# FRANCE AND BRITAIN TOGETHER FOR PEACE

## PREMIER MACKENZIE KING ANNOUNCES HE WILL VISIT PRINCE RUPERT

### France Joins Britain Favor International Arbitration and Disarmament Conference

GENEVA, Sept. 6. — France joined Britain yesterday in pledging support for the principle of compulsory arbitration, removing any doubt through a speech by Premier Herriot that France would hesitate to weaken her force as a great continental military power.

Premier Herriot announced unequivocally that France favors an international disarmament conference. He said the nation that would refuse to arbitrate would be stigmatized as an aggressor nation.

M. Herriot paid tribute to the useful collaboration of the United States in the past and said he hoped that country would not refuse to co-operate in the disarmament conference, which he held must be called by the League of Nations as the only body properly equipped to carry through such a conference.

### GIRL FEARED CHINESE BOY

Friends of Janet Smith Declare That he Said Improper Things to Her

TAKES CHICKEN OATH Second Inquest to be Resumed on Tuesday Next for Further Evidence

VANCOUVER, Sep. 6.—Whether the remaining witnesses to be called before the second coroner's inquest into the death of Janet Smith, the Shaughnessy Heights nursemaid, when the hearing resumes on Tuesday after being adjourned, will be able to tear away the veil of mystery that still enshrouds the tragedy, remains to be seen. Certainly the manner in which she met death has not yet been determined. Facts brought out by witnesses in the two days' session shows she was a happy, care-free girl of nineteen with a good character. In the household where she was employed were Mr. and Mrs. E. L. Baker and baby and a Chinese houseboy. Friends of the girl testify Janet had said she was afraid of the Chinese boy who had said improper things to her when her work took her to the kitchen. The boy, Wong Fung Sing, was sworn by the chicken oath, the only known binding oath for a Chinese, and he will probably be the witness when the case reopens. More than half the witnesses called remain to be examined.

### WARRANT FOR LUIS FIRPO

The warrant charges that Firpo brought or attempted to bring Blanca Picart, the manicurist, into the United States for immoral purposes and for having gained admission to the country under false statements. The hearing is set for September 15. This charge will not interfere with the fight against Wills, which is scheduled to take place on Tuesday.

### BOWDOIN HOMEWARD BOUND

DAILY EDITION  Saturday, Sept. 6, 1924.

**Hushing up Process Seems To Be Resented.**

There is a great deal too much hushing up of unpleasant things among those who can afford to pay people to keep quiet. This is well illustrated at Vancouver where a girl was shot through the head and buried after a verdict of accidental death had been brought in by a coroner's jury.

In many parts of the country the coroners' juries seem to be under the dominance of the coroner. Unpleasant things are usually hushed. The proper cause of death is seldom given and the result is disastrous to the coming generation.

In this Vancouver case it is satisfactory to know that a further investigation is being held and that if there is criminal action, the criminals should be brought to justice.

**Fear Causes Much Of Present Injustice.**

Fear is the cause of much of the injustice in the world today. People are afraid to tell what they know. Take as an instance a man who dies as a result of the use of drugs. Out of respect for his family the real cause of death is usually hushed up. He died of heart failure or some such reasonable cause, according to the doctors. If it was known that people died from the use of drugs, fewer people would become addicts. Publicity in this case is advisable. Protection of the individual's family is at the expense of the morals of the nation.

So it is with venereal diseases. No one is ever reported as dying from them, yet they are most fruitful causes of disease and death. We are too careful of the individual and sacrifice the race for his sake.

**Revival Imminent In Lumber Industry.**

Already there are signs that the lumber industry is reviving. One of the periodic periods of low prices caused by over-production will be followed by a period of higher prices and greater activity. That is always the case. The lumber industry is subject to many fluctuations and as a result mills are closed and men thrown out of employment.

Just now there is an indication that buying will commence soon. Already activity is reported and before long the demand should be strong. This will affect the north as well as the south.

**School Attendance Indicates Trend.**

A trend of the times is indicated by the school attendance. The population of Prince Rupert is on the increase. That is clear. With about seventy more pupils this year than last, we are certainly on the up-grade.

Reports seem to indicate that there are very few empty houses in town. Any desirable residence is taken at once and there is a demand for more. During the past week the business office of this paper has been deluged with inquiries from people wanting rooms or room and board. As we are not running an agency of that kind we had no information except that contained in the advertising columns of the paper.

Every tendency here seems to be toward a more permanent class of resident. Many come here now with the idea of making homes instead of sojourning for a time and then migrating. The pioneer stage of development of the city has passed. Business is fairly good here in most lines and only those who hold real estate for speculation are complaining.

**Prince Exploited By Newspapers.**

The Prince of Wales is exploited by the newspapers of this continent, much to his disadvantage. In their search for copy, reporters are recording the most minute acts and moves of the young man so that at times he appears ridiculous. People all read about him, either appreciatively or otherwise and the result is hardly beneficial to the system.

The young prince is still very popular everywhere he goes. This popularity is taken advantage of to exploit him as a news feature and he suffers accordingly.

**Two Captains in One Boat**

Being an account of a trip to the Ecstall River as recounted by Newton Pullen of Victoria under the nom de plume of Marcus Drexell in the Victoria Colonist. The next article of the series appears soon.

**VISIT TO DUNSMUIR MINE AND CLEARWATER.**

The Gwen had been jammed on the submerged logs of the Ecstall just below Johnston Creek from between five and six o'clock in the afternoon until after ten o'clock the next morning, and we were glad to tie up a short distance down the river and get ashore. The spot where we moored was at the end of the abandoned narrow-gauge railway leading up to what is known as the Dunsmuir Mine, a copper property which has been bonded several times by the Granby interests and has had considerable development work done upon it.

Things aboard the Gwen were not exactly shipshape. They were in fact, rather messy, for our varied belongings had suffered in the excitement of the last few hours. We had wandered about the craft in our high rubber boots after standing in the river. We had tracked mud aboard, had dripped water aboard, had leaned on things that should never have been leaned on, and had generally comported ourselves in a fashion detrimental to the welfare of inanimate squishable articles. Packets of cigarettes had been tucked away under one of the seats for safety. We found them floating about serenely in water which had made its way into the boat. Food had been stepped on, the apricots were suffering from common assault and persistent jostling, but the eggs had come through remarkably well.

**We Got Wet Again**

Rain began to fall as we were cooking lunch under a tree. It rained on and off for the rest of the day. We knew that it was possible to walk in to Johnson Lake from there, but we did not know where the trail began. It was Johnson Lake that we had been heading for when some submerged logs changed our plans, and we were hopeful that we might yet reach that beautiful spot by land. However, we were again doomed to disappointment, being unable to find the proper route. We tramped up the narrow-gauge line through wet underbrush that soaked us, and we found the abandoned camp used during the development work had been carried out. The railway went as far as a rushing stream which flowed over a reddish bottom. We pocketed some ore samples and made our way back to the Gwen.

**To Clearwater**

After supper the rain has stopped and so we decided to move along Clearwater Creek. As the Gwen shoved her nose confidently down the river which wound away between the lofty summits, we felt the spell of a calm evening and were at peace with the world. Several times we scraped the bottom but managed to keep moving until we reached deeper water.

The moment that we turned into the mouth of Clearwater Creek we knew why it bore that name. The water was crystal clear right down to the grotesque stumps and rotten trees that sat in the mud of the bottom. At slow speed we ran up between the narrow banks about half a mile and tied up the Gwen not far from the foot of some rapids. On either side of the entrance to the Clearwater a mountain stood in its immense bulk as if it were there to guard the peace of the valley against violation. Off in the woods a whistle sounded like a traffic policeman in a big city. It was a ground hog, but it might have been the mayor of paradise giving his address of welcome.

**Other Captain Explains**

In our canoe we paddled up to the rapids; turned into a narrow slough where the trees leaned out to look at themselves in the still mirror; and then slowly glided down to the Ecstall and back. If it were possible for a hefty man with several days' whiskers on his face to become ecstatic, I would say that the other captain was ecstatic that night. He was not sufficient of a poet to speak of a silver pathway to contentment, or anything of that description, and so he simply breathed deeply and exclaimed at intervals, "Say, this is great," and "My, this is certainly worth while."

We slept in the bottom of the boat that night, the Other Captain in the bow and myself in the stern. The rain collected in a little reservoir somewhere and at intervals it overflowed onto my head and pillow, but although it woke me up each time I was never quick enough to find out where the waterfall originated, and so could only turn over my pillow and go to sleep again. Finally, perhaps, after a period of long years the timber is cut and the public asserts its further demands in addition to the carrying charges by claiming thousands of dollars cash or royalties fees.

Last year the Government collected one and a half millions of dollars in royalties alone before the material that paid that amount was placed on the market.

### SUMMER SPORTS AT ANYOX COMPLETED

Elks Win Medals and Cup For Baseball; Replay Yet in Football

ANYOX, Sept. 6. — Although the weather has been of a brand not particularly agreeable for the playing of the many outdoor games indulged in hereabouts, the schedules have been practically completed. The baseball season closed with the Elks winners of both medals and cup, emblematic of the 1924 championship. Football has yet a couple of hard games to go, with the possibility of a tie or two thrown in for good measure, and will create some interest for a little while at least.

The year 1924 has been the best football year Anyox ever experienced, the teams were always fielded at full strength and were all ready to go when the referee's whistle blew on the scheduled day, and the fans witnessed as high an average of football as they would see anywhere on the British Columbia coast. The Beach team by defeating the Mine in the cup tie game got into the final for the trophy with the Smelter. This game was hardly fought and through an oversight on somebody's part had to be replayed, Thursday of this week being the date set for a decision. The basis of the protest entered by the Beach was that the odd goal was scored several minutes after the time set for the half time whistle, actually ten minutes overtime having been played. A meeting of the football executive allowed the protest under the circumstances.

The game between the Mine and the Smelter for the medals resulted in a draw, neither team having any advantage in the play, each team scoring a goal.

### WEATHER SPOILED GAMES

ANYOX, Sept. 6.—The weather spoiled the baseball play-off for the Granby Company silverware. It was to have been a three out of five series between the Elks team, winners of the league, and the Smelter team, runners up. Two games were played, the Elks winning both. After two attempts to give the "Brother Bills" a run for the silver, the Smelter manager decided to forfeit the 1924 baseball honors.

Whether or not Ketchikan will be entitled to compete for the Exhibition Board's cup significant of Northern B.C. baseball championship remains to be determined. The trophy is now held by Anyox and there will be at least competition for it between Prince Rupert and Anyox.

Trap shooting teams have been invited from Ketchikan, Anyox and Ocean Falls but it has not yet been definitely ascertained how many, if any, are coming. In the meantime, members of the Prince Rupert Gun Club are preparing for them.

All the local boxers—Skinner, Fraser, Stewart, Guryich, Warren and Boulter—who will engage in the tournament to be staged next week, are working out nightly in the 102nd Regiment Hall. Any persons interested are invited to attend and see the boys in action.

Joe Manilla of Ketchikan, who will meet Brick Skinner in the main event next week, will arrive in the city on the Princess Alice this afternoon. He will work out in the Elks' Home, the hours to be announced later.

The sport program for Fair Week has been finally fixed. There will be visiting baseball teams from Anyox and Ketchikan and a football team from Anyox. The schedule of games has already been announced. Ben Self, chairman of the Fair Board's sport committee, has wired to the various towns asking for lists of line-ups. These will be published on arrival.

Ketchikan has been invited to bring a tug-of-war team to pull with the local city team. It is not anticipated that there will be any difficulty in finding a good representative of Alaskans among the large party of excursionists who are coming from Ketchikan.

Another feature has been added to the week's program in the form of a championship fish box mailing contest. Twenty-five dollars in prizes will be offered. The contest will take place in the Exhibition Hall on Wednesday or Thursday night. A large number of entries are expected from among the local fish packers.

Whether or not Ketchikan will be entitled to compete for the Exhibition Board's cup significant of Northern B.C. baseball championship remains to be determined. The trophy is now held by Anyox and there will be at least competition for it between Prince Rupert and Anyox.

### MARRIED LADIES AT ANYOX BEAT SINGLE

ANYOX, Sept. 6.—The second game of the Married and Single ladies' baseball teams on Labor Day furnished the biggest interest of the season to a large crowd who gathered at the hall park to see the battle. The players kept the fans on their toes all the way, treating them to all kinds of snappy plays. Hitting was the big feature of the game, Mesdames Dwyer, Ferguson and Wenerstrom being the mighty swatters for the Married girls, while the Misses Calderone and Keith slugged 'em hard for the Single girls. This game did not quite finish, and while the score, at the time the game stopped on account of darkness in the sixth inning, was fourteen all, the cold-blooded rules of baseball awards the game to the team having the most runs at the end of the fifth, the Married ladies being ahead in this instance.

Whether or not Ketchikan will be entitled to compete for the Exhibition Board's cup significant of Northern B.C. baseball championship remains to be determined. The trophy is now held by Anyox and there will be at least competition for it between Prince Rupert and Anyox.

### PORT SIMPSON ATHLETES WIN

### Came Home from Kincolith With Cups Representing Baseball and Football Championship

The Y.P.E.A. of Port Simpson returned home this week from Kincolith, Naas River, with two silver cups which they won on Labor Day as a result of their athletic prowess defeating Greenville and Gitlakdamiks baseball and football teams respectively in final championship matches. The cups had been put up by the Senior Society of Kincolith last year.

The Greenville baseball stars received a setback in their championship aspirations by a score of 7 to 2 at the hands of the following Port Simpson team: Charlie Green, p; Robert Sankey, c; Willie Kelly, ss.; Joshua McKay, 1b.; Wilfrid Booth, 2b.; James Lawson, 3b.; Edward Bryant, rf.; Willie Johnson, cf.; Robert Cooper, lf.

Port Simpson also lived up to its reputation at football defeating the heavier but less active Gitlakdamiks team by a score of 3 to 1.

In the evening the Senior Society of Kincolith entertained the visiting teams in their hall where the prizes were given out. Then there was a dance, splendid music being furnished by the Society orchestra.

Whether or not Ketchikan will be entitled to compete for the Exhibition Board's cup significant of Northern B.C. baseball championship remains to be determined. The trophy is now held by Anyox and there will be at least competition for it between Prince Rupert and Anyox.

the weather man and anyone else  
who feels himself aggrieved.

Our brilliant summer's gone  
again, we'll now receive our wind  
and rain in doses homopathic.  
We'll buy us rubber coats and  
shoon, to keep our system frail  
immune from weather shower-  
bathic. Each morn we'll cock a  
wistful eye toward the leaden  
colored sky, and hope that it will  
brighten. The dab had cold that  
lately froze our lungs, asophaga-  
gus and nose, continues still to  
tighten. The coal man now gets  
in his work, his watered stock we  
cannot shirk, he's got us by the  
neck. We know he didn't send a  
ton, next time we'll watch the  
son-of-a-gun, or our bank roll  
he'll wreck. The light bills too  
will be a fright, because the days  
are mostly night, the meters all  
get hot. The light man chortles  
in his glee, but his frail joke we  
cannot see, we think he should  
be shot. But time rolls on as is  
its way, we hope that spring  
will come some day, as it has  
done of yore. The wind becomes  
a gentle breeze, the rain lays off  
to cure our sneeze, and we're no  
longer sore.—Q.P.

Labor Day was duly observed  
by the nauticals and the Fish  
Exchange did not function that  
day. However, in spite of the in-  
tervention of the holiday the  
halibut landings and prices have  
kept up well. With the close  
season nearly here, boats of  
both the home and American  
fleets are putting in as much  
time as possible on the deep sea  
grounds. On Labor Day the  
weather man was very indulgent  
with a first class brand of sun-  
shine and several nautical fami-  
lies took due advantage of it to  
make season-end picnics while  
others took in the sports pro-  
gram.

**Fish Business**  
From Tuesday to Friday 646,  
290 pounds of halibut has been  
marketed on the Fish Exchange.

and 8c, and low at 13.1c and 6c.  
Americans were high at 15c and  
9.2c and low at 12.1c and 5c. Ar-  
rivals were: American—Western,

The power boat Thelma H.,  
Capt. Bill Hanson, familiarly  
known as "the gunner," returned  
from Massett early in the week.

Charlie Wright, who is logging  
in the Wark Canal district, ar-  
rived in port this week on his  
power boat Cora. It appears  
that the launch Wake with a  
fishing party aboard got held up  
in Wark Canal owing to ignition  
trouble and the Cora came in  
for the necessary gadgits.

The launch Milk Maid, owned  
by skipper Geo. Newcomb, has  
recently been overhauled in Cow  
Bay. Among other things a new  
stuffing box has been fixed  
thereon and all is now in first  
class shape.

The launch Joy Bird, Capt.  
Cook, has been out in northern  
waters for several days with a  
party of tourists aboard who  
have been taking in the wonder-  
ful scenery and incidentally do-  
ing a little fishing.

The Canadian schooner Joe  
Baker, Capt. Blondel, has been  
refitting while in port for a few  
days this week. The schooner  
left port on Thursday for the  
high spots.

**Mayor of Oona River In**

Ed. Johnson, mayor of Oona  
River, called into port on Wed-  
nesday with a cargo of table  
delicacies raised on his famous  
ranch and for several sacks of  
mail. Ed. reports that business  
on the island continues brisk and  
that several local improvements  
are contemplated for the conven-  
ience of the islanders. While  
in port the skipper put in stren-  
uous hours collecting good things  
for the inner man, and piled high  
with cattle feed and the neces-  
saries of life the Pioneer left on  
her return trip on Thursday af-  
ternoon.

launch Myfanwy, which has been  
commissioned in the fishery pat-

The launch Nalaco of Van-  
couver, arrived in port this week  
with a party of businessmen  
aboard, and went on the Suga  
ways to have new guard-rails  
fixed and other minor repairs  
executed.

Pete Rovvik, who has been  
seining for the past month in the  
vicinity of the Queen Charlotte  
Islands, returned home this week  
and reports having done very  
well. The run of fish in the is-  
land waters has fallen off con-  
siderably of late.

Geo. W. B. Fletcher, president  
of the P.B.C. Mines Ltd., oper-  
ating at Massett in extracting  
gold from the black sands, ac-  
companied by Herman Block, vice-  
president of the company, has  
been enjoying a fishing trip to  
McNichol Creek, Cloyah and  
Shawatlans Lake for the past few  
days. The trip was arranged by  
the Prince Rupert Boathouse.

The tug R.F.M., Capt. Jones,  
arrived from Nanaimo on Wed-  
nesday night with a tow of 4,000  
tons of Nanaimo-Wellington coal  
for the Albert-McCaffery inter-  
ests.

**Pt. Simpson Power Plant**

The Ward Electric Company,  
Cow Bay, have recently sold a  
110 volt Deleo lighting system to  
the Port Simpson Hospital, and  
installation is to be made im-  
mediately. In addition to the  
power plant an X-ray machine  
will also be installed. Geo. Wad-  
dell will shortly leave for the  
northern port to do the necessary  
wiring in the hospital and it is  
expected the work will be com-  
pleted by the end of the month.

New ways are being installed  
at the Suga yards on Cow Bay  
creek to take care of small boats.

The launch Dolphin, owned by  
skipper Jack McAuley has been  
on the Yacht Club ways for cop-  
per painting and general over-  
haul.

The troller S. Vito is on the  
Cow Bay creek ways undergoing  
re-caulking and a general over-  
haul.

# The Little Red Hen

**"PUCK, puck, puck, pucKAYah"** cackles the little red hen, as she steps off the warm nest, broad-casting to the barnyard that she has just laid a fine, fresh egg. She makes a product that any "manufacturer" might be proud of, and doesn't hesitate to advertise the fact.

A duck egg might be just as good, but the duck evidently doesn't think so. She doesn't advertise, and duck eggs have no market.

To be absolutely sure in buying ANY merchandise stick to the advertised brands. For their manufacturers believe in them and tell you about them daily in the advertising columns of this newspaper, over their signatures.

The duck-egg brands might be just as good, but you cannot be sure, if the manufacturers themselves will not admit it!

Read the advertisements regularly. Buy from them. You will then know the source of the products, and whom to look to if they don't measure up.

## "A SOCIETY SCANDAL"

Adapted from Alfred Sutro's famous stage success, "The Laughing Lady." The picture that makes an open book of society's innermost secrets. Sh! Do not tell a soul what happened to Marjorie Colbert. It's a society scandal. Society isn't easily shocked, but the Colbert affair rocked it like an earthquake. Come and see why. See why they call her "glorious." If you miss this triumph of triumphs, it will be another scandal. Wonderful gasp-provoking gowns. Classy settings. A superfine Swanson, a superlative story, a superb cast and superior direction. ### JAMES GILLIS DIES IN EAST

Word was received in the city today of the death last night at Port Hood, Nova Scotia, of Jas. Gillis, well known pioneer of the city and late member of the power house staff at Shawatlans Lake.

The late Mr. Gillis left here about a month ago for Rochester, Minn., to undergo an operation at the Mayo Clinic for cancer. It was found impossible to do anything for him there so he left for his sister's home at Port Hood where he expired shortly after arriving.

Mr. Gillis was a native of Nova Scotia, about 60 years of age and single. He was a member of the local Catholic Church and of the Knights of Columbus.

### FAIR ENTRIES PROVE HEAVY

Lists Closed Last Night and Several Prospective Exhibitors Were Disappointed Today

As has been anticipated, entries for the Exhibition this year have proved to be very heavy stated D. McD. Hunter, manager of the Fair, this afternoon. The lists closed last night but so far it has been impossible to get the large numbers of eleventh hour entries tabulated so it cannot be announced yet how many exhibitors there will be and how many exhibits, though it is expected that they will total higher than in any past year.

Despite all the warnings that had been issued, there was a number of prospective exhibitors who sought to enter this morning. They were disappointed when they found that no more entries were being received.

Judging for the babies under six months in the Better Babies' contest starts this afternoon. When all entries in the various classes have been received, it is anticipated that there will be not less than 60 infants in the Baby Show.
