THREE CANDIDATES ARE NOMINATED TODAY

BRITISH GOVERNMENT IS SUSTAINED IN POWER BY 100 LIBERAL VOTERS

Three Candidates are Nominated to Contest Prince Rupert Riding

Hon. T. D. Pattullo, Liberal, Mayor S. M. Newton, Conservative, and T. Ross Mackay, Provincial, were the candidates nominated today to contest Prince Rupert constituency in the forthcoming provincial election. Returning Officer E. H. Mortimer attended at the court house between the hours of 12 and 1 p.m. and carried out the usual nomination formalities. Mr. Pattullo's and Mayor Newton's papers were handed in promptly at 12 o'clock and Mr. Mackay's were presented shortly after.

The nominees, their proposers, seconders and assenters were as follows:

Thomas Dufferin Pattullo, minister of lands—Proposed by Stewart P. McDermie, seconded by J. J. Theophile Collart, and assented to by J. McNulty, G. W. Nickerson, Bessie L. Parker, David Thomson, L. Andrews, John McKechnie, George Scott, Alex McLeod, John Harris, Peter Brown, V. B. Arnott, M. MacArthur, and M. M. Stephens. L. W. Patmore has been appointed Mr. Pattullo's agent; W. E. Fisher, Mayor Newton's, and Henry Letourneau, Mr. Mackay's.

BRITISH GOVERNMENT IS AFTER CHINESE TO LIBERATE MISSIONARY

LONDON, May 30.—The British government has instructed the minister at Pekin to make the strongest possible representations to the Chinese foreign office in order to effect the release of Rev. R. A. Jaffray, Canadian head of the Christian Missionary Alliance at Wuchu and other missionaries taken captive some time ago by pirates.

OTTAWA, May 30.—Premier Mackenzie King on receipt of word that Jaffray, in company with three other missionaries, had been carried off by Chinese pirates, wired London and Washington requesting that everything possible be done to obtain the release of the captives.

IMMIGRANTS STILL COMING

Many Steamers Carrying Approx-
imately 2,000 Settlers Arriv-
ing at Week End

MONTREAL, May 30.—Approximately 2,000 new settlers will arrive in Canada over the week end through the ports of Quebec and Halifax, according to advices received yesterday by James Morrison, general passenger agent of steamships, Canadian National Railways. The greater proportion of these will disembark at Quebec where over 1,500 will be landed.

The White Star liner Doric is due to arrive today from Liverpool and Belfast with 494 passengers while later on the same day the Andania of the Cunard Line will land 477 passengers from Southampton, Cherbourg and Queenstown.

The new settlers, including special parties being brought to Canada by the Ontario government and the Salvation Army, will proceed to their destinations by special trains over the Canadian National Railways.

In addition to the above, there will be in the neighborhood of 500 settlers landed at Halifax. The Fabro Liner, Madona and the White Star liner Pittsburgh docked yesterday. The former had on board a party of 200 Jewish refugees from Mediterranean ports.

The Drottningholm of the Swedish-American Line will dock on Monday from Scandinavian ports with 137 passengers. These will go to their destinations by the regular trains of the Canadian National.

ED. CONWAY NOMINATED

Field Engineer For Granby Co.
Will Carry Conservative
Standard in Atlin
Riding

E. J. Conway, field engineer for the Granby Consolidated Mining, Smelting & Power Co., was chosen to contest Atlin constituency at the forthcoming provincial election at the party nominating convention held last night in Atlin.

J. E. Merryfield, Conservative organizer, who attended the Atlin convention, stated this morning that the choice of Mr. Conway was unanimous and the convention was a very harmonious one.

THREE NOMINATIONS TODAY AT ANYOX

(Special to Daily News) ...

ANYOX, May 30.—Three nominations took place here today. They were Robert Armour, mechanical engineer, Provincial; Edmund John Conway, mining engineer, Conservative; and Herbert Fred Kergin, master mariner, Liberal.

ANGLICAN LAYMAN DIED AT TORONTO

TORONTO, May 30.—Evelyn McRae, 58 years of age, one of the leading laymen of the Anglican Church, is dead. He was commissioner of the Anglican Forward movement which he actively carried on for three years.

Queens have to sit just as still as anyone else when they are being recreated in clay. The picture shows Queen Victoria of Spain sitting for the well-known Spanish sculptor, Senor Ortega, who is doing a miniature marble portrait for the royal palace at Madrid.

Northern British Columbia is Lined up Politically for the Big Campaign which is now on

Constituency	Liberal	Conservative	Provincial
Atlin	H. F. Kergin	E. J. Conway	R. Armour
Fort George . . .	H. G. Perry	E. P. Burden	J. A. Shearer
Mackenzie	D. G. McKay	M. Manson	G. H. Lester
Omineca	A. M. Manson	Sam Cocker	A. Shelford
Prince Rupert . . .	T. D. Pattullo	S. M. Newton	T. Ross Mackay
Skeena	H. G. Wrinch	R. S. Sargent	F. Dockrill

Liberals, Conservatives and Provincials having nominated candidates in each constituency, there will be three-cornered contests in all the six ridings of Northern British Columbia at the forthcoming provincial election. Four of the sitting Liberal members—Hon. T. D. Pattullo, Prince Rupert; Hon. A. M. Manson, Omineca; H. F. Kergin, Atlin; H. G. Perry, Fort George—are seeking re-election and there are necessarily new candidates in the two new districts of Skeena and Mackenzie. Two unsuccessful candidates at the last election are in the field again—namely Sam Cocker of Omineca who was Conservative candidate three years ago for Prince George and S. M. Newton of Prince Rupert, who was an Independent before and who is now carrying the Conservative banner. Frank Dockrill, who sought election in 1916 as a Conservative for Omineca; is again trying his luck in Skeena—this time as a Provincial.

Committed for trial on a charge of committing a serious statutory offence, Hugh McMillan will be brought from Smithers by the provincial police tomorrow to elect in the County Court here.

EDMONTON, May 30.—Members of the Canadian Press and the Canadian Newspaper Association en route to the coast were entertained here Thursday to motor trips, luncheon, dinner and a dance and left at midnight for Jasper Park and then Prince Rupert where they will be from half past four until eleven o'clock Sunday evening.

VICTORIA, May 30.—The greatest problem in the British Empire today is that of redistribution of population, General Bramwell Booth, the Salvation Army head declared here today, when he arrived on the liner Niagara from Australia and New Zealand, en route to London. He will sail from Quebec next Wednesday.

Macdonald Government is Sustained by Vote of Liberals in Commons

Majority of 48 Against Motion of Censure:
Conservatives Ready to Vote Ministry
out of Power.

LONDON, May 30.—The House of Commons last night rejected the motion to reduce the salary of the labor minister, Tom Shaw, by a majority of 48, the vote being 300 to 252. The vote was merely a technical way of expressing disapproval of the government's policy respecting unemployment.

The division figures show that 100 Liberals voted with the government while 30 abstained from voting. Had the motion carried, the government would have resigned and it is probable there would have been another election.

No doubt exists among well-informed political observers that the Conservative wing of the parliamentary opposition is quite ready to vote the government out of office at any moment.

FIRE OPENING GUN ON TUESDAY EVENING

All Political Candidates Expected
to be Present at Theatre
Meeting

The opening gun of the campaign will be fired on Tuesday evening when Hon. T. D. Pattullo and Hon. A. M. Manson and the opposition candidates will give addresses on the political questions of the day at the Empress Theatre.

Mr. Manson has not spoken here for a long time and he always has something fresh to say. Mr. Pattullo will outline his policy and both S. M. Newton and T. Ross McKay will be invited to speak.

ROCKEFELLER GIVES MILLION TO THE FRENCH

Will Restore Rheims Cathedral
and Beautify and Restore
Fountains and Gardens

PARIS, May 30.—John D. Rockefeller, Jr., has placed \$1,000,000 at the disposal of the Franco-American committee for the purpose of reconstruction of the roof of the Rheims cathedral, which was destroyed by the Germans during the world war and for the beautifying and restoring of the fountains and gardens of Fontainebleau and Versailles.

Mr. Rockefeller, in a letter to Premier Poincaré, says he is constrained to make this gift because among the treasures of which France is the custodian, some belong to the patrimony of all nations.

FASCISTI AS HONOR GUARD

King and Queen of Italy Given
Great Sendoff in London

LONDON, May 30.—The departure of the Italian sovereigns for Rome last night was the occasion for demonstrations by the Italian colony here and the public generally. The British party at the station included the King and Queen of England, the Prince of Wales, the Duke of York, Prince Henry, Prince George, Princess Beatrice and Princess Louise. The station platform was carpeted and decorated with red and white roses and the national flags of Britain and Italy. One hundred uniformed Fascisti acted as a guard of honor.

Spending Holidays In This District.

While a good many people want to go to the larger centres of population to spend their holidays, there are a few who would rather visit some of the beauty spots nearer home. Those who look for scenery can find nothing finer than that in this district, especially up the rivers and deep inlets along the coast. Everywhere the traveller goes fresh vistas open up and new beauties present themselves. Nothing could be finer than a week or two spent in a small launch running into the inlets and up the river of this north coast.

Stick Up For Own City.

During a recent visit to the south the editor often heard it said what boosters Prince Rupert people were and how loyal they were to their own city. Compared with this in one of the cities the writer was advised by a businessman that it was not worth while paying taxes on local lots because they would never have any value.

It is good to know that we in the north can cultivate the spirit of loyalty which is so necessary to success. We must be loyal to our friends if we are to keep them. We must be loyal to our city if it is to prosper. We should also be loyal to our province, to our country and to the empire of which we are a part. Loyalty is the father of co-operation. If we are not proud of our citizenship we shall hardly take the trouble to improve the city.

Candidates Are Now In Field.

The candidates for provincial honors are now in the field. We are called upon to choose the best man to serve the constituency during the next five years. It is not a matter of friendship or of favoritism but of choosing wisely the man who will serve us best.

Doubtless all are embued with the best motives. They will serve to the best of their ability. That, however, is not enough. We want a man who will serve us well and who has the ability to do it. Electors will do well to consider this point of view. The province has much to gain by being wisely administered and much to lose by muddling through.

Was It Wise To Put Up Candidate?

There are now three candidates in the field in this constituency and those who have espoused the cause of the third party will have a chance to give effect to their beliefs if they so wish. While we doubt if it was worth while to put up a third candidate, we recognize the right of anyone to enter the field if they so wish and to espouse any cause they think is right. We doubt if T. Ross Mackay will get much support from Liberals, although it must be admitted he has considerable political ability, and it is possible he may make a creditable showing on election day. S. M. Newton is the Tory nominee and will get all the backing of the old political machine which is said to have worked so well under Joe Merryfield, the organizer who arrived in the city last night. He is well known and will get strong support. Hon. T. D. Pattullo, minister of lands, who is the Liberal nominee, seems to be the favorite so far, and should be an easy winner. He is expected tomorrow and will conduct his campaign in person and from this time on the contest should prove interesting.

TAXING PROFITS OF BOOTLEGGER

Law Case at Windsor Over Right of Government to Collect from Illicit Income

OTTAWA, May 30.—Are profits made in bootlegging liable to income tax?

This is the remarkable question on which argument is being heard by Judge Audette in the exchequer court today. Cecil R. Smith, a garage proprietor of Windsor, claims that such profits are not liable to income tax inasmuch as the state cannot recognize an occupation that is illegal. The statement of claim filed in court states that Smith has been engaged, in addition to his occupations as garage owner, in the business of trafficking in liquors, in Ontario, and that he never had a license, that the appellant (Smith) therefore alleges that profits made in his illicit trade in liquors are not taxable within the proper interpretation of the income war tax, and that "all" the appellant's transactions in the liquor business have been carried on within the province of Ontario and contrary to the provisions of the Ontario Temperance act, and any profits alleged to have been made by him were earned in his illicit trade in liquor."

George D. McEwen, of Windsor, presenting the appellant's case, argued that British justice had no place for that which was not strictly legal. He took the ground that for the dominion government to tax profits made in bootlegging would be recognition of something which was not legal.

Following the hearing of argument Judge Audette reserved judgment.

GYRO DISTRICT IS DIVIDED IN TWO

Convention at Edmonton Last Week Decides to Break up Pacific Northwestern Division

EDMONTON, May 30.—What heretofore has been known to Gyros members of the Pacific Northwestern district has disappeared, and in its stead two sections have been formed. Such was the decision of the district convention of Gyros here last week when Clarence Lougheed of Calgary was elected governor of District No. 8, with Charles McDougall, Edmonton, deputy governor; and Frederick Brown of Vancouver, elected president of District No. 9, with Elmer Finland, deputy governor.

The boundary line between the two new districts will follow the Rocky Mountains south to the border; from there it will follow the western boundary of Montana into Washington as far as Spokane. Nelson and Cranbrook will be in the eastern section, or District 8, the meeting decided. Prince Rupert will be in the western district.

The Prince Rupert Orchestral Society, under the leadership of Prof. Paul Kauffmann, gave its first recital in the K. of P. Hall last night. The orchestra consisted of W. C. Butler, F. M. Crosby, Mrs. M. L. Freeman, Miss Lillian Johnstone, James L. Lee, D. Scheimann, F. Stephens, M. Stephens and Mrs. G. A. Woodland, violin; J. B. McKay, violin; Prof. Paul Kauffmann, cello, G. A. Woodland, flute; Walter Miller and H. O. Peyton, cornets; Lee L. Baker, trombone; W. J. Briggs and G. H. Peters, piano. A party of Swedish troubadours also contributed to the program. They were Miss A. Bergland, Mrs. M. Langlo, H. Nelson, C. Jacobsen, Mr. and Mrs. K. Hallberg, Mr. and Mrs. S. Holmquist, O. Quist and Mrs. C. Jedlin, Miss M. Freeman, G. A. Woodland, Master Elgood Stephens and Miss Kathleen Jennings sang solos. G. H. Peters piano solo, Lee Baker, trombone solo, D. Scheimann, violin solo, Miss Stevens, piano duet, and Mrs. E. Patterson a recitation.

Rev. H. R. Grant, the original "sky pilot," and Mrs. Grant are visiting the city. Mr. Grant will preach in the Presbyterian Church tomorrow.

William Denholme, after spending the winter in Vancouver, returned to the city on this morning's boat.

RAIN AND SNOW FELL ON HOLIDAY ALBERTA PROVINCE

Newspapers to hand tell of the fall of snow and rain in the province of Alberta. The Edmonton Journal says:

While Sunday's rain and snow were not ideal conditions for holiday making, farmers throughout the province are rejoicing today, for the downfall means assurance of ample moisture for seed germination with a good reserve for growth of the young plants until the June rains can be counted upon to supply the summer supply of rain.

There were several heavy rain showers before daylight on Sunday morning, and when dawn broke rain and snow, driven by a strong north wind, were falling heavily. The precipitation as given by the weather station in the Highlands shows 1.06 inches of moisture, which is somewhat of a record for this time of the year.

Nowhere did the snow stay on the ground for long after falling. At Jasper there was sufficient snow fall to cover the ground, and the same thing would apply locally had the snow remained instead of melting. The rain was general over the whole of northern Alberta and will be appreciated to the full by farmers.

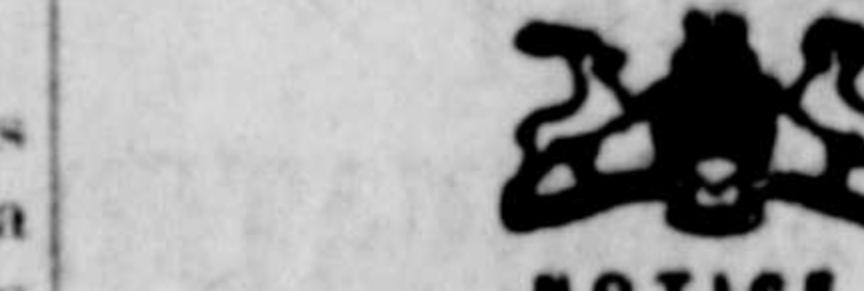

Similar good news comes from the drought area of southern Alberta, where, up to the week-end, seeding was at a standstill owing to the extreme dryness of the land and the doubt in the minds of the farmers as to when there would be rain. Advises from Calgary state that the rainfall was general in southern, eastern and central Alberta over Saturday and Sunday, the south country receiving a large share of the needed moisture.

THOMAS MEIGHAN IN VANCOUVER JUNE 4

Famous Movie Star and Company Will Visit Southern Metro- polis Enroute to Banff

VANCOUVER, May 30.—Vancouver will see some of the stars of the screen in person on June 4, according to word reaching the publicity bureau here.

Thomas Meighan, Estelle Taylor and Miss Fong, the latter the Chinese screen actress, are due here on June 4. They will be accompanied by Frank Brandaw, business manager of the Famous Players-Lasky Corporation, and from 40 to 50 lesser lights. They will go to Banff to make some pictures.

While Sunlight Works

YOU have more leisure hours on wash day if you use Sunlight Soap. Away downstairs in the wash tub this wonderful soap will do the labour. You rub the things with Sunlight—you put them to soak—and then its penetrating cleansing ingredients search through and through the fibres, loosening even the hardest dirt or the oldest grease stains completely. No wash board rubbing, no boiling, no hard work. Then, with rinsing, the dirt runs away and your clothes are ready for the line, purified and snowy clean.

*Wash day should not take your labour—
only Sunlight's gentle strength.*

George W. Watson, assistant city ticket agent for the Illinois Central and Grand Trunk Railways at Chicago, arrived from the East on last night's train and proceeded by the steamer Prince Rupert to Vancouver. He is on an educational tour of the West.

R. H. Leighton, who has been forest supervisor at Smithers, is to be transferred to Prince Rupert in a similar capacity early next month. T. W. Brewer, forest supervisor at Prince George, will take Mr. Leighton's place at Smithers and is expected here next Sunday to receive instructions at the head office before proceeding to Smithers to take over his new duties.

Mrs. Jas. Adams of Port Essington, one of the real old timers of the coast, having lived for the past thirty years in the neighborhood of Port Essington, leaves tonight on a visit to Scotland to visit her brother, Dr. Noble, of Baillieston, near Glasgow. Mrs. Adams will also visit Edinburgh and Aberdeen and will take in the big Exhibition at Wembley before returning.

Mr. and Mrs. E. E. White of Milwaukee, who are on a holiday tour of the West, returned to the city last night from Anyox. They have cancelled their plans to go to Alaska and instead will visit Stewart and then go to Vancouver. Mr. White, who has travelled extensively in Europe and other countries, states that the scenery between Jasper and Prince Rupert on the line of the Canadian National Railway eclipsed anything he had previously seen.

of the series dealing with the establishment of the
Bank of Montreal at representative points in CANADA
and elsewhere

HE growth of the Bank of Montreal has closely coincided with the gradual development of Canada from a small colony to a great Dominion.

In the Bank's westward advance to the Pacific Coast, one of the important links in its transcontinental chain of Branches was formed in 1878 at Winnipeg, when the Bank opened its first Branch west of the Great Lakes.

This forward step, taken seven years before railway communication was opened up between Montreal and Winnipeg, made available to the incoming population on the prairies the stabilizing co-operation of a strong, conservative and at the same time energetic financial institution.

Of the Bank's 567 Branches, 12 are situated in Winnipeg and 180 in the Prairie Provinces, including Winnipeg.

PRESENTATION TO CAPT. GREEN

Officer of First Northern B.C. Regiment Given Gold Watch on Leaving

At the headquarters of the First Northern B.C. Regiment last night a presentation was made to Capt. D. Green, M.C., on the occasion of his leaving the city for the north. He was given a fine gold watch on which was the following inscription:

"Presented to Capt. D. Green, M.C. by the officers, N.C.O.'s and men of the First Northern B.C. Regiment, May 29, 1924."

The presentation was made by Captain Hubert Ward who spoke of the many sterling qualities of the recipient and of the regret it gave them to lose him both as a member of the regiment and as a citizen.

The Captain responded in suitable words, thanking them for the splendid gift and also for their expressions of good will.

The evening was spent in music and story telling, refreshments were served and the party broke up at an early hour.

Capt. Green is leaving for Telegraph Creek in the Government service and Mrs. Green will remain here for the present.

PULP PROJECT AT WINNIPEG

J. D. McArthur to Establish Plant at St. Boniface Spending Large Sum

WINNIPEG, May 30.—With a capital of \$5,000,000, of which the cash outlay will be \$3,600,000 in immediate operations, the Manitoba Pulp and Paper company will shortly establish its plant in "Block F," St. Boniface, and give employment to 700 men throughout the year, besides winter employment, in the bush, for 1,500 more. Negotiations with the Dominion government, in which each cabinet minister is said to be most sympathetic with the aims and desires of the company, are now in progress and word of the necessary concessions is momentarily expected from Ottawa, which will guarantee the advance at full speed of every department of the enterprise, which J. D. McArthur, of Winnipeg, has had in line since 1916.

Behind Project

George Seaman, of Chicago, head of the largest pulp and paper manufacturing concern in America, and perhaps in the world, is solidly behind the McArthur enterprise, and having satisfied himself the necessary supply of pulpwood for a 200-ton plant is in sight, is keen to start work. Mr. Seaman was in Winnipeg this week, accompanied by his solicitors, his chief secretary and accountant, and, in com-

BY NO MEANS ALLOW YOUR BOWELS TO GET CONSTIPATED

If you allow your bowels to become constipated you will have bilious attacks, sick headaches, coated tongue, foul breath, sallow complexion, specks floating before the eyes, whites of the eyes dull and yellow, heartburn, water brash, etc.

Keep your bowels regular by using Milburn's Laxa-Liver Pills, as by doing so you will be able to keep well and have no more trouble with your liver.

Mrs. I. Rubin, Haffrite, Sask., writes—“I was very badly troubled with constipation, often had bad headaches, my tongue was coated, and I felt anything but well.”

After taking Milburn's Laxa-Liver Pills I have felt much better as they certainly did me a lot of good.”

Milburn's Laxa-Liver Pills are 25¢ a vial at all dealers, or mailed direct on receipt of price by The T. T. Milburn Co., Limited, Toronto, Ont.

pamy with J. D. McArthur, Bruce W. Thompson, Ald. Art. McFadyen, chairman of the St. Boniface industrial committee of the city council; Mayor R. J. Swain, official of the Manitoba Power company, and others, visited the power plant at Great Falls, which is to supply the electrical energy to generate the plant in St. Boniface. It will be necessary, for this purpose, to lay an extra power line from the falls to St. Boniface, as the whole consumption in the city of St. Boniface at present. Though the power site at Pine Falls also on the Winnipeg river, is controlled by the Manitoba Power company, it is not economically feasible to develop it at the present time, as the Manitoba Power company is developing sufficient for the purpose and can quickly make arrangements to deliver it.

After many delays, the Base-

ball Association at last has its schedule for the season out.

The time-table for the first half as published yesterday provides for two games between May 24 and July 4. The second half will have a similar number of fixtures bringing the conclusion of the competition for the city championship well on towards the end of August. The champion ship is now held by the Sons of Canada, who won the Nicke-son Shield outright last year, having come out on top three seasons.

RED BEARDS ARE BANDITS

Members of Band Mingle With
Fellows in Winter and
Operate in Summer

HARBIN, Manchuria, May 30.—The notorious bandits of Manchuria, called in Chinese "Hun-hutz" or Red Beards, have begun to reappear with the advent of warm weather. Their favorite field of operations is along the 900-mile line of the Chinese Eastern railway, among the prosperous settlements populated by Russian railway employees and Chinese farmers.

Winter Inactivity

The cold of the winter serves to keep these bandits more or less quiescent, maintaining themselves as best they can on booty acquired during the summer season. Nevertheless, they do not find it necessary to hide in the mountains or forests during their period of inactivity. On the contrary they mingle freely in the life of the towns as peaceful citizens, sometimes occupying themselves with some petty trade or beggary in the streets.

Occasionally one chances to be recognized, in which case punishment is swift and sure at the hands of the executioner who wields a two-handed sword, or in a locality dominated by the military, before a firing squad. In either case the occasion is public.

Terrorize Towns

The severity of their punishment, when caught, suggests the fear with which the populace regards the bandits, and there is plenty of reason for this. In the summer they actually terrorize the railway towns, levy taxes on the lumber concessionaries, fight battles with the troops and are too often successful, and interrupt navigation on the rivers. They operate in well armed disciplined bands and thus far opposition to them has met with doubtful success. Railway guards exist but are poorly armed and poorly organized, so that railway employees living along the line are resigning their posts and moving to places of safety.

LOOKING FOR CRADLE OF MAN

Scientists Convinced That Desert of Gobi Is Original Garden of Eden

PREHISTORIC BONES

Eggs of Dinosaur Said to be Millions of Years Old Fossilized There

NEW YORK, May 30.—Roy Chapman Andrews, leader of the American Museum of Natural History expedition which discovered the only known fossils of dinosaur eggs, has sailed for Mongolia to prepare for the reception of a party of scientists who next fall will invade that graveyard of mastodons, the Gobi desert, in search of the "Garden of Eden."

The 1924 expedition expects to remain afield for five years and will exhaust every effort toward excavating the bones of the earliest man in support of the theory that he first trod earth in what now is the desolate Gobi desert, a verdant paradise 10 to 25 million years ago.

Homo Sapiens

Five of the party were members of the three-year expedition which emerged from Mongolia laden with the most valuable collection of prehistoric bones and fossils known to paleontologic history. They helped find the famous dinosaur eggs, and it was upon their unearthings that scientists since have built the theory that Homo Sapiens first lived millions of years prior to the "dawn of history" heretofore variously ascribed to the time of the Pithecanthropus Erectus, the Neanderthal Man, or the Californian human whose bones, recently discovered, have aroused a new controversy among scientists.

Mr. Andrews is confident that the true birthplace of man, the spot on earth where a human first was evolved from an animal, will be found in the Gobi desert. Perhaps not by this expedition, he says, but sometime soon, surely.

Hunting Bones

"We can't be definite," Mr. Andrews declared. "We can only say that the evidence we have convinces us we are seeking in the right place. We are specializing on man. We never have organized to hunt his bones before. We have been more concerned with the history of rocks than of humanity.

"Now we are going to the rocks where human remains are most likely to exist. We think the prospects justify gambling, although some students say we are hunting a needle in a haystack."

The Gobi desert proved a veritable treasure trove for the last expedition. A few prehistoric bones, exposed to view by a chance shifting of the hot, dry sand, led to the discovery of a huge natural cache of fossilized reliefs.

Dust of Desert

Everything was in a marvellous state of preservation after having been insulated from the elements for millions of years by the fine desert dust. Even the shells of the much-prized dinosaur eggs were found intact, with the embryos of the monsters in various stages of development preserved for this age to study.

The discoverers' theory is that the Gobi Desert was at one time a tropical plain, threaded with watering places and covered with verdure on which the mastodons of the times fed. Then some catastrophe, an earthquake or an inundation exterminated thousands of them in a moment, leaving their remains, and perhaps those of men of that day, to be miraculously preserved through the ages.

FRED STORK VISITS BORDER CITIES AND IS AMONG SPEAKERS

Fred Stork, member for this district, was one of a party of members of parliament that recently visited Windsor, Ontario, as a guest of A. F. Healy, M.P. for North Essex. He is shown in a picture of the group photographed just after their arrival and published in the Border Cities Star.

In the course of his after dinner speech Mr. Stork did not fail to mention British Columbia. In the Star he is reported as fol-

INTO THE ATTIC

Few youngsters today ever saw a horse-hair sofa. They wouldn't know what to do with a fire taper, carpet stretcher, or coal oil lamp. They couldn't braid rags into a rug, or wind yarn without tangling. But they know the how and why of typewriters, phonographs, telephones, automobiles; what happens when a push of the button gives light, or a kodak's flash fixes their image on paper.

Their education is as modern as the advertisements they see. They have no more use for the lamp and chimney of yesterday than you for the wick and tallow of the day before.

Advertisements induce such progress. They urge wide use that means improvement. They help you lift the out-of-date into the attic--rid you of the water buckets and soap kettles of slavdom. They bring late improvements within your reach.

Read the advertisements regularly. Keep alert to the new.

Without advertising, you would never know a product's worth until you had bought it.

lows:

Alfred Stork, Prince Rupert, B.C., Liberal, said that it was his first visit to the border, and that he was genuinely amazed to find such evidence of prosperity and commercial growth. "We did not know that on the Detroit River Border are manufacturing industries unparalleled in the Dominion of Canada," he observed. "I do not think that your citizens are making the advantages of the Border known strongly enough in Canada."

British Columbia, he said, was a province of tremendous natural wealth and its people aspired to make it one of the most important provinces in the country.

LESS WHEAT THIS SEASON

Alberta and Saskatchewan Going in More For Mixed Farming; Crop Report

WINNIPEG, May 30.—With the exception of a few scattered points, wheat seeding is practically finished and the sowing of coarse grains about 75 per cent completed in the three prairie provinces, according to a crop report issued by the Manitoba Free Press.

The report shows a decided decrease in wheat acreage in Manitoba, probably 25 per cent, a slight decrease in Saskatchewan, with Alberta about unchanged from last year. The decreased acreage in wheat is being substituted by increased acreage in coarse grains, flax, sweet clover, corn and fodder crops, there being a marked trend towards more mixed farming, especially in Manitoba and parts of Saskatchewan.

Make Splendid Root

Generally speaking, wheat is from two to three inches above ground, with some early sown

seed much higher. In some cases night frosts have killed all wheat above ground, but this has caused the plants to stool out splendidly, and the cool weather has enabled the crop all over the west to make splendid root.

The seed bed is reported in good condition throughout Manitoba, Saskatchewan and Alberta, and with the exception of a few districts there is sufficient moisture to give all grain crops a good start.

There has been a little drifting from high winds in a few localities, the appearance of grasshoppers is also noted and cutworms are working in a few districts.

MAN WAS THROWN FROM A RAILWAY SPEEDER KILLED INSTANTLY

EDMONTON, May 30.—Charles William Crow, married, aged 29, who resides at Duagh, two and a half miles east of Oliver on the St. Paul branch of the Canadian National, and was employed as a section man by the railway, was instantly killed when he was thrown from a speeder near the junction point at Oliver. His skull was fractured when his head hit the rail.

The gasoline speeder was proceeding eastward at 4:50 in the afternoon and on it was the deceased and five others, the foreman, James Ellis, his son, John, and three foreigners named Alex, Harry and Mike. They were running along at the rate of about twenty-five miles an hour, when it is thought as the result of striking an obstruction the conveyance jumped the track. All the men but Crow escaped without serious injury. He was thrown directly on the rail and alighted on his head. Dr. Dick was called from the Oliver municipal hospital but life was extinct before he arrived.

PROHIBITION SUCCESSFUL

That Is Plea of Counsel for Anti-Saloon League at Washington

WASHINGTON, May 29.—Opponents of modification of the Volstead Act to permit 2.75 per cent of alcoholic content in beverages, made a general attack on pending bills which would provide for such a change in the act at concluding hearings today of the house judiciary committee on the question. Chairman Graham, at adjournment, announced that the taking of testimony had been completed, but arguments of counsel of opposing sides would be heard before the committee began framing its report.

Wayne B. Wheeler, general counsel of the Anti-Saloon League, led off in the attack, asserting that "prohibition enforcement is not failure."

"The record of 1923," he declared, "shows that fines of

more than \$5,000,000, and jail sentences amounting to 2,241 years, were imposed, and 34,067 convictions obtained. The liquor tax penalties and assessments amount to approximately \$40,000,000. The lower the alcoholic content of beverages, the lower the jail population."

"Remus" (the Cincinnati bootlegger sentenced in Atlanta), and the other millionaires, and public officials who are behind the bars today for violation of this law, can testify that prohibition is much more effective than its enemies wish it was."

Students for Prohibition

Declaring that "the overwhelming majority of American students are heartily in favor of the prohibition law as it now stands, and opposed to any modification," Harry S. Warner, general secretary of the Intercollegiate Prohibition Association, said that the time is not ripe for modification as it has not had a real test. Such drinking as exists is "spectacular and exceptional, and done in the spirit of adventure," he said, adding that habitual drinking in colleges does not exist.
