ORDERS FOR THE ELEVATOR PLANS GIVEN

WORK ON THE FOUNDATIONS TO BE DONE DURING THE WINTER MONTHS

Instructions Given to Proceed With Elevator Plans; Foundation to be Constructed During Winter

Fred Stork, M.P., received a telegram this morning from Hon. Thomas Low, minister of Trade and Commerce, saying that C. D. Howe, consulting engineer of Port Arthur, had been instructed to proceed with the plans for the Prince Rupert elevator. Tenders for the foundations will be called just as soon as the plans are completed and the work is to proceed during the winter.

It will not be necessary for Mr. Howe to inspect the site as the preliminary work has already been done. Mr. Howe was here in the spring and he then reported on the possible sites and at that time he chose the one near Morse Creek as being the best available.

STEWART HAD SERIOUS FIRE

Power House, Waterworks Tower,
Residence and Machinery
Destroyed

Stewart was visited with a \$10,000 fire last week when the Stewart Public Utilities power house and waterworks tower were completely destroyed, the origin of the blaze being unknown. The residence, occupied by Hugo Stratford, who was in charge of the plant, was also destroyed. St. Mark's Church and vicarage was in danger but it was saved. A 50,000 gallon water tank, considerable machinery, an automobile and motorcycle were also destroyed.

It has not yet been decided whether the plant will be rebuilt, this depending entirely on whether or not the International Electric Co. can supply light to the town. Some of the Stewart business houses have already connected up with the International Co. lines.

MORE EARTHQUAKES

CONSTANTINOPLE, Sept. 24.—Renewed earthquakes in the Sivas region caused heavy damage and a number of people are believed to have lost their lives.

Shark and Cod Fishing Will Receive Attention During the Season When Halibut Closed

A number of the local halibut vessels may be engaged in shark fishing during the halibut close season. Sharks are high in oil content and they are in demand by the by-products plant including that at Tucks Inlet. The ground sharks abound in nearby deep waters such as Wark Canal and Portland Canal.

Cod fishing will also likely continue during the halibut close season and some boats will no doubt be engaged in this line. With a ban being placed on the more choice fish, it is quite possible there may be considerable development of the cod fisheries. The Canadian Fish & Cold Storage Co. will likely handle the most of it, though the Exchange may be opened for bidding if quantity of fish and market conditions warrant.

As far as the cold storage is concerned, it is understood that the staff there will be reduced with the cessation of the halibut fishing. Of course, this plant will have its frozen fish business to continue. There will be little if any fish moving through the other local plants which will be busy making changes in loading facilities with the moving of tracks due to the finishing of the Cow Bay road.

SENATOR COTE DIES

Was Engaged in Survey Work
Years Ago in Dawson and
British Columbia

QUEBEC, Sept. 24.—The death occurred at Les Eboulements near here last night of Senator Jean Leon Cote, former provincial secretary for Alberta, aged 57. He was appointed to the Senate only last year.

Senator Cote was a member of the staff of the Alaska boundary survey commission in 1893 and later was engaged in legal surveying in Dawson and British Columbia.

U.S. FLYERS AT SANTA MONICA

Will Proceed to San Francisco
Tomorrow; Reception Was
Huge

SANTA MONICA, Sept. 24.—United States flyers were greeted by one hundred thousand people when they arrived here at the place where their planes were built. Tomorrow they will fly to San Francisco.

On arrival here they taxied over an acre of blossoms to the reception stand where they were greeted by high officials of the state and city.

ZANNI HAS CLOSE CALL

Was Almost Drowned in Hong
Kong When Collided With
Boats

HONG KONG, Sept. 24.—Major Zanni, the Argentine aviator, who arrived here Monday on a round the world flight with his mechanic and the Peruvian consul, narrowly escaped death by drowning in a collision with motor boats in the harbor. Zanni was at the point of exhaustion when picked up.

SAYS DOUKHOBORS ARE A DISGRACE TO THE PROVINCE

VICTORIA, Sept. 24.—Mrs. De Pencier, wife of Bishop De Pencier, who recently made a tour of the interior of the province in connection with the work of the I.O.D.E., took a great deal of interest in the Doukhobors. She endorses the resolution presented by the Grand Forks Chapter at its last annual meeting praying the government to take steps to prevent the settlement by foreigners in communities. The speaker described as a disgrace the community system under which 30 or 40 members of the sect shared one house. The children were not sent to school, contrary to the law of the country and as a protest against this law, the Doukhobors had recently burned down a number of the schools in the vicinity. Reference was also made to the practice of nude demonstrations in the neighborhood of Grand Forks.

ALASKA SUIT FOR BIG SUM

Foreclosure Action Against Gas-
tineau Mining Co. For Nearly
Seven Million

JUNEAU, Sept. 24.—A suit for \$6,724,476 has been started here by the Bankers' Trust Co. of New York to foreclose a mortgage given to secure bond issues of the Alaska Gastineau Mining Co.

The suit is a step to give a clear title to a New York Company, which is about to utilize the Hydro Electric development plans of the Gastineau firm for the manufacturing of fertilizer, pulp and paper.

CAPTAIN CULLON DIES AT VICTORIA

VICTORIA, Sept. 24.—Capt. W. J. Cullon, steamship inspector here for the Dominion government and for more than thirty years a well known figure in B.C. shipping circles, is dead here.

Dick Howe of the Swift-Canadian Co. is on a trip to the interior. He will be back Friday night.

PREMIER MUSSOLINI

Italy's famous dictator who secured his position through force and is trying to hold it by the same method. He is head of the Fascisti movement.

Utilize Halibut Close Season to Continue Road and Remodel Fish Houses Government Dock

The provincial government is proposing to take the opportunity offered by the lull of business at the government wharf fish houses during the close season this winter to complete the Cow Bay road to the west end of the wharf.

The old overhead roadway will be taken down and the level road now reaching as far as the Nickerson store will be extended to its end. This work will involve the moving of the present siding to the fish houses closer to the shed. The road will run between the two tracks.

As a result the present loading arrangements at the various fish houses located on the government wharf will have to be remodelled. This will keep men engaged at all the plants during the greater part of the three months close season.

GRANBY MILL AND LOGGING CAMPS ARE BEING CLOSED DOWN

ANYOX, Sept. 24.—Owing to the depression of the lumber market, the Granby Co.'s sawmill at Lareom Island, which commenced operations this summer, is to be closed for an indefinite period. The logging camps at Alice Arm have already been closed also logging railway construction. All the equipment has been put in winter storage. While nothing definite has been announced as to when a resumption of operations may be expected, it is anticipated that the mill will be reopened just as soon as market conditions warrant.

ELECTRIC CAR CRASHED AND INJURED 28 PEOPLE

WILMINGTON, Cal., Sept. 24.—Twenty-eight women were injured, two probably fatally, when the Pacific electric car on which they were returning to Los Angeles from Catalina Island wharf crashed into a switch and both car and engine were wrecked. The fatally hurt were Mrs. Christina Willsey of Albany, N.Y., and Ernest Fricke, Los Angeles.

Major Pedro Zanni will Attempt Pacific Flight Landing at this Port

Ensign Evaristo Velo to Pilot Machine Crossing
Pacific During October is Planned
by Argentine

VICTORIA, Sept. 24.—That Major Zanni, the Argentine aviator who is flying around the world, will call at Prince Rupert, probably during October, is the news brought here by Evaristo Velo who was here and who sailed on the Admiral liner President Jefferson bound for Tokio to join Major Pedro Zanni and who expects to accompany him on his transpacific flight.

The flight from Tokio will be over the same route taken by the American flyers except that he will be coming in the opposite direction. It is expected that better weather may be encountered in the north Pacific in October or November than was the case in the summer. Fogs may not be so bad then. Reports of Alaskan and Prince Rupert fishermen indicate that often in the autumn there is a spell of cold fine weather when flying would be comparatively easy.

RESERVE JUDGMENT IN HOME BANK CASE

TORONTO, Sept. 24.—The trial of Ocean G. Smith, former chief accountant of the defunct Home Bank, concluded Tuesday, Judge Cotsworth reserving judgment. The judge will announce his decision on Friday.

WIDE DIFFERENCE IN FREIGHTS TO COAST

OTTAWA, Sept. 24.—New ground in the Crows Nest Pass case was struck yesterday afternoon when G. K. McGeer, K.C., counsel for British Columbia, made a charge of discrimination against that province in the wide difference between export and domestic freight rates within the prairies to the coast.

PREMIER SAYS WILL CONTINUE ANOTHER YEAR

NEWCASTLE, N.B., Sept. 24.—W. D. Snowball of Chatham was nominated by the Liberals and C. P. Hickey by Conservatives yesterday to contest Northumberland riding in the federal by-election.

Separating on behalf of Mr. Snowball Premier MacKenzie King said that should the electors of Northumberland return an adverse decision, it would not spell the downfall of his government. The Government would survive, he would not say how long, maybe for one year or maybe for the remaining two years for which it was elected.

TELEGRAPHERS ARE WORKING

Only Half a Dozen Out This
Morning and Those Given
Until Noon to Sign up

TORONTO, Sept. 24.—"News service conditions are now normal," said General Manager Livesay of the Canadian Press this morning. "All but half a dozen of our former employees who struck on September 11 have signed up again with the company and those still out are being given until noon today. After that their positions will be filled."

Perfect Winter Harbor
A call would be made at Prince Rupert where the Seal Cove mooring grounds used by the Americans and also by the fisheries patrol planes would be utilized. This, it is pointed out, is a perfect winter harbor for airplanes.

As navigating officer, Ensign Velo will be active in the transpacific flight, but his responsibility will be the more burdensome when the plane departs on its attempt to span the Atlantic in one jump. The Argentine flyers plan to "hop off" from St. John's, Newfoundland, and fly direct to Cork, Ireland. They have a record to beat in the form of that set by the British aviators Sir John Alcock and Sir James Brown, who have already crossed the Atlantic from Newfoundland to Ireland in a little over sixteen hours, in 1919. This jump is expected to be the longest and most difficult of the whole itinerary. It is over 2,000 miles.

Fokker Machine
The Argentine flyers are using a German Fokker machine, built in Holland and equipped with an English Napier Lyon engine, 475 horse power, maximum speed 110 miles per hour and an average of 90 miles per hour, which they expect to maintain during the flight.

On arriving at Vancouver the aviators will exchange the pontoons of their plane for landing wheels and their next jump will be to Salem, Oregon.

Major Zanni has been delayed at Hanor, China, owing to damage to his plane, but he will meet Velo in Tokio when the latter arrives there.

First Week in October
"I have been flying two and a half years," Ensign Velo said "and my recent work was instructor for the navy department of my country. I expect to start the transpacific flight the first week in October.

Carlos F. Beltrame is the mechanic of the plane with which the Argentine airmen are to attempt to lower the record set by the Americans for a flight round the world. The flight will end at Amsterdam, Holland, where it commenced.

M. A. Burbank of the C.N.R. engineering staff, after spending several days in the city, returned on last night's train to Prince George.

Tax Sale

TAX SALE OF LOTS WILL BE HELD AT THE CITY
HALL ON TUESDAY, THE 30th INST.,

DAILY EDITION Wednesday, Sept. 24, 1924.

Race Track Betting Is On Increase.

Race track betting is on the increase. Figures just issued say that in British Columbia alone the amount bet on the pari-mutuel system amounted this year to over six and a quarter million dollars. That is a huge sum to be diverted from the regular avenues of trade. It is a lot of money for people to lose and also for people to win. The people who lose can often ill afford it and to the people who win it is of little use for they blow it in just as carelessly as they won it.

Money has little value to the ordinary person today. He spends it as freely as if he had millions and when he is without any he starts all over again. We are passing through a period of looseness in our habits of life and just where it will lead no one seems to be able to tell.

In connection with race track betting the chief objection comes from store keepers whose bills remain unpaid, the money which they should have received having gone into the pockets of some lucky winner at the track and partly into the hands of the government which levies a tax on the winnings.

Too Many Accidents From Fast Driving.

In the south there have been many serious accidents as a result of fast driving while here we have been fairly free. Yet there is now and then a tendency on the part of drivers to exceed the speed limit, thus endangering the lives of pedestrians and others.

Trials on charges of manslaughter follow accidents, but this does not seem to stop the evil. Constant supervision is necessary and it would almost seem as if some form of license which could be cancelled by the civic authorities would be a good thing. This should not be for the purpose of raising money but simply to give the local police an opportunity to prevent reckless drivers from using the streets.

Terrace As A Mining Centre.

Terrace is gradually developing as a mining centre. There are a number of good properties surrounding the city and the prospectors are always in the field finding new ones. Some of the mines, it is hoped, will be on the shipping list soon. There, as elsewhere, however, transportation is the difficulty. The government finds itself with dozens of districts similarly situated and is unable to spend more than a specified sum each year in road building and repair work.

This year the bridge at Terrace has been a great expense to the rest of the people of British Columbia but it is to be hoped that the government will see its way clear to continue the work on the road to Kalum Lake in order that the mines there may be developed and may commence to return revenue to the country. We all want money spent in our respective districts but we do not all want to pay taxes. Prince Rupert wants roads, Terrace wants roads, Usk wants roads, Hazelton, Smithers, Btrris Lake, Vanderhoof, Endako, Prince George and a hundred other places are all clamoring for more money for the roads. The amount must necessarily be limited to the appropriation set aside by the Legislature. A good deal of work is done each year and gradually the country is being opened up so that transportation is made possible.

Continue To Send Salmon To Fraser.

Calls are still being made on the hatcheries of the Skeena River to provide salmon eggs or fry to restock the Fraser so that the American traps on Puget Sound may be well supplied with fish. So far the system seems to have been a failure, for the Fraser-River is no better a salmon stream today than it was four or five years ago. There is no hope for it except to stop the trapping of fish in the waters adjacent. The difficulty is the dual control, the traps being in U.S. territory while the river is Canadian.

We still are of opinion, in spite of official assurances to the contrary, that our money is being wasted in transporting salmon from the Skeena River to the Fraser and that the work is being carried out at the expense of our own fisheries.

SMITHERS CHURCH IS MUCH IMPROVED AS RESULT OF CHANGES

Rally Day on Sunday Will See Choir of Fourteen and Orchestra Providing Music

SMITHERS, Sept. 24.—Recent alterations to the interior of the Union Church have added considerably to the seating capacity. The former cramped appearance has given place to a more spacious arrangement. The choir and pulpit have been moved back, while along each wall and end have been placed permanent seats. D. C. Sangster has the work, which is about completed, in charge.

The present pastor, the Rev. I. W. Lees, has been responsible for many improvements since placed here. Special arrangements are under way for the observance of Rally Day in the Union Church next Sunday. A choir of fourteen voices, assisted by the Gray Orchestra, will furnish the music, and it is expected that solos will be rendered by local talent.

BURFETTED WITH CEREMONIAL

LONDON, Sept. 24.—Herbert Rendell, after 30 years given to directing the court ceremonials in London, has retired. He is the author of a book containing 300 descriptions of the correct dresses to be worn at ceremonial occasions.

The Man in the Moon SAYS:-

AS I grow older I gradually feel myself getting beyond the stage at which life insurance men pester me to death.

THERE'S as much deceit in some folks as there is in others, if not more, says Jake, with apologies to David Harum.

IT'S better to borrow money from a pessimist than an optimist, because the pessimist never expects to get it back whereas the optimist will go on dunning you even though you have made up your mind never to repay it.

FOREST fires do not seem to have been bothering so far this autumn.

MR. Smith is boss at the office. His clerks come and go at his nod. But when he's at home it never enters his dome. To do anything else there but plod.

He can check up the work of his stenog.

He can tell all the staff they are wrong. But with office work done His trouble's begun. For at home they just tag him along.

DOWN in Cobourg, Ontario, a prize is being offered at the fair to the oldest lady on the grounds wearing bobbed hair. It is a pretty safe bet that there will be no entries.

ANOTHER thing that comes from down east is news of a new kind of potato that eliminates the need of digging. If they were ready cooked some of the boarders would bless the gods.

BUILDING A ROAD AMONG THE CLOUDS

Five Miles Completed This Year in Jasper Park Toward Edith Cavell Glacier

JASPER, Sept. 24.—Five miles of the auto road from Jasper townsite to Lake Cavell and Cavell glacier, known as the "Cavell Highway," have been completed this season under the direction of parks engineer R. L. Black, despite the shortness of the season, poor weather, and many engineering difficulties.

When complete, this new scenic road will be 17 miles long, and will carry the autoist to within three quarters of a mile of the foot of the Cavell glacier—the nearest point which can be reached by auto, to any glacier in the Rockies, the next nearest being the three miles to be covered on foot from the closest auto point to the foot of the glacier at Louise.

As an idea of the elevation of this road, it is stated that on the five miles now completed, an elevation of 5,500 feet has been reached, while the road will eventually climb to 5,800 feet among the clouds, forming one of the most beautiful mountain roads ever made.

While the first few miles of the road present no difficulties the balance offers many engineering problems, there being large boulders to be dealt with, lots of clay which in wet weather is extremely hard to work over, and many steep side hills where the road runs along the edge of the mountains.

ICEBERG THAT WAS WATER-LOGGED ON THE NEWFOUNDLAND SHORE

Explorer MacMillan Tells of Seeing it at Bottom and Losing Bet

WISCASSET, Me., Sept. 24.—Do icebergs ever sink? While it is the general impression that an iceberg will stay afloat, a local friend of Captain Donald B. MacMillan tells how a Newfoundland fisherman almost convinced the famous Arctic explorer that icebergs drifting from the far north finally become water logged and, with much bubbling, disappear below the surface.

The explorer insisted that ice, whether it be frozen in the shape of a great berg, or just a plain cake, will always float, but the fisherman was equally insistent

that he had not only watched the bergs go under, but he had actually seen them at the bottom. MacMillan saw that further argument was useless and demanded proof.

This was what the fisherman had been looking for, but first he wanted to cast a little official light on the matter by making it the subject of a wager. MacMillan finally agreed that he would stand treat if the other would point out a real honest iceberg, in a place where ice is never found, at the bottom of the sea.

A little sail boat was by the shore and the explorer was invited to step inside. The wind took the sail and, in a short time, the voyagers were several miles out from land. "Now then," said the fisherman, "look down there and tell me what you see."

MacMillan peered over the edge and sure enough he saw an iceberg resting solidly on the bottom. The fisherman grinned triumphantly as they headed the boat back to shore. MacMillan said the wager like a sportsman, but did not have the heart to say that in the center of the ice he had seen a boulder weighing many tons.

Ten Years Ago in Prince Rupert

September 24, 1914.

Their work on the Grand Trunk Pacific Railway being nearly completed now, Foley, Welch & Stewart are gathering together their extensive equipment and shipping it south to Prince George where it will be used on the Pacific Great Eastern Railway. Everything will be cleared up around Hazelton within a day or so but there is still a good deal at Prince Rupert and east of New Hazelton.

Carl Anderson, who lost his eyesight about eighteen months ago through a premature blast on the waterfront, has opened up a cigar stand at the corner of Second Avenue and Seventh St. The site is furnished free by Peter Black who allows Anderson the use of the corner as long as he does not need it.

Miss E. B. Burpee and Miss Amy Howard, Vancouver nurses, have volunteered for overseas service with the Canadian Army.

SUN STILL WORRIES ABOUT PRINCE RUPERT

Compares Position of Vancouver With Envious One of This City

With adequate cabinet representation, Vancouver would not have to fight, threaten and cajole Victoria into protecting watersheds and instituting necessary municipal reforms, says the Vancouver Sun.

Cabinet ministers are elected to look after the affairs of a certain department, but primarily to look after the interests of the constituency from which they derive their mandate.

Today, Prince Rupert with 6,000 population has two cabinet ministers ministering to its needs; Greater Vancouver with a quarter of a million people—half the population of the province—has not a single minister to even protect its resources from political aggression.

If representation by population is a recognized principle of government so far as the constitution of the House is concerned, it must also be a recognized principle so far as the constitution of the cabinet is concerned.

Vancouver does not ask, under this principle, for half the cabinet ministers. But it does ask for at least one minister and possibly two. It asks and demands relief from unfair treatment for which no self-respecting community should be required to stand.

AFTER THE HONEYMOON

"I wish to complain," said the bride haughtily, "about the flour you sold me. It was tough."

"Tough, ma'am?" asked the grocer. "Yes, tough. I made a pie with it, and my husband could hardly cut it."

Miss Lois Comer, formerly of Stewart, has commenced training for a nurse at the Vancouver General Hospital.

Do you love lovely chocolate bars? here is a lovely new one! Buy it for the office, Buy it for the car, Buy it in the evening, Buy it near and far. When you're buying choc'late, No matter where you are, You'll love to buy and buy and buy This newest Neilson Bar. You'll never get enough of it! 5¢

EGG MARKET IS SOARING

Fresh Stock Is Scarce — Vegetables Going Down and Fruit Up—Flour Steady

The egg market is soaring and fresh stock is scarce. Local fresh eggs are now selling from 75c to 85c per dozen with B.C. fresh retailing from 60c to 70c according to size.

The flour market is holding steady at present levels. Local dealers received word of an advance of 40 per barrel of 49 pound sacks on Saturday. Prospects for reduction in price of bread or flour are anything but favorable for the next six or twelve months.

While vegetables are inclined to ease in price with better supplies, fruits are now going up as the season nears its end.

Spanish onions are once more on the market. The quality is extra fancy and the usual keen demand is anticipated by local dealers. The opening price is 10c per pound.

Concord grapes, packed in 5-pound baskets at 75c each, are selling fast. The season is a short one and stocks are limited. This is possibly the low water mark for price on this line. A slight reduction is noted this week on Tokay and Malaga grapes which are now retailing at 20c per pound. The quality is better than at any time this season.

Retail prices prevailing locally today are as follows:

Table listing prices for Butter, Lard, Cheese, Eggs, and Vegetables. Includes items like Brookfield, Shamrock and Woodland, Pure Compound, Pure Bulk Lard, Ontario solids, Stilton, Kraft, Wisconsin Brick, Swiss Loaf, Napoleon Limberger, Roquefort, Edam, Alberta, Fresh Seconds, B.C. Fresh Pullet Extras, B.C. Fresh Extras, Local New Laid, Egg plant, Green Peppers, Potatoes, Woodcock.

Table listing prices for various food items including Potatoes, Kamloops, Walla Walla Onions, Spanish Onions, Beets, Carrots, Cabbages, Tomatoes, Green Tomatoes, Hubbard Squash, Vegetable Marrow, Pumpkin, Citron, Pickling Onions, Pickling Cucumbers, Red Cabbage, Celery, Apples, Peaches, Crabapples, Pears, Italian Prunes, Casaba Melons, Coconuts, Dried Fruits, Dates, Raisins, Prunes, Almonds, Walnuts, Chestnuts, Peanuts, Ground Almonds, Almond Paste, Sugar, Flour, Pastry Flour, Fish, Meats, and Feed.

TWENTY CENT HALIBUT TODAY

Price Highest Since Last March at Local Exchange

The continued scarcity of halibut landings caused prices to rise at the Fish Exchange this morning to the highest point they have reached since last March. Three American boats sold a total of 39,500 pounds receiving bids in excess of 20c and 9c. Three Canadian boats averaged 18c. and 8c. for 16,000 pounds.

Arrivals and sales were as follows:
American
Roald Amundsen, 10,000 pounds, and Anna J. 11,500 pounds, at 20.6c and 9c, to the Alin Fisheries.
Bonanza, 18,000 pounds, at 20.7c and 9c, to the Booth Fisheries-Canadian Co.
Canadian
W.T. 6,000 pounds, at 18.2c and 7c and Reveille, 7,000 pounds at 18c and 8c, to the Canadian Fish & Cold Storage Co.
Lillian M., 3,000 pounds at 18c and 8c, to the Royal Fish Co.
A total of 55,500 pounds was marketed.

HOTEL ARRIVALS

Prince Rupert
W. Berridge, Gorday, Mackay, J. A. Morris and R. C. Hawkes, Vancouver; F. L. Thompson and J. A. Williams, Stewart; E. Davis, Victoria; Al. Falconer, Alice Arm.
Central
F. J. Lancaster and I. C. Bardwell, Vancouver; J. Bishop, city.

With a fresh west wind behind her, C.N.R. steamer Prince John, Capt. Neil McLean, arrived in port at 1:15 this afternoon after making a speedy 8 1/2 hour run from Massett. The vessel had about 100 passengers including a large number of Orientals on their way south from Watun River cannery and Naden Harbor Whaling station.

Frank Hicks, the Port Clements storekeeper, arrived in the city on the Prince John this afternoon.

Howard Whittaker, accountant of the Watun river cannery, arrived on the Prince John this afternoon from the Islands on his way to Vancouver.

Mrs. Alfred Adams and children arrived from Massett on the Prince John this afternoon. The children will be taken to Coqualeetza Institute by Mr. Adams who is already in the city.

G. Goldsmith and D. Kennedy, contractors, who have been building wharves on the Queen Charlotte Islands, arrived on the Prince John this afternoon on their way south. They are accompanied by their wives.

Pat Allen, who conducted a moving picture show at Buckley Bay, and D. E. McKellar, the butcher from the same place, arrived from the Islands on the Prince John this afternoon. They are bound for Vancouver.

G. L. Thompson, formerly assayer at the Rocher de Boule mine, Hazelton, and now managing the Indian at Stewart, arrived in the city from the north on the Cardena last night and is registered at the Prince Rupert Hotel.

C. G. Anderson of Vancouver, one of the owners of the Massett Inlet Pole Co., Ltd., operations of which at Port Clements are superintended by A. B. Pleas, arrived from the Islands on the Prince John this afternoon. He is on his way to Vancouver.

For the purpose of purchasing a large stock of ladies' fur coats in the latest eastern fashions, W. Goldbloom, the local fur dealer, left on the steamer Cardena last night for the south en route to New York, Boston and Chicago. Mr. Goldbloom will return to the city in about three weeks, and says he will be able to sell fur coats this fall at 25 per cent less than he has ever done before.

Miss Mary Hartin will arrive in the city on the Prince Rupert this afternoon to take a position on the Borden Street school teaching staff.

J. McDonald was brought in from Stewart last night by Provincial Constable J. A. Williams to undergo mental examination here.

Mrs. V. C. Graham with her little daughter Dorothy arrived on the Prince George Monday on a visit to her mother, Mrs. F. A. Graham, Borden Street.

Tea and sale of home cooking. Home of Mrs. A. E. Wright, Fifth Avenue East, Thursday afternoon September 25, for Anglican Church.

Al Falconer, the Alice Arm lumberman, reached the city from the north on the Cardena last night and is staying at the Prince Rupert Hotel.

Mr. and Mrs. Dan Jabour are sailing tomorrow night on the Prince Rupert bound for Los Angeles where they will holiday for a couple of months.

Miss Annie McLeod of the post office staff left on last night's train for Moricetown where she will spend a holiday. She also intends to visit Terrace.

DANCE in Boston Hall, Thursday, September 25 by Queen Mary Chapter I.O.G.E. Admission \$1.00. Dancing 9 p.m. sharp. Proceeds for Ridley Home Fund

Passengers booked to sail this evening on the Prince John for Skidegate include Mrs. E. Moore, Mrs. A. L. Richardson, Mr. and Mrs. A. Peters and Mrs. Neill.

Walter Holmes, linotype operator, who has been relieving D. McKordale at the Empire office, is leaving for Edmonton Thursday afternoon. While here he has been getting in some duck shooting.

Mr. and Mrs. J. H. Macey of Vancouver have arrived in the city and will reside in the Besmer Apartments. Mr. Macey, who is an extensive property owner in the city, will open a brokerage business. They were recently married in the south.

HAS NO FAITH IN CURRENCY BASIS OF GOLD SAYS LAWRENCE

LONDON, Sept. 23. — Great Britain digs gold in South Africa to pay her war debt to America, and America buries the precious metal again so that it will not interfere with the economic life of the United States, Pethick Lawrence, Labor member of Parliament, told an audience recently at the Independent Labor Party Summer School at Clough, ton, near Scarborough.

"It is almost comic," said Mr. Lawrence, "that we employ people to dig gold from under the earth and send it to those who bury it under the earth."
The speaker, who is one of the intellectuals of the British Labor movement, referred to the annual payment Great Britain makes to the United States in settlement of the enormous debt left over from the war. He said that events of the last decade had destroyed confidence in the gold basis, and that a paper basis for currency must be established.

ECZEMA You are not experimenting when you use Dr. Chase's Ointment for Eczema and Skin Irritation. It relieves at once and gradually heals the skin. Union steamer Cardena, Capt. A. E. Dickson, southbound from Stewart, Anyox and Alice Arm to Vancouver, was in port from 11:30 to 12:30 last night. The following took passage for the south on the vessel: Miss Helen Randal, R.N. for Bella Bella; Mr. and Mrs. J. W. Tibbits for Surf Inlet; James Lydden, Nels Norman, Mrs. Charles Taylor, T. Petroff and J. D. Sweeney for Vancouver; V. Peippo and C. Angelo for Alert Bay; G. Kelly for Swanson Bay.

ALICE ARM

A new ore vein containing high values in silver and gold has been located by Oscar Flint on the Fox group of claims situated at the headwaters of the Kitsault River.

Four hundred sacks of high grade ore from the Esperanza mine were shipped to the smelter this week. The crew working on the Esperanza will be increased in the near future.

Al Falconer is building a five room residence on Falls Creek Boulevard.

Oscar Gray is on a business trip to Seattle.

George Williscroft is here from Anyox superintending the closing down of the Granby logging camps.

Jack Hauber has left for Stewart where he expects to spend the winter.

Miss E. M. McCoy has returned from the Anyox Hospital where she spent several days receiving throat treatment.

PRINCE SEES MOOSE HUNTERS AND HEADS

Famous Guide Extends Invitation to Stop off and Hunt

SIOUX LOOKOUT, Ont., Sept. 23.—The Prince of Wales spent the second day of his westbound journey speeding through the land of the moose in northern Ontario. Half a dozen times throughout the afternoon the Prince could hear the three short whistles from the locomotive that warned unwary moose from the track. That the big game of the north country are plentiful this season was brought to the attention of His Royal Highness in impromptu fashion by the hunters themselves, when the special train of the Canadian National Railways stopped at Willet station near the north end of Lake Nipigon.

A party of twelve hunters from the United States just back from the hunt were waiting for eastern trains and the little station platform was crowded with moose heads ready crated for shipment.

Bill Bruce one of the famous guides of this region approached the observation end of the Prince's car, the 'Balmoral.' His Royal Highness, feeling the irresistible lure of the sportsman, rose from the tea table to have a glimpse at the nimrods with their guns and trophies. Mr. Bruce with a cheery salutation handed to the Prince a roll of birch bark on which was written an invitation to 'stop off and kill a moose with us.'

Hind Quarter

Meanwhile at the other end of the train a second hunter was placing in the baggage car a splendid hind quarter of moose freshly killed and unskinned for the Prince's table. The Prince's journey from New York has gone forward under ideal conditions of travel and the royal visitor has had an opportunity of seeing the glories of the Canadian forests in their early autumn time.

UNSOLICITED TESTIMONIALS
 Mrs. Smithers had decided to have the floor of her reception room polished, and accordingly she sent to a large firm asking them to put a man on the job as soon as possible.

When the polisher arrived his manner was far from energetic, and the anxious lady of the house was afraid he would not do the floor properly.
 "You know Mrs. Girton's house next door but one?" he said rather indignantly. "Well, I refer you to them. On the polished floor of the dining room five persons broke their legs last winter and a lady slipped clean down the staircase. I polished all their floors."—London Answers.

THROWN FROM CAR AT DEVIL'S ELBOW
 Aged Lady and Two Men Had Remarkable Escape From Death Between Burns Lake and Decker Lake

Three people had a remarkable escape from death on Friday morning when a government truck driven by Kenneth Warner took a drop of sixty feet over the embankment at the Devil's Elbow between Burns and Decker Lake, says the Burns Lake Observer.
 While making the inside turn Mrs. Hunt who had asked for a ride to town, fearing that she was slipping caught the driver's arm, the action jerked the wheel sufficiently to cause the car to jump over the edge. Mrs. Hunt, who is 74 years of age, was badly injured and was rushed to Francois Lake Hospital where, upon the arrival of Dr. Hankinson from Smithers, she was found to be suffering from contusions on the head, a broken arm and collar bone broken in two places, also internal injuries.
 Kenneth Warner's wrist was broken and he was badly cut and bruised. Jack McLean, the other occupant of the truck, was thrown clear when the machine rolled over and suffered only minor injuries and bruises.
 Clyde Hunt arrived here from Hazelton on Saturday to attend his mother and latest reports confirm a belief that she will recover.

Sport Chat

At the annual meeting of the Prince Rupert Badminton Club which is advertised for Friday evening the principle business will be the election of officers for the coming year and the deciding upon a hall in which to play. Several proposals have been made but it will be left to the annual meeting to make a final decision. The question of club dues will also be an important one. Last year the members were assessed two dollars a month but this year it is proposed to have a season fee payable before the member commences to play.

Badminton is rather an expensive game in that new shuttles have to be provided much more often than balls in a tennis game. Raquets are also expensive and being so light they break easily. Last year the Club provided the shuttles and each player provided his own raquet. It is probable that the same plan will be adopted this year. In some clubs each player provides his own shuttles but as they are awkward to carry, lockers are almost necessary if that is done. The main expenses of the club are rent, light and heat, shuttles, and janitor. Last year the boys did the janitor work but as most of it fell on two or three the probability is they will refuse to do it this year.

The local sporting fraternity will regret the departure of another of its valued members who leaves the city on Thursday night. This is J. W. Hamilton, better known as "Hammie," who is being transferred from the city in the service of the Royal Bank. For the past few seasons Hammie's services as a catcher have been much in demand with local baseball teams and he has always been counted upon as one of the city's steadiest and most reliable players. An unfortunate accident early in the season put Hammie in the hospital and he has been out of the game ever since. It is to be hoped that the new climate will quickly bring him back to his old time self again.

Vanderhoof is to have a big boxing tournament on the evening of September 29. The affair is being arranged by Cecil Hartley and will be held in the Community Hall. There will be six four-round bouts besides a feature exhibition between H. Fallon and Hartley. The program will include local talent entirely and the boys are training hard for the contest. Nightly they are working out and it is being productive of good physical results apart from the matter of preparation to give the public a good bill.

HERRING PRODUCTION IN ALASKA WAS HEAVY

SEATTLE, Sept. 23.—Arrivals of herring at Seattle from various Alaska points from August 5 to August 28, according to the most complete records available, were about 41,885 bbls., figured on a full-barrel basis. Of this, arrivals from Southeast Alaska were 10,230 half-barrels and 50 full-barrels; those from Prince William Sound, Kodiak Island and Cook Inlet, 10,641 half-barrels and 1,400 full barrels. Including some stock not previously accounted for, the season's production in Alaska up to the end of August was estimated at approximately 27,000 bbls. on a full barrel basis. This includes about 33,500 halves for Southeast Alaska, 11,700 halves for Prince William Sound; and 4,400 bbls. on a full barrel basis, covering both halves and fulls from Kodiak Island, Cook Inlet, etc.

CHINESE GIRLS ARE BEING EDUCATED IN PARTS OF COUNTRY

TECHOW, Shantung, Sept. 23.—An unprecedented desire for education for girls is being shown throughout the western districts of Shantung. For perhaps the last ten years there have been government girls' schools in a few of the cities of this region, but they have not been popular and the enrollments have not been large.
 Of late a distinct change has taken place. The villagers are clamoring for schools, and particularly for schools to impart

TERRACE NOTES

Mrs. R. L. McIntosh returned to Prince Rupert Monday.

Mrs. Perkins of Skeena City, who has been visiting Mrs. Jas. Richmond returned home Monday evening.

R. H. Harlow who has been in town on one of his regular business visits returned to Prince Rupert on Sunday.

Jack Couture, Oscar Gendron, Paul Brodie and Oscar Olander who were in town on business in connection with the sale of their mine, have returned to Rosswood, Katum Lake.

Mr. and Mrs. Jack Frost spent a few days at Katum Lake last week.

The Women's Auxiliary of the Anglican church met last week at the home of Mrs. Nash.

The funeral of Bessie Donald took place Saturday afternoon at 2.30. The funeral services were conducted by Rev. Rural Dean Marsh, assisted by Rev. W. J. Parsons. There were a number of beautiful floral decorations.

Mrs. R. Myrick left for Vancouver on Monday. Mrs. Myrick has spent the summer here with her husband, who is working on Terrace bridge.

Miss Marion Christie and Miss Ethel Christie left for Prince Rupert on Monday.

SMITHERS

A pleasant little gathering was held at the home of Jenny and Tony Miller, on Saturday, when a number of their small friends attended to celebrate their ninth birthday. Tony appreciates having a twin sister, especially on birthday celebrations.

Mr. and Mrs. R. W. Champion and daughter, who have resided in Winnipeg for the past year, have returned and again taken up residence in their former home on Alfred Street.

Miss M. Mulhall, matron of the Bulkley Valley District Hospital, has again taken up her duties, following a holiday of three weeks spent at her home in Vancouver.

Miss Nock, a member of the nursing staff during the absence of Miss Mulhall, is spending a few days in town with friends, awaiting the completion of the new Telkwa Nursing Home, of which she will have charge.

BURNS LAKE

Miss Betty Prosser of Francois Lake has gone to Prince Rupert to attend school, having been accompanied there by her mother, Mrs. R. D. Prosser, last week.

Robert Baird, inspector of municipalities, inspected the records of the village of Burns Lake last week.

Laurie Peterson has been appointed game warden for this district.

Dr. M. F. Lucas of Southbank has returned from a business trip to Vancouver.

Rev. J. McB. Millar, who has been working in the Ootsa Lake district under the Presbyterian Home Mission Board, has left for Eastern Canada where he will resume his studies.

FOUR CHILDREN ARE ALL DOING VERY WELL

ST. JOHN, N.B., Sept. 24.—The Mahaney quadruplet babies have completed eight months of existence. They have as a guest at their home their mother's mother, who has the rare distinction of being the grandmother of quadruplet babies. The babies are thriving splendidly and can now be seen by visitors. John, the only boy, has asserted his superiority by being the first to show teeth. Christine has him beaten as regards avoidupis, however, as she weighs 16 lbs. 5 1/2 ozs. John, 15 lbs. 8 1/4 ozs. Edna, 11 lbs. and an ounce. Edith, 9 lbs. 5 ozs.

J. L. Christie left on last night's train for Endako. He will visit various points along the railway line on business.

RADIO STATIC

By The Daily News Radio Expert.

Quite a few beginners in Radio, instead of making progress and getting out of the beginners class, have not even remained beginners but have lost interest in the sets they have purchased, thinking that a clear reception is "beyond the average beginner." They have read and heard about radio. They may have listened to radio dealers in some other town about how easy it is. The result is they purchase a good set, install it anyway at all, glance over the few instructions and then clamp on the headphones, expecting to hear Mars. After a night or two of endless twisting of knobs and dials, they give it up in disgust. It is beyond them.

It is much better and more satisfactory for the beginner, to start with the simpler set, become acquainted with its possibilities thoroughly, and learn how to tune in for the maximum results, and understand how to repair damage.

It is not easy to operate a five tube receiver and no novice can do it as it should be done, no matter who. It demands some knowledge and experience first. But once a radio fan, always a radio fan. And the listener-in who has mastered the principles of the simpler set thoroughly is expecting a better set always.

Of course, some dealers are themselves to blame in selling a large complicated receiver to a beginner and thus taking chances of losing a regular customer after the first sale. Moreover, some manufacturers do not give sufficient instructions for the operation of their sets. But thorough instructions which can be got, accompanied with illustrations, are quite intelligible to anyone. After reading a text-book on radio, the operation becomes much easier and more satisfactory. Knowledge applied brings results. Try it and see!

Aerials and Grounds

Insufficient attention to aerial and ground installation is often an unsuspected cause of trouble to the beginner. The aerial ought to be as high as possible, but not longer than 125 feet. There are two kinds, the inverted L and the T aerial and it is conceded that the inverted L is the better for receiving. But local conditions govern which ought to be used. The antenna or aerial may be supported by houses, trees, poles or any elevated object. Ordinary 10 or 12 gauge galvanized wire will serve the purpose admirably here for guys. But the aerial itself must be of copper wire. This can be bought at any radio store for about a cent a foot. The aerial of course ought to be well insulated. The lead in wire from the aerial to the set ought to be as direct and as short as possible. This wire ought to be of the same material as the aerial itself, and it is preferable that it come direct to the set without any outside support. Right through a hole in the window frame is a good way.

Ground connections are made in various ways. One way is to scrape clean the cold water pipe and affix a ground clamp lightly to it, thus ensuring a good connection. Or a deeply buried copper or iron plate in a damp spot serves well. In all

ENGLISHMEN COULD BE HAPPY IN AFRICA

So Thinks Man Who is Trying To Establish Communal Settlements There.

LONDON, Sept. 24.—Roland Bourne is endeavoring to create communal settlements in South Africa for Englishmen with small incomes who can no longer live in England in accordance with the standards to which they are accustomed. He says that England abounds in retired army and navy officers, and others with practically no capital but with small fixed incomes varying from \$1,500 to \$4,000 a year.

England has too forbidding a climate for such people, but in South Africa, on holdings of from two to five acres, they could be very happy.

SUCCESSFUL CONCERT BY LUTHER LEAGUE

Metropole Hall Was Filled Last Night—Fine Performance Given by Young People of St. Paul's Church

A large crowd which practically filled the Metropole Hall turned out last night for the concert given by the Luther League of St. Paul's Church. The program was one of exceptional merit and proved most entertaining. The proceeds are to go to the fund which the Luther League is raising in order to purchase hymn books for the congregation. The training had been in the hands of Mrs. P. E. Baisler to whom a good deal of credit goes for the various performances. Edward Baisler and Miss Agnes Ivarson were other members of the committee in charge.

The program was as follows:
Vocal solo, Mrs. J. Field.
Playlet "A Second Topsy" by Edna Unger and Viola Johnson.
Vocal solo, Miss Jones.
Reading by W. Burken.
Vocal solo, Mrs. L. O. Larsen.

cases a good heavy wire should come from the set to the ground connection.

Where insurance is carried, the underwriters demand a lightning arrester. This device simply provides a path to the ground for the electrical discharge, in case, although here the chances are few, lightning may strike your aerial.

To sum up, do not make your aerial too long, or you will be unable to receive on the shorter wave lengths. Make it as high as possible. Do not run it above or below live wires. Insulate it perfectly. Let your aerial point if possible in the direction you want to receive and never use a gas pipe for a ground. Attention to these points will solve seventy per cent of your trouble.

Note.—Our experts will be pleased to answer questions or inquiries from readers and to hear from others regarding results they receive on their sets.

TIMBER SALE X 6489.

There will be offered for Sale at Public Auction, at noon on the 9th day of October, 1924, in the office of the Forest Ranger at Burns Lake, B.C., the Licence X 6489, to cut 20,800 ties, on an area situated on the south shore of Francois Lake, at Lippincott Bay, Range 4, Coast District.

Two (2) years will be allowed for removal of timber.

Provided that any one unable to attend the auction in person may submit a sealed tender to be opened at the hour of auction and treated as one bid.

Further particulars of the Chief Forester, Victoria, B.C., or District Forester, Prince Rupert, B.C.

TIMBER SALE X 6425.

Sealed Tenders will be received by the Minister of Lands, at Victoria, not later than noon on the 11th day of September, 1924, for the purchase of Licence X 6425, to cut 117,000 lineal feet of Poles and Piling on Lots 1925 and 1933, situated about 3 1/2 miles and on other side of Skeena River from Hemo Station, Range 5, Coast Land District.

Two (2) years will be allowed for removal of timber of the property of the Chief Forester, Victoria, B.C., or District Forester, Prince Rupert, B.C.

NOTICE

Notice is hereby given that application will be made to the Legislative Assembly of the Province of British Columbia at the next Session thereof, for an Act making provision for the vesting of general property of the Presbyterian Church in Canada, the Methodist Church and the Congregational Churches of Canada, in the United Church of Canada; for the holding, use and administration of the property of congregations entering the union of the said churches to form the United Church of Canada; and for the holding of the property of congregations voting not to concur therein; for the trusts relating to general and congregational property; and generally for the carrying of the said union into effect.

Dated at Victoria, British Columbia, this 9th day of September, A.D. 1924.

CLEARHUE & STRATH,
1218 Langley Street, Victoria, B.C.
On behalf of the applicants.

Mother's prescription

JOHNNY is taking a prescription. His careful mother—the family health doctor—ordered it. Her daily ounce of prevention—Lifebuoy Soap—works wonders in combating disease.

Every day your children touch dirty objects and cover themselves with germ-laden dirt. Give them Lifebuoy—the health soap.

Lifebuoy protects

The rich creamy lather of Lifebuoy carries a wonderful health element deep down into every pore. The skin is completely purified, and cleansed—delightfully stimulated.

LIFEBUOY HEALTH SOAP

More than Soap—a Health Habit

The odour vanishes after use, but the protection remains.

LEVER BROTHERS LIMITED, TORONTO

BLUE RIBBON TEA

In comparing BLUE RIBBON with other packet teas, do not compare it with tea offered at the same price.

BLUE RIBBON claims to be the best in Canada regardless of price, and a teapot test will make good this claim.

man, Albert Anderson; Auntie Doleful, Ingre Isaacson; negro, Ralph Jorgensen; a young mother, Aleita Ivarson; book agent, Alfred Skattebol; Marie Mabel Ivarson; bad boy, Edna Unger; deaf woman, Lilly Ivarson; peddler, Herbert Frerichs.

Vocal solo, J. E. Davey.
Vocal duet, Mrs. Larsen and Miss Jones.

W. Vaughan Davies was accompanist of the evening.

Rev. P. E. Baisler, who presided, in the course of the concert, spoke of the general good work being done by the Luther League and bespoke especially the support of the young people in church endeavor. He also referred to the Sunday School which was making good progress and announced that last Sunday there had been an attendance of 59 children. He also announced that there would be a change in the Sunday School hours commencing next week from 2:30 to 12:30.

SECRECY IN STATES OVER NAVAL MATTERS

WASHINGTON, Sept. 23.—The United States navy has at last come around to the policy generally observed by European nations of strict secrecy concerning implements of national defense. The custom of a hundred years is being set aside in the case of the new mine laying submarine for which \$6,150,000 has been appropriated. Beyond the fact that her plans call for width of beam speed and cruising radius beyond anything known in that type, details of the new submersible are jealously guarded.

ELECTION IN N. OKANAGAN

Macdonald's Return Assured Says Report from Victoria at Close of Campaign

VERNON, Sept. 24.—North Okanagan campaign wound up last night in a blaze of oratory and indications today point to a heavy vote in the by-election caused by the elevation of Dr. K. C. Macdonald to the cabinet as provincial secretary. The Liberals claim Macdonald will get a majority of anywhere from 250 to 500. Conservatives claim the victory without talking about majority. The feeling on both sides is that there is a considerable vote that cannot be placed and the result may be close.

SPECIAL TO DAILY NEWS
VICTORIA, Sept. 24.—Word received here today is that Macdonald's victory is assured and it is only a question of how big a majority he will get. Betting is all for Macdonald with no takers. North Okanagan appreciates the honor due it in giving it a cabinet minister.

For Service—
Call Remington

What Remington Service Can Do for You

Do you want your typewriters kept always in tip-top working condition by means of our regular monthly inspection contract? Call Remington.

Do you want an expert repair-man to put a disabled machine in working order? Call Remington.

Do you want competent typists at a moment's notice? Call Remington.

Do you want, in a rush, the best quality of carbon paper, the finest of typewriter ribbons, or any of the score of little things needful to the typist? Call Remington.

The same spirit of initiative, the same foresight in providing for the public's needs, which prompted Remington fifty years ago to manufacture the world's first commercial typewriter, spur on the Remington organization of today.

"Leadership through service" being our watchword, how can we best serve you?

LOCAL MAN'S MOTHER IS DEAD IN VICTORIA

The death occurred in Victoria last night at 8.30 of Mrs. Sarah M. Bailey, mother of Arthur Bailey of this city.

The late Mrs. Bailey was one of the real pioneers of British Columbia. Born in Hobart, Tasmania, April 30, 1838, she came with her parents to California when she was 11 years of age crossing the Pacific on a 25-ton steamer belonging to her father. After living for several years at San Mateo, Cal., having been married in the meantime, she followed her husband in 1861 to the Yale district and in 1882 came to Victoria with her family.

Mrs. Bailey was predeceased by her husband but is survived, besides her own ten children, by 19 grand children and thirteen great grandchildren. Besides Mr. Bailey here, her family include Charles Bailey at Fort George, formerly inspector of pre-emptions; Hallett Bailey at Fairbanks, Alaska; two more sons at Ashcroft; and Mrs. John Fingal Smith of Cranbrook.

EDMONTON GIRL MISSING

EDMONTON, Sept. 23.—Police are searching for eighteen year old Margaret Girvan, daughter of the caretaker at the rifle range who has been missing for more than a week.

Miss Ethel Belding, who left the city recently has taken a position with Robert Simpson Co. and may decide to remain in Toronto. Her sister, Miss Bertha Belding, expects to return shortly to her home in England. They are sisters of Mrs. T. H. Johnson of this city.

IMPORTANT FISHERIES OF NEW BRUNSWICK ARE DESCRIBED IN BOOKLET

Province Ranks Third Among Provinces in Value of Catch With B.C. Leading

A series of publications on the individual provinces of Canada is being prepared and published by the department of the interior and so far two have appeared one of Nova Scotia and the other on New Brunswick. The latter which is just out contains interesting descriptions of the industries and other features of the province. Perhaps the most interesting here is the description of the fisheries which in part follows:
"New Brunswick ranks third among the provinces of the Dominion in the value of its fisheries, being exceeded only by British Columbia and Nova Scotia. The value of the fish and fish products marketed in 1922 was \$4,662,920 for sea fisheries and \$25,356 for inland fisheries.
"Some deep-sea fishing is carried on, but New Brunswick fishermen visit only the nearby banks in the gulf of St. Lawrence or around the Bay of Fundy. They use very small boats for this purpose, which are quite a contrast to the steam trawlers and fishing schooners used by Nova Scotians, New Englanders, and others on the larger banks farther out. Deepsea fishermen clean and pack their fish either in ice or salt. The varieties caught are cod, haddock, pollock, hake, eusk, and halibut.
"The inshore fisheries are by far the more important in New Brunswick. The method of fishing from boats is the same as on the banks but the large schooners are not required. The varieties caught are similar but include as well, mackerel, shad, herring, gaspereu, smelt, salmon, lobster, oysters, and quahogs, in all of which boats are employed.
"The catch is brought in "undressed," and is cleaned ashore,

71 YEARS IN ONE HOUSE
BROCKVILLE, Sept. 24.—To have lived in one house for 71 years, to have entered it as a bride, and then to see it demolished by fire, and later by workmen, has been the experience of Mrs. Allan Turner, who is 94. The house was built in 1812.

TIMBER SALE X 6464
Sealed Tenders will be received by the Minister of Lands not later than noon on the 18th day of September, 1924, for the purchase of Licence X 6464, to cut 200,000 lineal feet of spruce and 32,000 lineal feet of hemlock on an area situated on the south shore of Francois Lake, opposite Collymore, near 1. Coast District.

WEDDING BREAKFAST DURING A FLIGHT

LONDON, Sept. 24.—The first wedding breakfast in the air was enjoyed by John Sterling, a young Chicago engineer, and his bride, Miss Marguerite Ellis, of Bournemouth, from Croydon. Marrying at a West End registry office, they rushed to Croydon, where a special plane waited to take them to the Aquitania before she left Southampton for America.

In the saloon of the aeroplane the couple were surprised to find a miniature wedding cake at the head of a table which held a wedding breakfast for two. The wedding cake was made by the head chef of the Savoy Hotel for the couple.

SALES MANAGER OF BIG WHOLESALE FIRM PLEASSED WITH CITY

Of importance to local retailers is the visit this week to the city of H. W. Taylor, general sales manager of W. H. Malkin & Co., Ltd., Vancouver. Mr. Taylor, who arrived from the interior Monday night accompanied by F. V. Delcourt, the company's local representative, is on one of his periodical trips through the district, his last visit having been four years ago. Mr. Taylor is more than pleased with local conditions and, when he goes south Thursday night, he will be full of optimism for the northern country and Prince Rupert in particular.

Staff Sergeant and Mrs. Anderson are returning to Vancouver on the Prince Rupert tomorrow night. Sergeant Anderson has spent the summer here in connection with the aerial fisheries patrol.
