BRITISH MAKES DEMANDS FROM EGYPTIANS

POSSIBILITIES OF DEVELOPING POWER AT WOODWORTH LAKE DISCUSSED

Mailed Glove for Egypt Over Assassination of Sirdar Sir Lee Stack

Number of Demands by British Government includes Payment of Two and Half Million Dollars Indemnity

CAIRO, Nov. 22.—The British note handed to Seaglot Pasha, the Egyptian Premier, today demands a "proper apology" in connection with the killing by assassins of Major General Sir Lee Stack, the Sirdar, and an indemnity of half a million pounds. The note furthermore holds in reserve a revision of the conditions governing the retirement of British officials from Egypt and insists upon the retention of the British judicial and financial advisors.

The note also demands the prohibition of political demonstrations and the withdrawal of Egyptian officers and units from the Sudan, the Sudanese troops to come under control of the Sudan Government.

A proper funeral for General Stack is being held today, attended by British officials and foreign representatives.

AGAIN ARRESTED AFTER ESCAPING WESTBOUND TRAIN

REGINA, Nov. 22.—Henry Towers, who escaped from the train near Medicine Hat Wednesday, while being escorted to Vancouver, from Ottawa charged with theft of jewels valued at \$2,000 from a Vancouver actress, was arrested last night in Maple Creek district.

NEW BOAT FOR GEORGE FRITZ

Margaret I. Arrived From Vancouver Last Night and Will be Tied Up

Capt. George Fritz arrived here last evening from Vancouver bringing his new boat the Margaret I, which is to fish halibut out of this port. The vessel is 65 feet long with 16 foot beam and 8 feet moulded depth and is powered with an 80 horse power Scandia semi-diesel engine. She will replace the Thelma which was recently lost at sea.

Capt. Fritz says he will have to finish the boat here and will tie her up in readiness for the opening of the halibut season.

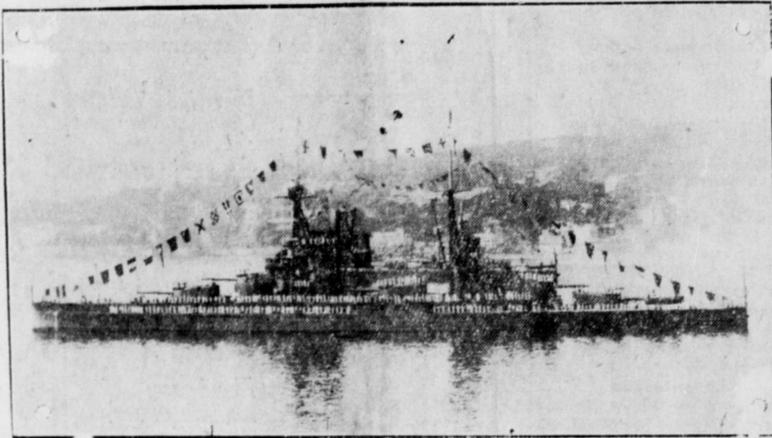

Oak Bay Sells All its Reverted Lands for Lump Sum Payable in Five Equal Annual Instalments

VICTORIA, Nov. 22.—Negotiations for the biggest real estate deal in Oak Bay since before the war were completed yesterday between the municipality of Oak Bay and a syndicate of local realtors. Under the deal Oak Bay sold 500 reverted lots to the syndicate, thus making itself the first municipality in Western Canada to clear up its reverted lands.

The lands are being taken over for improvement and resale. The price at which they are being purchased is a lump sum of \$75,000, the terms being \$15,000 cash by December 31 and the balance in four equal annual payments with interest at five per cent. The average price of the lots is \$150.

Most of the lots in Oak Bay are about fifty feet wide by 120

KING DEPLORES CAIRO MURDER

Says He Feels Bitterly the Indignity Inflicted Upon the Army by Act

LONDON, Nov. 22.—King George sent a message yesterday to Field Marshal Viscount Allenby, British High Commissioner in Egypt, as follows: "I am deeply grieved at the death of Sir Lee Stack and feel bitterly the indignity inflicted upon my army by this cruel murder of one of its most distinguished officers."

REQUIEM MASS SUNG FOR CARDINAL LOGUE

Many Catholic Dignitaries and Religious Orders Attending

ROME, Nov. 22.—Requiem mass for Cardinal Logue was sung in his titular church Santa Maria Della Pace yesterday, many Catholic dignitaries and representatives of Irish religious orders attending.

BRITISH BATTALION ORDERED TO EGYPT SAILING WEDNESDAY

VALETTA, Malta, Nov. 22.—The first Battalion of the East Lancashire Regiment has been suddenly ordered to Egypt and will sail on Wednesday.

Superintendent of Utilities Makes Report on City Power to Meeting of Ratepayers at City Hall Last Night

Enough Can be Developed at Woodworth to Supply Three Elevators, the Sawmill, and Twice Present Population

That the water in Woodworth Lake can be harnessed so as to furnish four times the power that is at present being produced at the city's hydro-electric plant and that the output of Woodworth Lake would take care of the power demands of three elevators, the Seal Cove sawmill and twice the city's present population and still leave water supply for 100,000 people were only two of the interesting statements made by Ernest Love, superintendent of utilities, in addressing the Prince Rupert Ratepayers' Association last night on the municipal power situation. Mr. Love's address was a very enlightening and reassuring one and was fully appreciated by those who heard it. After Mr. Love had spoken, Mayor Newton, who was also present, was called upon. He gave further assurance by stating that, even if the elevator plan matured and the Seal Cove mill were put in operation again, the city was in a position to meet the power demands of both at very short notice.

Would Overload Plant
In opening his address, Mr. Love explained that the present installation at the Shawatians Lake hydro-electric plant consisted of one machine capable of providing 1100 horse power. It was now carrying a maximum load of 850 horse power, this only when the dry dock pontoons were being operated. The average peak load was 650 horse power. Therefore, there was still 400 or 500 horse power available from the present plant. The sawmill, which it was being proposed to reopen, would require 500 horse power and the elevator 800 horse power or about 55 per cent of its maximum demand. With both the mill and elevator in operation, it was readily to be seen that the present plant would be greatly overloaded.

The utilities committee, Mr. Love said, had had the situation under advisement several times this year. It had been decided, however, not to risk putting in further installation until definite contracts for power had been obtained so that the city might be protected. The wisdom of this had been demonstrated in connection with the previous operation of the sawmill. It had cost the city \$15,000 to make the connection and all the city had got out of it was \$12,000. This had been a poor investment. It was necessary to get rockbound contracts.

Power Possibilities
Mr. Love referred to a report that had been made on Woodworth Lake possibilities in 1911 by Mr. Ross, the Seattle expert. At that time Mr. Ross had given assurance that the water in Woodworth Lake could produce 2,000 horse power continuously, a maximum of 6,000 horse power and water for 268,000 people. Last year Mr. Ross had again

ST. ANDREW'S WHIST DRIVE LAST EVENING

Enjoyable Affair Took Place in Second Avenue Club Rooms Last Night — Twelve Tables

The St. Andrew's Society held a whist drive last night in the club rooms on Second Avenue. There were twelve tables and the winners were: Ladies' first, Mrs. James Simpson; ladies' second, Mrs. R. Duncan; men's first, Mrs. Christiansen; men's second, Charles Taylor. After refreshments had been served a few square dances were enjoyed to the piano accompaniment played by Mrs. Bruce Love. William Reid, president of the St. Andrew's Society, was in charge and the ladies' committee consisted of Mrs. Eastman, Mrs. Duncan, Mrs. Ben Dalgarno and Mrs. Christiansen.

BALDWIN GOVERNMENT IS NOT IN FAVOR OF LIQUOR PROHIBITION

BIRMINGHAM, Nov. 22.—Colonel Amery, secretary of state for the colonies, said last night the Baldwin Government was not in favor of Prohibition and they are confirmed in their attitude by the experience of the United States. He said prohibition would not promote temperance and social problems were not solved by drastic measures which destroyed the freedom of the majority.

ONE ARRESTED FOR SHOOTING

Confession of Taxicab Driver Leads One of Assassins of Sirdar Into Jail

LONDON, Nov. 22.—A special despatch from Cairo says one of the alleged assassins of Stack was arrested after the confession of a taxicab driver, who had been following the shooting of the Sirdar.

EIGHTY BUSHELS OF OATS TO THE ACRE

BURNS LAKE, Nov. 22.—The Gowank ranch operated by J. M. Gowan thrashed oats a few days ago that went eighty bushels to the acre. This is said to be an excellent result for land in the district.

Sentence Passed on Two Men Assizes Yesterday by Judge; Macdonald Got Nine Months

Jack Macdonald, who was found guilty of assaulting Provincial Police Constable Arthur Collins while engaged in the execution of his duty at Ocean Falls on August 20, was sentenced yesterday afternoon by Mr. Justice Gregory at the Supreme Court Assizes to nine months imprisonment with hard labor at Okalla Prison Farm, the time commencing from the date of his arrest on August 23.

Fred Bremer, on whose case the jury had disagreed earlier in the day was again arraigned and charged with unlawfully assaulting Constable Collins while in the execution of his duties. To this charge he pleaded guilty and, on suggestion of H. Castillon, counsel for the defence, which was concurred in by E. F. Jones, counsel for the crown, was released on suspended sentence on his own recognizance in the sum of \$1,000.

The passing of these sentences concluded the criminal docket of the assizes and thereupon the civil cases were proceeded with. It is expected that the session will conclude today.

YEAR CLOSSES FOR HALIBUT

Sales Almost Same as For Last Year: November Good

The total halibut sales for the year just closed amount to approximately 29,154,000 lbs. as against 29,193,700 for the whole of last year. For the month of November the arrivals brought 2,314,200 lbs. as against 2,330,400 in the whole of November of last year. The Sea Maid, the last of the halibut fleet expected to arrive from the banks this year, brought 8,000 lbs. which sold this morning to the Cold Storage at 13.30c and 6c. The fish exchange will now close until February.

DAMAGE CASE TAKING TIME

Action of Sidener vs. Shirley Still Being Heard at Assizes This Afternoon

The damage action of R. L. Sidener of Burns Lake vs. Sheriff John Shirley of Prince Rupert started yesterday afternoon at the Supreme Court assizes and was still proceeding this afternoon. There is a good deal of documentary evidence and the case is taking longer than was expected. Alex. McB. Young of Prince George appears for the plaintiff and L. S. McGill of Smithers for the defendant.

Sidener claims wrongful seizure by the sheriff of goods and chattels belonging to him. The question of title is the main issue in the case. Plaintiff claims that he worked on the ranch of George Powell of Francois Lake for three years and received no money outside of board and expenses. Powell was leaving for Alberta and, having no ready cash, offered Sidener the stock and implements on the ranch in lieu of wages. This Sidener accepted and a bill of sale was made over to him by Lyster Mulvany, notary of Burns Lake. Powell still owed another party, Sam Long, on original payment for the ranch and the latter issued a writ against Powell. The seizure by the sheriff of the goods and chattels on the ranch followed in spite of several protests by Sidener who claimed the goods did not belong to Powell. The defence attempts to establish a defective bill of sale as from Powell to Sidener.

It is not expected the assizes will close until Monday, the divorce actions having yet to be heard. Mr. Justice Gregory leaves for Prince George Monday afternoon.

WHIST DRIVE AND SOCIAL WAS HELD

There was a good turnout at the whist drive and social held by the Sons and Daughters of England in the Boston Hall last night. At the dozen tables of whist, the following were prize-winners: ladies' first, Mrs. Fred Wernig; ladies' second, Mrs. Alex. McRae; men's first, F. Piper; men's second, William Rothwell. After cards, refreshments were served and Mrs. Wilton played piano selections. There were also a few dances.

DEAD BEFORE BODY CREMATED

Wife of Columbus Parson Did Not Commit Suicide as Inquest Found

COLUMBUS, Nov. 22.—The report of the chemist analyzing the lungs of Mrs. Annie Sheathey, wife of Rev. C. V. Sheathey, who was found practically cremated in the furnace of the parsonage home Monday, proves that the woman was dead before the body was placed in the furnace. The first report given out was that the woman committed suicide by crawling into the furnace and closing the door. A verdict of suicide was brought in at the inquest early in the week.

The funeral of the late Dorothy Gosnell will take place at 2 o'clock, Monday afternoon from B.C. Undertaker's Parlors.

DAILY EDITION

Saturday, Nov. 22, 1924.

Milk Supply For City Threatened.

The taking off of the daily train service, it is said, threatens the fresh milk supply of the city. Milk can be kept sweet for two days but not for three, according to milk authorities. It has been the habit of local milk dealers to get milk from outside points along the line of railway but now under the present schedule there is a long break from Thursday to Sunday.

What the milkmen are asking is that the railway company bring their time freight into the city on Saturday so as to fill the need on that day instead of having it arrive on Sunday as at present. This would make it possible to give the Prince Rupert people good fresh milk all the time. What the objections to this change may be we do not know, but we do know that it is very important the people, and especially the children of the city, should have fresh milk of the best quality and plenty of it. If it is possible to give it them, even at some little inconvenience it is important that it should be done.

Which Verse Of Anthem Is Best?

The Parent-Teachers' Association uses one version of the song "O Canada" and the Rotary Club uses another. At the Knights of Columbus banquet the P.-T. version was used, but the city schools and the Rotary Club use the other version. In order that local people may judge of the two and in order that they may express their opinions of them, we use them both herewith and ask for readers to let us know what they think. The first is the one used by the Parent-Teachers and the Canadian Clubs, the second by the city schools and the Rotary Club:

O CANADA!

O Canada, our heritage, our love, Thy worth we praise all other lands above. From sea to sea, throughout thy length, From pole to borderland. At Britain's side, whatever betide, Unflinchingly we'll stand. With heart we sing, "God Save the King," Guide thou the Empire wide, do we implore, And prosper Canada from shore to shore.

O Canada, our home our native land, True Patriot Love thou dost in us command. We see thee rising fair dear land, The true north strong and free, And stand on guard, O Canada We stand on guard for thee. O Canada! O Canada! O Canada, we stand on guard for thee O Canada we stand on guard for thee.

BATTALION ORDERS

By Lieut.-Col. J. W. Nicholls, Officer Commanding, 1st Batta. North B.C. Regiment (102nd Bn. C.E.F.) Parades - "A" company parade Monday evening, Nov. 24, at 8 p.m. for company instruction as per syllabus of training. Recruit training on Monday, 8 p.m. Sergt. Horrobin in charge. "B" company parade Wednesday evening, Nov. 26, at 8 p.m. for company instruction as per syllabus of training.

Signal Section - Signal section parade under Lieut. Barnsley, Tuesday evening, Nov. 25, at 8 p.m. Miniature Range - Range practice Thursday evening at 8 p.m. Special - All members are requested to attend meeting of the regiment at the Armoury on Monday evening, important business.

S. D. JOHNSTON, Major and Adj. Attd. 1st Bn. North B.C. Regt.

CONTRACTS OPENED FOR HOSPITAL FIRE ESCAPES

John Nelson's Bid Very Much Lower Than Either of Others

At the meeting of the hospital board last night tenders were opened for the fire protection provisions which have been asked for by the fire department of the city. They were as follows: Mitchell & Currie, 2,297. John S. Nelson, \$1,195. George Scott, \$2,985.50.

Scott's tender was the only one accompanied by a certified check as requested by the advertisement. It was felt, however, that all three firms were reputable and could be depended upon. The great difference between the tenders was the subject of remark and it was left for the executive committee to let the contract to the lowest tenderer provided he was ready to proceed and comply with the provisions of the contract.

SONS OF CANADA WON OVER ELKS

Grotto Beat Regiment in Intermediate Basketball League and Junior Colts Lost to Tiny Tims

In a splendid game which was as well played as it was tightly contested, the Sons of Canada last night defeated the Elks by a score of 28 to 23 and assumed the lead in the Senior Basketball League. It was a close match all the way and at half time the Sons of Canada were ahead 12 to 10. Ralph Smith made an efficient referee and the teams lined up as follows:

Elks - M. Budenich, A. Howard, W. Lambie, A. Smith, D. Balfour, and George Shaw.

Sons of Canada - R. B. Skinner, V. Menzies, H. Menzies, A. Mitchell, George Blythe and George Shenton.

Intermediate League

In the Intermediate League, the Grotto team won its first victory of the season and relegated its opponents, the boys of the Regiment, to the cellar by a score of 32 to 14. It was easy for the winners.

Dave Balfour and Lee Dell refereed, the teams taking the floor as follows:

Grotto - W. Gray, H. Berryman, W. Cavalier, George Hill, Dido Gurvich, and V. Meagher.

Regiment - W. Horrobin, S. Bazett-Jones, C. McKeown, Albert Palmer, H. Floyd, T. Boulter and A. Cadwallader.

Junior League

The opening Junior League game was played between the Colts and Tiny Tims, the latter winning by 15 to 9. There were four 10 minute periods and Mike Budenich refereed. The line-ups:

Colts - S. Gurvich, H. Macdonald, J. McNulty, D. Stalker, H. Heilbronner and F. Macdonald.

Tiny Tims - T. Katsuyama, P. Baisler, E. Dingwall, I. Katsuyama, C. Thompson and H. Walker.

There was a good attendance to witness the games and the fans were well satisfied.

League standings to date follow:

Table with columns: League, Team, W., L., Pts. Senior League: Sons of Canada (2, 0, 4), Elks (1, 1, 2), Colts (0, 2, 0). Intermediate League: Colts (2, 0, 4), Grotto (1, 1, 2), Regiment (0, 2, 0). Ladies' League: Maple Leafs (2, 0, 4), Gil's (0, 2, 0). Junior League: Tiny Tims (1, 0, 2), Colts (0, 1, 0).

KETCHIKAN LUMBER

The tug Chief and barge Trader were in from Ketchikan yesterday discharging 59,000 feet of spruce lumber from Ketchikan for delivery to New York over the Canadian National Railways.

VALUE OF RADIO ON RAILWAYS ATTESTED

T. H. Johnson Tells of Entertainment Received When Going East; Many Points Visited

The value of radio as a means of entertainment while aboard the trains was testified to by T. H. Johnson to the Rotary Club at their luncheon Thursday afternoon, when he told of his visit East and of the way in which the modern invention relieved the tedium of the journey. On the journey outbound they sat in the smoking room and heard the results of the world series baseball games and in the evening after dinner listened to a delightful concert. When on other railways the absence of the radio was particularly noticed. Mr. Johnson complimented the railway management on being up to date in this respect.

Speaking of the Rotary lunches he had attended elsewhere, Mr. Johnson said they seldom had as good a spread as was given in Prince Rupert. He visited clubs at Ottawa and Chicago and at the former place heard mention of the shipment of Prince Rupert fish to the East by the Express Company.

At Boston Mr. Johnson watched the torchlight procession when 20,000 torches were carried amid the waving of banners, all with a view to aiding in the election of

Calvin Coolidge as president. The procession stretched as far as the eye could see and was a very imposing sight.

At Chicago Mr. Johnson watched a big football match at which 50,000 people were present. All the tickets had been sold but he managed to get the use of one that had been purchased by a person who was unable to attend owing to illness.

PRINCES SUPPORT CYRIL

COBURG, Germany, Nov. 21. - Grand Duke Cyril of Russia, who some time ago announced to the world that he considered himself the rightful heir to the throne of the Russian czars, has sent copies of his proclamation to the 16 Russian grand dukes who are above 21 years of age.

His "chancellery" now reports that 13 of the 16 princes have sent notes or letters, approving of his contention.

FASCINATION FOR MEN PROVES A CURSE IN "LILY OF THE DUST"

Pola Negri Seen in Great Spectacular and Emotional Picture

The story is of a woman whose fascination for men is a curse to her rather than a weapon is told in "Lily of the Dust," at the Westholme tonight. Caught in the kind of life where everything pushes her along the easiest way, she tries again and again to get a new foothold and start afresh. But even her affections and kindnesses spread snares for her. It seems that to this woman, love has to be something soiled and bedraggled, until in the end, it is revealed to her that what might have been always may still be.

Perhaps the greatest scene in the whole picture is that where Pola attempts to convince the uncle that she is fitted to become Prael's wife. Under the influence of wine, she again becomes a reckless creature of the night. Thinking she is winning over the uncle, she resorts to every mad sense of entertainment, and when it is too late realizes that she has revealed her very soul to Prael and his uncle.

The Duel

The duel between Prael and the Colonel is a big thrill. Lily's (Pola Negri) love affairs with Prael is the most beautiful thing in her life which has always been drab and colorless. There are colorful cafe and banquet scenes - wild, house parties, etc. "Lily of the Dust" is one succession of big scenes.

The arrival on the "field of honor" of Lily who has heard of the duel, is a moment of tense drama. She reaches the place in time to find only Prael's cap and coat on the ground. She is left

in an agony of doubt as to which of the men was the victim. The picture shows how hopeless is her attempt to live in a respectable way. She is branded as the divorced wife of an army officer.

Final Scene

The final scene between Dehnecke and Lily shows the triumph of his better nature over that which is base. The fact that he has nearly lost Lily makes him realize what she really means in his life. There follows his offer of marriage - and the climax of the finest production, Pola Negri - ever been seen in.

Sealed Tenders addressed to the undersigned and endorsed for the "Construction and Equipment of one (1) Forty Foot Motor Launch" will be received up to Noon, November 29th, 1924.

Plans, specifications and form of tender may be obtained at the offices of the Chief Forester, Victoria, the District Forester, Courthouse, Vancouver, and the District Forester, Prince Rupert, on deposit of \$10.00 which will be refunded on the return of plans and specifications. The lowest or any tender not necessarily accepted.

G. B. NADEN, Deputy Minister of Lands.

HE SURE FELT MEAN BUT MENDED HIS WAYS

Said a well known local man the other day "Well, Sir, the meanest feeling I ever had come over me was last Christmas morning. I had passed up the Christmas card idea entirely and of course was deluged with all sorts of lovely Christmas greetings, from relatives and old friends. And there, I hadn't sent out a single one. I thought that if everyone had been as selfish as I, a lot of real joy would have been lost. I determined to see that nothing of the sort happened this Christmas. I am going to dispense sunshine on my "glad morning" as well as "good night." Your private greeting card will be selected at Rose, Cowan & Latta's, Fourth St., from our wide range at moderate prices and cards will be printed on day of order. Phone 234.

Here is the whole story of the Fruit Treatment for Rheumatism, told by a gentleman who suffered five years with this terrible affliction.

Mr. James Dobson, of Bronte, Ont. says: "The Rheumatism was in my right hip and shoulder; the pain was almost unendurable. After six months' Fruit Treatment with "Fruit-a-lives", I was completely relieved and am now in first class health."

It is a fact—proven by thousands of cases—that "Fruit-a-lives", the Fruit Treatment, absolutely relieves Rheumatism, Pain in the Back, Neuralgia, chronic Headaches due to stomach or liver troubles, and other forms of Kidney Disease.

25c. and 50c. a box—at all dealers or from Fruit-a-lives Limited, Ottawa, Ont.

L. Evitt, brother of Ald. C. V. Evitt, who has been visiting in the city for the past few days, is returning to his home at Glenanna near Smithers on tonight's train.

C.P.R. steamer Princess Mary, Capt. C. G. Staintey, southbound from Skagway to Vancouver, was in port from 7.30 to 9 o'clock last night. The vessel had a full list of passengers from the north.

The November Pacific Marine Review has an illustrated descriptive article on the drydocks of the coast in which there are three good pictures of the Prince Rupert dock. This is good publicity for the city.

H. Castillon of Vancouver, who was here as counsel at the Supreme Court assizes, returned south on the Princess Beatrice this afternoon. The same vessel also took south several of the witnesses in the Ocean Falls assault case.

L. J. Marren laid a complaint with the police against several boys whom he alleged threw rocks at the Auditorium on Sixth Avenue. No charge was laid in court, parents having undertaken to see that there would be no recurrence of the offence complained of. If it happens again, however, the case will be proceeded with.

At 4:25 this morning fire, caused by coal falling to the floor from a stove, broke out in the Beaver Bottling Works in the lane between Fraser Street and Third Avenue. A hole was burned through the floor about three feet square before the fire department was called. The alarm was sent in from the La Casse bakery, one of the bakers having seen the fire from the back door of the bakery.

C.P.R. steamer Princess Beatrice, Capt. R. Thompson, arrived at 3 o'clock this morning from the south and cleared for Vancouver and waypoints at 3 o'clock this afternoon. The vessel loaded canned salmon at the Tucks Inlet cannery. Passengers leaving for the south included: L. G. Saul and D. J. Bergin for Victoria; Mr. Beck, S. S. Perry, Mrs. H. Edwards, Miss F. Burk, E. Gavanagh, R. Hanson, Mr. Edwards, H. Castillon, J. McEachern, Mr. and Mrs. Haskett and Mr. and Mrs. Charles Edwards for Vancouver; A. Fouchalk, W. Owen and J. M. Hockin for Ocean Falls.

DR. ARBUTUS BUDD & HIS FAMOUS BEAUTY SHOP

Beauty Doctor Will Arrive in Town on Wednesday; Great Experiences in New York and Corsica

Dr. Arbutus Budd, the famous beauty doctor, will be in town on Wednesday and Thursday of next week under the auspices of B.P.O. Elks' Lodge No. 46 and will relate by song and story some of his great experiences.

The doctor first opened his Beauty Shop in New York and typical of Broadway are eight snappy musical numbers by bevy of beautiful girls in group and chorus. The doctor will demonstrate his method of beauty application and of dodging creditors. These, however, lent him more money to allow him to get to Corsica where a great estate was left to his ward.

Spanish singing and dancing numbers at the cabaret of the Corsican Inn where the doctor stayed will be reproduced, but the estate turns out to be a first class family feud of the kind for which Corsica is famous and the doctor is the only living heir yet to be killed. Although the undertaker is called in, Dr. Budd emerges gloriously through the efficacy of his wonderful beauty preparations. The tale of the doctor's troubles is just one long laugh. Don't you miss it next Wednesday.

NO CHANGE MADE IN NURSES' SALARIES

Present Rate of \$80 for Graduates and \$85 for Operating Nurse to Stand

The question of nurses' salaries came up for some discussion at the meeting of the hospital board last night, D. C. McRae presiding, and on the recommendation of the finance committee no change was made from the present rate.

It was pointed out by the committee that the Prince Rupert hospital was well in line with the average paid at other institutions, the rate here being \$80 for graduates and \$85 for the operating nurse. In addition to that they received board and room, a fine home and laundry free of charge. In Vancouver the rate paid was \$70 to \$80 in New Westminster night supervisors got \$75 and Ward supervisors \$80; at the Jubilee Hospital, Victoria supervisors were paid \$75 to \$90; at Vernon graduates got \$75 and at Prince George they were advertising for one at \$70. The only place from which they had heard where the rates were higher was at Calgary where night supervisors were paid \$114 and ward supervisors \$95. Apparently there were no other graduates than supervisors employed at many of the larger institutions, the pupil nurses doing everything.

A suggestion was made that five dollars might be added for the second year but instead of that it was decided that if advancement was asked for a nurse of outstanding ability it might be considered by the board. No change in the general rate would be made at present however.

 Commencing at a post planted at the south point of the small island known as Second Island in Atlin Lake, situated as above; thence northwest and on around this island following the shore line to the place of commencement; and containing two acres, more or less.
 Sept. 27, 1924.
PAUL LOUIS EGERT.

BRINGING UP FATHER

BASKETBALL OPENED AT ANYOX YESTERDAY

ANYOX, Nov. 22.—The basketball season will open in Anyox Friday next, November 28. Three leagues will start on that evening—Ladies', Senior, and Intermediate. In the Senior League three teams have entered, the Mine, Coke Plant and Smelter. There are four entries for Intermediate honors—Coke Plant, High School, Mine and Rovers. The ladies have also four teams entered—Bluebirds, Mine, Pioneers, and High School. Practices are being held daily and all are at present eager to go. There is plenty of enthusiasm among the players and there is no doubt that the fans will be served with a fine class of basketball before the winter season breaks.

SUPERIOR VALUE

When a very superior article can be had at the same price as an inferior article, the buyer has no hesitation in his choice. This should be your rule regarding reading for yourself and family. In addition to your local paper, you should read the Family Herald and Weekly Star of Montreal, by long odds the best weekly in Canada. It costs the same as other weeklies, not in the same class—two dollars a year—and includes a beautiful art calendar and a free opportunity to win as much as Five Thousand Dollars cash. Handsome and useful articles are given as rewards for new subscriptions. By subscribing to the Family Herald and Weekly Star of Montreal you will get the best value for your money obtainable anywhere.

BIRTHS

A son was born at the Prince Rupert General Hospital on November 21 to Mr. and Mrs. Howard White, 545 Colton Street.
 A daughter was born at the Prince Rupert General Hospital on November 22 to Mr. and Mrs. M. P. McCaffery, Fourth Avenue West.

BABY'S COLDS

Children's delicate digestions are easily disturbed by too much "dosing." Still, the little ones' cold troubles cannot be neglected.
 At the very first sign of croup, sore throat, or any other cold trouble, apply Vicks VapoRub over the throat and chest. There is nothing to swallow—you just rub it on. Colds go over night, croup is usually relieved in 15 minutes.

ORMES LIMITED

CITY SEWERS ARE DISCUSSED

Seventh Avenue Asking for System at Ratepayers Meeting; Areas Suggested

The question of sewers in the city is to be taken up with the city council by the Prince Rupert Ratepayers' Association.
 The subject was introduced at the meeting of the ratepayers last night by D. B. McDougall of Seventh Avenue West. The district in which he lived, Mr. McDougall said, was quite thickly populated and he felt could well afford to pay for a sewerage system of its own. There was a good drainage slope and no heavy rock. He thought it would not be expensive to put in a large septic tank which might serve ten blocks on Seventh and Eighth Avenues.
 C. F. Kemp thought the suggestion was a good one. Jack Judge did not approve of the community septic tank idea. If anything was to be done, he thought it should be along the line of permanent sewers. Arthur Brooksbank approved of the community septic tank proposal. It had already been tried out in the city.

Complete Units

At some length, Vice-President M. M. Stephens, who occupied the chair in the absence of President John Dybhavn who was indisposed, went into an account of the city's sewerage system. It was his opinion that, when it came to extension to the residential sections, the whole question should be taken up not by streets but by areas in complete units. In the early days, an ambitious system had been planned but, on account of the cost, it had never been carried out. With unit areas, the heavy cost of maintaining and constructing large mains might be avoided. The present system of grading streets instead of renewing plank roadways might allow the city to get at the project of putting an inexpensive sewer system before long. He felt that the council and the city engineer were alive to the situation. He doubted the wisdom of asking for sewer extensions at once in view of the present financial condition. It would do no harm, of course, to consult with the city on question. The hilly contour of the city, he felt, would eventually be convenient to the building of inexpensive sewer units. The matter would be discussed by the executive with a view to taking it up with the city.

City's Finances

Speaking of the municipal situation financially, Mr. Stephens approved of the scheme of mattress grading now being followed out. He was opposed to permanent grading of residential streets at this time. Unless there was a really miracle, the lots would not be able to stand the cost and the city would be wreck-

ed financially. As a matter of fact, he thought that it might be wise to charge some of the mattress grading up to the city as a whole. It was important that everything possible be done to prevent lots reverting to the city at tax sale. What applied to road construction would also apply to sewers. The council must cut its cloth according to the finances at hand and it should be given time to get on its feet. He thought that municipal progress was being made. It was up to the Association to assist the council though good, honest criticism would never hurt and would rather be of benefit.
 Mr. McDougall also brought up the question of disposal of ashes. He complained that he had difficulty in getting his removed.

SHIPWRECKED MEN ARE HOME

Capt. Dahl Disappointed at Reception at Massett but Meets with Friends
DRIFTED OUT TO SEA

Capt. Dahl and the other four members of the crew of the Thelma, which was wrecked off the north coast of Graham Island, complain bitterly of the treatment accorded them on their arrival in Massett in a dory recently. Apparently some of the residents of that place did not realize that they were really shipwrecked fishermen.
 According to the account by Capt. John Dahl, the engine of the Thelma stopped on November 2 and they drifted until November 9 out toward the open sea. Accordingly the captain and crew decided to leave her and take to the boats. They rowed 25 miles and then spent the night on the beach. They reached North Island in two and a half days and then proceeded to Naden Harbor where they were well received by Capt. Anderson, a man who had been shipwrecked himself twice and realized what it meant. He gave them his own bed and placed anything he had at their disposal. They remained there two days and then proceeded to Massett.
 At Massett however they were disappointed in their treatment and it was only at the police station they were able to get help. They slept in the cells and wired to Prince Rupert. Friends here wired to Dave Rotten to look after them, which he did and the visitors spent a pleasant time across the bridge among friends, among them being Peter Keye. They were loaned money and given everything they needed so that the time passed quickly and pleasantly until the arrival of Capt. Wick of the Johanna to fetch them home. His boat had been delayed by storms.
 Capt. Dahl says there is no place like home.

SEAPLANES MAY USE SALES
 LONDON, Nov. 21.—All-weather sea-planes with wings and tail to fly are possibilities of the future, according to Dr. Wilhelm Rohrbach who lectured recently before the Royal Society of Arts in London. He emphasized the safety of utility seaplanes carrying mails and passengers. This fact might open a new era for naval seaplanes, as it means they could sail at sea without using gasoline.

BABINE MINES SHOWING WELL

Burns Lake Paper Tells of Ore Being Found There
 At the Silver Island mine north of Burns Lake, No. 2 shaft has just penetrated a gray ore seam that is said to go 60,000 tons in silver, according to the Burns Lake Observer. The mine is said to be well advanced toward the production stage. Estimates are being discovered each week.
 At the Tatalpin mine, according to the same authority, a new shaft at 32 feet a lead has been driven four feet in one ore showing ruby silver.
 Gamel and Gomer, claims on the Tatalpin, owned by R. Gamel and Wm. Heid are now being worked following a discovery of silver glance.

STRUCK ORE AT DUNWELL MINE

Number Four Tunnel Bears Expectations and Shipping Will Begin Soon
 The Dunwell Mine at Stewart has struck the big ore body the number four level. The vein received from the mine to the effect that the vein had been encountered exactly as expected and that identically the same conditions existed as in number three tunnel. The latest strike confirms the fact that the vein is contained in a true fossil vein. This is indicated by the same geological formation at the level above.
 Robert Stewart, the manager of the company's shafts, says the vein is driving north along the vein.
 The information is most encouraging received from the camp. The management never had any doubt about striking of the ore in this level. Number four was planned as main operating tunnel and special care was taken in driving and ore sorting sheds and bunkers were established at mouth. The ore was encountered at a distance of 948 feet from the portal.
 This latest proving of the party carries with it the assurance of a deep mine. From number four level, the ore has been proved up for a perpendicular height of 1,000 feet or more. This assures easy and economical operation by stopping. It is announced that shipping will start just as soon as shipping commences.

WATERFRONT WHIFFS

Doings of the Mosquito Fleet which is the chief source of Prince Rupert's prosperity

The halibut close season is now in force and with the exception of one Canadian boat, the Seamaid, the American and Canadian halibut schooners have discharged their final catches for 1924. The American boats have gone south to their home ports and the majority of the boats comprising the local fleet are tied up for the winter. The last few days of fishing on the deep sea grounds were beset with extremely rough weather and many skippers report encountering some of the dirtiest seas in their long experience. With the close season, the fishermen have taken due advantage to indulge in rest and recreation. A large number of the boats, now out of the fishing service, have been pressed into hunting trips and wide fields are being explored in quest of wild quadrupeds and winged game. While Cow Bay is crowded with small boats the deep sea schooners are practically all tied up at the Dry Dock which offers well protected water.

The following American schooners, having unloaded their final 1924 catch, proceeded south this week: Scandia, Columbia, Radio Akulan, Resolute, Kanatak, Venus, North, Wireless, Atlantic, Majestic, Portlock, Polaris, Spray, Albatross, Tatoosh, Tordenskjold, Norland and Sitka. The Canadian schooners Lysekil and Tramp have been tied up for the winter.

New Yank Boats

The Olsen & Sundt Machine Works, Seattle, are constructing a 67-ft. long-line halibut schooner, the Zenith, for Iverson Bros. according to the Pacific Fisherman. She has a 16-ft. beam and 8-ft. depth, and is powered with a 90 h.p. Washington Estep diesel engine, with a gurdy and cable winch manufactured by the Olsen & Sundt shop. The Zenith will have her trial trip sometime in January and will come north for the opening of the halibut fishing season next February.

The same company is also starting work on a 72-ft. halibut boat for Ehler Bros. & Armstrong. She will have a 17-ft. beam with an 8-ft. depth and be equipped with a 90 h.p. Washington Estep diesel engine. Olsen & Sundt winches will be installed. This schooner will also fish on the northern banks upon the opening of the season in February.

Fish Business

From Monday to Friday 733,000 pounds of halibut has been marketed on the Fish Exchange. Americans were high at 15c and 6c and low at 13.2c and 5c. Can-

Real Mean

Another big story on the waterfront this week is about a Scotsman in the fishing game who lost a bride through his meanness. The couple were to be married and the bride-to-be wanted the marriage ceremony performed in the morning. To his Scotsman strongly objected and insisted that the wedding take place in the afternoon. The result was that neither of the contracting parties would compromise and the marriage never took place. Upon a friend asking him what the idea was in insisting upon the afternoon marriage the Scotsman replied: "Na Na! Afternoon fer me. Gin we were merrit then she wad a wed another meal at home."

Lance Indisposed

Lance Potterton, mechanical superintendent of the Booth Fisheries, is limping around like a one-legged horse, as the result of treading upon an upturned nail in the box making shop. The nail pierced the bone in his left foot necessitating medical attention. However, Lance is now able to get about and is keeping a watchful eye on the left-handed nail driving stunts.

Clam Hunters Busy

A number of the local fishing boats are putting in a remunerative close season period in clam hunting for the Millerd Clam Cannery. The latest boats to join the clam fleet are the Mayflower, Capt. Bob Thompson; the D.S.T., Capt. Jack Morrison and the White Lily, Capt. Geo. Belere. The power boat Viner, Capt. Jimmy Thomas, brought in 40 tons of clams this week for the cannery and over 1,100 cases of the delectable shell fish have already been shipped.

ALBERT HEAD MAN AND BOAT BOTH MISSING

Search Being Made for Paul Homer and Launch Sedgely

VICTORIA, Nov. 22.—Ten days ago Paul Homer, a surveyor resident at Albert Head, a suburb of this city, sailed from Alert Bay to go home in a gasoline cruiser. He has not shown up and his wife asks that search be made for the missing craft.

The Sedgely put into Alert Bay on the eighth of the month for repairs to the propeller which it is thought took two days.

The first fur arrivals of the season were landed in port this week by natives from Hartley Bay and the Naas river districts. The catches included some splendid specimens of marten and mink. The pelts were sold locally.

The Prince Rupert Boat House launch Myfaowy, Capt. Geff Lambly, accompanied by his brother Lorrin as engineer, left port on Tuesday morning with W. Goldbloom "the trappers friend," who is making a leisurely trip of the coast south of here in the interests of his fur business.

Beware of Deer

The schooner Alliance No. 1, skippered by Jim Kelly, has just returned from a four day hunting trip to Stephens Island. Jim was accompanied by George Cook and F. Low. Plenty of game and deer offered and the bag secured was all that could be desired. In fact Jim says that if you don't get the deer they will get you as the island is alive with them.

The permanent staffs of the Booth, Royal and Pacific Fisheries will be kept busy during the close halibut season on overhauling machinery and the making of fish boxes.

Capt. Khort laid the keel of his new 36-ft. deep sea salmon trolling boat this week. The boat is being built on Cow Bay beach.

HEALTH TALK ANYOX PEOPLE

Parent - Teachers' Association Hears Interesting Lecture

ANYOX, Nov. 22.—The regular meeting of the Anyox Parent-Teachers' Association was held in the New School on Tuesday evening, Mrs. L. McAllister presiding. Principal Robertson, of the public school, reported that arrangements had been made to hold the school concert on December 17. It was decided to co-operate with the Community League in the matter of bringing lecturers from outside points during the winter months. It was also decided to establish a lantern fund to procure necessary slides for use in the magic lantern. Fifty dollars was voted for this purpose. At the conclusion of the business session, the president called upon Dr. Simmons to address the meeting. The doctor gave a most interesting talk on dental hygiene. He dealt with the importance of keeping the mouth clean, which was more vital than immaculate necks and ears. It was the mother's duty to instill into the mind of the child the importance of keeping the teeth clean.

Another matter the doctor stressed was the diet of the mother during the pre-natal period, and which had an important bearing on the various portions of the child's body. A diet for the growing child was also advisable and the value of the uses of hard food, such as crusts, etc., was necessary in the strengthening of the teeth. Over-indulgences in candy was deprecated. Dealing with repairs, Dr. Simmons pointed out how nature had made provision for the repair of all parts of the body except the teeth. These had to be repaired with substances foreign to nature. Recent examinations proved that ninety-six per cent of the children of the world suffered from diseased teeth. This condition seriously affected the mental development of the child.

A vote of thanks was accorded the doctor after which Miss S. A. Leitch delighted the meeting with a pianoforte solo. Refreshments were served and the meeting concluded with the singing of the National Anthem.

ASTHMA HEAD and BRONCHIAL COLDS

SENTENCE PASSED ON TWO MEN ASSIZES YESTERDAY BY JUDGE — MACDONALD GOT NINE MONTHS.

(continued from page one)

acter and antecedents of accused and any extenuating circumstances there might be, Mr. Justice Gregory stated that he felt inclined to give effect to the sentence suggested.

Police are Friends

"I think possibly I myself might not have found you guilty on the evidence," continued His Lordship, addressing MacDonald as well, "though I might have been convinced that you were the guilty man and felt the same way about the man jointly charged with you. You men ought to realize that the police and the courts are your friends and not your enemies. It was not manly to hold Collins while MacDonald punched him. It was not giving him a fair show. No one would have complained more loudly than yourself at such treatment. However, I am going to let you out on suspended sentence on your own recognizance in the sum of \$1,000. Remember if you misbehave again, you may be sentenced to prison.

"Constable Collins deserves credit for the fearless way he went at the thing in this case. You chaps acted like cowards rather than like men. Perhaps you were so drunk that you forgot yourselves."

MacDonald's Sentence

When MacDonald came to the prisoner's dock for sentence to be passed on him, Mr. Castillon asked that he be sentenced to the time that he had been in prison. He was a young man and had already had a hard lesson. The ends of justice might not be served by now placing him in prison with hardened convicts.

"When was he arrested?" asked His Lordship.

"On August 23," replied Mr. Castillon.

"Why, that is my birthday," said His Lordship.

Continuing Mr. Justice Gregory said: "I cannot meet with your counsel's request and let you go the same as the other men for

they have already done as much time as you. You not only previously assaulted Constable Collins but you pounded him unmercifully. I think you were pretty drunk and you are apparently handy with your fists. You must remember, however, that you will not be allowed to beat your way through the world. You acted in a cowardly manner in striking when the policeman was down. You could have been sentenced to twenty years for one of the counts in the indictment again you. I do not believe you are bad at heart but apparently you have got off on the wrong foot. You must be punished, however, on account of the serious way in which you hurt the man. I sentence you to nine months with hard labor in Okalla prison from the day of your arrest, August 23."

His Lordship then excused all jurors from further attendance and the civil action of Sidener vs. Shirley forthwith commenced.

OVERWHELMING MAJORITY IN SILENT ELECTION

Prince Rupert Women Register Interesting Vote to Save Money and Lessen Work

It is a sign of the times that women should demand more authority in their homes. Not that they want all their own way but that when comfort and economy are at stake they are usually better judges than their husbands.

They are at home all day and know more about the things that go to make for the comfort of the home than the husbands who come home at night expecting everything to be just so. This is why so many Prince Rupert ladies insist on having Nanaimo-Wellington coal. They have made a study of coal and have discovered that Nanaimo-Wellington is far superior to its competitors. Very little lasts a long time. If drafts are shut off at night the fire will be there in the morning. No rock, very little ash and no slack are other points in favor of Nanaimo-Wellington.

This famous coal is sold only by Albert & McCaffery. They have their own team and trucks and assure prompt service. Order direct from them and be sure you get the only coal—Nanaimo-Wellington. Their phone numbers are 116 and 564.

Let the "CLARK" Kitchens help you.

A fine food for boys

POLA NEGRI

"Lily of the Dust"

The story of a woman who gave and had to fight for a fair exchange. Flashing, vibrant, lovely Pola was never so wonderful as in this photo-play, which contains a thrill, a laugh and a tear for anyone who has ever loved anybody. Daughter of a regiment; toast of a great city, dragged to the depths, the mistress of emotion runs the whole range of life and fights back for the one great love that can lift her to happiness. The fascinating love-drama of a girl who found she couldn't fight Fate. You have never seen a Pola like this one—gowned in silk, clad in rags, loving, fighting, hating. Gorgeous, glittering scenes and settings. Superb cast: Pola Negri, Ben Lyon, Noah Beery, Raymond Griffith, William J. Kelly, Jeanette Daudet and many others.

K-L-I-M

Spell it Backwards

M-I-L-K

What is KLIM?

Briefly it is milk in powdered form representing 86 per cent of the solids of milk with the 14 per cent moisture taken from it.

Why has the sale of KLIM been confined to one store in Prince Rupert?

Because KLIM is a highly perishable product and the manufacturers, by regulating the sale through one appointed agent, eliminate the danger of old stock being sold.

SUPERINTENDENT OF UTILITIES MAKES REPORT ON CITY POWER TO MEETING OF RATEPAYERS AT CITY HALL LAST NIGHT

(continued from page 1)

When asked for his views on Woodworth Lake and he had said that it would be perfectly safe to allow for 3,500 horse power at the generator providing the dam were raised.

It was difficult to determine, Mr. Love stated, what the ultimate power requirements of Prince Rupert might be. At a seaport such as this, the load as a rule ran greatly to power for the operation of elevators, mills, smelters and other industrial plants. The elevator, for instance, requiring 800 horse power, could be taken care of by another unit at Shawatlans similar to the present one.

As an auxiliary, the city had the dry dock plant which had double the production capacity of the Shawatlans Lake plant at present—namely 2,000 horse power. It could be used to advantage for general lighting but, as far as commercial supply was concerned, he was doubtful if low enough rates could be obtained. The minimum continuous load cost per horse power at the dry dock plant was estimated at 1.3c.

Ecstall River

Speaking of power development from such sources as the Ecstall River, Mr. Love said he did not care to go into them not having examined that at detail. It was apparent, however, that tower transmission line construction would be necessary. That would run into money fast. It would probably cost a million dollars to harness the Ecstall River and bring the power into the city.

"Many people seem to have the impression," continued Mr. Love, "that there is not sufficient power at Woodworth Lake. However, if you have 2,000 horse power there the year around, and 6,000 horse power nine months in the year, you may obtain four times the power you are getting there now which should quite meet the demand."

"We must have cheap electric current and lots of it to develop the city. The same operating staff at the Shawatlans Lake power house could handle 2, 3 or 4 machines where it is now handling one. The plant would be increased but not the operating cost and the extra revenue would be 'gravy.' A water system does not require a large staff because it is largely automatic. One operator can handle a large plant just as easily as a small one.

Use Dry Dock Power

Referring again to the elevator requirement, Mr. Love stated that it had been decided to reach an agreement with the operators before expending money on further installation. When the time came to supply the elevator with power, it would be necessary to use the dry dock as it would take a year to put in another unit at Shawatlans even after it had been decided to do so. The dry dock, in the meantime, could handily take care of the elevator provided sufficient notice was given so as to get in such equip-

ment as transformers, etc., that might be necessary. To increase the present production at Shawatlans Lake plant to full capacity, Mr. Love stated it would be necessary to raise the Woodworth Lake dam seventy feet to the 420 foot level and increase the pipe line 3 1-3 of that at present. "Whether the demands would thus be met, I cannot say but nevertheless you can see what raising the dam would do. My opinion is that there is easily 6,000 horse power there."

Instead of installing a single additional 1,000 machine at Shawatlans Lake, Mr. Love suggested that two machines of 500 horse power should be put in. It would then be possible to shut down one of these machines when it was not needed and thus conserve water.

Mr. Love expressed the opinion that there was more power in Woodworth Lake than the experts allowed for. They were always conservative in their estimates for they were referred to widely and might be checked up.

Busy on Sub-Station

In concluding his address, Mr. Love pointed out that he had been busy for some weeks on the new sub-station which had been just put in operation within the past couple of days and had not been able to prepare a speech. He stated that he would answer any questions that were put to him if it were possible for him to do so and ended by saying: "In order to develop this city to what it should be, there must be lots of power and cheap power. It must, therefore, be generated by water. Steam is out of the question."

H. M. Daggelt asked what it would cost to bring Shawatlans Lake plant to its full output and to install an additional machine. Mr. Love gave estimates of \$500,000 and \$250,000 respectively.

In answer to a question by Fred Lanza, Mr. Love replied that the present dam base at Woodworth Lake was in his opinion sufficiently large to carry a 30 foot raise. There were leaks in the dam at present but in his opinion they were not dangerous. They were due, he believed, to the cement not being brought in far enough to the solid rock sides. There were also leaks where the different sections of the dam had been bound.

A vote of thanks to Mr. Love was passed on motion of A. W. Edge and F. W. Hart. This was submitted to Mr. Love by Vice-president Stephens who described the address as "possibly the most valuable the association had ever heard. It was reassuring as far as the power situation was concerned."

Mayor Newton, speaking briefly, stated the city had arrangements well advanced whereby the sawmill could be supplied from the present city plant and the elevator from the dry dock in the meantime if it started operations in October as was anticipated. A by-law to authorize extensions at Shawatlans Lake would be put in January if an arrangement was reached in the meantime with Mr. Howe, the elevator designer, specifically stating what was required and agreeing on rates.
