MESSAGE OF COOLIDGE TO U. S. CONGRESS

SASKATCHEWAN'S NEW LIQUOR BILL INTRODUCED INTO THE LEGISLATURE

Bill to Control Sale of Liquor is Introduced in Saskatchewan House

REGINA, Dec. 3.—A bill providing for government control of the sale of liquor was introduced yesterday in the Saskatchewan Legislature by Attorney General Cross.

In the bill there is no provision made for sale of beer in licensed premises. Liquor stores are to be established in each of seven cities and the town of Yorkton.

City districts have a right to vote out stores at any time and people of other districts may vote out a store after the expiration of two years from its establishment.

Under the proposed new law, no liquor will be sold to persons under 21 years of age. No person except an employee of the board is allowed to sell beer of any strength.

Doctors, druggists, or veterinarians may supply liquor under prescription and permit.

LOCAL BOY IS ELECTED

Jack Stevens of This City Will Attend Boys' Parliament in Victoria at End of Month

This district is to be represented for the first time at the Boys' Parliament which will hold its sessions in the provincial parliament buildings at Victoria on December 28, 29, and 30.

The first session of the Boys' Parliament of British Columbia took place last winter but this district was not represented then.

ATHLETIC HALL

The building of an athletic hall for the use of all citizens and particularly for the young people is still being talked about here, just as has been the case for years past.

RUPERT GETS PREFERENCE

Special Treatment in Royalties Bill Introduced to Legislature Today

VICTORIA, Dec. 3.—A notable feature of the timber royalties amending bill, fixing the royalties for the next ten years in British Columbia introduced into the legislature by Hon. T. D. Pattullo this afternoon, is the provision of a lower scale for Prince Rupert than for the Vancouver district.

MINING AROUND L. KITSUMKALUM

Ladies do Their Part in Prospecting on Maroon Mountain and Find Ore

That mining in the country around Kitsumkalum Lake is still in a fairly flourishing condition and that several mines will work all winter in a small way is the word brought by Oscar Gendron of Terrace, one of the former owners of the Black Wolf claims recently sold and now being worked by a small gang of six men.

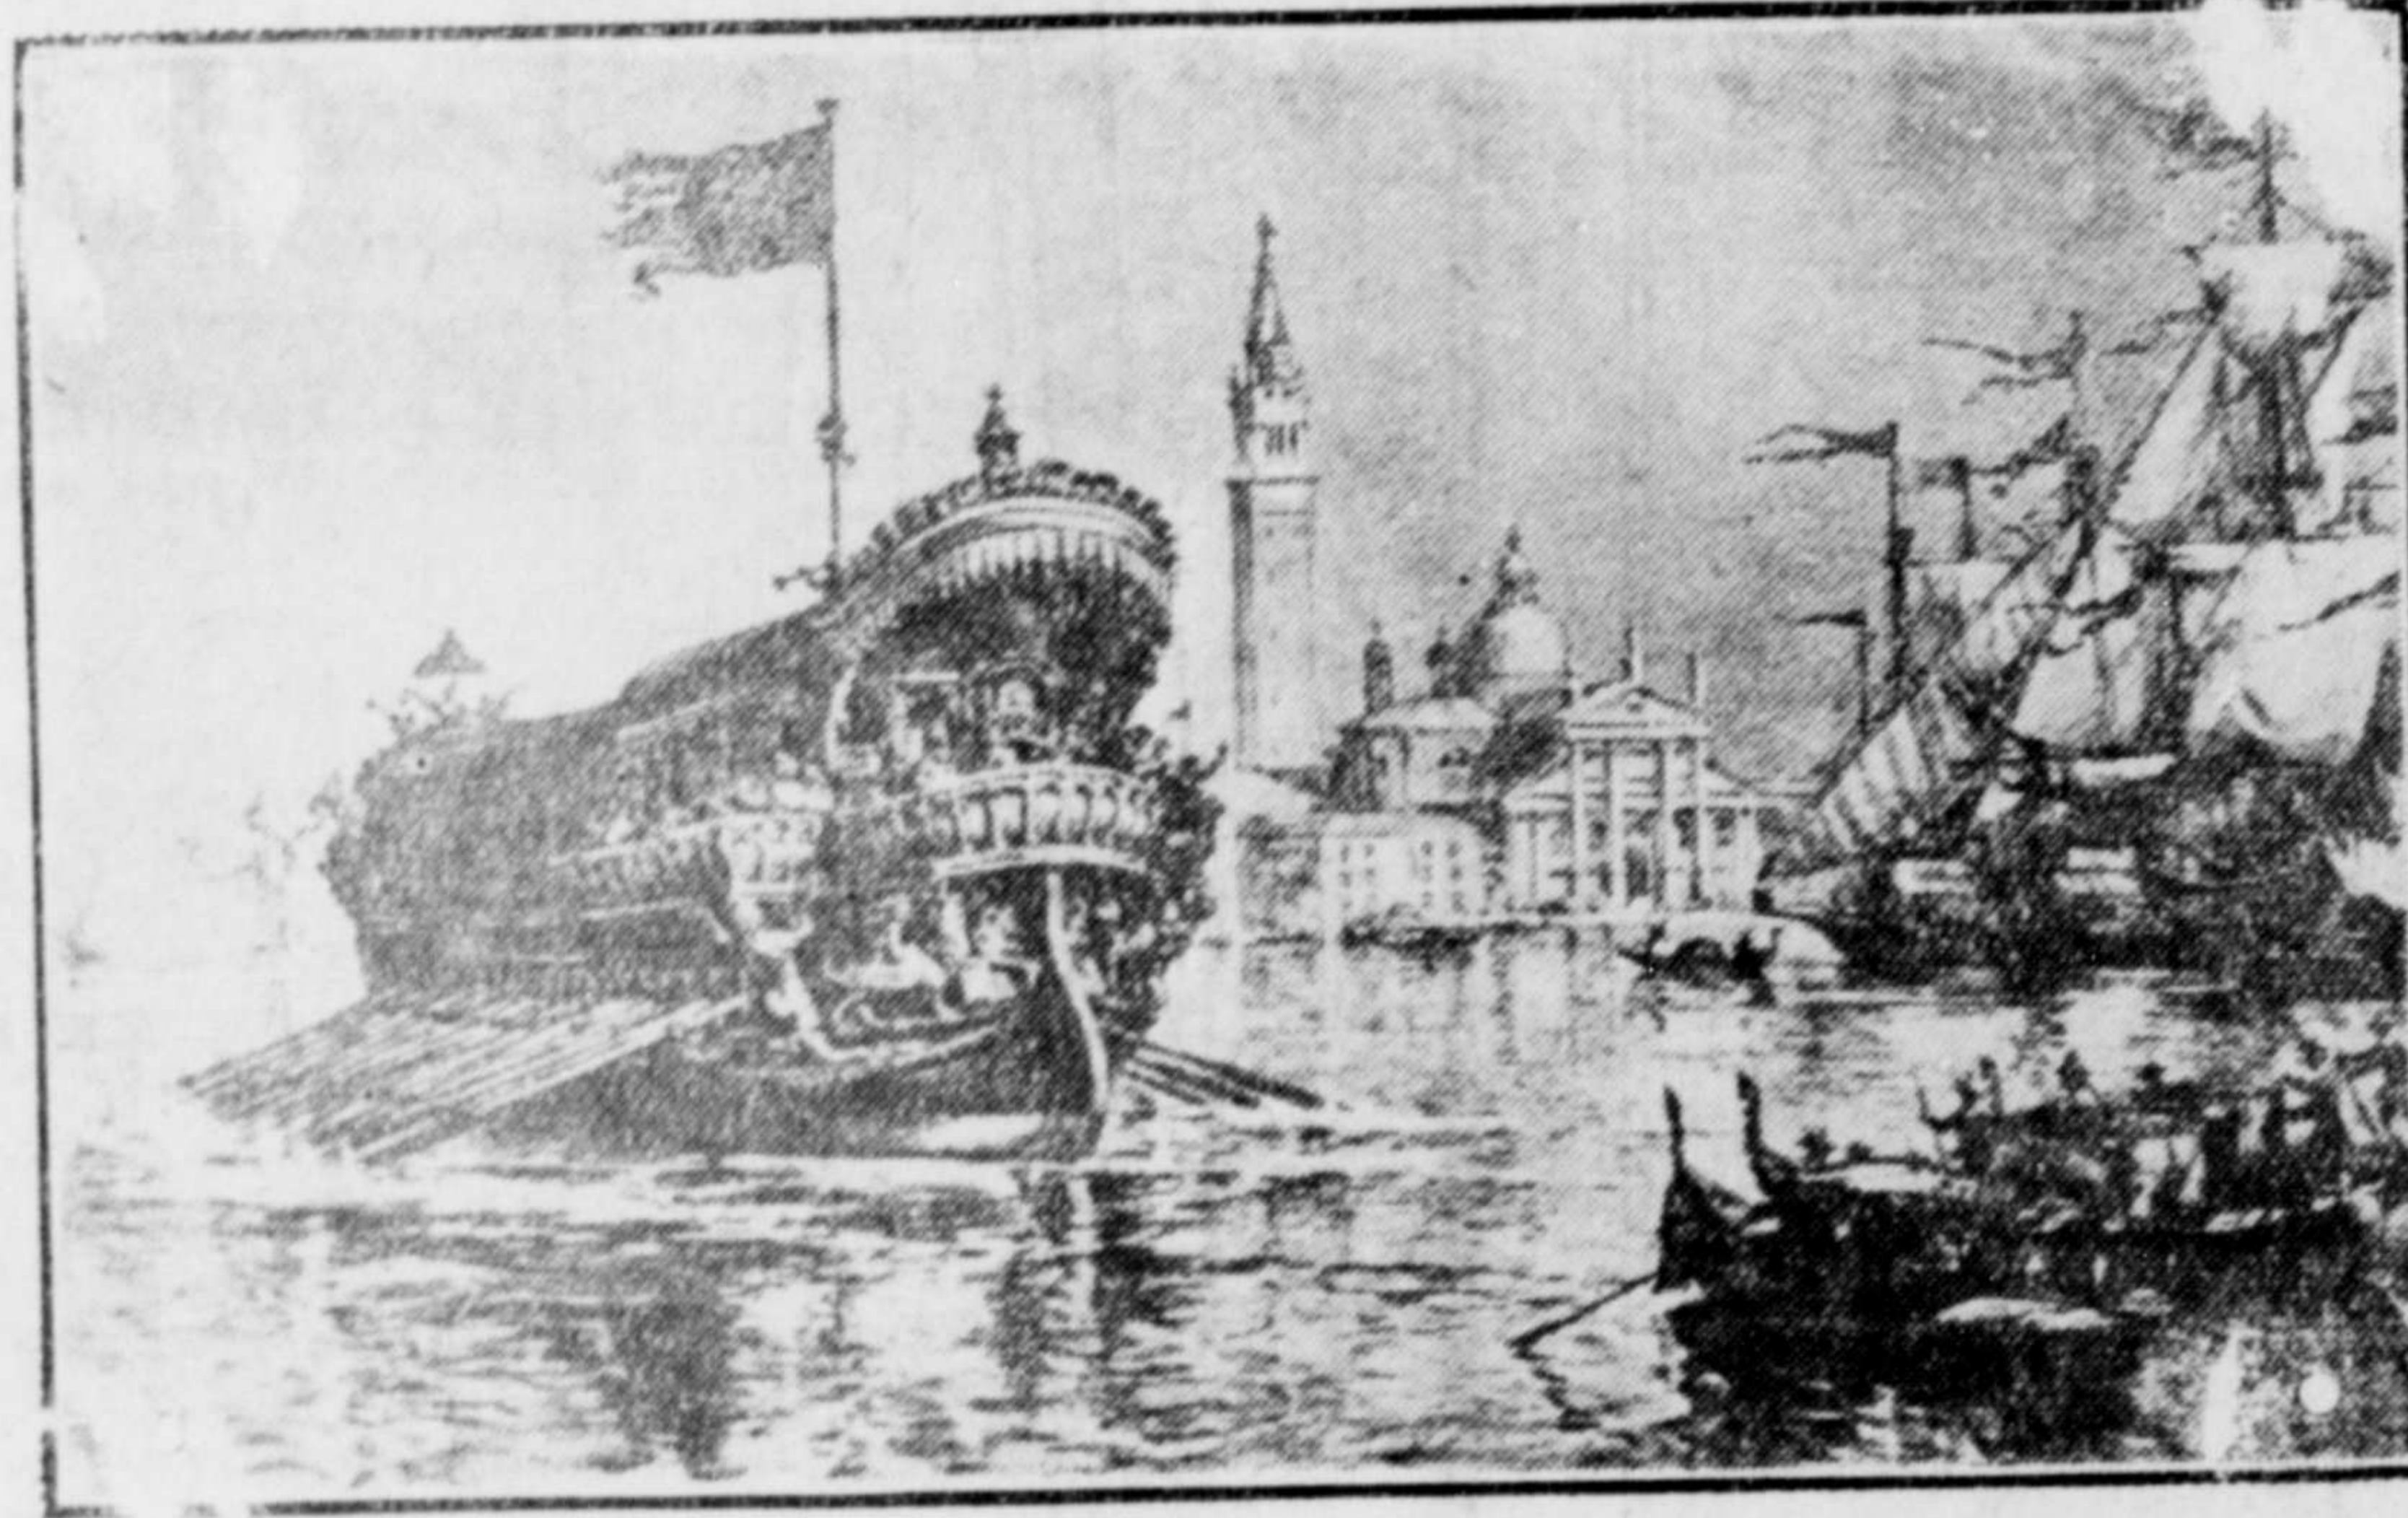

Work will also continue throughout the winter on the Portland Mining Company's property but the Ghro Mining Co. has closed down until next spring when it is expected a new mill will likely be installed.

One of the interesting new properties of the district is that of the White Heather Co. on Maroon Mountain, Kalam Lake. It is owned by Messrs. Bacon and Jones and Mesdames Weeden and Ogates of Vancouver, all of whom prospected the mountain last summer and staked 15 claims between them and it is said they have found good high grade ore that assays high.

The party spent a week up Douglas Creek but failing to get what they wanted there they moved to the district where they found the vein on which they staked.

The gold ore is free milling and will have to be milled on the spot. It is reached by a trail over which horses can travel.

J. P. Forde district engineer of the public works department arrived today from the south.

The Christmas card of the Prince of Wales this year is "The Wedding of the Adriatic," showing the state barge of Venice, conveying the doge and his council into the Adriatic for the ancient ceremony of sinking a ring into the sea to wed it, in token of perpetual sovereignty

Coolidge Urges World Court of Justice and Disarmament Conference in Near Future

WASHINGTON, Dec. 3.—President Coolidge's annual message to Congress advised United States adherence to a world court of justice but declared that the United States was not disposed to join the League of Nations and opposed any cancellation of debts owed to that country.

The message stated that the most important work of Congress would be to sponsor a system of rigid economy in order to make possible further tax reduction. The President stated he hoped the United States might approach other great powers for a further conference on armament reduction, as soon as the carrying out of the present reparations plan had established a settled policy in Europe and created a favorable opportunity.

The President declared the publication of income tax returns detrimental to public welfare. He suggested a change in the immigration laws to make the administrative features a little more human, permitting those already in the United States greater latitude in securing admission for members of their families.

POWER PLANT AT ALICE ARM

Company Organized and Electricity Will be Developed From Falls Creek—Work Starting

ALICE ARM, Dec. 3.—Alice Arm is to have an electric light and power plant and, a company having been formed, construction work will start immediately. The company, which will be known as the Alice Arm Hydro-Electric Co., was organized by the shareholders of the Esperanza Mine syndicate.

BANK OFFICIALS ARE OUT ON BAIL

Two Have Appealed to Supreme Court of Ontario Against Convictions

TORONTO, Dec. 3.—C. A. Barnard and Col. G. F. Smith, under sentence of imprisonment in connection with the collapse of the Home Bank, were this afternoon admitted to bail pending an appeal and the hearing of the cases before the Ontario Supreme Court.

CHARGED WITH VAGRANCY

Anton Well alias Rosang was brought up in the city police court this morning and charged under the Vagrancy Act with fighting. He was fined \$50 and E. Bodin, his opponent in the melee which took place last night on Comox Avenue, was assessed \$10 and costs.

NO SUCCESSOR YET TO AGENT GENERAL WADE

Appointment Was Offered to John Hart But Not Yet Accepted: Game Act Criticism

VICTORIA, Dec. 3.—Answering a question in the legislature yesterday, Premier Oliver stated that the government would probably not appoint a successor to F. C. Wade in London until after the present session.

It is known here that John Hart, former finance minister, has been offered the post but has not yet decided to accept it. Game Administration Members of the opposition urged the government to place the game administration in a separate department from police control.

ORGANIZE MUSEUM COMMITTEE TONIGHT CITY HALL MEETING

A meeting will be held tonight at eight o'clock in the council chamber of the city hall for the purpose of organizing a committee to collect specimens for a museum and care for them on behalf of the city.

COMMUNISTS LOSE LIVES

Seventeen Implicated in Revolt and Seven Condemned to Die

REVAL, Estonia, Dec. 3.—It is officially announced that seventeen people were tried by court martial for complicity in a communist revolt. Seven were condemned to death and the sentences are being carried out.

Normal conditions prevail throughout Estonia following the suppression of the rising which resulted in the loss of nearly a score of lives on the government side and some 50 communists.

STOP SEARCH FOR BODIES

Gales Interfere with Operations But Magnets Have Now Arrived

NEW DIVISIONAL POINT

Hidden Supplies Discovered and Other Murders May Now be Unearthed

VICTORIA, Dec. 3.—Gales have put a temporary stop to diving operations of those in search for the bodies of Captain Gillis and his son William who were murdered by hi-jackers on September 15 on board the schooner Beryl G. Magnets to be used in the search arrived today.

It is thought that the bodies in swelling may have dragged the anchor which weighted them down and may have passed into open water.

The location of a new "divisional point" in the rum running traffic at a point near Anacortes has been one of the results of the investigation. Many hidden lairs with valuable supplies of liquor have been uncovered and it is believed other hi-jacking murders may be traced.

MUCH LIQUOR GOES TO U.S.

Total Value of Last Year's Exports from Canada Nearly Ten Millions

OTTAWA, Dec. 3.—Canada exported 298,813 gallons of whiskey to the United States in the past twelve months valued at \$4,700,000. Also there was sent to that country more than three million gallons of ale and beer. The total value of all beverages sent to the U.S. during the last fiscal year amounted to \$9,834,705.

GRATTON'S STORE BROKEN INTO AND REVOLVERS TAKEN

The store of Wilfrid Gratton was broken into some time between 10 o'clock last night and 8 o'clock this morning and two revolvers valued at \$70 and \$50 and five boxes of ammunition were removed. Access was gained by removing the glass from one of the rear windows of the store. The police were notified and the case is being investigated.

EDITORIAL

ELEVATOR TENDERS

The calling of tenders for the elevator to be built here by the Dominion Government puts the building plan on a more definite basis and seems to indicate a desire on the part of the Federal Government to go through with the scheme and make this a real shipping port.

The elevator is the first step toward port development that really counts. It is the first thing necessary to enable grain shipments to be made from here. It is what Prince Rupert people have been looking for and what the member for the district has been working for, since the present government came into power.

There are other things needed here, but just now it would not be wise to confuse the issue in any way by urging the prosecuting of any other work. The elevator is the thing just now, for it means more to us than anything else.

LOCAL FISHERMAN REPORTED MISSING

Fears are expressed for the safety of Jack Thomas who, during the past summer has been operating the gasboat Provincial out of this port in the salmon fisheries.

After the fishing here was over, the Provincial went south and Mr. Thomas went to Vancouver to deposit what is believed to have been a large sum of money. The boat awaited his return at Alef Bay but he failed to turn up.

Mrs. Thomas, who resides at the Palmer House, is very worried.

LIBRARY USED BY GREAT MANY

Interest Much Greater Than Last Year With Notable Increase in Books Borrowed

There has been a notable increase in the number of books loaned by the public library this fall over last year. At the meeting of the Library Board held last night the librarian reported that 3112 books had been issued during the month of November or a daily average of 129.5. This compares favorably with last year when 2,453 books were issued or a daily average of 98.

In all there are 1703 membership cards out, 49 of which were issued new during November while only three were cancelled during the same time. Ten books were received by gift and six by purchase while two were discarded. There are now 4,148 books on the shelves.

One of the members of the Board said he had heard suggestions on the outside that a History of Scotland should be added to the collection. It was thought by one member that possibly if the need were known someone would donate a book on that subject.

On the recommendation of the book committee a number of new books are being ordered at once, completing the purchases for the year.

Those present were Messrs. Hacker, Fuller, Black, Pullen, Wilkerson, Mrs. Kirkpatrick and the librarian.

DAILY EDITION Wednesday, Dec. 3, 1924.

Museum For City Is Very Desirable.

It is very desirable that Prince Rupert should have a museum and that the collection should commence immediately. A great many people are interested in the matter and express their readiness to support it.

There are already in Prince Rupert a great many interesting things that if gathered and classified would make a collection worth seeing. If an organization is formed it will be its duty to commence this collection rather than to spend money.

Soon Be Time For Civic Politics.

It is about time we were beginning to consider the matter of selecting the mayor and aldermen and other civic officials for next year. The elections take place next month but people need time to consider for whom they will vote.

From present appearances it looks as if there might be only two men in the field, but no one can tell what will happen in Prince Rupert. Unexpected people may offer themselves with unexpected results.

Care Needed In Selection Of Man.

Care is needed now if ever in the selection of a man to guide the destinies of the city. If there is work to be done in preparation for power installation, in trying to bring about grain shipping business and, possibly, in connection with other developments, the best possible man should be chosen to represent the city.

The city has done a lot of good work during the year now almost closing and it is very desirable that the good work go on.

Construction Work On Government Road

The city is making a good start on the road leading out of the city to connect with the government highway, which has already been commenced. Something like ten or twelve thousand dollars has already been spent by the provincial government on the clearing of the right of way and it is expected that the work of grading will proceed early next year.

New Cannery Is Valuable To City.

The establishment of the clam canning factory here is something that was needed. It provides winter employment for many fishermen and others and serves as a means of carrying people over until other work is offering. Every twenty or thirty people employed here now prevents that many going away to other centres and helps to provide business for the city. Industries are what we need.

Advertised Brands Of Cigarettes Sell.

That the brand of cigarettes for which there is a demand is the advertised brand, is the testimony of a local man who handles large quantities. The taste changes but only as the advertising changes.

Advertising inspires confidence and is suggestive. To be most effective it must be done continuously, scientifically and persistently. While there is a lot of money wasted in advertising, there are fortunes unclaimed because the fortune hunter refuses to accept the modern method of carrying on business.

THORNTON OUT IN DEFENCE OF ADMINISTRATION

Shows that C.N.R. Compares Favorably with C.P.R. in Regard to General Staff

HALIFAX, N.S., Dec. 3.—Prior to his departure from Halifax for Riviere du Loup and Montreal, after his inspection trip through the maritime provinces, Sir Henry W. Thornton, chairman and president of the Canadian National Railways branded as unfair and designed with ulterior motive, propaganda recently emanating from Ottawa to the effect that the Canadian National Railways are overstaffed as far as general officers are concerned, and in excess of the Canadian Pacific both as regards personnel and salaries.

"The story has been set afloat," said Sir Henry, "that the Canadian National Railways are overstaffed in general officers. These rumors originated in Ottawa and were based on a report received by the bureau of statistics but were sent out by some one not connected with that department. The rumor was deliberately pushed out for purposes hostile to the Canadian National Railways and only half the truth was told. You were not told that the density of freight traffic on the Canadian Pacific is 32.6 per cent greater than on the Canadian National. The Canadian National operates 22,000 miles of track against 15,000 of the Canadian Pacific, approximately 7,000 miles more than the general officers of the Canadian Pacific Railway number 317 against 340 on the Canadian National Railways, a difference of 23, but this difference of 23 officers should be compared with the difference in mileage and the difference in density of traffic on the two roads.

You were not told that the average salary of the general officers of the Canadian National is \$6,423 and that of the C.P.R. general officers to the total payrolls of the two systems is: C. N. R. 1.63 per cent and C.P.R. 2.23 per cent. This is a fair sample of the campaign that we have to meet in some quarters and we have this to contend with in addition to administering the property.

Methodist Church Bazaar, December 11.

MEN ARE MORE SHORT TEMPERED THAN WOMEN

Is it so, or is it not so? Some men naturally will dispute the statement, but these same men should recollect the times they have lost their tempers when they lit the fire in the morning and it went out, leaving them to do the whole thing over again.

Fortunately this trouble can easily be eliminated. Coal is being sold today which can be ignited from paper rolled into balls. A good fire is going in a few minutes and breakfast is ready in no time.

This coal is the famous Nainaimo-Wellington, sold only by Albert & McGaffery. Every pound of it double screened—no rock or shale, no slack and very little ash. It lasts longer, gives greater heat and better service. These are some of the reasons for so many repeat orders. Be one of the many wise people. Do as they do by ordering nothing but Nainaimo-Wellington coal. Prompt and civil service. Remember the phone numbers are 116 and 564.

SUCCESSFUL BAZAAR OF LUTHERAN CHURCH

Over Three Hundred Dollars Cleared by Women's Aid Society

The first annual bazaar of the Women's Aid Society of St. Paul's Lutheran Church held yesterday afternoon in the Metropole Hall was a very well attended and successful affair. It was opened at 2:30 by Rev. P. E. Baisler. Over \$300 was cleared and practically all the attractive articles offered for sale were disposed of.

Mrs. P. E. Baisler was general convener and those in charge of the various departments were as follows:

Fancy Work—Mrs. Skatlehol assisted by Mrs. Ed. Unger.

Aprons—Mrs. A. Akerberg, assisted by Mrs. F. W. Hart.

Home cooking—Mrs. K. Hallberg, assisted by Mrs. Gus Anderson.

Tea room—Mrs. C. Edwards, assisted by Mrs. Thor Johnson, Miss Ingrid Isaacson and Miss Agnes Ivarson.

Handkerchiefs—Miss Edna Unger, assisted by Misses Aleita and Lily Ivarson.

Fish pond—Arthur Fritz, Alfred Skatlehol and Alfred Anderson.

Evening Program

In the evening an attractive program, presided over by Rev. P. E. Baisler, was offered. It was as follows:

Mermaid dance and Dolly's Singing Lesson—Misses Evelyn and Eleanor Edwards, Ingrid and Alice Hallberg and Marie Hensen. The girls, who were prettily dressed in colors, were trained by Mrs. L. O. Larsen.

Sketch—"The Gossips," Misses Evelyn Anderson, Aleita and Lily Ivarson and Edna Unger.

Vocal duet—Mr. and Mrs. L. O. Larsen.

Solo—Mrs. Jarvis McLeod.

Pantomime—"Jesus, Lover of my Soul," Misses Daniella Christensen, Agnes Ivarson, Ingrid Isaacson and Margit Hallberg.

W. Vaughan Davies was accompanist.

FIVE YEAR OLD KIDDIE COMES FROM ENGLAND

Betty Dickens Makes Long Trip With Parly to Vancouver and With Stewardess on Boat

Little Miss Betty Dickens, aged five, arriving in the city from the south on the steamer Prince Rupert this afternoon, is probably the youngest person ever making the long trip from England to Prince Rupert by herself. This little lady came to Vancouver in company with a party of emigrants from the Old Country and from Vancouver was under

the kindly eye of Miss Johnson, the stewardess of the Prince Rupert. She will make her home here with her uncle, Edward Dickens, who is in the employ of the Canadian National Railways.

Why YOU Should Purchase a Canadian Government Annuity

Because in old age it will free you from the dread of poverty or of becoming a burden upon others; Because it will bring you comfort and independence in your later years;

BECAUSE IT WILL GIVE YOU A LARGER RETURN FOR THE AMOUNT INVESTED THAN ANY OTHER LIFE INVESTMENT OF EQUAL SECURITY.

For example, if a man of 29 will pay to the Dominion Government the sum of \$5.31 a month until he is 60, the Government will agree to pay to him from 60 as long as he lives \$50 a month—a return equal to over 23½% on the total amount paid.

If he dies before 60, every dollar that he paid in, with 4% compound interest, would be returnable to his heirs. If he should die between 59 and 60, the amount so returnable in a cash sum would be \$5,230.00.

Such an Annuity may be of any amount from \$50 to \$5,000 a year, the cost being relatively the same. It is non-forfeitable, cannot be seized for debt, and is free from Dominion Income Tax. For full particulars fill out this Coupon and address it as directed.

THE CORPORATION OF THE CITY OF PRINCE RUPERT.

TAKE NOTICE THAT:

1. The Council of the Corporation of the City of Prince Rupert intends to construct a pavement fifteen feet wide, consisting of a mattress of timber over which will be placed a paving giving a depth at the crown of ten inches composed of broken stone and sand, on that portion of Hays Cove Circle commencing from a point eight feet south of the centre line intersection of 5th Avenue and Hays Cove Circle, thence along the west portion of Hays Cove Circle as shown on the plans and profiles deposited in the Office of the City Engineer to a point eight feet north of the centre line intersection of Hays Cove Circle and 7th Avenue, as a local improvement, and intends to specially assess the cost upon the land abutting directly on the work except such portion of the cost as is incurred at street intersections and at school property.

2. The estimated cost of the work is \$2700.00, of which \$1836.74 is to be paid by the Corporation, and the estimated annual special rate per foot frontage is \$2728.163. The special assessment is to be paid in 10 annual instalments.

3. Persons desiring to petition against undertaking the work must do so on or before the 5th day of January, 1925.

E. F. JONES, City Clerk. Dated this 29th day of November, 1924.

MANY WERE AT FUNERAL OF LATE MRS. HANKINSON

Service Took Form of Community Memorial with Two Clergymen Officiating

SMITHERS, Dec. 3.—The funeral service Sunday for the late Mrs. C. H. Hankinson was something in the nature of a community memorial service and was attended by people from all parts of the district. It was conducted by Rev. M. W. Lees, assisted by Rev. R. E. W. Biddell. Reference was made by Mr. Lees to the noble character of the one they mourned.

Music was provided by the Gray orchestra. The pall bearers were chosen from the members of the Masonic and Oddfellows lodges. They were J. Mason Adams, E. E. Orchard, L. S. McGill, W. S. Henry, W. F. Boyer and R. L. Gale. Honorary pall bearers from the Rebekah lodge were Mesdames J. S. Gray, W. F. Boyer, R. W. Champion, J. Porteous, J. Rife and J. Cathral. W. J. Service was in charge of the funeral procession. Among the mourners present were Miss Jean Sangster, a sister who is teaching at Vulcan, Alta.; Mrs. Roy Elsey of Vancouver, and Fred Dunn, a friend of the family, who is attending college at Edmonton.

STUDENTS HEAR OF LIFE IN PALESTINE AND OTHER COUNTRIES

Canon S. Gould of Toronto Lectures in High School and is Appreciated

Canon S. Gould of Toronto gave a wonderfully interesting lecture to the pupils of the King Edward High School yesterday afternoon, his subject being "Life in the East." He described minutely life among the Arabs and others in the Holy Land, China and other countries giving a most vivid description of the Valley of the Jordan and the ancient lands of Hebrew civilization including the cities of Jerusalem and Nazareth. Incidentally he showed what an important theatre Canada must become, its sparsely settled and fertile lands seeming to have been providentially preserved for the settlement of a people who would develop a higher civilization, because of this it behooved everyone to realize the importance of Canada and the value of Canadian citizenship.

In contrast with the conditions in Canada the speaker pictured the conditions in China. From one eminence in that country he had been able to look out and count 32 towns and yet many were hidden from view which were not far away.

At the conclusion of his lecture the Canon was thanked for his wonderfully interesting and instructive discourse.

PEAK LOAD OF COAL IS BEING DISTRIBUTED

WINNIPEG, Dec. 3.—In times of warmth prepare for cold, appears to be the motto of prairie province residents at the moment, according to coal movements from the Alberta mines over the Canadian National Railways. At the present time, approximately 500 cars, containing roughly 20,000 tons of coal are being loaded at Alberta mines in Canadian National territory in Alberta and these are being rushed as fast as loaded to points in the prairie provinces where fuel is needed. This is the peak load period of the present coal year, according to Canadian National figures.

Figured in Historic Sod Turning This antique looking wheelbarrow and spade do not appear capable of very heavy service now, but nearly half a century ago they carried the weight of a very important event—the ceremony marking the commencement of the construction of the Canada Central Railway through Pembroke, Ontario. Following the ceremony, the spade with which the first sod was turned and the wheelbarrow into which it was shoveled in the presence of a very enthusiastic crowd, were presented to Miss M. P. Moffat, daughter of the Reeve of the village, the lady who performed the ceremony of the naming of the road and christening it with a bottle of champagne. They recently passed into the hands of the Canadian Pacific Railway, which company took over the Canada Central lines in 1881, and will be added to a museum of relics connected with the early days of the railroad which is being formed in Montreal. So much for the actual ceremony. The Pembroke "Observer" for September 3rd 1875 says: "The assembly then adjourned to a spacious hall that had been specially erected for the occasion, where champagne and beer had been provided for the purpose of drinking several toasts which had been previously agreed upon, by the committee; but a number of individuals apparently more intent on drinking champagne than doing honor to any toasts, took possession of the tables, and the regular order of the program had to be abandoned. The Pembroke Brass Band was present and performed some popular airs."

INVESTIGATED LIQUOR SYSTEM

American Writer in New York Times Tells of What he Found in Canada

SYSTEM THIS PROVINCE

In an article in the New York Times, Dr. Frank Bohn, an American citizen, tells of his investigation of liquor control systems in Canada and he commends most the plan adopted in British Columbia, while he condemns the feature of the Alberta system which allows the sale of beer and ale by hotels and restaurants. He says in part:—

"The Canadian system, where seen at its best, functions entirely through a chain of government warehouses and sales-rooms. Where a majority in the community desires a shop, one is established. Local option means that the local community majority cannot be overridden. There are no local private interests seeking to open a highly profitable business. The result is striking.

"Only the larger cities and towns in British Columbia have requested the establishment of public liquor stores. A large city like Montreal, in Quebec, has several. Of the two provinces mentioned above, British Columbia has worked out its system with the greatest care and success in operation. Saskatchewan, which will institute government sale on January 1 next, will probably follow the British Columbia precedent throughout. Quebec, whose system is as yet a bit lax and untrimmed, might well study the perfection of the British Columbia method. I shall describe the latter as the best which has been worked out, and then draw a comparison with Alberta, its neighbor province. For Alberta has made the great mis-

take of combining government distribution with private sale for profit.

Enters Store
 "One enters the government liquor store in a British Columbia town of 3,000 inhabitants. This town is the commercial centre of a great mining and lumbering district in that enormously rich province. The writer recalls only too well that sort of western environment twenty years ago. At that time the drinking and gambling resorts in these small commercial centres of the far west were as evil, as disgusting as anything the English-speaking world has ever given us.

"Very well. On a Saturday morning in June, 1924, the writer entered the government liquor store in such a town in British Columbia. There was no sound but the humming of a bee in the lilac bush at the back door. The government agent sat at his desk from 9 till 12, casting his accounts. During that time only one person, a woman, entered.

She was well dressed and soft spoken. She purchased one bottle of wine in the same manner that she would ask for a yard of ribbon in a neighboring shop. When 1 o'clock struck the door was locked until 9 o'clock Monday morning.

Not Push Sales

"During the month of traveling in British Columbia in May and June last the writer saw no intoxicated person. The difference between British Columbia and Quebec in this matter is due not only to the system, but to other factors as well. Undoubtedly British Columbia exercises greater care, and there are comparatively few American tourists there. To purchase at the government store in British Columbia one must take out a permit, paying two dollars as a registry fee. Of course it is also more difficult to control the business in Montreal, a city of 750,000 inhabitants, than in a rural community. But the point made by the British Columbia agent, that it was his duty to sell as little as he could persuade people to buy, is vastly important. And British Columbia has very wisely introduced a careful accounting system. Every sale is registered on a personal list. If an individual returns to the store too often, questions may be asked. Presently his case may be investigated by the police and the ultimate disposal of his purchases may be looked into.

The Alberta System

"The province of Alberta has compromised with the old-fashioned saloon. Besides the government agencies, which are conducted very much as in British Columbia, Alberta permits the sale of beer and ale by hotels and restaurants. The writer, traveling about Alberta for a month at the very time when the private saloons were being opened up, saw the return of this hydra-headed creature. He was awakened one morning by a great clatter in his hotel. A force of carpenters was hastily getting

the saloon ready for business.

The same old bar was being repaired and painted. The brass rail, now stoutly screwed into place, was ready to bear the combined weight of a long row of weary feet. Fascinating pictures were being rehung. A crowd of old cronies gathered to talk over old days and new. It was like the resurrection of the dead.

"A few days later, the writer spent a week end in another small town in Alberta. On a Sunday morning, very hot and painfully quiet, he was sitting in front of an open door on the second floor, where a faint breeze blew at intervals. A door six feet away opened. A dishevelled, dirty and brokdown man looked out and cried hoarsely: "Tell the clerk I want him. Go get the clerk—quick." The writer thought the man to be dangerously ill and hurried for help. Ten minutes later came the clerk with a tumbler of whisky and a pitcher of ice water. It was the same old filthy business done in

the same old rotten way.

Saloon a Curse

"Wherever English is spoken, from Florida to Alaska, from London to Tasmania, the old-fashioned saloon was, and is, an unmitigated curse to our civilization. It deserves all the bitter words which the prohibitionists have heaped upon it. The Alberta law, as regards the saloon business, aims to be restrictive in the highest degree. Only recognized hotels can establish them and only the mildest alcoholic beverages are supposed to be sold by the glass. The incident related above is not an exception. The saloon can never be reformed. It should be abolished out of all English-speaking lands."
