PEACE RIVER AND P.G.E. ARE DISCUSSED

SYSTEMATIC SEARCH IS BEING MADE FOR MAJOR MARTIN IN THE NORTH

Railways Will Confer With the Representatives of Province and Alberta Over Peace River Line

VANCOUVER, May 2. — "I believe the P.G.E. and Peace River Railway problems are nearer a solution than ever before," declared Premier Oliver on his return yesterday from Ottawa. As the result of his trip, the Canadian Pacific and Canadian National systems had agreed to obtain all the available data on the transportation situation in the Peace River country and then hold a conference with the representatives of British Columbia and Alberta before reaching a decision as to the construction of railway branches or railway extension in that portion of Canada.

The premier refused to make a statement in regard to the date of the provincial election but he said the cabinet would discuss the matter today.

Asked if he was personally satisfied with the result of his visit, Mr. Oliver declared he had not got as far as he expected to get and that at least his visit had not prejudiced anybody's interests.

SEARCHING FOR MAJOR MARTIN

Thought He Could Not Have Gone Far in Plane on Way to Dutch Harbor

SEEK SYSTEMATICALLY

Flyer Did Not Pass Shumagin Islands 140 Miles From Chignik

OTTAWA, May 2. (10 a.m.) — Major Martin, commander of the American flyers was probably forced down between Unga Island and Chignik, according to radiograms picked up here. Severe snowstorms prevailed Wednesday in that vicinity. No trace of the aviators had been found up to late last night.

Many ships in the North Pacific are making an intensive search for the lost plane and the two intrepid aviators.

BREMERTON, May 2. — At 3:15 this morning no wireless message had been received here from vessels in the North Pacific concerning the probable fate of Major Martin and his mechanic, Sergeant Harvey, who have been missing since they left Chignik Wednesday morning bound for Dutch Harbor. The searching party is divided into four parts and early today is proceeding systematically. It is certain the flyers could not have passed Shumagin Islands, 140 miles from Chignik, and still more sure they had not gone beyond False Pass, 230 miles from Chignik.

CATTLE STARVE WITHOUT HAY

Vessel Unable to Get to Island of St. Paul Owing to Ice Floes

BREMERTON, May 2. — Thwarted by immense Arctic floes, the United States bureau of fisheries vessel Elder has been unable to take bay from St. George Island to the starving cattle on St. Paul island, a distance of 40 miles from the Pribiloff islands. The cattle quartered at St. Paul are starving from lack of food owing to unusually severe weather.

INVESTIGATE BRITISH EMIGRANTS IN CANADA

LONDON, May 2. — William Lunn, parliamentary secretary for overseas trade, announced in the House of Commons yesterday that a delegation would sail for Canada in July to investigate the conditions under which British emigrants are settled in Canada.

WOLF FIGHTS BULL MOOSE

Constable Sinclair Tells of Battle in Letter to Inspector

CHASED FOR MILES

Big Animal Had Legs Broken and Was Badly Lacerated

The story of a terrific battle between a bull moose and a timber wolf which proved fatal for the former is told by Provincial Constable A. F. Sinclair of Lucerne in a letter to Inspector T. W. Parsons of Prince Rupert, Constable Sinclair, while traversing the woods near Yellowhead Lake on the border of Jasper National Park, witnessed part of the struggle and shot the bull which had been mortally injured.

The moose had apparently been chased for miles by the wolf. Becoming fatigued, the larger animal fell down a mountain side and, after being further harassed by the wolf, went down. About this time, the officer happened along and the wolf made off. The moose had been able to keep the aggressor off but his legs were broken and he was so badly lacerated otherwise that the officer considered it but merciful to put a bullet through his head.

REV. DR. SANDFORD CONSERVATIVE SPEAKER

Will Aid W. J. Bowser in Stumping Country and if Successful to Get Cabinet Position

VICTORIA, May 2. — One of the stump orators on the Conservative side during the forthcoming election campaign is to be Rev. A. M. Sandford, Methodist minister and president of Columbia College, the Methodist school at New Westminster.

Dr. Sandford is a good speaker and it is suggested here that should the party be successful at the polls, he will be given a position in the next cabinet, probably as minister of education.

Walter Owen, son of Walter Owen, assistant superintendent of Provincial police, is in his second year law in Vancouver. He has become prominent during the past year as Premier of the Boys' Parliament and he frequently gives addresses in Vancouver. Walter, jr. received his elementary education in the Prince Rupert public schools.

New International Conference Proposed by Great Britain for Settlement German Reparations

LONDON, May 2. — Premier Theunis and Foreign Minister Hymans of Belgium arrived here last night for the purpose of ascertaining the views of the government in regard to methods of making the Dawes reparation plan effective. Belgian emissaries are assuming the role of go-between in the allied negotiations.

According to the British view, the negotiations should take the form of a new international conference.

It is believed here that the result of the conference would be a business agreement unhampered by bitter feelings.

A speaker at the Provincial meeting here Wednesday stated one reason why they chose General McRae as leader was because of his wealth.

Liberal Bill Defeated by Labor Government in British Parliament

Now Looks Like War Between Allied Groups in Old Country and Possible Election

LONDON, May 2. — The House of Commons this afternoon rejected by a vote of 238 to 144 the proportional representation bill sponsored by the Liberals. The government's non-acceptance of the Liberals' "ultimatum" demanding support for their proportional representation electoral bill is declared by many political writers to be regarded as a rebuff and challenge to the Asquithians. The latter, it is stated, may now be expected to let loose their threatened intensive campaign in opposition to the government and to lighten the grip they claim to hold on the House of Commons. This, it is stated, will bring nearer the fall of the government which is the favorite topic of some political writers.

RADIO SET BEING FORWARDED HERE FOR COMPETITION

Word was received from Ottawa last night that the radio set which is to be the first prize in the school essay competition on "Save the Forest Week" is being forwarded to the Daily News by the Northern Electric Company of Montreal. It is said to be a fine set and a prize well worth winning.

CALIFORNIA TRAVEL HAS BEEN CUT OFF

Will Affect Tourist Business of Washington State and British Columbia

SEATTLE, May 2. — The tourist business to the state of Washington and southern British Columbia will be severely handicapped this year by the prevalence of foot and mouth disease in California and Oregon. North-bound travel will to a large extent be cut off and the usual influx of tourists will be stayed. The railways will still bring their quota and the roads from the east will be much frequented but a good deal of the travel in the past has been from California.

Urges that Prince Rupert be Made Outlet for Peace River Instead of Cut off at Brule

To make Prince Rupert the outlet for the Peace River country by means of extension of the Edmonton Dunvegan and British Columbia Railway to Vanderhoof and thus over the Canadian National to Prince Rupert is strongly urged by G. R. Dunsmore of Pouce Coupe in a letter to the Edmonton Journal this week. He argues that Prince Rupert is the natural outlet for that country. The letter follows:

Much has been said regarding the railroad outlook so far as it concerns the Peace River country. The imperative necessity of a road into this country, of course, is recognized by all who have any knowledge of the territory and its prospects. Many routes have been proposed. Several have actually been surveyed.

The position of the people depends on the route which will be selected. For instance, if the Brule cut-off goes through to Grande Prairie, then only Grande Prairie settlement, and districts not too far from Grande Prairie, will benefit by the shortening of the route to the coast. Thus, such districts as Pouce Coupe, Waterhole, Blueberry and fully fifty per cent of the country traversed by the E.D. & B.C. railroad will be in even a more precarious position than at the present.

Only Feasible Route

The only feasible route which will materially assist the whole of the Peace River block will be the extension of the E.D. & B.C. railroad from Spirit River, Alta., through the Pine Pass to Vanderhoof, B.C., then on the C.N.R. to Prince Rupert. If this is done it will make the E. D. & B. C., which has been going behind financially since the completion of construction, a paying road.

Many inducements have been offered for the construction of the Brule cut-off. The first, of course, was to relieve the Peace River district of its serious need of a railroad outlet to the Pacific coast. The second was the tapping of the coal fields lying seventy miles to the north-west of Brule mines. The first has already been shown inadequate to the requirements. When one also takes into consideration that the Blue Diamond mine and the Brule mines in this district, both of a good quality bituminous coal have been closed, the former for several years, the latter for one year, owing to the super-abundance of the same quality coal on the Mountain Park branch, it would hardly seem good judgment to encourage the spending of more money to build a road for the purpose of gaining access to a product already over supplied.

But if coal must be proffered as an inducement to build this road, in addition to relieving the Peace River country, then look to the west of Pouce Coupe, a matter of from fifty to sixty miles, and a quality and quantity of coal far surpassing that of the Hoppe field will be found.

Load at Prince Rupert

Boats would load at Prince Rupert for the Orient instead of Vancouver, with Peace River grains, by which a saving of from three to four days could be made on the return trip of the boats. This would be another point that would greatly increase the value of Peace River products. Undoubtedly Prince Rupert would make the most desirable market obtainable. The actual saving of mileage for Grand Prairie products to Prince Rupert instead of by way of Brule to Vancouver, including the ocean mileage, would amount to over two thousand miles.

Bear in mind that a ship com-

ing from the Orient must pass Prince Rupert on its way to Vancouver and then return from Vancouver to Prince Rupert, spending about four days (depending on the speed of the ship) in making the trip. At the same time passing up the best natural harbor on the Pacific coast.

Hearty Approval

Hon. Mr. Graham's action in suspending operations on the Brule cut-off line, until the railroad requirements of the whole country are properly investigated met with the hearty approval of a good majority of the people in the Peace River block.

PROGRESSIVES ARE NOT DONE BARGAINING

So Says Robert Forke Who Denies any Bargaining With Liberals

DEFENDS THE BUDGET

OTTAWA, May 2. — In the House of Commons yesterday, Robert Forke, Progressive leader, repudiated the suggestion that there had been any bargaining between Progressives and any other group, alluding to statements made in the House and at other places that the Progressives had bargained with the government.

Mr. Forke repeated the statements made at the opening of the session that Progressives would support the government when it brought down Progressive measures. He said he believed the budget was better for the country than the mere gesture indicated in the Woodworth amendment.

"If anybody in this House thinks the Progressive movement done, he is vastly mistaken, continued Mr. Forke. We of this group see brighter things ahead.

MAY DAY WAS VERY QUIET

Absence of Flaring Banners Marked Processions in London This Year

LONDON, May 2. — London's celebration of May Day was dignified and peaceful. Processions through the streets and demonstrations at Hyde Park were not even marked by the usual flaring banners. Consciousness of Labor's new found dignity on the government benches may have been responsible to some degree for the change over former years.

DAILY EDITION

Friday, May 2, 1926.

Province Bankrupt But Credit Remains Good.

A curious anomaly has arisen in the province of British Columbia. According to third party speakers the province is bankrupt or almost so and yet they admit that the credit of the province remains good. As a matter of fact it is just as good as the credit of those other provinces that are quoted as examples for this one to follow.

The cry of blue ruin is not one to conjure with just now. The province is prosperous today and all the pessimism of the Provincials cannot make the people believe it is otherwise. There is today no unemployment, mills and factories are all working, except the one in Prince Rupert which is tied up from financial causes originating in the death of the proprietor some years ago. North and south, east and west the country is more prosperous than it has been for many a day and in spite of the lamentations and weeping of the new politicians, everything is going on well and seems likely to improve.

Provincial politicians when they go out on the stump next time should learn a new piece. They have played the melancholy role to death and if they are not careful will die with it. Let them bring us a message of cheer and we shall receive it joyfully for we are not as hidebound to party as they have us believe.

No Pressure Here On Political Opinions.

Contrary to the intimation of one of the speakers at the little Provincial meeting the other night, there is no pressure put upon people here because of their political opinions. We in Prince Rupert do not penalize a person because of his opinions. Everyone has a right to express himself as he feels proper, unless he be in the public service when he is not expected to campaign for or against any party, either the Government or the Provincials.

If a man had been penalized for his opinions, some of the local people would often have found themselves in difficulties for they have never been backward in giving vent to their opinions.

We have no quarrel with the Provincial Party. If they can improve the condition of the province, we wish them every success. All we criticize is their spirit of pessimism and the misapprehensions of their speakers. Prince Rupert is about as free a place as any in the country. A man can hold any opinions he wishes or be of any religion he wishes and nobody bothers him. All fraternize together and are good friends. They do business with each other and meet socially without the slightest ill-feeling. To convey any other impression is to distort the facts.

Salt Lake Swimming Pool Is Great Asset.

One of Prince Ruperts greatest assets is the Salt Lake swimming pool across the harbor. It is something that nature has provided for the use of the city and which is to be preserved through the recent action of the Provincial Government in setting it aside for park purposes. All that is now needed is to spend some more money on it in order to make it one of the finest recreation parks in the country.

At present the place is not kept as well as it might be. The Provincial Government has, through its member, offered to give \$750 as its share of a fund for the purpose of putting the place in good condition, provided the people here put up a similar amount. This should be an easy matter. The money is so badly needed and the cause is such a good one that the city should be generous and the Swimming Club should be allowed to proceed with the work at as early a date as possible.

Cashing In On Tourist Opportunities.

When the new boat is placed on the Naas River this route should prove an attractive one for tourists who wish to see a little wild life. They could either make the return trip to Aiyansh or, better still, could go up the river by boat and return by way of Terrace or Kitwanga, tramping the sixty or seventy miles from one river to the other. For Prince Rupert people, too, this would make an enjoyable outing.

BOYS GUESTS ROTARY CLUB

Interesting Addresses Given With Good Advice to Lads Who Were Present

VALUE OF EDUCATION

Thirty boys of the High School entrance classes were yesterday afternoon guests of the Prince Rupert Rotary Club at luncheon at the St. Regis Cafe. They were seated alternately around the tables with the members of the club and listened to addresses from George Rorie, Dr. W. T. Kergin, W. E. Williams, T. H. Johnson, C. H. Orme and George Munro, the latter being designated to and the lads in the choice of a business or profession and to encourage them to remain at High School until they had passed their matriculation examinations.

At the close of the addresses of thanks to the club were made by two boys, the vote being proposed by Lloyd Mallieff and seconded by Roy Payne. Adjournment was taken after three rousing cheers and a flag had been given by the guests for their hosts.

Besides the boys the guests of day included Raymond Fisher of Victoria, son of Rotarian W. S. Fisher, and Dr. Sizer of Port Simpson.

Dr. Grant presided at the luncheon and before the program commenced he vacated the chair in favor of George Rorie of the boys' work committee.

George Rorie

In his address Mr. Rorie asked the boys to remember that the members of the club always wished to help the boys and were ready to do so. The Rotary Club was simply a bunch of business and professional men who got together and kept together having the idea that service was the basis of prosperity in business and of happiness in life. They wanted to make the boys remember that greater service meant greater happiness and in most cases more material wealth.

In the old days there was a nation wandering in the wilderness and then they set up a golden calf. That calf was ruin. So it was well for us to remember not to set up the dollar sign as the only thing worth while. Setting up that was apt to blind us to other things and thus other beauties would be missed. He recommended that the boys complete their education by going through High School, and thus lay the foundation for the after life.

Dr. W. T. Kergin

Dr. W. T. Kergin expressed the opinion that they often had important guests but never any more important than the ones there that day. Apart from entertaining the boys they had it in mind to bring home to them the value of education. Many grown people would today have been thankful if they could have received a better education and gone through High School.

Speaking of the practice of medicine, the Doctor spoke of it as one of those which were honest, honorable and brought a fair remuneration. He believed that in every boy was the desire to serve mankind but often in later life the fine ideals were curbed by the daily grind. Medicine offered an opportunity for service.

Dr. Kergin urged the boys to choose a business or profession that appealed to them and which they thought they would like. If they did not do this life became drudgery instead of happiness. However, most desirable things were hard to get and this was true of the medical profession. There was hard work ahead for years but it was not out of reach for any ambitious man who had courage and grit to go in for it.

to him along with Mr. Manson

years ago and the statesman then said: "Boys, if I were going to start life again I would do just as I did before by studying law." "It was an ancient and honorable profession, Mr. Williams said for any boy with the capacity and willingness to work hard. We told a story of a boy who through many hardships had got an education and eventually made a success of his profession. He told them that all successful men took the greatest pleasure in their work. He advised that they choose some job with a future to it and in the meantime they lay the foundation by remaining at school and getting a good education.

J. S. McLeod told of the qualifications for a position in the bank. They must be quick and accurate at figures, spell well and be able to write a good hand. Many did not realize how important handwriting was. Few boys were fit to go into a bank unless they had taken a high school course.

T. H. Johnson

T. H. Johnson on behalf of the wholesalers said there were two ways of learning the business, one by the theoretical route and the other the practical, in other words one through the business office and the other by going through the practical training from one end to the other. In any case an education was necessary to the one who wished to get to the top. When a man got to the point where he had to make decisions, education was a great help. Executive ability was a great thing.

C. H. Orme advised all to go through high school as far as matriculation. He had not been given any choice by his father but had been sent through. In the drug business matriculation was necessary. He had found that all the boys who had worked for him and who had left school early had failed to get anywhere. They were mostly in blind alley occupations. In Prince Rupert they had great opportunities for

an education.

George Munro

George Munro urged against becoming a floater. All should learn some business or profession. He had been told that 75 per cent of the businessmen were in it by accident. He did not think it wise to gamble with life in that way. They should plan their course ahead. If they did not have an education others would step ahead of them. They must know their work well in order to make a success of it.

Ten Years Ago in Prince Rupert

May 2, 1914.

Prince Rupert is suggested as the stopping off point between Vancouver and Sitka for the round-the-world flight which may be attempted from the Panama Exhibition at San Francisco next year.

A special train is to be run from Prince Rupert to New Hazelton on May 24 to take the baseball team and citizens of this city who plan to take in the celebration there.

Construction of the first of the twelve pontoons at the dry dock has commenced. The wood used is chiefly British Columbia fir reinforced with steel.

SCIENTISTS TO TOUR CANADA

Members of British Association Expect to Come West After Toronto Meeting

TORONTO, Ont., May 2.—(By Canadian Press)—When the British Association for the Advancement of Science holds its 92nd annual meeting in Toronto next August at least 450 scientists from Great Britain are expected to take part. The International Mathematical Congress will also meet in Toronto at the same time, and at least 100 British and foreign mathematicians are expected to attend.

It has been arranged that after the scientists and mathematicians have concluded their deliberations about 400 of them will be conducted on an excursion through western Canada. Stops will be made at important points along the route where district committees will exhibit the resources of their districts. At some of these stopping places scientific sessions of the British Association will be held, at others public addresses will be given by world-famous scientists noted for their ability to impart scientific facts to popular audiences.

Among the visitors expected at the Toronto meeting are Sir E. J. Russell, the director of the famous agricultural experimental station at Rothamsted; Sir Max Muspratt, one of the leading figures in the chemical industries of Great Britain; the Hon. Sir C. A. Parsons, well-known chairman of the Parsons Marine Steam Turbines Co.; Sir William Herdman, celebrated authority on Marine Biology; Sir Thomas Holland, the great economic geologist. Many such men as these will go on the western tour. It is hoped that the opportunity thus afforded to leading engineers, chemists, geologists and other scientists to become acquainted with our natural resources may possibly result in increased investment of British capital in Canada. In any case the advantages to Canada of such an excursion are obvious.

BRINGING UP FATHER

MINSTREL SHOW GREAT SUCCESS

Elks Staged Entertainment Last Night Equalling if Not Exceeding Past Efforts

The blackface variety show staged last night in the Westholme Theatre by the Elks' minstrels and entertainers proved as lively and successful an affair as any of the lodge's past attempts along this line. Indeed, there were many who expressed the opinion that it was the best minstrel show ever staged in the city. In any case, the theatre was packed to the doors and the big crowd was well satisfied with the entertainment that was presented.

The first half of the program was provided entirely by the minstrels in songs, choruses, jokes and comical antics generally. The six cornersmen in their piebald costumes were, of course, the life of the party and splendid support was given by the other members of the troupe who were costumed in full evening dress. Ben Self was interlocutor, the cornersmen were Harry Astoria, Joe Rathford, Jack Cobb, Art Easson, Jack Perry and George Waddell, and minstrels were J. George, D. Brown, George Mitchell, Will Mitchell, W. E. Willicroft, Dick Howe, Harvey Fraser, D. Balfour, Angel Astoria, Louis Astoria, J. Atherley, Gillis Couture, H. B. Styles, Bert Morgan and E. Sabourin. Soloists were George Mitchell, Will Mitchell, Gillis Couture, H. B. Styles, E. Sabourin, H. Astoria, Jack Cobb, Art Easson, J. Perry and George Waddell.

The second half of the program opened with a solo by J. George followed by a sketch "The Haunted House" by Jack Cobb, J. George and Harry Astoria and saxophone sextette by "The Waterspout Brothers," better known as Kenny Rood, Art Easson, Howard Frizzell, Miss Louie Fisher, Bob Frizzell and J. Cooper.

Plantation Scene
Perhaps the most entertaining and appreciated section of the whole program was the plantation scene by the entire company. This took the form of the twenty-first birthday celebration of Sambo, whose role was taken by Harry Astoria. Several new features were introduced and distinct hits were made by Master Bruce Stevens in vocal solos which were persistently encored and by Miss Laura Frizzell and Howard Frizzell in a tango exhibition. Other numbers of note were a violin solo by Art Eason as Uncle Tom and step dancing by Art Easson, E. Sabourin, Jack Perry and Hermidas Goudreau. The curtain dropped with the singing by the company of popular college songs and "There'll be a Hot Time in the Old Town tonight."

The minstrel orchestra, also in costume, contributed generously to the program and was much applauded. The personnel of the

BY NO MEANS ALLOW YOUR BOWELS TO GET CONSTIPATED

If you allow your bowels to become constipated you will have bilious attacks, sick headaches, coated tongue, foul breath, sick complexion, specks floating before the eyes, whites of the eyes dull and yellow, heartburn, water brash, etc. Keep your bowels regular by using Milburn's Laxa-Liver Pills, as by doing so you will be able to keep well and have no more trouble with your liver. Mrs. I. Rubin, Halbride, Sask., writes: "I was very badly troubled with constipation, often had had headaches, my tongue was coated, and I felt anything but well. After taking Milburn's Laxa-Liver Pills I have felt much better as they certainly did me a lot of good." Milburn's Laxa-Liver Pills are 25c. a vial at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

orchestra was as follows: Charles Balagno, pianist and leader; Will Balagno, violin; Will Browne, drums; K. Rood and R. Frizzell, saxophones; W. H. Derrey, trombone; A. Beale, clarinet; W. N. Hoss, bass; C. A. Kirkendall, cornet.

Those in Charge

Those in charge of the concert were: Ben Self, manager; Charles Balagno, musical director; Mrs. Ben Self and Mrs. Fred Gihuly, costumers; F. Dibb, advertising; secretary, George Waddell; property men, E. Sabourin, P. Laporte and H. Fraser.

DISPUTE RAGING OVER PLANS FOR ELEVATOR

EDMONTON, May 2. — There has been a little dispute between Mayor Blatchford and C. D. Howe, the elevator architect, over the use of a set of plans belonging to the architect which were sent to Vancouver to a firm of contractors. Howe is threatening to take action against the mayor.

When tenders were called it was advertised that extra sets of plans could be secured on payment of \$100 and it was not contemplated that any Edmonton officials would pass them around to contractors free of cost.

LIQUOR TO BE DEARER IN ALBERTA THAN B.C.

CALGARY, May 2.—The price of hard liquors in Alberta under the new Government Control Act will be from 15 to 25 cents more per bottle than the price now charged by the province of British Columbia. This was the statement made by R. J. Dinning, liquor commissioner.

He explained that the Alberta price would be higher than the British Columbia price just to the extent of the additional freight on liquor from the Pacific seaboard to Calgary and Edmonton, plus the cost of country deliveries, on which the Alberta vendors will prepay charges.

This is the first official in-

FEAR BIRDS MAY BRING FOOT AND MOUTH DISEASE

SEATTLE, May 2.—The people of Oregon and Washington fear a new danger in the foot and mouth disease. It is the annual northern migration of the wild ducks and geese and other birds that have been feeding and possibly nesting among the herds dying of the disease in the inland valleys of the south. Hence it is feared by some that the birds may spread the epizootic north in spite of what the authorities of Oregon, Washington or even British Columbia may do.

The wild geese bathe in the same sloughs at which the cattle of British Columbia and Alberta drink, and feed in the fields where Canadian cattle pasture.

FARMERS ARE WORKING ON LANDS IN ALBERTA

EDMONTON, May 2.—Reports from central and northern Alberta indicate that the farmers are at work on the land, but not much actual seeding has taken place owing to the lateness of the season. In central Alberta, correspondents state that the soil is in especially good shape to receive the seed, there being ample moisture owing to the intermittent snowstorms during April. Settler and adjoining points indicate there is no shortage of labor. Spring work has started in the north, a dispatch from Grande Prairie being to the effect that seeding is in progress there.

Vegreville reports that while the soil is in splendid shape, there is a possibility that the late start of seeding may slightly curtail the wheat acreage.

Sport Chat

Good progress is being made by the Gyro Club playground committee in its work towards providing recreation equipment at the corner of McBride Street and Sixth Avenue for the girls and boys of Prince Rupert. Plans for the grounds have been drawn up and it is expected that an estimate of the cost will be struck by the first of next week. It is now the hope of the Club to have the grounds ready for use before the end of June. A concert is to be staged next Tuesday to raise further funds for the project.

Wallace Anderson, who learned his baseball in Prince Rupert and graduated to semi-pro class in the big southern cities a couple of years ago, is being mentioned favorably in the metropolitan papers already this season. He is playing with the Georgetown Merchants of Seattle, semi-pro champs of last year. This team got off to an auspicious start a week ago last Sunday

when it defeated the Mail Advertisers by seven to nothing. The Seattle Post-Intelligencer says: "The work of Anderson in the short patch was good" and the Times: "The fielding by Anderson featured for the winners."
Since Jack Dempsey has held the heavyweight title so long and still there seems no white contender, to wrest it from him, the color line seems to be getting less distinct. The announcement made yesterday in New York by Tex Rickard that he had matched the champion for September 6 in Jersey City with Harry Wills, the negro, will be received with interest if not acclaim by the most of fight fans who will pay their fifties and even centuries again to replenish the coffers of the champion, the promoters and incidentally the United States taxation office. A heavyweight championship battle is due this year and it seems that the public at large will little seek who the contender may be. At that, barring the color line, Wills seems to be the logical man.

MORE TOURISTS COMING COUNTRY

Business Over Railway Expected to be Greater than Ever Before

WINNIPEG, May 2.—Summer tourist traffic from the United States to Western Canada is expected to be the largest in the history of tourist travel, according to R. Creelman, passenger traffic manager of western lines of the Canadian National Railways in an interview.

Numerous inquiries have been received by the general agents of the western division of the system already. More than 2,000 reservations have been made for the boat trip between Prince Rupert and Vancouver, parties ranging 25 to 200 in size being included in the arrangements.

Interest in the hotel accommodation of Canadian National Railways Hotels on the part of citizens across the line has satisfied traffic officials that the summer season of 1924 will surpass in tourists numbers anything in the history of Canadian railways.

Summer tourist fares on Canadian National lines from Winnipeg to the Pacific Coast and Eastern Canada becomes effective May 15. From the Pacific coast to Winnipeg and Eastern Canada the new schedule will take effect May 22. Special train parties travelling through the west will outnumber any of previous years, Mr. Creelman stated.

THOMPSON POSSIBLY MAY BE CANDIDATE

Suggestion Made that Local Hardwareman May Get Joint Nomination

White nothing has yet been officially decided upon, it is understood that the forces of the Conservatives and Provincials are likely to amalgamate for the forthcoming provincial election in Prince Rupert riding and get behind one candidate in an attempt to defeat the government member. It is said to be almost certain that this candidate will be James H. Thompson, the local hardwareman who has been associated with the Conservatives and enjoys a general popularity. It is conceded that he would give the sitting member a hard fight.

Mr. Thompson, it is understood has refused to accept any party nomination but has tacitly agreed to be a candidate on an amalgamation of forces.

When you buy advertising you buy CIRCULATION, and see that you get it.

NEW BOAT FOR NAAS RIVER IS ALMOST READY

Henry Derby's Craft Will be Great Boon to Settlers and Travelling Public

The gasoline boat for service on the Naas River between Mill Bay and Aiyansh, which has been under construction here for some time, is nearing completion and it is hoped that the launching will take place next Tuesday. Before another fortnight has elapsed, Henry Derby, the owner, hopes to take the boat north and put it into commission.

Mr. Derby, who has long experience in river navigation in the Yukon country, has designed and built a craft which should be particularly well adapted to the service in which it is to be placed. It is 45 feet long, of shallow draft with shaft tunnel and will be propelled with a 200 horse power Van Berk engine. Mr. Derby expects to get 10 miles an hour out of the boat going upstream which will mean that the 35 mile run between Mill Bay and Aiyansh may be negotiated in between three and four hours.

The new boat will be a great boon to the residents in the Upper Naas valley making it unnecessary to depend on the uncertainties of the native navigators as has been the case in the past. It will also make possible visitations to this district of scenic beauty which as yet is little known to tourists. Mr. Derby also expects to operate a scow in conjunction with his boat to handle heavy freights when they offer.

The new boat has not yet been named. It will probably be called the Naas River or the Aiyansh.

NAAS RIVER AS TOURIST HAUNT

Recommended by Charlie Gordon of Aiyansh Who is in City

CAME OUT ON FOOT

After hiking out of the Naas River valley over the Kitsumkalum trail, Charlie Gordon, well known rancher of Aiyansh, is a visitor in the city. He has come out to buy a team of horses which he will drive in from Terrace over the trail on which he made the trip out.

Mr. Gordon left Aiyansh on Sunday morning last and, with a pack on his back, negotiated the 67 mile trail from there to Terrace in a little better than two days. He encountered little snow on the trail and was able to camp out at nights.

Mr. Gordon has 50 acres of open land on his ranch at Aiyansh and 19 acres of this is in timothy. Last year he was able to ship out some of his produce such as potatoes and vegetables.

Mr. Gordon is a booster for his district from the standpoint of its attraction to tourists. The scenery is splendid and includes even the attraction of real lava beds. It will be made more accessible this year when the new gas boat now under construction here is placed in service from Mill Bay, the steamer port, to Aiyansh, between the sea and which a canyon intervenes.

There is also excellent fishing in the Naas River valley.

NEW RANKING OF POLICE HAS NOW GONE IN EFFECT

Uniforms Expected Soon and Provincials Classified According to Seniority

The new system governing the administration of the provincial police is now in effect, states Walter Owen, assistant superintendent, who is in the city today in the course of a trip of inspection through the district. In many respects the system is similar to that of the Royal Canadian Mounted Police. The officers are classified according to seniority as inspectors, staff sergeants, corporals and constables of first, second and third class. Local officers may be described henceforward as follows: Sergeant Spiller, Corporal Saini, Constables Ponder and Martin. The department expects to have its new uniforms before long. There will be two uniforms for each officer—one of khaki for outside and patrol work, the other of blue for court and dress purposes.

Assistant Superintendent Owen arrived this morning from Stewart and Anxox and will go East on tonight's train.

RIDLEY HOME BAZAAR WAS DISTINCT SUCCESS

Sum of \$760 Was Realized at Affair Held Yesterday Afternoon in Metropole Hall

Despite the inclement weather, the Ridley Home bazaar held yesterday afternoon in the Metropole Hall proved a distinct success, the total proceeds being \$760 derived from the various departments as follows:

Miscellaneous	\$152.00
Children's clothing	103.10
Fancy work	91.50
Home cooking	80.00
Plain needlework	75.85
Handkerchiefs and books	69.10
Plants	61.20
Refreshments	54.05
Candy	46.60
Secondhand booth	26.60

In the course of the afternoon selections were played by the symphony orchestra of the Ladies' Music Club under the leadership of Mrs. Bryant. These numbers were much appreciated.

BIG REDUCTION IN TELEGRAPH RATES

TORONTO, Ontario, May 2.—To correct the anomalous situation which has existed with respect to telegraph rates between Edmonton and Prince Rupert, owing to the two companies, Canadian National and Grand Trunk Pacific operating, the Canadian National Telegraph Co. announces that there comes into effect a substantial reduction in rates between the Canadian Na-

PROCLAMATION

BYNG OF VIMY [L.S.] CANADA

GEORGE THE FIFTH, by the Grace of God, of the United Kingdom of Great Britain and Ireland, and of the British Dominions beyond the Seas, KING, Defender of the Faith, Emperor of India.

To all to whom these Presents shall come, or whom the same may in anywise concern,

GREETING:

A PROCLAMATION

E. L. NEWCOMBE, Deputy Minister of Justice, Canada

WHEREAS the protection and perpetuation of our forests are vital for the continued industrial welfare and national strength of Canada and to its individual health, comfort and prosperity;

And Whereas it is shown by the statistics of the several forest authorities of the Dominion that the forest resources have suffered enormous losses through the occurrence of forest fires and that the loss through such fires has far exceeded in amount the depletion in timber wealth through legitimate cutting operations;

And Whereas Our Dominion is recognized as the main source of supply of coniferous timber within Our Empire and it is essential that, if Canada is to retain and develop her position as an exporter of forest products, the unnecessary losses through forest fires must be curtailed;

And Whereas in many cases forest fires have resulted in disastrous loss of life, and of valuable property other than timber wealth;

And Whereas apart from direct loss through the agency of fire, the vitality of the forest is thereby seriously impaired, thus rendering it unduly susceptible to attack by insect and fungus pests;

And Whereas forest fires disturb the equilibrium of stream flow, lower the water table, and frequently give rise to serious erosive effects;

And Whereas the great majority of forest fires are entirely attributable to inexcusable neglect or ignorance, and are therefore preventable, and the exercise of reasonable Prudence and proper carefulness on the part of responsible individuals would reduce the timber losses by fire in Canada to small proportions;

And Whereas it is desirable that the attention of the public be directed to the extent and underlying causes of the preventable loss of life and property by fire and to the best and most practicable means for its control and that a specific period of the year be set apart and properly designated for the dissemination of such information;

Now Know Ye that We, by and with the advice of Our Privy Council for Canada, have thought fit to appoint and do appoint the week commencing Sunday, the twenty-seventh

day of April and ending on Saturday, the third day of May in this present year as "Save the Forest Week," during which period the citizens of Our Dominion shall be entreated earnestly to consider the facts hereinbefore set out, to give careful heed to information disseminated by the various forest protective agencies, and in particular to act upon the following suggestions:

- 1 That settlers and others engaged in the clearing of land should fully observe the fire laws of the Dominion and of the province, which laws have been enacted for their protection, as well as for the preservation of Our timber resources;
 - 2 That at this time of the year, when thousands are looking forward to spending their summer vacations in the woods, all should take cognizance of the fact that the camp-fire, which is one of the most pleasant and valuable adjuncts to camp life, may, if neglected, easily result in disaster; and that to prevent repetition of such losses as have been annually sustained from this cause, all persons should familiarize themselves with the proper methods of building, using and extinguishing such fires;
 - 3 That loggers, saw-mill operators and others interested in timber operations should see that all equipment and appliances designed to prevent the origin or spread of fires shall be overhauled and placed in a state of thorough repair; that such persons should review with care the fire protection requirements of the legislation under which they operate; and that they should see that all employees working under their direction are properly instructed as to the danger of fire.
- Of all which Our Loving Subjects and all others whom these presents may concern are hereby required to take notice and to govern themselves accordingly.

In Testimony Whereof, We have caused these Our Letters to be made Patent and the Great Seal of Canada to be hereunto affixed Julian Hedworth George, Baron Byng of Vimy, General on the Retired List and in the Reserve of Officers of Our Army, Knight Grand Cross of Our Most Honourable Order of the Bath, Knight Grand Cross of Our Most Distinguished Order of Saint Michael and Saint George, Member of Our Royal Victorian Order, Governor General and Commander-in-Chief of Our Dominion of Canada.

At Our Government House, in Our City of Ottawa, this twenty-eighth day of February, in the year of Our Lord one thousand nine hundred and twenty-four, and in the fourteenth year of Our Reign.

By Command,
 THOMAS MULVEY,
 Under-Secretary of State.

PRIZE ESSAY CONTEST PLAN

Radio Outfit and Other Valuable Prizes for Children Under Sixteen

Following is the complete plans for the essay competition, announcement of which was made yesterday:

1—The subject of the essay is to be the proclamation designating the week April 27 to May 3 as "Save the Forest Week," or any point relating to forest fire prevention, dealt with in such proclamation.

2—The essay not to exceed five hundred words in length.

3—The essay may be written either in English or French.

4—The essay is to be in the contestant's own handwriting, and to be written on one side of the paper only.

5—The contest is restricted to children under sixteen years of age.

6—Each essay must be accompanied by a certificate of a 7—Neither the name nor any other mark of identification of the contestant shall appear on the essay, but each essay must be accompanied by a separate sheet on which is legibly written the contestant's name and address in full, and school, if any.

8—No person shall be eligible to receive more than one prize, nor to enter more than one newspaper competition.

9—The competition will close at twelve midnight on May 3, 1924.

The Man in the Moon SAYS:

IT may be all right to follow the advice of the poet and live within the walled city of your own mind, but if you do, be sure you stock up well with provisions and better take a gramophone or a wireless receiving set with you.

THE turning point in the career of some people is where the other fellow threatens to beat him up.

LIFE has its compensations. After bossing the bunch all day, the tired businessman goes home and gets all the bossing he wants from his wife.

IF a woman is a good cook she has little to fear from the divorce courts.

SOME people know nothing, but hide the fact. Others talk incessantly.

A DENTIST is not the only person who gets on people's nerves.

THE speaker moaned
 As if he were weary
 And painted a picture
 Dark and dreary.
 But the audience laughed,
 As audiences can,
 To hear such funny things
 From such a funny man.

THE way people enjoy themselves just now is planning the vacation they expect to get later.

to work off dry battery.

(3) One pair telephones and plug.

(4) A and B batteries.

(5) Complete antenna equipment.

(6) Necessary wire for connecting up set.

(2)—Twenty-five dollars in cash.

(3)—Ten dollars in cash.

Honorable mention—Five prizes of five dollars cash apiece.

11—The essay winning first prize shall be forwarded by the newspaper to the Acting Director of the Dominion Forest Service, Department of the Interior, Ottawa, who will judge it in competition with other first prize essays to be received by him from similar contests all over Canada.

Central Competition

12—The Acting Director of Forestry will award the grand prize for the best essay received from all Canada.

13—The grand prize will also be a radio set, as follows:—

Receiving outfit to consist of—

SKEENA TURNIPS SHIPPED SOUTH

First Carload of this Produce Ever Sent from District Going to Vancouver Today

The first carload shipment of turnips ever to be sent from the Skeena River district to the Vancouver wholesale market is going south on the Princess Mary this afternoon. It consists of 300 sacks or fifteen tons. The produce, which is of a very high grade and has been well put up to uniform weights in new sacks, was grown on the farm of Mrs. Hodkins at Kitwanga and is being shipped by J. E. Gavigan of Prince Rupert.

If the produce can be obtained, it is expected to send south further shipments of a similar nature. With the California source of supply practically cut off on account of the foot and mouth disease embargo, a great opportunity now presents itself for producers in this district to ship turnips, carrots, beets and parsnips to the southern market.

WIRELESS REPORT

8 a.m.
BULL HARBOR. — Overcast, fresh southwest wind; barometer, 29.71; temperature, 42; sea moderate; 8 p.m. spoke steamer Latouche 360 miles from Ketchikan northbound; 7:30 p.m. spoke steamer Princess Beatrice abeam Pine Island northbound; 8 p.m. spoke steamer Jefferson 420 miles from Seattle southbound; 8 p.m. spoke tug Cape Scott abeam Safety Cove southbound.
