# MACLAREN ABANDONS HIS WORLD FLIGHT

## UNITED STATES AIRPLANE WRECKED MID OCEAN AND ABANDONED BY SHIP

### Two Airplanes Arrive Iceland Wade's Machine Drops into Sea and Later Abandoned by Steamer

HORNAFJORD, Iceland, Aug. 4.—Lowell Smith, the second United States flyer, arrived here from Kirkwall, yesterday, following the flight by Erik Nelson Saturday.

The third plane piloted by Lieut. Leigh Wade was forced down in the water half way between Kirkwall and Iceland. A trawler took the plane in tow.

Aboard U.S.S. Richmond, Aug. 4. — The airplane Boston piloted by Lieut. Leigh Wade in the world flight returning from Great Britain across the Atlantic, was abandoned early today. The Richmond's efforts to salvage the wrecked plane were abandoned when the machine which was filling in the rough sea capsized. Seeing the hopelessness of attempting further to save it, officers of the ship cut it adrift.

The vessel that found Wade and his mechanic, Staff Sergeant W. H. Ogden, was the British trawler Rugby of Grimsby, England. It states that when the Richmond attempted to hoist the machine out of the water on deck, the steel boom weighing a ton fell on the plane badly smashing it. This sent all hopes of the aviators crashing.

### British Flyer Abandons Flight For This Year; Returning on Thiepval

GORDOVA, Aug. 4.—The British round the world flight has been abandoned for this year. Squadron Leader A. S. C. Stuart MacLaren's amphibian machine was so seriously damaged in the forced landing near Kommanderski Island—between Kamchatka Peninsula and the Aleutian Islands—on Saturday that it cannot fly again. The season is so late and the point at which the accident occurred so remote that it has been decided it is impracticable to attempt to continue this year.

Squadron Leader MacLaren's announcement of the abandonment of his adventure at Nikolski (Kommanderski Island) was received here in a wireless message today. The message said that this was necessary because of the fact that the necessary spare parts to repair the airplane were not available.

### All Depends on Germany Now Says Premier Herriot of France Whether There is to be Peace

BERLIN, Aug. 4.—The German delegation to the inter-allied conference left for London this morning.

LONDON, Aug. 4.—The ultimate success of the inter-allied conference on reparations now depends upon the attitude of Germany, Premier Herriot of France said in a statement to the press today. "If the Germans are wise we shall have a good peace, not only for Europe but for the entire world. Everything now depends upon a proper understanding by Germany of the part she is to play. The allies have reached a complete understanding."

### Record Fish Sale on Exchange Today when 352,900 Pounds of Halibut was Sold at Good Prices

The biggest day's business of the year was recorded at the Fish Exchange this morning. Ten American schooners sold 277,500 pounds and twelve Canadians, 75,400 pounds. The catches per boat were but average, the weather on the banks of late not having been any too good. Prices were fairly high, considering the quantity offered, the best bid for American first class fish being 14.6c and for Canadian, 13c. Six and seven cents was paid for second class fish, one or two of the Canadian boats getting 7 1/2c. Arrivals and sales were as follows:

The Canadian team had just arrived from Australia where they had a successful tour.

### BIGGEST RUN SINCE 1919

**Sockeye Catch Falling Off a Little But Average For Week is Good**

This is the best season for sockeye salmon on the Skeena River since 1919 according to cannerymen. Last week the run was fully up to expectations but the fish were not as numerous as the previous week. One cannery showed an average per day of 276 fish to the boat for the week for all boats out and with high boat 604. The previous week high boat at the same cannery was 1351.

Fishing conditions during the past week have been generally good and continue to be so. The fish papers that Squadron Leader MacLaren received more assistance from the Canadian and United States governments, than wind that brings fine weather and plenty of fish.

**More Co-operation With Interior.**  
 Greater co-operation with interior points and an effort to get in close touch with the people of the Bulkley Valley was indicated in steps taken at the meeting of the Board of Trade Friday night when it was decided to appoint a committee to try to arrange for Prince Rupert people to visit the fair at Smithers and the barbecue at Telkwa. Also the move toward getting the game conservation board to come north was endorsed here and a general desire to do anything to aid the interior was manifested.

**Buying Coal While Business Is Quiet.**  
 The suggestion made by the Railway Association that people who are able to do so should make their purchases of coal just now instead of during the busy time in the autumn seems an excellent one. It would benefit the railway company, the coal companies and the local dealers. At the same time the consumer would get better service and the coal would go into the cellar dry. Here is a case where co-operation might be useful.

**Make Dinner To Sir Henry Big Event.**  
 The informal dinner given by the citizens of Prince Rupert through the Board of Trade to Sir Henry Thornton this week should be a big event. Tickets are on sale and all plans for the event have been perfected and it is possible that the accommodation may be limited owing to the difficulty in getting suitable accommodation for a large assembly here.

Many who heard Sir Henry here before will wish to hear him again and those who did not wish to be present. The affair is to be quite informal so that no one will be kept away because of not being able to conform.

**Good Time To Take Up Railway Matters.**  
 The present is a good time to take up with the visiting railwaymen any matters that may be of interest locally. Arrangements will be made to interview heads of departments and if there are any people in Prince Rupert who have suggestions to make they will have an opportunity to do so by getting in touch with officials of the Board of Trade.

While Sir Henry Thornton is not to be worried with any of the matters that may be brought up, the heads of departments will be here for the purpose of dealing with them and the time is quite opportune for suggestions.

**Will Flyers Reach Their Destination?**  
 Speculation is rife now as to whether any of the round the world flyers will reach their destination. It is clear that the Americans have the best chance and there seems a probability that one or more of the machines which passed through here just after leaving Seattle might get back to that city.

There is still a good deal of bad flying to be done, however, before any of the airmen can be said to have circled the globe and be classed as circumnavigators.

**Canadians Do Well In Australia.**  
 The Canadian football team did well in Australia when on a tour which has just closed. They were captained by a Victoria man Jimmy Adam, last year president of the Victoria Rotary Club. He is an experienced player and an able manager and that accounted to a large extent for the success of the team.

Mr. Adam is a man who recognizes the value of sport and he is extremely anxious that his young son shall grow up to be a football player. It will not be the fault of his father if he is not.

**BRINGING WIVES OF RESIDENTS TO CANADA**  
 Scheme Adopted by British Dominions Emigration Society; Advance Funds

MONTREAL, Aug. 4.—(Canadian Press).—A scheme whereby wives and children of British immigrants resident in Canadian cities will be brought to the Dominion at reduced cost has been evolved by the British Dominions Emigration Society. It was announced by Robert Culver, secretary of the society. The scheme does not include dependents of immigrants who have settled on the land, as these are covered by the Empire Settlement Act. Only married men resident in cities will be eligible to make application to the society for their wives and children to be brought out.

On such application being received, an agent of the society will satisfy himself as to the ability of the husband to support his family if brought to Canada

and as to the likelihood of both husband and wife becoming good Canadian citizens. The society will pay the cost of transporting the family to Canada and will care for them from the moment of starting until their arrival at destination, if satisfied on these points. It is not a free passage scheme, however, as the society will collect at least a portion of the passage money from the husband, on terms suitable to the latter.

The first party of wives and children to be brought out under this scheme will sail from Liverpool on August 22. They will number about 150.

Young Wife Discovers That Marriage is Not Gateway to Happiness

"This is rightly called the age of woman. To the girl of today life offers bewildering opportunities—a career, marriage and motherhood, or the life of the lily who toils and spins not. Hers the choice.

"But the choosing is only the overture to the conflict which spells drama. For while youth and beauty are hers, a woman must contend with fate—and circumstances—and the age-old story of the way of a man with a maid."

The foregoing is the captivating theme of "Lillies of the Field," a First National picture which is coming to the Westholme Wednesday.

Corinne Griffith has the greatest role of her remarkable career—that of a young wife who discovers that marriage is not the gateway to everlasting happiness. Heroically shouldering the disappointments and tragedies of life, her resistance slowly gives way and she is about to seek forgetfulness in a life of ease and gaiety when real love enters her life.

"Lillies of the Field" is a picture with a poignant appeal that has made it one of the outstanding successes of the year.

**POLITICAL SITUATION AND LA FOLLETTE**

WASHINGTON, Aug. 4.—The politicians are speculating on what will be the effect on the forthcoming campaign of the La Follette candidacy. He is a Republican but it is thought he and his followers will draw most from Democratic ranks and weaken that side most.

The fight is going to a strenuous one for the next month or two and the effect on business in this country will not be beneficial.

After having made a special trip to the Naas River with the freight, C.P.R. steamer Princess Beatrice, Capt. T. Cliffe, was in port yesterday morning sailing from Vancouver at 9 o'clock.

**REX BEACH STORY IN PICTURE TONIGHT**

Big Brother Deals With Story of Lad Who is Taken in Protection by Man

Rex Beach's latest novel, "Big Brother," which ran as a serial in "Hearst's International Magazine," has been produced for Paramount by Allan Dwan.

In commenting upon his picture, Jesse L. Lasky said in part: "I consider 'Big Brother' one of the greatest stories of the season. It was told to me by the author, before it began appearing in Hearst's magazine, and we lost no time in buying it. It is a story of New York gangdom and the work of the Big Brother movement in protecting and rescuing boys from evil surroundings in our big cities.

"Behind the writing of 'Big Brother' is an appealing human interest story. Mr. Beach was in Washington some time ago during a convention of the Big Brother organization. He became acquainted with several leaders of the movement and from what they told him of the

work of their organization he was inspired to write his novel. Neither the novel nor the picture which we have made is in any sense propaganda; it is a powerful, colorful story of dramatic action against a background of a philanthropic movement, which embraces the entire country and includes in its membership men from all walks of life.

"The selection of 'Big Brother' and of Allan Dwan as its director is in line with our policy of getting only the biggest and most popular stories and giving them to directors, who have already proved their worth. I expect that Mr. Dwan's production of 'Big Brother' will be one of the big successes of this season, and I feel that this is only another evidence of the big things we had in mind, when we adopted our policy of testing the worth of our pictures with the public before selling them to the exhibitor."

**PIONEER TRAILS IS WEEK-END OFFERING**

Settlement at Colonization Point Near Vanderhoof is Proving Successful

EDMONTON, Aug. 4.—The colony of Estonians, under the leadership of Sir John Pitka, that settled at Colonization Point last April have made good, and further settlers from that country will be brought over next spring, according to R. C. Lett, General Agent, Colonization Department of the C.N.R.

Sir John is the first colonization agent that has brought a party of settlers to this country and settled on the land with them himself. He has worked with them since they first came here, and he is now advising his compatriots that it is possible for them to make a good living from the land in Canada.

Sir John was made a Knight of the British Empire by King George in recognition of his services to the allied cause during the Great War. When Bolshevism swept over Russia he organized an army in Estonia of 1,200,500 to combat any invasion that might threaten from Russia.

### FASHIONS & FOIBLES by Shirley Sharon

Close-set frills of narrow lace, or of plain or point d'Esprit footing are one of the new trimmings of the Summer for lingerie or thin silk frocks.

Narrow frills of lace set close together to give the effect of a collar, and quite covering the shallow yoke and its kimono sleeves, make a type of lingerie frock that one sees frequently in the smart shops of Fifth Avenue. The trimming of the neck to take away the hard, plain edge of the bateau outline is one of the important notes of the new styles. Of course one still sees the collarless neck; in fact, this same frock is sometimes made of printed cotton voile or crêpe de Chine with the yoke of a plain material quite untrimmed except for a piping.

## Sport Chat

Sport card for the week as scheduled, is as follows:

- Monday—City League Baseball, Sons of Canada vs. Columbus Club.
- Tuesday—Gilhuly Cup, football, Callies vs. Sons of Canada. Wrestling for light heavyweight championship of Canada—Nels Jepson vs. Jack Burns, at Empress Theatre.
- Wednesday—Senior Lacrosse, Maple Leafs vs. Kaiens.
- Thursday—City League Baseball, Columbus Club vs. Sons of Canada.
- Friday—Gilhuly Cup, football, Great War Veterans vs. Sons of England. Trapshooting at Park Avenue.

Though the game was called at the fifth inning, with an open score, on account of darkness, there was enough baseball played in the opening match of the second half of the City League baseball schedule, Friday night, to indicate that the Sons of Canada and Columbus Club, who are to finish up the season are evenly balanced and well matched. This being the case, the games should be well patronized by fans. A good brand of play seems to be assured. The next game this evening will start sharp on time so that it may be finished before dark.

Arrangements are now well advanced for the Telkwa barbecue on Labor Day and the entire event gives promise of being even better than the many successes of past years. In addition to all the other well-known features of the day, there will be a parade of decorated automobiles this year. There will be both football and baseball games on the card and the horse-racing and broncho-busting will provide thrills to warm the hearts of those who delight in the prowess of horsemanship. The horse races should be well up to standard, and, in addition to the old favorites on the Telkwa turf, some new stock will be introduced. The barbecue lunch will be conducted on a bigger scale than before and the day will be wound up, as usual, with a big dance in the evening.

## NOVELIST DIES

BISHOPSBORNE, England, Aug. 4.—Joseph Conrad, 67 years of age, novelist, author of the Nigger of the Narcissus, died here Sunday.

Mrs. Preger's Pound Cake

Mrs. Preger calls attention to a point we do not remember mentioning. She says we never speak of the fact that cakes made with Pacific Milk keep better. Mrs. Preger makes a "Pound Cake" with Pacific Milk. It keeps indefinitely and does not lose its freshness of flavor.

Besides, she adds, "your milk gives a finer, more even grain or texture."

## RUPERT PEOPLE ARE HOLIDAYING AT OONA RIVER, PORCHER ISLAND

Haying in Progress and General Air of Prosperity Prevails at Settlement

A. O. Franks of the Daily News mechanical staff returned from Oona River, Porcher Island, yesterday after a two weeks holiday. Mrs. Franks and family are remaining for the present. Other Prince Rupert people at that place are Mrs. Murray Fuller and family, Mrs. Derry and family and Mrs. Skinner and family. Two other families are proposing to leave for there within a few days.

While Mr. Franks was there a party of fifteen climbed Pitt Mountain on Pitt Island, three thousand feet. There was still a little snow at the summit. There is also a lake there which has the appearance of being in the crater of an extinct volcano.

Everyone is busy haying at the settlement and the place is taking on a more prosperous appearance than formerly. Several new houses have been erected there and there are so far about a dozen milch cows kept by the residents.

Witness (calmly)—There's a hole in the fence.

**STEAMERS FOR ALASKA ROUTE**

American Official Says Vessel Being Constructed on Clyde, Scotland

The Grand Trunk Pacific will operate two, and possibly three, steamships between Prince Rupert and Juneau next season, the Chamber of Commerce was informed today by a letter from John Hooper, president of the Associated Tourist Societies, says the Juneau Empire. He said the Canadian company has one boat under construction at Clyde, Scotland.

Mr. Hooper's letter follows: "Juneau is absolutely assured of a new line of fast passenger, express, service, tourist steamships for 1925. The Grand Trunk Pacific S.S. Co., and the Canadian lines are to give you two fast boats (and possibly three later). One of these is now under construction in Clyde, Scotland.

"I have interviewed the authorities, have seen the tentative schedules now being prepared, and am glad that the new service will help Southeastern Alaska. Tides, nor anything else, will prevent their operation from Prince Rupert to Juneau on set hours and set days of arrival and departure. I knew this when I was at Juneau but was not at liberty to give out the information gained until I personally saw the tentative printed schedule of service when interviewing the steamship authorities.

**Here and There**

The value of Ontario's mineral production for the first quarter of the present year, as shown by a report of the Department of Mines, has increased \$2,333,000 over the corresponding quarter of last year, the total being \$11,575,131 and \$9,242,131 respectively. Silver was the only metal of importance to record decreased production during the period under review.

Among the passengers sailing on the Canadian Pacific liner "Mont-laurier" for England on July 8th, was E. W. Beatty, Chairman and President of the Canadian Pacific Railway. While in England, Mr. Beatty is scheduled to address the Associated Advertising Clubs of the World on July 17th on the subject of "Building an Empire with Advertising."

Editor Daily News:  
An article published in the Daily News of even date under the caption "Taxi Charges are Discussed" can easily be construed as reflecting on all Taxi companies operating in Prince Rupert, therefore I feel it incumbent upon myself to say a word in behalf of my own company.

All my drivers as well as myself are old timers in Prince Rupert and whatever success I have achieved is due to the fact that we have all worked together to conduct the business in a strictly legitimate manner. To fleece a few strangers now and then, would to say the least, be very bad business policy.

I have an established schedule of rates which is posted conspicuously on the wind shield of every one of my cars. It reads as follows:

From any of the docks to the central business district of the city, including all hotels, one, two or three persons \$1.00 for all each additional person 50c each.

Sight seeing trips \$1.00 per person per hour.  
Last year my company distributed a large quantity of the Board of Trade booklets. These booklets contained my schedule of rates. We have distributed so far about 200 of this year's booklets, these however do not give the Taxi rate. Had they done so, the public would have been protected against being over charged.

My company has always prided itself on treating its patrons in a fair and courteous manner and the evidence that the service we give is appreciated, is best expressed by the generous support given our company.

Good Program of Sports and Exciting Tug of War Featured Day

The occasion being favored by beautiful weather conditions and the attendance of some 200 people,

the Trades and Labor Council's annual picnic on Sunday to Digby Island was a decidedly successful and pleasurable event. The program of sports included races for men, women and children and the feature event was a tug-of-war between teams captained by P. Laporte and J. H. Meagher. The latter won the thrilling contest after a pull of five minutes.

Boats used for the transporting of the picnickers between town and the island were the Ingrid H., Capt. Fred Lindquist; Gibson, Capt. Charles Larkin, and Cape Spencer, Capt. Tom Dybbavn, The Ath, Capt. Len Miller, and Point Grey, Capt. Charles Wallace, were offered but it was not necessary to use them.

The committees of the day were as follows:

Transportation—Harvey Fraser, Gunnard Anderson and J. H. Meagher.

Landing—James Black, J. J. Little and W. F. Cameron.

Sports—E. W. Tucker, H. F. Grimwood, Charles Taylor, Jack Hatchford and Joe Hatchford.

Refreshments—J. J. Gillis, W. M. Brown and Alex. Hudema.

Finance and advertising—J. M. Campbell, F. Derry and S. D. Macdonald.

Excellent reports as to the hunting in the Caribou district of British Columbia are being received. F. W. Fridham and Fred Shaver recently returned from a month's sport in that district with an excellent specimen of grizzly bear weighing about 1,400 pounds. They saw moose, caribou, deer, black bear, pheasants and grouse, and consider the district a hunter's paradise.

Addressing the annual meeting of the Bond Dealers' Association of Canada at Toronto recently, the President declared that during the 12 months ending May 1st, \$507,917,000 worth of Canadian bonds had been distributed, this being by far the largest total issued in the Dominion in any post-war year. The most striking feature in this connection is that about 89 per cent was absorbed within the borders of Canada.

On June 18th Winnipeg, Man., celebrated the fiftieth anniversary of its incorporation. From a struggling frontier village of the 70s, Winnipeg has forged into the position of third largest city in the Dominion, with continental reputation as a railroad centre. It is the Gateway of the West and 100,000,000 bushels of prairie grain pass through it to the head of the lakes, whence it goes to the markets of the world.

Twenty-five officers and 200 men of the Royal Navy, from the special service squadron headed by H.M.S. Hood, enjoyed a trip through the Rockies over the Canadian Pacific lines while their ships were anchored at Vancouver recently. The sailors, who made a point, in true naval style, of seeing and doing everything, were enthusiastic over the scenery at such show-places as Banff and Lake Louise, which they declared the most beautiful they had seen in all their world cruise.

To add encouragement to the raising of high-class swine, which is being fostered by the governments of Manitoba, Saskatchewan and Alberta, the Canadian Pacific Railway is awarding a championship cup to the Boys' and Girls' Swine Clubs winning the club competitions in these provinces. The cups are for annual competition, but will become the property of the club if won for three years in succession. Medals will be awarded individual members. This year winning teams resident on the Company's lines will also be granted a free trip to the Royal stock show at Toronto.

Miss Helen Winstone, sister of Mrs. Newham, has it is understood, accepted the position of teacher on the Indian reserve at Gitlakdamix and will arrive to take up her duties about September 1.

Jack Studdy the operator here has gone out north with Messrs. Vetter and Teat to repair a cabin on the line to Alice Arm. The cabin was broken down from the weight of snow.

Robert Pearl only surviving son of Robert Pearl of Gitlakdamix died of consumption on July 13 and was buried from St. Bartholomew's Church on July 16. Deceased was a valued member of the Church Army having for years been leader of the band when out on parade. The few men left in the village all helped in the necessary work of preparing for the funeral.

AIYANSH, Aug. 4.—The annual meeting for the election of school trustees was held at the school house recently and Chas. Gordon, Mrs. Studdy and Mrs. Wynes were elected trustees. School Inspector Fraser set out to visit the district but got no further than Mill Bay. The mail boat meets the Venture every second week and Mr. Fraser came the wrong week.

There has been fire haying weather the last two weeks and most of the hay is now under cover.

Dominion Constable Newham, now stationed at Mill Bay, paid a short visit this week in the course of a routine inspection trip of the up-river reserves.

### INDIANS OBJECTED TO POLICE IN FORT MACKAY

Twin Monarchs Left To Themselves At Fort In Far North.

How a policeman and a Hudson Bay manager were left to themselves because the Indians objected to the presence of a policeman in their camp, is told in letters received from the far interior on the Athabasca River.

It seems that the natives of Fort Mackay have always been a law-abiding people, but the police department thought a representative of law and order should be maintained at that point. Accordingly a man was sent.

The Indians were hurt because they considered it a reflection on them. They intimidated the Indian agent that if the officer did not go they would. A meeting was held and the ultimatum placed before the agent. As he was unable to do anything the Indians decided to move.

Next morning all the household utensils were collected and piled into canoes, the cabins were closed permanently, and the whole village moved off in the direction of Lake Athabaska with the dogs ranging along the banks of the stream abreast of them.

Today the fort is a lonely spot.

### AID POLICE TO PROTECT GAME

Correspondent Suggests That All Sportsmen Should Co-operate in Work.

Dealing with a recent editorial upon the subject of illegal hunting, a correspondent suggests that in a large measure the duty of protecting the Kaien Island Game Sanctuary, in fact in protecting all game, devolves upon the public itself. He says:—"Kaien Island, in common with the whole coast, offers almost unsurpassable opportunities for the poacher and surely it is not expecting too much to ask those observing these quasi sportsmen at work to advise the proper authorities.

#### Immoderate Fishing

"The foregoing remarks apply equally to the angler who makes a point of advertising his enormous and quite illegal catches of fresh water fish. For instance, does he know that in British

Columbia the Federal fishery regulations only permit a catch of 25 trout or not less than eight inches in length per diem? In the early days of Prince Rupert it was possible to cross the harbor at any time and catch a mess of trout in McNichol Creek while now, thanks to the class of angler complained of, McNichol and many other local streams are entirely devoid of fish.

#### The Remedy.

"While it is quite true that the average citizen has a distaste for what is euphonically described as 'squealing,' is that same citizen quite fair in complaining of violations towards which he does so little to assist in suppressing? We think not. Elsewhere in the Province valuable aid to the authorities is given by Rod and Gun clubs, the members of which are in honor bound to report violations eying beneath their notice, and this seems to be no real reason why one of our existing organizations, perhaps the Prince Rupert Yacht Club, might not include Game and Fish protection amongst its objectives."

### BILL AGAINST SEDITION READ

Lord Danesfort Tells of Teachings in Red Sunday Schools of Old Country

LONDON, Aug. 4.—Moving the second reading of his bill to prevent seditious and blasphemous teaching to children under 16, in the House of Lords, Lord Danesfort quoted these two maxims from a Glasgow Communist Sunday School:

Thou shalt not be a patriot, for a patriot is an international blackguard.

Thou shalt teach revolution, for revolution means the abolition of the present political state and the end of capitalism.

In a London school reasons were given for the murder of the late Sir Henry Wilson, and the teacher, when asked, "Do you justify that murder?" said "Yes, and there will be many more like it."

After giving examples of "atrocious blasphemy," Lord Danesfort quoted the following extracts from the literature of the movement:

A little child shall lead them. Lead whom? Why, lead the capitalists to slaughter. What child? Why, the child of the worker.

Did Jesus come to earth from Heaven? No. Was his mother a virgin? No. Is the story about him true? No. Who was his father? Joseph, in the ordinary way.

#### Patriots

At a Communist school in London in 1922 the following definition was given of a patriot:

What is a patriot? A soldier, a sailor, a policeman, a boy scout, a girl guide. Never you become any of them. Soldiers are trained to murder men of their own class. We were made to murder poor peaceful Germans we had no grudge against.

The Archbishop of Canterbury said two or three years ago he came to the conclusion, after investigation, that these Communist schools were comparatively rare, but since then the movement had increased to a very large extent. One of the worst
