#### Elevator Talk May Prove Useful.

Many Prince Rupert people do not realize just how difficult it is to influence the erection of an elevator here and what number of adverse influences there are always working. seems a simple enough thing to the man on the street but it is not so. It is expected that we shall have an elevator here. Possibly we shall have a number, but we must leave no stone unturned to secure that end. If there is anything that can be done carried on, must mean the suplocally, we shall expect to do it, for it means much to us.

The visit of the two elevator men yesterday was important to us, although it does not mean that they are about to do some- races were coming up who were Encouraging Reports Read and thing. The fact that they were here shows that they are interested. Men do not run around to places like this and get up early in the morning to examine sites just for their health. The one the white races should unite for man is a consulting engineer who was here to advise the raifway the suppression of war. company in regard to the feasibility of the proposal and he is well satisfied. He will report favorably. The other man is the representative of possibly the largest grain company on the prairies, and he is looking for a western outlet for the grain opposed to war. He thought if siding, reports from the Sunday if the rates are so adjusted that he can ship westward. He is interested in the mouth of the Fraser River and the Prince Rupert proposals. If the rates are set right, he says his company will enter the grain shipping business from the west and there is a probability he may come here.

#### Grain Sacking At This Port.

The other suggestion that the railway company should utilize their big shed for sacking grain and storing sacked grain peoples. If the northern white their places were elected E. T. looks like a splendid business proposition and one that would races united to prevent war, they Kenny and James Richmond. be likely to be adopted. It would not be very costly yet it would could practically suppress it. The Dr. H. R. Grant of Prince Ru- if it is opposed to you it is promean making a beginning with the grain shipping business, people of northern Europe were pert ordained the elected elders, paganda, In conjunction with it would go a small elevator sufficient enable part cargoes of bulk grain to be assembled here. total cost would not be more than \$100,000 and it would be plant that would soon pay for itself and would enable the rail-standing, war would become for-close of the meeting, which was of it. way to make use of this end of the line and the big half million Hollar dock that is at present eating up money in overhead.

#### Possibly Nothing May Come Of Visit.

Posibly nothing may come as a result of the visit yesterday but at any rate it is hoped that the expert information will be an aid to F. G. Dawson and Fred Stork in their negotiations with the government at Ottawa where they are now asking for the recognition of this port. There is a big drive on to prevent the expenditure of money here and the local Board of Trade wa foolish enough to lend itself to the movement unwittingly. Estimates will undoubtedly be pruned unmercifully as a result of the nation-wide agitation but it is to be hoped that we shall escape the general cut.

#### Decision On Grain Rates Next Month.

When Mr. Riddell was here yesterday he intimated that a change would be made in the freight rates westward on grain been drawn between Canada and have a terrible voice over the very soon and today there comes a despatch stating that judgment will be given by the railway commissioners on the B.C. appeal made by Premier Oliver next month. If this judgment gives a reduced rate westward, we may look for business here soon. If the judgment is against us, the development of the port will undoubtedly be delayed. Much depend on what the decision will be.

—and the buying of a corset now receives the careful attention it deserves.

#### Experience is, after all, the best teacher

MONTHS ago when many women, eager to follow fickle fashion's decree, discarded corsets and took to the girdle and the wrap-around, the remark was sometimes made: "I'll never wear a corset again", in the false belief that the essential support of a proper corset, to which the figure had been accustomed, could be abandoned without serious results either in appearance or health.

#### The need of proper support

Time, has however, corrected this false impression. These same women are now coming into Corset Departments asking to be fitted

with corsets that properly support the figure and protect the vital abdominal organs from strain and from possible misplacement.

Thousands of women are thus now convinced of the necessity of adequate corsetting, not only as a prime essential in the preservation of health, but also as a most important factor in the accomplishment of a perfect appearance.

#### A style to suit every type of figure

Women now appreciate, more so than ever, the many superior features of the Nemo Corset. Among the many models and styles available there is a Nemo Corset that meets exactly the individual · requirements of your figure. The scientific construction of the Nemo provides ample and comfortable support, while their design insures a proper corset foundation for the new frocks and suits. Ask to see the new low bust models.

"Once try a Nemo and you'll never change."

Adanacs Beat Kaiens by 14 to 10 at Basketball-Sons of Canada Won Over Teachers

The Sons of Canada had no difficulty winning last night's Senior Basketball game from the Teachers by a score of 62 to 24. It was the Canuck's game all the way although the Teachers occasionally showed signs of good form.

E. A. Mann refereed and the scoring was as follows:

Sons of Canada-H. Menzies. 22; H. Astoria (1); D. Balfour (1), 34; V. Menzies, 2; D. Graham, 4.—Total, 62.

Teachers-D. H. Hartness (1) G. Shenton (2), 8; A. Lane (1), W. Lambie, 10; W. Wrathall, 6. Total, 24.

The Kaiens gave the Adanaes a good run for their money in he Ladies' League and lost by he narrow margin of 14 to 10.

The scoring was as follows: Adanacs-Miss Vera Shockley, 2; Miss Leona Parker, 6; Miss Annie Kelly, 4; Miss Pete Tre-.-Total 14.

NO FRIEND OF HERS

The mistress was annoyed by the repeated calls of a certain negro on her colored cook.

"You told me," she profested to the cook, "that you had no man friends. But this fellow is in the kitchen all the time."

"Dat nigger, he hain't no friend o' mine," the cook declared scornfully. "Him, he's jes' my 'usban.."-Everybody's Magazine.

ANOTHER AUTO DANGER

"The whole population of the United States," says a statistician, "could go motoring at the same time." But that would ruin the grand old sport pedestrian hunting. - Birmingham Age-Herald.

Steamer Celtic was in port this morning discharging general cargo for the Imperial Oil Co. The vessel left at noon for the Skeena River with cannery supplies.

#### TENDERS WANTED

Tenders will be received by the undersigned until March 1, 1924, for the purchase, with or without the lots, or the rent or re-Eleventh Avenue, formerly occupied by the Prince Rupert Dairy. The highest or any tender not necessarily accepted.

R. McKAY, P.O. Box 895, Prince Rupert, B.C.

#### NARROW ESCAPE OF TERRACE WATCHMAN

Jumped From Speeder Just In Time to Save Life: Speeder Smashed

(Special to Daily News). TERRACE, Feb. 22. - Night Watchman Cramer on this section had a narrow escape the other day. He was travelling on the track when his speeder was overhear it coming until close on him. Jumping for his life he landed safely before the train struck the speeder which was smashed.
