DAILY EDITION

MONDAY, JUNE 9, 1924.

Being Used By Big Interests.

The Conservative party is being used by the big interests to try to oust a government which is obnoxious to them. The Provincial party was formed for that purpose, but, when it was found that they had failed, the big interests clung to the old time Conservatives as well and now have two strings to their bow. In this they have defeated their own ends.

Local people who are supporting the Tory candidate do not perhaps realize that they are being used. They think they are free agents and are supporting the man whom they prefer. As a matter of fact the strings are being pulled and the candidate now in the field is just the one the Tory machine wants.

By Their Works Ye Shall Know Them.

Pattullo is largely responsible along with Premier Oliver for the advanced legislation for which this province has become noted. No one realizes this better than the intelligent workingman. We say "intelligent" because some workingmen, like a good many people in other walks of life, are not intelligent. They are unable to see below the surface and are carried away with soft blandishments. The Canadian Congress Journal, official organ of the Trades and Labor Congress of Canada, says: "British Columbia is now leading Canada in the matter of legislation beneficial to the workers. It has the honor of being the first province to give legislative effect to the eight hour day convention of the International Labor organization passed at the Washington conference in 1909. Although labor in British Columbia endeavored to have this act strengthened and brought into effect at an earlier date, we believe even in its present form, fairly administered, it sets a goal for labor in all the other provinces to reach."

Tragedy Of The Maritimes.

The Vancouver Sun in a recent numbers speaks of the "tragedy of the maritimes" and shows how people are leaving those provinces for the large centres of population.

In this province the government is using every effort to avert such a catastrophe. Already the flood of migration southward has been stayed and is turning north again. What is needed is to keep this government in power until it has completed the work it has in hand. Mr. Pattullo believes in immigration. He believes in inducing closer settlement and in making conditions such that people will remain here. He and Oliver and Manson are a good trio and there is every indication that they will be re-elected by people who realize what they are doing for the country.

province."

"Previous to the inauguration of the Canadian Government Merchant Marine the lumber export sales to China, India and Egypt were very small, but since the Canadian Government Merchant Marine put on service to these countries a market has been obtained which has given an outlet for a grade of lumber which in the past has been very hard to dispose of.

Shipping Board Opposition

We wish to stress the point of the competition, which we ran against with the United States Shipping Board who have inaugurated a line to New Zealand and Australia, giving monthly

sailings, and these sailings favor United States shippers to secure space for parcel shipments. Consequently one of the most useful features of which we call attention of the Senate of Canada to is the amount of good that could be done by representation to the Minister of Marine of the necessity of continuing the service of these steamers to Australia, New Zealand, China and if possible India."

"We speak only of what we know, and that is, the present western management of the Canadian Government Merchant Marine have always been willing to co-operate in any way with the lumber industry in opening up new markets, and we desire to bring to your attention the advisability of every effort being made to not only keep the present service but extend them at any favorable opportunity."

ICEBOUND IS STORY OF NEW ENGLAND LIFE

Said to be a Human Tale of Everyday People by DeMille

"Icebound" is a story of a pretty girl who inherits a wild young fellow in a will, making a real man out of him because she loves him.

It's a William de Mille Paramount production, an adaptation of the Pulitzer prize play by Owen Davis and is to be shown here tonight.

When old Mrs. Jordon dies, leaving her goodly fortune to Jane Crosby, her ward, played by Miss Wilson, her last request is that the girl take Ben in hand and make a man out of him. There's a flapper cousin who does her best to win Ben over. She even succeeds for a time until Jane, heart-broken, is about to leave and Ben is brought to his senses.

"Icebound" is a human story of everyday people, a typical de Mille production that will stand alone for a long time to come before its equal in heart-interest and appeal is seen on the screen.

The stage play was ideal screen material, and, as adapted by Clara Beranger, is nothing short of a knock-out.

THIS FREEDOM IS HUTCHINSON'S NOVEL

Picture to be Shown Here at the Mid-week is Character Study

Love versus career—this is the woman's problem today as represented in "This Freedom" Hutchinson's latest novel, shown here in picture at the mid-week Rosalie Ocelette, representative of an increasing number of such women, chose her career and tried to run her family with the same business methods used in her office. Her home was "organized" and in the care of trained servants, therefore she believed that her presence was not needed in the home.

Rosalie achieved fame as a woman banker, but lost the love and respect of her children. Her business caused her to spend so much of her time away from home that her children were practically strangers to her. They spent all of their vacations and spare time away from home and their moral characters were stunted. In the reckless days following the World War they drifted into evil ways and Rosalie saw her eldest son charged with being a swindler, her daughter's life ruined by an affair with a rogue and the youngest son run away to Canada.

J. M. Grosart, formerly manager of the Buckley Bay sawmill, and Jack Macdonald, formerly accountant there, arrived in the city from Vancouver on the Cariboo yesterday afternoon. They give evidence in the Sprague embezzlement case which is to be heard at the Assizes this week. J. R. McWilliams, wireless operator from Buckley Bay, has arrived in the city in the same connection.

Pattullo's Record

There are a number of people living in Prince Rupert today who are not familiar with Hon. T. D. Pattullo's record either in this city or in Parliament. For their benefit and to remind others here who know but may have forgotten, here are some of the more important items:

AS A PRIVATE CITIZEN

Pattullo took an option with others on the Woodworth Lake water supply to be turned over to the city. This source of supply had been alienated to a former president of the Conservative Association of Vancouver. Pattullo played a conspicuous part in creating a public opinion that forced the McBride-Bowser Government to take action which resulted in the transfer of the Woodworth Lake water record to the City of Prince Rupert. The right should have been reserved to the city in the first place but it cost the taxpayers \$15,000.

Pattullo secured the telephone franchise for the city. Two companies had franchises for the telephone service in Prince Rupert and Pattullo called a meeting of citizens through the Board of Trade to preserve the privilege for the people of Prince Rupert. He offered to install the system and give the citizens the opportunity to subscribe for stock in the enterprise rather than have it pass to outsiders. The meeting decided to call for subscriptions to install the system and turn it over to the city upon incorporation. Pattullo was one of the largest subscribers to the subscription and the system was turned over to the city. Pattullo's action saved the telephone system for the city.

AS MAYOR OF PRINCE RUPERT

Pattullo initiated the bylaw for the hydro-electric project to be installed by the largest financial group in Canada and in a written statement he strongly urged its passage. Pattullo's opponents used the occasion both to defeat him and the bylaw. Had the bylaw passed, the strongest financial group in Canada would have been working for the city and it is the general opinion that this city would have now been several times its present size. The people who engineered opposition at that time are trying to do the same thing today.

AS MEMBER OF THE LEGISLATURE

As member for the electoral district of Prince Rupert Pattullo secured:

- The erection of the Provincial Government Buildings.
- A large appropriation for the Booth Memorial School.
- Five times the city's quota for soldier's houses. (This was made possible through other municipalities holding back for political or other reasons)
- Eighty-one acres at Salt Lakes for park purposes for the City of Prince Rupert and also annual grants to build the approach to the lakes.
- Appropriation for the building of the road across Cow Bay, linking up Third Ave. with the waterfront. The completed work was handed over to the citizens free of cost to them.
- An appropriation for building floats at Cow Bay.
- The Terrace bridge which is well advanced toward completion.
- The appropriation for the building of the Port Clements Tillicum road, work on which has been proceeding for two years.
- Appropriation for the road out of Prince Rupert, work on which has already begun.

AS A CABINET MINISTER

As a cabinet minister for the north, Pattullo has consistently fought for the rights of Northern British Columbia against heavy opposition from opposing political and other adverse interests in the south.

AS MINISTER OF LANDS

Pattullo initiated and administered the Government's timber policy which increased the export timber business over 1200 per cent.

He initiated and administered the Provincial Government's grazing policy for the upbuilding of the stock industry.

He initiated and administered the Provincial Government's irrigation policy which saved the southern interior dry belt from ruin and preserved such prosperous towns as Vernon and Kelowna.

Pattullo has been one of the strongest influences in bringing about a vigorous immigration policy in the Dominion of Canada and has pledged the Provincial Government to co-operate in placing immigrants on the farms of the province. In this connection it is notable that when immigration stopped, emigration to the United States started and continued until the commencement of the present policy was beginning to be felt. The periods of heaviest immigration into the United States were the periods of greatest expansion, the largest increase of wages and the greatest shortening of hours of labor.

He secured the settlement of the foreshore question as between the Dominion and Provincial Governments, which has been outstanding since confederation. Also the Indian reserve question.

GENERAL RECORD

Pattullo has been one of the most powerful influences in the progress of the Province and the City of Prince Rupert. He has worked consistently and persistently for the city. If elected he will continue to use his influence for the advancement of the city and district and for all Northern British Columbia. Such a man is worth a great deal to the district and in receiving the support of those who wish to see the district go ahead.

MUCH BUSINESS FROM ISLANDS

Prince John Brings About 100 Passengers and Much Freight

With about 100 passengers on board, C.N.R. steamer Prince John, Capt. Neil McLean, arrived yesterday afternoon at 4:15 from the Queen Charlotte Islands. Besides her passengers, the vessel also brought salt from Vancouver for Tucks Inlet, shingles for Albert & McCaffery and several hundred cases of clams from the Langara Fishing & Packing Co.'s plant, Graham Island, which will be loaded for Vancouver on the Prince Rupert tonight. The bulk of the John's cargo was, however, for the Queen Charlotte Islands and she still has on board 50 tons of coal for Naden Harbor and a similar quantity for Rose Harbor and 100 tons for Queen Charlotte City. This will be discharged on the southbound voyage. The freight and passenger business to the islands has been increasing rapidly of late and it has now become a proposition of such magnitude that another boat will have to be obtained very soon by the C.N.R. if it is to be properly taken care of.

On this voyage north, the John sailed at 6 o'clock last Tuesday morning from Vancouver. Her officers report a fine passage up the coast via the islands with some northwest gales though the weather was clear. The trip from Massett to Prince Rupert was fine.

The Prince John is scheduled to sail this evening at 8 o'clock on her return to the Queen Charlotte Islands and Vancouver.

WESTHOLME THEATRE

Tonight and Tomorrow, 7 and 9

"Icebound"

A William De Mille production. A photo-play that will hold you spellbound. The only thing cold about "Icebound" is the title. The story is just a big, warm slice of life. There is a tremendous power in this romance of ice-bound, storm-swept souls seeking sunshine. A moving gem with a soul.

Richard Dix, Frank Shannon, Lois Wilson, Edna May Oliver, and excellent cast.

PRINCESS ALICE IS FIRST TOURIST SHIP

C.P.R. Steamer Was in Port This
Morning With 186 Passen-
gers Aboard

The Princess Alice, Capt. Ormiston, first C.P.R. tourist boat of the season, was in port this morning from 10 to 12 o'clock bound from Vancouver to Alaska ports. She had aboard 186 passengers most of whom were tourists including a party of eight who made the trip around the world on the Empress of Canada and who were finishing up their travels with the Alaska voyage.

The Alice unloaded 21 tons of freight and 4 passengers debarked—Mr. and Mrs. Walsh, Mr. Whiteside and Norris Pringle. The following sailed from here for the north—W. Meldrum for Dawson; Judge Young and J. Williams for Atlin; Father J. Alward and R. W. Humphrey for Skagway; C. W. McIntryre for Wrangell; Peter McDonald for Juneau, and D. O. Riley, Andrew Magohey, R. F. Anderson and L. Anderson for Ketchikan.
