## HIGH SCHOOL IMPORTANT FACTOR IN EDUCATION CATERS TO LOCAL NEEDS

### EDITORIAL

#### WHAT EDUCATION CAN DO.

There is nothing like education for turning a plain man into a thinker. If you want a man to think deeply and earnestly set him thinking about education. Today there are a million young people in Canada passing through the three forms of education—primary, secondary and university. Take a few years of that and picture what the results will be in the next generation. If we fail to educate, what can go right? If the battle of civilization is lost in the schools, who will win it afterwards? If the whole community is wrong in its education, what chances have the clergy to set it right from their pulpits? What chances have legislation? To begin by starting our children on the wrong road in their plastic period, and then when they are grown up to send out the clergy, the police and legislation to bring them back—what fool's enterprise could compare with that?

#### Religion

Not long since a schoolmaster was asked, "Where in your time-table do you teach religion?"

He answered, "We teach it all day long. We teach it in arithmetic by accuracy, in language by learning to say what we mean, in history by humanity, in geography by breadth of mind, in manual craft and domestic science by thoroughness, in the play ground by fair play. We teach it by kindness to animals, by being courteous, by good manners, and by truthfulness in all things. We treat the children not as members of this Church or that but as members of the school, of the community. We teach them to practice religion out of the actual relations in which they stand to their teachers, their parents, their school fellows, and the community; for unless they learn to build it where they are, they will not learn to build it afterwards anywhere else."

### NEW BUILDINGS FOR THIS CITY

Winnipeg Investors are Asking as to Plans for Prince Rupert

Winnipeg investors are in communication with a local business man inquiring as to the authenticity of reports received in that city that two new permanent buildings are planned for erection here.

One of these buildings, it is understood, will be erected on Third Avenue and will cost \$25,000. It is said that it will be two storeys in height and of concrete and brick construction for store and office use.

The other building it is said, will be the hotel, construction of which has been rumored for some time and in connection with which A. A. Cox, the Vancouver architect, has made frequent visits to the city of late. It will cost \$55,000, will be of reinforced concrete and brick construction with steam heating and tar and gravel roof. A site Royal Fish Co. on Sixth Street for its erection has been obtained, it is said.

Archbishop DuVernet left for Terrace on Saturday night's train. He will return this evening.

### Amur Still on Reef and Salvage Work is Commencing Today

The Vancouver Dredging & Salvage Co. has been given charge of the salvaging of the steamer Amur which is stranded on White Cliff Island and the steamer Tees is now on her way from Vancouver with wrecking equipment to take the vessel off the reef. It is expected she will arrive there today.

The Amur is still secure in her position and storms of the week end have not affected her seriously, reports received this morning indicated. The tug Marmion took an empty scow down to the wreck yesterday to be used in lightening the Amur of her coal cargo but the weather was so rough that it was impossible to do anything. The work of unloading the vessel, it is understood, commenced this morning.

#### Interesting Record

S.S. Amur which went aground on White Cliff Island on Friday morning last, while on her way to Anyox with a barge of 500 tons of coal, has done yeoman service along this coast. As far back at 1906 she took a cargo of food and clothing from Vancouver to San Francisco for the relief of the sufferers in the earthquake of that year. Captain Hughes was then her commander. She used to run to Skagway under Capt. Locke, who went down with the Princess Sophia. Another of the commanders was Capt. McLeod. She was the C.P.R. crack boat before the Princess May took up the coastal service.

Our old friend Bob Hanna, was one of the crew on her eventful voyage to San Francisco in 1906. She belongs to the Jas. Griffith & Son, Coastwise Steamship Company, Seattle.

#### Marmion Arrives

The steamer Marmion arrived this morning at 11:40 from the Amur, which is still on the rocks at Whitecliff Island. The Marmion left again at 2 o'clock this afternoon and will return tomorrow morning. Yesterday she was unable to get alongside the Amur owing to the fury of the storm.

#### Tees Arrives

The steamer Tees arrived at the Amur this morning and will begin to discharge coal from the Amur at high water to-night.

### SALVAGE OF COAL BARGE

#### Capt. Swanson May Get Large Sum of Money for Saving Craft.

An interesting question of salvage comes up in connection with the scow of coal which was brought north by the Amur, and which has been towed to safety at Inverness by Captain Swanson. The scow and her cargo are quite valuable and under marine law something like one-third of the value goes to the man who salvages her. It is understood that Captain Swanson has made an offer of settlement to the underwriters, but this offer has not so far been accepted.

In the meantime the scow is moored in Inverness slough and is looking rather badly. If matters are delayed there is a possibility that she may become a total loss.

Mr. Skinner arrived on the Princess Mary this afternoon. He recently purchased the "White Horse Star," weekly paper

work started at an early date.

### DECORATED AT NEW YORK

Upon the arrival of the Canadian Pacific S.S. Empress of Canada at New York, following her cruise Round America, Captain S. Robinson, R.N.R., who now commands this vessel on world cruise, was created a Commander of the Order of the British Empire in recognition of his heroic work at Yokohama when Japan was rocked by earthquake and when the Empress of Australia, which he then commanded, was the headquarters for the rescue parties and relief workers. The investiture was made by Sir Harry Armstrong, British Consul General at New York in the presence of a large gathering of important figures in Canadian and American political and commercial life. This photograph was taken at the time of the investiture and shows, from left to right, Sir Harry Armstrong, Captain S. Robinson, C.B.E., R.N.R., and Mr. E. W. Beatty, K.C., president of the Canadian Pacific Railway, who visited the blue ribbon vessel of the Canadian Pacific fleet after the ceremony.

### Work of the Local High School What it Means and what the Public Should Know About it

The High School was first established in Prince Rupert in 1912, with twelve scholars. Today there are enrolled one hundred and twenty, with five teachers on the staff. The subjects taught are English, Classics, Modern Languages, Mathematics, Science, Drawing, and Commercial subjects. The High School prepares students for University, Normal Training Colleges, and commercial life. Besides the ordinary High School course covering three years, it gives an extra year to enable the children of the town to get First Year University at home, and in the last two years has saved to the parents of their children an aggregate of at least \$8,000.

In the eleven years of its existence it has sent out nearly four hundred young men and women regularly throughout the greater part of the year, and every incentive of life. The school takes a great interest in furthering every movement that helps the students to become healthy, strong, law-abiding and useful citizens. With the small resources at its disposal it emphasizes the value of, and teaches physical drill and games to the growing boys and girls.

**Social Life**  
The social life of the school is not neglected. The school, with the money made by concerts at various times, has a piano, a gramophone and a tennis court. Community singing opens each day's work. Hand-craft, first aid, signalling, drill and physical culture are taught the boys, while the girls receive instruction in domestic science, and calisthenics.

Debating classes are given regularly throughout the greater part of the year, and every incentive of life. The school takes a great interest in furthering every movement that helps the students to excel in oral expression. The social life of the school, including sports, games, general deportment, and finances are controlled by a body of the students called the Students' Council, elected annually by the student body. All this tends to make them better citizens and prepares them to take their places intelligently later in the life of the community. With more facilities in the matter of play accommodation on the school grounds a more expansive program of sports and games could be put in force.

### Much Herring was Destroyed at Kodiak Island When the Wharf Collapsed Under Weight of Ice

Fishing schooner Sumner, skipper Soriano, arrived in port this morning having completed an eventful month's trip. The captain has some exciting tales concerning the results of cold weather and heavy gales while away. At Three Cent Bay, Kodiak Island, about Jan. 20, heavy gales and a temperature of about 25 below zero combined to produce disastrous effects.

Wharf piles collapsed under the weight of ice and the force of the wind, resulting in the loss of nearly \$25,000 worth of herring. Two sailing boats were lost there about the same time.

The fishing boat Groth, which arrived here this morning was the bad weather outside. The trip twenty-two hours coming from is ordinarily made in about seven hours.

### Terrific Gale Strikes City and Tears up Sidewalks, Blows Roof from Overhead Railway Crossing

Prince Rupert was yesterday visited by one of the most destructive gales in her short but eventful history. The assessed value of damages throughout the city proved very great, and will cause no small drain on the resources of the city council.

Long stretches of sidewalk near the Post Office and the B.C. Undertakers, and along Third Avenue and McBride Street were swept up by the wind and turned over on the street. Half of the roof of the overhead crossing leading to the station was blown off and shingles were carried like birds in the air in many parts of the city.

The large tanker R. J. Hanna of the Imperial Oil Co. broke from its moorings yesterday about 3 p.m. and forced to anchor out in the harbor, later setting sail on her return voyage south.

About 2 o'clock yesterday afternoon one of Joe Brown's taxis, driven by E. Smith, was suddenly released of its head gear, while driving up Third Ave.

#### Residence Injured

The residence of Frank Morris, of the B.C. Undertakers, was dably damaged. The roof-end facing north was torn out and the wind, rushing in between the roof-and-ceiling, forced an exit by tearing apart the ceiling of the parlour for the Yukon who sitting room on the top floor as passed through the city on the if the material were paper. The Princess Mary this afternoon en windows being closed one was route to Dawson. Dr. Thompson said that he had a particle of glass fell in the heard the Canadian National Railway was going to put on a boat plying between here and Skagway. He was gratified at this "in less than a second. The because the people of the Yukon had just come in from would find such a steamer a Sunday School when the storm great convenience in making hit them. Fortunately no one suffered except from the shock."

#### Seventy Mile Gusts

The anemometer at the Government meteorological station recorded yesterday's wind to have an average of fifty miles an hour, with periodic gusts as high as seventy miles. The instrument does not register the peak of the storm but from the effects around town the velocity of the wind must have reached 70 to 80 miles. From observations this morning it is evident that nearly all the damage was done, not by the direct force of the south wester, but by a series of whirlwinds. The side-walks between the post office and Glenview's store was blown across the street in a direct easterly direction.

The side-walks on Second Avenue near the B.C. Undertakers were hurled in a westerly direction, while the overhead crossing at the Railway Station was blown directly north. This would lead one to suppose that the storm was cyclonic in its nature, the centre being some distance from Prince Rupert.

The roofing of the overhead crossing leading to the railway station which was carried away by the wind last night and blown against the Dawson building, completely destroyed the light and phone connections of the station. By dint of hard work the station lights were restored a few minutes before the train arrived.

The roofing of the overhead crossing leading to the railway station which was carried away by the wind last night and blown against the Dawson building, completely destroyed the light and phone connections of the station. By dint of hard work the station lights were restored a few minutes before the train arrived.

### SID HUNTER HAD AN EXCITING TIME

While down at the Hazelton, Geo. Bryant's hat blew off and started after it. Sid got the hat but lost an oar and soon was quite a distance out in the harbor. However, the Harla came to the rescue and Sid was no worse for his gallant act.

### NORTH IS VERY INTERESTED IN PRINCE RUPERT

#### Dr. Thompson Gratified at C. N. R. Putting on Steamer to Skagway

#### NORTH WANTS NEW SMELTER IN B.C.

"The Yukon is very much interested in the city of Prince Rupert and its progress," stated Dr. Alfred Thompson, ex-member of the parliament for the Yukon who visited the city on the if the material were paper. The Princess Mary this afternoon en windows being closed one was route to Dawson. Dr. Thompson said that he had a particle of glass fell in the heard the Canadian National Railway was going to put on a boat plying between here and Skagway. He was gratified at this "in less than a second. The because the people of the Yukon had just come in from would find such a steamer a Sunday School when the storm great convenience in making hit them. Fortunately no one suffered except from the shock."

The gold output in the Yukon is holding its own and silver is increasing, stated Dr. Thompson. The fur trade is very good and the north country is looking forward to another smelter being built in this province to handle the output of gold and silver from the Klondyke.

Dr. Thompson is now practising in Dawson. Mrs. Thompson and family are in Switzerland where Miss Thompson is completing her studies.

### STEWART IS LIKELY BOOM IN SUMMER

STEWART, B.C., Feb. 11.—Next summer promises to be one of great excitement, if we are to believe current reports. The latest report is that the Dunwell group on Bear River has struck a big lead of high-grade ore, and that assays of gold and silver show \$150 to the ton. The shares in this important group have recently jumped from 50c. to \$1.50 a share. The mine is controlled by the Stewart Lane Co.

\*\*\*\*\*  
PUPIL EDITORS HANDICAPPED BY BROKEN WIRES  
The High School Pupils in charge of the Daily News editorial department literally tore their hair this morning when it was discovered that all wires connecting Prince Rupert with the outside world were down and all communication closed until repairs were made. Not a word came through from the outside, other than by mail, up to the time of going to press.

DAILY EDITION MARCH 11, 1924 Monday, February 11, 1924.

### Students' Participation In Town Movements.

The value of High School Students' participation in civic town movements can hardly be over-estimated. The students themselves become imbued with the feeling of responsibility for doing more than just sitting down and waiting for the adult population to fight the battle for civic improvements. It was, therefore, a happy and very practical thought on the part of the management of the Daily News to turn over their establishment to the High School Literary Society and allow them full scope to edit this edition of the Daily News. We are given an opportunity to have our say, and we hope that the result of this edition will be to win over to our side many who at present see no more in us than that "boys and girls were born bad, grow worse, and can never be improved."

### Enthusiasm Of Youth Infectious.

Children's enthusiasm, which naturally bubbles over, is infectious and hardly anyone can resist a boy or girl's request when there is good judgment behind it. While fathers and mothers may be concerned with problems of government and finance, growing boys and girls, and youths in their teens naturally centre their talk and interest in projects that give them scope for healthy activities and clean wholesome play. Swimming pools, baseball grounds, parks, libraries, good school grounds and play sheds focus the attention of the young population as nothing else can, and if these advantages are not granted to boys and girls, no other civic improvements in town life can ever compensate for their absence.

### Do We Need A Fairy Godfather?

Though we are all proud of Prince Rupert, as the majority of us were born here, we are not ignorant of the fact that our town is woefully behind in providing sport and play facilities to the thousands of boys and girls who live here. We have been taught in school that a good citizen is one who takes an active part in making his home town a better place in which to bring up boys and girls. Have we not waited in vain for such a fairy godfather to come amongst us and give us the chance to enjoy our young lives as other boys and girls are doing throughout the length and breadth of Canada today? In our estimation the major string that should be played on the civic instrument by all disinterested and public-minded citizens during 1924 is playgrounds, school-grounds, and play-sheds for the boys and girls.

### Are Asking For Enthusiastic Help.

We want all to read what we have to say about ourselves, our activities, our wants and our hopes. We believe that the citizens of this town, whether they have children going to school or not, need only have our case laid honestly before them to win them to our side, for the welfare of the child population of our town is the most important of all civic improvements. We ask for help. We are told that youth is optimistic. That is true. It strains at the leash to embark on new enterprises. That is the reason why we have the courage to tackle the publication of this edition without any previous experience except our sporting instinct of "putting it successfully across." We appeal to every man and woman in Rupert who reads this message. Why should middle age settle down to a life of routine and drudgery? Why does it moan and whine and scoff at youth, at dreams, at enterprise? Why is it over cautious and timid, and coldly indifferent to youth's warm enthusiasm? Age, as we have learned to observe, is no qualification for wisdom, and much—where economy in education is concerned—which passes for prudence and wise guidance is nothing more than the nerveless fear of a declining spirit that has lost its hold on the best part of life.

## MAKING PREPARATION ORATORICAL CONTEST

Annual Event Under Auspices of Rotary Club to Take Place About End of February

The annual public speaking contest held under the auspices of the Rotary Club will take place at the end of the month in the auditorium of the Booth Memorial School.

Last year eight students from the High School participated in the contest, the first and second prizes being won by Miss Rosario Soriano and Miss Jean H. McKay. It is early yet to give the names of this year's contestants, but it is hoped that as large a number as that of last year will take the platform on this occasion.

Platform speaking is an accomplishment that should be encouraged among the growing youth of the city, for under our democratic form of government public speaking is becoming more and more our most effective weapon in bringing before the public matters of vital moment in the life of the community and the nation. To have a message to deliver, and to express it in appropriate terms, with ease and fluency, is an accomplishment that should be acquired in youth, and these contests should be encouraged by every thoughtful and progressive citizen.

## Community Spirit and how to develop it

(By J. G. Brady)

What is a Province? Is it not a neighborly group of neighborhoods in which each neighborhood is neighborly to every other neighborhood? If this is not true, we should make it true.

Mutual neighborly interest electrifies all other neighborhoods, thrills them with a common aspiration, and urges them to put their best efforts forward for community progress.

We have here a splendid little town of about 6000 people. We are the largest town between Vancouver and Edmonton. Outside towns and districts should look to us for inspiration and help. Six thousand people with a common purpose and with pride in their town could do wonders in a short time. Thousands of our boys and girls now growing up will be our severe judges in a few years, if we fail in loyalty to our civic responsibilities.

### Can it be Done?

Timid reactionaries and grouchy side-liners say to every forward proposal, "It can't be done."

"It can't be done," should be a challenge to every boy and girl, to every loyal man and woman in Prince Rupert to say, "It will be done."

Every praise and encouragement should be given to enthusiastic men and women who are trying to make our city one to be proud of. Every new building, church, school, business concern or beautiful home should be hailed with delight. It is our town; let us beautify it and make it worth living in. We raised thousands of dollars during the war in twenty-five and fifty cent pieces when all the town acted as one individual. Can't we do this again to help to beautify our city with parks and neat clean streets? We have the best tourist route in Canada by our very doors. What have we done to beautify any of our streets? Is there one boulevard in our town?

### Plenty of Beauty

Visitors admit ungrudgingly that we have the most beautiful harbor in Canada, or for that matter on the North American continent. And yet we are not doing anything, or at least very little, to make our town attractive to our children, much less to visitors. The boys and girls would like to help. Give us nice roomy playgrounds; let us see pretty trees along some of our streets and a few pretty parks with flowers, seats and swings; we have no green fields to play in; we never see the lambs or the sheep in their green pastures. Make us happy.

When you buy advertising you buy CIRCULATION, and see that you get it.

### In the Letter Box

WHY NOT A DENTAL CLINIC FOR OUR SCHOOL CHILDREN

Editor, Daily News.  
Education to-day is not, as many suppose, confined to the principles and rules of imparting knowledge to pass examinations, but it consists of everything that pertains to the health, happiness and well-being of every boy and girl in our schools.

That bad, imperfect or decaying teeth are very common among our school children is an established fact, and though we may not know the causes underlying this decay we know full well the disastrous results. Bad, decaying teeth bring a train of evil consequences along with them, and we can trace to this cause defective eye-sight, ear-ache, head-ache, physical breakdown, weak digestion, dullness and falling down in school work.

Goal to Strive For  
The goal which educators are striving to reach with the child today is, "a strong mind, and a strong body," and to that end they approve and welcome every effort in athletics, and health advancement.

Is it not time for the state to ascertain the possibility of expending some of the money of our heavily taxed people on hygienic measures such as Dental Clinics, that will enable the child to go forward with his education, and will also be a sensible return to the many struggling tax-paying parents who find they are unable to meet the heavy expenses attending the dental work of their children.

Every school organization, every public-spirited corporate body should give their support to the school boards in any efforts they make, and I hope that effort will be made soon—to induce the Legislature to introduce into every large city school hygienic means whereby our children will benefit immeasurably.

Poor Excuse  
Surely, the objection that "there is no money" is but a poor excuse for not earnestly trying to establish a further and most necessary adjunct to our otherwise creditable educational record.

A PARENT.  
IS EDUCATION WORTH THE COST?

Editor, Daily News.

Now that the boys and girls of Prince Rupert are given one day of grace to say what they have to say, or forever to hold their peace, we want to tell the public what we think of, and read about Education. Most of the discussions and certainly the most popular topic in our homes is the School and Education.

For the last year or so, discussions both in the newspaper and out of the newspaper have been frequent on this subject, and very often we hear people argue "that our educational system is not worth the cost." We are inclined to think that the general tendency towards economy and reduction in expenditures is the main cause for this discussion rather than the value of education. We have only to think for a moment of crowds of successful boys and girls that have passed through our High School in the past ten years to convince us that education pays. A person must be short-sighted in the extreme if he cannot see the splendid results of education right here in

## BRINGING UP FATHER

### The Man in the Moon SAYS—

### FLOATING SPECKS BEFORE THE EYES MEANS LIVER TROUBLE

ONE of the things that don't get you anywhere is saying what an easy job the Editor of the Daily News has.

STEPPING into the Editor's shoes for just one day (no offence to the Editor) is like misstepping into a huge, dark tunnel, and your head whirls round till you don't know which way to turn first.

THERE are fifty-seven rules for success in business. The first is to deliver the goods. Never mind the other fifty-six.

WHEN you fill the blank for the Poll Tax, "Where were you born?" be thankful that the next question is not, "Why?"

BEING called upon to edit a paper without previous experience, is often an alarm clock that wakens genius out of its slumber.

IF only we could get a gramophone record of the Sons of Canada Basketball team after their defeat by the Colts last week, what a record that would be.

MANY a man who would scorn to pick a pocket or steal a door mat, would steal a kiss and glory in the theft. Which calls for this warning—watch your steps as you are liable to slip—this is Leap Year.

SOME gentlemen in town are so slow that they are patiently awaiting the 29th in hopes that the girls will give them a free lesson—no, they are not all Scotchmen either.

SPEAKING of showers, some girls have showers when they are going to be married. Now, if I were thinking of launching upon the sea of matrimony I should want an out and out rain storm.

EVEN though I am only the Man in the Moon, you cannot say it's "A Kiss in the Dark" when I'm around, or I will throw some light on the subject.

I ALWAYS thought that some day I should mount very high, if only in an aeroplane, but to be up in the Moon at a single bound! Well, this is "Leap" year.

"AH," smiled the Scotchman, as Third Avenue reared him up into the air; "This will save me some shoe leather."

IT was in a quaint old garden And the moon was shining bright; I kissed her, oh, so tenderly, And I hugged her, oh, so tight; But she was a marble statue And I was drunk that night.

### DRYDOCK ACTIVE REPAIRING BOATS AND BUILDING NEW ONES

Lighthouse tender Newington and two trawlers, Andrew Kelly and Foster, of the Cold Storage Co., are on drydock for general overhaul.

The repairs on the Canadian National car barge which stranded on Watson Rock are nearly completed, and it will soon be ready for work again.

Two 65 foot cruisers for government patrol work are now under construction at the local yards. These cruisers are to be powered with semi-diesel engines and will have every up-to-date equipment. Interior finishings will be of the best and both boats will have a small gas boat tender.

LOCAL RADIO HEARD  
AT GREAT DISTANCE

Pete Black lately had the satisfaction of having his new radio set being heard in Vancouver. This set is a copy of Jack Barnesley's which was heard last winter in the East and the Hawaiian Islands.

A short time before, Gordon Bulger with a simple five watt set was heard in Vancouver. Cards reporting reception of the call were received from reliable stations in Fort Worth, Texas, De Noya, Okla., and other stations from most of the Pacific coastal states.

### FIRST BOY TO COME TO PRINCE RUPERT

The first boy to land in Prince Rupert was Wallace Anderson, son of Mr. and Mrs. P. W. Anderson. He came in the spring of 1907, and lived on what was then known as Centre Street. Wallace or "Wally" as he was called, saw service overseas, and was one of the crack baseball players of Rupert until he left to reside in Seattle.

### BAND CONCERT PROVED EXTREMELY ENTERTAINING

Good Program Was Appreciated  
by Audience at Westholme  
Last Night

A large and appreciative audience was present at the Band Concert last night in the Westholme Theatre, given by the 1st North B.C. Battalion. The program follows:

March—"Contempts," Band. Overture—"Lustspiel," Band. Song—"Asleep in the Deep." J. George.

Valse—"Sunset on the St. Lawrence," Band.

Solo—"Out on the Deep," W. H. Derry and Band.

Selection—"Sounds from Ireland," Band.

Song—"Call me Back Pal O' Mine," Mr. Savaron.

Hunting Scene—Characteristic piece, Band.

Mouth Organ solo, T. Miller.

March—"National Emblem," Band.

"God Save the King."

Special mention is due to the Overture—"Lustspiel," by the band.

The Valse—"Sunset on the St. Lawrence," thrilled the hearts of the dancing part of the audience.

"Sounds from Ireland" and the "Hunting Scene" were very much appreciated. The song—"Call Me Back Pal O' Mine," by Mr. Savaron, was heartily applauded, also the mouth organ solo by T. Miller, who obliged by encores.

FOR SALE.—"23" Taxi Service, consisting of 2 Ford deliveries with covered bodies; 1 Dodge enclosed car with Bassier shock absorbers. Business has been established three months and receipts are increasing each month. Price \$1100, \$400 cash will handle. There is enough business established to pay the balance.—Northern Exchange.

# SOME ACCIDENTS MAKE *Zam-Buk* A Daily Need

WHETHER it be a cut, a bruise or sprain, burn scald, Zam-Buk provides handiest, surest means to quick perfect healing. It is from certain rare herbal facts that Zam-Buk gets its power for subduing pain, soreness and inflammation, and its skin-growing property. Be sure and keep a box of Zam-Buk on the handiest shelf, ready for every emergency.

## MIGHT HAPPEN ANY DAY!

Mr. A. Rousey, 416 St. Timothy St., writes: "The kettle boiled over and badly scalded my hand. The pain was intense, yet the first dress of Zam-Buk cooled and soothed in a surprising manner. A fine new skin quickly covered all the scalded surfaces continued with Zam-Buk."

## VOLLEY BALL BEING PLAYED BY STUDENTS

Four Teams Formed and Games  
Every Friday Afternoon at  
Four O'clock

Volley ball was first introduced to the High School boys last fall. They acquired the knack of playing this game very readily and soon formed four teams who are now dishing out first class volleyball. The teams are the Panthers, Leopards, Tigers and Lions. The Panthers are leading the league by a small margin and the other three teams are bunched. The excitement reached fever heat when Principal J. G. Brady and Vice-principal G. Woodworth took up the cause of one of the weaker teams, thereby strengthening it much. The boys take much pleasure in slipping one over on the teachers whenever they can. The games are well attended by student spectators, who exercise their lungs lustily in supporting the various teams.

Volley ball is practically unknown to the residents of Rupert, with the exception of the High School students. Any person interested in the game is cordially invited to come and watch the game played by the High School boys every Friday at 4 p.m. When properly established volleyball ought to be one of the most popular indoor sports in Prince Rupert.

### Girls Play Game

The High School boys are by no means the only enthusiastic participants in the game of volleyball. Already a good number of the girls are showing a remarkable ability in this line, and after more practice will have something new to attract public interest.

When a High School gymnasium has been procured, which is now the rallying cry of the students, perhaps there will be some opportunity for parents and outsiders to see some of the recreation side of school work. Not only would such a gymnasium benefit the pupils in every way, but it might and would serve to stimulate more public interest in our schools.

### LAND ACT.

Notice of Intention to Apply to Lease Land  
in Rainy River-Skeena Land District, Re-  
questing District Surveyor.

Take Notice that Charles S. Murphy, of  
Prince Rupert, B.C., occupation Engineer,  
intends to apply for permission to lease  
the following described lands: comm-  
encing at point placed on Channel Island, near  
the mouth of Gardner Canal; thence following  
the sinuosities of the shore line at high  
water mark around the island, returning  
to point of commencement and contain-  
ing seven hundred acres, more or less.

CHARLES S. MURPHY,  
Name of Applicant.

J. SAM JOHNSON, Agent.

Dated November 27th, 1923.

## FOOTBALL ALREADY IS BEING PLAYED ON ACROPOLIS HILL

High School Team Out This Year  
to Try to Win Rochester  
Shield

Football, the grand old Scotch game, has quite a hold in Prince Rupert and already the clubs are forming their teams for the coming season.

The Gallies, who have always been in the running and who have been a great support to the game in the past, are already holding organized practices at Acropolis Hill. It will be remembered that last year the Gallies were unable to field a team, but this year they are starting early and are forming their team on a basis of veterans combined with youth.

Last season, football was introduced to the boys of the city by the formation of a Junior League, into which teams entered from High School, Public Schools, and Colts Athletic Club. The boys were given plenty of support by the senior players and football enthusiasts.

The High School boys are looking forward to the football season with much enthusiasm. Although the High School did not make a very creditable performance last season, it being their first appearance in soccer, they are convinced that this year they will be able to bring the Rochester shield to the High School.

We are glad to know that such an enthusiastic supporter of sports as Harry Rochester is now a member of the school board.

## RIFLE SHOOTING AT LOCAL HIGH SCHOOL

Good Scores Made by Pupils Re-  
cently Show Much Skill

Rifle shooting has become very popular at the High School. A miniature rifle range of standard size, that is 60 feet long, has been built by the students in the basement of the school. Ammunition and two of the finest target rifles have been provided by the government, and teams have been drawn up to practice for a competition.

The team of Harold Bell and Gordon Bulger has consistently held the top place in scoring; and Reid McLennan and Teddy Tite are about tied with Felix Batt and Norman Kinsler for second place. Among the other prominent good shots are Mr. Brady, our principal, Gordon Kerr, Peter Black and Ivan Cameron.

The scoring is excellent and four bullseyes out of eight shots is not uncommon. The targets have a one half inch bulls-eye. Last week's scores give an idea of the shooting:

Possible 40		Pts. Per cent.
G. Bulger.....	37	92.5
H. Bell.....	36	90.
G. Kerr.....	33	82.5
T. Tite.....	33	82.5
F. Batt.....	31	77.5
J. C. Brady.....	31	77.5
R. McLennan.....	28	70.
P. Black.....	28	70.
N. Kinsler.....	28	70.
I. Cameron.....	21	52.5

### Sport Chat

"Brick" Skinner, who is to box

"Red" Campbell of Ketchikan on

the 19th of this month is well

known in the sporting circles of

the city. Although he has not

yet appeared before the public

as a pugilist he has been seen

many times taking part in the

various sports, being a tower of

strength to the Sons of Canada

Basketball team, the Season Lea-

gue leaders, and a willing and

good referee of the Ladies' and

the Intermediate Leagues. He

keeps himself in good condition

playing handball almost every

day and instructing coming

pugilists in the art of self-de-

fense. It is thought that he will

give a good account of himself

when he encounters "Red"

Campbell in the squared circle

on the 19th.

Owing to the fact that several

members of the Elk's basketball

team have dropped out, they are

now unable to field a team.

The regular league schedule

will be unaltered, a junior game

taking the place of the games

which were scheduled for the

Elks. The teams which were to

Scene from "My Wild Irish Rose," showing at the Westholme Theatre tonight and tomorrow.

play the Elk's will receive two points per game, by default.

Tonight's basketball games will be:

Bluebirds vs. High School.

Maple Leafs vs. Kaiens.

Team to play Anyox vs. team picked from the rest of the league.

The players to-night in the S.O.E. vs. St. Andrew's billiard tournament will be as follows:

R. Shockley (S.O.E.) vs. J. Brown (St. Andrew's) at the P.R. Pool room.

J. Howe vs. S. D. Macdonald at the P.R. Pool Room.

P. Tinker vs. M. Andrews at the St. Andrew's rooms.

Dr. West vs. J. Andrew's at the G.W.V.A.

R. Howe vs. M. M. McLachlan at the St. Andrew's rooms.

## THREE BASKETBALL TEAMS ARE PLAYING

Juniors at Top of League so Far;  
Others Play Well

Much enthusiasm is shown this year in basketball by the High School students. They got away with a good start in the early part of the season by forming three basketball teams to play in a school league. These games provided keen competition and much excitement to the spectators as well as the players. The games are played every Monday through the generosity of Rev.

The Juniors are leading their league and are playing a brand of basketball which brings honor to the school. The Intermediate team, although not topping its league, is a good second and is giving last year's champions of Northern B.C. a good run for the silverware. Great credit is due to their coach, Eddie Smith, one of the city's first class basketball players, who has given much time to the Intermediate and has managed to convert the boys of learning into skillful and clean players of the hoop.

The Juniors are leading their league and are playing a brand of basketball which brings honor to the school. The Intermediate team, although not topping its league, is a good second and is giving last year's champions of Northern B.C. a good run for the silverware. Great credit is due to their coach, Eddie Smith, one of the city's first class basketball players, who has given much time to the Intermediate and has managed to convert the boys of learning into skillful and clean players of the hoop.

Instructor: — That's just it. Good habits must be taught in youth. It's not the fault of these men that they walk as they do. And yet, I'll bet that they take pride in seeing young lads like you stepping out with vim. But we can't be what we'd like to be until we get a good play shed or a gymnasium for our physical drill, where, besides, we can play basket-ball, volley-ball, and hand-ball every day, whether it rains or not.

(Eighty girls approach and join in): Girls: Are you talking of a playshed? Can't we use it too?

Boys: Of course, girls, we want your help to get a big playshed.

Girls: Leave it to us. When you win the women, the men follow.

(All scamper for lunch in high glee).

## GYMNASIUM MOVEMENT AT THE HIGH SCHOOL

Dramatic Scene in Which the  
Needs of the Young People  
are Clearly Shown

Monday (chorus of boys): What about physical jerks to-day, Sir?

Teacher: No! Inside to-day, boys, too rainy.

Tuesday (chorus of boys): Is there cadet drill to-day, Sir?
