

### X-RAY INDICATED CANCER, RELIEVED BY "FRUIT-A-TIVES"

Splendid Fruit Medicine Performs Another Miracle.

The incalculable value of "Fruit-a-tives" can best be appreciated when it completely relieves some dangerous, deadly malady that is sapping the health and strength of the sufferer. After reading this letter, it is easy to understand why Mrs. Glover was glad to write about "Fruit-a-tives" in the hope that her experience would guide others to try this wonderful fruit medicine.

"For years, I was a sufferer with chronic Dyspepsia, Indigestion and Constipation; the stomach pains were dreadful and finally my health broke down completely. After five X-rays had been taken, I was advised that my condition strongly resembled Cancer of the Stomach and an immediate operation was necessary. Dreading an operation, I consulted other physicians but grew steadily worse. I had almost given up hope when I decided to try "Fruit-a-tives" recommended by many friends.

Immediately my condition began to improve. Pains disappeared; soon Dyspepsia and constipation were things of the past. After a few months I was perfectly well again and have been in the best of health for over a year now." Mrs. ANNIE GLOVER, 16 Henry Street, Ottawa.

Just try "Fruit-a-tives"—let them prove their real worth. 25c. and 50c. a box, at all dealers or sent postpaid by Fruit-a-tives Limited, Ottawa, Ont.

### TIMBER GREAT CAPITAL ASSET

Industries in This District Capable of Greatly Extended Development

#### SHINGLES AND VENEER

Naas and Skeena River Provide Much Lumber for Pulp and Paper or Other Purposes

The estimated stand of timber in Northern British Columbia is 144,000,000,000 feet, sufficient to support a greatly extended development, according to P. Z. Caverhill, chief forester for British Columbia, who addressed the Rotary Club at its luncheon here Thursday. On the Skeena there was sufficient timber for a large pulp development and another on the Naas and again at the Queen Charlotte Islands. It would be some time before the development would take place to make the most of the timber resources but from any development Prince Rupert would benefit because the city was the logical centre for the business. He said he thought the time was ripe for the establishment of a shingle and veneer plant and there was no reason why a shingle mill should not be established in Prince Rupert, which would supply the market in competition with other places.

#### Cottonwood

Referring to the cottonwood, plans for the development of which have been made on the Skeena River, Mr. Caverhill said there was similar good cottonwood on the Naas River. The raw material far exceeded the amount in the south.

Mr. Caverhill said he always liked coming to Prince Rupert because here everyone was interested in the development of the country and especially in the lumber industry.

Human interest in the forests had been paramount since the earliest dawn of civilization, said the chief forester. In British Columbia people could hardly realize how closely the forests were to the progress of the country. One dollar out of every three came from the forests. The charm of the country, which made the province attractive to tourists also depended upon the forests. British Columbia had half the timber found in Canada and the coast was noted for the size and grandeur of its trees. This was the result of the climate and soil. The trees would continue to grow if given a chance. As compared with the demand, however, the supply of timber was limited.

#### Nature Provides Crop

Forestry had to do with harvesting, marketing and replacing timber. Nature provided the first crop and it depended on how this crop was handled whether there would be a second. He combated the idea that the forest was not a crop but something set here to use and forget. Anglo Saxons had been the chief offenders in the abuse of the forests. Disregard had been inbred in them but this disregard was not found in other nations. Britain was planning to plant one and three quarter millions of acres at \$20 an acre. In the next ten years they proposed planting 200,000 acres. The timber industry was one of the basic industries but the crop took a long time to mature. The people who planted did not reap the harvest.

Mr. Caverhill was opposed to the idea that substitutes for wood would be discovered. Substitution had always been going on but that only increased the demand. New uses for timber were being discovered such as for telegraph and telephone poles, railway ties, etc. The linoleum on the floor, the gramophone records were made largely from wood. Fabrics were manufactured from it, stockfood was prepared from sawdust and very soon people would serve wood products with their meals.

#### Age of Wood

This was the age of wood. Children were rocked in a wooden cradle and buried in a wooden box. Civilization was built on wood. The countries that consumed most of it were the most advanced. In north America the per capita consumption was 100 cubic feet, in northern Europe from 15 to 50 feet, in southern Europe from 5 to 10, in Japan 5, in India 3, and in the Mohammedan countries south of the Mediterranean from half to one was the record. In European coun-

tries the consumption was steadily increasing. Fortunately Nature provided the crops. If it had to be planted, the cost would be very high. The only difficulty in keeping up the supply was the control of forest fires. After three or four burnings the soil would not reproduce. In a scattered population it was almost impossible to organize to watch and put out fires. There had been carelessness in the past and that phase was causing the department worry today. A course of education in putting out camp fires, lighted matches and cigarettes was necessary.

### WILL CALL GENERAL MEETING OF HOSPITAL

Constitutional Changes to be Considered and This Will be Followed by Drive For Membership

A special general meeting of the members of the Prince Rupert General Hospital is to be called to put before them some constitutional changes. It is proposed to give the medical men of the city representation on the board, and also the ladies' auxiliary. To reduce the membership dues to \$2 and also to have sustaining memberships at from \$5 a month upwards. If these changes are made there is to be a drive for memberships and thus endeavor to increase the interest of the public in the institution.

### OFFICIALS OF WHITE PASS RAILWAY HERE YESTERDAY ON MARY

C.P.R. steamer Princess Mary, Capt. Ormiston, northbound from Vancouver to Skagway and way ports, was here from 1.15 to 3 o'clock yesterday afternoon. Included in her northbound passenger list were H. Wheeler,

manager of the Yukon & White Pass Railway, W.D. Gordon, superintendent, and about 70 members of the company staff going in to make ready for the season's service.

Debarbing from the Princess Mary here were Mr. Stevenson, Mrs. Anthony, Mrs. T. W. Herne, Mr. and Mrs. J. P. Eggleston, F. Tingley, Miss Brown, G. Holler, M. E. Stewart, H. Whalen and Mike Grumeloff.

Going north from Prince Rupert were: F. O. Ryan, K. Powell, W. H. Lloyd, D. J. McLeod, Mrs. F. Maynard, E. J. Maynard, Mrs. M. Pierce and Martha Smith or Kelehan; D. A. Manister and E. Daniel for Juneau; P. Sharp for White Horse; Harry Martin for Wrangell; M. Galligen for Skagway.

At the hospital meeting last night the thanks of the board was extended to the ladies auxiliary for the work they were doing in connection with the providing of much needed linen. Those present at the meeting were Messrs. McRae, Haines, Mackay, Smith, Collison and Mortimer.

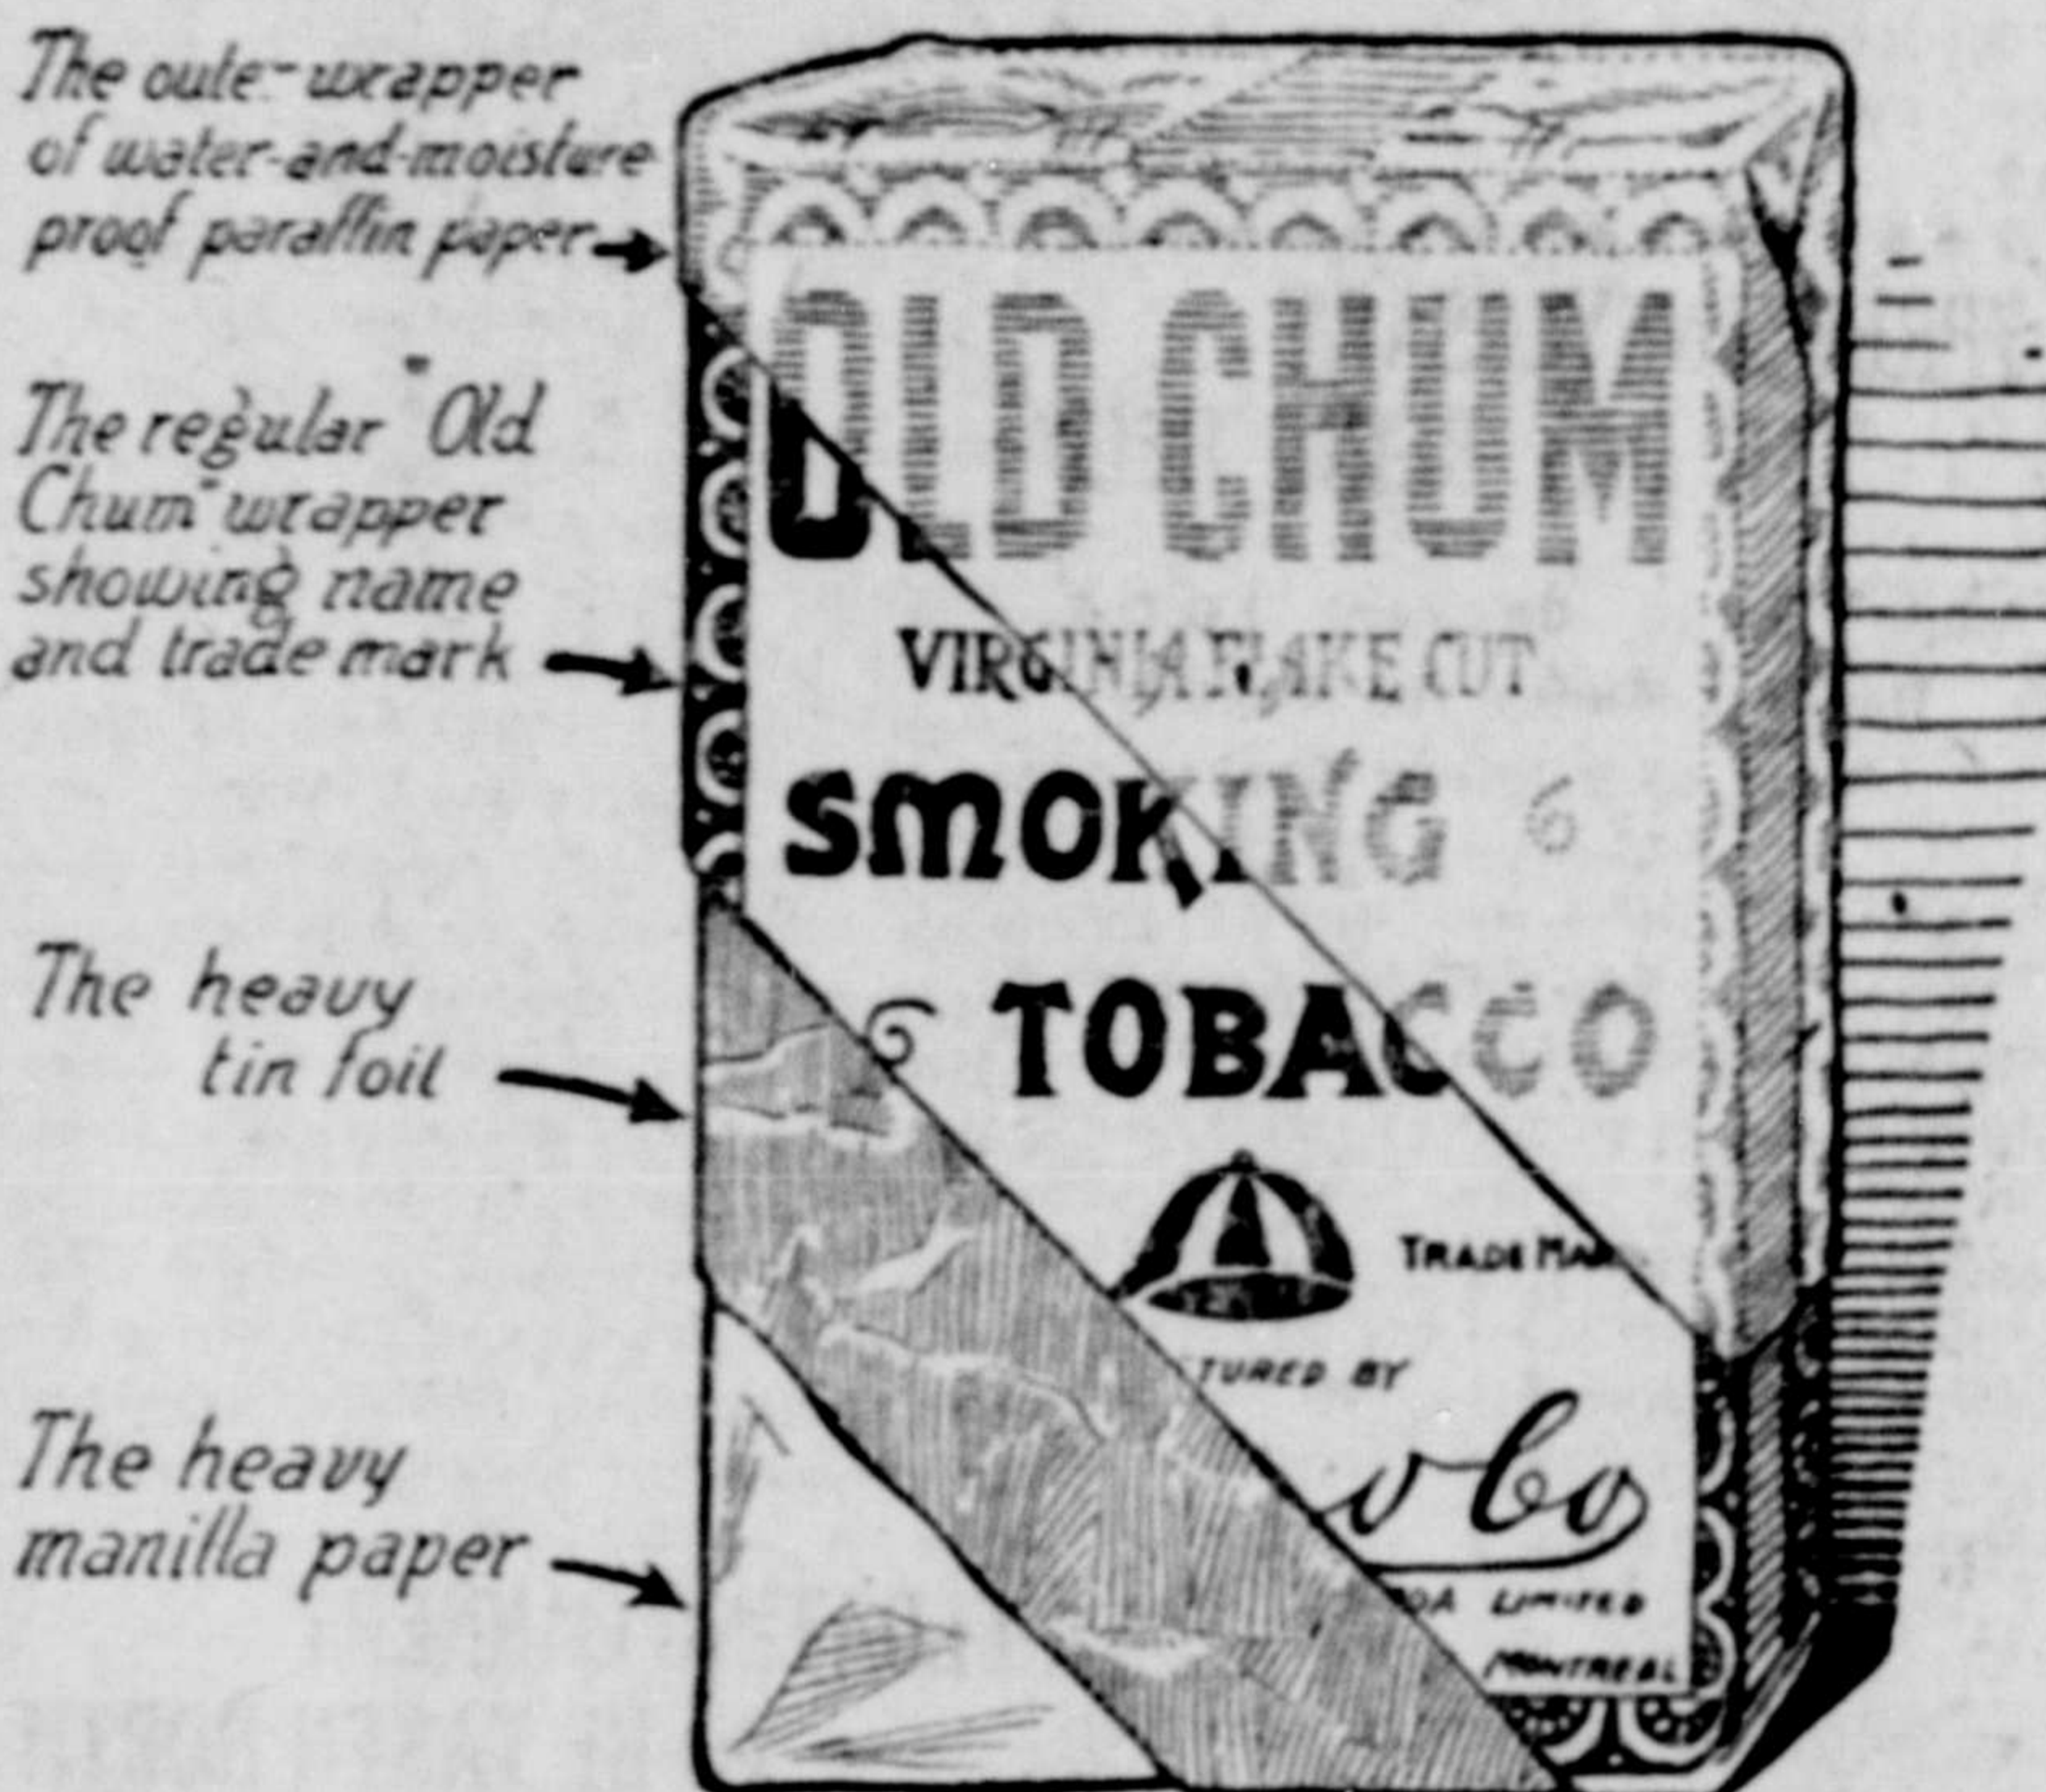

### AT 80 YEARS OF AGE WAS TROUBLED WITH SHORTNESS OF BREATH PALPITATION OF THE HEART AND FAINTING SPELLS

Mrs. M. O'Connor, Whitestone, Ont., writes:—I have been troubled, most of my life, with shortness of breath, palpitation of the heart and fainting spells. I was advised by a friend to try Milburn's Heart and Nerve Pills, which I did, and at once found relief, and I have never had a really bad spell since.

I am 80 years of age and always keep them in the house, and when I feel any symptoms of my old trouble coming on all I have to do is to take a few doses. With the help of your Pills I expect to see many years yet. I always recommend them to any one who is suffering from heart trouble. Milburn's Heart and Nerve Pills are 50c a box at all dealers, or mailed direct on receipt of price, by The T. Milburn Co., Limited, Toronto, Ont.

#### Archbishop's Message On The Easter Triumph.

In the spring-time as the sun pours its radiant energy upon the surface of the earth we can almost hear the grass, the shrubs, and the trees singing their Easter song of resurrection as they burst forth from the tomb of winter into triumphant life. This is no poetic fiction for the same law of vibration functions both in life and in music. If our ears were only a little more sensitive they could catch the harmonious rhythm of the unfolding flower. All vital energy flows from God who as Infinite Energy is the ultimate reality of the universe.

It is well for us to remember that the Infinite Energy of God is revealed in rising degrees, and that the degree differs according to the intrinsic value of the energy. We feel instinctively that mind energy is higher than radiant energy and that the highest form of mind energy is moral energy which manifests itself in righteousness, goodness, and love. The highest being is the being who reveals most fully the highest degree of energy according to its moral value. The verdict of the world assigns this exalted position to the historic Christ in whom was manifested the energy of God's redeeming love.

The conservation of moral value is a fundamental law of the universe. If radiant energy is never lost though transformed we may be sure that moral energy, while it may be apparently vanquished and buried, will always rise again with added glory at the touch of the God of Infinite Love.

As in the historic Christ we had given to us in human form, for a limited time and in a limited place, the highest revelation of the righteousness, the goodness, and the love of God, it is inconceivable that this supreme moral value should not have been fully conserved in some higher and more glorious form, unlimited by time and place. "The Lord is risen indeed."

In the Risen Christ we have the divine pledge of the ultimate triumph of Moral Energy. Immortal love, whether in us or in others, though seemingly crushed, will surely rise again.

F. H. DUVERNET, Archbishop of Caledonia.

#### Laminated Wood Factory To Start.

Much interest was taken Thursday in the full account of the proposed activities of the Skeena Laminated Wood Company which is to erect a factory on Devil's Island, 57 miles from here on the Skeena River. It will be so near this city that much benefit will accrue to Prince Rupert from its activities. While not the same as having a factory in the city it will be the next best thing. The feature of the news was that the work of construction would commence within a month and that the survey of the island and the plans for laying out the plant are already in hand. The managing director, Frank F. Burdett, has gone to Salvo accompanied by the surveyor and he announces that just as soon as the weather conditions permit, construction will commence.

### "Eczema All Over Arms Suffered for 12 Years"

Mrs. Murray Hough, Warton, Ont., writes:

"I had eczema for twelve years. Every once in a while it would break out and spread all over my arms. I tried all kinds of treatments to relieve it, but without success. One Spring it broke out and nothing gave me relief, even the salve I got from the doctor did no good. At last I tried Dr. Chase's Ointment and it healed the eczema in a short time. That is over a year ago, and I have had no return of the trouble."

Dr. Chase's Ointment

60 cts. a box, all dealers or Edmanson, Bates & Co., Ltd., Toronto

Pure and Sweet as a Spring Morning

The Sunlight purity guarantee of \$5,000 has never been equalled. Because it is the purest soap, Sunlight is really the most economical you can buy.

THAT'S the thought that comes to you when you see an array of clothes washed with Sunlight. White things are snowy white—not gray and dull. Colored things are bright—everything seems to shine with the purity that comes only from absolute cleanliness.

And there's no wonder in that because the very ingredients in Sunlight Soap are themselves the products of tropical sun, breeze, flower and fruit. Its blend of natural oils makes Sunlight the most efficient laundry soap in the world.

There's new leisure on wash day if you use Sunlight. Buy a cake today, read the directions and see for yourself.

At the meeting of the Hospital Board Thursday night the House Committee was authorized to proceed with the renovation of the interior of the building which was badly in need of attention. Only urgently needed work will be done just now.

Consul Wakefield was thanked by the Hospital Board at its meeting Thursday night for his efforts in securing the removal of one of the indigent patients who was an American subject and who had been a charge on the hospital for some time.

Dominion Constable E. G. Newham returned to the Naas River on the Venture yesterday afternoon after having spent several days in the city. Constable Newham expects to move with Mrs. Newham to Kinloch from Awashk this summer and take up his future headquarters at the former point.

DYSPEPSIA WAS SO BAD COULD HARDLY EAT ANYTHING

Mrs. C. Stone, Nanticoke, Ont., writes:—Some time ago I had a very serious attack of dyspepsia, and was also troubled with gas on my stomach. I could hardly eat anything, and very often had pains after meals. I had used different medicines, but they didn't seem to do me any good. At last I happened to run on the track of Burdock Blood Bitters, and after using it for a short time I felt a lot better. I continued its use until I was completely relieved and now I am ready to recommend it to anyone troubled as I was.

Burdock Blood Bitters is manufactured only by The T. Millburn Co., Limited, Toronto, Ont.

Miss T. Sheasgreen arrived on last night's train from Hazelton where she is teaching school, to spend the Easter holidays in the city with her sister, Mrs. E. W. Marentette, 109 Fifth Avenue West.

The executive committee of the hospital board with Mrs. Morrissey is deputed to draw up a suitable program for the celebration of Hospital Day in this city. Date set by order in council is May 12 and it is decided to make it an event this year.

Union steamer Venture, Capt. A. Johnstone, Vancouver for Naas River ports, was here from 1.30 to 6 o'clock last night. Included in a fair-sized passenger list were the crew for Somerville cannery. The vessel was in port again this morning southbound.

The question of proper exits and fire escapes and exit lights was brought to the attention of the hospital board at its meeting Thursday night and referred to the House Committee for further report. In the course of a short discussion in regard to the matter it was stated that the present condition would have to be remedied. The only question was to find money with which to do the work.

SAVE YOUR EYES! Mr. Morris, professional optometrist physical eye specialist, of Vancouver, will be at McCutcheon's Drug Store, Prince Rupert, Monday, April 28, until Saturday, May 3. This is an opportunity to consult one of the leading authorities in Canada on the subject of defective vision, and to procure properly fitted glasses without the use of drugs. Over 40 years experience in sight testing. Call early for appointment. 96

A. E. Ireland, optometrist, comes to Prince Rupert to reside permanently. Mr. Ireland was formerly with W. W. Munn & Co. one of the leading optical establishments in Toronto and has now joined the permanent staff of Max Heilbroner. A graduate of the Optical Institute of Canada, Toronto, Mr. Ireland has been testing eyes and fitting glasses for more than 25 years and comes here highly recommended in his professional capacity.

## G. MCILMOYLE IS CHAMPION

Final of Billiard Series was Most Closely Contested of Series—Score 1,000 to 993

A margin of seven out of one thousand points gave George McIlmoyle the individual city billiard championship over Sergeant Jebson and made the final of the competition played last night the most interesting and keenly contested of the entire series which has been in progress for the past three weeks. The score was 1000 to 993.

Sergeant Jebson emerged winner from the first session on Thursday night by a score of 500 to 472 after having led McIlmoyle practically all the way. The latter player started strong in the second session last night and was 80 ahead on two occasions. Jebson, continuing his consistently good play, managed to even up twice and the scores were tied at 865 and 990. The finish was a fitting and exciting climax.

McIlmoyle's high break was 57—the highest of the entire series—and Jebson's, 24. The average of the former was 3.87 and of the latter, 3.84.

McIlmoyle carries off three of the prizes for the competition—the cup for the winner, the cue for the player making the highest break and the prize for the highest average per innings—3.26. Sgt. Jebson gets a gold medal for runner-up. The record time was made by Col. McMurdie in his game with F. A. Aldridge—2 hours and three minutes.

A big crowd watched last night's game and excitement was intense. It was a much more closely contested match than had been expected. Both players were in good form with Jebson probably a little the steadier.

## MOOSE GAVE A FINE CONCERT AT ANYOX

Excellent Program Met With Approval From Audience

To a capacity audience the members of the Loyal Order of Moose and their friends put on an entertainment that met with great approval, on Friday evening last, and events of a similar kind are already being eagerly looked forward to. The program was of so varied a nature that all parties were catered to and Russell Jones, who occupied the chair, saw to it that there were no dull spots. The committees in charge of the concert and refreshments left nothing undone to make the night a memorable one.

Following was the order of the entertainment: Address, Dictator J. G. Ellis; overture, Moose Orchestra; song, J. Hoarty; cornet solo, P. Stenward; Mart and Pap comedy skit, Cy. Greenwell and Vic. Cruikshank; selection, Moose Orchestra; intermission for refreshments; march, Moose Orchestra; song, Mr. Murdoch; clog dance, J. Tierney; duet, Messrs. Evans and Owens; song, A. Williams; Highland fling, L. J. Wrisberg, accompanied on the bagpipes by Piper McLennan; violin solo, Bert White; selection, Moose Orchestra. The concert committee consisted of Messrs. Hart, Hutchings, Ward and Cross, while on the refreshment committee were Mesdames Cross, Spragg and Dodds.

## Sport Chat

With the month of April now well advanced, it is beginning to look as though the outdoor athletic season will not get under way till after May Day. The chances are that May 24 will see the real opening although it is possible the soccer season may be started before that date. Real action on the Football Association's decision to open the season on April 15 was delayed on account of the recent unfavorable weather and the fact that the grounds could not be put in shape early enough. In spite of this there have been two exhibition games—the one yesterday with the Gallies and Malaspina being particularly interesting. The lacrosse association has its season's plans well in hand and the annual meeting of the baseball association is called for next week.

A big crowd watched last night's game and excitement was intense. It was a much more closely contested match than had been expected. Both players were in good form with Jebson probably a little the steadier.

## MALASPINA WON OVER CALLIES AT FOOTBALL

Large Crowd of Spectators Out for Yesterday's Game—Score was Five to One

There was a large turnout of spectators in the stands at Acropolis Hill grounds yesterday afternoon to witness the exhibition football game between the Callies and a select team from the crew of G.G.S. Malaspina. The latter won by a score of five to one.

At half time, the Malaspina team was ahead by 3 to nil. In the second half they made two to the Callies' one. Scorers for the winners were Elder (two), Harris (two) and Ashley (one). O. K. Lord made the one and only score for the Callies.

The condition of the grounds mitigated against the effectiveness of play on both sides but did not prevent several bursts of good soccer. Their first game of the season, the Callies were naturally out of practice.

G. S. Russell refereed, A. Clap-

## FEAST OF INTELLECT AT ANYOX WHEN DR. WILLIAMS VISITED

Two Lectures Given by Professor From University of B.C. at Smelter Town

ANYOX, April 19.—During the past few days, the Anyox Community League, in conjunction with the Parent Teachers' Association, had the pleasure of entertaining Dr. M. Y. Williams, geologist, of the University of British Columbia, as well as listening to his lectures on two occasions. On Monday evening, Dr. Williams lectured on "The Birds of British Columbia," showing about one hundred and twenty-five slides in illustrating his talk, which was enjoyed by a large and appreciative audience. On Wednesday night, Dr. Williams told of "Geologic Exploration in the Far North," tracing the work done by early explorers under the banner of the Hudson's Bay Company to the work of drilling for oil in the McKenzie River valley by the Imperial Oil Company, and incidentally telling of two seasons spent in that vast country as a member of a survey under the direction of the Geologic Survey of Canada.

Public Reception

On Thursday evening, Dr. Williams was given a public reception in Catholic Hall, which was kindly placed at the disposal of the League by Father Fleck, and

Circular mailed on request.

# BLUE RIBBON TEA

In comparing BLUE RIBBON with other packet teas, do not compare it with tea offered at the same price.

BLUE RIBBON claims to be the best in Canada regardless of price, and a teapot test will make good this claim.

Doings of the Mosquito Fleet which is the chief source of Prince Rupert's prosperity

Halibut landings have kept up well during the week and prices on the Fish Exchange jumped on Wednesday around the 16c, and 7c, mark for American first and second class fish and around the 14c mark for Canadian first class fish when one American boat landed 48,000 pounds and six Canadians landed 13,300 pounds of halibut. This price was a few points higher than prices prevailing last week. On Monday 134,500 pounds and on Tuesday 100,600 pounds of halibut was marketed. From reports to hand it would seem there are still quite a number of American schooners fishing in close proximity to one another on the northern fishing banks—termed in nautical circles as "bunching." It was anticipated these boats of the American fleet would have put into port sometime this week but apparently they have been delayed by squalls, which incoming skippers report to have occurred at intervals. Yesterday being Good Friday and a holiday there were no halibut sales on the Fish Exchange. A few crews of the home fleet, who chanced to be in port, took advantage of the holiday to spend a day with their loved ones. The fact that halibut sales did not take place yesterday had a slight effect upon the total landings of the week but not to any appreciable extent. Spring salmon has been arriving in increased quantities and the price for reds dropped from 24.1c to 18c, while the price for white salmon remained stationary at 3c.

Two heavy fur arrivals of otter, beaver, marten and mink have been reported during the week. The catches found a ready local market.

With the recent exodus of trolling and halibut boats of the home fleet the Cow Bay base has a depleted appearance. There are still a few boats doing necessary repair work preparatory to joining the halibut and trolling fleets already out on their respective grounds. Capt. Ivor Wick is working overtime on his boat Seminole refixing the fish hold and deck in readiness for a dash to the high spots.

Fresh Herring Bait at Captain's Cove and Jap Inlet.

Hubert Ward, representative of the San Francisco marine underwriters, left for Stewart on the steamer Prince Rupert on Wednesday evening in connection with the salvaging of the large Grif, which sank at the Stewart wharf in 20 feet of water with a cargo of Premier ore on March 27. Capt. T. M. Wilkie, representing the Pacific Salvage Company, will superintend the salvage operations.

Mrs. A. Clapperton left on Monday night's train for Prince George to spend a prolonged holiday with her married son Jack.

Bill Shrubbsall, who has been confined to the house for some time under medical care, is progressing favorably.

Overtime in Port The power boat Overtime, which is to be engaged in fish packing during the coming season, arrived in port from Vancouver on Tuesday with Captain Roy Lunningdahl on the bridge. The Overtime is a husky looking craft and derives a good turn of speed from a 20 horse power Standard engine. She will operate from the Dundas trolling grounds.

Capt. Cy. Swanson, skipper of the halibut schooner Tillie S. is suffering with a sprained back. However, Cap is able to get around and is greatly reducing the pain by indulging in frequent bending exercises.

Towena all Set The new utility power boat Towena, recently built by John Field on the Cow Bay slips, left

the slips on Thursday morning for the open water having completed the hull building and engine installation. It is John's intention to leave port over the week end for Butedale from which point the boat will operate to Kitimaat in the transportation business.

Doc's Bachelor Troubles A little story in rhyme of Doc Clapperton's household troubles while the lady of the house is holidaying.

My wife has gone to the country and I'm not feeling glad, in fact I'm sort of sorry and my heart feels kind of sad. I miss her smiling manner and the ease she used to make; I get cross-eyed and weary a-studying how to bake. I can boil a drop of water or burn a piece of bread, but when it comes to pudding—well, that's a thing I dread. I tried it by a cook book, but I'll never try again; the slop was simply awful and it tasted just like rain. While the mess around the kitchen was a sight to make one sob, there was jam all over everything—the window and door knob. I tried to beat an egg up, but I'll try that no more, for it finished beating me up upon the basement floor. I invited Jim to dine with me, a big mistake to make for now he's down with sickness, all through a piece of cake. I used to sleep at night time, when wifey was at home, but now I toss the whole night through—the bed feels hard as bone. I've tried to make it comfy but I cannot make it stick. The bed clothes seem too skimpy or the mattress is too thick. I've slaved to keep the dishes clean till my arms are nearly bust, while the chairs and all the ornaments are inches thick with dust. No matter how I try to keep ahead with all the chores, the dishes keep on piling up from windows to the doors. They talk about a bachelor's life but I can't see the fun. If wifey doesn't come back soon, I'll be right on the bum.

The power boat Spot is being fixed up by Capt. Rousseau, her owner, in readiness for the trolling season.

The launch Jennie, owned by Capt. Sorensen, is being fitted with a new 14 horse power Frisbie engine.

Oriel Brothers have made good progress during the week with the work on their donkey engine which is being overhauled in Cow Bay Creek, and will have it completed for logging operations within a day or two. The Oriel boys are engaged in the logging business around Port Essington.

Owning a motor boat is a pleasure if fitted with a Ford Marine Engine. High power at low price. S. E. Parker, Ltd.

The power boat Karen, Capt. Billy Thane; Taplow, of Port Simpson; and Billy Boy, Capt. O. P. Smith, have landed, spring salmon catches during the week.

The Rupert Marine Ironworks, an old landmark on the waterfront, is closing out and H. B. Robinson, the manager, is shortly leaving for North Vancouver, where he intends to establish a similar business.

Fur Arrivals The power boat Gora, Capt. George Keys, arrived in port during the week from Porcher Island with a fine cargo of fur including beaver, otter, marten and mink while the power boat Cod, Capt. Carl Elm, arrived also with a like catch. The furs were of fine quality and found a ready local market.

Capt. Taylor, who formerly owned the power boat Somme, arrived in the city early in the week from Ocean Falls on a business visit. Cap's canine pet Bones is much enjoying her new surroundings and has already made many friends in the

## --and for between-meals hunger--BREAD

### ADVOCATE ALL FOODS SHOULD BE SEALED

The medical profession very generally advocates that all food products should be sold in sealed packages. All cities rigorously inspect butcher shops to prevent meat from being infected, many prohibit milk from being sold in bulk and gradually this has come with everything. "SALADA" was the first to introduce the package idea as regards tea, over thirty-two years ago, and "SALADA" is still a little purer and a little better than other teas. It has by far the largest sale.

### Waterfront Whiffs

(Continued from Page 5)

the Booth Fisheries and the Royal Fish Co. The Commonwealth has recently been fitted with a 120 horse power Frisco Standard diesel engine.

### Can it be Done?

A few waterfront ranchers, and would be ranchers, were discussing a very absorbing topic in the vicinity of Cow Bay on Thursday morning. It appeared that one of the gang had had a brain wave and the brain wave was why not change the shape of the hen's egg, thereby making the egg cups of the familiar round shape obsolete, and creating a world wide demand for egg cups of the new shape? An egg cup factory should be a paying proposition with a world wide market to go at. How to change the shape of the egg—that was the main point at issue. Many brilliant suggestions were made by attendant ranchers. A few of them follow. One man suggested squeezing the hens and thus flattening the egg. If this method proved successful there would be another market created for flat spoons or shovels as he termed them. Another thought that by treating the egg, after manufacture by the hen, with an outer solution of rubber they could be made to bounce and would therefore be unbreakable. The shape could be changed during the process. An unbreakable egg, the speaker thought, would be a big drawing card for picnics and other boisterous happenings. The suggestion made that by feeding the hens hot drinks and meals at all hours probably hard boiled eggs would result was turned down unanimously as too expensive an operation.

## LADIES' HIKING KNICKERS
