SHIP CONTRACT IS LIKELY TO COME HERE

DAWSON TELLS PEOPLE HERE NOT TO WORRY ABOUT ELEVATOR QUESTION

Awaiting Settlement Details of Contract Construction of Ship

F. G. Dawson says was Conceded to Prince Rupert but Changes in Minor Matters Necessitated Delay.

"The contract for the construction of the Alaska steamer was conceded to Prince Rupert after the opening of the tenders at Montreal but owing to changes in the detail of the work no contract has yet been signed and until it is signed, it cannot be said definitely that the ship is to be built here." That was the situation as stated by F. G. Dawson to the Daily News this morning. He said, however, that he did not doubt for one moment but that the ship would be built here.

Mr. Dawson was quite enthusiastic over the prospects for this port and said local people did not need to worry over the elevator situation for it was well in hand. There was no opposition in the East that he could discover to building an elevator here. Everyone recognized that Prince Rupert was bound to be a grain shipping port.

While in the East Mr. Dawson attended meetings of the directors of Canadian National Railway in Montreal and also visited Ottawa where he discussed the local situation with the member, Fred Benwood, of the Stork and with ministers of the crown.

Becoming Prosperous

Mr. Dawson says that the whole west is becoming more prosperous. On the train on which he travelled there were three car loads of fine immigrants, men that looked as if they would make good settlers. This and the general improvement of business would make the west prosperous.

Discussing this subject further, Mr. Dawson expressed the opinion based on observation that parts of the country that did things for themselves were most prosperous. The Marine Provinces had always depended upon the government to do things for them and the result was that they got nowhere. The progress of a city or province depended on the activity of the people who lived there and who made it what it was. That was clearly shown in Ontario and Quebec where the people had plenty of initiative and also in Vancouver. Governments were bound to help those who helped themselves.

MAN PERISHED WHEN HUNTING

Was One of Crew of Schooner Duxbury Trading into Arctic Ocean

NOME, April 28.—One man of the crew of the schooner Duxbury, trading into the Arctic from San Francisco, perished in the storm on land but which member is unknown, according to word received here.

The Duxbury left here on August 23 but got only as far as Flaxland Island.

The man perished in a storm which came up while three of the members of the crew were hunting caribou.

SLEEPING SICKNESS RAPIDLY INCREASING IN BRITAIN TODAY

LONDON, April 28.—The rapid spread of sleeping sickness in Great Britain is causing considerable alarm. In January there were 75 cases, in February 217 and in March 468. The first three weeks of this month show a very great increase for there were then 649 cases reported.

NORTH ROUTE FOR AVIATORS

British Flyers Will Come This Way Unless Report is Adverse

Unless the report of Flight Lieutenant Earl McLeod, who is to make an inspection of the route this week, is very unfavorable it is almost certain that the British round the world aviators will go East from Prince Rupert after arriving from the north in June instead of going south to Vancouver and thence East. This is the announcement that was made at Vancouver at the end of the week.

Lieut. McLeod, after arriving at Prince Rupert, will visit Hazelton, Fort Fraser and Chip Lake north of Edmonton and will report on landing places and air harbors on the route. Between here and Edmonton, it is likely one stop will be made.

The route direct East from Prince Rupert is nearly 400 miles shorter than by going via Vancouver and southern B.C. and Alberta. The pass through the Rocky Mountains at Yellowhead is also lower and it is said that there are more lakes enroute to offer emergency landing places.

HORSES AND GOATS BURNED IN BARN

VANCOUVER, April 28.—Five horses, a herd of goats, a large quantity of hay and implements in a barn owned by M. Hickton, a farmer near Coquitlam, were destroyed in a fire, the loss from which amounted to \$1,000.

Officials Are Pleased With Completion of Contract on Canadian Scottish this City

Those who are in a position to know state that the work done on the Canadian Government Merchant Marine steamer Canadian Scottish, which is being taken off the pontoons at the Canadian National drydock here this afternoon, constitutes one of the finest ship repair jobs ever carried out in the province. All the work has been inspected by Albert Farrow, steamboat inspector, and W. E. Baillie, inspector for the G.G.M.M. They expressed themselves as very pleased indeed not only with the speed of the work but with the quality. This view was concurred in by W. A. Wallace, representative of the British Corporation, marine underwriters.

The job on the Scottish was completed within the forty days' time limit and credit for its successful carrying out goes to Glen McMillan, architect, and R. Jones, foreman at the yard.

The officers and crew of the Scottish arrived from the south on the Gardena last night and it was hoped this morning that she would get away to Vancouver before dark today. Capt. Forsen will be in command. The next voyage of the Scottish will be to Australia.

DIFFERENCES IN CABINET

Ramsay Macdonald Recalled to Preside During Discussion on Budget

LONDON, April 28.—Premier Macdonald cancelled some of his engagements to speak in Wales in order to preside at the meeting of the cabinet on the subject of the budget tomorrow morning. Differences have apparently arisen among ministers on the proposed abolition of the McKenna duties and in some quarters it is predicted that a crisis may arise over the question.

French Aviator Making Fine Record and it is Expected he May Overtake Stuart MacLaren

PARIS, April 28.—French aviation authorities are greatly pleased at a record breaking performance of Lieutenant P. Doisy, French aviator, who arrived at Aleppo, Syria, Saturday, in a flight from Paris to the Near East. He left Paris Thursday and in two days covered more than half the distance negotiated by Stuart MacLaren, the British globe flyer, in a month and a day.

It is hoped here that Doisy will overtake the Englishman before the end of April. He expects to make daily hops of two thousand metres without refueling.

The secret of Doisy's success in making long flights is the use of a newly invented carburetor which allows his motor to develop 400 horsepower on a minimum gasoline supply.

LAST WEEK OF PRIZE ESSAY COMPETITION

Military Present Among 25,000 Who Attended Services at Vancouver

VANCOUVER, April 28.—In the presence of 25,000 people of Greater Vancouver, Mayor Owen yesterday afternoon unveiled a cenotaph erected on Victory Square by the Vancouver citizens to the memory of Vancouver men and women who died in the Great War.

Following the dedicatory services and the unveiling ceremony hundreds of floral wreaths were placed at the base of the memorial.

Ex-servicemen and military officers and men took part in the proceedings.

The cenotaph is 30 feet high and was erected at a cost of \$15,000. It is similar in design to the cenotaph at Whitehall in London.

Every Boy Should Be Given A Chance.

Are the boys of Prince Rupert given the best possible chance in life? The question is a most difficult one to answer. It is stated by some that they are not. It is said they are exposed to an unusually large number of temptations, especially the temptation to drink alcoholics to excess. It is said that conditions here are not as favorable for the boy as they might be if the better class of people would unite to make them better.

The future of the country belongs to the boys and girls of today and what the world is to be depends largely on what the boys and girls are today. These young people want a chance to make good. They want opportunity and the elimination of unnecessary temptations to fall by the wayside.

Many Plans Are Worse Than Useless.

Many of the plans for helping boys and girls are worse than useless. Young people do not want to be helped. The way to develop character is to teach them to help themselves. Just how this is to be done no one can exactly say, but the example of parents counts a lot. Some boys do not have a chance because their parents are such poor specimens. Perhaps the best way to give the boys a chance is to show them rather than to tell them or to give them.

Tammany Stands For An Unsavory Mess.

Tammany Hall stands in the public mind of this country as an unsavory mess, a political machine of the worst kind, with a boss who is an autocrat and a crook. As a matter of fact Tammany is not habitually anything of the sort. It is simply a centre of political activity for the Democratic party in the city of New York and to some extent of the state. Little has been heard of its activities of late, since the day of Roosevelt.

In a city with an immense foreign population, where thousands are uneducated and unable to speak the language of the country, it is easy to understand how abuses would spring up in connection with any political organization. In the United States it is the duty of the party to look after its friends and this is done by the Tammany bosses when the party is in power. Yet Tammany is not any worse probably than the Republican organization.

All Parties Must Organize.

All political parties must organize if they wish to succeed. The political organization should be formed and continued for the benefit of the country through the party which it backs. In that way it becomes a beneficent organization and often it has great power for good. One of the most efficient organizations today and one that must cost an immense lot of somebody's money is that of the Provincial party. It is sending out literature and speakers and the costs are paid by those who contribute to the party funds. The danger is that these contributors will later expect favors from the government, just as the P.G.E. man, Rossiter, was looking for a fat job if the party went into power.

Fun from the Press.

London. Jarvis, a crook, reads of this in a newspaper. He is not only anxious to get possession of the diamond, but to rid himself of Ernest, who is his rival for Virginia's hand. He sends a radio message to Ernest in the name of Ernest's firm instructing him not to report at the firm's office until the morning following the ship's landing. Jarvis is certain that the intervening evening will see Ernest at the Bulivant home, the diamond with him.

The Boutonnierre

When Ernest reaches the Bulivant home, he is received by Virginia's maid, Susan. He asks her to help him to smarten up a bit before seeing Virginia. Susan gives him a gardenia, and he adds a leaf to complete the boutonniere, tying the two together with a hair which the maid pulls out of her head.

Later that evening Ernest is attacked in the dimly lighted library by Jarvis, who is masked. When Ernest falls unconscious, Jarvis takes the diamond from him. In the struggle the gardenia which Ernest wears falls upon the hearth. Jarvis discovers that the gardenia pinned to the lapel of his coat when he said good-night to Virginia is missing. Complications ensue but all comes out right in the end.

SHOWS THAT LOVE IS NO CLASS RESPECTER

"The Wanters" is Story of Girl Who Falls in Love With Employer

The simple, human story is again proving itself the screen superior of the big, rambling plot with a maze of complications. This time it is John M. Stahl's production of "The Wanters" that is being shown at the Westholme tonight.

There is something "different" about this picture, and credit for the refreshing newness and dramatic strength of the situations is largely due to the genius of Mr. Stahl, the director.

Without becoming a preach-

ment, the theme presents a strong lesson, related through the experiences of a girl of humble state who accepts a position as maid in a millionaire's home in order to be near the beautiful things she has always craved. A new world opens up for her when the good-looking young man of the family, a modern knight-errant in her estimation, falls in love with her and proposes marriage. But the narrow prejudices and selfish jealousies of the chronic "wanters" of the story take an active part in her romance and nearly succeed in ruining it before they are suddenly awakened to their cruel injustice of their treatment of the girl.

GRUMPY IS STORY OF INTRIGUE AND LOVE

Curious Complications in Picture Story at Westholme For Midweek

Andrew Bulivant, a retired criminal lawyer, spends his time mainly in living up to his title of "Grumpy." In his retirement of his country estate he favors the marriage of his granddaughter, Virginia, to Ernest Heron when Ernest shall have proven himself able to assume matrimonial responsibilities.

Ernest goes to South America for a diamond firm and on his return voyage carries a valuable gem to deliver to his firm in

STORY OF STRONG MAN IS HUMAN WRECKAGE

Widow of Wally Reid Takes Part in Play Showing Evils of Dope

Why did Mrs. Wallace Reid leave her house of mourning for the glare of the studio spotlight? Why did she break the usual rule of widow's retirement, to re-enter moving pictures?

The answer is this: Because she, of all women, has brought most forcibly to her the need of a moral awakening — another great reformation — a twentieth century crusade against a foe many times stronger than the Infidel of old.

She has made a supreme effort to collect the broken threads of her life and piece them into one fabric — to carry on a noble work. To set her in her present aspect of crusader, one would say she was a Gibraltar of stoicism. Yet it is sheer grit and determination that is keeping her sorrow-burdened faculties together.

Her devotion as a wife and mother, her talent as an actress, her convictions as a reformer — all these innate forces she has combined in building up the greatest achievement of her career. In "Human Wreckage," the great picture sermon which she has completed she has projected on the screen her conception of the problem which confronts the world.

"Human Wreckage" is not the story of a weakling. It is the story of a man, big both in nature and stature; a man bitterly opposed to the illegal traffic in narcotics; a leader, in fact, in the ranks of those who strive to wipe this evil from the face of the earth. His downfall coming through overwork, as it does in so many cases of similar nature, he fights the same fight that others have fought before him — for health and recovery. It is to these silent fighters, who, in solitary places, wage war against the unseen Beast, that Mrs. Reid pays tribute in "Human Wreckage."

The Perfect Interior finish!

An interesting story by Satin-Glo Sam-

WHEN the BAPCO chemist commenced his experiments and research work, he sought to produce a perfect interior finish for walls, woodwork and furniture. His successful result was — "Satin-Glo" — a satin-like finish that is easy to apply, dries quickly to a hard, smooth, washable surface. It does not fade out or change color.

"Satin-Glo" is finely ground; only mills which are used in manufacturing the finest grade enamels are used in the production of this new interior finish. Every batch is strained through a 250 mesh brass wire bolting cloth; every can is inspected.

"SATIN-GLO" SAVES

THE EXPENSE OF NEW FURNITURE

"SATIN-GLO" is so free of grit and foreign particles that it makes an ideal finish even for the highest grade furniture. Do not discard or sell your old shabby looking furniture. "Satin-Glo" will restore it to its former brightness; in many instances this perfect finish has far surpassed the original treatment on furniture like chairs, tables and chests of drawers, for color, tone and durability.

Make "Satin-Glo" your household renovator this Spring.

HIS SLUGGISH LIVER MADE HIM FEEL DROWSY AND TIRED ALL THE TIME

When your liver becomes sluggish and inactive, your whole health suffers, and the only way you can get back to feeling right is to make your liver right.

This you can do by the use of Mr. Milburn's Laxa-Liver Pills as they will stimulate the sluggish liver, clean away all waste and poisonous matter from the system, and prevent, as well as relieve, all complications arising from a liver that has become inactive.

Mr. E. Hazel, East Florenceville, N.B., writes: "I had been troubled with my liver and felt drowsy and tired all the time, and was unable to do my work with any comfort. I took your Milburn's Laxa-Liver Pills and today I am a different man, and would not be without them in the house."

Milburn's Laxa-Liver Pills are 25c a tablet at all dealers, or mailed direct on receipt of price by the T. Milburn Co. Limited, Toronto, Ont.

for ten years—W. E. Fisher, Mr. Melliar and Miss Ellett.

MEMBERS OF ODDFELLOWS AND REBEKAH LODGES AT CHURCH LAST EVENING

Oddfellows and Rebekahs to the number of over forty paraded last night to the Baptist Church where they attended divine service. The parade, which was marshalled by C. Balsdon, was from the lodge room over the Boston Grill.

There was an appropriate sermon by Rev. J. J. Smithson and a special musical program which included duets by Mrs. Howard and Miss Rogers of Vancouver and Miss Rogers and W. V. Vaughan Davies. There was a large congregation.

MEMBERS OF MOOSE LODGE HONOR DEAD AND ATTEND CHURCH

Yesterday afternoon in Hayner Bros' chapel, members of the local Moose Lodge attended a memorial service for deceased brethren. The ceremonies, which were ritualistic, were in charge of Fred Scadden, dictator of the lodge. Hymns were sung and a solo was rendered by Mrs. Field. Mrs. Alf. Christiansen was accompanist.

The deceased members of the local lodge are Capt. John L. Smith, Henry Cameron, Harry Fletcher and Isaac Swalwell.

In the evening some forty members of the lodge accompanied by several ladies of the Mooseheart Legion paraded to the Presbyterian Church where Rev. Dr. H. R. Grant delivered an appropriate sermon. There was special choral music and a solo was rendered by Mrs. R. A. Harlow. Joe Shaggard marshalled the parade.

Ten Years Ago in Prince Rupert

April 28, 1914.

Ed. N. Clarke, magazine writer, arrived here last night winning a wager from Capt. Ole Larsen, the Nome millionaire, that he could not hike from Spokane to Prince Rupert within sixty days. His actual time was 52 days. He started out from Spokane without a cent and made expenses enroute.

Ald. Montgomery was agitated at last night's council meeting over a private sewer contemplated for Fourth Avenue. He asked that the city apply for an injunction against the work and, in the course of a heated discussion, asked Mayor Newton to make City Solicitor Fred Peters keep quiet.

The Fair Board has decided to erect an Exhibition Building measuring 100 by 100 and costing \$5,000. A site on Acropolis Hill adjoining the recreation grounds has been selected.

JAPANESE AND RACIAL EQUALS

Nippon is Developing Vast Army and Has Overflowing Population.

We, and all sane men, breathe no more earnest, no more profound prayer, this side of salvation, than that fatal trouble may never come between Japan and the white races says J. L. Garvin in the London Observer. But while that remains, as it does, one of those big ifs of fate against which armaments are an insurance, it is absolutely as vital that Britain should hold Singapore as that the United States should hold Panama.

Japan is denied racial equality in the four other Continents which the whites control. The consequent inevitable dream and purpose of the most virile elements of the Japanese race is "Asia for the Asiatics," and chiefly for the Japanese. They are a far mightier Power than in 1914. Half a dozen years from now their military reorganization will give them over 3,000,000 of trained men. Their fleet in its own waters is always increasing its subsidiary facilities, and within the four corners of the Washington pact is far more powerful in real naval strength than the agreed ratio in battleships would suggest. For defensive purposes their position is impregnable. Their overflowing population gives a surplus of 700,000 persons a year. They are a great fighting and patriotic people. They are governed in all these matters by an Imperial sovereign and an able far-sighted military oligarchy. They do not propose to be content with any secondary position. They mean to assert their absolute equality with any white race or system whatever, and to enjoy as free and full a scope. It is not impossible that they may prove by patience, tenacity and discipline to be the Yellow Rome, and may create in some future generation a more populous, powerful, unassailable dominion than has ever yet existed. In any case, they are resolved to be either equal in all the world or dominant in Asia. We cannot blame them. The white races have forced that alternative upon the Japanese.

Ald. Montgomery was agitated at last night's council meeting over a private sewer contemplated for Fourth Avenue. He asked that the city apply for an injunction against the work and, in the course of a heated discussion, asked Mayor Newton to make City Solicitor Fred Peters keep quiet.

HON. CHARLES STEWART IN OPTIMISTIC VEIN

Tells Parliament That Prosperity is Dawning Under Business Government

Hon. Charles Stewart is one of the optimists of the Dominion cabinet. The other day he defended the government in the House of Commons concluding his speech as follows:

"Despite the lamentations of the Conservative party, telegrams are pouring in from all over Canada, congratulating the government on the splendid showing. Canada is coming back in fine shape under a business administration. The dawn of prosperity illuminates the business sky to armory by Friday evening. The great producing interests of the country have taken fresh courage. There is now a feeling conducted for the many and not

The Salvation Army

The mission of The Salvation Army is to the poor.

It is now at work in 79 countries with more than twenty thousand Officers.

In street meetings and halls, it appeals to the wandering to return to the narrow way.

It is engaged in a great preventive work among young people and children.

It rescues the perishing, cares for the dying, weeps o'er the erring, lifts up the fallen, tells them of Jesus.

Soldiers of The Army will call from door to door this year as usual for this appeal. Give quickly and generously or send your gift direct to

COMMISSIONER HENRY C. HODDER

317 CARLTON STREET, WINNIPEG

Announces the great Annual Self-Denial Effort of the organization for the week May 5 to May 11.

This week of Self-Denial will be preceded by a week of earnest prayer, and will be followed by a similar week of Self-Denial among Young People and Children.

In its Self-Denial appeal, The Salvation Army is asking this year for \$100,000. No other organization in the world can do more with so little. This earnest appeal is made to the people of Canada who understand the great and varied service which The Army renders. It is also contributed to by the Officers and Soldiers of The Army who, in addition to their self-sacrificial services all the year round, deny themselves in order to help this fund.

Quite a number of young people attended the dance at Usk Saturday night, among those present were Misses Grieg, Waldron and Moore and Messrs. Kirkaldy, Moore, Vanderlip and Brooks.

TELKWA

Easter visitors included Miss K. M. Morrow of Vanderhoof

Miss B. M. Robinson of Prince George, Miss Gladys McDonald of Hazelton and Miss Jean McNaught of Quick.

The Easter tea and at home given by the St. Stephens W.A. was a great social success.

Mrs. D. D. Munro has been the guest of Mrs. F. M. Dockrill at the Sierra Vista ranch for the past few days.

Mrs. W. Robertson who has been the nurse in charge at the Telkwa Nursing Home is leaving for England shortly. Prior to her departure, she entertained at cards in aid of the Nursing Home.

The Boy Scouts have returned from a three-day camp at Round Lake. Parents and interested friends were most helpful and generous in providing an abundance of provisions which made the outing all the more enjoyable for the boys.

Miss Sheila Hoops is visiting Toma Bourgon at Hubert, while Miss Dorothy Mapleton is at the Gilmour Ranch.

Road work is being done in and around Telkwa and it is doubtful if the roads were ever better than at present.

MANY COMING ON EXCURSIONS

Newspapermen Due to Arrive in June and Other Parties Following

The first of many large excursion parties to pass through Prince Rupert on the C.N.R. this year will be that of the Canadian Daily Newspapers' Association on the evening of June 1. Some 75 persons will arrive from the East and proceed south by the C.N.R. steamship to Vancouver to attend a convention of the Canadian Press Association and the Canadian Daily Newspaper Association. Arrangements have been made for them to have dinner at the Prince Rupert Hotel while here.

On June 14 about 125 persons will arrive by special train from the East on the Western Ontario Businessmen's Excursion organized by the London (Ont.) Free Press. They will go south.

The annual C.N.R. personally conducted tour party—consisting of some 200 people—will arrive by special train and go south on July 7. Before reaching Prince Rupert the train will make a stop at Sunnyside cannery to allow the tourists to see the workings there.

Among several school teachers' excursions to pass through here during the summer will be that of the Ontario School Teachers' Federation numbering 150 persons due on August 4.
