BALDWIN MAKES EFFORT PLACATE LABOR

FIRST MEETING TO DISCUSS CIVIC AFFAIRS WAS HELD HERE LAST NIGHT

Stirring Speech by Sir Henry Thornton before Eastern Board of Trade

BROCKVILLE, Ont., Jan. 15.—A solemn, straightforward pre-arranging to trade people of Canada that the Canadian National Railways cannot reduce freight rates without materially reducing the gross earning and net receipts of the system to such an extent as to impose further burdens upon the taxpayers of the Dominion, was delivered by Sir Henry Thornton, president of the National system, in an address before the Brockville Board of Trade here last night.

In addition, Sir Henry, in a manner which has added significance in view of the approach of the coming session of the Federal parliament, again reiterated his determination that the Canadian National Railways will not be permitted to be the sport of politicians or the football of politics, as long as he is the executive head of the system.

These two important pronouncements marked the high notes of a speech that was a masterful summary of some of the problems which confront the National Railways and of their solutions. It was a speech which was listened to with rapt attention by more than 200 of the most prominent merchants and business men of Brockville, as well as by leading citizens from other cities and towns of Eastern Ontario.

Too Many Railways
In opening his address Sir Henry dwelt for a few moments on the history of the Canadian National Railways. He admitted quite frankly that Canada was over built with railways, but he pointed out that, that was a fault which could not be corrected, but which having transpired must be dealt with courageously and intelligently and turned into an asset if possible, he felt that with the proper understanding and the proper handling this agreeable situation could be brought about.

He pointed out that during the past year satisfactory progress had been made and that the net earnings of 1923 would more than triple those of 1922, which were \$3,000,000. It was at this point that Sir Henry counselled his audience against anything that would retard this progress (continued on page six)

Parliament to Meet February 28 and Session Likely to Prove a Very Interesting One Prophesied

OTTAWA, Jan. 15.—Parliament will open Thursday, February 28, was the announcement of Premier King at the close of the cabinet meeting last evening. The date set is almost a month later than last year when parliament assembled on January 31.

The session this year will be momentous. Not only will important questions such as the redistribution of seats and the re-organization of the banking system be before the House but the proceedings will be of special interest because of their bearing on the political question.

Since government took office two years ago, having at no time any effective majority over all parties combined, it always received sufficient progressive and independent support to enable it to carry its measures through the House. In the coming session, unless there are unforeseen developments, the dependence of the government on a measure of support from the left of the speaker will be intensified.

FORESTRY CAR ARRANGEMENTS

Will be Here Thursday Afternoon and Will be Interesting to See

The Canadian Forestry Association's Forest Exhibits Car will reach Prince Rupert on Thursday afternoon and will be officially opened at eleven o'clock Friday morning, January 18, by Fred Stork, M.P. A public meeting on forest fire prevention will be held in the Booth Memorial School at 8 p.m. on Thursday evening, January 17, presided over by Fred Stork, M.P., and a short address will be delivered by P. S. Bonney, district forester.

Motion pictures of a unique character, to be shown for the first time in B.C., will provide plenty of thrills and entertainment, as well as instruction. "Red Enemy," a two reel story of the Forest Fire Fiend, and its work, is a masterpiece never to be forgotten, and it is a typical British Columbia picture. "Forest Flashes" is also an unusually good reel with plenty of life in it. Other equally fine reels will be shown. The civic election results will be announced at the meeting.

The Exhibit Car will be spotted close to the station and will be open to the public from 10 a.m. to 10 p.m. Friday; from 10 a.m. to 10 p.m. Saturday, and from 2 to 5 p.m. on Sunday and all day Monday.

Object of Tour
The Canadian Forestry Association, which is a union of over 15,000 Canadian Citizens, sends this car to B.C., in co-operation with the B.C. Forest Service. The Association is a non-governmental, non-commercial organization, supported entirely by public subscriptions and small government grants and has for its object the conservation and preservation of the Nation's timber wealth, and the prevention of forest fires through educational propaganda. A lengthy tour of B.C. commences on the arrival of the car here, and every citizen should make an effort to see the wonderful exhibits which the car contains, and attend the Thursday evening meeting, which is free to all. Over a quarter of a million people visit the Exhibit Car annually during its ten to twelve thousand mile journey in the forested regions of Canada.

Interior Engagements
After completing its engagement in Prince Rupert, the car will undertake a tour of the Northern Interior and will be at the following places on the dates mentioned:—

- Terrace, January 22
- Banall January 23
- Kitsegukla Indian Reserve— January 24
- Hazelton January 25
- Smithers Jan. 26, 27 and 28
- Telkwa January 29
- Burns Lake January 30
- Endako January 31

It is anticipated that Interior people will be greatly interested in the exhibits, motion pictures and lectures, which have been designed to bring before the public mind the important question of prevention of further destruction of the limited forest resources by fire.

A. J. McCullough, A. McCullough and A. D. Sykes, who have been operating a logging camp on Massett Inlet for the Massett Timber Co., arrived on the Prince John last night from the Islands. They are on their way to Vancouver, their camp now being closed down.

Jose Rivers, one of the most celebrated and picturesque boxing championship contenders of a few years back, has dropped pugilism to become a violinist. He now soothes them to sleep where he used to put them to sleep in another way.

Another Serious Earthquake in Stricken Japan Causes Much Damage; Few Deaths

TOKIO, Jan. 15.—Fifty persons are believed to have been killed at Tokio and Yokohama and outside districts in an earthquake yesterday. Many people were injured and houses demolished.

In Yokohama the water mains were ripped up and smashed and as a result water flooded the streets and homes. The stock market was suspended because of the failure of communications.

All railway lines between Hirathuka and Chigasaki have been broken and communication between Tokio and Kobe cut off, quickly emptied and a near panic ensued. Thousands of residents proached in intensity those of Tokio are breakfasting this September but it endured briefly, morning in the streets, not daring The Imperial Hotel here was to return to their homes.

British Parliament Opened with Regal Splendor; Baldwin Policy is Outlined in Speech

LONDON, Jan. 15.—The much mooted question of how the Baldwin government would handle the protective issue in the King's speech at the opening of parliament was settled today when the speech candidly referred to the country's rejection of the tariff proposals and indicated their abandonment by the government.

Analysis of Baldwin's swan song, in the opinion of experts, proved it to be a clever effort to spike, as far as possible, labor's guns. A large part of the speech was devoted to a discussion of bills which the Baldwin government would submit for the benefit of the working classes were it permitted to remain in power.

The speech furnished one of the most extensive lists of proposed measures favorable to labor ever placed in the King's message. The Labor Party itself could hardly have issued a more striking pronouncement. The list included the following:—

- Retirement of industrial conditions.
- Provisions for workers' houses.
- Amelioration of unemployment.
- Readjustment of old age pensions.

According to the opinion of experts, Baldwin was undoubtedly looking ahead to another election when he framed the speech.

The parliamentary Labor Party has decided to bring up the question of confidence in the Baldwin government for decision during the debate on the reply to the speech from the throne.

The ancient splendor and pageantry, which for centuries has been associated with the opening of parliament, was in no way dulled today, the gorgeous royal coach carrying the King and Queen, robed in ermine along the troop lined route from Buckingham Palace to Westminster. Their Majesties continually bowed to the cheers of thousands who watched the procession.

Stephens Outlines His Policy at Meeting of Electors Last Evening

Defending the policies of economy practised by the city council of 1923 and promising a continuation of such policies with a consequent reduction in taxation if he were returned mayor with a favorable aldermanic board, Ald. M. M. Stephens put forward his claims as a candidate for the mayoralty at a largely attended meeting in the Empress Theatre last evening. M. P. McCaffery presided and all candidates for civic office were invited to the platform and offered the opportunity of speaking. Not for the expostulations of Tom Guthrie, who claimed to be a taxpayer, at the iniquity of the \$5 poll tax and the remarks of a few wags interjected here and there throughout the proceedings, all the speakers were given attentive hearings indicative of a general quiet interest that is being taken in the campaign.

In opening his address, Ald. Stephens stated his gratification at having had the opportunity of doing something for the city during the past twelve months. He had made the best of his opportunity. That was demonstrated by the tribute Ald. Macdonald had paid to him for his services as chairman of the finance committee.

Answers Casey
Replying to G. B. Casey's remarks in regard to road questions, Ald. Stephens said it was true that the 1923 council had not seen a report prepared some years ago by Ex-City Engineer F. S. Clements on the situation. He did not know whether or not the report was in the City Hall. The fact of the matter was that some records that should be in the City Hall were not there. This applied particularly to the city engineer's department. Ald. Stephens expressed his satisfaction with the new scheme of road building that had been instituted by the city council last year. The payment for roads on the local improvement district plan, as suggested by Mr. Casey, was, however, not practicable under the Act as read by City Solicitor Jones and the inspector of municipalities.

Complimented Alderman
Replying to remarks by Ald. Macdonald, Ald. Stephens said he had not always seen eye to eye with Ald. Macdonald but he (Ald. Macdonald) had proven himself to be as good a sport as there was on the council and he had not been a bad alderman either, even though he might be inclined at times to take a little too much credit upon himself.

Ald. Stephens then went on to explain why he had objected more than anyone else to a proposed reduction in light and power rates. If the power rates were reduced, eventually the taxpayers would have to pay for the reduction. What he wanted to see was the outside taxes coming in. Great danger lay in the reversion of tax sale lots to the city. For every lot that was thus no longer revenue bearing, the remaining property owners had to pay. There had been a reduction of \$1,100,000 in the assessment last year meaning reduced revenue. Still further reductions were being made this year and it was necessary for the council to cut its cloth accordingly. After the reorganization of the City Hall, the council did not know how the year would end up financially. If it had had then the experience that it had had since, a lower tax rate might have been given. The surplus of \$58,000 left on 1923 operations was only a part of the saving that had been made through the economy ob-

FIRE THOUGHT WORK OF THIEF

Burning of Branch Store of Topley Merchants Looks Suspicious

BURNS LAKE, Jan. 15.—The fire which occurred last week at the Babine branch store of Sideris & Marsh, the Topley merchants, is thought to be the work of a thief who took this method of covering his tracks.

\$2,500 of stock and furs were burned up when the building was reduced to ashes three days after any member of the firm or employee had been on the premises. Circumstantial evidence points to this fire having been deliberately set by some person or persons. At present Constable Fairbairn or the provincial police force stationed at Telkwa, is out at the Babine investigating the matter. No insurance was carried on the building or stock.

FRANCE MEETS MONEY CRISIS

Increases Taxes and Decreases Expenses View of Fall of Franc

PARIS, Jan. 15.—The French cabinet, acting in the financial crisis caused by the phenomenal fall of the franc, decided to increase all taxes, direct and indirect, by 20 per cent and reduce the recoverable budget in 1924 to 5,000,000,000 francs, which will be met by this taxation.

The ministers agreed also to adjourn discussion on all bills before parliament involving expenditure. The government will introduce a bill balancing the budget.

Announcement is made in the B.C. Gazette that a registry of the supreme court of British Columbia be established at Prince George and the court at Fort George is cancelled. George Milburn is the registrar. Similar action has been taken in connection with the county court.

STEPHENS OUTLINES HIS POLICY AT MEETING OF ELECTORS LAST EVENING

(continued from page one)

served during the past year.

Credit to 1922 Council

Giving full credit to the 1922 council, which he stated had really started the reorganization of the city services, Ald. Stephens then went on to give figures from a report of the city treasurer to show where many savings had been effected. Not included in the treasurer's statement was a saving of \$100,000 in plank road repairs. Six hundred thousand feet of lumber had been placed in the streets in this manner since May 31 by Malcolm McLeod at \$10.49 per thousand. The city engineer's estimate had been \$28,800 per thousand.

Reduce Taxation

Stating that reduced assessment was one of the greatest safeguards to the city, Ald. Stephens said that he had no hesitation in promising—if council should ask the taxpayers elected with a council that would support him—that there would be a still further material where the responsibility of the reduction in taxation in 1924. In making assessment, Alderman Stephens felt that it should be based on actual property values. Only in this manner would the owners of vacant lots be encouraged to pay their taxes. In outlying districts, the assessment was already too high. Last year the assessment of many lots had been cut in two and likewise the taxation. This had resulted in better payment of taxes. Before the penalties were imposed last fall, 88 per cent of the taxes had been paid—a higher per centage than for any year since 1913. This manifestly showed the wisdom of a policy of economy. It was necessary to continue such economy or the city would soon be face to face with the necessity of levying taxes on improvements. Such a tax would

be a serious handicap to industries but not only to industries. The burden would come on those who made their homes in the city. He was opposed to improvement tax and had nothing to offer in opposing a reduction in light and power rates.

Pet Schemes

Speaking of a cluster street lighting system for five blocks on Second and Third Avenues downtown costing \$37,000, which he claimed had been fathered by the mayor, Ald. Stephens declared that the city needed a mayor who did not have pet schemes with which to burn up the city's money.

This brought Ald. Macdonald to his feet with the statement that the proposition had only been offered to the council by the utilities committee with a view to submitting it to a plebiscite.

Ald. Stephens accepted this explanation but, warning up to Stephens said that he had no hesitation in promising—if council should ask the taxpayers elected with a council that would support him—that there would be a still further material where the responsibility of the reduction in taxation in 1924. In making assessment, Alderman Stephens felt that it should be based on actual property values. Only in this manner would the owners of vacant lots be encouraged to pay their taxes. In outlying districts, the assessment was already too high. Last year the assessment of many lots had been cut in two and likewise the taxation. This had resulted in better payment of taxes. Before the penalties were imposed last fall, 88 per cent of the taxes had been paid—a higher per centage than for any year since 1913. This manifestly showed the wisdom of a policy of economy. It was necessary to continue such economy or the city would soon be face to face with the necessity of levying taxes on improvements. Such a tax would

Roof in Belt

The city had gone on borrow-

ing and spending and borrowing and spending as if it had a population of 50,000, but the time had come for a reef in the belt, with legislation according to the size of the municipality. It was easy to spend but it was not so easy to raise money. What he wanted to see was a 30 mill rate instead of 10, Ald. Stephens declared.

Dealing with a rumor that he had opposed the taxation exemption agreement with the G. W. V. A., Ald. Stephens made it clear that he had only insisted that such exemption should be given only as long as the premises were not in competition with licensed business of the city and just for such time as the property was used for the purpose of a G. W. V. A. memorial.

"The story has been going around that I would, if elected, fire Chief Vickers," stated Ald. Stephens in dealing with another rumor. "I want to contradict that story and say that whoever circulates it is telling an untruth. As acting chairman of the police commission several years ago, I perhaps had more to do than anyone else with the appointment of Billy Vickers. Vickers did himself credit at the Battle of Kelly's Cut and I want to say that I don't believe he ever took a cent that did not belong to him. Given a free hand, I believe that Billy Vickers is as good an officer as there is on the Pacific Coast."

Ald. Stephens closed with the announcement that he would hold another meeting on Wednesday night and that it was his desire that all personalities should be eliminated from the contest. "I want to fight a clean campaign and I would ask you, in selecting your mayor, to forget any personal prejudices you may have and vote for the man you think will serve the city best at this time."

M. P. McCaffery

M. P. McCaffery, in introducing the speaker of the evening said he was supporting Alderman Stephens because he had shown sufficient character to dominate the activities of the council. He was a heavy tax payer and a man with a family who would be interested in the way a man with a family would like the law enforced. He and Mr. Stephens had often disagreed in the past but now he was supporting him in the interests of the city.

Arthur Brooksbank

The chairman read a letter from Arthur Brooksbank, in which the writer said he had been taken out of town by business and regretted his inability to be present. He assured the electors that if elected he would deal with matters that might come up on their merits.

George Casey

George Casey believed that the paramount question of the day was that of road building. In that connection it was not what they have but what they could get. It was no good wasting money on plank roads. When in the council he had been a party to a scheme for grouping together a number of sections outside of Section One in a general plan, but since he had been out of the council nothing more had been heard of the scheme even though a complete outline of it had been left in the city hall with a favorable recommendation. It would be feasible and economical. If elected he would resurrect the idea. The present roads, he said were dangerous.

S. D. Macdonald

S. D. Macdonald defended his record as an alderman for the past year. He admitted that he had not favored the appointment of the present superintendent of utilities but on being appointed chairman of the utilities committee he had given Mr. Love every support and he now thought making the appointment was one of the best steps the council had taken. The alderman said he had done his best to give the city good service and he believed the financial standing of the city was pretty good today. He paid a compliment to Alderman Stephens who he thought had been a better chairman of the finance committee than he would be mayor. He had often supported Alderman Stephens. He had urged that the council give the ratepayers the advantage of the profits on the light and power system and had suggested a slight reduction in rates but had been told the finances of the city

would not stand for it. In view of the statement given out at the city hall he would, if elected, endeavor to secure a reasonable reduction. He also claimed credit for the agreement with the drydock which he considered a good one. The plant was efficient as it had never been before.

J. M. Kelly

J. M. Kelly explained that he had gained a good deal of experience during his absence for nine months. He asked that he be elected on his record during the time he served the city. He said he had changed his mind on some subjects since his visit to the south. As an instance they had made it compulsory to locate a garage at a distance from any house whereas in the south most people had the garage underneath the house. He believed in making life easier for the people. He also asked that support be given to the G. W. V. A. bylaws.

Mrs. Kirkpatrick

Mrs. Kirkpatrick said she had no apology to make for again offering her services. Her record for two years would be remembered. Men had been in control of affairs a long time but they had now come to the conclusion that they could do better with the aid of women. All wanted economy but they also wanted fairplay and a square deal to the workers. She believed in permanent street work and would support every effort to make this a cleaner place for boys and girls to be brought up in.

Tom Guthrie, who was evidently somewhat excited, then marched to the front and asked to be allowed to speak. He held up the proceedings for a few minutes until Ald. Macdonald explained to him that this was Alderman Stephens' meeting. He left, mumbling that if he had a rope he would hang him.

James Black

James Black said he could not imagine how it would be possible to get good service if employees did not receive good treatment. Economy had been just a cloak for autocratic methods. Any ratepayer, he thought, would have been tickled to pay another mill to allow the men to keep their families in a respectable way. Mr. Stephens had told of savings in various departments but these showed it was the under dog that had been kicked. The cost of living was not any lower. If the city had work to be done it should pay enough for a man to fetch up a family in a decent way. He favored cheaper light rates. All were shareholders in the concern. He concluded: "If you elect me it's jake, and if you do not feel like electing me she's jake."

J. J. Gillis

J. J. Gillis suggested that there was no issue to discuss. It was not nice to wash dirty linen. He was handicapped in that there was nothing sound before the ratepayers for future consideration. The population of the city was depleting owing to this. If elected he would try to inspire a spirit of patriotism in the council and would concur in projects which were needed. He appealed for election on a number of years' record. There had been discussion in the late council and the wage dispute had not been a credit to the council.

George Hill

George Hill explained that while he had not yet served on the council he had three years' service on the police commission to his credit. If elected he would support a bylaw to reduce the rate on light and telephones. He thought the utilities should be obtained at the lowest possible rate. A council that could cut wages and raise the rates could easily pat themselves on the back.

Mr. Stephens: "What would you do with the deficit on the water?"
Mr. Hill said if elected he would do his best in the interests of the city.

Mr. Stephens said the profits on the light and power systems were book profits. They were made by charging good prices for lighting the city streets. Water

was divorced from the utilities because it was a losing affair. He would make the utilities go hand in hand. Last year the water department went behind \$13,000.

Alexander Mackenzie

Alderman Mackenzie said he had been a year in the council and had served the city faithfully. He had been on more committees than any other member, the board of works, finance, hospital and exhibition board. He had often been out five night a week. He showed how the cost of Hays Creek bridge had been reduced from \$47,000 to \$15,000, saving the city \$32,000. He advocated permanent roadways and urged support of the bylaw to build a road out of the city round the island but would first see that the provincial government did (continued on page five)

BARGE AND TUG IN BAD PLACE

Salvaging of Stranded Craft on Watson Rock Will Depend Entirely on Weather Conditions

The Whalen Pulp & Paper Co.'s tug Francis Cutting and the Canadian National cable barge, which stranded on Watson Rock at the end of the week, are in more precarious positions than had been at first anticipated and whether or not both or either of them will be saved depends entirely on favorable weather conditions prevailing until it is possible to take measures towards salvaging them. If a storm should come up, the work would have to be abandoned and the salvage gear would have to be removed from its present location to safety.

The Francis Cutting is part under water at low tide and it is not known whether or not her hull is damaged. She will have to be lifted and pumped out. An attempt will probably be made to float her tomorrow afternoon. When the tug hit the rock it was not anticipated that she would sink. Unexpectedly, however, she fell into deeper water and the crew escaped only with the clothes they wore and a small quantity of provisions they managed to recover from the galley. The barge is stranded at high water mark and it will probably be Saturday before it will be possible to make an attempt to pull her off. She has two holes in her hull and cofferdams are being built around them. She has a considerable list but, fortunately, the cars are still aboard without having overturned. Of the nine cars on the barge, three are loaded with lumber.

SONS OF CANADA DEFEATED COLTS

Intermediate Colts and Maple Leafs Also Winners in Basketball Games

The Sons of Canada were easy winners of last evening's Senior Basketball game by a score of 37 to 18. There were two distinct periods of play for the Colts easily had the best of it in the first half. The Sons came back in the second period, however, and completely dominated the game and were fully deserving of their victory.

E. A. Mann refereed and the scoring was as follows: Sons of Canada—R. B. Skinner (3); V. Menzies, 2; H. Menzies (1), 10; D. Balfour (2), 11; H. Astori, 11.—Total, 37. Colts—E. Smith, (3); R. Bartlett (1), 4; J. Mitchell (1), 4; A. A. Easson, 11; W. Mitchell, 2.—Total, 18.

Intermediate League The Colts won the Intermediate game from the Grotto by a score of 46 to 25 but the tobaccoists made the league leaders travel in the first half. They played a wonderfully effective combination game to start with and the Colts were behind at half time. However, the latter struck their real stride in the second period and the Grotto were unable to stem the tide.

R. B. Skinner was referee and the scoring was: Colts—G. Hills; D. Frizzell (2), 2; R. Smith, 8; J. Kelly (1), 10; G. Blythe, 20; M. Budenich (1), 6.—Total 46. Grotto—G. Anderson (1), 6; W. Gray (1), 2; W. Wrathall, 9; A. Howard (1), 2; T. Fraser (3), 6.—Total, 25.

Ladies' League The Ladies' game was a real struggle between two evenly matched teams but the Maple Leafs were fully deserving of their victory by 15 to 9. Throughout the early part of the game, the play was too close but the checking was hard and fast. In the second half, the Maple Leafs adopted a more open style of play which the Adanacs will have to follow to be successful.

R. B. Skinner was referee. The scoring was as follows: Maple Leafs — Miss Louie Fisher (4); Miss A. Stephens, Miss M. Graham, (2); Miss M. Harvey, 6; Miss L. Frizzell (1), 9; Miss D. Macdonald (1).—Total, 15. Adanacs — Miss Willa Dyer (2); Miss P. Tremayne, 4; Miss A. Kelly, 2; Miss Leona Parker (1), 6; Miss V. Shockley. — Total 9.

Junior League The High School won the Junior League match from the Stars by 28 to 12. W. Lambie refereed and the line-ups were as follows: High School — Yoshi Katsuyama; Bob Matheson 2; Elvin Johnson, 14; Clarence Thompson, 2; Benny Wendle, 10.—Total, 28. Stars — Harry Walker, Eddie Walters, 10; Darrell Casey, 2; Fred Dingwall, Efnie Dingwall and Lawrence Capstick. — Total, 12.

League standings to date follow: Senior League W. L. Pts. Sons of Canada 8 1 14 Colts 4 5 8 Teachers 1 7 2 Two points deducted by Association for fielding unregistered player in league game. Intermediate League Colts 7 0 14 High School 3 3 6 Grotto 2 5 2 Elks 1 5 2

Ladies' League Maple Leafs 6 1 12 Adanacs 5 2 10 Kaiens 1 5 2 Teachers 1 5 2 Junior League Colts 3 1 6 High School 3 1 6 Stars 2 2 4 Blue Birds 0 4 0

Sport Chat

The return of the Callies to the Senior League football field this year will be gratifying to all soccer fans who will warmly welcome once again this real pioneer team of the city. Their absence in 1923, the first year they missed since away back in 1910, was much felt. In fact, football didn't seem quite natural in this man's town without the well known cry on the field: "Come on the Callies." Many times have the Caledonians distinguished themselves in the soccer field in the past and they may be expected with renewed energy to live up to past achievements. The St. Andrew's Society is to be congratulated on its determination to get the team back on the field in 1924.

A very creditable hockey team has been uncovered at Smithers this winter but it has been given no opposition so far because there is no aggregation for it to play with. However, there have been reports going the rounds that several speedy men are to be found around Telkwa and it is hoped that an inter-town game will be staged in the near future. A captain and manager is to be chosen at Smithers this week and then arrangements will be made for games. Prince George also has a good snappy team this winter and there is a possibility that they may meet the Smithereens.

Harry Gilmour, who is matched for an exhibition bout at Chicago with Frankie Russell, has the distinction of having been the featherweight, lightweight and heavyweight of Canada many years ago. He will be 70 years of age next March, Russell, whom he is to box, is a good 135 pounder.

BURNS LAKE AND LAKES DISTRICT

Severt Anderson, tie contractor of Rose Lake, was a Burns Lake visitor on Friday. Topley visitors at Burns Lake on Friday were Eli Strombold, Ova Watson and S. Marsh.

W. E. Williams made a trip to the Prince Rupert Logging Company's camp at Francois Lake last week and returned to his home in Prince Rupert on Sunday's train.

Albert Irwin returned to his home at Fraser Lake on Sunday morning after visiting at Francois Lake for a few days. Mrs. H. McPhail, of the Lake View Hotel at Francois Lake, was a visitor in Burns on Saturday and attended the dance in the evening.

A party of Rose Lake visitors were in attendance at the Burns Lake dance on Saturday evening. Included in the party were Mr. and Mrs. J. Baron, Miss C. G. Keith and M. Crothers.

Mrs. Gillis, of Danskin, was a Sunday visitor at Burns Lake.

H. Parrott, of Colleymount, is spending the week end at Burns Lake.

Mrs. Fay S. Short and baby, Innes, left on Thursday for Colleymount, where she will visit for a week with her parents, Mr. and Mrs. Innes.

H. S. Parker, of Prince Rupert, was registered at the Omineca Hotel over the week end.

W. D. Lukens is closing down his store at Palling and will shortly make a trip to Chicago.

WINTER ECZEMA 'CHAPS' & COLD-SORES KEEN wintry weather brings a host of skin troubles. Cold-sores, chapped hands, unsightly face-sores and blotches, become a source of discomfort and annoyance. To end the trouble and make your skin clear, healthy and flexible, give the face, arms and hands, a nightly dressing with pure herbal Zam-Buk. Zam-Buk instantly soothes the smarting irritation, kills disease germs, and quickly heals all soreness, roughness and chafing which, neglected, often develops into eczema or other chronic skin disease. Use also Zam-Buk Medicinal Soap and enjoy real skin health. This was an obstinate case. Mrs. Henry Amey, 43, Lyall Avenue, Toronto, says: "My daughter's face and neck were a mass of eczema. Her doctor prescribed treatment for over two months, but to little avail. I was about to call in a skin specialist when I heard of Zam-Buk treatment rescuing other sufferers from this dread disease. So I got a box of Zam-Buk and a tablet of Zam-Buk Medicinal Soap. In a few days these wrought a decided improvement. Day by day the sores gradually healed, and within a month my daughter's skin was thoroughly cleared of the terrible disease."

Ten Years Ago in Prince Rupert

S. M. Newton was today elect-
ed mayor of Prince Rupert over
T. D. Pattullo by a majority of
87. T. R. Mailland, George W.
Kerr, Thomas McClymont, W. H.
Montgomery, John Dybhavn, D.
W. Morrissey, Victor Basso-Bert
and D. H. Morrison were elected
aldermen. P. W. Anderson and
Dr. W. T. Kergin are the new
school trustees. The Prince
Rupert Hydro-Electric agreement,
\$150,000 diesel oil plant and
\$50,000 public building by-laws
were defeated and the \$15,000
electric light extension, \$60,000

recreation park by-laws were
passed.

CONSTANT HEADACHES AND DIZZINESS

It is hard to struggle along with a
head that aches and pains all the time,
and in nine cases out of ten the persistent
headaches are due to some derangement
of the stomach, liver or bowels.

Undoubtedly the cause must be re-
moved before permanent relief may be
had.

Burdock Blood Bitters removes the
cause of the headaches, as it acts on
every organ of the body and strengthens,
purifies and regulates the whole system.

Mrs. Peter Curran, 27 Morrison St.,
Sydney, N.S., writes: "I have been
troubled for the last five years with
constant headaches and dizziness. After
trying several remedies, which I found
to be of no avail, Burdock Blood Bitters
was recommended to me.

B.B.B. did me a world of good, and
I cannot praise this remedy enough."

ISLANDS ARE STILL ACTIVE

Buckley Bay Biggest Lumber Pro- ducing Centre in North, It Is Stated

Buckley Bay is the largest
lumber producing centre in the
north according to arrivals in
the city on the Prince John last
night. During 1923, over twenty
million feet of lumber was ship-
ped from Massett Inlet they state.

In the near future the sawmill
at Port Clements recently ac-
quired by the Massett Timber Co.
from W. P. Lynch and other local
men will be in operation and
building of T. A. Kelly's mill at
Atli Inlet is about to commence.
The Massett Timber Co.'s mill at
Buckley Bay still continues to op-
erate full blast night and day.

Three of the Los Angeles Tim-
ber Products' big lumber schoo-
ners recently left Buckley Bay for
the south. One of the vessels
carried 1,900,000 feet of rough
spruce lumber to Seattle and the
other two were each loaded with
2,000,000 feet of cants for Los
Angeles.

The El Ciuta is at present
loading at Buckley Bay.

ANNUAL REPORT OF FIRE CHIEF

Forty-six Alarms Responded to During 1923—Net Damage, \$1,012

Forty-six alarms were respond-
ed to by the department during
the year 1923, 10,000 feet of hose
and 700 feet of chemical hose
was laid, 300 gallons of chemicals
were used, 300 feet of ladders
were put up and the apparatus
travelled 85 miles according to
the twelfth annual report of Fire
Chief D. H. McDonald submitted
to the city council last night.

The total amount of damage to
property from fire and water
during the year was \$22,949.35;
amount of insurance paid, \$21,-
907.35 and actual loss to property
owners \$1,012. The value of
property involved was \$324,500.

The expenditure of the depart-
ment during the year was \$45,-
168.

PRINCE JOHN HAD FINE TRIP NORTH

Best Weather for 3½ Months Experienced by C.N.R. Queen Charlotte Island Vessel

After her best voyage north in
3½ months, C.N.R. steamer
Prince John, Capt. Neil McLean,
arrived in port at 9.15 last night
from Vancouver via the Queen
Charlotte Islands. The vessel
made a speedy passage of 4½
days from Vancouver. She
brought 60 passengers here and
included in her cargo, which she
is discharging today, is 100 tons
of cement and a carload of 60,000
shingles for Albert & McCaffery,
fish boxes and sawdust for the
Canadian Fish & Cold Storage Co.
and a small quantity of general.
The vessel sails for the south at
8 o'clock tomorrow evening.

L. E. Mawhinney, assistant
purser of the Prince John, is off
sick and is being relieved by A.
Smith of the C.G.M.M. shore
steward's staff.

PERMISSION GIVEN CHANGE CONNECTION

Unsatisfactory Sewer Service in Block 21A, Section 1, Will be Remedied, Owners Pay- ing For It

The city council yesterday af-
ternoon acceded to a request from
the Bank of Montreal, Dybhavn &
Ranson, F. W. Hart, McRae Bros.,
and the Prince Rupert Club ask-
ing for permission to change
their sewer connection at a cost
of \$400 or \$450 to be borne by
themselves. Complaint was made
that the present service was not
satisfactory. H. St. G. Lee, man-
ager of the Bank of Montreal, and
John Dybhavn, were present in
furtherance of the request. The
property affected in Block 21A,
Section 1, is now served by a con-
nection across Third Avenue
passing through private property.
It is proposed to connect with
the sewer in the lane between
Second and Third Avenues.

GOOD PROGRESS ON HIS TIE CONTRACT

M. P. McCaffery Returns From Visit to Camp East of Prince George

M. P. McCaffery has returned
from a visit to his tie camp east
of Prince George. In partnership
with his brother, Mr. McCaffery
has a contract to get out 60,000
ties and a good many of them
have already been cut. Now that
there is sufficient snow the work
of hauling and loading on the
cars is proceeding.

Mr. McCaffery says it is possi-
ble they may get out more than
the number contracted for and
may possibly reach 75,000.

M. B. Rochester

H. B. Rochester said he had
not intended to appear in public
again but he thought there might
now be an opportunity for
service. He thought there was
something wrong with the school
board when it cost 20 per cent
of all the revenue to educate a
handful of children. The money
was not going in wages. He
cited the Borden Street school as
an example. He said the city en-
gineer had figured the cost at
\$2,800 but the trustees wanted it
done some other way and he was
now informed that the cost had
exceeded \$6,000. During his last
term as mayor he had visited
other parts of the province and
had made recommendations to the
police commission but these had
not been carried out. The mayor
had said it would be too expen-
sive and would cost \$3,000. Per-

MILLIONS and Movies

THROUGH the medium of slender strips of celluloid
an actor appears simultaneously on thousands of
screens in as many different towns. On the same
evening, he entertains great armies of film fans who
eagerly pay their money to see his performance.

So the movie star commands a king's ransom for a
salary, and a fortune is spent profitably, to provide a
proper background for his art. The movie multiplies
personality—and earning power.

Advertising does the same thing for a merchant or
manufacturer. In a single day it takes his message into
thousands of homes—to tell folks why they should have
his goods and how to get them. Advertising endows
him with a thousand voices with which to tell his story.

But the value of advertising is by no means confined
to the advertiser. It has a very definite value to you.

A glance through this paper enables you to sift out
the things that interest you. Sitting in your easy chair
you can compare values and prices. In a moment you
can tell exactly where to go for what you want and how
much to pay.

Figure how much useless walking and talking and
how much actual money you can save by spending a
few moments daily with the advertisements.

At the End of a Day

As the roll unwinds, music works its magic. Gone are the cares of a work-a-day world. A dear old tune touches the chords of tender memory—brings back boyish dreams—stirs the fires of inspiration.

Whatever your mood as you sit down before the Gulbransen registering piano you find it sympathetic, responsive. For it is as ready to reflect the exuberance of youth in the latest and gayest of popular tunes as it is to free the majestic music imprisoned in the score of a composer's masterwork.

We invite you to our store today and try the Gulbransen registering piano. A few moments will reveal the pleasures it offers. We will gladly explain the advantages of its many exclusive features.

towards the alleviation of the burdens which now weigh heavily upon the taxpayers of the country.

No Reductions

"There is much talk about reduced freight rates," said Sir Henry, "but two and two don't make six and I want to say to you that there can be no reductions made in the gross earnings of the Canadian National Railways if we are to increase our net receipts. If the people of Canada want reduced freight rates they can have them. But a price will have to be paid. If they do not want them, we can constantly increase our net earnings and the day will not be far distant when the railways shall no longer be a burden upon the taxpayers of the Dominion."

A SEVERE ATTACK OF HEART TROUBLE

Was Relieved By **MILBURN'S Heart and Nerve Pills.**

Mr. S. E. Barnes, Athens, Ont., writes:—"Four years ago I had a very severe attack of heart trouble. I consulted my doctor; he treated me for some time, but I only seemed to be getting worse. I finally went to our druggist and purchased three boxes of Milburn's Heart and Nerve Pills and derived immediate relief from their use, and I can truthfully say they are a wonderful medicine. I always keep a box on hand, and if I feel out of sorts I take a few pills and feel all right again."

JUSTICE GALLIHER INVESTIGATE P.G.E.

(Special to Daily News)
VANCOUVER, Jan. 15—While no announcement has been made it is understood that Mr. Justice Gallihier will be named a one man commission on P.G.E. Affairs to investigate the Provincial Party charges.

concerned I regard myself as merely the nurse to that child. I am quite indifferent to its parentage. The success or failure of this railway system should not be the sport of politicians or the football of politics. It belongs to the people and to no political party, and that party which plays with it will be playing false to the mandate of the people. Irrespective of criticism or of assault, the present administration hopes to run the railway for the benefit of all the people and for no particular section whatsoever. When the day comes that this cannot be done I will have nothing further to do with the property. Any other policy would be one of suicide, perhaps it may be just as well for me to refer to this in view of events that may come upon us before the year is out."

A strong plea for the prosecution of a sane and aggressive policy of immigration for the Dominion will be put forward by Sir Henry. In dealing with one of the several phases of the railway problems, this problem of new settlers like other problems must be grappled with in a courageous and common-sense manner, he declared.

Made to Pay

"We've got the Canadian National Railways, they are looking up. We've got the Canadian Government Merchant Marine. It can be made to pay. We've got the Dominion of Canada, fairly aching for immigration. We've got everything in Canada a nation can want. We can do big things with all of them if we will only pull together. We must forget and forgo religious prejudices, sectional pride and all those things that are merely monkey wrenches in the machinery. A great heritage is ours if we will only handle it with common sense and courage. Let us hold fast to our religion in good and take our courage in both hands and we will make of Canada a nation of which our children will be proud."

Before opening his address, Sir Henry presented a bronze medal and a certificate of the Royal Canadian Humane Society to a conductor and engineer of the C.N.R. for life saving. Conductor C. Fred Browning received the bronze medal for promptitude and courage in the rescue of Mrs. A. D. Grainger from death at Coteau Jet, in November 1922. Engineer Donald Ross received the certificate.

Sir Henry was accompanied by Mr. S. J. Hungerford, vice-president in charge of operation and construction and other officials of the system.

Visits were paid during the afternoon to various industrial plants and entertainment was provided by the Brockville Business Men's Club.

Mrs. J. B. Colthurst of Terrace, who has been on a brief trip to Vancouver Island, returned to the city on the Princess Mary last night and will leave on tonight's train for the interior.
