BRITISH SOLDIERS FIRED UPON IN IRELAND

HON. A. M. MANSON DELIVERS NOTABLE ADDRESS AT ROTARY LUNCHEON

Democracy Not Always a Complete Success in Opinion Mr. Manson

"If ever there was a contentious and difficult law to administer it is the Liquor Act," declared Hon. A. M. Manson, Attorney General, in addressing the Rotary Club yesterday on some of the difficulties with which a minister has to contend and in urging his hearers to devote themselves to public service.

"With the unreasonable opinions of the prohibitionists on one side and that of the liquor men on the other, the liquor law is not one that any government would wish to have to administer. At first it took more than a third of my time but latterly things have been going better and it does not take anything like as much as that but yet it is responsible for more grey hairs than any other work I have to do."

PROGRAM FOR AIR PATROL

Two Machines Will Operate For Fisheries Department Out of Here if Plans Approved

The extension of airplane patrol planned by the Dominion Fisheries department for Prince Rupert district this year calls for 300 flying hours as compared with 70 last season. The total mileage will be 20,000 as against 5,000 last year. The area it is proposed to cover stretches from Cape Ganton opposite the northern end of Vancouver Island to the Alaskan boundary, a distance of approximately 300 miles as compared with some 100 miles north and south of Prince Rupert covered by Flying Officer Earl MacLeod of Jericho Beach station last year.

This will require two seaplanes being placed on patrol from Prince Rupert. It is likely that sub-depots will be established from time to time at the Queen Charlotte Islands and Bella Bella but the main base will be at Prince Rupert.

If the estimates providing for the increasing of the patrol are adopted, the machines will start their duties here early in May.

NARBETHONG UNDER WATER

Seen this Morninn in Shawatlans Passage by Road Superintendent

P. W. Anderson, road superintendent, returning this morning from Galloway Rapids, reported the launch Narbethong, Capt. Hoopes K. Freeman, to be sunk in the small bay at the end of the pipe line in Shawatlans Passage, with the dinghy attached.

Yesterday Mr. Anderson passed the Narbethong while he was bound out with a party of men for the road survey camp that has been established on the other side of the island and at the time the boat seemed to be all right. Nothing was seen of Capt. Freeman by Mr. Anderson this morning.

Enquiry made at the waterfront this afternoon elicited the information that Capt. Freeman left port about the middle of the week to tow some piles. Nothing had been seen of him since but no cause for alarm was felt as the captain was accustomed to going out without giving notice of where he was going or how long he would be gone.

The provincial police have been notified and are investigating.

ELEVATOR IS DISCUSSED BY A COMMITTEE

Council of Board of Trade and Representatives From City Council Canvass Situation

NO IMMEDIATE ACTION

Reported That Stork Working Hard on Problem and Will Keep in Close Touch With Him

The joint committee of the Board of Trade and City Council yesterday afternoon decided to await developments before taking any action in connection with a further elevator campaign. The committees of the Board of Trade and City Council will keep in close touch with Fred Stork and F. G. Dawson, the latter of whom is going to Montreal in connection with the letting of the contract for the Alaska steamship, Prince Henry.

At the meeting, which was presided over by S. J. McLeod, president of the Board of Trade, Theo. Collart explained that the

BUS STRIKE IN LONDON

Forty Thousand Men Are Out and London is Walking Today

LONDON, March 22.—The tramway and omnibus drivers and conductors are on strike and London people are forced to walk today. The strike is the result of a demand on the part of the tramway employees for higher wages and a sympathetic walkout by the omnibus men. About 34,500 omnibuses are tied up and 40,000 employees are involved.

It is estimated that seven million people are carried on the trams and buses altogether daily, many of whom must otherwise walk.

There is a possibility that subway employees will join the strikers but at present will continue work.

HOPE GIVEN UP

TOKIO, March 22.—All hope to rescue 18 men trapped in the after compartment of submarine 43 was abandoned this afternoon, this is an early season, it is efforts to remove the vessel from the ocean bottom failed.

STEWART WILL PROBABLY HAVE A BIG SEASON

Development of Bear River Promises to Cause Great Activity in That District

STEWART, March 22.—Stewart is expecting one of the biggest years in its history, possibly the biggest on record. The development of the Salmon River properties has been going on steadily but it is the Bear River movement that is today attracting most attention. The developments at Dunwell Mine has shown that the ore is there and that there will be actual shipping mines in that region very soon.

A number of properties which have lain idle for years will again be prospected or developed and with the opening of spring there will be a big movement of people to this place.

Already the snow is beginning to go on the flat but it will be two months before it is gone in the mountains so that work can commence. Owing to the fact that 43 was abandoned this afternoon, this is an early season, it is thought work will begin much earlier than usual.

City Manager Plan of City Government is Discussed at Meeting of Property Owners

The Prince Rupert Ratepayers' Association last night listened to a discourse by John Dybhavn, president of the association, on the merits of the city manager system, and passed a resolution instructing its executive to draw up a resolution on the question with a view to having it dealt with by the city council.

In the course of his address, Mr. Dybhavn referred to the manner in which the city manager system had gained ground in the past few years. It had been found to be more business-like and efficient than the present system. Under the plan of city recommendation to the city council.

A motion of F. W. Hart and George W. Johnstone tendered a vote of thanks to Mr. Dybhavn for his address and called upon the executive to follow the matter up and bring in a resolution at the next meeting of the association.

The system was similar to that employed by business corporations. The council was like a board of directors and the manager like a general manager.

No Longer Experimental

Mr. Dybhavn stated that the system had passed the experimental stage. It had been adopted by 327 cities on the American continent and not one of them had returned to the old form of civic government. It had resulted in the obtaining of better business administration and eliminated to a large extent political patronage. It put community welfare above politics. Originating in the United States in 1908, there were now half a dozen cities in Canada that had adopted the plan. Westmount, Quebec, had been the first city in Canada to take it up in 1913. It had proven highly satisfactory there. Woodstock, N.B., had also adopted it with success.

The usual method was to have a council of five members, each member being assigned to one department to assist the manager in his administration. The manager was subject to the control and supervision of the council and it was his duty to supervise all work and administration of the city. All departmental heads were directly responsible to him. The electors were the shareholders. They elected their board of directors in the form of the council who in turn appointed their general manager. He had charge of the carrying on of business in accordance with the policies set down by the council. Cities from a population of 1,000 to 200,000 had found the system successful.

Not New Here

Mr. Dybhavn stated that the plan was not entirely new in Prince Rupert for it had been discussed unofficially by councils some years ago. There was yet time to take the matter up, Mr. Dybhavn felt. If the city was to follow the trend of the times and keep abreast of demands, it must eventually come to this form of civic government. It was quite possible to accomplish the change under the present Municipal Act. The question of changing the number of aldermen was one for the people to decide upon. The council had the power to appoint a city manager at any time. He would recommend that the association at least study the proposition and bring it to the attention of the city council, if it felt that it was desirable to do so.

Ex-Mayor H. B. Rochester expressed his hearty approval of the idea. It was the coming form of government and it was just a question of time as to when it would be adopted here. He suggested that the association take it up with a view to submitting a

British Soldiers and Their Wives and Families are Fired Upon by Machine Gun at Queenstown

Machine Gun in Motor Car used in Murderous Attack: President Cosgrove Expresses Regret and Offers Reward.

QUEENSTOWN, March 22.—A detachment of British troops landing here on leave yesterday was fired on by a machine gun set in a motor car which it is said was operated by four soldiers of the Free State army. There were twelve casualties in killed and wounded among the British soldiers.

DUBLIN, March 22.—General O'Duffy, commander in chief of the Free State army, has sent members of his staff to Queenstown to investigate the attack on British soldiers yesterday. It is reported that the assassins fired 100 shots. The whole affair lasted only a few minutes. The latest reports say that two women were among the wounded.

President Cosgrove telegraphed Premier Macdonald as follows: "Am shocked to learn that British troops were fired upon in Queenstown Harbor this evening. Hasten to assure you the cowardly crime will arouse the same horrors of detestation throughout Ireland as it has caused myself and colleagues. No effort will be spared to bring them to account."

QUEENSTOWN, March 22.—In yesterday's shooting two soldiers were killed and four wounded who are not expected to recover. Seventeen others were seriously injured.

£10,000 Reward

DUBLIN, March 22.—A reward of £10,000 is offered by the Free State government for information leading to the arrest and conviction of persons concerned in the shooting of British soldiers at Queenstown yesterday. Word received here from Cork says a search for the men responsible is being conducted throughout the country but no arrests have been made so far.

The Free State government announces it will compensate all the wounded and relatives of the dead. Many of the British soldiers had their wives and children with them when attacked and

were unarmed.

LONDON, March 22.—The public here were astounded to learn of the murderous attack by unidentified men upon the party of unarmed British soldiers and their wives and families at Queenstown. The Times editorially regards the episode as the "latest symptom of lawlessness breaking out afresh in consequence of divisions in the southern Ireland government."

LOCKOUT HAS BEEN DEFERRED

Pressure to be Brought to Bear on Southampton Workers to Resume

LONDON, March 22.—The threatened lockout in the shipbuilding industry has been deferred. At a conference in Carlisle the employers agreed to grant further time to bring pressure to bear on the Southampton workers to resume work. Meantime the employers have offered arbitration by an industrial court, failing a mutual settlement.

LARKIN EXPELLED FROM IRISH UNION

Was Suspended From Secretaryship by Transport Workers Last June Now Fired

RELEASED, March 22.—The Labor organ of the Irish transport workers union announced that at a meeting of the executive James Larkin, who was suspended last June as general secretary, has been expelled from membership.

NEW AMERICAN BOATS IN PORT

Western and Brisk Marketing First Catches After Maiden Trips to Banks

Two brand new American hali-but schooners are in port today unloading their first catches after their maiden trips to the fishing banks. They are the Western, owned and skippered by Capt. George Eliassen formerly of the Valid, and the Brisk, owned and captained by A. Knutsen. Both craft are about sixty footers and carry seven men each, their fish holding capacities being about 60,000 pounds. The Western has a full diesel engine and the Brisk is powered with a Wickman semi-diesel. Both are trim craft and look to be well suited for the business which they have entered.

JACK RENAULT WINS OVER CAPT. BOB ROPER

GRAND RAPIDS, Mich., March 22.—Jack Renault, Canadian heavyweight champion, defeated Captain Bob Roper of Chicago in a ten round bout, according to the opinion of newspapermen.

AUTO TOURISTS ARE CAUGHT IN BLIZZARD

TOPEKA, Kansas, March 22.—Stranded at Kendall, Kansas, by blizzards and heavy snows are 130 auto tourists. Many of them are ill from exposure and without medical aid. State officials are making efforts to rescue them.

MANY ARE USING CLASSIFIED ADS.

In today's classified columns there are advertised:
 for Sale:—Houses,
 hatching eggs, boat engines, power boats, household furniture, cows, new and second hand machinery, pullets and cockerel, phonograph.
 To Trade:—House in Vancouver for house in Prince Rupert.
 For Rent:—Offices, rooms.
 Wanted:—Men and women to learn barber trade, pupil nurses, furnished house or rooms, girls to join bookkeeping and stenography class.

NEARLY 200 MEN AT DOCK

On Account of Scottish Job Regular Staff is Augmented

Including about 65 to 70 additional men engaged on the Canadian Scottish repair job, there are now about 180 men employed at the local dry dock. This number will be employed for some weeks or nearly until the time when the big repair job is completed. Two shifts are working on the vessel.

Besides the work on the Scottish there has been quite a lot of general activity at the dry dock recently, employing a staff of from 80 to 130 as required.

LADY ASTOR'S SON RODE TO VICTORY

SANDOWN, March 22.—Robert G. Shaw, eldest son of Lady Astor, rode his own horse at Leebridge to victory yesterday in the grand military gold cap race in a field of eleven runners.

A Nervous Wreck

Victim of Gas—After Endless Suffering—Turns To His Old Friend and Is Well

The Fruit Treatment "Fruit-a-tives"

One of the most astonishing recoveries that seems almost like a miracle, is that of Mr. James Dobson of Bronte, Ont., a prominent merchant, a mine owner and one of the charter members of the Dominion Stock Exchange, Toronto.

In 1912, Mr. Dobson was completely relieved of Rheumatism by taking the Fruit Treatment, after suffering for more than five years.

In January of last year, Mr. Dobson was almost suffocated by gas from a furnace in his house. He says, "I had blood tests, analysis of the stomach, X-ray of teeth, had eight teeth extracted and became a nervous wreck. Finally, my wife suggested trying our old medicine 'Fruit-a-tives', which I did. Today, I weigh 189 pounds instead of 140 and am completely restored to health. In my estimation, there is no other medicine that will give as good results as 'Fruit-a-tives'."

Thousands and thousands of people, in the past eighteen years, have come to the same conclusion—that "there is no other medicine that will give as good results as 'Fruit-a-tives'—for all troubles arising from a disordered condition of the stomach, liver, kidneys or skin.

"Fruit-a-tives" are the intensified juices of apples, oranges, figs and prunes, combined with tonics and form a complete treatment in themselves. If you are not well, try the Fruit Treatment. Your dealer has "Fruit-a-tives"—25c. and 50c. a box—or sent postpaid by Fruit-a-tives Limited, Ottawa, Ont.

ST. PATRICK'S CONCERT WAS GREAT SUCCESS

Anyox Celebrated Event in Fitting Style With First Rate Entertainment

ANYOX, March 22.—St. Patrick's Day was fittingly celebrated in Anyox by a concert and dance held in Recreation Hall under the auspices of the Catholic Ladies, and which was largely attended and thoroughly enjoyed between the hours of nine and two. Excellent arrangements had been made to take care of the guests, the hall being tastefully decorated, the supper tempting and the music good, a combination assuring success. The items of the concert portion of the evening's entertainment were in keeping with the spirit of the day. Mrs. E. Morning sang "Green Isle of Erin"; Mrs. J. Conway, "A Little Bit of Heaven"; and Mr. Hegerly, "Old Plaid Shawl" and "Phil the Fluter's Ball"; while four of Mrs. F. M. Kelley's dancing class, consisting of Patricia O'Neill, Vera Eve, Teresa Gordon, and Edna Herrin, rendered a typical Irish dance in fine style. The accompanist for the singers was Mrs. W. O'Neill and for the dancers Mrs. S. Herrin. Those who were most instrumental in making this annual affair so successful were Mrs. A. Morton, Mrs. John Dillon, Mrs. W. O'Neill and Mrs. E. Morning. P. Ryan was in charge of the decorations and W. Olson saw that the coffee was just right.

FISH ARRIVALS

Eight Boats Sold Catches Totalling 88,000 lbs. at Fish Exchange This Morning

Eight halibut schooners marketed catches totalling 88,000 lbs. at the Fish Exchange this morning. Three American boats had 33,000 lbs. and five Canadian, 35,000 lbs.

Arrivals and sales were as follows:

- American**
 - Western, 23,000 lbs., at 43.4c and 6c, to the Booth Fisheries Canadian Co.
 - Brisk, 22,000 lbs., at 43.4c and 6c, to the Adin Fisheries.
 - Pelican, 8,000 lbs., at 43.4c and 6c, to the Pacific Fisheries.
- Canadian**
 - Cape Spencer, 11,000 lbs., and Ingrid H., 10,000 lbs., at 41.8c and 6c, to the Royal Fish Co.
 - Cape Swain, 6,000 lbs.; W. & E., 5,500 lbs. and Bingo, 2,500 lbs., at 41.6c and 6c, to the Canadian Fish & Cold Storage Co.

The Man in the Moon SAYS

IN these days when rubber is in common use even the conscience becomes elastic.

THE man who lost his head was said to be the gainer thereby.

A LOT of local bachelors are in love. They are in love with themselves.

IT takes a tax collector to know when you are well off.

PRINCE Rupert people seem to be divided into two classes; those who need more pep and those who need more sleep.

WE have had individual planes here before but to have a whole circus of planes will bring everybody out in the sun to watch their arrival.

The people who work hardest at their job around these parts are the faultfinders.

IT'S wonderful how much trouble can be extracted on occasion from a quart bottle.

THE person who paints the town red is usually a green youth.

A WOMAN is said to be like the peace of God. She passeth understanding.

LIFE is a great game but not enough of it is played out of doors.

AFTER-EATING DISTRESS

and all forms of stomach trouble such as gas pains, acid, sour, burning stomach are all relieved in two minutes by taking Jo-To. Jo-To sold by all Druggists.

DEMOCRACY NOT ALWAYS A COMPLETE SUCCESS IN OPINION OF MR. MANSON.

(continued from page one)

for purely selfish reasons. Throw Off Indifference

Democracy was the most expensive form of government. All democratic governments were extravagant or expensive. He did not believe of this suggest the abandonment of democratic institutions, but the time was ripe for all to shake themselves and throw off their indifference and decide to take part in public affairs.

Governments, Mr. Manson said, were influenced by the vox populi but only in the vox populi as expressed at the polls and not as whispered at the street corners. They could scarcely understand what an embarrassment to a government was an indifferent electorate.

In carrying on the government there were many conflicting influences at work. Many unreasonable demands were made of the government and many of the demands were made by powerful influences that carried on strong propaganda. This was not in the real interests of the community. To get rid of these influences all must be real citizens instead of occupants of positions. In Vancouver, Mr. Manson said, he told the people he would like to see a Macdonald Club as well as a Laurier Club. He had passed by many years the point where he believed it made much difference to which party a person belonged. The main thing was that he took an interest in affairs and saw that they were carried on in a decent and respectable manner.

Sympathy and Anathemas

In giving members of the club an idea what a minister had to contend with in carrying on his work, Mr. Manson said he had many expressions of sympathy and even more anathemas. His own duties were multifarious. There was a justice department which included the supervision of court work and officials connected therewith, supervision of the provincial police, jails and sheriffs.

Under the heading of legislation the Attorney General pointed out that all bills had to be supervised by himself. Out of an average of one hundred bills passed each session, from seventy-five to eighty originated in his own department and the others had to be drafted in his department and passed. This entailed an immense amount of work.

Litigation had to be attended to. In the early days of a province there were many constitutional cases that had to be fought out and suits carried on civil and criminal. The more laws passed, the greater was the difficulty. Sometimes he wondered if they had not gone too far in the matter of "must nots."

The Game Act and supervision of matters of conservation and protection of this vast resource came under the department of the Attorney General. Also there was supervision of the work of municipalities to see that the law was obeyed. The work of dealing with joint stock companies also lay in his department as did also administration of the Factories Act with inspection to see that machinery was safe for those employed. Then there was insurance, fire prevention. He was the official guardian of orphans, had charge of industrial schools and of the estates of the insane. Then piled on top of all this was administration of the Liquor Act or the "department of grief" as it has been dubbed.

Tugged at Heart Strings

Workmen's compensation was one of the easy departments because they had always been fortunate in the personnel of the board. It gave little trouble. Mothers' pensions was difficult to handle for it had to be conducted in a businesslike way and yet the appeals made to him often tugged at the heart strings. This took some part of practically every day.

Censoring moving pictures so that nothing shocking should be presented to their families, was part of his work. He was of opinion that even yet censorship was not sufficiently strict. The theatres were flooded with pictures that were not good for the youth that frequented them. There were land titles and juvenile courts to receive attention, dog licenses and motor vehicle licenses and he was also minister of labor. In recent years he had also the direction of the liquor business and was a director of the P.G.E. This would give them

Worry is only Fear Fear of Self—Fear of Others—Fear of the Future

AND what is the cause of worry? Lack of nerve force, energy, vigor. The man or woman who has good health and is living a full, successful life does not worry.

It is when the nervous system gets run down that worry comes to sap vitality from your body and to torment your mind.

There is not much use in advising one not to worry unless you can also offer some means of restoring the depleted nervous system.

The most rational and most successful treatment available to all is Dr. Chase's Nerve Food.

It is popular because it does not merely afford temporary relief but gradually and certainly restores vitality to the run-down nervous system.

Dr. Chase's Nerve Food can make a better human being of you, mentally, physically—everyway.

The benefits felt will be in the way of new energy, new vigor and confidence.

The futility of worry will dawn on you and you will be able to see the bright and hopeful side of the future.

You will realize that you have the reserve force necessary to withstand the strain of life's work and ward off disease and discouragement.

But do not expect this change in a day. Some perseverance is necessary on your part.

The reconstructive process is slow but certain. The depleted nerve cells must be nourished back to health.

You will soon notice signs of improvement which will encourage you to keep up this treatment until the desired results are obtained. The important part is to get the building-up process started now—to-day.

You will notice that while the price of Dr. Chase's Nerve Food has been increased to 60c. the box now contains 60 pills instead of 50 as formerly.

Likewise Dr. Chase's Kindey-Liver Pills are 35c. for 35 pills, instead of 25c. for 25 pills. Edmanson, Bates & Co., Ltd., Toronto.

DAILY EDITION Saturday, March 22, 1924.

Manson Urges Public Service.

Hon. A. M. Manson, Attorney General, yesterday when addressing the Rotary Club of Prince Rupert urged that everyone devote some time to public service. In illustrating the need for this he mentioned the lack of interest among electors in connection with voting. Too small a percentage took part in elections.

Mr. Manson's words are very appropriate here just now at a time when the lists are being made up on which the provincial election is likely to take place. There are still a number of people in Prince Rupert whose names are not on the provincial voters' lists and if they do not register at once they will not be able to vote when election time comes. The time to do it is on Monday next, while the matter is fresh in mind. Once the lists are closed it will be impossible to get a vote. Those wishing to register should go to the registrar at the court house.

Blackening Characters.

It is surprising in a village how quickly a scandal passes around. Someone starts a surmise and the next person repeats it as fact and very soon it becomes generally believed that some local person has been doing something which is immoral or otherwise scandalous. Tales get going and are not easily stopped. They form impressions on the mind that it is almost impossible to eradicate. For that reason people should be very wary how they listen to stories about their neighbors and even more wary how they repeat them. Untold harm is often done by scandalmongers.

We hang a murderer, imprison a thief but the man who steals away the good reputation of a neighbor is often classed as a good citizen, respectable and sometimes even a church member.

Playground Before Public.

It is very satisfactory to know that the matter of playgrounds is once more being discussed by the people of the city. It is something that cannot receive too much consideration. The publishing of the diagram on the front page of this paper a few days ago gave people here an opportunity to appraise the McBride Street and Sixth Avenue scheme and of course a lot of opposition had to develop. At any rate it is a good thing to discuss it and to know exactly what it means.

If it is decided not to go ahead with the larger playground scheme, no time should be lost in providing an opportunity for the Gyro Club to use one of the corners. They have been most public spirited in collecting money and making plans for the laying out of a ground and the support they got financially is an indication of the interest taken by the public in the proposal. We feel sure that the city council will use them well and that in the near future the young people of the city will benefit from the activities of that organization.

University of Toronto Toronto Conservatory of Music

SIR EDMUND WALKER, C.V.O., LL.D., D.C.L., Chairman, Board of Governors. A. S. VOGT, Mus. Doc., Principal. HEALEY WILLAN, Mus. Doc., F.R.C.O., Vice-Principal.

Highest Artistic Standards. Faculty of International Reputation. The Most Comprehensively Appointed School of Music in the Dominion.

LOCAL EXAMINATIONS IN MUSIC

For the Dominion of Canada

Will be held according to locality, in May, June and July next.

Attention is directed to the modern and skillfully graded character of the Conservatory's curriculum and to the unrivalled prestige and artistic distinction of the instruction's corps of examiners. Two important factors combining to provide examinations of greater service to earnest music students and of utmost value to the general cause of music throughout Canada. The remarkable growth of the Conservatory's Local Examinations is due to their practical endorsement by a preponderating number of the foremost teachers of music throughout Canada and to the value attached to the instruction's certificates of proficiency by students and parents and by the profession generally.

Year Book and Syllabus will be sent to any address on request. Applications for Midsummer examinations should reach the Registrar on or before May 1st next.

AT 80 YEARS OF AGE WAS TROUBLED WITH SHORTNESS OF BREATH PALPITATION OF THE HEART AND FAINTING SPELLS

Mrs. M. O'Connor, Whitestone, Ont., writes:—I have been troubled, most of my life, with shortness of breath, palpitation of the heart and fainting spells. I was advised by a friend to try Milburn's Heart and Nerve Pills, which I did, and at once found relief, and I have never had a really bad spell since.

I am 80 years of age and always keep them in the house, and when I feel any symptoms of my old trouble coming on all I have to do is to take a few doses. With the help of your Pills I expect to see many years yet. I always recommend them to any one who is suffering from heart trouble.

Milburn's Heart and Nerve Pills are 50c a box at all dealers, or mailed direct on receipt of price, by The T. Milburn Co., Limited, Toronto, Ont.

ABE GOLDSTEIN IS BANTAM CHAMPION

Gained Verdict of Judges After Whipping Joe Lynch at New York

NEW YORK, March 22.—Abe Goldstein won the world's bantamweight championship from Joe Lynch in a one-sided fifteen-round battle here. Goldstein gained the judge's verdict after decisively whipping his rival.

NORWEGIAN SCHOONER MAY POSSIBLY BE LOST

VANCOUVER, March 22.—Apprehension is being felt in Honolulu for the Norwegian schooner which is three weeks overdue.

The schooner left a Vancouver Island port on February 2, with a cargo of lumber and should have made the run at the average of 24 days.

George Wild is answering to a charge of drunkenness in the police court before Magistrate McGlymont this afternoon. He was arrested at 4 o'clock this morning on Comox Avenue by Sergeant McGlymont.

The Canadian halibut schooner Cape Swan is in port today unloading fish. Formerly an American boat she was known as the Eagle and was owned by the late Capt. George Selig. She is now owned and skippered by "Red" Pierce.

Electing for summary trial before Magistrate McGlymont, Harvey D. Copp pleaded guilty yesterday afternoon to a charge of passing a worthless check and was remanded until next Friday for sentence. He was ordered to make restitution in the meantime.

The Prince Rupert Ratepayers' Association, at its monthly meeting last night, received from E. C. Gibbons a check for \$2.10 being the bank balance of a former association of a similar nature in the city. The remittance is to be acknowledged with appreciation.

C.P.R. steamer Princess Beatrice, Capt. Thomas Cliffe, arrived from Vancouver and way ports at 9 o'clock this morning and returned south at 11 o'clock. Among the passengers arriving here on the vessel were W. J. Chumick, R. A. Creech, Norman Greer, Walter E. Trump and C. H. Gyles of Vancouver and W. W. Laing of Victoria.

At the meeting of the Prince Rupert Ratepayers' Association last night, W. J. Kirkpatrick referred to piles of rubbish lying on side streets of Second Avenue. The tourist season now being at hand, he thought old barrels, bottles and bags should be cleaned up. Mayor Newton said the complaint would receive immediate attention.

A. A. MacDonald, deputy fire marshal for the province, is in the city on a regular inspection trip. He arrived last night from the interior where he has been visiting various points during the past ten days. Mr. MacDonald expects to spend about a week in the city and before returning south will visit Stewart, Anxox and Buckley Bay and other local industrial points.

WHERE TEA GROWS BEST

The tea plant flourishes best on the well drained side of a mountain in a country where there is plenty of moisture and a warm sun. Certain parts of Ceylon, India and Java are ideal for the growing of delicious tea, hence from these countries come the finest varieties. "SALADA" is a blend of the choicest qualities grown in these, the three most famous tea-growing countries in the world.

BRINGING UP FATHER

By George McManus

PLAYGROUND IS OPPOSED

Ratepayers' Association Goes on Record Against Proposal of School Board

ONLY ONE CHAMPION

After discussing the matter at some length, the Prince Rupert Ratepayers' Association last night went on record as opposed to the project for the bringing together of the four squares at the corner of McBride Street and Sixth Avenue in order to make a large recreation ground. The most of the members spoke against the proposal, which had but one champion in the person of George W. Johnstone. The resolution which was passed was submitted by John Bergman and H. B. Rochester, the topic being introduced to the meeting by the latter.

F. W. Hart was not in favor of the project from the point of expense. The schools were already receiving half of the city's taxation and he had no patience with a request for spending of further money unnecessarily.

Floating Population

Mrs. J. S. Johnson, speaking against the proposal, referred to the Parent Teachers' Association as an organization made up of floating population which asked for expenditure on the part of the property owners.

John Dybhavn felt that the council was obliged to take into account the attitude of property owners affected in dealing with a matter such as this.

W. J. Kirkpatrick and N. Mussalem spoke against the project. John Bergman thought it would not be good policy to tamper with main thoroughfares in the manner proposed. The Association should go on record against the proposal.

Lower Value of Lots

Mrs. W. J. Kirkpatrick's objection, she said, was from a business point of view. The site was too near the centre of the city for a playground. The squares should be retained in the present plan as small recreation parks. She agreed that there should be as many playgrounds as possible but this was the wrong place for one. It would lower the value of surrounding lots.

George Sutherland was opposed to thoroughfares near his property being closed up in the manner proposed.

Arthur Brooksbank did not approve of two main thoroughfares being blocked. He thought a playground of the size proposed at this point would be a nuisance and would be undesirable to people living there. Of the size they were now, they would be all right. The city had already spent a large amount of money on Acropolis Hill. The project proposed would be cross extravagance. Indulgence in the establishment of a playground at McBride Street and Sixth Avenue had not called for at this time.

Appeal for Children

George Johnstone, in supporting the project, voiced an appeal on behalf of the children who at the present time had no place to play other than on the streets where there was always danger. He did not see that the project would close both McBride Street and Sixth Avenue. It would probably be a long time before the street affected would be needed as business thoroughfares. Anyway they could be run through later if necessary. The streets would have to be graded some time anyway and it

DYSPEPSIA WAS SO BAD COULD HARDLY EAT ANYTHING

Mrs. C. Stone, Nanstoeke, Ont., writes:—Some time ago I had a very serious attack of dyspepsia, and was also troubled with gas on my stomach. I could hardly eat anything, and very often had pains after meals. I had used different medicines, but they didn't seem to do me any good. At last I happened to run on the track of Burdock Blood Bitters, and after using it for a short time I felt a lot better. I continued its use until I was completely relieved and now I am ready to recommend it to anyone troubled as I was.

Burdock Blood Bitters is manufactured only by The T. Millern Co., Limited, Toronto, Ont.

would not cost much more to grade the whole ground and use it for the purpose proposed until the business section moved in that direction. As far as Sixth Avenue was concerned, it was already blocked on two ends, anyway.

Mr. Johnstone felt that the value of such a playground for the boys and girls would more than offset any inconvenience that might be caused through diverting the courses of the streets. Acropolis Hill did not provide half the accommodation that was needed in the city for sports. There was not a place in the city where children could play except at that corner. From the standpoint of good citizenship, the children and athletes had to be looked after. In Vancouver, a large recreation ground in the centre of the city had not been considered a nuisance. The project ought to be fully considered before any objection was raised to it.

Would Re-Survey Lots

J. W. McKinley was not only opposed to the project under discussion but he thought that the four plots should be resurveyed into lots and the park accommodation found elsewhere. This corner might some time be the business centre of the city. In any case, McBride Street was and always would be a main artery of the city.

Mrs. Kirkpatrick suggested that other school property in the city might be made into playgrounds. F. W. Hart was in favor of this suggestion.

Mrs. Johnson thought it would be a good idea to keep the four corners separate for use by children of different ages.

Stating that the city had already spent \$35,000 on the Acropolis Hill grounds, Mayor Newton felt that the project proposed would only be duplication. Last year one of the McBride plots had been made good use of by the younger boys as a ball ground. Now the Gyro Club had come along and asked for a place to install playground equipment for a younger class of children

The Board of Works had decided to ask the city council at its next meeting to approve of the opposite corner under English Hill being levelled off so that the club might put up its equipment. At some future date, the other two squares might also be developed and turned to use as recreation grounds or parks.

Will Not Approve

John Dybhavn inferred from what the mayor had said that the council would not approve of the larger project anyway.

F. W. Hart and N. Mussalem expressed approval of the scheme outlined by the mayor, John Bergman and H. B. Rochester did not think, however, that it would be wise to recommend any alternative proposition. Any such alteration as proposed would have to be made by order-in-council, anyway. Mr. Rochester pointed out.

The resolution opposing the project was then put to the meeting and carried.

ELEVATOR IS DISCUSSED BY A COMMITTEE

(continued from page one)

meeting had been called in response to a resolution moved by himself in the city council. His scheme was to send a man through to the prairies to get in touch with the farmers and others and to get them to use their influence in favor of the elevator here. Also he said it had been suggested that they send a man to Ottawa to do some lobbying, particularly among the French Canadians. Whoever went would have to be a man who had the interests of Prince Rupert at heart.

Day and Night

F. G. Dawson explained that both the Edmonton papers were boosting for us and he did not see what more they could do on the prairies. Everyone there was talking Prince Rupert. Facilities would have to be provided here before long. He said he knew the member was working hard on the project. While he was there they had together interviewed six ministers. Stork was working day and night on the job.

In reply to a remark from Alderman Collart that Vancouver was being spoon fed, Mr. Dawson explained that any moneys Vancouver got were in the form of loans and the interest had to be guaranteed and paid. Even the elevator which had been built by the government years ago had been turned over to the harbor board to operate and had to be paid for. That was a little different from what was offered here. In several cities already there were elevators that were white elephants and naturally the government, in view of past experiences, was a little careful about building an-

Will Trade House in Vancouver

For House in Prince Rupert. Also Furniture if Desired.

This is an exceptionally good locality, surrounding houses are all on an equality with this one. Located half block from a main street, 1 block from a main street and 1 block from suburban car services. Half block to school. On the first floor is a large hall, dining and living rooms (with doors), fireplace with beautiful quarter oak oak over-mantle, pantry, kitchen, cupboards, drawers, bins, etc., and kitchen. Full verandah back and front, stained glass in front door and upper portions of windows. Second floor: 2 bedrooms, linen closet, spare clothes closet, separate toilet and bathroom with wash basin, large verandah from back bedroom. Third floor: 2 full-sized bedrooms with clothes closets. Basement: New furnace, toilet, laundry tubs, cement walk from back of house to side walk. Large garage (rented for \$1.50 per month) and chicken house. Beautiful rose garden, ornamental fruit trees and bushes. This house is in first class condition both inside and out and is a really desirable home. Suitable for a large family or a small family desiring of modern. Price \$4,500. Clear, absolute title, no mortgage. I have an equity of \$1,500 in this house which I wish to trade for a house in Prince Rupert. Am prepared to assume and give to consider a trade where the equity is smaller or larger. The price asked is \$500 below present day value and the balance can be paid monthly or quarterly on the basis of cash terms. To save shipping and crating charges to both parties am willing to exchange most of my furniture which was bought less than 7 years ago. It is requested that full details be furnished in first letter as to location, views, equity, monthly or quarterly payment, rate of interest, clear title or otherwise and if desirable, a list of furniture. Address replies to Box 167, Daily News Office.

other. The one at Vancouver, they would remember, lay idle for years.

No Reflection

Alderman Collart said there was no reflection on the member. He believed Mr. Stork was working hard. Money was being spent in Vancouver, however, and here they did not need to spend any. Sending a man to the prairies would advertise the city. W. F. Williams said Alberta was already in favor of this port and he did not see that they could do much more.

M. P. McCaffery said they all appreciated the initiative of the City Council in connection with this matter. In view of the telegrams received from Ottawa, however, he did not feel that anything further could be done just now.

Mr. Manson Active

Hon. A. M. Manson, who was present by invitation, said immediately on receipt of the telegram from the Board of Trade here he had written both Hon. J. A. Robb, acting minister of finance, and Hon. Dr. King, minister of public works and representative of British Columbia in the cabinet, urging them as strongly as he knew how to forward the interests of Prince Rupert in regard to the elevator. He had also written Fred Stork at the same time. He did not think the case was by any means hopeless. If anything was done he rather favored the employment of a lobbyist at Ottawa and possibly a memorial to western members.

John Dybhavn said he had received a letter from Fred Stork only the previous day which was quite hopeful. It stated that the chief difficulty just now was the economy cry in the East and it was difficult to overcome that.

Left to Committee

A long discussion followed on what was the best to do, and it was finally decided to leave the matter to the joint committee to keep in close touch with the member for the district and to take action later if it was thought necessary.

Representatives of the city at the meeting were Theo. Collart, Colonel McMorde and Mayor Newton.

Prosperous advertising means regular continuous advertising.

Doings of the Mosquito Fleet which is the chief source of Prince Rupert's prosperity

The admiral of the mosquito fleet reports business generally along the waterfront for the past week as "stacking up" fine. Good landings have been made and while in some cases the catches have been fairly light for the number of days out the prices on the Fish Exchange have remained at a remunerative value. Weather conditions have been had in spots, according to incoming skippers, but have improved considerably the last few days. Nautical men, state that from indications of the barometer the fine spell may be expected to last for a while. The landings this week have been marked by the increasing number of Canadian schooners participating in the sales. On Monday fourteen schooners brought in fares totalling 177,000 lbs. when prices on the Fish Exchange dropped a few points for both Canadian and American first and second class fish. However, with lighter arrivals on Tuesday and Wednesday prices jumped several points. On Thursday eight Canadian and six American schooners landed 85,200 pounds between them, prices remaining steady around the 11c and 13c for Canadian and American first class fish respectively.

Spring salmon has been running in the harbor and local waters. The trollers First Place and Karen brought in 3,000 lbs. between them on Monday and report future prospects good.

Beating Vancouver

We may have to take our hats off a good many times, and chance catching a cold, to our fair sister city in the south for a good many things but when it comes down to halibut landings we can sure put it all over her—as the guy said when he put a flypaper on his wife's chair. Down south the little old town calls 23,000 pounds of halibut a heavy landing. It would probably be heavy in this port if a man had to pack it all out of the hold on his head. The following is a true copy of a news item published recently in that city under the caption "Heavy Landings To-day of Halibut at Vancouver": "Two Halibut boats arrived at Vancouver today, one containing 12,000 lbs. of fish and the other 14,000 lbs. The former sold the stocks privately and the latter sold off the boat at 14 1/2¢ a lb. Yesterday the landings of halibut were upwards of 7,000 lbs." And here we are "whooping her up" at over one hundred thousand pounds per day. Far be it from us to resurrect our trumpeter from the dead but "facts is facts."

Fresh Herring Bait at Captain's Cove and Jap Inlet.

Fish Business

During the week 526,900 lbs.

of halibut has been marketed on the Fish Exchange. Canadians were high at 12.6c and 7c, and low at 11.2c, and 6c. Americans were high at 14.5c and 7c and low at 12c and 6c. Arrivals were: Canadians—Hippo, Alliance, Selma, Viola, N. & S., Verna, Muirneag, Fanny F., Ethel June, Cape Spear, Inez H., H. & R., Mah, Dundas, Volunteer, Koyosu, P. Dorreen, Annie May, Imperieuse, Azores, Hanaco, Ringleader, Marguerite, W. T. Americans—Republic, Senator, Allen, Gladstone, Serious, Forward, Laura, Alaska, Eastern Point, Mariner, Pioneer, Chancellor, E. Neilson, Grayling, Groth, Cape Clear, Emblem, Brothers, Hazel, Virginia, Tyee, Urania, Adeline, Mira, Aetor, Raven, Roald Amundsen, Eldsvold, Tom and Al.

Sid Looks for Trouble

Not having enough troubles on hand on terra firma Sid Thompson, the man who put the sail in the Salt Lakes, is looking for troubles of a nautical nature. Sid is about to enter upon the construction of a wonderful craft and when you have read further you will doubtless decide that it is wonderful in every sense of the word. The hull is all hull while the engine will be more of the elastic variety. In fact it is to be driven by powerful elastic bands. The idea came to Sid when he was soliloquizing one evening over the fire with a beer bottle full of goldfish near at hand. It appears that Sid was thinking upon the new craft when the vision of a little boat his good father gave him when a child, and with which he spent many wet hours in the bathroom, filtered through his mind. We mean the thought did the fluttering, not the boat. Sid remembered that the little craft would go round and round the tub propelled by a little screw deriving its power from an elastic band attachment. Never did the little craft break down and it was not until someone around the house with more boots than brains trod upon it that the boat became useless. "Now," thought Sid, "if a guy could fix up a propelling power arrangement on a boat along those lines it would do away with a lot of noise and expense to say nothing of the mess." It was from that time on that the budding skipper worked his brain overtime on the idea. The house was ransacked from top to bottom for elastic and anything that contained elastic in it was requisitioned for experiments. Garters, braces, arm bands, etc., were torn to ribbons and enough elastic was produced to start something with. Then the blue prints commenced to appear and the carving knife ventured into action. According to the fleet secret service Sid's idea seems to have something to it if it is only stretched far enough—meaning

the idea not the elastic. In some way or other the propelling contrivance consists in winding sufficient elastic around the propeller shaft to cause a tightness of the sprocket. When the elastic begins to sing, it's time to let go. When released the sprocket commences to hum and the elastic to sing while the propeller does a jazz dance in the salt chuck and away goes the boat. When the idea is explained it is really very simple and one wonders why it hasn't been thought of before. If one wants to learn more about the sprocket idea apply to Sid. The machine is absolutely noiseless but for a few "zips" and "zings" and the only thing necessary to prevent one becoming stuck is to take sufficient elastic along and a well dressed guy generally wears a pair of Bostons anyway. It is understood that Sid is renting the old Mug Up premises as a drafting room.

Fresh Herring Bait at Captain's Cove and Jap Inlet.

A considerable quantity of lumber has arrived via scow this week from the Georgetown mills.

The power boat Taplow, owned by Brown and Flewin, arrived from Port Simpson early in the week with a load of salmon. This is the first trip since the installation of her new engine.

The trollers First Place, Capt. Rance Place, and the Karen, Capt. Billy Thane, have been busily engaged trolling for red spring salmon in the harbor and local waters, during the week. Both boats have met with a good measure of success.

The power boat Emma Grace, Capt. G. Stewart, arrived in port on Thursday morning from the Naas River with the last catch of oolichans of the season, consisting of over two tons of the delectable fish. The fish were of excellent quality and found a ready sale at the boat side.

The Brandt is being transformed into a halibut schooner in Cow Bay. A gully has been erected and the electrical fittings are being entirely renewed.

A Glimpse of the Orient

Without much stretch of the imagination one could have fancied himself on the waterfront of Hong Kong when walking along the local nautical boulevard Thursday morning. The floats of the Cow Bay base were alive with Orientals busy with line and hook fishing for any old thing that cared to hang on. Judging from the wicked looking specimens of bull heads, etc., the Hi Loes of Hi Lo were yanking out of the water anything that lives in the sea makes a good Chinese dish.

Roy's Dog

Capt. Roy Brown of the good ship Zorra has once more demonstrated his love for animals. This time Roy has gone in for something of the tripe-hound breed. Its one of those patent dogs. It never gets in the way because it is so made that it can hide in the cracks of the floor should floor space be scarce. However, it is the ideal breed of a dog on board ship. Of course just now it is at that age when it misses its mother and father, and being away from home for the first time in its life it naturally feels strange. Another handy thing about the "dawg" is that it is very fond of gasoline and clutch grease, and as there is usually a good quantity of these things aboard a well managed ship like the Zorra, it would not seem that Mr. Dawg will need to join the famine class as a hobby. The new pet is also gifted with a stilet. It is said the animal will stand on the bow of the boat, when in suspicious waters, and will bark at the approach of a rock. This is another useful item about the same dog. Altogether it is a very remarkable canine and the congratulations of the fleet are hereby extended to Roy in securing such a magnificent pet.

arrived in port this week for engine parts and grocery necessities.

New England in

The New England's Fish Co.'s trawler New England, Capt. Mike Scott, arrived in port on Tuesday morning with 60,000 lbs. of halibut which was unloaded through the Atlin Fish Co.'s dock for transshipment east over the Canadian National. Capt. Scott reported a light catch owing to having encountered heavy weather while on the northern banks.

H. Daggett—Inventor

After all it has taken Harry Daggett to lift the fleet prize for the most useful nautical patent devised during the past fiscal year. The waterfront fraternity have been wondering what was happening to Harry lately. He has looked as haggard and careworn as an Indian looking for his teepee. On Thursday morning the reason for the worried look was unearched. Doc noticed the inventor sneaking upstairs to the tool loft several mornings in succession and that connected something unusual doing to Doc's detective thumb-print mind. Upon shadowing Harry it was plainly to be seen he was working on a great secret. At noon on Thursday the boys around the provincial dock were

treated to an unusual demonstration of an unusual patent by inventor Daggett. The patent is a new and terrible wooden instrument for killing and wrecking the home life of the elusive clam. The murderous weapon is some three feet in length with a spade like end at one extremity while at the opposite end is a murderous looking knob. The idea is that upon arrival at the clam beach the spade like contrivance is poked into the home of the clam. The clam becomes enraged, sallies forth and is knocked unconscious with the knobbed end. It is all really very simple and to see Harry in action is well worth a dime. If the new weapon passes the strict laws of the society for the prevention of cruelty to clams, Harry is away to a flying start.

DR. HARPER PRESIDENT COMMUNITY LEAGUE AT ANYOX THIS SEASON

ANYOX, March 22.—Dr. Harper was the unanimous choice this year for president of the Community League at the meeting this week. H. D. Southam was chosen vice-president and G. E. Townshend secretary - treasurer. Those present at the meeting were Mrs. Dyer, Mrs. Cloke, and Messrs. Jones, Harper, Southam, Rice, Seaton, Townshend, and Thompson.

The business dealt with had to do with the purchase of baseball equipment necessary for the season of 1924, and the purchase was authorized, certain repairs to the children's playgrounds, work on the baseball and football grounds, new floors for the

tennis courts, to cost about eighteen hundred dollars, the donating of silver medals to juvenile boxers, the endorsement of the championship basketball game between the Sons of Canada, Prince Rupert, and the Smelter team of Anyox, as well as a basketball dance for the object of purchasing prizes for the winners of the Ladies' League and possibly for the Intermediates as well.

Arrangements made for two lectures by Dr. Williams, geologist at the University of British Columbia, early in April were also endorsed. The secretary was given authority to entertain the visiting basketball players from Prince Rupert at the Bluebird Cafe after the game Thursday night. Question of new tennis courts at Flats was under discussion and tabled for the time being. It was decided to redecorate Recreation Hall some time during the summer months.

The council appointed a committee to prepare a new constitution and bye-laws, to be later submitted to the council and eventually to a general meeting of members. The committee consists of Messrs. Southam, Seaton and Kelley. The securing of more suitable office accommodation than that at present occupied by the secretary was taken up by the council, and this will be provided at an early date.

BETTER CHANCE THIS PROVINCE

James McNulty Returns from Extended Holiday Spent in South

The boom in Los Angeles and its large suburbs is still going strong but seventy-five per cent of the people there are merely living from one day to the next and are making no personal headway says James McNulty, local hardware dealer, who returned this morning on the Princess Beatrice with Mrs. McNulty and family after a four months' vacation trip which took them as far south in their own automobile as Tia Juana, Mexico.

Roads a Factor

The fact that the district is so well equipped with splendid roads is a great factor in the big boom that Los Angeles has been experiencing during the past few years, Mr. McNulty thinks. Travellers come in on their automobiles from all parts of the United States and Canada. The roads bring the people there in the winter and the weather keeps them.

Despite the attractions, Mr. McNulty says that there are disadvantages for the ordinary individual. Living costs are high, there are many expenses and wages in many cases are not proportionate although many lines of skilled labor are highly paid. The majority of the people just manage to live and keep a car. The ordinary person stands a better chance to make money in British Columbia, Mr. McNulty thinks.

In spite of all this Los Angeles is said to have a population of 1,200,000 now and people are coming in at the rate of 25,000 to 30,000 monthly.

Prince Rupert People

The McNulty's saw many former Prince Rupert people while they were motoring south and back again. E. A. Donohoe and F. W.

Baker's Caracas Sweet Chocolate
