FORMER FEDERAL MINISTER PASSES AWAY

BUSINESS OF CANADIAN NATIONAL LINES IN 1923 SHOWED LARGE INCREASES

Hon. Louis P. Brodeur, Canadian Statesman of Long Standing, is Dead

QUEBEC, Jan. 2.—After being in office as lieutenant-governor of the province for but one month, Hon. Louis Philippe Brodeur died this morning. He was taken ill last Friday on his return from Montreal after having been ailing for several years from stomach trouble.

Hon. Mr. Brodeur was born at Beloeil, Quebec, in 1852. In 1881 he was called to the Bar and was created a K.C. in 1899. In 1891 he was elected to the House of Commons for Rouville, being re-elected for four terms following until 1908.

PATTULLO IS GOING EAST

Minister of Lands Off to Ottawa
to Attend Dominion Forestry
Conference

VICTORIA, JAN. 2.—To take part in the drawing up of a comprehensive co-operative scheme which will have for its aim the conservation and fire protection of all forest areas in Canada, together with a reforestation scheme, Hon. T. D. Pattullo, minister of lands, with the chief forester of the province will leave for Ottawa today.

The conference, which will be attended by a minister from each province, together with his head forestry official, will meet on Jan. 7. Officers of the Canadian Air Board are also expected to be in attendance and the matter of keeping air patrols over all forest areas in Canada will be taken up.

"Big developments can be expected from this conference, which will be the first of its kind that has been held in Canada," said Hon. Mr. Pattullo Thursday night. "A greater measure of co-operation and discussion of the most approved and up-to-date conservation and fire protection measures will take up a large part of the time."

According to Hon. Mr. Pattullo the campaign for more care in the woods last summer and the increased efforts of forest and fire rangers resulted in British Columbia's fire losses being cut considerably and still further improvement is looked for next year.

The British Columbia forestry officials are enthusiastic over the use of aircraft for fire and forest protection purposes. In addition to being used to rush crews and equipment to danger spots in record time, the huge seaplanes from the Jericho air station have been used for blister-rust and other inspections, and have proved invaluable to the department on more than one occasion. Hon. Mr. Pattullo will make strong recommendations to the department at Ottawa to have the Canadian Air Board services retained especially in British Columbia.

NEW YEAR'S RECEPTION

Six Hundred People Bid Lieuten-
ant Governor Bon Voyage—
Leaving For Europe

VICTORIA, Jan. 2.—More than six hundred prominent citizens attended the New Year's reception at Government House and bid Lieutenant Governor W. G. Nichol bon voyage on the eve of his departure for Europe. He leaves this afternoon for New York enroute to Gibraltar and a cruise of the Mediterranean Sea.

Princess Mary was once a nurse in the children's hospital in Great Ormond Street, London, and she afterwards endowed a cot over which was hung her picture. Each Christmas a tiny inmate decorates the portrait.

DRY DOCK MAY GET BIG JOB

Good Bid Put in on 290 Foot Log
Carrying Barge For Hecate
Straits Towing Co.

GENERAL ACTIVITY

Work on Prince George Starts;
Prospector Coming; Cruisers
Soon Finished

The building of a 290 foot steel log carrying barge is being planned by the Hecate Straits Towing Co. (Capt. Barney Johnson). Tenders for the job closed last week and it is understood that the Canadian National shipyard here put in a figure that will probably bring the work to the local plant if it is finally decided to build the craft. It would be the largest single job handled by Prince Rupert yard since the two C.G.M.M. freighters, Canadian Scottish and Canadian Britisher, were built three years ago.

C.G.M.M. steamer Canadian Prospector is expected here from the Orient about the middle of the month to undergo overhaul. The job will be more extensive than the cleaning and painting of the Canadian Highlander just finished.

Annual overhaul of the steamer Prince George has just commenced at the dry dock. The engines for the two cruisers being built for the Department of Marine and Fisheries are expected any time now and the craft will be finished shortly after their arrival, work being held up now because they are not here.

HILTZ IS NEW MAYOR TORONTO

Former Controller Receives More
Votes Than Church and Cur-
rie Combined

DAYLIGHT SAVING ADOPTED

TORONTO, Jan. 2.—W. W. Hiltz, former city controller, was elected mayor of Toronto yesterday by a decisive margin over the combined votes for Ex-Mayor T. L. Church, M.P., and Col. John A. Currie, M.P.P. The vote stood: Hiltz, 41,989; Church, 33,973; Currie, 1,370.

Controllers Gibbons and Foster and Ald. Baeker and Cameron won the board of control seats.

The electors approved the daylight saving bill for another three years.

Vast Improvement in Earnings of Government Road is Shown in Comparing Years 1923 and 1922

WINNIPEG, Jan. 2.—With increased freight and passenger business reported over the entire system and a record movement of grain and other commodities over the western region, the Canadian National Railways have found 1923 a year of vastly increased business, according to officials of the system here. Operating figures from the first of the year to the end of September, the latest available at the time of writing, show that in the nine months the Canadian National system earned a net operating revenue of \$6,857,815, compared with \$527,313 for the corresponding period of 1922.

And with this must be considered the fact that very little of the western grain crop had moved this year before the end of September, the movement of grain from the prairies to the lakes being almost three weeks later than last year, with a consequent effect upon earnings.

Tourist Traffic Increased
Tourist and general passenger traffic over the Western Region showed a considerable increase during 1923 as compared with 1922. In the year just closed tourist traffic on the western lines was the heaviest since the operation of the system and from the period of May 15, when summer tourist fares became operative, until September 30, when these tickets were withdrawn from sale, mountain resorts and the Pacific coast, as well as the holiday centres further east, each drew their quota of tourists. During this period the peak of the travel season was reached July 4 to 31; the first increase being especially noticeable immediately the schools closed, when a great many families leave on vacation and teachers are released from their duties. Many special trains were operated and special parties were carried over western lines during the past year.

Summer Hotels and Lodges
The summer hotels and lodges operated by the Canadian National Railways at Jasper Park Lodge, Jasper National Park; Grand Beach and Victoria Beach, Minaki Inn, Minaki, Ont., and other points, were patronized to a much larger extent than in any previous year. The new Lodge at Jasper Park was practically filled to capacity during the entire season, and has been the means of attracting tourists, not alone from Canada and the United States, but from nearly all other countries which provide tourist travel, many coming from the Orient, Australia, all parts of Europe, West Indies and South America, as well as from the larger centres in the United States and Canada. The same might be said, on a smaller scale, of the resorts at Minaki and Grand Beach, which were increasingly popular last year as indicated by the largely increased patronage; Grand Beach alone attracting over 100,000 people.

Improvements Carried Out
Improvement of existing lines and further steps toward co-ordination of services was a feature of the construction work carried out during the year by the Canadian National on the Western Region. No grading was undertaken during the year on lines under construction, the work being confined to improvement on operated lines, a continuance of the program commenced in 1922, such as line revisions, reduction of existing grades, and the construction of second track.

In preparation for the heavy grain and other movements which were anticipated during the fall months, the Canadian National

More Trouble at Hollywood
Mabel Normand's Chaffeur Arrested For Shooting — She and Edna Purviance Held

LOS ANGELES, Jan. 2.—R. G. Greer, Mabel Normand's chaffeur, has been arrested after admitting that he shot three times at C. S. Dines, wealthy oil promoter, at the latter's apartment. Greer claims as an excuse that Dines had molested Miss Normand and, when he (Greer) suggested to Miss Normand and Edna Purviance that they leave the apartment, Dines attacked him with an empty bottle. The two movie stars are also held by the police as material witnesses.

Infatuation of the chaffeur for his film actress employer and jealousy of her wealthy Denver acquaintance, according to police officials, were the motives which prompted Kelly alias Greer to shoot Dines.

LOCAL HALIBUT BOAT STRANDED

Summer, Capt. Soriano, Mit Rocks
25 Miles From Ketchikan

The American halibut schooner Summer, Capt. A. Soriano, struck a rock off Spear Island about 25 miles from Ketchikan at high tide early on Tuesday morning and the vessel is stranded but not in serious difficulties according to Capt. John Christensen of the American schooner Wireless which arrived in port early this morning. The Wireless passed the stranded schooner yesterday on her way in to Prince Rupert and at that time the Summer had two dories in the water and a launch, en route to Ketchikan, was standing by to render any necessary aid. The receding tide has left the Summer perched on the rocks but the boat is on an even keel with the crew still aboard. Capt. Christensen was unable to ascertain the exact nature of the damage.

SAVED FROM AN OPERATION

Restored to Health By Taking "Fruit-a-lives"

The most convincing proof of the true worth of "Fruit-a-lives" as a medicine for women is found in the letters written by them to "Fruit-a-lives". For instance:

"I suffered with all the symptoms of female trouble, pains low down in the back and sides, constipation and constant headache. A doctor advised an operation. I started taking "Fruit-a-lives" and this fruit medicine completely relieved me of all my misery."

The cry for whole wheat

A wider food intelligence means an increasing demand for whole wheat products. Modern milling processes do not produce whole wheat flour. It can rarely be found in this country. Shredded Wheat Biscuit is 100 per cent whole wheat, and so thoroughly cooked that every particle of each crisp, tasty shred of flavory baked wheat is digested and converted into muscle, bone and brain. Contains all the food you need, and all the bran you need, to prevent constipation and its kindred ailments. Two Biscuits with hot milk and a little cream make a warm, nourishing meal.

TRISCUIT is the Shredded Wheat cracker—a real whole wheat toast—eaten with butter, soft cheese or marmalades.

Too Many People There; Too Few Here.

The fact that the populations of many European countries are out of proportion to their producing capacities is one cause of hard conditions that prevail at present for individuals therein. Labor being abundant it is not highly valued and governments and capitalistic interests often take advantage of the situation while the individuals themselves suffer.

Conversely, citizens of Canada and the United States enjoy prosperity in comparison with European countries. Production capacity is unlimited and the two countries are not overstocked with people. The problem facing European countries whose governments are working towards the contentment of the people is that of getting rid of people; Canada, at least, needs more people of the proper type and in getting them it stands to benefit nationally without the individuals suffering.

Therefore, while assisting to benefit the world at large and restore conditions generally to normal, the Dominion has nothing to lose.

A more equal distribution of the world's population seems to be the most ready solution for the remedying of the world's ills. There must still be a greater movement of peoples from the Old World to the New and Canada is now the best field in the New World. That movement must soon commence. The day may not be long removed from the present generation when Canadians may see a population many fold of the present making Canada a factor in world's business and affairs and a keen rival to the nation on the south in finance, trade and commerce.

MOVING BYLAW IS DISCUSSED

Laid Over For Week by City Council For Revision

The bylaw providing fees for the removal of buildings in the city came up for considerable discussion at the city council meeting on Monday night. A bylaw had been drafted calling for the taking out of a permit at the cost of \$15 and the payment of \$30 per day during the time a building was on the city streets.

Ald. Collart thought it was a pretty stiff figure to pay in view of the fact that there were a number of the buildings in the city which would not pay to be torn down and rebuilt. In moving such buildings the property could be kept intact and put in other locations where they would be worth something.

Ald. Perry considered \$30 a day was not too much to pay if people were going to use the city streets. If a person desiring to move a building could not afford to pay it he should pull the building down and rebuild it.

Not Support It

Ald. Macdonald thought the bylaw was a good one but he felt that he could not support it as it stood. If, in the opinion of the city engineer, the moving of a building became an obstruction the movers should certainly pay for the privilege of obstructing the city streets. On the other hand, if a building could be moved without causing any obstruction he did not consider it should cost the movers anything, but if they did not complete the work in a reasonable time they should be penalized.

Ald. Currie considered the price of \$30 was too much unless the streets were blocked. If the streets were blocked unnecessarily then it was another thing.

Ald. Perry considered that the moving of any building would cause an obstruction and that if a man had to pay for the privilege he would get a move on.

Ald. Collart thought a penalty should be applied if a building was taking too long to move. He thought the holder of a moving permit should be given a chance to get off within a certain time and if he did not then a penalty should be enforced.

Good Bylaw

Ald. Stephens thought the bylaw a good one but that perhaps it could be improved. He did not think the onus of time in moving a building should be placed upon anyone. Personally he did not believe the bylaw was to be applied to any person moving a building and using all due haste to get through with the job. He suggested that instead of a permit costing \$15 a nominal charge should be made and the charge increased according to the length of time taken for the job. He did not think the system would work any hardship upon anybody. He believed the bylaw was necessary as it provided for damage to streets and wires.

Ald. Macdonald suggested that Ald. Perry and Currie get together and discuss the bylaw between them with a view of placing the charges on a fair and equitable basis. The bylaw was accordingly left over for reconsideration.

Ten Years Ago in Prince Rupert

January 2, 1914.

The biggest blast yet put off in the city is due to go up this month. It will be bigger than any two of the previous big ones and those who have witnessed previous blasts will probably realize that this one will be some shot. The rock pile to be lifted is the hill immediately in the rear of the Knox Hotel. There are eight coyote holes in the pile and each has numerous drifts. It is roughly estimated that the amount of powder to be used will be nearly eighty tons.

The Princess Royal arrived here this afternoon. She brings mail from the south.

FAST IMPROVEMENT IN EARNINGS OF GOVERNMENT ROAD IS SHOWN IN COMPARING YEARS 1923 AND 1922.

(continued from page one)

tional officials had brought into the western region much additional engine power and new grain cars to handle the 1923 crop. Over 1,000 new cars were ordered, and in addition to this, all available cars were hauled into the repair yards early in the season and given a thorough overhauling and repairing. As a result, when the grain season opened in September, 1923, more cars were available than ever before and loadings were maintained at a daily average far in excess of any previous year. Forty-seven new engines, of the powerful Mikado type, were also sent to the prairie provinces in readiness for the grain hauling, and before the season opened

engines and cars had been distributed throughout the west to points where they would be available when loading commenced.

Grain Loadings Increased

The opening of the new Neehing Terminals, at West Fort William, also provided facilities for further increasing the flow of grain into the lakehead and daily deliveries there during the past three months were some 200 to 250 cars in excess of the 1922 daily average for the same period.

In the period from September 1, 1921, to August 30, 1922, the Canadian National Railways loaded 127,128 cars containing 167,953,000 bushels of grain and in the year previous a total of 117,027 cars containing 157,618,000 bushels, so that this year's figures of 153,173,000 bushels marketed on Canadian National lines to midnight of December 12, at which date marketings were continuing at the rate of more than 1,000,000 bushels daily, would indicate that the 1923 grain movement over Canadian National Railways will far surpass that of any previous year.

Fire Protection in Canneries.

The fact that three large salmon canneries in District No. 2 have been totally destroyed by fire in the space of a few years—the Inverness plant three years ago and those at Port Essington and Bella Bella this year—gives rise to the assumption that there are not sufficient measures towards fire protection and control in such establishments. The frame buildings that house the plants are very inflammable and also contain materials which very readily burn. In the interests of the owners and also as a measure of safety to life, it would seem that some more adequate provision in this respect ought to be made.

Abraham Lincoln Had Baggy Knees.

An entirely new and unexpected development in Canadian affairs has followed the visit to London of Hon. Mackenzie King and his attendance at the Imperial conference. There have been numerous comments, both critical and complimentary, upon the part our prime minister played on that occasion, but it has remained for an English trade paper to discover and disclose a condition of things that had not been realized, or at any rate had not been openly spoken of, in Canada.

According to Men's Wear Organizer, a London tailoring journal, Mr. King made a poor impression, sartorially speaking, at the hub of the empire. His coat, it said, did not fit, and his trousers were "sadly in need of uplift." He wore his hands in his pockets too much, and his general appearance seemed to indicate that he had no respect for his tailor.

This is horrible, if true. Average Canadians have probably had the idea that Mr. King dresses rather neatly, though inconspicuously, but the London tailoring experts say not. It is just possible, of course, that the English climate didn't agree with the creases and general smartness of his Canadian-made clothes and that he is not really to be charged with wilful neglect of his personal appearance.

In any case, it is somewhat reassuring to note that the same critical authority found equal fault with other great men at the conference. Nearly all the premiers gave offence in respect to their wearing apparel. Premier Massey of New Zealand made an even worse impression than did the Canadian premier, and only Premier Bruce of Australia seems to have kept his trousers baggily and to have taken "his tailoring seriously and fashionably."—Nelson Daily News.

At the End of a Day

As the roll unwinds, music works its magic. Gone are the cares of a work-a-day world. A dear old tune touches the chords of tender memory—brings back boyish dreams—stirs the fires of inspiration.

Whatever your mood as you sit down before the Gulbransen registering piano you find it sympathetic, responsive. For it is as ready to reflect the exuberance of youth in the latest and gayest of popular tunes as it is to free the majestic music imprisoned in the score of a composer's masterpiece.

We invite you to our store today and try the Gulbransen registering piano. A few moments will reveal the pleasures it offers. We will gladly explain the advantages of its many exclusive features.

CHINESE WOMAN WITH THROAT CUT FOUND BY HUSBAND

NEW YORK, Jan. 2.—The body of Mrs. Helen Chun, wife of Harry F. Chun, a Chinese, was found by her husband lying across the bathroom in their apartment. Her throat was cut and the cord from a bathrobe was bound tightly about her neck. She had been dead several hours, when her husband found her body.

Detectives immediately began a search for two Chinese who came to room with the Chuns a week ago. Chun said one of them, who was unemployed, had demanded money from Mrs. Chun soon after he installed himself in the house, and on Christmas threatened her unless she gave him funds.

CHRISTMAS AT SMELTER TOWN

Children Were Entertained at Many Splendid Affairs

ANYOX, Jan. 2.—From all accounts the celebration of the holiday season in Anyox was the happiest remembered since the beginning of things here. Certainly everybody seemed to be imbued with the desire to be happy and at the same time contribute to the happiness of others. While the family ma and his good wife spread the Xmas table and entertained those whose homes were elsewhere, the majority of the single men made their own pleasures more or less as their fancies willed. In the general whirl of celebrations, the younger ones were not overlooked. In fact there were a number of Xmas trees and feasts especially arranged for them.

The newly organized order of Moose were the first to get away with a tree of the afternoon and evening of December 26, when all the children were recipients of Xmas gifts, and enjoyed a program of varied dance and singing numbers. Following the Moose, the "Brother Bills" cut loose on Thursday evening and had Santa Claus and his reindeers appear on the floor of the Elks' Hall with a goodly load of presents, which were distributed to the eager youngsters present. Then came

Friday, when the Community League entertained two parties—the first from three to five, to which all Anyox children under eight years of age were invited, and the second from eight to ten, to which all children over eight were asked to come. Among the latter, a number of children considerably over eight joined in the fun, and kept the youngsters busy until the all-too-soon hour of going home arrived.

The halls where the treats took place were made as Christmassy as possible, the Gymnasium being especially decorated for the children's feasting party. The committee in charge of the League affair consisted of Mesdames Cloke and Dwyer, who were splendidly assisted by Mesdames Kelley, Herrin, Selke and Miss Leitch; Rev. J. Gibson and Rev. J. Herdman. The Community League during the afternoon and evening dispensed all kinds of colored drinks and cakes of every description, bon bons, candies, nuts and fruit. The annual affair for Anyox kiddies is undertaken by the Community League in co-operation with the Granby Company, company and league each bearing a share of the expenses.

MINE CLUB OPEN NIGHT AT ANYOX

Fine Wrestling and Boxing Bout at Smoker Last Week

ANYOX, Jan. 2.—The Mine Club took advantage of the holiday time to stage a smoker in their hall on the hill and held open house, dispensing refreshments and smokes between the different bouts and other items on the program. Some good boxing and wrestling exhibitions took place which was a credit to Chairman Perry, of the Mine Club Entertainment Committee. The program was as follows: Wrestling, boys: Farnell and Brown, two rounds, no falls; Lindgren brothers, here a fall was made in the second round; Mayes and Stubbs, two rounds, no falls; a pillow bout on the wooden horse between C. Ferguson and Ted Halverson caused a lot of amusement, Ferguson being the winner; duel, Dave Evans and Dick Owen; boxing, all four rounds exhibitions, Williams and Frost; Young Brown and Kid Colderino; Instrumental selection, Three Johnson brothers and Hall; step dance, Dick Brown; boxing, Williams and Halverson; sack fight, wooden horse, Ferguson and Stubbs; boxing, Williams and Evans.

ORIENT MARKET IS DEVELOPING

A. Brostedt Tells of C.N.R. Activities in Extension of Commerce

WINNIPEG, Jan. 2.—A live market for Canadian lumber, cured meats, livestock and other produce is being developed in the Orient, according to A. Brostedt, Oriental representative of the Canadian National Railways and Canadian Merchant Marine, who is in Winnipeg on his way back from conferences at Montreal, China and Japan are both buying considerably more Canadian produce than heretofore, Mr. Brostedt stated, and there is room for much greater development if Canadian manufacturers and exporters will study the needs of the Oriental market and arrange for representation in the Orient by business men who know these countries.

Japan is using large quantities of Alberta butter at the present time, Mr. Brostedt stated, and other commodities which are being carried to the Orient in C.G.M.M. ships, are fresh and cured meats, wheat and flour, salt and canned fish, lumber and lead and silver bullion. The Chinese are eating more wheat flour and also more meat, he declared, and, in the case of the former, there is a demand for Canadian and American wheat because of crop failures in Manchuria which is the usual source of supply. A number of modern flour mills are operating at Shanghai and in Northern China and the demand for wheat products is constantly increasing.

The Canadian Government Merchant Marine vessels have been the pioneers in developing a lumber market in the Orient for British Columbia products and the same has been the case in India, Australia and other countries where Canadian forest products are now carried direct in Canadian bottoms instead of as formerly, having to depend on occasional calls from boats with headquarters in San Francisco or some other American port.

HOGMANAY DANCE VERY SUCCESSFUL

Two Hundred and Fifty Persons Attended St. Andrew's Auxiliary Affair

There was a large attendance of some 250 persons at the annual Hogmanay Dance held on Monday evening in the Auditorium by the Ladies' Auxiliary of the St. Andrew's Society. The affair proved as enjoyable as it was successful and dancing was kept up from 9 in the evening until 3 in the morning. At the midnight hour as 1924 was ushered in, dancing ceased and all joining hands, sang "A Guid New Year." It being Leap Year, there was then a ladies' choice dance after which the serving of refreshments commenced.

Music was furnished by the Westholme Orchestra and the Society piper, Alex. Macdonald, rendered selections on the national instrument for several square dances.

D. C. Stuart, president of St. Andrew's Society, was master of ceremonies and those officiating at the door were George Abbott and Howard Steen. Mrs. Howard Steen as president of the Auxiliary had general charge of the affair, while the committee in charge comprised Mrs. McRobbie, convener, Mrs. James Irvine, Mrs. W. Robb and Mrs. J. Arthur. Mrs. Carrall supervised the serving of refreshments.

PROPERTY CONVEYED TO WAR VETERANS

Exemption from General Taxation Also Provided by Council

At the council meeting held on Monday night a bylaw covering the conveyance of lot 16, block 20, section 1, (Third Ave.) to the Great War Veterans' Association was completed. The lot will be held in trust for the G.W.V.A. by Dr. J. A. West, S. A. Bird and H. L. Landry as trustees of the Association. In the event of the G.W.V.A. and trustees to whom the property is granted ceasing to exist the property will revert back to the city.

A bylaw was also passed exempting the premises from general taxation and local improvement taxes but not from light, telephone, and water rates. In the event of the property ceasing to be held by the G.W.V.A. it will automatically become taxable.

ROCK CONVEYOR TO BE PURCHASED

City to Buy Machinery Formerly Used at Hazelton

At the city council meeting on Monday night Ald. Perry suggested that the city purchase a rock conveyor from the Roche de Boule Mine at a cost of \$350. The machine is already in the city.

Ald. Stephens stated that the city engineer had inspected the conveyor and had suggested that it would be in the interests of the city to purchase it if it could be obtained at the right figure. He considered it was well worth the money asked and that in the saving of labor of four men it would quickly pay for itself.

It was decided to purchase the conveyor for \$350.

NEW YEAR'S DANCE DAUGHTERS EMPIRE

Affair Staged Last Night by Queen Mary Chapter Was Thoroughly Enjoyable

The New Year's dance held last evening in the Elks' Home by Queen Mary Chapter, Imperial Order Daughters of the Empire, was a thoroughly enjoyable affair being attended by over 50 couples. Music was furnished by the Westholme Orchestra, dancing starting at 9 o'clock and ending about 2.30 in the morning. Refreshments were served at midnight. A. E. Bazett-Jones was master of ceremonies, David Thomson presided at the door and the committee in charge comprised Mrs. W. S. Fisher, Mrs. Wallace G. Orchard, Mrs. A. E. Bazett-Jones and Mrs. D. W. Morrissey.

TEA DANSANT WAS PLEASANT AFFAIR

Will 60 Chapter, I.O.D.E., Entertain For Children's Ward Fund

The tea dansant held on New Year's Day in the Elks' Home by Will 60 Chapter, Imperial Order Daughters of the Empire, for the General Hospital children's ward fund was a very pleasant affair indeed. Opening at 3 in the afternoon, the function closed at 6. Tea was served and dancing was indulged in by those present. Besides there was an attractive program of exhibition dances. One number was a Spanish dance by Misses Lucy and Mary O'Brien, Mary Walters, Mary Dowther, Lois McRae, Ada Minzgohr, Rhoda Lamb and Evelyn Dalby; another,

the French minuet by Misses Alice Spencer, Jean Grieve, Norma Rogers and Vera Shockley; the third, a fancy dance by Miss Winnie Thomson. All were precisely and prettily executed and evoked much applause. Miss Irene Morrison accompanied the first two numbers and Mrs. J. A. Hinton the third.

PRINCIPAL BRADY TO VISIT ANYOX

Will Address Parent-Teachers Association on Education of Boy

ANYOX, Jan. 2.—The Anyox Parent-Teachers' Association announces that it has made arrangements to have J. C. Brady, principal of Prince Rupert High School, to speak in Anyox on the night of January 10, the subject of the lecture having to do with the education of the boy. As Mr. Brady's reputation as a speaker is not unknown to many residents here, it is very likely that his appearance on an Anyox platform will be the cause of a goodly attendance. This is the lecturer to come to Anyox under the auspices of the Parent-Teachers' Association, the first to come being Archbishop Du Vernet, who lectured on thought transference and kindred matters.

The fire department responded to a call at 5 o'clock yesterday morning to 931 Comox Ave. Upon arrival of the brigade the downstairs floor was found to be burning. The fire was extinguished by the use of the hand chemical extinguisher. The wall around the stove and the ceiling was burned. Damage between \$50 and \$100 was done.

MILLIONS and Movies

THROUGH the medium of slender strips of celluloid an actor appears simultaneously on thousands of screens in as many different towns. On the same evening, he entertains great armies of film fans who eagerly pay their money to see his performance.

So the movie star commands a king's ransom for a salary, and a fortune is spent profitably, to provide a proper background for his art. The movie multiplies personality—and earning power.

Advertising does the same thing for a merchant or manufacturer. In a single day it takes his message into thousands of homes—to tell folks why they should have his goods and how to get them. Advertising endows him with a thousand voices with which to tell his story.

But the value of advertising is by no means confined to the advertiser. It has a very definite value to you.

A glance through this paper enables you to sift out the things that interest you. Sitting in your easy chair you can compare values and prices. In a moment you can tell exactly where to go for what you want and how much to pay.

Figure how much useless walking and talking and how much actual money you can save by spending a few moments daily with the advertisements.

DRIVEN BY HUNGER WOLVES INVADING ITALIAN VILLAGES

NAPLES, Jan. 2.—Wolves, driven from the mountains by the exceedingly cold weather, have invaded some of the villages surrounding Naples. Several of the beasts entered houses on the outskirts of the city, but were beaten off with poles. They then invaded several barns, killing goats. Hunting parties set out today to search for the wolves, and it was reported that they had succeeded in driving them back into the mountains.

HAVE AUTOS BUT NOT SUNDAY SUITS

Average American Goes in For Car Before Clothes

CHICAGO, Jan. 2.—The average man in the United States no longer has a "Sunday suit of clothes," but he owns an automobile or is buying one on installment plan, according to a nationwide survey made by the National Association of Retail Clothiers.

People don't seem to care much about clothing any more, according to the results of the survey made public today. And one state is about as bad as another in that respect, according to representatives of the association.

NEW LAMP BURNS 94% AIR.

Beats Electric or Gas

A new oil lamp that gives an amazingly brilliant, soft, white light, even better than gas or electricity, has been tested by the U.S. Government and 35 leading universities and found to be superior to 10 ordinary oil lamps. It burns without odor, smoke or noise—no pumping up, is simple, clean, safe. Burns 94% air and 6% common kerosene (coal oil). The inventor, G. A. Johnson, 579 McDermot Ave., Winnipeg, is offering to send a lamp on 10 day's FREE trial, or even to give one FREE to the first user in each locality who will help him introduce it. Write him today for full particulars. Also ask him to explain how you can get the agency, and without experience or money make \$250 to \$500 per month.
