# EDMONTON BACKS RUPERT FOR ELEVATOR ENCOURAGING NEWS OF MINING DEVELOPMENTS MAPLE BAY AND STEWART

## Edmonton Asks Dominion to Erect an Elevator at Prince Rupert if Found Feasible and Advantageous

EDMONTON, Feb. 16.—Realizing the advantage of having two ports on the Pacific coast for westbound grain and other commodities of the prairies and in view of the request of the Vancouver Harbor Board for another \$18,000,000, and believing that the government of Canada before authorizing this expenditure at Vancouver alone should investigate the splendid advantages of Prince Rupert, not only in the interests of the grain trade but in the interests of the Canadian National Railway system, the Board of Trade yesterday passed the following resolution, which was wired today to the Prime Minister of Canada and to F. G. Dawson:

"Whereas the Board of Trade of the city of Edmonton is aware the people of Alberta are vitally interested in full and proper development of the west-bound route for all commodities and for grain in particular.

"Whereas the harbor board at Vancouver is asking for an additional grant of \$18,000,000 to establish further facilities at Vancouver and the Board of Trade at Prince Rupert is asking for the establishment of grain handling facilities at Prince Rupert, claiming that Prince Rupert has deep water right up to and alongside the waterfront; available harbor sites and trackage, property already the property of the Canadian National system; natural rock bottom foundations for elevators; a port where elevators may be spotted immediately adjacent to deep water for delivery of grain direct to vessels, thus rendering unnecessary the construction of piers, jetties, and belt conveyors; a deep water port from the harbor front to the sea, safe, easy of access and attractive to shipping; an approach over an exceptionally easy rail-way grade through the mountains; natural advantages rendering cost of maintenance negligible and the raising of large revenues by harbor dues, cargo rates and other handling charges unnecessary; equality with other British Columbia ports in exports from the prairies and to United Kingdom;

"Therefore be it resolved that in the opinion of this board the Government of Canada, when appropriating money for development of shipping facilities at the Pacific Coast and grain handling facilities in particular, should carefully weigh the above mentioned questions and, if found in the best interests of the people of the middle west and the grain growers in particular, utilize the natural advantages of

## SENATOR SHOT IN WASHINGTON

Was Walking With Wife When  
Got in Road of Prohibition  
Melee

WASHINGTON, Feb. 16.—The prohibition situation in Washington, for months the centre of criticism and controversy, has culminated in the shooting down of a United States senator almost within the shadow of the capitol. As a result the whole muddle is likely to get an airing in Congress. Senator Frank Greene of Vermont, was shot in the head last night as the car containing his wife when the shooting began, he shielded her from stray bullets and received one over the eye.

POLAR FLIGHT  
BEEN DELAYED

President Recalls Advance Party  
That was Sent to Nome to  
Establish Station

WASHINGTON, Feb. 16.—President Coolidge has ordered suspension of preparations for the navy's polar flight until Congress has had an opportunity to express its views on the subject.

The president stated that considerable opposition exists to the expenditure of \$350,000 for the flight. An advance party of two officers and four men that recently left for Nome has been recalled.

## TWO GUILTY OF WOMAN MURDER

Men Sentenced to Hang May 10;  
Other May be Charged With  
Crime

MONTREAL, Feb. 16.—Edward Freillier and Alfred Dagenais were found guilty of the murder of Mrs. Bergeron and sentenced to be hanged on May 10.

Afred Duganay and a girl from St. Jean, material witnesses, were recommended by the jury to be charged with murder in the same case.

The motive of the murder was robbery which netted a ring and nine dollars.

## WALES BEAT SCOTLAND

CARDIFF, Feb. 16.—Wales to maintain schedules with the beat Scotland two to nothing this ocean-going passenger ships but afternoon in an international soccer game played here.

Prince Rupert, constructing a terminal elevator at that point with all necessary subsidiary facilities."

Signed—JOHN BLUE,  
Secretary Edmonton Board of  
Trade.

Arthur Little this morning had a telegram from the Edmonton Journal reading as follows: "Journal today contains resolution passed by Edmonton board of trade urging the Government to consider elevators for Prince Rupert. Also statement made by Fred Stork, M.P. The Journal tomorrow will contain other articles on the development of Prince Rupert."

The journal is sending some free copies to Mr. Little for distribution here.

## VICTORIA AMATEURS CHAMPIONS OF COAST DEFEATING VANCOUVER

VANCOUVER, Feb. 16.—Victoria all-stars won the coast amateur hockey championship defeating Vancouver Towers three to two. They will now play Rossland, the Kootenay champions, for the provincial title.

## RICH STRIKE BEAR RIVER

Ore Body Five Feet Thick  
Encountered Which Adds  
Much to Value

(Special to Daily News)  
STEWART, Feb. 16.—The community here is jubilant over a new ore strike in Number 3 level of the Dunwell mine. It is a heavy sulphide ore body, five feet thick and showing argente, native silver and fine gold.

The strike was made 70 feet north of the high grade ore body encountered some weeks ago and adds hugely to the high grade ore tonnage already exposed.

This mine is close to Stewart on Glacier Creek, and two miles from the Bear River road.

## Shipping tied up by Dockers' Strike which went into effect Noon Today throughout Britain

LONDON, Feb. 16.—A strike of dock workers affecting 120,000 men became effective at noon today in all parts of the United Kingdom.

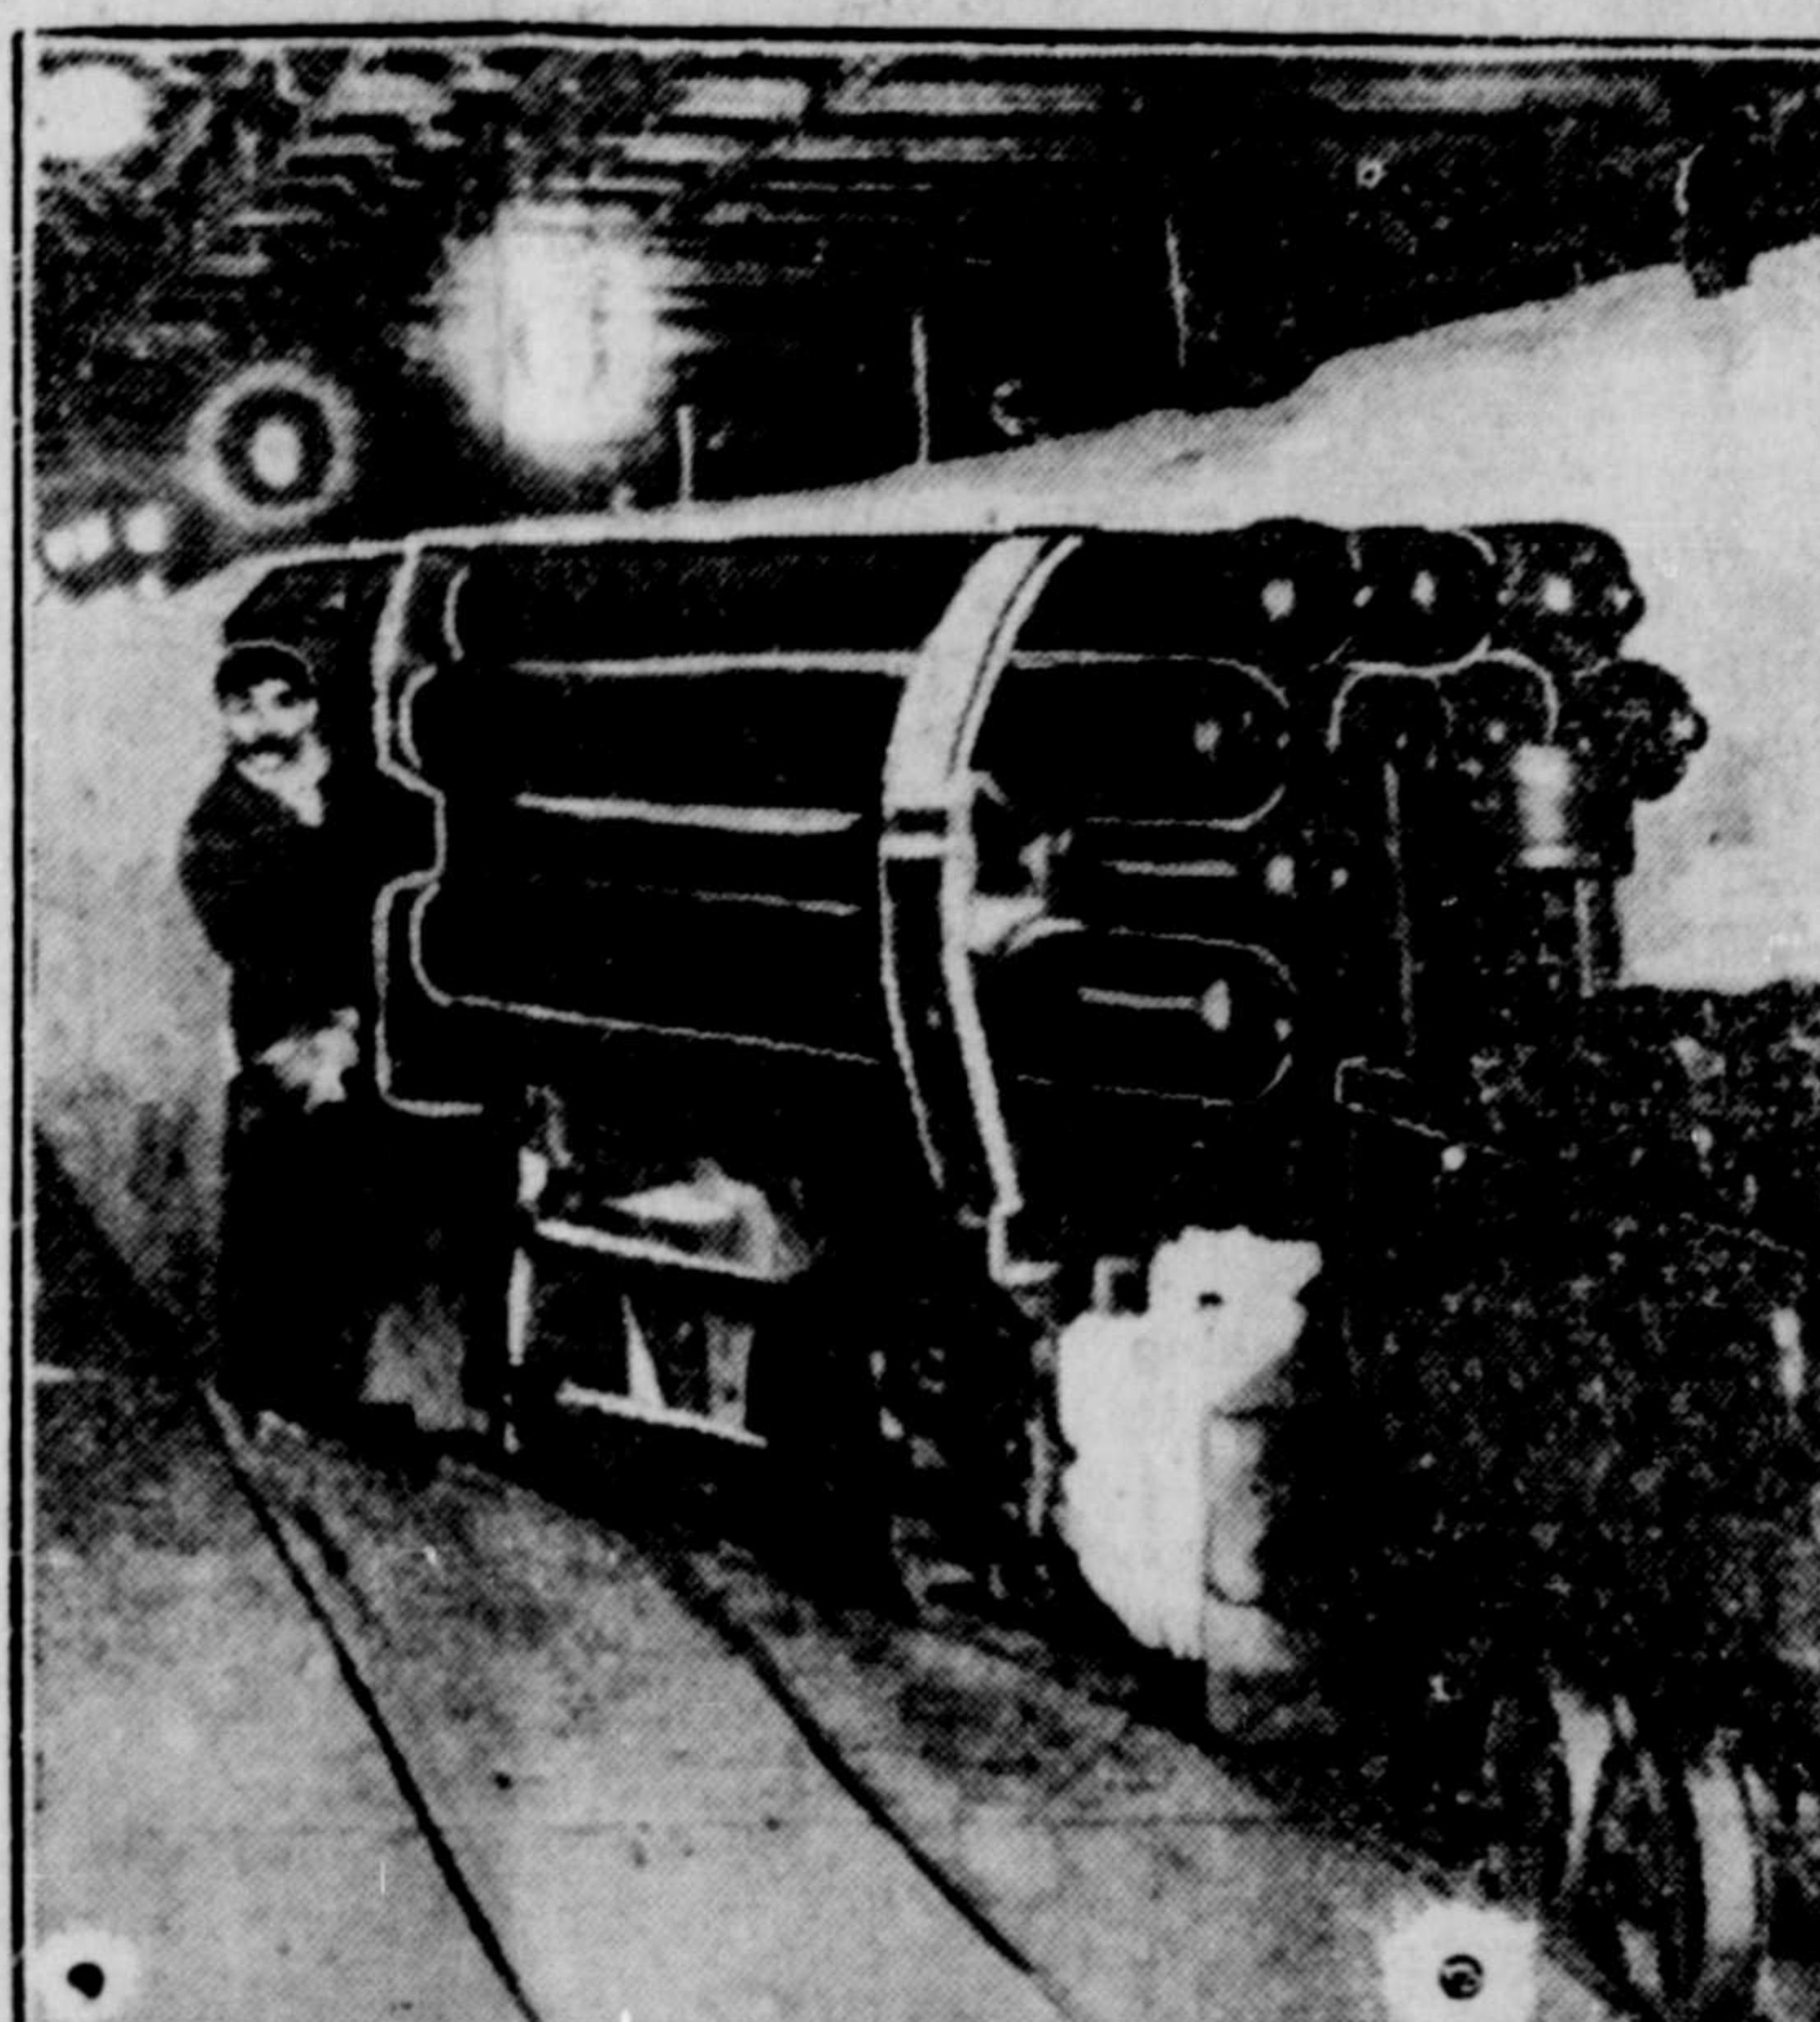

It is expected that the action of the men will have a most serious effect upon the country's food supply. Industries depending upon imports of raw materials will be hampered and numerous employees thrown into idleness.

At Liverpool the tug boat workers struck in sympathy. At Middlesborough twelve liners from the far east are held up at the piers as well as scores of smaller craft in the river.

Steamship operatives, upon whom the business was immediately apparent, expect to be able

to maintain schedules with the auspices of the minister of labor this afternoon resulted in failure of settlement and the strike will be greatly stagnated if not continue.

A meeting between the employers and workers held under the auspices of the minister of labor this afternoon resulted in failure of settlement and the strike will be greatly stagnated if not continue.

A mine in Amsterdam, Holland, is said to be the only one to use compressed air to bring cars of coal to the surface. The propelling force is furnished by means of tanks of compressed air on the rear of the train.

## Maple Bay Mine begins Ship Ore this week to Anyox; grade improving

60 Tons a day will be taken at first increasing to 100; Two and Half per cent Ore soon

ANYOX, Feb. 16.—According to an announcement made yesterday by General Superintendent J. B. Haffner, the barge "John G. Potter" will be loading ore at Maple Bay for Anyox this week-end. The tramway and conveyor are now completed, and about six hundred tons of ore are available at the bunkers there.

During the next six weeks, about sixty tons a day will be mine output, after which it is expected that the tonnage will be increased to about one hundred tons daily.

Developments carried out lately are proving the Maple Bay

properties of the Granby Company better than the expectations of last summer promised, both in grade and quantity; and while the earlier shipments will contain an average of one and one half per cent copper, it will only be a comparatively short time before two and one half per cent copper will be coming along to the smelter.

The Maple Bay ores are in fissures filled with quartz gangue, carrying the copper values. On the Outsider property, the fissures are from three to nine feet or an average of six feet. On the Eagle claims, the diamond drilling of last year showed fifteen feet between the hanging and foot walls.

Further Exploration

During the summer of 1924, further exploration work with the drill will be done on the Eagle group.

The concentrator at Anyox is now awaiting the finishing touches. All the heavy machinery has been installed and the belting and pulleys to drive the works are expected to arrive before the end of the month. It is now believed that the first unit will be in operation about the middle of March.

HOCKEY SCORES

Victoria, 5; Edmonton, 2.  
Saskatchewan, 0; Regina, 2.

Passengers sailing last night for the south on the steamer Princess Mary included M. Giovanni for Vancouver, and C. J. Clark, John Mead and L. Turpin for Seattle.

## Prince Rupert is the Natural Site for Grain Elevator says Manager of Local Drydock

The establishment of a grain elevator at Prince Rupert would definitely put this port on the map as one of the most important shipping centres on the Pacific coast. While every British Columbia seaport is at present striving to obtain such a facility, there are perhaps many people here who have not a full realization of what it would mean to Prince Rupert if the flow of prairie wheat which is now congesting the port of Vancouver could be started to come this way. The elevator is the primary requirement. Possessed of it, the future prosperity

## COLD FEET AND WEAK HEARTS

Lady Astor Accuses Labor Party  
of Being Under Dominance  
of Clubs and Public  
Houses

## WELSH TEMPERANCE BILL

LONDON, Feb. 16.—Lady Astor attacked the Labor Government in the House of Commons Friday, accusing them of "wobbling" on the drink question after putting it in their program. The accusation was made on the second reading of the Welsh Temperance Bill, providing for local option.

Rhys Davies on behalf of the Government, said they regarded the local option clause favorably but declined to support the bill because it contained provisions to place under control of the justices of the peace a large number of clubs where members combined to provide refreshments for themselves.

Lady Astor declared the Government was afraid of clubs just as previously Conservatives had been afraid of public houses. Pressure from clubs and public houses had given labor members cold feet and weak hearts.

The bill was eventually dropped.

## MISSING MAN'S DORY IS FOUND

Capsized Craft Discovered Yesterday Was One in Which Blondel Left Gold Storage Plant

The capsized dory which was discovered floating near the head of the harbor yesterday by the watchman at Prince Rupert cannery was the one in which Fred Blondel, missing for several days, left the plant of the Canadian Fish & Cold Storage Co. last Monday according to Chief W. Spiller of the provincial police who, with Constable Alex. Saint, made an investigation yesterday afternoon. It is now presumed

that Blondel lost his life from the dory in the gale here are of such a nature that prevailing at the time but there is they could be built more cheaply here than at any other point, the dog which Blondel had with It would cost perhaps \$700,000 him has not been found. There to build a half million bushel is a remote possibility that the elevator here and such a facility man and dog might have gone admitted to be commercially ashore and still be alive.

## TWO INJURED WHEN C.N.R. TRAIN STRUCK

SMITH, Ont., Feb. 16.—Two persons were slightly injured when the Canadian National train No. 2 bound for Montreal struck a spiral rail near here last night. The injured were W. Hyde, Fort William and Mrs. Schepkohl, Allenwater, Ont.

## ASSAULT UPON SCHOOL GIRL

Man Took Child in Auto and Left  
Her in Woods After Assault

NANAIMO, Feb. 16.—The police are searching for the man who seized a twelve year old girl returning from school, took her in an automobile to a secluded spot and criminally assaulted her. Leaving his victim in the woods the man drove away.

The girl is in a serious condition.

## WORK RESUMED EASTERN MINES

Referendum to be Taken Regarding Agreement is Only Formality

SIDNEY, N.S., Feb. 16.—Practically all the mines in the Cape Breton district are working today. It is now anticipated that the referendum next week will be only a formality as the attitude of the international officers render advisable a verdict against the acceptance of the contract with the coal operators out of the question. Though the miners in some districts are dissatisfied with the terms of the contract, work is being resumed.

## SECURES MONEY FOR HOSPITAL

**Sum of \$4,800 to be Borrowed to Complete Payment For Finished Work**

### FINISH UPPER STOREY

**Contract Let to John McKechnie For Third Floor Work at \$1,476**

At the meeting of the directors of the Prince Rupert Hospital Association last night in the City Hall, President D. C. McTae in the chair, it was decided on the recommendation of the finance committee to borrow the sum of \$4,800 on mortgage to pay for the completion of the Nurses' Home and tentative arrangements have already been made to secure that amount for five years at 8 per cent. This is the amount needed to pay for the original contracts in connection with the building over and above the amounts subscribed during the drive. The directors also decided to set aside the sum of \$100 a month as a sinking fund to pay off the mortgage and interest thereon.

The contract for finishing the third floor of the building was let to John McKechnie, the contract price being \$1,476, the only other tender being one from John Nelson at something over \$1,500. The Rotary Club is guaranteeing payment of \$1,000 of this amount and the remainder will come out of general revenue.

### Extra Plumbing

The cost of doing this work over and above the original tender, which was slightly under one thousand dollars, is explained by the addition of the cost of putting in plumbing on the upper floor, something which was not contemplated in the original scheme.

The finishing of this floor will add five rooms to the building and it was pointed out would be money well spent. A letter from the secretary of the Rotary Club was read quoting the resolution guaranteeing the sum of \$1,000 toward finishing the work.

### Use Old Furniture

Speaking of the furnishing of the home, it was stated that much of the old furniture would have to be used for the present. Mrs. Morrissey said she had discussed the matter with the auxiliary, and it had been decided to devote the energies of the auxiliary this year to the linen of the hospital which was badly in need of replenishing. S. K. Campbell in this respect said the linen needs were serious.

It was suggested by A. Haines that perhaps some society or group might like to furnish a room in the home and it was intimated that this would always be acceptable.

It was decided to try to increase the membership in the Hospital Association and to this end the fees of the members were reduced from \$5.00 to \$2.50 a year. Mr. Campbell urged that this be done as it was better to have a large membership. Last year only four members had paid the five dollars.

### Sterilizer Complete

The house committee reported the sterilizer was now complete, fitted with electric coils and was giving good service. By installing this, one of the bad fire risks had been eliminated.

The new X-ray equipment, which had been purchased at a cost of \$1,500, had also been delivered but was not set up yet as they were awaiting the arrival of an expert to do the work.

### Cost System

D. C. McTae reported the institution of a cost system in the keeping of hospital accounts by which it could be shown just what the institution was costing per day or per patient. For the month of January some of the costs had been:

Medical and surgical	\$387.23
Nursing	735.00
Administration	399.27
Stores	888.50
Kitchen and household	490.85
Maintenance and repairs, including coal, light, water and telephone	730.26
Laundry	286.00
X-ray	8.00
Ambulance	4.50

There are at present 22 on the hospital staff. The cost for each

patient per day during January was \$3.52.

### Check For \$100

A letter was received from the Red Cross Society with a check for a donation of \$100 which was a contribution toward connecting the sterilizing plant.

Those present at the meeting were D. C. McTae (chairman), S. K. Campbell, E. H. Mortimer, J. H. Thompson, A. Haines, Mrs. Morrissey, Mrs. Henning and Secretary Birch.

## KITKATLA CHURCH IN PROSPEROUS CONDITION

**Officers Elected at Annual Vestry Meeting There Recently—Many Men Away Hunting**

KITKATLA, Feb. 16.—At the annual vestry meeting of St. Peter's Church held on January 20, the following were elected:

Church Committee—Chief E. J. Gamble, Ames Collinson, Henry Collinson, Joshua Sibashia, Alex. Scott, Jas. Nelson, Robert Brown, Arthur Lewis, Jas. Lewis, Wm. Lewis, Jacob Shaw, Benj. Wilson, Sidesmen—Wm. Gladstone, Jas. Shaw, Solomon Brown Sr., Heber Robinson, Matthew Hill, Jas. Jackson, Albert Ridley.

Church Wardens—Matthias Shaw, Bishop's warden; Sol. Brown Jr., people's warden; Jas. Nelson, people's warden.

Delegates to Synod—E. J. Gamble, Jas. Lewis, J. D. Dainpre.

Alternate Delegates to Synod—Matthias Shaw, Sol. Brown Jr., Jas. Nelson.

Treasurer—Benj. Wilson.

Vestry Clerk—Jas. Nelson.

The finances of the church are in good shape with over \$1,000 in the building fund for the new church.

The Sunday school and choir have been reorganized and are carrying on successfully.

The weather for the past week has been very mild and spring-like. A honeysuckle bush at the Mission House is coming out in leaf.

Quite a number of the men of the village are away hunting and trapping, with what results is not known.

Chief Sibashia and Mrs. Sibashia are at Bella Bella where Mrs. Sibashia has been undergoing treatment at the hospital there for the past month. She is making good progress towards recovery and will soon be out.

Mrs. E. J. Gamble, wife of Chief E. J. Gamble is paying a visit to Prince Rupert.

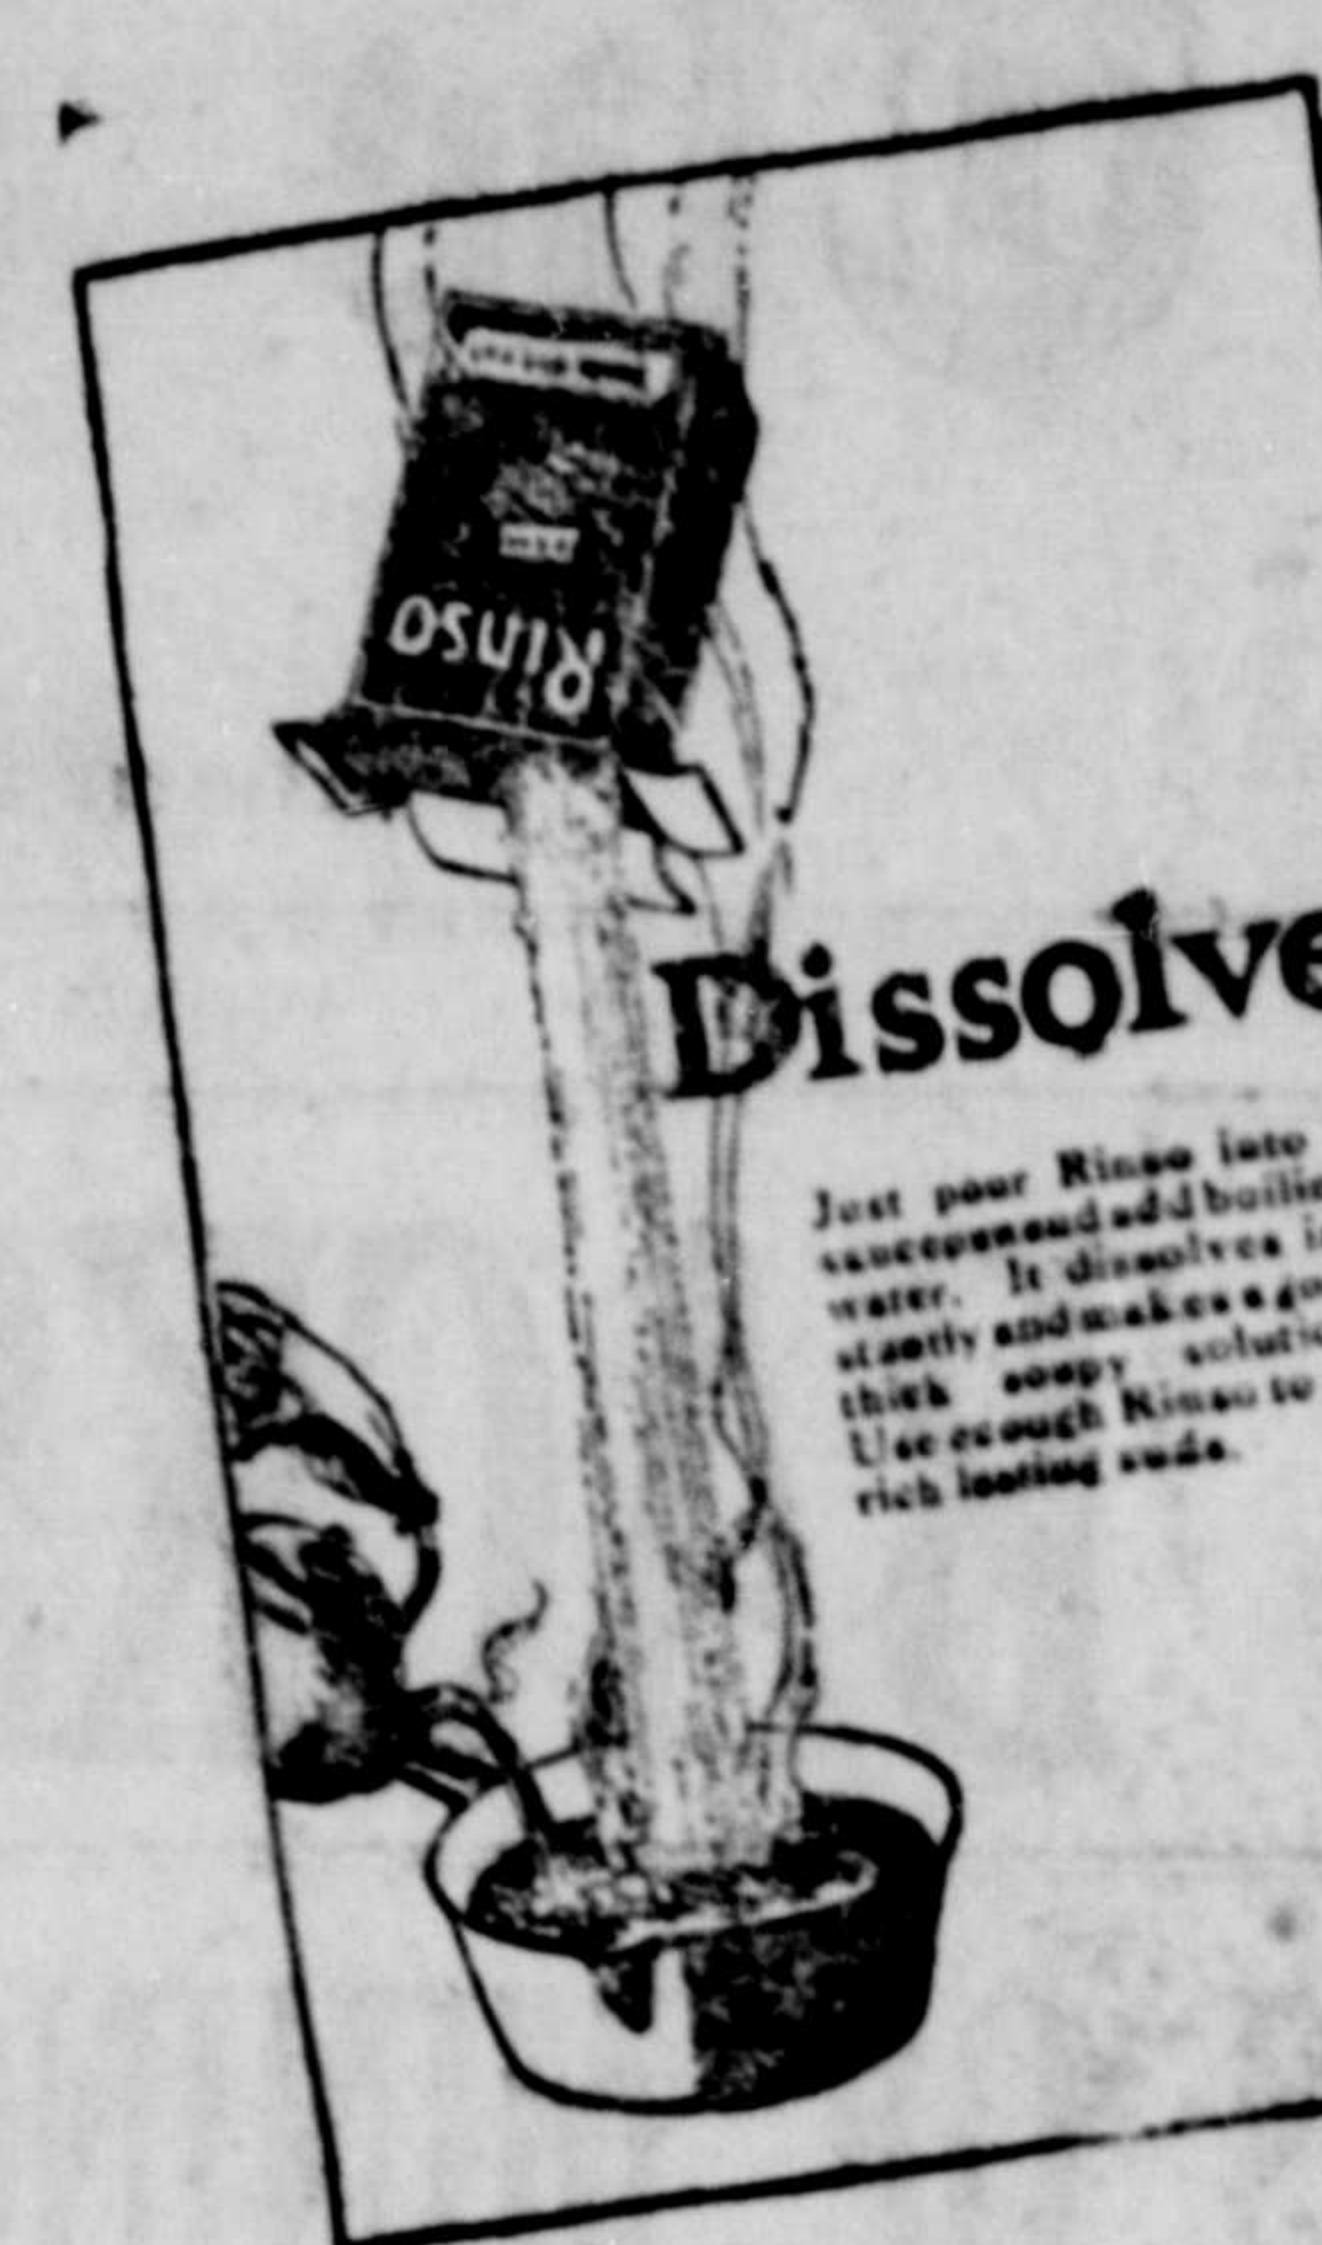

## ANYOX MASQUERADE WONDERFUL DISPLAY

**Difficult to Choose Prize Winners From Such an Array of Fine Costumes**

ANYOX, Feb. 16.—The Valentine masquerade sponsored by the Anyox Parent Teachers' Association, and held in Recreation Hall between the hours of nine and two on Monday last, must go down in local social history as one of its red letter nights. Only an organization with an enthusiastic following could have carried out such an eminently successful affair, and all those who contributed in any way to its accomplishment are entitled to congratulations. It is safe to state that the floor of Recreation Hall has never been so crowded as it was on this occasion nor presented more animated and colorful pictures than those made by the constantly changing combinations of fancy-costumed dancers. All conditions of men and women were represented, pietettes, haughty ladies, girls of the western harems, tramps in rags, clowns of all degrees, soldiers, sailors and characters galore. In allotting the prizes, the judges

had no easy task, there were so many in the different classes that were excellent.

In all there eight prizes, and the winners were: Best costume, lady, Mrs. R. O. Cutler, Valentine; gentleman, B. E. Crawford, cavalier; best sustained character, lady, Mrs. A. Morton, radio set; gentleman, J. Murdoch, Kentucky Colonel; advertising lady, Mrs. F. W. Vincent, Weldon's Journal; gentleman, R. O. Cutler, Vancouver World; comic character, lady, Mrs. O. K. Dwyer, old-fashioned school teacher; gentleman, Mr. Plummer, hobo. The judges were Mrs. J. Hasiell and Messrs. Harvey and Ross.

## With Rinso—snowy-white clothes just by soaking

**SIMPLY soaking in Rinso suds loosens dirt, so that it rinses right out.**

**The old wearing method of rubbing soap on the clothes and then rubbing the clothes is done away with. There is no need of it with Rinso.**

**Only the dirtiest places—where dirt was actually ground in—will need just a light rubbing. When this is necessary, use a little dry Rinso.**

**Rinso is made by the makers of LUX—the largest soap makers in the world. It does the family wash as wonderfully as Lux does fine things.**

**Rinso does the whole job— with it you need no other soap**

## PULFORD'S CREAM of OLIVES 50c

Doings of the Mosquito Fleet which is the chief source of Prince Rupert's prosperity

The admiral of the Mosquito fleet reports that severe storms have been the order of the day and night on the deep sea fishing grounds during the week and several of the home boats found it tough going. However, in spite of the severe weather encountered the halibut landings have exceeded those of the previous week.

The landings have been marked by the scarcity of Canadian fish offering. This has been due to the bad weather and also to the fact that many of the home boats, which have been overhauled during the past winter months and all ready to go out on the high spots, have not seen fit to venture forth with the elements so much against them and the chances of remunerative fishing nil. The heaviest individual landing of the week was made by the American schooner Skandia when she unloaded 120,380 pounds of halibut on Tuesday morning. This remarkable catch was in addition to several thousand pounds of fish unloaded at Ketchikan from her decks. The Canadian schooner Pair of Jacks, Capt. John Ivanson, arriving in port early on Saturday morning last reported encountering very high winds and heavy seas while on her return trip across Heceta Straits, and at times things looked black for the safety of the crew. So strong was the gale that it took the craft 22 hours to make 38 miles.

The waterfront shipyards and machine shops continue busy and a new keel is being laid down in Boneyard Creek by skipper John Field. Several light fur arrivals are reported during the week. Business in the public hire launch branch of the nautical doings took a spurt this week. The fine weather, which broke generally over the northern waters on Wednesday and Thursday and is expected to continue for a while, will permit of the high boat squad getting things lined up in good shape for the forthcoming season's business.

### Keel to be Laid Down

Skipper John Field is busily engaged making preparations for laying the keel of a \$7,000 boat which will be engaged in the transportation business between Butedale and Kitimat. The keel will be commenced early in the coming week and the new boat will take shape on the Boneyard Creek ways. The dimensions of the new craft will be 55 foot long by a 12½ foot beam and when completed will be fitted with a 50 horse power heavy duty Sampson engine capable of giving a normal speed of 8½ knots. The holds will have a carrying capacity of from 10 to 12 tons freight and the interior will be fitted with passenger accommodation. John has secured a contract for the carrying of passengers and freight between the logging camps situated in the vicinity of Butedale and Kitimat. She will also engage in towing booms of logs between

In the excitement the hat was a total toss.

The good ship First Place, Capt. Geo. Place, is on the Cow Bay ways undergoing cabin repairs and hull re-caulking.

### Logging King Visits

Louis Lockyer, the logging king of Lewis Island, made a flying trip to port early in the week aboard the power boat Lewis Island. Louis has been particularly busy lately with his logging operations and with supplies running short it became necessary for the skipper to hurry to port in order that the inner men of his gang could be comfortably accommodated. The Lewis Island was only in port for a few hours.

The Canadian halibut schooner Selma is at the dry dock undergoing repairs in readiness for the spring halibut chasing.

The schooner Nautilus is having her engine repaired while lying at anchor in Cow Bay.

Tug Azurite Fixing Up

The tug Azurite of Anyox, Capt. Gerrard, is at the Dry Dock, and considerable repair

work is being executed upon her. The electrical effects are being given the twice over and the engine is being looked to. It is expected that all work will be completed early in the coming week when the Azurite will return to her home port to engage in the spring towing business.

The Canadian schooner Dolphin, Capt. Pete Byrnie, has just completed annual overhaul and will be leaving port within the next few days for the high spots.

The Ringleader, Capt. Sollows, left port recently for the deep sea fishing grounds on her initial trip of the spring season. The Ringleader has recently been thoroughly overhauled on the N.M. McLean ways.

### Launches Out

The launch Narbethong, skipper Hoomes K. Freeman, was out to the scene of the Amur wreck, White Cliff rock, on Monday with Hubert Ward, who was representing the marine underwriters. The launch Dixie, Rupert, Capt. R. L. Newcomb, was down to Refuge Bay with J. B. Lambert, assistant district engineer for federal department of public works, who was on a trip of inspection in the interests of his department.

The power boat Wigwam, Capt. Claude Ketchum, left port on Thursday morning for Georgetown. The Wigwam will return from the northern mill with a scow of lumber for local consumption.

### Jimmy's New Boat

Skipper Jimmy Thomas left port recently for Vancouver. It is understood that Jimmy is in the south to procure a boat with which he will engage in fish packing during the coming season for the Canadian Fish & Cold Storage Co. The new boat will be in the 60 foot class and will be highly powered.

Several light fur catches have arrived from the Gardner Canal district in the past week and a ready local market has offered for the pelts. Mink and marten skins predominated in the catches.

### Joe Baker Roughs It

The Canadian halibut schooner Joe Baker, Capt. Fred Blundon, arrived in port on Tuesday night after spending several weeks touching it down the coast. Owing to the adverse weather it was impossible for Fred to get anything like a decent catch, in fact it proved to be the worst trip he has ever made. At times the breakers tossed the sturdy craft around so much that it became necessary to seek sheltered coves for days at a time much to the grief of Fred, who delights to be up and doing when away from home.

### Fish Business

During the week 436,200 lbs. of halibut has been marketed on the Fish Exchange. Americans were high at 17.5c and 9c and low at 14c and 8c. Canadians were high at 16c, and 9c and low at 13c, and 8c. Arrivals were:

Pair of Jacks, E. Lipsitt, Summer, Groth, Atlas, Hazel, Tacoma, Faith, Wilson, Volunteer, Arctic, Reliance, Skandia, Renfrew, Joe Baker, Tom and Al, J. P. Todd, Gladstone, Antler, Woodrow, Katalla, Seymour.

### Vic Is Sick

The admiral of the fleet regrets to report that Vic Markland, of the good ship Cub, has been admitted to hospital to undergo an operation. Vic has not been feeling well of late and his admission to hospital is the sequel. The boys will wish Vic a speedy recovery and a quick return to the fold. In the meantime the Cub will remain in the Cow Bay ways and will be under the watchful eye of the fleet secret service.

Two scow loads of coal are expected in tonight from Vancouver Island, in tow of the tug R.F.M., for the Albert-McGaffery interests. The loads will approximate 1000 tons.

The Canadian schooner Cayenne, Capt. Jim Morrison, which has recently been overhauled at the Dry Dock, left port for the deep sea fishing grounds on Monday last. Jim has been paying particular attention to the engine during the fixing and has it in such shape now that when the alarm clock rings the box

# Why?

WHY waste time in useless "shopping around" when the advertisements lay before you the choicest wares of every progressive merchant in town?

WHY use needless effort in an endless store-to-store quest when the advertisements enable you to make your choice of the finest merchandise without even leaving your home?

WHY pay more than you ought when you can stretch your dollar to the elastic limit by taking advantage of the bargains and good buys that are daily advertised in this paper?

WHY risk dissatisfaction by buying unknown, unbranded goods when you can assure yourself complete satisfaction by buying an advertised product, backed by the integrity of a man who spends real money to establish his name and to build up public good-will?

*Read the Advertisements. Buy Advertised Wares. It is a safe and sound policy*

## SONS OF CANADA AGAIN BEATEN

Colts Scored Victory in Senior Basketball League—Grotto Defeats High School

LADIES' LEAGUE HEAD TEAMS EVEN AGAIN

The Colts won again in the Senior Basketball game last night defeating the Sons of Canada by a score of 39 to 26. E. A. Mann refereed and the teams lined up and scored as follows:

Colts—R. Bartlett, 1; E. Smith, 1, 5; G. Mitchell, 3, 6; W. Mitchell, 10; A. A. Easson, 17. Total 39.

Sons of Canada—R. B. Skinner, 2, 4; D. Matheson, H. Menzies, 14; D. Balfour, 2, 9; H. Astor, 2, 2; D. Graham.—Total 26.

## Ladies' League

The Maple Leafs and Adanacs are again on even footing in the Ladies' League standing for the Teachers beat the latter by 18 to 12 in last night's fixture.

R. B. Skinner refereed and scoring was as follows:

Adanacs—Annie Kelly, 5; Leona Parker, 4; Vera Shockley, 3; Willis Dyer; Pete Tremayne. Total 12.

Teachers—M. Lindsay, 5; G. Mitchell, 7; C. Harvey, 2; Nora Pryce, 2; Marjorie Lancaster, 2. Total 18.

The Grotto beat the High School in a closely contested Intermediate League match by a score of 32 to 31 and the Junior League match was won 41 to 10 by the High School over the Blue Birds.

The latter match was refereed by Mike Budenich and the scoring was as follows:

Blue Birds—F. Macdonald, 2; J. Nelson, 2; D. Stalker, Tom Kelsey, 6; Percy Bond.—Total, 10.

High School—Y. Katsuyama, 8; B. Wendle, 10; Clarence Thompson, 2; Bob Matheson, 4; Esau Katsuyama, 2; Elvin Johnson, 15.—Total 41.

## THE DAILY NEWS.

ASK YOUR DRUGGIST  
FOR VICKS

Good For Influenza and All Cold Troubles

Mrs. John Hastie Sri, of Beaverdale, Saskatchewan, says: "I was thankful that I had Vicks in the house when I had VapoRub in the house. I rubbed it inside the because of short supply."

Arrivals and sales were as follows:

back of the ears. The effects were marvellous. I was able to sleep and enjoyed a good night's sleep.

I will never be without pounds, at 20c and 8c to the Vicks again."

They used to treat cold troubles externally—with tallow, goose-grease and Camphor. Then internal dosing became the habit, but now the new "outside" treatment is rapidly becoming the most popular of all.
