BRITISH ELECTIONS CENTRE OF INTEREST

GIANT AIRSHIP ARRIVES IN THE UNITED STATES TODAY FROM GERMANY

Liberals Will no Longer Keep Labor Government in Power says Lloyd George in Platform Speech

LONDON, Oct. 15.—Former Premier Asquith with Lloyd George and Sir John Simon on the platform opened the Liberal campaign last night at Queen's Hall.

Mr. Asquith said the pretext offered by the Labor Government for an appeal to the people was the thinnest, flimsiest, most inadequate, and insincere upon which for over one hundred years any responsible minister presumed to invoke the prerogative of the crown. He said Premier Macdonald was suffering, as also were his colleagues, with a bad attack of morbid self esteem. The real cause for precipitating an appeal to the electorate was not the dropping of the prosecution in the Workers' Weekly case but the Russian treaty. The Russian treaty and the proposed loan were farcical from top to bottom, he declared.

Lloyd George said that, so far as he was able to say, the Socialists would have no more Liberal support. They had lacked honesty, sincerity, and capacity to govern. The time had come for Liberalism to resume the leadership of progress.

TWENTY CENTS FOR HALIBUT

Fifty-one Thousand Pounds Sold Today at High Prices

For the first time in several months, the twenty cent mark was reached by bidders for the halibut offering at the Fish Exchange this morning. The big price of the day was received by the American schooner Radio—20c and 9c for 25,000 pounds. Canadians got 18c and 8c. Five American boats sold 44,500 pounds and three Canadians, 6,500 pounds—a total of 51,000 pounds. Shortage of halibut accounts for the steady advance of prices during the past few days.

Arrivals and sales:

American

Radio, 25,000 lbs., at 20c and 9c, to the Atlin Fisheries.

Restitution, 8,000 lbs., at 19.9c and 8c, to the Canadian Fish & Cold Storage Co.

Lumen, 6,000 lbs., at 20c and 8c; Vesta, 5,500 lbs., and E. Neilson, 5,000 lbs., at 20c and 8c, to the Booth Fisheries Canadian Co.

Canadian

Minnie V., 500 lbs.; Bingo, 2,000 lbs., and Mayflower, 1,000 lbs., at 18c and 8c, to the Canadian Fish & Cold Storage Co.

OBJECTION TO FREIGHT RATES

Decision of Board of Railway Commission Not Popular It Is Claimed

OTTAWA, Oct. 15.— That the judgment of the railway commissioners in disallowing the Crow's Nest Pass rates on east bound freights will be appealed seems practically certain. Reports received here, particularly from the west, indicate much dissatisfaction with the majority judgment of the board and though its effect is to remove discriminations which were emphasized at the hearing, the net result, it is claimed, will be increased railway rates on a large number of commodities.

LIBERALS GONE UNDER SHELTER

Premier Macdonald Says They Are Seeking Protection From Tory Guns

EDINBURGH, Oct. 15. — Premier Macdonald, addressing a crowd of 5,000 at the Waverly Market yesterday, said the government had entered a contest which was absolutely of a unique kind. The Liberal party had gone under the shelter of the Tory guns in order to avoid being hopelessly wiped out.

Mr. Macdonald characterized as absurd the statement of Stanley Baldwin that bad trade had resulted from the abolition of the McKenna duties. He said he could prove the exact contrary. What the country was suffering from now was the wastage of the war and the stupidity of the peace made afterwards.

LLOYD GEORGE IN STRAIGHT CONTEST LABOR CANDIDATE

LONDON, Oct. 15.—Conservatives of Carnarvon have decided not to oppose David Lloyd George in that riding. The former Premier will make a straight fight against Oliver Baldwin, labor candidate, son of Stanley Baldwin, leader of the Conservative party in this country.

TELKWA COAL AS GOOD AS ISLAND

City Council Places an Order for it at $10.65 per ton After Discussion

The city council last night accepted the tender of Peter Black for the supply of a carload of Telkwa coal to the City Hall at $10.65 per ton. The following tenders were submitted:

Albert & McCaffery, Nanaimo-Wellington lump, $12.25.

D. McD. Hunter, Yellowhead Superior lump, $11.10; screened mine run, $9.65.

Philpott & Evitt — Nanoose-Wellington, mine screened, $12.-10; mine run, $11.85; screenings, $9.20.

Peter Black—Sterling egg, $9.15 Telkwa, $10.65.

Questioned by Ald. Casey, Mr. Exley, city hall janitor, said he had found Wellington or Telkwa the best coals for his requirements.

Ald. Collart suggested that the tenders be referred to the finance committee for action. This met with the objection of Ald. Casey who said it was no use opening tenders in council if they were not acted upon there. He moved that Telkwa coal at $10.65 per ton be ordered.

Ald. McMordie moved in amendment that Nanoose-Wellington coal at $12.10 be purchased Vancouver Island coal had been found the most economical for use in the city hall. Ald. Casey, in reply, pointed out that the janitor had declared Telkwa coal to be equally as good as Vancouver Island coal for furnace use. He believed in assisting the development of the district by patronizing local production. Ald. Macdonald seconded Ald. Casey's motion. Ald. Evitt admitted that Telkwa coal was equally as good as Vancouver Island coal for this use and, thereupon, Ald. McMordie withdrew his amendment and the motion of Ald. Casey, being put to the vote, carried unanimously.

Zeppelin Arrives Safely Today and Berths at Lakehurst After 5,000 Mile Flight from Germany

LAKEHURST, N.J., Oct. 15.—The Zeppelin ZR-3 arrived at 9.55 this morning and berthed at 10.45. She completed the flight over the Atlantic from Frederichshafen, Germany, a distance estimated at 5,000 miles in 81 hours 25 minutes.

The safe arrival of the giant dirigible marks the fourth successful attempt of humans to span the Atlantic in a non-stop flight. Aeronautic experts of the army and navy regard it as the most significant if not the most spectacular flight. They declare the world is witnessing evidence that the dirigible is destined to be the intercontinental passenger ship of the near future.

MEMBERS OF KARLUK EXPEDITION LOST

OTTAWA, Oct. 15.— Members of the Stefansson expedition who left the Karluk when that vessel foundered in the ice were Dr. Alliston McKay and James Murray, both British scientists; Henry Beauchat, a French scientist; Stanley Morris, a Canadian sailor, a member of the Stefansson Canadian government Arctic expedition of 1913-18. They left the Karluk and attempted to make their way to Wrangell Island across the ice floes. They were never heard of again.

The famous Grenadier Guards of the British Army are shown leaving Waterloo Station in London recently.

Railway Rates Are Again Changed by Board Back to Those Charged Last Summer

OTTAWA, Oct. 15.—The Board of Railway Commissioners yesterday issued an order disallowing the Crow's Nest Pass rates on the Canadian lines and requiring them to be withdrawn from operation within fifteen days from today.

Chief Commissioner McKeown, summarizing the majority judgment of the commission said: "It therefore follows that the reduction provided for in the Crow's Nest Pass agreement must disappear as a factor in Canadian freight tariffs. Under the conditions now prevailing it is impossible to make a fair and reasonable adjustment of the rates and tolls as between one locality and another and as between the shipper and the railroads on the basis of the continuance of such reductions and the provisions of the Crow's Nest Pass agreement.

Two commissioners, McLean and Oliver, dissent from the finding.

OTTAWA, Oct. 15.—Eastbound rates of grain and flour contained in the Crow's Nest Pass agreement will not be affected by the majority judgment of the railway commission today, it is stated. The report specifically states that rates in effect July 6, 1924, are to be enforced within fifteen days of that date. Today's grain and flour rate came into effect two years ago.

VICTORIA, Oct. 15.— The removal of the Crow's Nest Pass rates will aid British Columbia growers materially by reducing discrimination against them in competition with Ontario growers, Premier Oliver said today. "At the same time," he added, "the board's order does not fulfill our contention that the whole structure in the West should be altered so as to remove the present flagrant discrimination against B.C. It merely removes the glaring discrimination created by the enforcement of the Crow's Nest Pass rates. What the attitude of my government will be I cannot say until I have considered the matter, but I am quite sure the three prairie provinces will appeal against the board's declaration which overrides an act of parliament.

OUTSIDE WINNER CZAREVITCH STAKES NEWMARKET TODAY

NEWMARKET, Oct. 15. H. Aga Khan's Charley's Aunt, 100 to 1, today won the Czarevitch stakes of a thousand pounds with extras by a length. Mrs. F. Howson's Black Satan, 25 to 1, came second with Mrs. W. Bender's Savoinake, 100 to 6 was third. Thirty horses ran.

LOCAL LADY HEARS SISTER OVER RADIO

J. J. Little of City Light Department Tunes in on Calgary for Mrs. Harry Foote

Mrs. Harry Foote of this city heard her sister, Mrs. L. M. Walker, at Calgary, sing over the radio. Knowing that her sister would take part in the Calgary Herald program last evening, Mrs. Foote called up J. J. Little of the city light department and asked him to tune in his radio set for the concert. The program came through well and was transmitted over the city telephone to Mrs. Foote's home. The song was "Sunshine and Rain."

Prince Rupert's Power Supply is Discussed at Meeting of City Council

Request From Elevator Engineer Brings Out Interesting Facts in Regard to Local Situation

The communication from C. D. Howe of Port Arthur, designer of the grain elevator to be erected at this port by the federal government, inquiring into the power supply for the elevator was considered at last night's council meeting and the matter was referred to the utilities committee for report so that a reply may be made to Mr. Howe at the earliest possible date. Ernest Love, superintendent of utilities, pointed out that the city would be in a position to supply the power required but, if both the dry dock and elevator were to be supplied by the city, extensions to the present plant would be required. This might be avoided, however, if an arrangement could be made with the dry dock whereby the power house there were put into operation either to supply the city with a surplus of power or provide the requirements of the dry dock itself. Mr. Love expressed the opinion that the present plant of the city at Shawatlans Lake could take care of the elevator if it were relieved of the dry dock. A larger wire would be needed to bring the power into the city, however. The utilities committee will go fully into the matter and will report on the best plan to be followed to provide the elevator supply. Mayor Newton and several of the aldermen were in favor of notifying Mr. Howe that he could be assured of the city meeting the power requirements of the elevator but it was finally decided to withhold making a reply until the rates at which the power could be supplied were also ascertained. He will then be notified accordingly.

Superintendent's Report

Mr. Love submitted a preliminary report to the council on the matter. The letter from Mr. Howe indicated that the maximum requirement for the elevator would be 800 horse power. This he (Mr. Love) took to mean the connected load. From 350 to 400 horse power would probably be all that would actually be required at any time. If so, it could be supplied from the present plant. However, if the full 800 horse power was to be used, it would be necessary to enter into a contract with the dry dock for an additional supply of power to the city until a second unit at Shawatlans Lake could be installed. This would involve the increasing of lines and the raising of the dam at Woodworth Lake and the total cost of the work he estimated would be $55,250.

Mr. Love also submitted a scale of rates and discounts based on Vancouver rates. According to this scale the elevator would pay monthly a minimum of $400 or $674.44 for an average monthly supply of 300 horse power.

Assure Mr. Howe

Mayor Newton suggested that Mr. Howe be communicated with at once assuring him that the city would meet the requirements of the elevator and that the report of Mr. Love be left on the table until such time as it was learned definitely what those requirements would be. There should be no risk taken of holding up the elevator project. If the worst came to the worst, there was no doubt that the city would be able to obtain additional power supply from the dry dock.

Ald. Casey inquired if, in the event of the city applying to the dry dock for additional power, it would get a rate at which it would still be beneficial to retail it to the elevator. Mayor Newton replied that a new arrangement could likely be made with the dry dock whereby it would supply itself and have a surplus to offer the city at favorable rates.

City's Position

Superintendent Love was of the opinion that the city should be able to buy power at a low rate from the dry dock for it did not cost much to produce it there. Even now, the city machine could carry both the dry dock and the elevator but not for any continuous time as such a load would bring down the water in the dam. As it was, when the pontoons were being pumped at the dry dock, there was a pressure drop and slowing down of the machinery at Shawatlans. The wire between the city and Shawatlans was also not sufficiently large to carry the load and second circuit would have to be brought into town. If the city did not see its way clear to undertake the expenditure that would be required to increase the power production at Shawatlans, the logical thing to do would be to enter into a 400 or 500 horsepower agreement with the dry dock. The city should be able to sell this power at a profit. On the other hand, something would have to be done with the dam at Woodworth Lake before long as

SUGA LOSES CASE AGAINST WILLIAMS

Action Regarding Repairs to Gasboat Was Dismissed With Costs Yesterday Afternoon

The county court action of U. Suga vs. W. E. Williams was dismissed with costs by Judge F. McB. Young yesterday afternoon. The case concluded at 5.30 after all day being spent at it. Plaintiff claimed $800 for repairing defendant's boat. Defendant was willing to pay $400. W. E. Fisher appeared for the plaintiff and Milton Gonzales for the defendant.

DAILY EDITION Wednesday, Oct. 15, 1924.

Pleased With Frankness Of Premier Mackenzie King

Whatever other opinion they may hold of Premier Mackenzie King everyone must like his frankness. He told the people of Prince Rupert the difficulties that were surrounding his work and made few promises except to endorse the Laurier policy which had been mentioned in his speech here four years before. On the one thing he was clear, however, and that was the elevator would commence at once and that it would be carried through to completion in time to be used for the crop next autumn.

Elevator Outstanding Question Of Day Here.

The building of the elevator is the one outstanding question of the day with Prince Rupert people. They are looking for it and confidently expecting it now, and it will mean much to the city.

Many people are not aware of the fact that the lumber business and grain business are closely connected. Every ship that loads grain needs approximately a quarter of a million feet of lumber to line out the ship. This lumber is taken out when the boat arrives at its destination and sold. The lumber business here will be greatly stimulated once the grain carrying is started. It will mean a constant market for the product. Deck loads also will be needed and the mills will be kept busy preparing this.

There are other things that go naturally with the grain business such as coal handling. With the ships coming here, bunker coal will be necessary and that will be an impetus to the coal mining of the interior. Possibly the owners of the Telkwa coal fields will find it possible to proceed with the development of their mines once there is an assured market here. Coal will bring grain ships and grain will bring coal business. One helps the other.

Citizens Seem Quite Satisfied.

Many Prince Rupert people express themselves as quite satisfied with the visit of the Premier and other members of the cabinet. It was not to be expected that they would make any big announcements but that they would simply tell us about the business of the country in which we are interested. That they did. The visit should be beneficial to us and to them. They now know Prince Rupert and Prince Rupert people and knowledge is a great thing with a statesman.

Premier Proves Himself More Than Politician.

Had one heard only the speech of Premier Mackenzie King at the evening meeting here he might possibly have said the Premier was a politician, although they would have had to admit then that he was a politician in the best sense of the word and one who knew his business. In the afternoon, however, the Premier gave an address at a luncheon and there he rose far above the average of the politician and showed himself a statesman and a scholar as well as an orator. He made a splendid impression and one that will endure.

Always Glad To See Visitors.

Prince Rupert people are always glad to see visitors and especially visitors of such note as those who were here this week. It is good for Eastern and Western people to meet and to exchange views. Doubtless the visitors learned more from us than we did from them and for that reason alone we are glad they came. Among other things, they learned just how people feel in regard to the carrying out of the proposed government program at this port.

SMITHERS

Mrs. Stanley Bennett entertained five tables at Bride, on Thursday afternoon, at her home on First Ave.

Dr. H. C. Wrinch, member elect for Skeena, was in town on Friday. A meeting was held in the evening at the Municipal office, where a number of the citizens gathered to discuss with Dr. Wrinch various matters pertaining to the welfare of the district.

The marriage of a popular farmer of the Glentanna district was solemnized on Thursday October 9, when Miss Edith Williams the daughter of John Williams of Hereford, England, became the bride of Ernest Preece, Rev. Mr. Biddell officiating. The wedding took place at the home of Jack Preece, a brother of the groom, and was attended by a number of his friends and neighbors. Louise Kirton assisted the bride and Howard Birnie the groom. Mrs. Williams arrived from England just a few days ago.

RADIO STATIC

By The Daily News Radio Expert.

Radio Bug

When the static's bad
And the program's bad
And the battery low in its mind,
The radio fan
Thinks up a plan
To cut down that static, unkind.

The squeals and the groans,
The squalls and the moans,
And the dumping of coal in the horn,
Sort of gets on his nerve
And he hasn't much verve
While his first wild enthusiasm is torn.

He fiddles with dials,
Gives "grounds" different trials
But always he's up against static
Till some moth balls he throws
In the "box" and then goes
And parks the darned thing in the attic.

Interference

Nearly everyone that has listened to a radio concert, has been more or less bothered by multitudes of annoying shrieks and groans and crackles that seem to be ever present, and ruin good reception completely. These noises can be divided into two distinct classes, those that are not preventable, and those that are. It is useless to attempt to eliminate the noises that come under the first heading, since these are produced by the natural electricity which is free in the air, and are at present unavoidable. They can be lessened considerably however, by the use of loop aerials and many special complicated devices for that purpose. Rapid advances are being made in that direction and, it may be supposed that in a few years' time reception may be accomplished without static, as this natural energy is called.

Static, however constitutes generally about twenty per cent of the noises heard in a radio set. The remaining eighty per cent of this interference is caused by human agency and can be stopped.

If you are listening to your friend Smith's set with the music coming through in great style, and all of a sudden the loud speaker emits a fearfud screech, which nearly deafens you, Smith says "Oh! that is Jones, he has one of those cheap sets and he can't tune it."

On the other hand over at Jones' house the same thing is happening and Jones gives as the result "That Smith doesn't know the first thing about his receiver. Why, he can't even time it properly!"

The whole trouble then, lies not with Smith and not with Jones but with them both. How much better it would be for all concerned if they only knew both sides of the story and were able to remedy it accordingly. It is as exasperating to be compelled to close down your set for the evening, merely because some neighbor is operating his little set incorrectly.

This need not be so, for by careful manipulation all manner of squeals can be entirely eliminated.

With one or two exceptions all the receiving sets on the market today are radiators. That is, they are in reality, miniature transmitting sets and send out a wave of their own, which causes the results mentioned. Few of them however will squeal if they are handled properly. There are those sets which have to squeal in order to function but those should have been outlawed long ago in every respectable community. The type of receiving sets known as the single circuit set is by far the worst offender in the radiating class and can cause more interference if operated incorrectly than all the static put together. There is no need for this though, even if the single circuit is used.

Most single circuit receivers consist of two controls, known as the tuner and tickler. In order to receive a carrier wave, which is an indication of music, this set must oscillate. In fact all sets must, in order to be able to pick up the wave. It is while the set is in an oscillating condition that it sends out the squeals which we hear. The carrier wave, then, must be tuned in and the tickler dial turned until a click is heard. The set then stops oscillating and clear music is the result. Keep your set as near the oscillating point as possible but do not let it spill over because it will squeal horribly if it does. As long as you can hear the carrier wave of the music you may be sure your set is oscillating, therefore get rid of the squeal and be on the safe side. Good, clear reception can never be accomplished while the set is in an oscillating condition so why persist in doing it?

Hard and Soft Tubes

There are a few more important points to be remembered also. A hard tube, that is a vacuum tube, should never be used as a detector because it demands high plate voltage, and high plate voltage in a single circuit is almost a reliable indicator of oscillation. Rather use a soft or gas content tube, with around 20 volts on the plate, and you will be certain of much better results.

Too high values of the acid condenser and leak too often promote radiation.

Last but not least—be sure and not turn up the filament rheostat too high or it too will cause the set to oscillate.

These precautions not only apply to the single circuit set, but in gerenal to all receivers and if they are kept in mind your set will not squeal and thus produce the acute interference that is threatening to overwhemn us.

You would not whistle in an opera house, then do not whistle on the air.

When visitors drop in to hear your radio set, tune for quality and quantity of reception combined. Remember that people who are not accustomed to listening in continually will not enjoy loud music that is cluttered up with thousands of extraneous noises. Stuff that is not so loud but clear will give them the right impression, namely that radio is something that can be enjoyed.

A straw vote to determine how the percentage of votes stood in favor of the respective candidates in the field for election, was recently held by the Radio Digest co-operating with several large broadcasting stations throughout the states. Each listener sent in a slip of paper with their choice for president written on it and in that way a regular election was staged. Calvin Coolidge emerged leader by far in the contest, being about 20,000 votes ahead of his nearest competitior. A total of 35,000 men and 22,000 women polled. Whether or not this can be taken as a reliable indicator for the coming elections, is rather doubtful, but it remains to be seen.

A CLEANER PRINCE RUPERT

Scientists tell us that there is no such thing as rubbish nowadays. They have turned things that were formerly the most worthless waste into valuable sources of profit and employment.

Many readers will not be in sympathy with these statements as they contemplate the piles of ashes and clinkers, representing much good money all gone up in smoke. They must feel that an unnecessary proportion of their coal bill represents costly rubbish.

Fortunately the people of Prince Rupert are becoming more and more acquainted with the fact that there is a coal, guaranteed by the biggest dealers in Prince Rupert, that leaves remarkably little ash, clinker or rock, with the result that fewer trips are being made to the lanes and backyards.

This coal is called "NANAIMO-WELLINGTON" and has been proved to be the BEST by the heavy demand that is being made daily upon the local stock.

To be sure that you are getting this same "NANAIMO-WELLINGTON" coal you should order direct from Albert & McCaffery Ltd., who are sole agents here.

Their phone numbers are 116 and 564.

TIMBER SALE X 5129.

Sealed Tenders will be received by the Minister of Lands not later than noon on the 16th day of October, 1924, for the purchase of Licence X5129, to cut 1,267,000 feet of Hemlock, Spruce, Cedar, Pine and Birch, 22,985 lineal feet of Cedar Poles and Piling, and 16,500 Hemlock and Pine Ties on Lot 1908, Range 5, Coast District.

Two (2) years will be allowed for removal of timber.

Mr. and Mrs. Harry Birch and family left on last night's train to spend a holiday at Smithers.

Annual Catholic Bazaar will take place in the Boston Hall today, Wednesday and Thursday, October 15 and 16.

Joseph Rogers of the Prince Rupert By-Products Co. returned on the Prince Rupert this afternoon from a business trip south.

Ratepayers Association annual general meeting, Council Chamber Friday at 8 p.m. All property owners invited to attend. Election of officers, etc.

Hon. T. D. Pattullo, minister of lands and member of the Legislature for Prince Rupert, will return to Victoria on the Prince Rupert tonight.

Mrs. J. C. Henderson and Miss Humphreys of Chilliwack are the guests of Mrs. H. C. Fraser, Borden Street, for the month of October. Mrs. Henderson is Mrs. Fraser's mother.

Half yearly general meeting of G.W.V.A. Association will be held Wednesday evening, October 15, at 8 p.m. Important business and election of officers. 243

The formal bylaw providing for the sale of lands acquired by the city under tax sale proceedings were given its first readings at last night's meeting of the city council.

Mrs. H. H. Hemmings and Mrs George Richmond, who have been on a three weeks' holiday trip to Vancouver, Victoria and Seattle, returned home on the Prince Rupert this afternoon.

The case of Helen Blackburn charged with allowing drunkenness on her premises, was adjourned until Monday by Magistrate McClymont this morning at the request of Milton Gonzales, counsel for the defence.

A letter from Mrs. S. C. Lambie making application for tax sale certificate rights in and to lots 18 and 19, block 1, section 8, for the upset price of $85.73 was received at last night's council meeting and referred to the finance committee with power to act.

Local improvement initiative bylaws providing for the paving of Sixth Avenue east and west from Fulton Street, Eighth Ave. East from McBride Street to Hays Cove Circle and Ninth Ave West were finally considered and adopted at last night's council meeting.

Mr. and Mrs. R. H. Shockley and family will leave in a few days for Vancouver to take up their residence, Mr. Shockley having secured a position there. Their house on Seventh Avenue East will be occupied by Mr. and Mrs. W. W. Wrathall and family. Mr. and Mrs. Shockley have resided here for many years and the departure of the family will be regretted by many frinds. For several years Mr. Shockley was supervisor of manual training in the public schools.

SIMONDS SAWS

Use "Simonds" Crescent Ground Saws; their teeth are of even thickness throughout the entire length of the saw, thus making binding in the kerf impossible. Crescent Grinding is an exclusive Simonds feature.

G. E. Gulick, manager of the Swift Canadian Co. leaves tonight on the Prince Rupert for Anyox on a business trip.

Rev. Dr. H. R. Grant left on last evening's train for Terrace.

D. Zarelli returned on the Prince Rupert this afternoon from a trip south.

Mr. and Mrs. J. H. Pillsbury arrived on the Prince Rupert this afternoon from Vancouver.

Mrs. A. Melville Dollar and Mrs. I. A. Stoddart are round trip passengers from Vancouver on the Prince Rupert today.

A. C. Devine, manager of the Whalen Pulp and Paper Co.'s mill at Swanson Bay, arrived there from Vancouver on the Prince Rupert this morning. One of the Maru boats is now at Swanson Bay loading lumber.

Clyde Heller of Philadelphia, president of the Belmont-Surf Inlet Mining Co., arrived at Swanson Bay on the Prince Rupert this morning and proceeded by gas boat to Surf Inlet.

Capt. J. McNaughton, master of the Coastwise Steamship & Barge Co.'s steamer Mogul, is a passenger on the Prince Rupert today bound for Anyox where he will rejoin his ship after a trip south.

C.N.R. steamer Prince Rupert arrived from the south at 1 o'clock this afternoon and will sail on her return to Vancouver at 8 this evening. The Prince John leaves at 10 o'clock for Stewart and Anyox. The train from the East, due at 4 o'clock this afternoon, is reported on time.

A. H. Robson, purser of the steamer Prince John, returned on the Prince Rupert this afternoon after a holiday spent in Vancouver. He will resume his post on the Prince John and Arnold Evans, first assistant purser of the Prince Rupert who has been relieving him, will return to his ship.

G. B. Fletcher, president of the P.B.C. Mines Ltd., which is putting in a plant at Massett for the extraction of gold from the black sands, is expected to reach the city by gas boat before the end of the week in order to sail for Vancouver on his return to his home in Philadelphia by the Prince Rupert Saturday night. Mr. Fletcher has been at Massett for the past month.

Passengers arriving in the city on the Prince Rupert this afternoon booked through to district points include Mr. and Mrs J. B. Langston for Smithers; Mrs. W. J. Brooksbank for Hutston; B. E. Crawford, Mrs. D. C. Roy, Miss J. Wilson, H. Matheison, W. E. Smith and Capt. J. McNaughton for Anyox; E. L. Fraser, R. E. Kreuger, J. B. Shaw and A. Halkett for Stewart; Geo Hudman for Terrace.

PRINCE RUPERT'S POWER SUPPLY IS DISCUSSED AT MEETING OF CITY COUNCIL

(continued from page one)

it was leaking more and more. If it were fixed now and the other extensions made, the city would be able to sell its own power instead of somebody else's. In any case, the line would have to be increased. It was safe to assure Mr. Howe that the city could supply the elevator but it would be well to also give him some idea of the rates. If Vancouver rates were charged, it would pay the city even if the additional installation were undertaken. The revenue would probably be in the neighborhood of $10,000 per year. One of the power plant debenture issues expired next year. That would reduce the present sinking fund and interest so that, if the additional installation were undertaken, the financial burden would be no greater than it was today.

Favor Dry Dock

Ald. Macdonald felt that it might be best to make an arrangement with the dry dock even if there would only be a small profit for the city. It would take considerable time to extend the city's plant and it was a job that could not be hurried. The elevator might be ready for operation before the city was ready to supply it with power.

Ald. Casey pointed to the suggestion of Mr. Anderson, an expert formerly engaged in a consulting capacity by the city, who said that the proper thing for this city to do if it needed additional power was to instal a deisel plant to be used until such time as the city's consumption was large enough to warrant the development of Falls River or some other large enterprise. He questioned if it was wise to spend $55,000 on extending a small project. There was not sufficient market offering yet to warrant development of such a project as Falls River.

Water Power Best

Superintendent Love replied that deisel was expensive installation and he doubted if it would be as economical as water power. The city would always have to have an auxiliary plant and Shawatlans could eventually be used as such. Mr. Ross of Seattle had said there was enough water in Woodworth Lake to produce 3,400 horse power — three times the capacity of the plant today and large enough to take care of a city such as Victoria with a population of 35,000 people.

Ald. Collart moved that the matter be referred to the utilities committee for report on the matter of purchasing power from the dry dock and that next week's meeting of the council decide on the reply that should be sent to Mr. Howe. This was seconded by Ald. McMordie and carried.

The Alex Roy wife desertion case was settled in the police court before Magistrate McClymont this morning with the accused agreeing to take his wife and family away with him on the first boat and maintain them in Victoria. In the presence of his wife, the magistrate administered a lecture to Roy and offered him some very timely advice as regards his marital affairs.

The Canadian Fish & Cold Storage Co.'s trawler G. E. Foster was taken off the dry dock this morning. It was found that some damage had been done to the hull due to recent contact with rocks in Alaska but repairs are being deferred pending the arrival of the steamboat inspector. In the meantime, the vessel is moored at the Cold Storage wharf.

PRINCE GEORGE

Taxes in arrears collected by the city of Prince George so far this year total $21,343.48 as compared with $19,273 last year. Current tax collections stand at $47,536.09 as against $54,177.54 in 1923. It is expected that the city will have a shortage of $3,000 this year. The Millar addition syndicate has failed to pay its taxes.

The local Great War Veterans' Association has elected officers as follows for the ensuing six months: President, William Bexon; vice-president, James Wilson; secretary treasurer, R. C. S. Randall; executive—C. W. Ferry, R. Dibble and Marshall Sales.

Persons desiring to qualify as householders for the next civic election will be required to pay both $5 poll tax and $2 road tax.

Premier King made a brief address while his train stopped here for half an hour last Saturday night, enroute to Prince Rupert. An offical welcome to the city was extended by Mayor Alward and P. E. Wilson, president of the Board of Trade.

Jerry Morgan was fined $25 last week having been found guilty of driving to the common danger. The case resulted from a collision between automobiles driven by Mrs. H. Welsh and the accused.

Sidney Perry, eldest son of H. G. Perry, M.L.A., is in the hospital here suffering from pneumonia.

Miss Lila Graham has returned to her home in the city after spending two months visiting relatives in Seattle.

Mrs. Arthur Leith left last week for Winnipeg where she will spend three months visiting friends.

Baker's Cocoa

There are twenty-five to thirty different grades of cocoa beans, but Baker's Cocoa is made of high-grade beans only. That is one reason why it is better.

FOOTBALL BILLIARDS HUNTING

TEAMS IN BILLIARD LEAGUE ARE ENTERED

Three Aggregations Will Participate in Senior Competition Six in Intermediate

Three teams for the Senior division and six for the Intermediate were entered at the meeting of the City Billiard League held last night in the Great War Veterans rooms. There was a good attendance and President J. J. Walsh presided. The most of the time was spent drawing up rules to govern the season. The matches will start the first week in November and there will be another meeting next Tuesday in St. Andrew's rooms to draw up the schedule.

The teams entered were as follows:

Senior—Great War Veterans, Grotto and Prince Rupert Billiard Parlor.

Intermediate—Great War Veterans, Grotto, Prince Rupert Billiard Parlor, Cold Storage, St. Andrew's, Callies.

WHIST LEAGUE GAMES STARTED

Moose Ladies and Daughters of England Winners in First Ladies' Section Games Last Night

Moose Ladies and Daughters and Maids of England won opening honors in the ladies' section of the Fraternal Whist League last night by defeating the Orange Ladies and Pythian Sisters respectively. The scores in each case were 6 to 3.

The games were played in the St. Regis Cafe and the teams were as follows:

Moose Ladies — Mrs. Alf. Christiansen (captain), Mrs. Harry Jackson, Mrs. Jack Ratchford, Mrs. O. Stegavig, Mrs. P. Wingham and Mrs. A. R. Phillips.

Orange Lodge—Mrs. S. V. Cox (captain), Mrs. J. A. Teng, Mrs. R. Morin, Miss Mabel Veireck, Mrs. T. Boulter and Mrs. R. Wilson.

Daughters of England— Mrs. J. Howe (captain), Mrs. D. Wilton, Mrs. Whatman Sr., Mrs. Walter Shaw, Mrs. George Leek, and Mrs. Grimwood. The last mentioned played spare in place of Mrs. H. H. Hemmings, regular captain of the team, who was out of the city.

Pythian Sisters — Mrs. Fred Wermig (captain), Mrs. E. J. Large, Mrs. R. Clarke, Mrs. D. McCulloch, Mrs. W. Anderson, and Mrs. W. Gilchrist.

Sport Chat

Howard Mayberry is the new champion bantamweight boxer of Canada. In a fast ten round bout at Toronto last Friday night, Bobby Ebber was unseated from his throne by the new little fighter. Mayberry waited for a long time to get his chance at the title and when it came he made no mistake about being the victorious boxer.

Though Epinard, the famous French race-horse, lost all of the three big races in which he was scheduled to meet American horses this season, he nevertheless did himself pround by taking second place in each race. This is all the more credit when it is taken into consideration that he was racing on strange courses and was pitched against the best racers in United States regardless of class. Epinard will go home almost as much a victor as though he had come in first in all the races. He was playing a lone game against everything else that offered and his performance was little less than remarkable.

One or two of the badminton players have been up at the De Luxe Hall trying out the new courts and they report that they are excellent for the purpose. Everything is in readiness for the formal opening tonight at which time new members will be given an opportunity to join the club.

There is a general meeting of the club announced for Friday evening in the hall, when a new treasurer will be chosen to succeed J. W. Hamilton who is leaving for the south. Members of the club are expressing regret that Mr. Hamilton is leaving.

H. H. Little, the new manager of the Union Bank here, was looked upon as the best player in the Hazelton Badminton club and he is expected to be out tonight. Bob Bartlett, who is the crack player for the local aggregation will have to look to his laurels now.

Last year most of the badminton players were just beginners. Now some of them have developed considerabe skill and by the end of the present season should be pretty fair players. There is also a big squad of new players just joining who will be able to get some good games among themselves.

FELLED TREE ON BEAR AND NOW HAS NICE SKIN

Glentanna Farmer Tells Story of How Bruin and he Became Acquainted

SMITHERS, Oct. 15.—Charlie Newitt, a farmer in the Glentanna district, has developed into a bear hunter and is now the possessor of a nice black bear skin and an additional story to recount when telling of the many and varied experiences of his active life.

While at work on his farm a couple of days ago, Charlie was disturbed by a noise that called for investigation and upon tracing it to its source was surprised to find a black bear evidently in distress. As it refused to move when called upon to do so, Charlie came to the conclusion, that it must be caught in a trap but only having his axe with him and not wishing to battle the bear with that, he decided that the best way to make sure that it would not get away while he went home for a gun was to fall a tree on top of it. This he promptly proceeded to do and with true woodmanship pinned the bear to the ground with one of the nearby trees. He then went home for his .22 rifle and killed the bear with the second shot.

Charlie has been thanking his lucky stars ever since, that he did not try to dispatch Mr. Bruin with the axe, as he found there was no trap attached to its hind legs.

Accounts up to October 11 totalling $7,827.74 were passed for payment by the city council last night.

ALICE ARM

Jack McDonald, formerly engineer on the gasboat Awake and Cuprite, has returned to Alice Arm from the Gold Pan Creek diggings in Cassiar district. He staked a claim 1000 feet from the original discovery of William Grady and Hugh Ford and will return north in the spring.

J. Peacock, who spent the summer here developing his mining properties, has returned to Anyox where he expects to spend the winter.

A very successful dance was held in the Coliseum last week in honor of Miss Clothilde La France who left this Monday for Seattle.

Although the present price of logs is not very high, logging operations in the vicinity of Alice Arm continue to be active. Numerous small camps are running down the inlet; some outfits having commenced last week. The camp of the Abbotsford Logging Co. is still operating.

Hans Peterson has left for Stewart where he will spend the winter.

B. C. D. Casey has arrived from Prince Rupert to relieve C. Wagner of the Royal Bank staff who has gone on holidays.

STEWART

After a successful season of preliminary work including camp erection and actual mine development, the Rufus Silver-Lead Mining Co. shut down work for the winter last week and the managing officials left for Seattle. It is planned to mine on a large scale next year. The Rufus properly lies on the north side of Bear River about 18 miles from Stewart.

Development of the ore bodies on the B.C. Silver mine continues with satisfactory results. A recent shipment of 51½ tons of dry ore gave smelter returns of 3.18 oz. gold and 68.1 oz. silver, a total value of $110 per ton.

F. C. Winkler returned this week from Victoria where he organized a small company to explore and develop the White Heather group in the upper Salmon River valley. A contract for diamond drilling has been let to Boyle Bros. and work is already in progress.

M. H. Slater and Miss Jeanette La Verne were married recently in Hyder and have left for Vancouver.

Another lead of good ore has been discovered on the Munro group on the west side of Salmon glacier and work will be carried on all winter by J. E. Munro and A. N. McDonald.

LAND ACT.
Cassiar Land District.

Recording district of Prince Rupert and situate in Atlin Lake, about one mile due west of Atlin Townsite.

TAKE NOTICE that Paul L. Eggert, Atlin, in the Province of British Columbia, occupation jeweller, intends to apply for permission to purchase the following described lands:—

Commencing at a post planted at the south point of the small island known as Second Island in Atlin Lake, situated about above; thence northwest and on about this island following the shore line to the place of commencement; and containing two acres, more or less.

Sept. 3rd, 1924.

PAUL LOUIS EGGERT

Sale of Crown-Granted Mineral Claims

For Unpaid Taxes in the Prince Rupert Assessment District

I HEREBY GIVE NOTICE that, on Monday, the 3rd day of November, 1924, at the hour of 10 a.m., at the office of the Provincial Collector, in the City of Prince Rupert, B.C., I shall offer for sale at Public Auction the Crown Granted Mineral Claims hereinafter set out, of the persons in the said list hereinafter set out, for delinquent taxes unpaid by the said persons on the 30th day of June, 1924, and for costs and expenses, including the costs of advertising said sale, if the total amount due is not sooner paid.

The Collector will be pleased to receive any information respecting the following list where the owner was a member of the Allied Forces and entitled to the benefits of Section 151 of the "Taxation Act," 1922.

DATED at Prince Rupert, B.C., the 11th day of October, 1924.

W. S. FISHER, Provincial Collector.

The Man in the Moon SAYS:—

LONG live the King!

DODGING autos is difficult, but it is much more difficult to dodge political issues.

GOING up the moutain for a deer does not seem very far, but carrying back the corpse is what bothers the hunter.

A HICK town is a place where the gossips spend their time watching other people.

IT is a good thing people drink to someone else's health when they are using liquor store dope. If they valued thir own health they would pause.

IF a man spends his money when he is out with the boys, he has to be a tightwad at home. That's reasonable.

HOWE wants to know if we have power enough to run that elevator. I should say we have. If we hadn't we'd harness some of the jackasses that hang around the streets.

TALKING about running that elevator, let's run it. Just give us a chance, that's all.

A MAN was shot when out driving with a lady near Vancouver. The moral is don't go driving with the girls and don't get shot. Even getting half shot is dangerous.

THE CHINESE have quit fighting. They refuse to go on because they don't like to hear the them.

FEW MORE VERSES ARE YET TO COME

Last Lot of Entries for the Competition Should be Published Tomorrow

It is expected that the last lot of verses in the competition will be published tomorrow or the following day and that will end the competition. Following are among the verses received:

Blue Jay! Blue Jay!
Theiving every day,
Screeching and calling
"Jay! Jay! Jay!"
Now the wheat and then the spuds,
And if you could you'd steal my duds,
You saucy, noisy Blue Jay.

Halibut's Lament

Darling I'm going to leave you
Said the halibut in haste
I am on the way to Rupert
As he grasped the herring bait.

If I do not soon return dear
Do not worry for my fate
I've a free ride on the Hippo
I must land in perfect shape.

In the cold refrigerator
I'll be rushed by C.N.R.
Till I land in Big Chicago
Or some city there afar.

She's Broke

Oh dear, have you seen her?
The laughing Hyena.
I wonder, what is the joke
She thinks I have won
This competition mon
So send it to me, I am broke.

The Court House Parrot

I'm the Court House parrot, you know;
Unexcelled for my beauty, I trow:
Although not a "Saint", I'm not rude;
Even "Parsons" would say I am good;
Sometimes as I hang by my beak;
A "Spill-er"—No! just a near squeak;
Sitting hours on my perch, its no wonder;
That I've lots of things over to "Ponder;"
I have plenty of good food and drink;
Yes! I once had a "Collins"—I think;
What a "Volume" of noise I can raise;
When seagulls on the wing meet my gaze;
Last of all, I'm content with my lot;
And if you're not, I don't care a jot.

SANTAL CAPSULES MIDY
Easy to Take-Quick to Relieve
CATARRH of the BLADDER
Safe, Successful
Each Capsule bears name MIDY
Beware of counterfeits

Is your wife wiser than you?

IF YOU read only the stock and sporting pages, and your wife is like other women, she is wiser than you. She reads the shopping news.

She likes to hear you jingle money in your pockets. She likes to stretch money to the limit, so she won't have to ask for more. She likes to shop strategically. Know what she does.

Comfortably at home in a cushiony armchair, she scans advertising columns. She compares, judges and selects the goods she desires; maps her route; with least effort and minimum time, goes direct to the planned store and buys.

She obtains what she wants at the lowest price it is offered. She is certain of full satisfaction, for she knows advertised goods live up to their claims. She saves time and steps, and returns sufficiently alert to enjoy new advertisements---and to prepare you an appetizing dinner.

These advertisements are written for your benefit too. Read them. Help her help you save.

Buying advertised products is a bond investment----not a stock speculation

Ten Years Ago in Prince Rupert

Octoer 15, 1914.

To maintain her place in the Empire and to share with the Mother Country the burdens of the war of civilization, Canada continues to offer ungrudgingly the flower of her young manhood and the first fruits of her industry for the Great War.

The first parlor cafe car to run on the regular passenger train to Prince Rupert will arrive with the train tonight. James Gorman, superintendent of the G.T.P. dining car service, will be aboard it.

Taking for his subject "How to Figure Costs," D. C. McRae, treasurer of the Prince Rupert Retail Merchant' Association, gave a very interesting talk to the members at the monthly meeting held in the Board of Trade rooms last evening.

THROUGH SLEEPING CARS TO SHIP'S SIDE

The Canadian National Railways have made arrangements to operate tourist and standard sleeping cars through from the the Pacific Coast to the ship's side at Montreal and Halifax in connection with Old Country sailings, during November and December. Full information regarding rates, reservations, passports, etc., can be secured from City Ticket Office, Canadian National Railways, 528 Third Avenue, Prince Rupert, Phone 260

BLUE RIBBON TEA

If a vote were taken in Western Canada as to which is the best tea, BLUE RIBBON would win in a walk.

The BLUE RIBBON family comprises half the entire population of Western Canada. It is an enthusiastic family and adds many to its membership every day.

WESTHOLME THEATRE

Wednesday and Thursday, 7 and 9 p.m.

"The Age of Desire"

A story of a man who loved a woman for what he thought she was—and what happened when her real self revealed itself. The drama of a son who never knew his mother—a mother who never knew her son. A forceful, gripping photo-play of real life depicting the experiences of a woman who had everything she desired yet was discontented and a man who married for companionship and then played solitaire. Magnificent scenery and settings including gorgeous bathing-pool scenes showing real society bathers. Strong cast: William Collier Jr., Mary Philbin, Josef Swickard, J. Farrell MacDonald, Frank Truesdell, Myrtle Stedman, Aggie Herring, Edith Yorke.

SUNSHINE COMEDY—"SPRING FEVER."

FOX NEWS-GAZETTE.

Admission 35c and 10c.

TAKE NOTICE THAT:

1. The Council of the Corporation of the City of Prince Rupert intends to construct a pavement fifteen feet wide, consisting of a mattress of timber over which will be placed a paving giving a depth at the crown of ten inches composed of broken stone and sand, on that portion of 9th Avenue commencing at a point eight feet east of the centre line intersection of McBride Street and 9th Avenue, thence along 9th Avenue as shown on plans and profiles deposited in the Office of the City Engineer to a point eight feet south of the centre line intersection of 8th and 9th Avenues, as a local improvement, and intends to specially assess the cost upon the land abutting directly on the work except such portion of the cost as is incurred at street intersections and a school property.

2. The estimated cost of the work is $3,665.00, of which $350.81 is to be paid by the Corporation, and the estimated annual special rate per foot frontage is 8.27712. The special assessment is to be paid in 10 annual instalments.

3. Persons desiring to petition against undertaking the work must do so on or before the 15th day of November, 1924.

E. F. JONES,
City Clerk.

CATHOLIC BAZAAR IS OPENED TODAY

Embodying all the features of former years and some new ones as well, the annual Catholic Bazaar was opened this afternoon at 3 o'clock in the Boston Hall by Father McGrath. It will continue this afternoon and evening as well as tomorrow. Each evening there will be a musical program with Harry Astoria in charge. The affair augurs to be a big success. The wide variety of articles being offered for sale are proving attractive to patrons and goodly numbers will be drawn out in the evening through the concerts. There are also the usual number of raffles.

Those in general charge of the bazaar are as follows:

Fancy and plain sewing—Mrs. S. Batcher, Mrs. Harold McEwen and Mrs. J. Lorne MacLaren.

Country store—Mrs. J. F. Ritchie, Mrs. G. W. Nickerson and Mrs. J. McNulty.

Tea room, home cooking and candy tables—Mrs. Olier Besner, Mrs. Montesano and Mrs. D. Zarelli.

SCHOOL SURVEY TO VISIT CITY

Commission Will be Here Towards End of Month, Announces Inspector

The educational survey commission, which has been engaged during the past several months in British Columbia at the instance of the provincial government, expects to visit Prince Rupert towards the end of this month announces H. C. Fraser, inspector of schools, who returned this week on the Princess Mary from Victoria where together with all the other inspectors of the province, he was called last week. The commission consists of Dr. Putman, chief inspector of schools, Ottawa, and Dr. Weir of the University of B.C.

The inspectors were called to Victoria primarily to meet Dr. Sandiford, professor of pedagogy in Toronto University, who was engaged by the department of education to conduct a series of intelligence tests and mental measurements in the schools of the province. Without this, the educational survey now going on would be incomplete. Between this date and November 30, ten thousand elementary school pupils and 5,000 High School pupils are to be tested.

In Prince Rupert inspectorate, Mr. Fraser is to test all High School pupils and 300 from the elementary schools. The tests are to be given so that a fair average of the school population is examined—urban and rural, rich and poor, children whose parents are in professions and children of those in industrial occupations, clever and seemingly stupid pupils, accelerated and retarded.

Seen today, Mr. Fraser was busy studying specific directions and trying to work out a program whereby type schools might be visited with the least waste of time in travel. Within the inspectorate there are about 80 schools employing 120 teachers with a school population of between 2,500 and 3,000 pupils distributed roughly as follows: ungraded schools, 900; graded schools of tw odivisions, 150; graded schools of from four to six divisions, 650; large graded schools, 800; high schools, 250.

WOULD DISPOSE OF ALL LOTS HELD BY CITY IN WESTVIEW

Ald. Clapp gave notice at last night's council meeting that he would move a resolution that all lots in Section 2 now held by the city be sold at public auction to the highest bidders.

A NEW ERA IN B.C.'S PREMIER INDUSTRY

Every day and in every way the unique properties of Pacific Coast woods are becoming better known in the world's lumber markets.

The depletion of other sources of supply is attracting attention to the last softwood stand of the American continent, from which big timbers are available, namely: the Douglas Fir area of the States of Washington and Oregon and the Province of British Columbia.

These forest regions contain the world's sole supply of Douglas Fir, Red Cedar, Western Hemlock and Larch and the Western Spruces, and the timberlands of British Columbia are at once the Province's greatest asset and its principal source of revenue.

During the last few years millions upon millions of dollars have been invested in the standing timber of Washington and Oregon by wise investors who recognize its full maturity and the superior chances it offers for regeneration.

One after another we hear of erection of huge up-to-the minute sawmills turning out millons of feet of lumber daily and employing thousands of men, many of them, alas, deserters from our own industrial ranks.

On the other hand, there has been a halt to investments in British Columbia timber of equal value and maturity to any in existence, and no great addition has been made to the plant capacity of the Province, most of the recent additions being replacements or enlargements of old time mills.

Every possible inducement must be given to new capital to put fresh life in the British Columbia lumber industry to encourage it to seek bigger markets for an increased output and to keep its skilled workers in the country.

Undoubtedly the main cause of the present stagnation and the principle obstacle to expansion is the Timber Royalties Act of 1914, which attempts to govern present conditions with pre-war practice and which has developed from an economic experiment into a menace to all industrial effort.

With its repeal will come a new era for British Columbia's premier industry.

This series of articles communicated by the Timber Industries Council of British Columbia.

MUCH MILD CURED SALMON SHIPPED

Emil M. Urell, Representative of Northern Products Corporation, Says Season Has Been Satisfactory

The Northern Products Corporation of Seattle has shipped considerably more mild cured salmon from canneries of this district to New York this year than it did last, stated Emil M. Urell, representative of that company, this morning. However, much more would have been welcome and it is hoped that the volume of the business will be greater next year.

Mr. Urell and his family sail tonight on the Prince Rupert for Seattle where they will remain for a while before proceeding to their home in Astoria, Oregon, where they will spend the winter. Mr. Urell epects to be back here again next summer.

BEER QUESTION NOT POLITICAL

Will be Submitted to Non-Partizan Vote of Legislature at Coming Session

VICTORIA, Oct. 15.—That the beer issue will be settled by a non-partizan vote of the Legislature at the coming session is the general expectation among those close to the government.

That the government will not issue beer licenses before the house meets or attempt to settle the question without the advice of all its supporters has been made known authoritatively and it is expected the matter will be taken out of politics altogether.

INDIGESTION

JO-TO

TIMBER SALE X 6556.

There will be offered for sale at Public Auction, at noon on the 24th day of October, 1924, in the office of the Forest Supervisor at Smithers, B.C., the licence X 6556, to cut 55,000 Jackpine Ties on an area situated about 5 miles southeast of Houston, Range 5, Coast District.

Three (3) years will be allowed for removal of timber.

"Provided that any one unable to attend the auction in person may submit a sealed tender to be opened at the hour of auction and treated as one bid."

Further particulars of the Chief Forester, Victoria, B.C., or District Forester, Prince Rupert, B.C.
