cannery is running to capacity day and night and the run shows no sign of falling off, although it has continued for some time. On one day the Pioneer Packing Company had nearly forty thousand fish on the floor, the Charlevoix and Shepard Point people, about as many. The fish caught that day and being canned at the Pioneer produce more than half as many cases of salmon as this company put up during the entire season of 1923.

Well informed fishermen attribute the immense run of this season to the fact that during the season of 1919, the five year cycle of which the present season is a recurrence, high water on the Copper river at the height of the fishing season, made it impossible to take but a small proportion of the fish and the escapement to the spawning grounds was consequently large.

With a short run of reds looked for in Bristol Bay and other parts of Alaska, reds should bring a good price and the Cordova canners should reap a good return after a number of years waiting

### GLASS HEART THAT BEATS

DRESDEN, Germany, June 24.—A heart of glass which beats by the aid of a little electric motor and sends a red fluid coursing through glass arteries, has been placed in exhibition in the Dresden Hygienic Museum. The apparatus is approximately the size of a human heart and was intended to be of special interest for medical students to illustrate the functions of that organ.

## REVISION IN WATER CHARGES PROPOSED

City Council Considers Bylaw and Refers it to Utilities Committee for Report

Revisions in water rates are proposed by the city council. Last night the bylaw setting the service charges was read and it was decided to refer it to the utilities committee to bring in recommendations for such revision as it deems necessary.

Major Newton failed to see why a real estate office should be charged only 50¢ when a newspaper office had to pay \$1.50. This was only one instance of discriminatory charges.

Ald. Collard thought that some provision should be made where users of water should be required to make a deposit. If they failed to pay their water rates they should be cut off just as were the users of electric lights and telephones. There had been many difficulties in the past between landlords and tenants on this question. It should be settled once and for all.

### GRAND CHIEF OF PYTHIAN SISTERS IS VISITING CITY

Mrs. Irene Stein, Grand Chief of the Pythian Sisters Lodge of British Columbia, is visiting the city and is the house guest of Mrs. George Leek, Second Ave. She arrived from the south yesterday and will remain here until Thursday.

Last night Mrs. Stein paid her official visit to the local lodge. Later in the evening, the meeting was thrown open to the Knights. Refreshments were served and speeches were made by Mrs. Stein, Mayor Newton and various members of the Pythian Order.

Several events have been arranged in honor of Mrs. Stein while she is here and tonight a reception will be held in her honor at the home of Mrs. Leek.

### PREPARATIONS FOR BIG CONVENTION OF DEMOCRATIC PARTY

NEW YORK, June 24.—The vast amphitheatre of Madison Square Garden is reverberating these days with the clamor of an army of workmen and a corps of architects, who invaded the historic old structure June 1, to dress it up for the National Democratic Convention beginning June 24.

The Democratic party will be in possession of the Garden until July 15 under the terms of the Executive Committee's lease with Tex Rickard. Day and night, from now until convention time, the metamorphosis of the picturesque place will continue. Then, immediately the delegates finish their nominating and adjourn, will begin the laborious process of converting the Garden into its old self again.

The whole job, on which it originally was intended to spend about \$40,000, will cost approximately \$80,000.

### VISITORS LIVE ON SHIP

LONDON, June 24.—Because of the serious lack of accommodations during what is known as the social season here, a party of 500 Gothenburg students have chartered a ship in which they will live while visiting England. The vessel is at anchor off Greenwich in the Thames.

Circular mailed on request.

# Where Shall We Go This Evening?

FREQUENTLY you decide to spend the evening in town with some friend. The first part is easy. Dinner at a swell restaurant. But afterwards . . . What will you do to carry on this business of having a good time?

Easy! Five cents. An evening paper. A glance at the advertisements Suggestion--agreement, and you're off!

You didn't go round to the different theatres, to be driven to an unsatisfactory choice by fatigue and time. If it's worth while to consult the advertisements about amusements, how much more worth while must it be when it comes to the spending of household money.

Read the advertisements. They place before you the full choice of the trustworthy goods in the market. They describe advantages, and give you full information before you have to stir out of your chair. Pursue for every article you buy the method you use when it comes to amusements.

The way to be sure of what you buy is to buy advertised goods.

Reading advertisements is an education in better buying.

## BRING MUSK OXEN FROM BARREN LANDS

That is Proposal of Jack Hornby  
and Two Others Who Are  
Going North

What would you say to a wild musk-ox that you wished to drive a few thousand miles, from its native haunts in the Barren Lands, to the Banff national park? says an Edmonton paper.

Jack Hornby, the "hermit of the Barren Lands," with Captain J. C. Critchell-Bullock, ex-imperial army officer, are busy finding out today. On Tuesday next they hit the north trail, and for the next year or two, mail addressed to them, c/o Barren Lands, will be duly received—after many years.

The Dominion government has given Mr. Hornby a permit to bring out couple of the wild musk-ox—if he can—and Jack is now going the rounds of all his farmer friends, asking what he should say to a pair of perfectly wild musk-ox, to induce them to leave the Barrens and consent to take up their home behind a wire fence at Banff.

### Endearment and Persuasion

"Goo-o-o-o, Bossy!" and "gid-dap, Queenie!" may be the proper terms of endearment and persuasion to use to a pair of perfectly nice and well-tamed domestic oxen, but just what the psychological reaction of a couple of wild and probably justly annoyed musk oxen may be to such a greeting, is a deep question involving much study, and calling for a ready pair of heels when practical tests are sought after theories as to probable conduct have been evolved.

"Just twist their tails and wallop 'em good," was another suggestion. Here again, since nobody has as yet ventured to twist the tails of two deeply aggrieved and annoyed musk-ox, the immediate result of such methods can only be ascertained by practical tests likely to give the experimenter considerable astronomic study, if not a cracked skull.

### WILL WIN OUT

However, the well-known resourcefulness of Mr. Hornby, aided by the military experience of Captain Bullock, will undoubtedly win out in the end, and the good people of waterways

### TENDERS ASKED.

For 443 Acre Timber Tract on South Bank of Skeena River, two miles west of townsite of Hazelton, District of Hazelton, 1,000 feet above sea level, 2,288 acres, Gross 1, Cassiar District, Stand 1, estimated at 7,000,000 feet, chiefly Spruce, Hemlock and Cedar suitable for poles and timber.

Address—CHICAGO TITLE & TRUST CO., Trustee in Bankruptcy, Harry A. Massey & Co., 69 West Washington St., Chicago, Illinois.

### WATER NOTICE.

(Division and Use)  
TAKE NOTICE THAT Hume B. Babington, who is addressed as Mr. Babington, will apply for a license to take and use 100,000 gallons of water out of an unnamed pond, at a point about 200 feet north of the north-east corner of lot 19, D.L. 7, plan 946, Queen Charlotte Islands, and will be used for industrial purposes upon the land described as block 19 D.L. 7, plan 946, Queen Charlotte Islands. This notice was posted on the ground on the 10th day of May, 1924, a copy of this notice and an application pursuant thereto and to the "Water Act, 1914," will be filed in the office of the Water Recorder at Prince Rupert, application for a license may be filed with the same Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B.C., within five days after the first appearance of this notice in a local newspaper. The date of the first publication of this notice is May 26th, 1924.

Surely there must be value  
or we could not offer this  
Inducement.

### SILVERWARE

A large shipment just ar-  
rived. Moderate prices,  
latest designs.

**Max Heilbronner**  
Diamond Specialist

may yet look forward to seeing  
the very unusual spectacle of  
two erstwhile wild musk-ox  
tredding the streets of Water-  
ways with solemn mien, drawing  
behind them an eighteen foot  
canoe on a pair of cycle wheels,  
in which will be seated Capt.  
Bullock, Jack Hornby and H. A. Glenn,  
the third member of the  
party.

Mr. Hornby is already figuring  
to use the musk-ox to drag the  
expedition's canoe over any portages  
encountered on the return  
journey from the Barrens, while  
Capt. Bullock considers that the  
edium of the long winter days  
might be relieved by breaking the  
musk-ox in as Arctic polo ponies,  
using a well-frozen snowball as  
the ball, frying pans as mallets  
and tent poles as goals.

All of which would be extremely  
confusing to the musk-ox.

### WILL WIN OUT

However, the well-known re-  
sourcefulness of Mr. Hornby,  
aided by the military experience  
of Captain Bullock, will undoubt-  
edly win out in the end, and the  
good people of waterways

### CHRISTIANS WILL HOLD CONFERENCE

Archbishops Among Heads of  
Joint Heads of International  
Committee

STOCKHOLM, June 24.—The  
crown prince of Sweden has been  
named chairman of the Swedish  
committee which is preparing to  
entertain the delegates to the  
Universal Christian Conference on  
Life and Work to be held in  
Stockholm in August, 1925. The  
conference will be the guests of  
the Swedish nation.

The purpose of the gathering  
is declared to be an attempt to  
concentrate thought on the mind  
of Christ as revealed in the Bible  
toward the great social, industrial  
and international questions  
prominent in post-war civilization.

Dr. Arthur J. Brown of New  
York; the Archbishop of Canterbury;  
the Archbishop of Upsala and the  
Oecumenical Patriarch of  
Constantinople are joint presidents  
of the international committee  
which is arranging for the  
conference.

The cost of Transjordanian's  
independence came to be in in-  
verse proportion to the size of  
the British subsidy, the more self  
rule at Amman, the less financial  
support from London. As this  
country's system of taxation and  
method of farming the tax, es-  
pecially among the Bedouin  
tribes, is not calculated to in-  
crease the revenue, Transjordan  
would rather relinquish  
some of its right to self-deter-  
mination than its claim to British  
gold.

**GERMAN RETAILERS  
HAVE WORST YEAR  
HISTORY OF TRADE**

BERLIN, June 24.—The past  
year has been the worst in the  
history of the retail trade in Ger-  
many, according to the annual re-  
port of the Association of Ger-  
man Department Stores published  
recently. Of decided influence  
in the business of 1923 were the  
steady decline of the mark and the  
occupation of the Ruhr, which upset  
conditions generally.

While manufacturers endeav-  
ored to adjust themselves to the  
situation by quoting prices in  
dollars or pounds, and whole-  
salers just as rapidly followed  
suit, numerous new laws and  
divers regulations prevented  
the retailers from joining this  
procession of inflating prices  
and they were rigidly bound to a  
narrow margin of profits.

The association officials con-  
tend that for the retail trade of  
the country, 1923 was worse than  
any period during the war. With  
the stabilization of the renten-  
mark, however, retailers this year  
expect that business generally  
will get back to a pre-war basis.

## BLUE FOX PELTS BRING GOOD PRICES

Number From Alaska Ranches  
Sold in London Recently  
Averaging £30 Each

KETCHIKAN, June 23.—In a letter addressed to the South-  
eastern Alaska Blue Fox Farmers  
Association Alfred Fraser, New York agent for the C. M. Lampson & Co. of London, said:

"It may be of interest to the members of your association to learn that at Messrs. C. M. Lampson & Co.'s spring sale, held in London on April 4th, their entire collection of ranch-raised blue fox from Alaska, consisting of 1143 skins, realized the splendid average price of 30 pounds sterling per skin, and that at this sale blue fox advanced 25 per cent as compared with the prices realized at their January sale. The above average price, of course, includes all of the low grade skins as well as those of better quality.

"The demand for blue fox in Europe seems to be steadily increasing, in spite of the fact that the quantity of skins offered grows larger from year to year, and there is no reason to believe that this article will not always be wanted, although, of course, there will be fluctuations in prices from time to time.

"At Messrs. Lampson & Company's last sale, the highest price realized was 62 pounds sterling, for one lot of 11 choice skins, and other lots containing from 10 to 13 skins were sold at prices ranging from 45 to 52 pounds sterling, according to color and quality."

## Our Shoe Dept.
