British Milling Interests Coming Into Western Canada It is Said

CALGARY, Jan. 8.—The recent announcement from London that British milling interests were preparing to spend six million dollars in the West to finish the partly completed plant of the Alberta Flour Mills Ltd. and in other grain handling facilities here, has direct relation to the news that the great Spiller concern will build a two million elevator in Vancouver this year. It is stated on good authority that it is none other than the powerful Spiller consolidation that is planning to invest such a large sum here. It represents capital to the amount of \$150,000,000 and includes some of the greatest milling companies in Great Britain.

#### SPECULATION ON CABINET

Ottawa Interested in Who Will Succeed Gouin as Minister of Justice

OTTAWA, Jan. 8.—Cabinet meets this afternoon to appoint a lieutenant-governor for Quebec and consider, among other things, the involved situation brought about consequent upon the resignation of Sir Lomer Gouin, minister of justice, and the illness of Rt. Hon. W. S. Fielding, minister of finance. From a political point of view, the situation within the government continues to grow increasingly interesting.

The impression is growing that Hon. Ernest Lapointe will relinquish the portfolio of marine and fisheries and assume the justice ministry as a permanent position. This will furnish the government with an opportunity to satisfy the strong desire in the East for the appointment of a minister of marine from the Maritime Provinces.

J. P. Elford of the Canadian Bank of Commerce staff, sailed for Vancouver on the Union steamer Gardena this afternoon. Mr. Elford has been transferred to the Vancouver branch of the bank.

The new park includes the whole of the two salt lakes and a good deal of land around them surveyed in such a manner as to make rectangular stretches including every arm of the lakes. The boundary lines average about 300 feet from the lake shore in each case and also include the outlet of the lakes and take in also the land where the wharf is now located. ### French People Are Satisfied.

The endorsement of Premier Poincare and the senate of France at the recent senatorial elections indicates that the French people are still satisfied with the course that is being pursued by the government of the European Republic in foreign policy more particularly with regard to action for return of German reparations and the occupation of the Ruhr—the principal problem now facing France and one in which all the powers are very actively interested. While there has been much discussion and considerable opposition from influential factors in European politics, the French people still seem to be uncompromisingly behind the course that is being followed. They continue to give no ground towards ameliorative measures.

### Little Interest in Civic Election.

There seems to be a slump this year in civic election interest. With the polling but nine days off, the topic is being very little discussed on the street. This lack of interest is regrettable in view of the fact that the council of 1924 will have much important work to do and many matters of policy to decide.

The incumbent mayor is again in the field and, up to the present, the chairman of his finance committee is the only rival he has for the chief magistracy. As the two have been distinctly divided during the past year on many matters of important policy, there will be a well marked distinction to assist the electors in naming their preferences. The same will also apply to the aldermanic candidates who should be, if they are not, sounded out on these matters.

Apparently the voters this year are going to record their franchise quietly and are not talking much about it. The candidates should, however, be getting ready to submit their respective cases for election.

### America Shows Some Appreciation.

Reading the newspapers gives the impression that there is a lack of appreciation in the United States of the heroic efforts which Great Britain is making and has made to bring order out of economic chaos in Europe. That is perhaps the case with the masses who have little opportunity of learning the facts and are more easily swayed by the insidious and disturbing propaganda of the radical elements who have no desire to see either social or economic order restored. But it does not reflect the opinions of the leading Americans of intellect or substance. The following tribute to the "sturdy old British Empire" is from an address before the British Empire Chamber of Commerce in New York, by Benjamin M. Anderson, economist of the Chase National Bank:

"The sturdy old British Empire has made and is making great sacrifices of present comfort for the sake of keeping the budget balanced, for the sake of meeting contracts, for the sake of winning her way back to the gold standard at the ratio of 81.86 to the pound. All honor to her for her courage, her clear vision, her steadfast adherence to the basic principle of sound money and sound finance. She is protecting her people's moral fibre today, at the same time that she is conserving their long-time economic interests. And she is setting a most impressive and effective example to her continental neighbors, giving heart and courage to those valiant statesmen of Continental Europe who are fighting against financial madness."

## ALTERATIONS IN MOVING BYLAW

City Council to Charge \$5 For Permit And Allow Five Days

The bylaw governing the moving of buildings on city streets was passed last night at the city council meeting. After discussion it was decided to charge \$5 for a permit to move a building, an additional \$30 to be deposited with the city engineer. The time for moving is not to exceed five days. In the event of the 5-day time limit being exceeded, \$30 per day, to be charged. The council considered that the matter of extension of the time limit for moving a building owing to circumstances over which the person moving such building had no control, should be left for the city council to decide and that the onus of responsibility for stating the time any building should take to move should not be left with the city engineer.

Ald. Collart said he was willing to give a man five days to move a building and if the building was not moved in that time, fine him \$30. If, on account of exceptional circumstances, it was impossible for the building to be moved in the five day limit he should apply to the city council for an extension of time.

Ald. Perry thought the city engineer should state the time for moving a building.

Ald. Macdonald did not think the onus of responsibility for stating the time limit on moving any building should be placed on the city engineer but that the city council should decide the point. If the engineer were to be made responsible for stating the time limit he (Ald. Macdonald) considered the engineer was being made the goat and that the council were, in a sense, passing the buck to him. He had no desire to pass the buck or allow people to block the streets with buildings.

Ald. Perry was agreeable to the time limit of five days and the penalty of \$30 per day for every day over the time limit.

Ald. Munro considered that five days in the average case was sufficient time to move a building. If any exceptional circumstances arose and the contractor desired an extension of time application should be made to the city council for such extension required over the five day limit.

## COLLEYMOUNT RANCHER DIED WHILE ENROUTE SMITHERS HOSPITAL

BURNS LAKE, Jan. 8.—Andrew Dahlberg of Colleymount died from heart failure while being driven in to Burns Lake to take the train for Smithers Hospital on Sunday night. Mr. Dahlberg followed the occupations of rancher and trapper and had been a resident of Colleymount for about six years.

Fay Short started with Mr. Dahlberg for Burns Lake accompanied by a neighbor, H. Parrott. Deceased was suffering considerable pain and shortly after passing Tehesinkut Lake asked to be moved to another position. When the party arrived at Dr. Lang's office the doctor found that the patient had passed away.

Dahlberg was 63 years of age, unmarried, and was very well thought of in the Colleymount district. He had suffered for a considerable time with heart trouble, dropsy, and hemorrhage of the lungs. He leaves a sister in Minnesota. Interment will take place at the Burns Lake cemetery.

## MORESBY AVENUE IS BEING TORN UP

Lumber From Closed Plank Road Being Used Elsewhere

At the council meeting last night Ald. Collart asked why Moresby Ave., Section 2, was being torn up. In reply, Ald. Perry explained that the city required lumber urgently in other parts of the city and, as the avenue in question had been closed to traffic, instructions had been given for the plank roadway there to be torn up and used where it was required. "It is just a question of robbing Peter to pay Paul" said Ald. Perry. Ald. Collart was satisfied with the explanation.

## CAPT. GEMMELL SMITH LIKED THIS COUNTRY

C.N.R. Publicity Agent at London Enthusiastic About Prince Rupert and Vicinity

Capt. Gemmell Smith, publicity agent of the Canadian National Railways, London, England, who recently returned to England after a trip across Canada, was full of enthusiasm not only for the country which he saw for the first time but also for the sturdy spirit of the people, according to the November issue of the Canadian Gazette.

In speaking of his trip through the Canadian Rockies, Capt. Smith characterized the journey, through to Prince Rupert from Jasper Park and down the coast to Vancouver as undoubtedly one of the finest scenic trips of any continent. He said that nothing could surpass the continually changing scenery through the Rockies where the remarkable grade of the Canadian National Railway enabled the traveller to obtain vistas of the different peaks throughout the journey. Later, the trip along the Skeena river was the climax to a remarkable journey. Capt. Smith passed through Prince Rupert enroute to Vancouver in October last.

## PASTOR PILLORIES SCANDAL MONGERS

More People Slain by Poison-Tipped Tongues Than by War Gas

COLUMBUS, Ohio, Jan. 8.—Asserting that "more people have been slain by the poisonous gas breathed from poison-tipped tongues than from gas released at war fronts," Rev. C. Jeffares McCombe, pastor of Broad Street Methodist Episcopal Church here sermonized before a local congregation on "The Sins of the Tongue."

Rev. Dr. McCombe declared that "the slanderous scandal-monger makes enemies out of friends, drives husbands and wives to the divorce court, partnerships to dissolution, business into bankruptcy and poisons the well of friendship."

"I am afraid of the black tongue, for I do not possess much except my character and my reputation," continued Rev. Dr. McCombe. "He who robs me of my good name robs me of that which does not enrich him and leaves me poor indeed."

### Poisonous Virus

"The scientific slanderer, with the drooped lip, arched eyebrow, slumped shoulder, significant look and adder's poison under his lips can release a poisonous virus which no legal analysis can produce in court as basis for a libel, yet will do its deadly work in undermining stable characters."

"The slanderer whose speciality is the sin of the tongue should be subjected to the cleansing power of the life and death of Jesus Christ. If he fails to respond to this treatment he should be consigned to an isolation camp, where he may companion with the stinging serpents and poison himself with his own sting."

Amir is Trying to Take Natives Too Fast Along Road of Civilization

LONDON, Jan. 8.—It is reported that the Afghans are much annoyed over a system of compulsory military service instituted by the present Amir, Amanullah Khan has been increasingly friendly towards this country, and he and his principal advisers are bitten by the desire to introduce the instruments of Western progress into Afghanistan. He is opening schools and spreading education, making new roads, sending missions and legations to Europe and accepting others in Kabul, and encouraging communications with India; incited perhaps by the accounts which have reached him of the new capital at Delhi, he has recently laid the foundation stone of a new capital of his own near Kabul which, as he has explained, is to accommodate the increased population that should flow from the commercial and social progress of the country.

More is heard of these enthusiasms of the Amir than of the views which his people hold about them, except that they are taking unkindly to the formation of a standing conscript army. The desire of the central authority, especially one that is indulging in "reforms" among a highly conservative people, that it should be able to rely on a solid regular army is as natural and inevitable as that the tribesmen should dislike the change. "Progress" in Afghanistan will be a very uncertain process, and uneasy will be the head that should pursue it.

## COULDN'T SLEEP HEART WAS BAD NERVES A WRECK

Mr. H. A. Reid, Upper Musquodoboit, N.S., writes:—I am very thankful for the benefit I have received by using Milburn's Heart and Nerve Pills.

When I came home from overseas, in 1920, my heart was very badly affected by concussion, and my nerves were a dreadful wreck. I was very short winded, and could not possibly sleep at night, in fact, I was in such a condition I felt as if I did not wish anyone to speak to me. I thought I would try Milburn's Heart and Nerve Pills, and before I had taken two boxes I could enjoy a good night's rest as well as anyone.

There are lots of returned men who are suffering the same as I did, and I feel sure that if they would only try Milburn's Heart and Nerve Pills they will receive the same relief that I have.

## CO-OPERATION MARINE SURVEY

Europe again in the near future has brought about a crop of rumors that he may display his pugilistic talents in a British ring. The main one is to the effect that he may meet a European opponent at Wembley Stadium where the British Empire Exhibition is to be held next summer. The opponent suggested is either Georges Carpentier or Jack Bloomfield, a promising young British heavy-weight. These two it is said will meet soon for the privilege of going up against Dempsey. The one factor that seems to make it improbable that Dempsey will meet a contender in England is that British promoters, are not inclined to put forward the largesse that the heavy-weight champion has grown accustomed to in the States.

## CO-OPERATION MARINE SURVEY

Director of U.S. Geodetic Refers to Work Done on This Coast

WASHINGTON, Jan. 8.—(By Canadian Press)—The annual report of the Director of the United States Coast and Geodetic Survey stresses the co-operation which exists between the Canadian and United States geodetic and tidal surveys.

The director of the United States surveys says in his report: "Steady progress is being made toward the completion of two great triangulation projects which are being executed in co-operation with the Geodetic Survey of Canada. The first project provides for an arc of precise triangulation extending along the international boundary, from Lake Superior to the Pacific, of which the United States is to execute the Western half and the Dominion of Canada the Eastern. It is hoped that the calendar year will see the completion of our portion of this work."

"The second co-operative project is the extension of an arc

of precise triangulation from Puget Sound through British Columbia and southwestern Alaska to the upper waters of the Yukon, thence down the Yukon through Western Alaska. This will enable the maps and charts of Alaska and western Canada to be placed on the same datum as those of the United States. The southern Canadian section through British Columbia to Dixon entrance will soon be finished and the United States section from Dixon entrance to the head of the Lynn Canal is completed, while a start has been made on the precise triangulation in western Alaska by the parties working northward from Cook Inlet.

The report further gives details of observations of currents in tidal waters on the west coast of Canada and in Alaskan waters which are being carried on jointly by the two governments.

## HOUSEWIVES THOUGHT PRE-WAR PRICES BACK

Owing to a misunderstanding, the Table Supply advertised milk yesterday at \$1.00 a dozen, instead of \$1.40. And today there is no doubt whatever among the Table Supply staff as to the value of newspaper advertising. All their three telephones have gone all day long asking for the \$1.00 a dozen milk, the keen buying housewives evidently hoping that the pre-war prices had come back, if only for once. And they were right there to seize the opportunity.

## BAD BLOOD PIMPLES AND BOILS Banished By BURDOCK BLOOD BITTERS.

Miss Irene A. Matthews, Stayner, Ont., writes:—I thought I would write and tell you of the experience and benefit I have derived from Burdock Blood Bitters.

Some few months ago I was troubled with bad blood which broke out on my face in the nature of pimples, boils and ring-worm, and I got so bad I really did not know what to do.

I was ashamed to go anywhere, and the itching and burning caused such a terrible sensation I could get no relief day or night.

One day a friend advised me to use Burdock Blood Bitters. I used one bottle and felt quite a relief, and by the time I had taken 3 bottles I was completely relieved.

I cannot praise B.B.B. enough and I hope anyone afflicted like I was will get the same benefit I received.

# MILLIONS and Movies

THROUGH the medium of slender strips of celluloid an actor appears simultaneously on thousands of screens in as many different towns. On the same evening, he entertains great armies of film fans who eagerly pay their money to see his performance.

So the movie star commands a king's ransom for a salary, and a fortune is spent profitably, to provide a proper background for his art. The movie multiplies personality—and earning power.

Advertising does the same thing for a merchant or manufacturer. In a single day it takes his message into thousands of homes—to tell folks why they should have his goods and how to get them. Advertising endows him with a thousand voices with which to tell his story.

But the value of advertising is by no means confined to the advertiser. It has a very definite value to you.

A glance through this paper enables you to sift out the things that interest you. Sitting in your easy chair you can compare values and prices. In a moment you can tell exactly where to go for what you want and how much to pay.

Figure how much useless walking and talking and how much actual money you can save by spending a few moments daily with the advertisements.

## CITY POLICE CHIEF QUILTS

Dissatisfaction at Administration in Vancouver Believed Cause of Anderson's Resignation

VANCOUVER, Jan. 8.—William Anderson, chief of city police, resigned yesterday. Deputy Chief Leatherdale is acting as chief until a permanent appointment is made by the police commission.

Chief Anderson is one of the foremost finger print experts on the Pacific Coast.

His resignation follows a recent automobile accident and illness but growing dissatisfaction by the public as voiced through the press at the laxity of law enforcement and lack of morale in the force it is believed is the chief factor leading to the resignation. All three Vancouver daily papers in the past week editorially demanded a shake-up in the police department.

The heating up of innocent bystanders and pedestrians during the longshoremen's strike brought matters to a head.

## BRITAIN NOW NEEDS CATTLE OF CANADA

Homeland Dairy Herds Badly Depleted by Foot-and-Mouth Disease

OTTAWA, Jan. 8.—How devastating has been the effect of the foot-and-mouth disease upon the live stock in Great Britain during the past few weeks is indicated in a communication received by Dr. J. H. Grisdale, deputy minister of agriculture, which states that a total monetary loss of £750,000 has already been sustained. As a result of the total of 978 outbreaks of the disease in the past three and one-half months 65,250 head of live stock have had to be slaughtered in Britain, of which 32,500 were cattle, 15,500 were sheep and 17,250 swine.

Owing to the serious depletion of Britain's dairy herds an acute shortage of milk has developed and a flood of petitions has reached the British government urging that every step be taken to facilitate the importation from Canada and elsewhere of cattle suitable for the re-establishment of those dairy herds. The petitions also urge that the government hasten to discover some other and less destructive means of stopping the spread of the foot-and-mouth disease, as

## IMPOSSIBLE TO GET RELIEF

Until She Started To Take "Fruit-a-tives"

The Medicine Made From Fruit

R.R. No. 1, Everett, Ont.

"I had been troubled for years with Dyspepsia, Liver and Kidney Trouble, and could not get relief until I started taking "Fruit-a-tives". Thanks to their beneficial action, I am in normal health again."

Mrs. THOMAS EVANS

"Fruit-a-tives" alone can give such happy and successful results because "Fruit-a-tives" is the famous medicine made from fruit juices and tonics. "Fruit-a-tives" is pleasant to take and will always restore the health when taken regularly as directed. 50c. a box, 6 for \$2.50, trial size 25c. At dealers or from Fruit-a-tives Limited, Ottawa, Ont.

slaughter on the wholesale plan as now practiced might in a few months almost exterminate Britain's live stock.

Another effect of the outbreak, of course, has been an abnormal enhancement of prices of live stock, an increase of at least 25 per cent having taken place in the past three months and since the outbreak. Not all the rise in price may be attributed to the scarcity of British cattle caused by the slaughter of diseased cattle and other live stock, but it has a very considerable effect on the market value of Canada's exportable stock.

## HOW POPULATION OF LONDON ORIGINATES

One Out of Three Persons in Metropolis Country Born—More Irish than Scots

LONDON, Jan. 8.—Somebody has been investigating the birth places of residents in London. It is announced that out of every three persons now living in London proper, one is country born; that is, about a million and a half of the city's population are not "natives." About one in four were born in the neighboring counties of Middlesex, Essex, Kent and Surrey. Kent having sent 100,000 and Surrey 71,000 persons. There is a general impression that there are as many Scots in London as in Edinburgh, but as a matter of fact London has only 50,000 Scots as against 54,000 Irish. All the British Dominions overseas have contributed together about 32,000 people; and about three per cent of those who live in the metropolis are foreigners.

## WOMEN WERE TRYING TO HANG EX-CONVICT

Man Who Stole Electric Light Bills Nearly Met Fate on Lamp Post

NEW YORK, Jan. 8.—Adam Kramer, an ex-convict, alleged to have stolen electric light bills from apartment house mail boxes and collected them, was attacked recently by a number of Brooklyn women whom he had victimized. They tied him to a lamp post and after a severe beating proposed to hang him. A policeman rescued him. One woman had Kramer by the neck, another by the hair and a third was trying to slip a noosed clothesline over his head.
