## NOMINATIONS TODAY FOR CIVIC OFFICES

### HON. T. D. PATTULLO ADDRESSES CANADIAN CLUB AT OTTAWA ON B.C.

#### Many Citizens Aspire to Serve Public as Aldermen and Other Positions: Two Only for Mayor

Cyril Hodgins Orme, druggist, and William Edward Williams, barrister, were elected by acclamation today to two year terms on the school board, City Clerk E. F. Jones announced this afternoon when nominations for the civic election closed. For the one year term there will be a contest between Ex-Mayor Harry B. Rochester and Henry Smith.

There are a large number of nominations for the eight seats on the city council, no less than nineteen candidates having allowed their names to be submitted to the electors.

As had been expected, there were only two candidates nominated for the mayoralty—Mayor S. M. Newton and Ald. M. M. Stephens, chairman of the finance committee.

Two candidates are out to succeed E. H. Shockey on the police commission. They are Ex-Mayor Harry B. Rochester and Ex-Ald. W. H. Montgomery.

Voting takes place next Thursday from 9 a.m. to 7 p.m. The nominations follow:

#### TRYING TO AVERT RAILWAY STRIKE BY MEDIATION, ENGLAND

LONDON, Jan. 14.—A mediation movement has been started to avert the threatened railway strike. Intervention of the council of the trades union congress has been sought and a meeting of the council has been summoned. It is expected that a mediation committee will be appointed to consult with both sides.

#### NEW ENGLAND IS CRIPPLED

Fishing Boat Towed to Port by Two U.S. Revenue Cutters

In tow of the United States revenue cutters Smith and Cygan, the New England Fish Co.'s steam trawler, New England, arrived in port at 3.30 yesterday afternoon in a crippled condition. About two weeks ago, the New England struck an obstruction on the fishing grounds and broke her propeller. Two Ketchikan boats towed her into Ketchikan where her halibut catch was disposed of and from thence she was brought here to enter dry dock for repairs. Capt. Jacobsen commands the New England.

#### FRANKIE JEROME A BANTAM BOXER DIES, SKULL BROKEN

NEW YORK, Jan. 14.—Frankie Jerome, one of the leading bantamweight boxers of the country and considered to be a dangerous contender for the world's title held by Joe Lynch, died Sunday as a result of a compound fracture of the skull, believed to have been the result of a terrific beating received at the hands of Bud Taylor here Friday night.

posed by G. H. Munro and seconded by G. W. Kerr. (One year term.)

#### In Spite of Decreased Revenue, City's Surplus on Operation in 1923 Will be Twice Year Before

With revenue for the year 1923 decreased to \$217,894.82 from \$239,034.68 in 1922, and expenditure down to \$159,501.15 from \$210,327.13, the city shows a surplus on operations for the year 1923 of \$58,393.67 as compared with a surplus of \$28,707.55 in 1922 according to a preliminary statement of general revenue account exclusive of utilities which has just been issued by City Treasurer D. J. Matheson. There has been a reduction of revenue in almost every department, including a lowering in the total taxation, including that for schools and water rates, from \$282,443.17 in 1922 to \$261,384.73 in 1923. Expenditures were curtailed in every department with the result that costs in almost every case were lower thus accounting for a marked increase in surplus while the revenue was lower.

The following is the statement of the city treasurer appended to which are figures of last year for purposes of comparison:

#### Tug and Car Barge are Ashore on Watson Rock South of here; Tug Elcedo to Salvage Them

The Whalen Pulp & Paper Co.'s tug Frances Cutting, Capt. Hanson, and the Canadian National car ferry, used to transport pulp between Swanson Bay and Prince Rupert, are both ashore on Watson Rock 25 miles south of here.

The trouble occurred at 7 o'clock Saturday morning while tug and barge were proceeding north with the last shipment from the mill following its closing up. The hawser broke and the barge went adrift and ashore. The tug was attempting to effect a rescue when it stranded itself. The incoming tide later sank her. It is understood, The Vancouver Dredging & however, that she has sustained Salvage Co. has the tug Elcedo little damage. The barge, while at the scene and is taking the she has a hole in her, went up at two craft off the rocks. They high tide and did not sink. She are expected to reach here Tuesday evening or Wednesday morning for survey in the dry dock.

#### Hon. T. D. Pattullo tells Ottawa Audience how well B.C. is Governed

OTTAWA, Jan. 14.—"British Columbia has now established its position in the market of the world and never again will its expenditure reach the low ebb which marked the critical years in its early life when the wealth of its resources caused a period of reckless waste and culpable exploitation." In these words Hon. T. D. Pattullo, minister of lands for British Columbia sized up the position of his province in the financial world, when addressing the Canadian Club here Saturday.

There was an impression, Mr. Pattullo said, which he was anxious to correct. It had been charged against the administration of the province that the expense per capita was unnecessarily high—higher than in any other province. "We admit," he said, "that the character of our land, huge mountains, waterways and deep valleys make for scattered settlements. Much money has been expended on building and upkeep of roads and bridges, but as to wastefulness and extravagance there is none.

"The bond houses know," said the minister, "and what do they think of British Columbia? No bonds command a better price than in that province. As a matter of fact British Columbia French francs broke 22 1/2 points not only has not been wasteful to 36-95 cents. Italian lire advanced 10 points to 4.49 1/2 cents, selling for the first time higher than French francs, which have created a new record for all time.

PARIS, Jan. 14.—Owing to the extraordinary rise in price of the pound and dollar, the committee of the Paris Bourse decided not to establish any quotations today.

NEWARK, N.J.—Eight bandits broke into a wholesale drug warehouse and carried off \$100,000 worth of bonded whiskey.

TOKIO—Japan will pass law giving right to forbid right of U.S. to own land in that country as answer to U.S. Supreme Court decision.

CHICAGO—Harry Gilmour is to give exhibition boxing bout with Frankie Russell.

Miss Lillian Lowe was rendered unconscious last evening as the result of falling from a bicycle at the intersection of First and Second Avenues. Miss Lowe, while riding, was holding on to Taxi 80, driven by E. Smith, in which Mr. and Mrs. Lowe were proceeding to Westview. Mrs. Lowe told her daughter not to hang on to the car and in drawing away therefrom the accident occurred. The occupants of the car were under the impression that the cyclist was riding behind and it was not until arrival at their destination that Miss Lowe was missed. The taxi immediately returned and discovered that in releasing her hold on the car Miss Lowe had fallen from the bicycle and striking her head on the roadway had been rendered unconscious. R. A. Mitchell of Taxi 75 picked up the unfortunate young lady and rushed her to the office of Dr. L. W. Kergin to receive medical treatment. Miss Lowe is progressing favorably.

A daughter was born on January 11 at Terrace to Mr. and Mrs. C. A. Mancor.

A son was born at the Prince Rupert General Hospital on January 13 to Mr. and Mrs. Thomas Sherman of Taylor Street.

**A PUBLIC MEETING**

Aldermanic, Police Commission and School Board Candidates Invited.  
Everybody Welcome.

#### SIFTON URGES BANK AUDITS

Days Provincial Banks Should go Out of Business and Fears Disaster

TORONTO, Jan. 14.—Independent audits twice a year of all Canadian banks, is the proposal of Sir Clifford Sifton for the solution of Canada's banking problems. He does not favor a Government audit or inspection but suggests the creation of a central board to supervise their auditing. It would also serve as a bank of re-discount in times of stress and emergency.

#### LOOKING FOR PLACER GOLD

Charles T. Cabrera Making Investigation in Interior for New York and Pennsylvania Interests

Charles T. Cabrera, who is investigating placer gold possibilities in the interior for New York and Pennsylvania interests, reached the city on last night's train from Hazelton.

Mr. Cabrera intends to spend two years in the interior district and is taking two hand-power drills into the Kitwano Valley where he expects to remain until March. Unless he succeeds in locating good placer ground closer in, he will then move to the country east of Takla Lake.

Last year Mr. Cabrera made a report on the Kildare property north of Vanderhoof.

#### PARLIAMENT LATE OPENING SESSIONS END OF FEBRUARY

OTTAWA, Jan. 14.—The date of the opening of Parliament will be announced this week. No official intimation in regard to the date has yet been given out but it is expected that February 21 or 28 will be the dates set. This is much later than usual.

**Gobs Of Bunk  
By Politicians.**

Samuel Crowther writes an illuminating article in the January Cosmopolitan in which he interprets Mussolini in a way we can understand him. He is described there as a new kind of politician who does not give a hang about political theories. Crowther says of him: "He has the political acumen to know that a politician cannot stay in power unless every so often he delivers himself of gobs of bunk but he makes short shrift of people who talk bunk without knowing that it is bunk."

According to the same authority Mussolini is "notably deficient in illusions." He says: "Political philosophy must give way to political facts. I have not even the fetish of liberty when it is against the interest of the nation. Liberty is not only a right but also a duty. When liberty is not recognized also as a duty, then it is a duty to interfere with it. I shall proclaim reaction if I like—for me the terms of politics are but phrases."

**Neither Demigod  
Nor Despot.**

Speaking further of the man, Crowther says: Mussolini is neither a demigod nor a hired despot. He has done but a fraction of the things he is glorified or damned for. He is an exceptionally able, concretely thinking person, placed by circumstances in an exceedingly difficult position. Circumstances merely create the opportunity for men to be great. Mussolini has so handled circumstances as to be entitled to be called a great man. Whether he can continue to be a great man will depend upon how he handles himself.

**Aim Of Facism  
According To Mussolini.**

According to Mussolini the aims of Facism, the movement which he heads is a beneficent one. He says: "Our aim is reality. The proletariat has powers and qualities which must be defended and encouraged and it is also necessary that the bourgeoisie, in whose hands is the directive power in business, should be able to continue its work in tranquility. Communism is grotesque and only worthy of uncivilized tribes. It is absurd to want to divide what has not been produced, to socialize misery and to advocate communism in a country of individualistic citizens. Lenin now admits the impotence of his own teaching and Russia is being transformed into a country of small middle class people. The experiment has failed and now the rapacious vultures of capitalism are descending in flocks upon the unfortunate land."

**Trouble Caused By  
Sincere Fools.**

Analyzing the situation Crowther gives vent to a truism which applies everywhere. He says "most of the trouble in the world is caused by the perfectly sincere fools." Mussolini was just as sincere when he was ranting in favor of socialism and publishing a paper advocating the cause as he was later when leading the party which now has control and which is opposed to any immediate socialistic efforts. At that time he was a fanatic but now he believes in moderation. He refuses to take advantage of his victory to push his ideas forward. He realizes that, from extremes there is always reaction. It was the brutality of the Reds that brought on the revulsion in favor of Facism.

**Moderation Necessary  
In All Government.**

Any policy of extremes in government of any kind is sure to bring about revulsion. The average elector knows little of the causes and effects. He is not a student of politics and he judges largely from what other say. He is easily influenced. He makes the most foolish choices in picking men for governmental positions. He is liable to do practically anything. No one can tell how any election will turn out. A strong man, however, usually catches the fancy of the people whether he be an extreme reformer or a reactionary of the most formidable type.

**PRAIRIES WANT  
EASY OUTLET**

Edmonton Paper Urges That No  
Obstacles be Put in Way of  
Trade Westward

Hon. Dr. King, minister of public works, gave the Vancouver board of trade good advice when he said the aim should be to develop the port of Vancouver in conformity with national interests rather than to make it a large immediate revenue-producer for the city or province, says the Edmonton Bulletin, editorially. In the same connection is the assurance given by the minister of marine and fisheries that the harbor board will not be allowed to enforce the proposed tenfold increase in the handling charges on grain until a thorough investigation has been made.

It is to be supposed that the minister of public works, himself a British Columbia man, was thinking about the projected increase in grain handling charges when he uttered the warning to the business men of the terminal city. In any case the advice may well apply to that particular, as to the general policy of management of the port. The impression given by this attempted nine hundred per cent boost in the rates is that the harbor board thinks it has the prairie farmers at its mercy and can penalize them as it pleases for the benefit of the city or the province.

**Must Co-operate**

It will be a cardinal mistake if that notion is allowed to dominate the policy of the port authorities. Burrard Inlet is no better harbor now than it was twenty years ago. The railway grades from the prairie country are precisely what they were ten years ago. Railway rates have not been brought down to a parity with those eastward from prairie points. The effort to get them reduced has shown plainly enough that British Columbia needs all the help it can get in that matter from the prairie provinces. The measure of help it will get will depend a good deal upon the attitude its port authorities assume toward prairie traffic going and coming. Farmers and business men in these provinces will hardly exert themselves on behalf of the development of the Western route if they feel that the Vancouver harbor board intends to appropriate to itself the last cent possible of any reduction in railway rates that may be secured by their joint endeavors.

What applies at the moment to the wheat trade must apply generally to the attempt to make Vancouver the great seaport of Western Canada. While that city has the advantage of an open harbor it cannot be forgotten that it is situated nearly a thousand miles from the country whose import and export trade it hopes to handle; that powerful financial interests have made Montreal the great ocean inlet and outlet for prairie traffic and will energetically resist any attempts to divert trade to the western port; and that the hinter support Vancouver can get from the exporting and importing people of Alberta and Saskatchewan the better will be its chances of developing the large and profitable port business which it hopes for and which its location makes possible, but not inevitable.

**Other Pacific Ports**

There are other Pacific ports equally accessible to prairie shippers. If the prairie country needs the Vancouver outlet it is equally true that Vancouver needs the active backing of the prairie people. That it cannot hope to have if they do not feel that a fair share of the benefits will come to themselves. Business is largely affected by sentiment. It cannot be doubted that the threat of the Vancouver harbor board to multiply the carrying charges on prairie grain ten times has very decidedly dampened enthusiasm in this province for the diversion of traffic to the Pacific. The port authorities will have to look beyond the mountains if they want to recover that lost ground and to secure the assistance they can get—and certainly need—from the people of this province in making Vancouver the Montreal of the West.

Peter Morrison, native, was fined \$20, with the option of 14 days imprisonment, by Magistrate McClymont in the police court this morning. It was his second offence of drunkenness.

SAYS:-**

A FISHERMAN read  
Of prices high  
And sat and yawned  
And said with a sigh  
I guess I'm off  
As soon as can be.  
I'll board my craft  
And put to sea  
I'll jam her full  
Of Number One fish  
And then I'll have cash  
Just all I could wish.

The fisherman tied  
His boat to the dock  
But the price of fish  
Gave him a great shock.  
He sold his catch  
But the price was low  
And the way they culled  
Was another blow.  
He paid his bills  
Then mournfully said  
"I'm hanged if they'll leave  
Me a single red."

YES, it's quite safe to call this an old-fashioned winter just as six months ago we were in the midst of an old-fashioned summer.

NOW that Mr. Dawson has been writing to the papers, people are beginning to wonder if he is going to run for some public office.

I SHOULD like to run for Alderman or mayor or any job with a salary attached, but I can't qualify because I reside in the moon.

NOTHING would please me as much as to be a fat alderman, so that I might look wise and do as little as possible.

THERE'S one thing, if I can't get a job to serve the city in an official position I can always try for a janitorship in the temple of fame.

WHEN a person is nominated for public office why is he said to be "running"?

JAKE says he is running away

**HER CHILDREN HAD  
WHOOPIING COUGH**

This is one of the most dangerous diseases of children. It starts with fever and cough. The cough is at first short and sharp, but gradually increases in severity and occurs in sudden spasms, vomiting follows, and sometimes there is nose bleed; the child turns livid in the face, the eyes appear as if they would burst from their sockets, and suffocation seems imminent till relief is brought on by the "whoop."  
Dr. Wood's Norway Pine Syrup will clear the bronchial tubes of the collected mucus and phlegm and in this way ease the racking cough, and in a short time make it disappear.  
Mrs. L. Ambrose, Sarnia, Ont., writes:—"My little ones were both sick with whooping cough. I read where Dr. Wood's Norway Pine Syrup was good, and I only used two bottles and they were better. I had chronic bronchitis for three years and tried everything until, finally, I got 'Dr. Wood's'. I would not be without this remedy."

### Here and There

A grizzly bear barbecue will be one of the features of the Winter Carnival at Banff in February.

Ten Canadian and three United States teams have already entered for the Eastern International Dog Derby, which will be run during the Winter Carnival in Quebec, February 21, 22 and 23.

Progress and bright prospects in the development of sodium sulphate in Saskatchewan is reported by the Bureau of Labor and Industries. Sodium sulphate recovered from Saskatchewan deposits is now being used in the manufacture of glass at Redcliff.

A report of the British Columbia Industrial Commission Department shows loans to industries amounting to \$1,176,694 embracing 60 plants. Repayments have been made on principal by 55 industries. Total repayments amount to \$181,428, of which \$71,245 was interest.

For the purpose of extending Canadian trade in Greece, Turkey and the Eastern Mediterranean, W. McL. Clarke, Canadian Trade Commissioner at Milan, Italy, has been instructed to visit these countries and report on the opportunities for the sale of Canadian goods.

E. D. Calvert, noted guide and sportsman of Rainy River, who has done much towards bringing tourists from all parts of the United States to the Lake of the Woods, states that the tourist traffic this year has greatly exceeded all previous years and anticipates a greater increase next season.

United States grain shipped from Canadian ports during the crop year, September 1, 1922 to August 31, 1923, totalled 55,000,000 bushels. This meant total landings of approximately 110,000,000 bushels, as it was necessary for the grain to pass through the elevators at lake ports and at ports of exit.

Miss Marion Towne, of Berlin, N.H., who in three years since she first put on a ski, has achieved fame through her daring and graceful jumping, has expressed her desire to compete with Canada's best girl ski jumpers at the winter sports carnival in Quebec on February 21, 22, 23 and 24th, during which time she will make exhibition jumps.

Further indications that the year 1923 will create a record in ocean traffic are shown by figures given out at the headquarters of the Canadian Pacific Steamships. Bookings for westbound sailings were exceptionally large, while those for sailings to the Old Country for Christmas and the New Year were in advance of the traffic of any previous year.

The Calgary Board of Trade is taking interest in the proposal of large British interests, which involves the utilization of western straw for the manufacture of paper and other products, and is getting all possible information with respect to the development of industries. Hundreds of thousands of tons of straw are burned in the prairies every year, which it is claimed has a commercial value.

St. Jovite, Quebec, has been chosen once more as a movie location, and arrangements have been made by Conrad Nagle and Alma Rubens for the transportation of themselves, party of 17 and equipment to that place during the early winter. Last winter Lionel Barrymore and Seena Owen located at St. Jovite for the filming of "Snow Blind" prior to taking other parts of the picture around the Chateau Frontenac, Quebec, and Windermere, British Columbia.

Traffic through the Lachine Canal in 1923 showed an increase over that of 1922 in almost every particular, the total grain carried being 88,285,270 bushels, as compared with 87,831,212 in 1922, the best previous year; coal receipts totalling 813,591 tons, compared with 384,375 tons; the ship tonnage operated being 5,462,290, against 4,786,543; shipments of pulpwood totalling 356,960 tons, against 313,134 last year; the cargo tonnage being 4,411,183, compared with 4,360,323; and the number of passengers carried totalling 78,097, against 69,392 in 1922.

**NEW LAMP BURNS 94% AIR**  
Beats Electric or Gas

A new oil lamp that gives an amazingly brilliant, soft, white light, even better than gas or electricity, has been tested by the U.S. Government and 35 leading universities and found to be superior to 10 ordinary oil lamps. It burns without odor, smoke or noise—no pumping up, is simple, clean, safe. Burns 94% air and 6% common kerosene (coal oil). The inventor, G. A. Johnson, 595 McDermot Ave., Winnipeg, is offering to send a lamp on 10 days' FREE trial, or even to give one FREE to the first user in each locality who will help him introduce it. Write him today for full particulars. Also ask him to explain how you can get the agency, and without experience or money make \$250 to \$500 per month.

## SALVATION ARMY DID GREAT WORK

Record of Achievement for 1923 is Stated in Pamphlet just Issued

What the Salvation Army did in 1923 and what it hopes to do in 1924 is the subject discussed in a pamphlet recently issued by that organization. Generally speaking, it is pointed out, the effort of the Army has been in the past and will be in the future centered on the submerged tenth. Its work is with the poor of all nations, with the fallen, the erring, those tending to or guilty of crime, both men and women, with a view to their redemption and restoration.

At the beginning of 1924 the Army is established in 80 countries and speaks 55 languages. It operates 14,000 Corps and outposts and has 21,000 officers; 90,000 local officers, about 10,000 bandmen and practically the same number of songsters. It publishes 100 separate periodicals with a total circulation of approximately a million and a half copies. Contrary to the belief of many of the Army's own friends, it gives the best of its attention and care to its religious and not to its social work, believing that the hope of civilization is bound up in the conversion of the individual from evil ways to good and upright lives.

**Shelters and Depots**  
In its social work at the beginning of 1924, the Army operates 60 shelters and food depots for men, 20 shelters and food depots for women, 15 separate food depots, 180 hotels for working men (some of them very large) 18 hotels for working women, 170 homes and industrial institutions for men, 150 labor bureaus, 22 farms, 190 slum posts in large cities and 5 homes for inebriates.

In connection with its prison work it operates 16 prison gate homes into which it will receive at least 3,000 discharged convicts during this year. Last year it received 2575 criminals and has good reports of 23200. In the women's industrial homes, rescue institutions for unfortunate and fallen women, it received during last year over 8,000 and released over 7,000 with hopes for their satisfactory future lives. Of these institutions the Army maintains and will operate 50 maternity homes through 1924, with accommodation for about 1600 women.

The list of Social Institutions of the Army number more than 1400 and the officers and cadets in social work number more than 4,000. During 1923 the Army found employment for about 125,000 men and women and secured temporary employment for more than 200,000 men. It supplies meals to about 15,000,000.

**British Boys**  
During 1923 General Bramwell Booth arranged a plan to send 10,000 British boys to the colonies, the majority of whom will come to Canada. A few hundred of these boys arrived in Winnipeg in 1923 and a larger number will come during 1924. Every arrangement is made for their settlement and supervision. Practically every one of the boys already brought to Canada in the past has succeeded. The Army will also send to Canada during 1924 large parties of girls for domestic service, widows, children and some other classes, as may seem desirable. The Army believes in assisting and does assist the migration of these clas-

## FLOATING SPECKS BEFORE THE EYES MEANS LIVER TROUBLE

When specks start to float before the eyes, when everything seems to turn black for a few seconds and you feel as if you were going to faint, you can rest assured that your liver is not working properly.

The essential thing to do in all cases where the liver is slow, lazy or torpid, is to stir it up by the use of Milburn's Laxa-Liver Pills and clear away the accumulated mass of waste and poisonous matter from the system.

Mr. Chas. Ayland, Frankville, Ont., writes:—"I used to be awfully bothered with floating specks before my eyes, headaches and sickness to my stomach. I took just half a vial of your Milburn's Laxa-Liver Pills and ever since I have felt as well as I ever did. Now I always keep them on hand."

Milburn's Laxa-Liver Pills are 25¢ a vial at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

The religious work of the Army in Canada made steady progress throughout 1924.

## CANADIAN NATIONAL WILL INSTAL RADIO SETS IN THE TRAINS

W. D. Robb Announces Innovation to be Inaugurated During Coming Year

According to an announcement made by W. D. Robb, vice president of the Canadian National Railways, radio will prove an important part in the service of the National system during the coming year. By making use of existing broadcasting stations and by the erection of others, programs of entertainment and news will be broadcasted from one end of the Dominion to the other.

Another important item will be the equipping of all transcontinental trains of the Canadian National Railways with radio receiving sets and placing them in charge of skilled operators, so that news items and concerts may be broadcasted to trains en route across Canada. Very successful experiments along this line were carried out during the past summer by the National system, when all special trains

were equipped with radio receiving sets and concerts and news picked up by them while the train was travelling. A radio receiving set installed in the car used by Mr. Lloyd George was the means of bringing to him world wide news of great importance and of causing him to characterize as "inevitable" this special feature of the Canadian National service. The official announcement of Mr. Robb is as follows:

"Realizing the intense interest in radio conception in Canada, there now being over 100,000 radio users, it may not be amiss for me to state briefly the radio plans now in process of fulfillment on the part of the Canadian National Railways.

## GERMAN SETTLERS LIKELY FOR CANADA

Visitors from Hamburg are Looking Over Country View to Sending Settlers

EDMONTON, Jan. 14.—Securing information as to the opportunities for immigrants Dr. Preusse Sperber, manager of the association of German immigrants, and Wilhelm Kelger, both of Hamburg, Germany, were in Edmonton consulting with local authorities yesterday. The Association of German immigrants is an organization which undertakes to give reliable information to people in Germany who want to immigrate and to help them to reach the land to which they want to go. Accompanying them are John Schreffen of the Canadian National colonization department and Henry Mohr representing the Cunard line.

Dr. Sperber states that he has found conditions very excellent for immigration and that if the plans of the association are approved by the Canadian authorities, there should be a considerable number of German farmers come to Canada.

ring application to the legislature for charter amendments. The following changes are under consideration, which will, of course, have to be discussed by council later:

- To repeal all sections of the said charter, which impose liability on the city for non-repair of highways, streets, sidewalks, etc.
- To authorize the construction of sewers at the cost of the city at large, with the right to impose a frontage charge upon all property abutting thereon, instead of constructing sewers as local improvements.
- To authorize the issue of interim certificates to purchases of debentures, pending the issue of the regular formal debenture.
- To validate certain local improvement by-laws.
- To repeal the clauses of the Edmonton charter relating to early closing.

hear's Eighth Wife."  
Cameo comedy "Wrecks."  
Fox News Gazette.

York family, who had gone into the Northwest woods to escape the shallowness of his former life.

The bashful youth is kidnapped by the girl, a situation which, misinterpreted by the hardy pioneers of the woods country, throws the girl and boy into a series of complications, both dramatic and humorous.

**Wins Husband**  
In the role of "Bela," the girl, Colleen Moore has a role which seems especially adaptable to this pleasing and versatile young star. She entrances her audience with her portrayal of the mischievous, vivacious and romantic white-Indian who wins her husband despite his contrary efforts.

### THE HUNTRESS SHOWS GIRL KIDNAPPING A HUSBAND FOR HERSELF

The story of "The Huntress" calls for the solving of no problems; there is "no eternal triangle" to grapple with and no improbable situations. Briefly, it is a plausible, clean, romantic, comedy-drama that takes us for awhile away from the prosaic surroundings of our everyday life and transports us into a land of romance and charm.

Were it not for the tensely interesting story that holds the audience from the minute that the first scene is thrown onto the screen and were it not for the brilliancy of the cast which enacts its various roles, "The Hunt-

ress" would be a picture long to be remembered for its settings alone.

The picture is styled an "outdoor comedy-drama." And such it is for almost all of the scenes are laid in the open, with towering, snow-capped mountains and beautiful, sparkling lakes as a background—such magnificent settings as are rarely seen on the screen.

#### The Story

The story of "The Huntress," an adaptation of the novel by Hulbert Footner, is simple, but a delightful one nevertheless. It centers about a white girl who, through circumstance, has been reared among Indians. She believes she is an Indian herself until she reaches the dawn of womanhood.

Then, learning that she is white, she decides to get a white husband and chooses for her

### Sport Chat

Since the resumption of play following the holiday season, the league basketball games have been rather listless and uninteresting but a change is in store with the games this evening. The Sons of Canada and Colts will meet in the Senior League and the chances of the two seem about even with the latter perhaps a little more zealous for they must win this match to give them a real good fighting chance for championship honors. In the Ladies' League, Adanaes and Maple Leafs tied for first place, will tangle and that should be enough to say about it. The result of the game will probably have much to do with settling the ladies' championship for the season. Colts and Grotto will take the floor in the Intermediate match. The latter team has shown a good deal of improvement lately and there is a chance that they may cause the champion Colts to extend themselves a little. Stars and High School are scheduled to meet in the Junior League.

# MILLIONS and Movies

THROUGH the medium of slender strips of celluloid an actor appears simultaneously on thousands of screens in as many different towns. On the same evening, he entertains great armies of film fans who eagerly pay their money to see his performance.

So the movie star commands a king's ransom for a salary, and a fortune is spent profitably, to provide a proper background for his art. The movie multiplies personality—and earning power.

Advertising does the same thing for a merchant or manufacturer. In a single day it takes his message into thousands of homes—to tell folks why they should have his goods and how to get them. Advertising endows him with a thousand voices with which to tell his story.

But the value of advertising is by no means confined to the advertiser. It has a very definite value to you.

A glance through this paper enables you to sift out the things that interest you. Sitting in your easy chair you can compare values and prices. In a moment you can tell exactly where to go for what you want and how much to pay.

Figure how much useless walking and talking and how much actual money you can save by spending a few moments daily with the advertisements.

### PLENTY OF WEATHER

Many Changes on Prairies as Well as on Coast

"London-in-the-fog" had nothing on Edmonton about twelve o'clock last night, says a recent number of the Edmonton Bulletin. It was thick—one of those thick damp mists that make you lose your way, chills you to the bone and gives rise to thoughts of rheumatism, pneumonia, tonsillitis, colds and aches of all descriptions.

Jasper Avenue presented an unusual picture in the wee sma' hours of the morning—glistening pavements, hazy lights stretching into the distance with here and there a darkly muffled form slipping ghost-like through the fog. Occasionally a glow of diffused light would spread over the whole street and an automobile would burst into view through the dark atmosphere.

Edmonton is having plenty of

weather. In fact nature is showing a surprising versatility this winter. It was cold on Friday, warm on Saturday, raining Saturday night, not so warm on Sunday and foggy and mild on Sunday night. Anyone who ventures to prophesy what will happen today is indeed rash. It may rain, snow or freeze or do all three without doing anything it hasn't done recently.

## SYNOPSIS OF LAND ACT AMENDMENTS

**PRE-EMPTIONS**  
Vacant, unreserved, surveyed Crown lands may be pre-empted by British subjects over 18 years of age, and by aliens on declaring intention to become British subjects conditional upon residence, occupation, and improvement for agricultural purposes.

Full information concerning regulations regarding pre-emption is given in Bulletin No. 1, Land Series, "How to Pre-empt Land," copies of which can be obtained free of charge by addressing the Department of Lands, Victoria, B.C., or to any Government Agent.

Records will be granted covering only land suitable for agricultural purposes, and which is not timberland, i.e., carrying over 5,000 board feet per acre west of the Coast Range and 5,000 feet per acre east of that Range.

Applications for pre-emption are to be addressed to the Land Commission of the Land Recording Division, in which the land applied for is situated, and are made on printed forms, copies of which can be obtained from the Land Commissioner.

Pre-emption must be occupied for five years and improvements made to value of \$10 per acre, including clearing and cultivating at least five acres, before a Crown Grant can be received.

For more detailed information see the Bulletin "How to Pre-empt Land."

**PURCHASE**  
Applications are received for purchase of vacant and unreserved Crown lands, not being timberland, for agricultural purposes; minimum price of first-class (arable) land is \$5 per acre, and second-class (grazing) land \$2.50 per acre. Further information regarding purchase or lease of Crown lands is given in Bulletin No. 10, Land Series, "Purchase and Lease of Crown Lands."

Mill, factory, or industrial sites on timber land, not exceeding 40 acres, may be purchased or leased, the conditions including payment of stumpage.

**HOMESITE LEASES**  
Unsurveyed area, not exceeding 20 acres, may be leased as homesites, conditional upon a dwelling being erected in the first year, title being obtainable after residence and improvement conditions are fulfilled and land has been surveyed.

**LEASES**  
For grazing and industrial purposes areas not exceeding 640 acres may be leased by one person or a company.

**GRAZING**  
Under the Grazing Act the Province is divided into grazing districts and the range administered under a Grazing Commissioner. Annual grazing permits are issued based on numbers ranged, priority being given to established owners. Stock-owners may form associations for range management. Free, or partially free, permits are available for settlers, campers and travellers, up to ten head.

Mrs. H. Z. MacLeod went through our factory at Ladner about two weeks ago. She writes today to say she had never been a user of Pacific Milk until that time. "The pure fresh milk from over Ladner so carefully handled convinced me that this British Columbia product is worthy of all that has been said of it — and more."

We thank Mrs. M., and invite others to inspect either or both our factories.

## INDIAN BOY PASSED AWAY IN HOSPITAL

Eleven-Year-Old Lad Brought Here Last Summer From Telegraph Creek Expires

Charles Dease, 11-year-old Indian boy, who was brought here from the Stikine River by Father Allard of Smithers last summer, expired in the Prince Rupert General Hospital yesterday afternoon. The boy had been seriously ill and had suffered terribly from exposure and lack of attention before he arrived here. His condition was regarded as hopeless and his death was not unexpected. He has parents living at Telegraph Creek it is understood.

## EDMONTON CANADIAN CLUB TO AID MARKET ALBERTA COAL MINES

The Edmonton men's Canadian Club has gone on record as being willing to give active support in the finding and supporting of markets for Alberta's coal. At a meeting of the local organization on Tuesday it was decided to get in touch with other clubs in Ontario with a view to urging a larger market in the east for Alberta's coal.

It was decided also at Tuesday's executive meeting to link up the scheme fostered by the National Association of Canadian Clubs to facilitate the securing of prominent speakers for luncheon meetings of clubs throughout the Dominion.

## SPLENDID CRUISE FOR NAVAL RESERVE

Qualified Men Will be Taken on Voyage Aboard British Warships

ESQUIMALT, Jan. 14.—Arriving just at the commencement of the R.C.N.V.R.'s training season next June, the British first light cruiser squadron and the two battleships H.M.S. Hood and Repulse will bring with them an opportunity to Canadian Reserves that has never before offered them before. Those who are qualified for training afloat will be taken on a trip around America by way of the Panama Canal in the best ships of Britain's navy, while others will be taken to Halifax with the light cruiser fleet by way of Cape Horn. One hundred R.C.N.V.R.'s will participate on this cruise and will secure the best of training that some of the world's best instructors can give, using all the most up-to-date equipment that has been provided for on these warships of a late type.

Fifteen volunteer men will train aboard each of the four light cruisers while twenty will be accommodated aboard the H.M.S. Hood, the world's largest battleship and the H.M.S. Repulse. This makes a total of 100 volunteers altogether. This splendid opportunity is expected to encourage an even stronger enlistment of volunteers this year, and many more volunteers are expected to attend the training season at the Esquimalt base this year than last.
