Provincial Party is in Danger of Breaking up

Dissensions at Meeting Last Night When Resolution of Censure of Members is Proposed; McRae Absent

VICTORIA, Dec. 4.—What little remains of the Provincial Party organization here since the general election was torn by a revolt which threatens its continued existence, as a result of what some of its leaders describe as the "incomprehensible attitude" of the party's elected members.

Last night the Provincial Party organization held a meeting at which a resolution censuring the three members of the Legislature for siding with the Oliver Government during the present session was introduced.

The chairman, Dr. M. S. Guthrie refused to allow a vote on it and the meeting virtually broke up when a crowd headed by Captain H. S. Thain and General G. S. Elliott left in protest.

General McRae, leader of the party, who was in town, was expected to deliver the principal speech of the evening, but failed to appear.

RUSHING GRAIN FROM PRAIRIES

Nearly Four Million Bushels Loaded Into Ships in One Day at Lakehead

WINNIPEG, Dec. 4.—A new record in the loading of grain at the Lakehead was established yesterday, according to figures issued by the Canadian National Railways this morning. A total of 13 vessels were loaded with 3,753,000 bushels of grain. Further heavy loadings may be anticipated during the next few days since six vessels are loading today and eleven more are due to reach port.

Loadings on Canadian National lines in the west continue heavy. A total of 54,831 cars containing 73,242,000 bushels having been loaded since August 1. Daily loadings are just short of 1,000,000 bushels, much of which is coming from the line elevators rather than from farmers direct. Since August 1 a total of 1248 cars have been delivered to Vancouver.

CITY TEMPLE EXCLUDES CHILDREN FROM SERVICES

Pressure for Seating Space Makes Action Necessary at Victoria

VICTORIA, Dec. 4.—Owing to the immense crowds attending the City Temple services every Sunday evening it has been found necessary to prohibit the admission of children. Many are turned away although the building seats 1800. Dr. Clem Davies who was recently refused the pastorate of the Centennial Methodist Church by the Methodist Conference, is the pastor of the City Temple.

COPENHAGEN, Dec. 4.—A bill to authorize doctors under certain conditions to take the life of a patient was introduced into the Danish Parliament by the Government.

BRITAIN'S POSITION

League of Nations Notified That no Interference in Egypt Will be Permitted

GENEVA, Dec. 4.—Great Britain has informed the League of Nations that it will not recognize that any signature by Egypt of the peace protocol will give Egypt the right to appeal to the league on matters connected with the Anglo-Egyptian dispute. The British note also declares that no interference from any source on matters touching the Sudan would be accepted.

SEVEN DEAD IN RAILWAY SMASH

Sacramento Short Line Train Collided with Key Route Suburban at Oakland

OAKLAND, Calif., Dec. 4.—Seven persons, two of them women, are dead as a result of a rear end collision between a Sacramento Short Line train and a Key Route suburban. The Sacramento train crashed into the electric.

The only one of the dead so far identified is O. G. O'Loughlin. Thirty-one were injured.

BODY OF PETER COLLIGAN FOUND

Provincial Police Returned to City With Remains This Morning and Inquest Will be Held

Provincial police returned to the city last night with the remains of Peter Colligan, the logger, who lost his life by drowning in Khutzmeaten Inlet last week. An inquest will be held.

SHIPPING DESTROYED + +

PRINCE ALBERT, Dec. 4.—A severe storm at Port Nelson on December 1, considerably damaged the Hudson Bay terminals and destroyed more shipping, according to advices to the Royal Canadian Mounted Police headquarters here.

Duke disclosed where he had cached the missing articles and accompanied Sergeant Bailey to the railway yard below Water Street where the articles were found under a car wrapped in an old sweater which accused said he had also taken from the store.

This morning Duke was charged in court, the offence being an indictable one which required no plea. After the evidence of Mr. Grafton, Sergeant Bailey and Chief Vickers had been taken, committal was formally made, accused making no statement.

Duke is believed to be a veteran of the Imperial Army. He stated that since coming to Canada from the Old Country he had met with adversity and was up against it. He arrived in the city two days ago from Edmonton. He is quite a young man.

JACK THOMAS THOUGHT MET WITH AN ACCIDENT

In connection with the mysterious disappearance of Jack Thomas of the gas boat Provincial, mention of which was made yesterday, Mrs. Thomas, who lives at the Palmer House, is of the opinion that he has met with an accident as she says all indications point that way.

Minority interests would be protected by a grant of money instead of dividing the church property between concurring and non-concurring bodies under the Odulum plan. The amount of money to be paid by a congregation holding out for union would be determined by the strength of the vote.

INQUIRY INTO CRITICISMS OF CITY FOREMAN

Board of Works Will Hold Public Sitting on Wednesday Evening Next

The board of works of the city council yesterday decided to hold a public inquiry into the conduct of J. McRae, city foreman. This inquiry will be held at 7 o'clock on Wednesday evening of next week and all interested will be given an opportunity of being present and stating their case either for or against the foreman.

Arrangements are to be made for a stenographer to take down the evidence and after the inquiry the board will decide what to do in the matter and report accordingly to the council.

UNITED STATES HAS POSTAL DEFICIT OF FOURTEEN MILLIONS

Twenty One and a Half Million Letters Not Delivered Owing to Defective Addresses

WASHINGTON, Dec. 4.—The annual report of the Postmaster General to President Coolidge shows that the postal service of the United States ended the year with a deficit amounting to \$14,428,137, a considerably lower deficit than for the previous year.

In the course of the year twenty-one and a half million letters were received which it was impossible to deliver owing to defective addresses, an increase of over two millions on last year.

There was an increase in the weight of newspaper mail received and also an increase in foreign mail.

Premier Oliver Charges Twigg With Attempt to Show Strife Prevails in Liberal Circle

VICTORIA, Dec. 4.—In the legislature, Hon. T. D. Pattullo, minister of lands, in answering questions asked by Despard Twigg, member for Victoria, denied that any disagreement existed between himself and Charles Woodward, the Vancouver member, over the sale of timber lands in the Capilano watershed.

"Did the Vancouver member not threaten to resign his seat if the block was not withdrawn from the market?" asked Mr. Twigg.

PHOTOGRAPHY EXPERIMENT

Airplane Will Race With Moon's Shadow During Eclipse of Sun on January 24

WASHINGTON, Dec. 4.—An airplane will race the shadow of the moon nearly four hundred miles across New York state during the sun's eclipse on January 24. The machine will carry a specially designed camera and photographs will be taken from the plane of the sun's flaming corona visible during the eclipse. The purpose of the experiment is to permit photographing for a longer period than two minutes. The eclipse will be visible from the earth.

Two Visitors to Rotary Club Spoke of Value of Advertising City

Two visitors to the Rotary Club spoke at the luncheon today on the value of continuously advertising the advantages of the city. One of these was Rotarian Ed. Lipsett, treasurer of the Vancouver Club and the other J. S. Louis Pacific coast manager of the Garibaldi Machine Co., manufacturers of refrigerating machinery at Los Angeles.

Mr. Louis took advantage of the occasion to speak of the marvellous growth of Los Angeles and urged that similar methods be used here. Every person here should speak well of the place and show its advantages and especially the wonderfully tourist attractions of the side passage, which he characterized as the most beautiful steamer trip he had ever taken.

NOT VIEWED WITH ALARM

U.S. Restriction on Canadians Entering That Country Will Not Hurt Dominion

OTTAWA, Dec. 4.—Recommendation of United States Secretary of Labor Davis, in his annual report to Congress, that quota restrictions are to be placed on Canadian citizens desirous of entering the United States are not viewed with alarm here. It is stated that such legislation preventing a large exodus from Canada would probably benefit Canada as a whole.

Mr. Davis' further recommendations for restriction of all immigration under existing legal limits in times of unemployment is evidently along the lines of the present Canadian act which provides for the passing of an order-in-council at any time regulating such influx.

UNITED STATES IN GOOD SHAPE

Optimism but Caution Manifested in Report of Treasury Secretary to Congress

WASHINGTON, Dec. 4.—A year of prosperous and healthy conditions is forecasted in the annual report to Congress of Secretary of the Treasury Mellon. The per capita tax has been cut from \$54 to \$27 in the past four years and public expenditures have also been cut in half, the report asserted.

Mr. Mellon declared that the United States had emerged from post-war transition in a healthy condition but cautioned the necessity of proceeding slowly and carefully with any further tax reductions or changes in the national finances.

United States
World Court.

The United States, apparently for domestic political reasons, will have nothing to do with the League of Nations but favors the establishment of a world court. That country expects all the world to dance to its tune no matter how foolish it makes them appear. Happily the League of Nations has gone ahead with its work and is functioning with more or less efficiency. To have one big nation, the nation chiefly responsible for its formation, standing aside and having nothing to do with it, would be amusing were it not so tragic. It is one of the instances of the failure of democracy. The United States government seems to take the stand that if it is the world and the other countries are more or less appendages.

Saskatchewan Has
Government Control.

Saskatchewan is adopting a government control measure. And it will be noticed that nobody now has the temerity to call either that law or the British Columbia law a moderation law. That the British Columbia law is exciting the interest of outsiders is continually apparent and this patterning of Saskatchewan's law on the one which has been in force here is the highest compliment it could receive. Nobody can suggest that the British Columbia method is perfect or anywhere near it. Many objections may be taken, especially to the quantities allowed to be purchased. Still it seems to be the best system heretofore discovered. With modifications from time to time it may be kept up to date. Possibly, when it is seen what success the other provinces have, this province may benefit by their experience.

Macdonald Endorsed
By Labor Party.

The labor members in the British House of Commons have endorsed the leadership of J. Ramsay Macdonald in spite of the failure of that leader to bring the party to victory. His work as premier inspired confidence in his followers and also evoked many commendations from prominent people throughout the world. The difficulty with Macdonald was that he was at times too much inclined to be influenced by the red element in the party. He held a most difficult position and even though he lost it on an appeal to the country, he showed that in Conservative Britain labor had a great deal of influence. He also showed that Labor was not as radical as it professed to be. The short period of power must have been decidedly beneficial both to the Labor members and to the other elements in the House. The chasm dividing them has been bridged and there is more of kinship now than ever there was before.

Museum Is To Be
Organized Here.

At a public meeting last night it was decided to organize a museum here. The meeting was small as it was expected to be. There is nothing spectacular about starting a museum collection. No one gets any glory and there is nothing in sight for those who take part except quiet service for the community and for the cause of scientific study.

Now that the preliminary governing body is appointed and a place has been found for keeping specimens which may be donated, the next thing to do will be to get the collection started. The new board will meet in a few days. They will have for their guidance the copy of a set of bylaws and constitution of the Jeanneau historical museum.

The success of the new museum will depend on the amount of work the new committee does and the co-operation they receive from the people of Prince Rupert and district.

Responsibility Of
The Individual

There has been an idea that a corporation could do anything it wished without anyone being responsible. The result has been a certain amount of corporation oppression and a feeling of resentment by people generally against corporate bodies. Now this is being changed. A bank bilked a lot of people out of their hard earned savings. The officials and directors of that bank are being punished for the offense. Some of the directors possibly thought that in covering up falsifications they were serving the public by giving an opportunity to redeem the past and yet make good financially. The folly of this has been made plain and the result will be to make officials of companies and other institutions much more careful in future.

WOULD USE ENGLISH
INSTEAD OF BRITISH

Ninety-six Per Cent of Residents
of England and 91 Per Cent
of Londoners Said to be
English

LONDON, Dec. 4.—The Royal Society of St. George, which is tenacious of the rights of Englishmen, has resolved to vary its constitution to permit of the admission of citizens of the United States and of other countries who are of English blood. In seconding this proposal Harold Cox suggested that newspapers should be urged to use the word "English" more frequently and not refer so often to "Britons." But it is sometimes difficult to know whether a man is English or British. Not all men know themselves.

The Lord Mayor told the society that, of 36,000,000 inhabitants of England, 96 per cent are English, and that London's 7,000,000 comprise 91 per cent English. But these figures do not tell the whole story. Nor could anything else, or anybody.

MONEY IN TRUNK
IS PARTLY SPENT
REMAINDER LOSTStory of Winnipeg Woman Shows
Futility of Hoarding Cash
In House

WINNIPEG, Dec. 4.—Somewhere in Winnipeg is hidden \$2,600 in currency, the savings of Mrs. John Smockler, a resident in the north part of the city. Diligent search for the past five days has proved abortive.

For years Mrs. Smockler saved her surplus earnings. Bit by bit it was collected and packed away in an attic trunk.

Then about a week ago Johnny Smockler, 12-year-old son, started to search the attic for antiques. Finding nothing of interest he assailed the old trunk and began to explore its contents. Here was something unlooked for. Down near the bottom, carefully laid away was a bundle of real money, a great fortune in the eyes of the lad.

He did not know it was his mother's. It was his by rightful find, he thought, and so he took it. It was by far too bulky to carry around so he decided to bury the treasure. He dug a hole in the back yard and buried the money there. Anxious lest someone had seen him hide it there, he dug it up again and stored it away between two old wagons that were seldom used. He changed his mind once more and the next day buried the money where he felt certain it would be safe.

Time passed and Johnny spent

money with the ease of a millionaire, but eventually his supply ran out and he returned for more. He looked in the place where he thought he had left it but the fortune had disappeared.

Meanwhile, Mrs. Smockler became suspicious of the manner in which her son was spending money with carefree abandon. She thought of the savings fund.

Rushing up to the attic she discovered that the money was gone. John was questioned and he told his story. Search as diligently as he could, he was unable to recall the exact spot where the treasure had last been buried.

Aid of the police was enlisted in the hunt for the money but to date their efforts have proved fruitless.

MADE GOOD MONEY RAISING WHEAT IN HUTTERITES COLONY

Indians also Make Big Money on
Prairies at Farming

LETHBRIDGE, Alta., Dec. 4.—The thousand dollars for every man, woman and child is the average realized from this year's grain crop in the Raley colony of Hutterites.

The colony owns a tract of land covering approximately 5,000 acres. In the colony proper

there are 61 people. This year they raised 45,000 bushels of wheat which was valued around \$62,000.

A few years ago a section of the colony succeeded and was awarded 1,000 acres by the court. There are now fifteen persons in this colony and this year's crop yield reached 19,000 bushels of wheat valued about \$18,000. Besides this revenue they have all their other grains, livestock and garden produce.

In the Cardston district another story of wonderful success is revealed. In the Blood reserves, the Indians this year have raised

about 250,000 bushels of wheat. Their crop has been conservatively valued at \$350,000. The 1924 crop is bringing the Indians more prosperity than they have ever known before. Treaty money does not mean a great deal to them in comparison to the profitable income from their lands.

G. A. McNicholl and Reginald Beaumont, who are here on the C.N.R. business in connection with the winding up of the year, expect to return south to Vancouver on the Prince Rupert tomorrow morning.

QUARREL ON DOCTRINE WHEN WORLD IS SICK

Old Presbyterian Divines Rebuked by Young Man Entering Ministry

granted his request.

Rev. Fuller faced them squarely and spoke in a quiet voice.

"I want to confess to you men here that I am disappointed," he said. "I came to this group to find you not imbued with the importance of the troubles of a sickening world but in controversy over doctrinal and ecclesiastical matters. It chilled something warm and fine within me."

"Young people everywhere are looking to men such as you for help; they are hungry for light and they are finding you involved in controversy. You are arguing about doctrine when there faces you the sores of the world to heal. I thank you."

Immediately he concluded, the young minister left. He was applauded and the Presbytery, going into executive session, accepted him by a vote of 69 to 23.

The Grotto billiard players made a brave attempt against the Great War Veterans in last night's first division billiard tournament with the Callies tonight than it did with the Canadian Fish & Cold Storage team on Tuesday, it is going to find itself in second place with the Great War Veterans in the lead as far as the league standing is concerned. It is expected, however, that there will be some rearrangement of the Billiard Parlor team tonight. The Callies was not a single cinch win on either side and there were no total scores under the 200 mark. The Vets won three games and the Grotto, two. The tobaccoists bettered their standing considerably while the Veterans went down a point or two.

Individual scores were as follows:

Col. S. P. McMordie (Vets), 250; George Waugh (Grotto), 203; Sergeant Jebson, 250; Don Brown, 235; G. P. Tinker, 238; Bert Morgan, 250.

has signed a contract with the Edmonton Eskimos. Stuart has been besieged with pro offers for the past three years. He is of such recognized ability that they got better and better until Kenny McKenzie, manager of the Eskimos, made him the finest offer that was ever made an amateur in this country. Stuart felt it was so good that he could not afford to turn it back so he affixed his signature for a two-year contract. As a result of Stuart's departure, it is feared that the Brandon Club may not be able to carry on in the Manitoba Amateur Hockey Association.

Fielding records for the American League for the season of 1924, for both clubs and individuals, indicate a more active as well as a more accurate defense over the previous season. There were many high marks each in chances accepted and in one notable case, a new record made, that by William Jacobson of the St. Louis Browns who set for both numbers of put out and total chances for outfielders. The centre gardener of the Browns in 152 games had 48.4% outs and seven assists. The New York Yankees led the league fielding as a club with a percentage of .974 as against .977 in 1923. George Sisler led the first basemen; Eddie Collins, the second basemen; Willie Kamm, the third basemen; Rigney, the shortstop; Harry Severide, the catchers and Hugh Pennock, the pitchers.

THE PAPER THAT'S QUICK ON THE SPOT

**MOVING GRAIN
TO VANCOUVER**

Total of 1210 Cars Have Been Delivered at Pacific Coast So Far

WINNIPEG, Dec. 4.—A total of 1210 cars of grain have been delivered at Vancouver so far by the Canadian National Railway since August 1.

Total loadings of grain for all points on the railway since Aug. 1, amount to 53,580 cars containing 71,592,000 bushels. Forty-five cars were unloaded at Vancouver on Monday.

By Way of Lakes

Record loadings at the head of the lakes are now being made in an effort to move as much as possible from the elevators before the close of navigation.

Monday's clearances of 20 vessels with a total load of 4,115,000 bushels constituted a record for the present grain year, and continued heavy loadings during the next few days may be expected from the fact that while only two vessels are loading today, 18 are due to arrive and seek cargoes.

The movement of grain into the lake head ports continues over Canadian National lines at the rate of nearly 900 cars daily, and according to today's report over 4,000 cars are enroute to Port Arthur and Fort William. Storage in the country elevators is being gradually reduced as there is a slackening of deliveries of grain by the farmers, and elevator operators are loading as much as possible of the stored grain in order to get into the lakes before navigation closes.

**FISHING FLEET
OF LUNENBURG**

Value of This Year's Catch was Million and a Half Dollars

One and a half-million dollars has been paid into Lunenburg as the cash returns for this year's catch of bank fish, a value which compares with the peak war prices, but which promises to net better in view of the lower freight and insurance charges says a Halifax special correspondence of the Financial Post.

A large proportion of this money has been deposited in the local banks; much of it has gone for the payment of overdue accounts, and another share for winter supplies. The success of the season's fishing, and ready sale at such substantial prices has stimulated industrial activi-

FLANNEL AND HOUSE DRESSES FOR LADIES AND CHILDREN ON SALE

MRS. GRAHMAN
Second Ave.

It was worth considering whether the playsheds at the King Edward and Borden Street schools might not be erected with funds raised on a bylaw and that they be made of a permanent character suitable for the playing of athletics, not only by the schools but by the members of the baseball leagues. At present there is no hall suitable.

The Borden Street school is particularly destitute of playground privileges for the children.

**Why YOU Should Purchase a Canadian Government Annuity**

Because in old age it will free you from the dread of poverty or of becoming a burden upon others;

Because it will give you comfort and independence in your later years;

Because it will give you a larger return for the amount invested than any other life investment of equal security.

For example, if a man of 20 will pay to the Dominion Government the sum of \$3.31 a month until he is 60, the Government will agree to pay to him from 60 as long as he lives \$50 a month—a return equal to over 23½ % on the total amount paid.

If he dies before 60, every dollar that he paid in, with 4% compound interest, would be refundable to his heirs. If he should die between 59 and 60, the amount so refundable in a cash sum would be \$6,230.00.

Such an Annuity may be of any amount from \$50 to \$5,000 a year; the cost being relatively the same. It is non-forfeitable, cannot be seized for debt, and is free from Dominion Income Tax. For full particulars fill out this Coupon and address it as directed.

THE CORPORATION OF THE CITY OF PRINCE RUPERT.

TAKE NOTICE THAT:

1. The Council of the Corporation of the City of Prince Rupert intends to construct a pavement fifteen feet wide consisting of a mattress made over with wire mesh, a paving giving a depth at the crown of ten inches composed of broken stone and sand, on that portion of Hays Cove Circle commencing from a point eight feet south of the centre line intersection of 5th Avenue and Hays Cove Circle, extending along the west portion of Hays Cove Circle as shown on the plans and profiles deposited in the office of the City Engineer to a point eight feet north of the centre line intersection of Hays Cove Circle and 7th Avenue as a general improvement, and intends to specially assess the cost upon the land abutting directly on the work except such portion of the cost as is incurred at street intersections and at school property.

2. The estimated cost of the work is \$27,000.00, of which \$1836.74 is to be paid by the Corporation, and the estimated annual special rate per foot frontage is \$377.9163. The special assessment is to be paid in 10 annual installments.

3. Persons desiring to protest against undertaking the work must do so on or before the 5th day of January, 1925.

EGG MARKET IS WEAKENING

Flour Advancing — New Orange Crop Due Soon—Jap Oranges Down 5c and Will Drop Further

There is a tendency to weakness in the local egg market. The supply is improving and a drop in prices is anticipated.

There was an increase in the wholesale price of flour this week but so far there is no increase in retail quotations.

The new crop of oranges is commencing to arrive here. Valencia will soon be replaced by navels and prices will be easier.

The price of Jap oranges which opened last week at 90c per box has dropped to 85c in anticipation of a new shipment due at Vancouver from the Orient next week when there will be further reduction.

UNIVERSAL TRADING COMPANY

GIVES ADVICE TO PIONEERS

Letter Writer in Interior Paper Gives Some Pretty Sound Advice

Under the title "Patience and Prosperity" a person signing "A Terrace Pioneer" writes most interestingly to the Omineca Herald as follows:

In your issue of October 31st there is a paragraph intimating that there is only one freight train service a week on the Prince Rupert section of the Canadian National Railways and that settlers and business houses must order month in advance of requirements.

The paragraph was evidently written in the spirit of having to accept an unnecessary evil. While it does not help out the situation, it might be of interest to your readers to know that when Vancouver was a very much larger place than Prince Rupert is today, and when there were more people settled on farms in the lower Fraser River Valley than there are today between the western slope of the Rockies and Prince Rupert, there was only one week passenger train service from Calgary to Vancouver and a freight when there was any freight to carry, two a week train services between Winnipeg and Calgary, and three times a week between Winnipeg and Brandon.

Grumbled Then

The people living in Vancouver and along the Fraser probably did some grumbling the same as the people living in Central British Columbia are inclined to do today, but if they did, I do not recall it, though I was passing through the country a good deal at the time. I think people took things more philosophically those days than they do today. They realized that there was a future

before the country and were making more money in a few years than can be made out of helping to develop it. You can gold mine. It would be well if see what has happened in the this were accepted as a parable, southern part of the province by applying equally to other enterprises the people being patient and persevering. Identically the same. It is only those who have been thing will happen in Central in at the beginning of things in a new country and have witnessed developments resulting from settlement, such as have occurred throughout the four western provinces during the last twenty-four years, who can adequately visualize the future that is unquestionably in store for Central British Columbia. My advice to the pioneers is to stick and get hold of some land while it is cheap; improve it, and make it attractive for those who will come in later with capital and want to buy. This is one way to reap the benefit of pioneer efforts and sacrifices.

Plant Fruit

If your readers will take the excellent advice you give in another paragraph in the same issue of your paper, namely, to plant thousands of fruit trees instead of only a few, they will be

ready to take their share in years than can be made out of at the newspaper office for news of the eat, only to find a small boy present.

"Where is the editor?" he asked the boy. "Out," was the reply. "The assistant editor?" he continued. "Out," was again the reply. "Where's the reporter, the printer, where's the whole staff gone to?" asked the boy.

J. P. Forde, district engineer for the federal department of works, who is here on official business, expects to return to Victoria on the Prince Rupert tomorrow morning.

"Worth \$100 to Me Relieved Eczema and Piles"

Mrs. Peter A. Palmer, Saltburn, Sask., writes:

"Dr. Chase's Ointment has completely relieved me of eczema and piles. I also used this Ointment for my baby, who broke out in eczema. A few applications were all that was necessary in her case. Dr. Chase's Ointment has been worth a hundred dollars to me — before using it I had spent a great deal more than that in unsuccessful treatment from doctors. We have also used Dr. Chase's other medicines, the Nerve Food having restored my health after suffering from severe nerve trouble when a girl."

TREATMENT OF FISHERMEN

Editor, Daily News.

Kindly allow me space in your paper to contradict the statement made by J. Martin, Customs officer of Maitte.

He says "he had no intention of butting in on the police." We were not in need of any help after we met the police. Why didn't give us help when I asked him. He was the first man I met. I told him the story, gave him the boats' papers and what did he do? Turned me down cold. Then he told me to go to the provincial police.

If he had been a man at all, seeing the state we were in, after pulling in a dory five days and almost played out, he ought to have done something for us, and not sent us from one place to another begging for food and room for the night.

It surely was a good thing in our case, being suspected of committing robbery of a post office in Alaska, or else I am afraid, that we would have had to spend another night in the dory, as the jail in Massett is a better lodging than out on the beach in the month of November.

Poor Treatment
I have been a fisherman on this coast the last 12 years and have had very few accidents during that time and I don't think I need any references as to my good behavior.

If that is the way to treat a ship-wrecked crew, then I think it is time for us sea faring people to wake up and do something. I will make it my work throughout the fishing circles to describe the principles of such a man as Mr. Marlin, as the likes of me keeps the likes of him.

J. DAHL

It is about two-thirds as long as the average nine hole links, has seen between 1,800 to 2,000 boys and girls tee off each month since its organization. The combined attendance of the three municipal courses for grown ups was about 6,000 a month.

There is not much style on the children's course, and fewer clubs. No charge is made for playing, but the children can run a club of some kind at a few cents, and balls sell at five cents each.

The balls have been salvaged from other other links in the city and reconditioned.

MUSEUM WILL BE ORGANIZED

Committee Appointed to Commence Receiving Specimens and do Preliminary Work

The meeting held last night in the city hall to organize for the establishment of a museum here chose a board of governors consisting of S. K. Campbell, W. E. Collison, Miss Du Vernet, Miss Stewart and H. F. Pullen. These will commence the work of collecting specimens and caring for them until they are in a position to organize on a larger scale.

An offer of Mr. Campbell of the use of one of the rooms in the bank of Commerce building as a preliminary quarters was accepted and Mr. Campbell was thanked for his offer.

In outlining the steps which had been taken at a former meeting to consider the matter, H. F. Pullen said the meeting had to decide whether to organize for the formation of a museum, and if so to appoint someone to do the work.

It was decided to elect a board of governors consisting of five members and to leave the matter of organization in their hands.

H. F. Pullen presided at the meeting and Miss Ruth Stewart was secretary. Others present included George Bushby, E. G. Gibbons, Rev. Dr. Grant, S. K. Campbell, T. Ross Mackay, F. W. Hart, J. W. Scott, Mrs. R. L. McIntosh, Miss Larson, Mrs. Sturgeon, Mrs. Haudenschild and W. J. Raymond.

It was decided to have a membership fee of one dollar each as a means of starting a fund toward the necessary expenses and eleven members enrolled at the meeting.

Eighteen Hundred to Two Thousand Boys and Girls a Month Use Links

DALLAS, Tex., Dec. 4.—Among the features included in the park facilities of Dallas is a nine-hole golf-links exclusively for children, which has turned in an attendance record report almost equal to that at the other municipal courses for adults.

The children's course, which is about two-thirds as long as the average nine hole links, has seen between 1,800 to 2,000 boys and girls tee off each month since its organization. The combined attendance of the three municipal courses for grown ups was about 6,000 a month.

There is not much style on the children's course, and fewer clubs. No charge is made for playing, but the children can run a club of some kind at a few cents, and balls sell at five cents each.

The balls have been salvaged from other other links in the city and reconditioned.

HE DOUBTED IT

An elderly gentleman who had never seen a football game was persuaded by a young enthusiast to attend one of the minor grid iron contests.

"Now," said the young fellow as the game was about to start, "you will see more excitement for a couple of dollars than you ever saw before."

"I have my doubts about that," replied the elderly gentleman. "That's all my marriage license cost me."
