SUBNORMAL GIRLS AND MATRON BURNED

*Legislative Library,
Parliament Buildings.
Mar. 31, 1924.*

PREPARATIONS BEING MADE BY MAJOR TAYLOR TO START WORK ON ROAD

Matron and Son and Thirty Eight Pupils of School in Either Morgue or Hospital

Building Destroyed and Twenty Girls Nothing but Charred and Twisted Corpses

LOS ANGELES, June 2.—Bodies of 19 inmates were taken out of the ruins of the Hope Development School for sub-normal girls destroyed by fire last night. The bodies include Mrs. Drew Thomas, head matron.

LOS ANGELES, June 2 (later).—The morgue and hospital today housed all of 38 subnormal girls who were in care of the Hope Development School at Playa de Rey, southwest of here, when the institution was razed by fire Saturday night. Twenty of them were charred and twisted forms which are being prepared for burial today and eighteen others are suffering from burns in the hospital.

In the morgue also are the bodies of Mrs. Drew Thomas, 48 years of age, head matron of the school and her fourteen year old son.

The school building was a frame one and dangerous as a fire trap.

FRENCHMAN IS BADLY BEATEN

Gibbons Wins on Points and
Carpentier Saved by Refusal
to Battle

MICHIGAN CITY, June 2.—Tommy Gibbons got the decision, decisively defeating Georges Carpenter in a ten round bout here Saturday afternoon. Gibbons virtually won every round. In the ninth Carpenter sank to the floor and indicated an injured ankle, but struggled to his feet and came back and finished the fight. There was no knockdown.

Gibbons had Carpenter groggy and staggering half a dozen times and only Carpenter's refusal to battle saved him from a knockout. Georges bleeding from the mouth and with a cut over the eye, limped from the ring between his seconds, a thoroughly defeated boxer.

Carpenter withstood a shower of hooks and right smashes meant to end the contest, but continually retreated and then clinched or forced Gibbons to chase him.

Gibbons fought a perfect, beautifully planned fight. He beat his foe to every punch. The vim, vigor and vitality radiated by the Frenchman as he entered the ring was in sickening contrast to the battered, wobbly, limping man who departed at the end.

Big Money

Carpenter was guaranteed \$70,000 with the privilege of 25 per cent of the gate receipts if the receipts hit the \$300,000 mark, which it is thought probable was the case. Gibbons receives \$90,000, the largest amount he ever received before was \$12,500.

A message from Jack Dempsey challenging the winner was read at the ringside.

Work Starting This Week on Road to Galloway Rapids is Announced by Major Taylor

Major Taylor, district engineer of the provincial public works department, announced this morning that he was making arrangements to start work at once on the construction of the road from the city limits to Galloway Rapids. Construction will commence from this end and a camp will be established and the work will be under way this week.

It is the expectation of the department that the city will also proceed with its end of the work so as to connect up. While it is impossible to drive a wagon through to the point where

construction commences, the walking is good.

There has been no delay in getting the work started, following the completion of the survey which has been made as far as the rapids.

JAP PROTEST IS RECEIVED

Declares Race Discriminations
Are Particularly Unwelcome
and in Disregard to
Agreement

WASHINGTON, June 2.—Japan's solemn protest requests the American government to take all possible and suitable measures for the removal of discrimination in the immigration law. It declares international discriminations are particularly unwelcome when based on race. It says the legislation is entirely in disregard of the spirit and circumstances underlying the treaty of 1911 and will make it impossible for Japan to continue the undertakings assumed under the gentlemen's agreement.

OBJECTION TO BEER AND WINE

Rev. G. G. Hacker in Sermon Urges Against Voting for Sale by Glass

QUOTES FROM QUEBEC

Basing his arguments on the manner in which the licensed sale of beer and light wines in Quebec had worked out and declaring an attempt was now being made in British Columbia to bring back the old-fashioned saloons only under a different name, Rev. G. G. Hacker in his sermon at the Methodist Church last night urged against voting for the sale of beer by glass at the forthcoming plebiscite.

In 1919, Mr. Hacker said, the people of Quebec had voted for the licensed sale of beer and light wines presumably to reduce the consumption of hard liquor, eliminate the bootleggers, do away with the drug evil and decrease drunkenness by encouraging the drinking of beer. The plebiscite, which was passed called for beer not exceeding 2½ per cent and wines and cider not exceeding six per cent. This was tried for a while but it was found that the people would not use the stuff for it was not strong enough. When the present premier of Quebec came into power he appointed a committee of five to deal with the situation. The alcoholism contents was gradually increased to 6, 8, 10 and 12 per cent.

Sales Jumped

In 1921, Mr. Hacker said, the sale of light beer had been 6,500,000 gallons. In 1922, with the introduction of the heavier alcoholic content, the sales jumped to over 21,000,000 gallons and in 1923 to over 25,000,000 gallons. It was found that Quebec was still importing over 500,000 gallons annually of hard liquor. Brewery stock, which during the light beer period was valued at \$15 a share, jumped in a single year with the heavier beer to \$185 a share.

Further figures given by Mr. Hacker showed that \$22,000,000 a year was spent in Quebec for education, \$26,000,000 for butter, milk and other dairy products, and \$28,000,000 a year was now spent for beer. In Montreal there were 307 licensed beer saloons and 500 grocery stores in which beer was sold. Some of the latter sold more beer than

groceries.

Keep Down Convictions

There had been a decided effort on the part of the government and its officials in Quebec to keep down the number of convictions for drunkenness, Mr. Hacker declared. The standard had been so lowered that no man was arrested for drunkenness now unless he was lying dead drunk in the street or some public place. Still police court records in Quebec showed there were nearly as many convictions as in former years.

The prominent Catholic editor, Dr. Dorian, said that government statistics showed a decrease in drunkenness but "we know there has been a great increase."

Men and Women Drunk

A. B. Macdonald had been sent to Quebec by the Curtis Publishing Co. of Philadelphia to investigate conditions. He had found hundreds of men and women hopelessly drunk in public places. One lady reporter in Montreal had counted over 1,000 women drunk in public places. A great evil was the advertising that beer was especially good for weak mothers and growing children.

The number of drunkenness convictions in Montreal in 1921—the last year of light beer—had been 552. In 1922—the first year of heavy beer—drunkenness convictions totalled over 1,000. In 1922 128 persons had been brought to hospital unconscious from the effect of drugs. Fourteen of these people had died. Court officials admitted that a million dollars worth of drugs had been peddled in beer clubs and dance halls during 1922. Raids on farm houses in the Gatineau Valley showed seizures of 343 barrel barrels, 11 drums and many jugs of moonshine whiskey. Forty men were arrested in one hall including the mayor of Gatineau. In another raid 55 bootleggers and moonshiners were captured. In Montreal a still producing 2,000 gallons a day had been seized. The infant mortality in Montreal in 1922 was the largest proportionately of any city on the North American continent.

Warns British Columbia

Mr. Hacker concluded his sermon with the prediction that like results would follow if the licensed sale of beer was introduced in British Columbia. "Four years ago the Moderationists repeated the statement that the bar room was a failure and they never wanted to see its return. Yet now they are trying to bring back the old fashioned barroom only under a different name.

FUNERAL OF PRESIDENT PORT ESSINGTON BAND

Large Funeral Took Place at Cannery Town When Native Son Buried Friday

The late Philip Roberts, one of Port Essington's native sons, was buried at that town on May 30 at 3 p.m. Death occurred from pneumonia on Tuesday, May 27. He was about 45 years old, and leaves a widow and seven children.

The funeral was largely attended, being one of the most impressive that have been seen at Port Essington. Rev. W. H. Pierce read the services, and the pall bearers were Mark Bolton, A. Innes, J. Nelson, Jas. Innes, Ben Brown and W. Brooks. The cortège was preceded to the cemetery by the Port Essington band, and was followed by a very large retinue of mourners. Many floral wreaths conveyed the sympathy of the whole community to the sorrowing relatives. Among the cards on the wreaths were noticed the names of Mr. and Mrs. M. Bolton, ladies of Essington band, R. Cunningham and Son Ltd., Mr. and Mrs. Jas. A. Brown, Miss Lottie Flewin, Mr. and Mrs. D. Spaulding, Mrs. G. Munro, Mrs. B. Herring, Mr. and Mrs. H. Kameda, Mr. and Mrs. H. Kishimoto, ladies of the Salvation Army, Mrs. M. Swanson, Miss M. Pierce, Rev. and Mrs. W. H. Pierce, and many others.

The funeral was held under the auspices of the Port Essington Band, of which the deceased was president at the time of his untimely demise.

FRANK DOCKERILL HAS MEETING AT TERRACE

In Force Manner Objects to More Land Settlement Until Those Already There Make Living

TERRACE, June 2.—Frank Dockerill, candidate for the Provincial party, made his first appearance before a Terrace audience on Friday and was well received. He proved to be a clear and forcible speaker and dealt in a convincing manner with the ends and aims of the Provincial party, emphasizing the fact that they were not a permanent third party but a body of men recruited from the ranks of both the Liberal and Conservative camps.

Mr. Dockerill objected to making the freight rates a party issue with the government, his attitude being that every new settler was one too many until those already on the land could make a living and until proper marketing facilities were arranged.

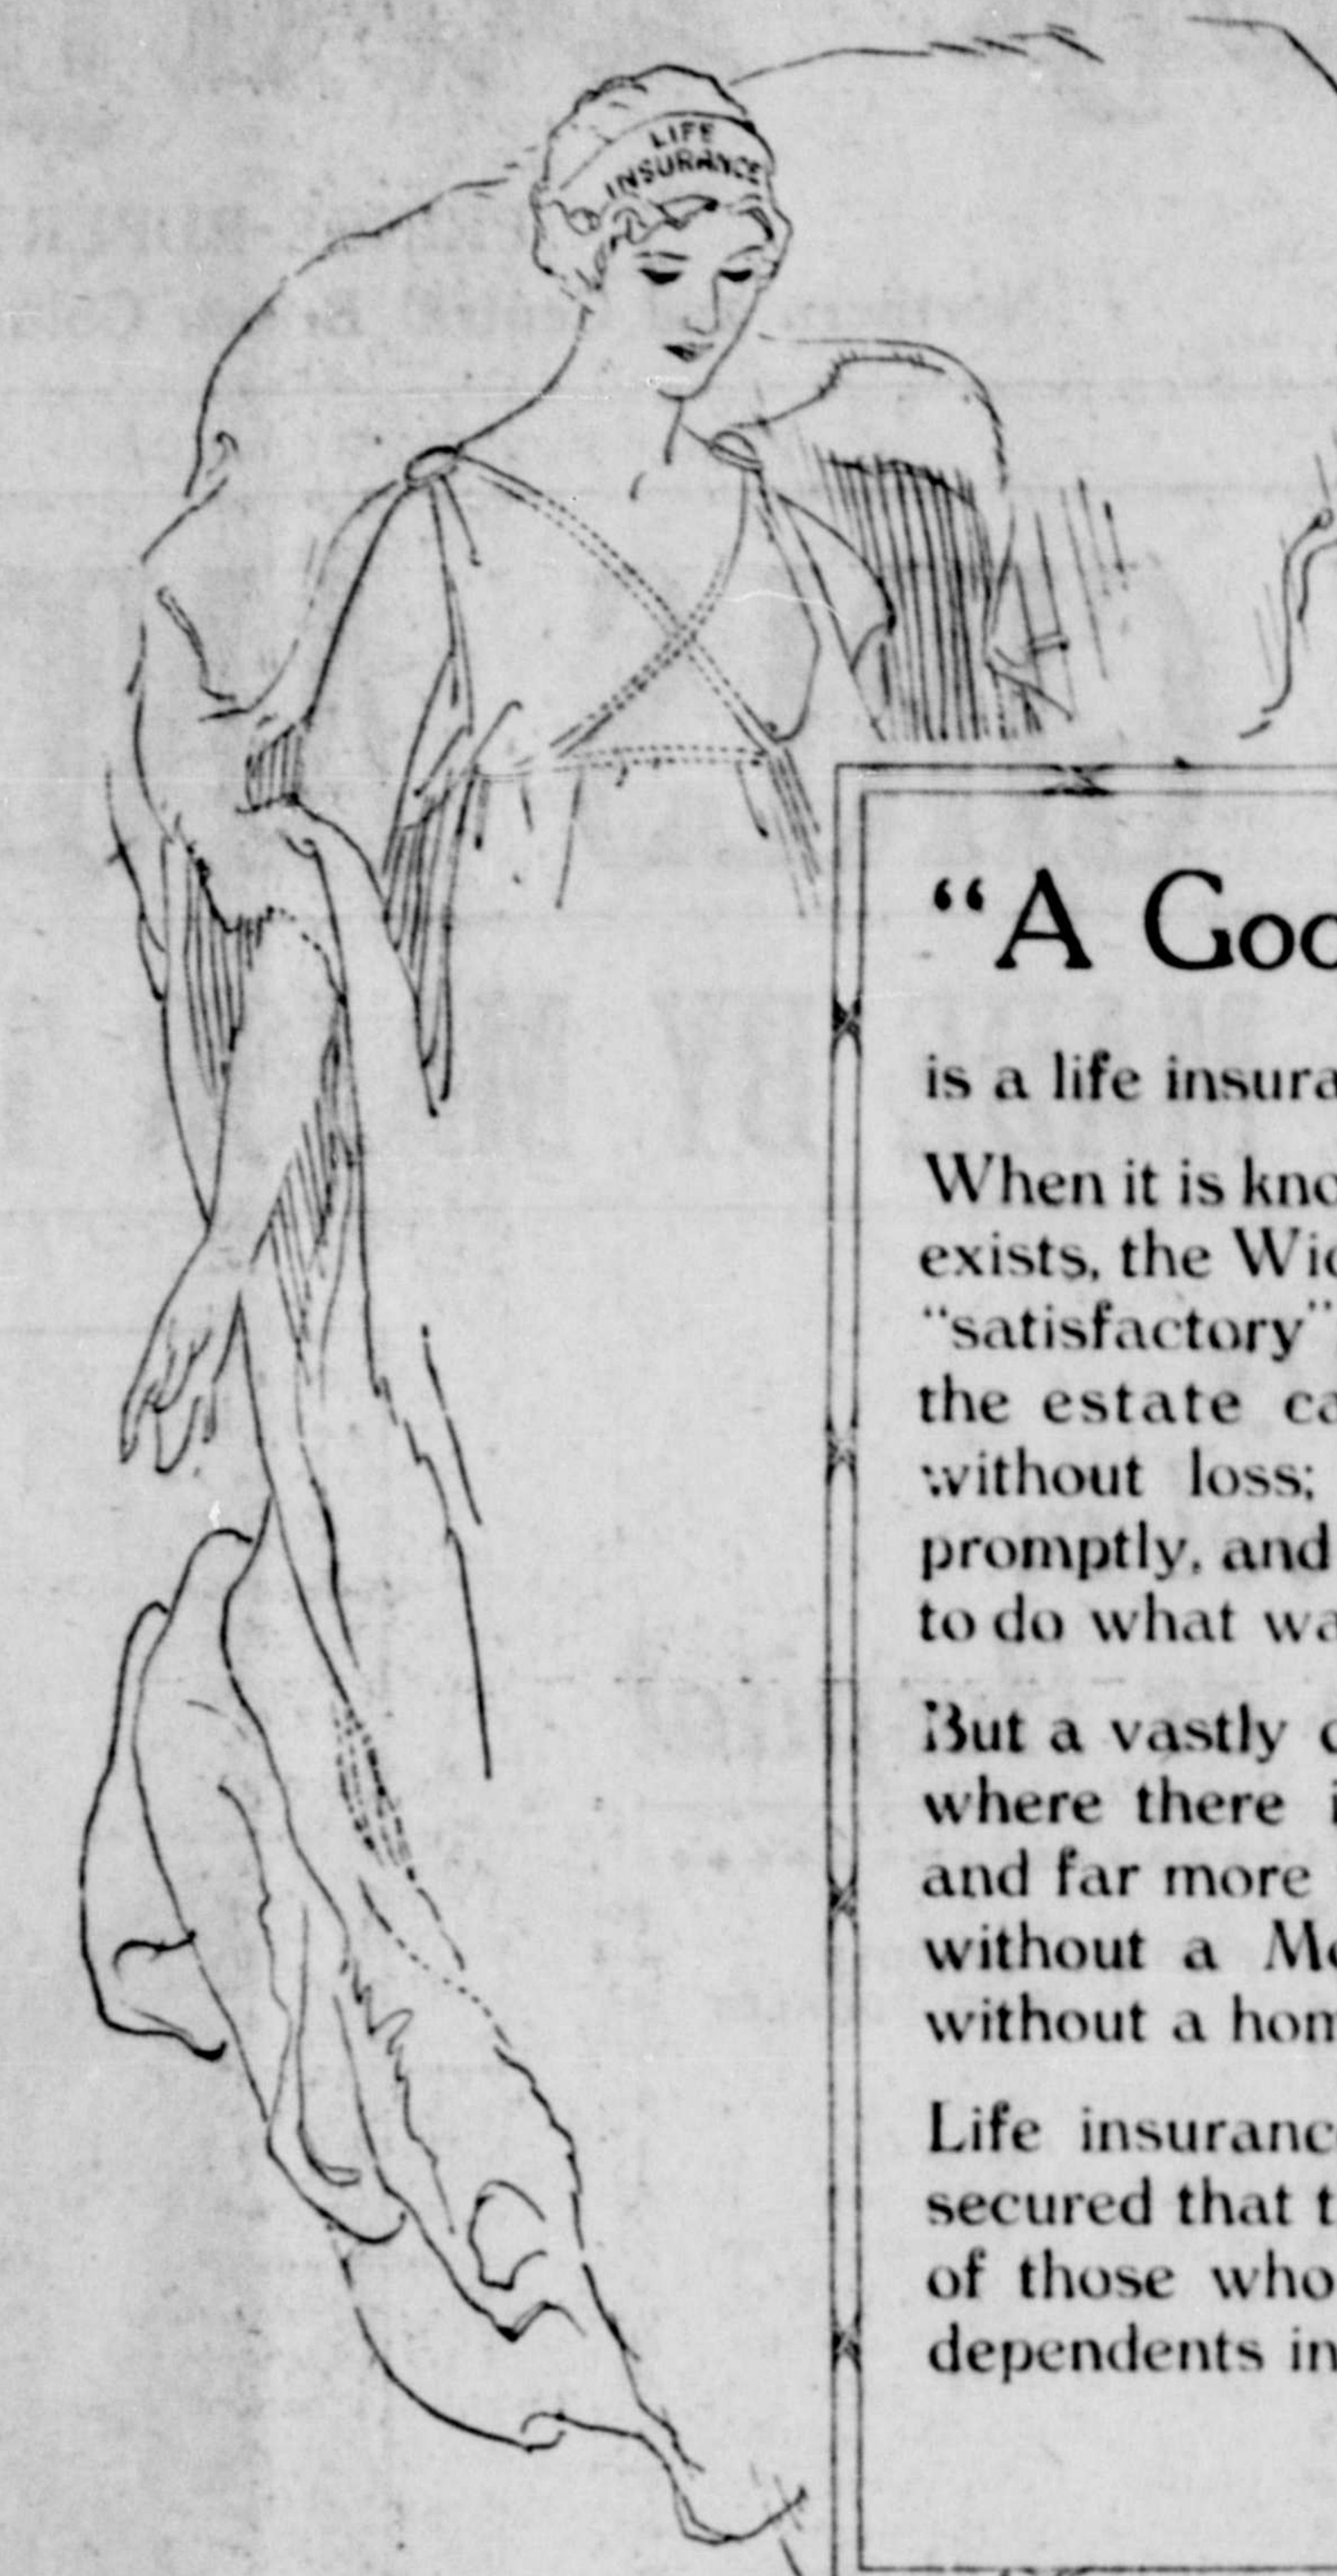

His speech was preceded by a short address by Mrs. Sundal, who urged the women to assume the responsibility the vote had given them and to bring up their children with their duties as citizens in view.

PARENT-TEACHERS PRIZE DAY TERRACE

School Decorated and Tea Served at Close of Event

Friday was a gala day at the Kitsungallum school when the prizes offered by the Parent-Teachers Association were awarded. The school was beautifully decorated with ferns and flowers and the walls were hung with exhibits of the children's writing and drawing. Mr. Griffin spoke a few words of welcome and explained the purpose of the prize. Mrs. Geo. Little, vice-president of the P.T.A. gave a short speech on behalf of the association. Mr. Burnett, convenor of the committee which selected the prizes, awarded them.

Tea was served at the close of the meeting, the tea table be-

is a life insurance policy.

When it is known that life insurance exists, the Widow finds her credit is "satisfactory"; the home continues; the estate can be administered without loss; just debts are paid promptly, and the Will has a chance to do what was intended.

But a vastly different story is told where there is no life insurance; and far more tragic than "a home without a Mother" is the Mother without a home.

Life insurance may be so readily secured that the world thinks little of those who fail to protect their dependents in this way.

Traveling Medical Health Officer is Talking at Schools This Afternoon

Dr. A. S. Lamb, travelling medical health officer for the province, is in the city under the auspices of the provincial board of health in the course of a tour of the province in connection with the fight being waged against tuberculosis. He is giving a series of public talks at the places he visits and this afternoon is addressing the pupils of the High School and High School Entrance classes. On Wednesday evening he will address a public meeting in the Booth School.

Dr. Lamb has been conducting this tour since last August and is on the last lap of his journey. He will visit Stewart, Anwox, and then return and go up through the interior returning by way of Jasper. He says that everywhere he goes he finds great interest being taken in preventive work and especially by members of the medical profession.

MATHEMATICIANS TO MEET IN TORONTO AND BRITISH ASSOCIATION

Special Congress to be Held With 150 Delegates Expected to Attend

TORONTO, June 2. — (Canadian Press). — Mathematicians from all parts of the globe have signified their intention of attending the seventh International Mathematical Congress which is taking place in Toronto in August concurrently with the meetings of the British Association for the Advancement of Science. As all previous sessions of this body, which constitutes an international parliament on mathematical matters, have been held in Europe, the University of Toronto and the Royal Canadian Institute are singularly favored in being honored with the first Congress to be held on this continent.

Over 150 delegates from Europe are already pledged to attend the session, including 48 leading mathematicians from the French universities. Representatives from the United States, as well as from all Canadian universities, will bring the total attendance to several hundreds, it is expected. Full intercourse between the leaders on each side of the Atlantic in the realm of symbols and numbers will be possible, as the Dominion and Provincial governments have each set aside \$25,000 to assist in defraying the expenses of the meeting, and the bulk of this money will be used to reduce the travelling expenses of the delegates from Europe.

Japanese mathematicians have been invited to the conference and acceptances are expected from a number of them. The Mathematical Congress is affiliated with

TONGUE COATED, BAD TASTE IN MOUTH, EYES TINGED WITH YELLOW

Liver Trouble the Cause

Mrs. A. C. Brown, Oromocto, Ont., writes: "I have been troubled with my liver for a few years back, and was so bad I did not feel able to do my work. I had severe pains in my stomach, so bad I could hardly stand them at times; coated tongue; bad taste in the mouth, especially in the morning; whites of eyes tinged with yellow, and had a mucky and allow complexion."

I had a great deal about Milburn's Laxa-Liver Pills and decided I would try a vial, and after taking two or three I found I was greatly improved, and can truthfully say that I felt more like living and can now do my own work without any trouble."

Milburn's Laxa-Liver Pills are 25¢ a vial at all dealers, or will be mailed direct on receipt by The T. Milburn Co., Limited, Toronto, Ont.

the International Scientific Union, formed at Brussels in 1922. This gives full voice in the meetings only to the countries which are members of the League of Nations, which accounts for the absence of German names on the list of those coming.

English will be the language of the sessions wherever possible, but those who do not feel confident to express their views to audiences in the English language, will be allowed to speak in other tongues.

FIVE THOUSAND LOTS GOING TO TAX SALE CITY OF EDMONTON

EDMONTON, June 2. — Seventeen pages of the current issue of the Alberta Gazette are utilized by the city of Edmonton for the official advertisement of lands liable for tax recovery proceedings. Nearly 5000 pieces of city property are included in the list, and practically all the subdivisions are represented. The redemption on these lands will expire on December 15 next, when certificate of title will issue to the municipality in all cases then unredeemed.

An additional list of delinquent lands in other municipalities throughout the province is also given in the Gazette, representing towns, villages, and municipal districts. So far as the tax recovery act is concerned, no favors or invidious distinctions appear to have been made in respect to any part of the province, all points of the compass being included in the official notices.

PRETTY, BUT QUIET WEDDING SATURDAY

Miss Grace Scherk Becomes Bride of Charles Batt of This City

A pretty but quiet wedding took place in the Anglican Church on Saturday evening, Rev. Archdeacon Rix officiating, when Miss Grace Scherk, daughter of Mr. and Mrs. W. J. Scherk, formerly of this city but now of Saskatchewan, was united in marriage to Charles Batt of Prince Rupert.

The bride wore navy tricotine with hat to match and carried a bouquet of roses. The bridesmaid, Miss Rita Scherk, was gowned in peach voile and also carried a bouquet of roses. Edward Batt was best man. Only relatives and immediate friends of the contracting parties were present.

Following the wedding the party repaired to the home of Mrs. Isaac Lear, where a buffet luncheon was served.

Mr. and Mrs. Batt will reside on Sixth Ave. West.

BUG EXPERT TO LECTURE

President of British Association is Expert on Parasites and Medical Research

TORONTO, June 2.—Canadians will be honored in August with a visit by Mayor-General Sir David Bruce, F.R.S., world famous parasitologist, who comes to Toronto to preside over the 92nd annual meeting of the British Association for the Advancement of Science. His inaugural address to this body will rank as the outstanding public scientific pronouncement of the year, at least as far as the British Empire is concerned. Election to the Presidency of the British Association is regarded as one of the highest marks of recognition which Great Britain can bestow on scientists, and in Sir David Bruce there has been selected one whose successful campaign in the medical battle against certain widespread diseases, has rendered him entirely worthy of the distinction.

Knowledge of Disease

Sir David has chosen as the subject of his presidential dissertation, *Advances Made in Our Knowledge of Disease*. In keeping with the aims of the Association, previous presidential addresses have drawn public attention to the recent strides which have been made in various branches of research and incidentally have emphasized the general indebtedness of mankind to those who are facilitating its progress. The field chosen by the president of the Toronto meeting is peculiarly adapted for this theme, as it is in medicine in particular that the average person realizes his complete dependence upon scientific study and research.

Sleeping Sickness

In his studies of sleeping sickness and allied maladies, Bruce has shed light upon the whole subject of the interrelation between human and animal disease, his work has demonstrated how topics assigned to the realm of so-called pure science may become of immediate practical importance. In their crusade against the sleeping sickness which has taken millions of lives in Central Africa, Sir David, ably assisted by Lady Bruce, was able to show that the infection was spread by the bite of a tsetse fly, although the insect itself does not possess a venom. The parasites which prey alternately on the fly and on human beings were finally isolated, and named Trypanosoma Brucei, in honor of their discoverer. With its origin and method of transmission made plain, the method of combating the disease was obvious, and energetic enforcement of preventive measures has resulted in minimizing the slaughter which the dread sleeping sickness caused each year in Africa.

CAPTURED DEER PORCHER ISLAND

Local Men Have Exciting Time at Salt Lake Trussing up Animal

IS NOW CAPTIVE

A deer was captured alive on Porcher Island by several Prince Rupert men and it is now perfectly at home in their bunk house. Writing of the event from Salt Lake, Porcher Island W. M. Stephens says:

At Porcher Island early in the morning, a deer was seen swimming across a lake that a few of us are logging on near by. We started it by our excitement and it swam back to shore. A few minutes later two deer then started for the side we are on. Presumably they were chased by wolves.

We headed out with two row-boats and after an exciting chase managed to rope one of them. Polka De Off made a frantic dive for it when we got alongside, and with Will Stephen's and Jack Sherman's roping experience soon had it trussed up. We now have it in the bunk house and it is perfectly at home, though this afternoon Jack tried to play with it and then it evolved into a wrestling match. We are going to take a picture of him (a yearling buck) as soon as the weather permits.

WISHES TO GO INTO MUSKRAT RAISING

EDMONTON, June 2.—Application for and inquiries in connection with homestead lands in the central and northern Alberta district are showing signs of increased briskness; according to officials at the dominion land office here. One particularly unique request for information came in the Wednesday morning mail from a resident of Auburn, Wash., who contemplates the establishment of a muskrat farm.

"Would you please," he writes, "send me information concerning homestead lands in Alberta. I would prefer land with a small lake on it that would be apt to contain lots of muskrats, as I want to start a muskrat farm. I would also appreciate any help I could obtain from the Canadian government."

"Please send me any maps you may have on homestead land."
