NAVAL REDUCTION CONTENTIOUS MATTER

SWANSON BAY MILL TURNED OVER YESTERDAY---LUMBER CUTTING STARTING

If Base at Singapore is Dropped by Government Earl Beatty will Resign

LONDON, March 6.—Increased dissatisfaction is developing among British naval officials over the Labor government's avowed policy of pacifism and its intention to reduce Britain's present naval and military commitments to the minimum. Admiralty officials feel this may endanger the safety of the Empire. This feeling is strengthened by reports printed this morning that the government has decided to drop the project of a naval base at Singapore. The naval staff at the Admiralty hold strong views that the base is a necessity.

CONCENTRATES BEING SHIPPED

Ore Passing Through Here Contains Palladium Worth \$85 an Ounce

The "Elsinore" of Ketchikan is in port today unloading 20 tons of concentrates for New York from the Salt Chuck Mine, Alaska. The concentrates are of gold, copper and palladium, the latter being worth \$85 an ounce. Formerly these concentrates were shipped to Tacoma for the recovery of the gold and copper values while the palladium which the smelter was not looking for, was thrown away. But, in any case, being refractory, the palladium could not be recovered at the Tacoma smelter, the New York one being the only smelter in the country equipped to recover such metals. Palladium is a precious metal similar to platinum.

It is expected that some three cars of these concentrates will be shipped through this port for New York every month.

FEWER BIRTHS FEWER DEATHS

Britain's Population Problem is Getting Worse Because People Live Longer

LONDON, March 6.—Fewer babies are being born in Britain today than formerly but the country's population problem, with which unemployment is linked, is getting worse simply because the people seem to live longer than they used to.

Last year the birth rate was 19.7 per thousand, the lowest on record excepting in the last stages of the war. Births in England and Wales totalled 758,386 and deaths, 444,867—a natural increase of 313,517.

SINGAPORE BASE TO BE CONSIDERED BY BRITISH GOVERNMENT

LONDON, March 6.—Charles Ammon, parliamentary secretary of the admiralty, stated in the House of Commons that no decision had yet been made in regard to Singapore as a naval base. The matter would be considered shortly by the Government, he said.

SASKATCHEWAN VOTES ON LIQUOR QUESTION

REGINA, March 6.—A plebiscite on the liquor question throughout the province of Saskatchewan is set for July 21.

PRESENT YEAR PROMISES WELL

Industries Increase Throughout East as Shown in Railway Report

MONTREAL, March 6.—A clear indication of the important part which a great steam transportation system plays in the industrial life of a nation is to be found by an analysis of the annual report submitted to E. Dalrymple, traffic vice-president by W. P. Fitzsimons, manager of the industrial department of the Canadian National Railways. This report covers that portion of Canada east of Fort William, served by the National Railways and it shows such a steady growth in the establishment of new industries and the development of old ones, that there is every reason to suppose that the barometer of business in Canada is pointing to "Fair."

Employ 5,000

During the past year, there located along the lines of the Canadian National Railways, east of Fort William, new industries that will employ approximately 5,000 hands. They cover a wide diversity of activities in the manufacturing and industrial field, some of the commodities to be manufactured being automobile accessories, gasoline, pulp, paper, lumber, oil, casters, hosiery, textiles, excelsior, confectionery, soda fountain supplies, gloves, canned fruits, water pumps, iron and steel products, electric appliances, clothes hangers, cheese and butter boxes.

Similar activity was shown by plants of recent or long standing. Extensions to plants in the same area during 1923 provided for an increased production that made necessary the employment of 900 more hands. These plants also represent a wide divergence of endeavor, some of the manufactured commodities being cordage, steel, electric supplies, soap, explosives, screws, linoleum, radiators, furniture and autos.

Optimistic Tone

It is interesting to note that Mr. Fitzsimons in his report strikes an optimistic tone regarding the general industrial outlook in the Dominion in 1924. He points out that during 1923, in spite of the unsettled economic and political situation in Europe, which reacted strongly in an adverse way upon trade conditions in Canada, a most encouraging industrial expansion was carried out in the Dominion, particularly as it concerned the lumber trade, flour and cereals mills, the automotive and pulp and paper industries and the metal trades exclusive of the manufacturers of agricultural implements.

Mr. Fitzsimons notes that the lumber trade experienced its most successful year since the war, while the automotive industry enjoyed a banner year. With better trade and economic conditions, a stabilization of the international political situation overseas and with the completion of the extensive water power developments that have been under way in various parts of Canada, Mr. Fitzsimons is of the opinion that the present year will be bright in promise for industry and business generally in Canada.

Good Understanding Between Britain and U.S. is Guarantee for Future Peace of World

WASHINGTON, March 6.—King George sees in the good understanding between Great Britain and the United States the best guarantee for the future peace of the world. This declaration was made today to President Coolidge at the request of the King by Sir Esme Howard and marked the presentation of the new ambassador's credentials to the president.

Replying, Mr. Coolidge asserted the "conscious identity of the general aims existing between the United States and the British Government will be a mighty force in bringing to the world a just and lasting peace."

INVESTIGATION IS PROCEEDING

P.G.E. Affairs Are Again Being Ventilated Before Royal Commission

TREATED WITH COURTESY

VICTORIA, March 6.—After a week's adjournment, the Royal Commission investigating the Pacific Great Eastern affairs resumed today. At the opening A. M. McNeill, K.C., counsel for the Provincial Party, stated he had been treated with the utmost courtesy by officials of the railway department in his examination of official files. It had been impossible, however, to conduct a complete investigation in the time.

E. B. Boyd, treasurer for the Northern Construction Company, was the first witness. Questioned by Mr. McNeill, he stated that the company had opened separate bank accounts to cover a number of contracts. There was no document connecting an individual contract with the company's various businesses. A separate account had been opened for the Pacific Great Eastern work.

Mr. McNeill insisted on the production of books showing the connection of Pacific Great Eastern accounts and the company's general accounts. Mr. Boyd replied that vouchers covering all matters had been produced.

Must Produce Books
Mr. McNeill was not satisfied and the commissioner ruled that any books covering Pacific Great Eastern money in any way should be produced.

Asked for copies of agreements for expenditures between the Northern Construction Company and its sub-contractors, Mr. Boyd said that details of all monies (Continued on page six)

IS NOT MAKING MUCH HEADWAY ON ELEVATOR

(Special to Daily News)
VANCOUVER, March 6.—The World has the following in a despatch to-day from its Parliamentary correspondent at Ottawa:

"We are doing our best but I cannot say we are making great headway," said Fred Stork, M.P., for Skeena today, regarding Prince Rupert's claim for a grain elevator. "The need for it is recognized but the cry is economy and a balanced budget, and a lot of needed works have to go by the board. However, hope has not been abandoned."

ANGLO-ARAB TREATY NEARING COMPLETION

Negotiations Being Conducted by Sir Herbert Samuel and King Hussein of Hadjaz

JERUSALEM, March 6.—Negotiations for an Anglo-Arab treaty conducted by Sir Herbert Samuel, high commissioner for Palestine and King Hussein of Hadjaz is near a successful completion, according to reports appearing in the Arab press.

DOW IS MODERATOR PRESBYTERIAN SYNOD

VANCOUVER, March 6.—Rev. A. J. Dow of the Kamloops presbytery was yesterday elected moderator of the synod of British Columbia in session here.

Logging Camps, Sawmill and Possibly Shingle Mill Will be Opened by Whalen Co.

For the first time since the shutdown of the plant last December, the sawmill of the Whalen Pulp & Paper Co. at Swanson Bay was turned over yesterday. It is intended to commence sawing lumber right away for the general market. The shingle mill may also be reopened. A. C. Devine from the Vancouver office of the company has assumed the managership succeeding R. L. Hennessey.

It is the intention of the Whalen Co. to operate its logging camps on Moresby Island, Q.C.I., at Beresford Arm and in the vicinity of Thurston Harbor—this summer. The camp at Cumsheewa which is now running will continue.

With present market conditions continuing, it is expected to run the sawmill at Swanson Bay for at least 18 months. Jap squares will be shipped direct to the Orient and some may find their way here for loading. Some lumber will probably be barged here for delivery to the United States by rail.

The Whalen Company is about to seek a permit from the provincial government to allow them to ship No. 3 cedar logs from their camps to the Orient. They have a large quantity of these logs on hand and there is no ready market for the manufactured product.

The sawmill which has a capacity of 125,000 feet in ten hours, will be run at single shift and will employ 100 men. Pulp wood and slabs will be piled up at Swanson Bay against the possible re-opening of the pulp mill when market conditions improve.

If the camps on the Islands resume full blast some 250 men will be employed there.

BRITAIN TO AID THE DOMINIONS

Bill Passed House of Commons Providing for Interest Payments on Loans

LONDON, March 6.—By a vote of 297 to 43 the House of Commons gave second reading to the Trade Facilities Bill embodying proposals announced at the Imperial Conference providing for the payment of three quarters of the interest on loans raised in Britain by the Dominions and colonies to finance public utility undertakings, the maximum annual guarantee being one million pounds and the period five years.

The principal feature of the debate was the persistent opposition of back benchers of the Government party, particularly Clydesdale member.

HEAVY LOSSES IN COSTA RICA

Government Buildings and Churches Alone Destroyed to Extent of Fifteen Million

SAN JOSE, March 6.—Costa Rica estimates that the loss of government buildings and churches from the earthquakes which have been in progress for two days will amount to \$15,000,000. The private losses have not yet been estimated but they are heavy. In twelve hours there were 411 earth shocks and the tremors continue in a milder form. Many appeals for help have been sent in but few casualties are reported.

FISHING SCHOONER LOSES HER MASTS OFF CALIFORNIA

Galilee was on Way from San Francisco to Pirate Cove, Alaska

SAN FRANCISCO, March 6.—Fishing schooner Galilee, which left here February 28 for Pirate Cove, Alaska, is in distress off the California coast south of San Francisco. Two masts have been carried away.

The vessel is believed to have 20 men aboard.

SAN FRANCISCO, March 6.—(later)—The Galilee has been picked up by the coast guard cutter Shawnee according to a wireless message which makes no mention of the crew of twenty men.

P. S. Bonney, district forester, returned to the city yesterday afternoon from Victoria where he attended a conference of district foresters.

FISH ARRIVALS ARE LARGER AT EXCHANGE

Eight Boats Marketed Catches Totalling 95,200 Pounds this Morning

Halibut arrivals were somewhat larger at the Fish Exchange this morning, eight boats marketing 95,200 pounds. Four American vessels had 82,000 pounds and a similar number of Canadians, 13,200 pounds. Prices were well sustained though not quite as high as earlier in the week.

Arrivals and sales:

American
Omamey, 35,000 pounds, to the Pacific Fisheries at 18.2c and 8c. Arctic, 38,000 pounds, at 18.7c and 9c., and Uranus, 3,000 pounds at 18.3c and 9c, to the Canadian Fish & Cold Storage Co.

Canadian
Ringleader, 4,000 pounds, and Maude, 5,000 pounds, at 16.9c and 8c, to the Canadian Fish & Cold Storage Co.

Ruth, 3,000 pounds, and Point May, 1,200 pounds, at 16.8c and 8c, to the Booth Fisheries Canadian Co.

BELGIAN CABINET IS BEING FORMED PREMIER THEUNIS

BRUSSELS, Mar 6.—Theunis has undertaken the task of forming a new cabinet and it is understood Paul Hymans will take over the department of foreign affairs. Both the Flemish right and the Christian democrats will be represented in the new cabinet.

DAILY EDITION

Thursday, March 6, 1924.

Archbishop Discusses Problem Of Pleasure.

Yesterday the Lenten season commenced. Today Archbishop Du Vernet gives readers an interesting short article on what he entitles "The Problem of Pleasure," a subject most appropriate to the season. He says:

"If we understand the primary process in the working of the human mind we shall see clearly why habitual pleasure seekers are always weak in character. In this primary process there is first a thought, or idea, in the mind. Then there is this thought energized by some emotion, or feeling. Next there is this energized thought seeking to express itself in action. Lastly, there is the appropriate action externalizing this energized thought.

"It will be observed that the emotion, or feeling, is a link in the chain of causation; the thought, the feeling, the tendency, the act. Any one who takes the emotional link out of the middle of this vital chain and puts it at the end and tries to make it supreme is violating the human constitution. This is exactly what those who are seeking pleasure for the sake of pleasure are doing. The feeling of pleasure plays a most important part in human behavior. It helps to energize the idea which leads to action. For example, if it were not for the pleasure of eating many would go without the food necessary for their bodily strength, but those who make the pleasure of eating their end in view soon throw their whole mental and physical machinery out of gear.

Gratification Becomes A Poisoning Evil.

"This same primary law applies to every department of life. An emotion, a feeling, a gratification pursued for its own sake quickly becomes a poisoning evil, whereas when controlled and directed aright as an impelling motive to a higher end it is a power for good. It is only legitimate to pursue pleasure when this is for the purpose of diversion or relaxation, for in such a case, while pleasure is apparently pursued for its own sake, preparation for activity is the distant end in view which heightens the enjoyment of the recreating pleasure. Those who take the emotional link out of its true place in the vital chain and put it fast as thought it were all are really robbing life of its highest joy.

Joy Of Living Is Joy Of Doing.

"The joy of living is not the pleasure of being played upon in a passive state with fleeting sensational thrills, it is the joy of doing. Among the crowd of pleasure seekers we can easily detect those who are rapidly deteriorating in character. They are those who are seeking pleasure not as a healthy diversion from excessive toil, or as an invigorating recreation, but simply for its own sake with no practical aim, no lofty purpose in life.

"Here is where the Christian religion is so valuable. It comes not to destroy the pleasures of life but to uplift them and direct their energy into higher channels. The season of Lent was never intended to spread gloom and depression. God is both cheerful and cheering, because He is both Light and Love. Christ said:—'I came not to destroy but to fulfil!'"

F. H. DU VERNET, Archbishop of Caledonia.

Vancouver Proposes Having World Fair.

A proposal is afoot in Vancouver to have a world fair in that city in 1927. It is to be hoped that the scheme will go through and Prince Rupert will undoubtedly do its share to aid the big city to the south in carrying out its plans. There are sometimes little irritations felt here over the attitude of Vancouver toward local issues. There is a feeling here that there is a tendency for the big city to hog everything and not give the smaller one a chance. So the villages and small towns in this neighborhood often feel toward Prince Rupert. At a time like this, however, if Vancouver decides to go ahead with its big project every city and town and village in British Columbia should co-operate to the fullest possible extent. An exhibition would advertise the whole province and Prince Rupert would get its share. We hope Vancouver will go ahead with its project and make it a success.

RADICAL VIEW OF MACDONALD

Zinovieff, Chairman of Third International, Analyzes British Situation

DREAMS OF FUTURE

Declares Premier Is Type of Labor Aristocracy But Step Toward Revolution

At the 13th conference of the Communist Party, recently held in Moscow, Zinovieff, chairman of the Third International, made a long speech, which occupied two pages of the Pravda, says the London Times. This is the first time that a speech on the foreign policy of the Communist Party and of the executive of the Third International has appeared in detail in the Soviet press.

The speech was divided into two parts, the first dealing with questions of Soviet foreign policy and the second with the affairs of the Communist International. Zinovieff devoted a considerable portion of the first part of the speech to relations with Great Britain.

Macdonald Cabinet

What will Macdonald's cabinet represent from the point of view of the development of the International Labor movement and the international revolution? Zinovieff asked. With regard to the "top strata" and petty parliamentary politicians, he said, it is of no great importance. But with regard to the mass Labor movement it will be an event of the utmost importance. You all remember how, at the second congress of the Communist International, Lenin advised the young British Communist Party to support the "Menshevik" British Labor Party to vote for its candidates and help it to come into power at the earliest opportunity. You remember, too, how frankly Lenin explained there is no need to make a secret of the fact, that we should support the British Labor Party, Macdonald's party, in the same way as the rope "supports" the man who hangs himself. He said that the sooner they came to power the better, because their failure would become evident, and the illusions of British Labor be dispelled all the sooner, and the road cleared for the proletarian revolution.

Historical Revenge

That moment is now approaching. British Labor, as a whole, interprets Macdonald's access to power, not as a mere parliamentary change of government, but as the advent to power of the working class, of the toilers. The average British worker looks upon this as the historical revenge of Labor; he believes that, with the advent of Labor, unemployment will cease, and pressure will be brought to bear on the rich. Such a point of view is dictated by class instinct. This, comrades, is a fact of the greatest significance.

After discussing the history of the development of the British Labor movement and the "British Labor aristocracy," Zinovieff went on:

Will Become Farce

Macdonald is a typical representative of the upper strata of the Labor class, that is to say, of the Labor aristocracy. Nevertheless, his advent to power in a country like England is an event of world-wide historical importance. This is not in Estonia, or in Bulgaria, or even Germany; it is in Great Britain, whose bourgeoisie actually holds one-sixth of the universe under its sway. The importance of this event is not diminished by the fact that, for the time being, the Labor government will become a farce, that Macdonald will certainly grovel on all fours before the opulent English bourgeoisie. Of course, the latter is playing its own political game and prompting Macdonald to assume power, in the hope that the sooner he does so, the more surely he will be gobbled up. Nevertheless, when so powerful and influential a bourgeoisie hands over the power to Labor, it may be assumed that is not done merely for the pleasure of making an "experiment." That is why the advent of Ramsay Macdonald to power marks a most important phase in the international Labor movement, a great advance towards the liberation of the British Labor class, and a mighty stride forward on the road towards the liberation of the British Labor class, and a mighty

stride forward on the road towards the international revolution.

German Situation

The second and greater part of the speech was devoted to the policy of the Communist International. Zinovieff dwelt in detail on the activities of that body in connection with the situation in Germany. Speaking of what happened in that country last autumn, he said:

The party (meaning the Russian Communist Party) realized that a moment had arrived in Germany which could not be regarded otherwise than as a moment for a revolution which would have a considerable change of success. We, the executive, are accused by some of having fixed the date of the German revolution, but I assert that this decision was left by us to the German Communist Party.

The next point is the events in Saxony, and this will bring us to the root of the dissensions within the German Party. We advocated the entry of members of the Saxon Communist Party into the Saxon government in order to use it as jumping-off ground and organize the struggle for power. We expected that the Communist group in the Saxon and Thuringian government would insist on the immediate arming of 50,000 to 60,000 proletarians, and an attack on the Bavarian Fascists. Our German comrades had persuaded us that such a manoeuvre had a chance of success. The mistake was made by Badek. It was he who pulled back the German party by the coat tails, when it should have been urged to fight.

THE QUALITY OF BULK TEA

The Quality of Bulk Tea is always unreliable for several reasons. In the first place, being unlabelled its origin is unknown and there is no one who has any particular responsibility for its goodness. In the second place, it is exposed to the air and therefore very quickly loses its flavor and freshness. Even if it were as good as "SALADA" in the first place, it would rapidly deteriorate and in any case it would be impossible for any dealer to follow consistently the same quality throughout the year. "SALADA" always maintains an unvarying high standard possible through skilful blending.

BOAT ARRIVALS

C.N.R. steamer Prince Rupert, Capt. Harry Neddin, arrived from the south at 5 o'clock yesterday afternoon with the following passengers:

For Prince Rupert — E. K. Knott, D. J. Bergin, Miss E. S. Johnson, Mr. and Mrs. J. G. Elder, Paul Aivazoff, D. G. McKay, Miss Sagton, Mrs. Olof Hanson, Mr. Russell, Mr. and Mrs. J. Wills, J. Weaver, G. A. Woodland, J. H. LePage (Prince George), J. T. McCallum, Mrs. Steinhorn, Miss Arthur, T. Ashton, W. J. Vass, Inspector T. W. S. Parsons, Mrs. Abramanko and children, Mrs. Moore and family (Fort Fraser), Mrs. H. J. Scott

Twice as Rich as Ordinary Milk

You can dilute the double-rich contents of this tin until the smart bottle overflows with pure milk.

For economy in tinning, more than half of the natural water is removed from the rich, fresh milk that becomes Carnation. This leaves it twice as rich as ordinary milk. Nothing else is removed; nothing at all is added.

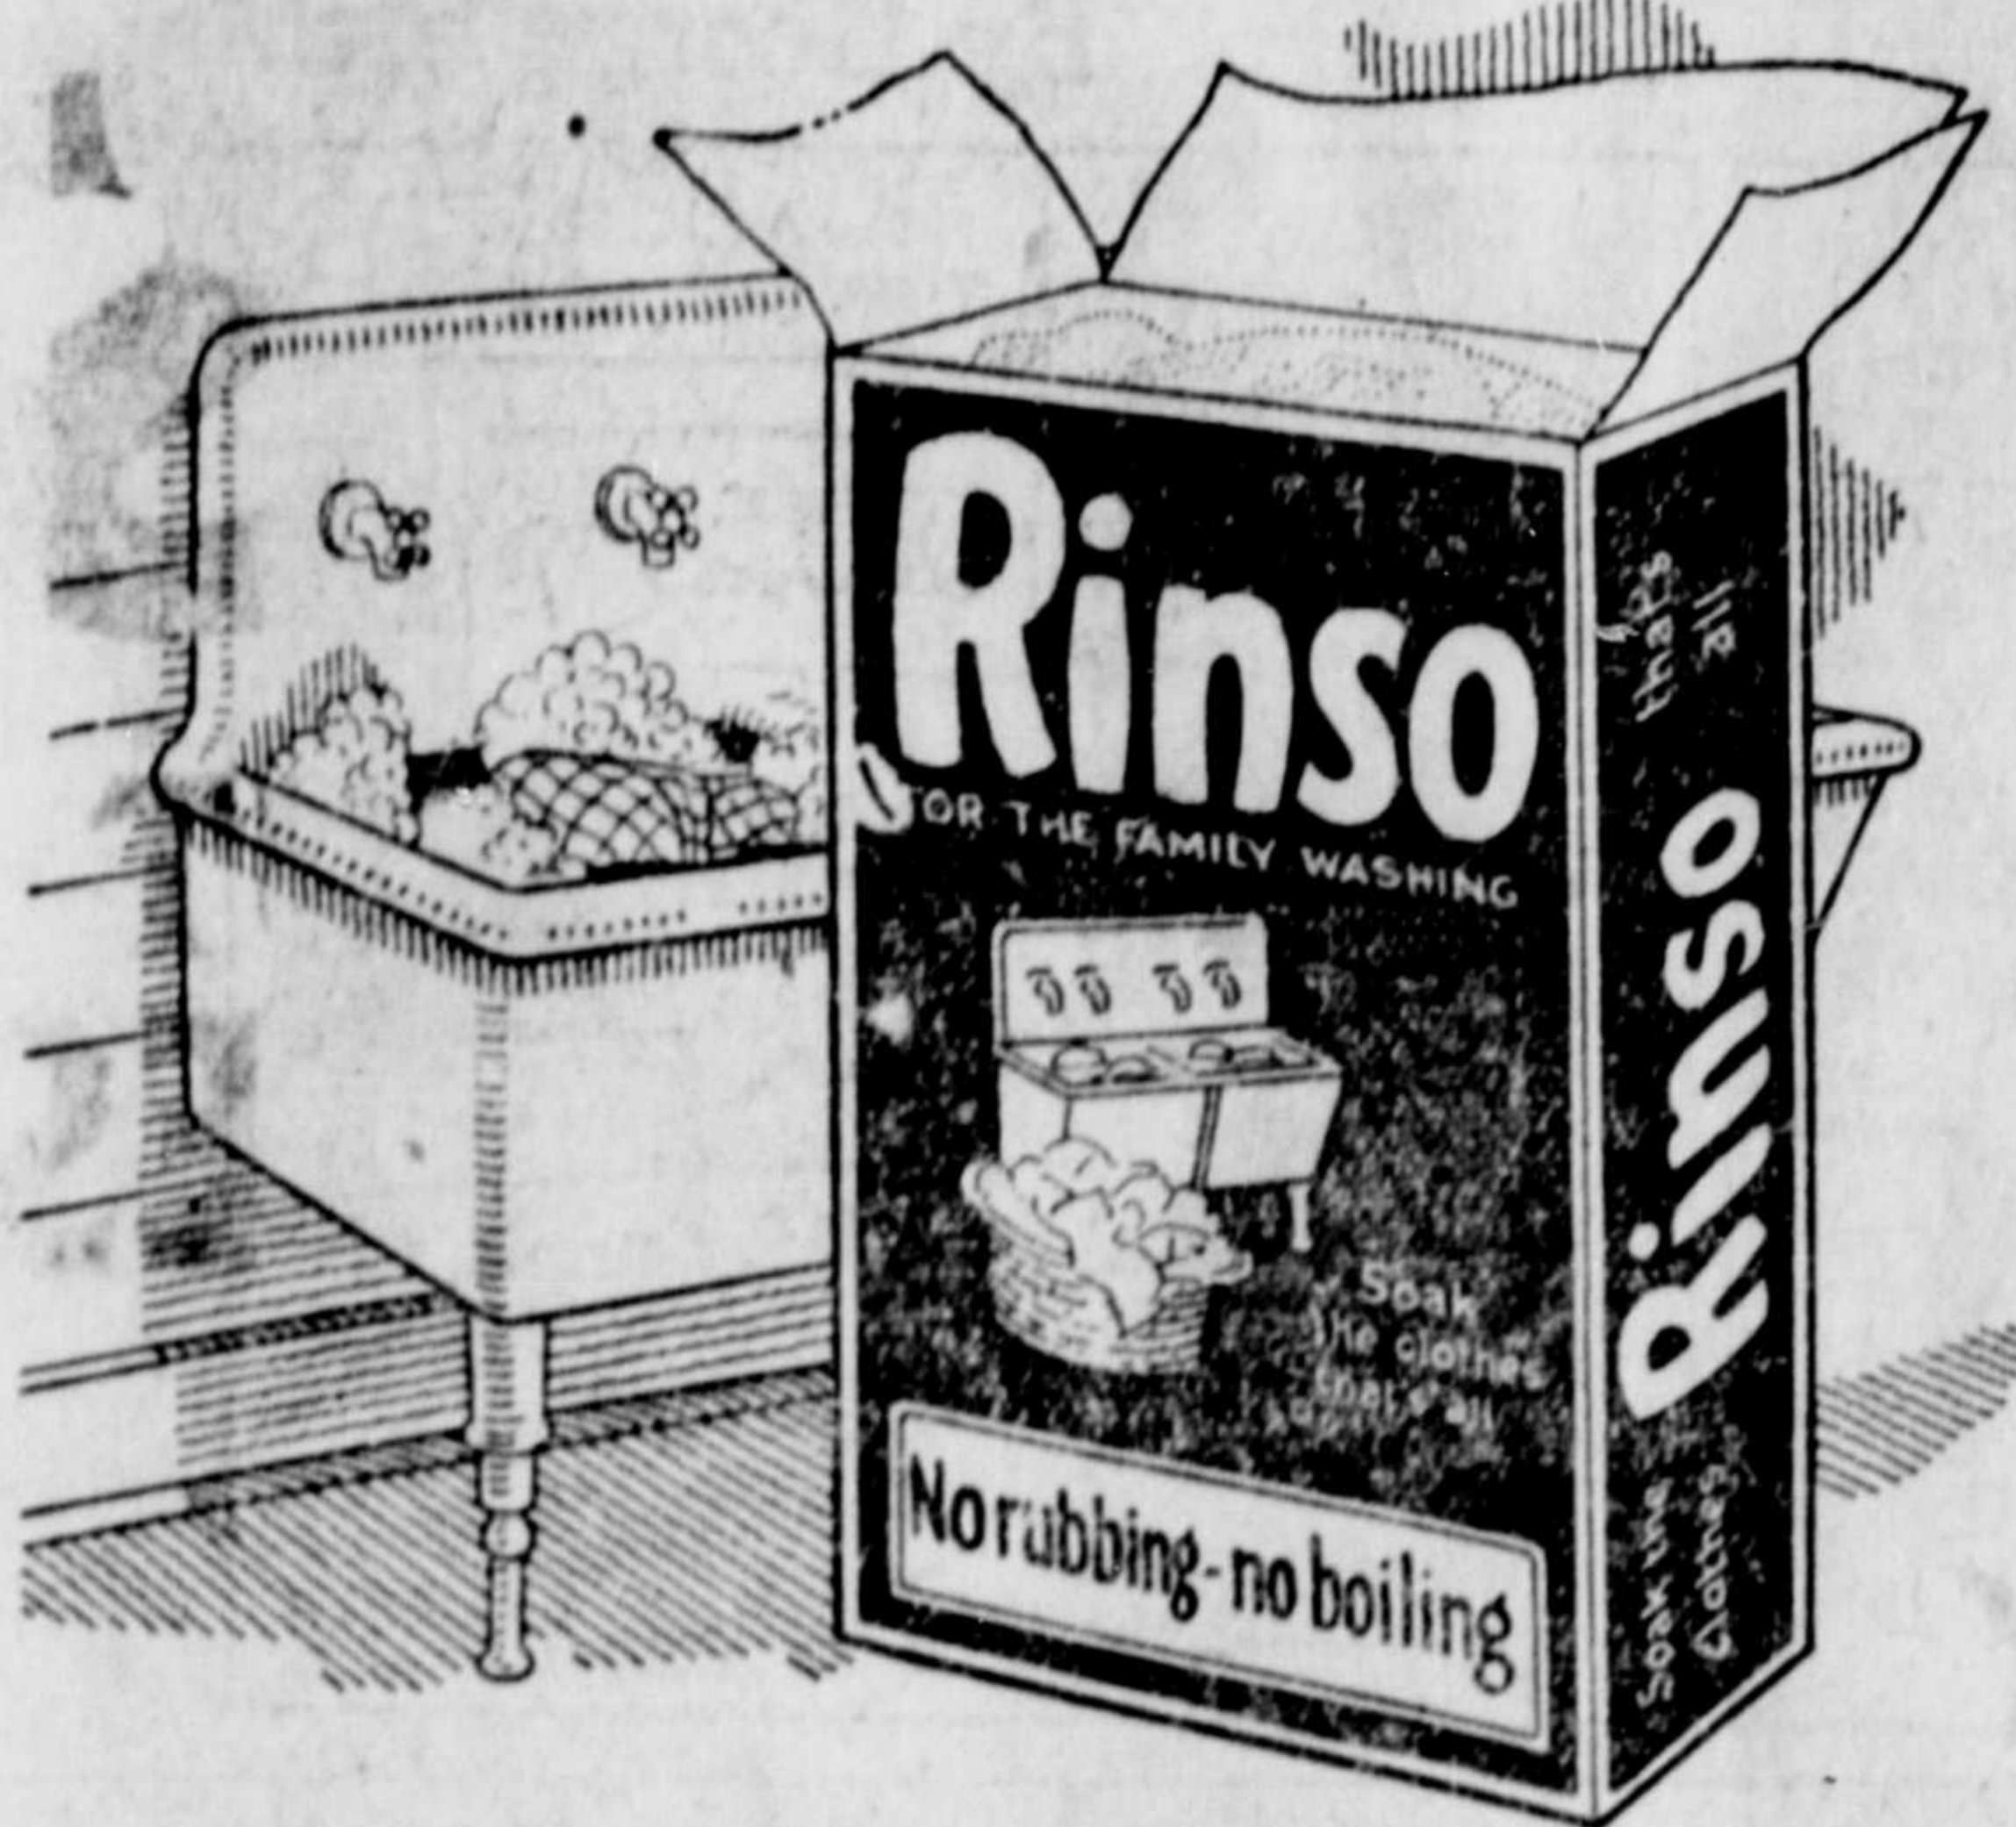

Thus, Carnation is rich enough for every milk need, for coffee or cocoa, on cereals, fruits, etc., and in all cooking. Carnation is always rich, clean, pure, safe, convenient and economical. Your grocer has it.

Produced in Canada CARNATION MILK PRODUCTS CO. LTD. 134 Abbott St., Vancouver, B.C.

FOR HOME COOKS REMEMBER: Cook with Carnation and your food will be famous for flavor and richness. In any recipe calling for milk use only 1/2 cup of Carnation to 1 cup water. It's economical! MARY BLAKE, Domestic Science Department.

Carnation Milk

"From Contented Cows"

Soaking takes the place of rubbing—

JUST by soaking the clothes in the suds of this new soap, dirt is gently loosened and dissolved.

Even the dirt that is ground in at neckbands and cuff-edges yields to a light rubbing with dry Rinso. Not a thread is weakened. The mild Rinso suds work thoroughly through and through the clothes without injury to a single fabric.

Rinso is made by the makers of Lux. For the family wash it is as wonderful as Lux is for fine things.

All grocers and department stores sell Rinso.

INDIGESTION GAS ON STOMACH PAINS AFTER MEALS

Many people suffer terribly from gas and pains in the stomach after every meal, and are kept in constant misery.

For the past 44 years Burdock Blood Bitters has been bringing hope and joy to thousands suffering from various forms of stomach trouble, helping them to eat three square meals a day, helping them to eat anything they wish, without having to suffer for it after.

Mr. Fred Nielson, Moose Jaw, Sask., writes: "All last summer I was troubled with stomach trouble and indigestion, and also gas on the stomach. I could not eat anything except some light food and even then I would be bothered with pains after each meal. I could not work a whole day without being done out. I had tried everything; doctors, medicines and pills, until I read about Burdock Blood Bitters. I have taken four bottles and it has nearly, if not completely, restored me to health again."

Manufactured only by The T. Millburn Co., Limited, Toronto, Ont.

Auction Sale, Saturday, 3 p.m. Prince Rupert Exchange. 57

Mrs. A. H. Bayne sailed for Stewart on the Prince Rupert last night.

Father Allard, O.M.I., was a passenger for Terrace on last night's train.

Spring Millinery Opening at Mrs. S. Frizzell's, Friday and Saturday, March 7 and 8.

The annual meeting of the Prince Rupert I.O.D.E. will be held in the City Council Chamber on Saturday, March 8, at 1 p.m.

Miss Reita Johanson arrived on the steamer Prince Rupert yesterday from Vancouver and has joined the staff of Bent's Ladies' Ready-to-Wear store.

Say! Old Timer. Take your wife to the Old Timers' dinner, Monday night at 8.30 in the Boston Grill over the Union Bank. Tickets on sale at Orme's and at Dybhan & Hanson's. 11

W. T. Haynes, formerly associated with V. Cowper-Young in the wood-working project at the dry dock, passed through the city on the Prince Rupert yesterday afternoon bound for Anyox.

Fred Roberge and T. H. Hooper both formerly of this city and the latter city solicitor until the end of 1922, are reported to be doing well in a partnership recently entered into in the commission and brokerage business in Los Angeles.

A party of Masons from interior points is expected in the city by this afternoon's train to take part in the ceremonies attending the opening of the new Temple here tonight. There are also visiting brethren from various coastal points in town.

A short article telling of a recent demonstration of the Chevreul pendulum and thought transference given in this city to some young people after church one Sunday evening, has been sent out from Vancouver by the Canadian Press to all daily newspapers in Canada by mail.

Norman McLean is acting as purser on the steamer Prince John and Fred Goran, who was in charge of that vessel's office last voyage, is back again on the Prince Rupert as first assistant purser. Bert Robson, regular purser of the Prince John, is still away in California on holidays.

C.N.R. steamer Prince George moved down from the dry dock to No. 1 G.T.P. shed yesterday afternoon in readiness to pick up the coast run, relieving the Prince Rupert tomorrow morning. The change will be made, it is expected with little delay. Capt. Nodden will take over the Prince George and the Prince Rupert will go to the dry dock on her return from Stewart and Anyox.

At the Rotary luncheon today President Grant announced that the club had accepted a challenge from the Gyro Club to play them in a basketball game at the Elks Hall tomorrow night. Their team would consist of Fred Dawson, Jack Nicholls, George Woodland, George Rorie, Dick Moore, with Duncan McRae and Theo. Collart as spares. One condition was attached to the acceptance and that was that the Rotarians should appoint their own referee.

MORTE CRAIG BACK FROM EASTERN TRIP

Local Businessman Visited His Aged Father in Missouri and Saw Many States and Cities

Morte Craig returned by the Prince Rupert yesterday afternoon from a six weeks' trip East in the course of which he visited his aged father at St. Joseph, Mo.

Despite his ninety-six years, Mr. Craig's father, Silas Craig, is still hale and active and enjoys best of health. He is very interested in movies and took his son to a show.

Besides St. Joseph, Mr. Craig visited Winnipeg, St. Paul, Kansas City, Council Bluffs, Denver and Portland, Oregon. On the prairies it was bitterly cold towards the end of January, but in the Middle States the weather was clear and balmy. Denver, where Mr. Craig spent four days, he found to be a most beautiful city. Business seemed very lively throughout the States.

Mr. Craig motored all over the state of Kansas and returns to Prince Rupert greatly benefitted in health but glad to be home.

WIRELESS REPORT

8 a.m. DIGBY ISLAND—Cloudy, fresh southeast wind; barometer, 30.12; temperature, 42; light swell; 8.10 p.m. spoke steamer Alameda 30 miles north of Ketchikan southbound.

FATHER OF LOCAL MAN IS HIGHLY HONORED BY SCOTTISH UNIVERSITY

E. B. Paul of Victoria Given Honorary Degree of Doctor of Laws

Principal E. B. Paul of Victoria College, a branch of the University of British Columbia, has been honored by having conferred on him the honorary degree of Doctor of Laws by the senate of Aberdeen University. Other recipients of the honor at the same time were Professor J. H. Meleod of insulin fame, and Sir Henry Gray of the Royal Victoria Hospital, Montreal.

Dr. Paul is the father of A. S. Paul of this city. Speaking of him the Victoria Times says: Dr. Paul is a graduate of Aberdeen University, where he took his Master of Arts degree, and has been for many years a prominent educationist in Victoria and British Columbia. Two of his brothers also hold honorary degrees from this university, and the family is well known amongst the ranks of students and educationists in the Old Country.

Since its establishment here, Dr. Paul has been principal of the Victoria College, which is affiliated with McGill. Through his efforts this local institution has come to the front as an educational centre for the Island, and the excellent standard set by the students there is something to which its principal is proud, and for which he is of a great measure responsible.

The Man in the Moon SAYS:

WHEN money gets tight everybody wants it but when a man gets tight nobody wants him.

WHEN a man cannot pay his debts and is partly kept by his wife he can always tell people how the country should be run.

SOME men are successes and others never have time for study.

WHEN I pay the coal bill I just wonder how I could have made ends meet if this had been a cold winter.

JAKE says when he looks at his unpaid coal bill he wonders how the coal merchants would have stood it to have had to give credit to any larger amount and then never get paid.

LAST year she bobs her skirts. And this she bobs her hair; And then we hear another Bob Has anchored her for fair.

HARD earned cash is the kind that the woman gets who has to worm it out of a close-fisted husband.

JAKE says they don't need a broadcasting station in this town. There's enough broadcasting done at afternoon teas to fill all

GROTTO WINS AGAIN BY DECISIVE SCORE

Defeated St. Andrew's at Billiards Last Night—989 to 766.

The Grotto billiardists were big winners again when they defeated the St. Andrew's team by an aggregate of 989 to 766 in last night's Prince Rupert city league tournament for the Bulger & Cameron Cup. W. J. Nelson was the only member of the Grotto team to lose his game and by doing so he dropped from the perfect average in the individual standings. As a result of the tournament, the tobaccoists have brought themselves considerably closer to the War Veterans in the trophy race and the St. Andrew's have sunk further into the cellar.

BILLIARD AVERAGES

The following averages have been made to date by players in the Prince Rupert City Billiard League competition for the Bulger & Cameron Cup:

Games.	Pts.	Avg.
Col. McMordie (V.)	7 1400	200
Sgt. Jepson (V.)	8 1576	197
W. Hutchinson (B.P.)	7 1380	197

C. Balsdon (B.P.)	1 93	93

Sport Chat

Some new talent not often seen on a Prince Rupert athletic floor will be offered to the public gaze tomorrow night when the Gyros and Rotarians meet in a medicine ball game on the playground night program. There seems to be more or less mystery as to the exact nature of this line of sport but it is expected that the budding players will have been rehearsed on the rules. Whether or not they will show science, they should be able to provide a few laughs with their scrambling. The spectacle of solid, dignified citizens giving themselves over to unadulterated play will be worth seeing. This match will be one of the headline features of the bill that is being arranged by Gyros Eddie Mann, Roy Nichols, Stan Taylor and Leo Waugh.

All Gyros are selling tickets for playground night Friday.

Except for a final game next week between the Sons of England and Great War Veterans to round off the schedule, the competition in the Men's Section of the Fraternal Whist League will close tonight. The teams to meet are Knights of Pythias vs. Oddfellows; Sons of England vs. Moose; Sons of Canada vs. Knights of Columbus. The

BENT'S

DETAILS REGARDING RAILWAY EQUIPMENT ORDERED BY C.N.R.

Traffic is Growing and Making Big Demands Especially in Western Canada

MONTREAL, March 6.—With the placing of a large order for freight and passenger car equipment for use on the Canadian line of the system the Canadian National Railways are preparing for the summer and autumn traffic which it is expected will break all records this year. The order is a large one calling for the building of 1,000 sixty ton box cars, 150 fifty ton convertible ballast cars, 50 cabooses, 500 general service cars, 20 all steel baggage cars, 20 all steel first class passenger coaches and 15 all steel mail and express cars. Every item of equipment will be built in Canada at plants in Montreal, Hamilton, Ontario, New Glasgow, N.S., and Amherst.

The order for box cars is being placed to add to the equipment necessary for the proper handling of grain from the western provinces and these cars will be used almost entirely in the movement of crops. This traffic is growing yearly and makes big demands upon the equipment of the system as that portion of western Canada which is served by the Canadian National Railways is considered to be the best grain producing section of the west and the one which contains the largest amount of land capable of producing heavy crops annually.

More Grain Cars

These demands will grow as the country becomes more populated and it will be necessary to maintain increasing numbers of the grain cars in that area through the year. Similarly heavy increases in passenger and freight traffic through the system generally have made big demands upon the equipment and the addition of these new cars will add considerably in the proper despatch of both classes of traffic. The orders that have been placed are as follows:

Canadian Car and Foundry Co., Montreal, 400 sixty ton box cars, National Steel Corp'n., Hamilton, 400 sixty ton box cars.

Eastern Car Company, New Glasgow, N.S., 400 sixty ton box cars, Canadian Car & Foundry Co., Montreal, 150 fifty ton convertible ballast cars, Hart-Otis type, with side and centre dumps.

Canadian Car & Foundry Co., Montreal, 50 caboose, these to be built in the company plant at Amherst, N.S.

Eastern Car Company, New Glasgow, N.S., 500 general service 50 ton freight cars.

National Steel Corporation, Hamilton, 20 all steel baggage cars.

Canadian Car & Foundry Co., Montreal, 20 first class passenger coaches, 15 mail and express cars.

Delivery of these cars is expected to commence within a few months so that the major portion of equipment will be ready in time to meet the demand of the summer traffic and all the freight and grain equipment will be ready in time to take care of the 1924 crop movement.

MAKE ARRANGEMENTS ROAD RECONNAISSANCE

D. J. Bergin, Locating Engineer For Provincial Government, Leaves For Terrace Tonight

To make arrangements for the conducting of a reconnaissance of the route for a road between Terrace and Prince Rupert, D. J. Bergin, locating engineer for the provincial department of public works who arrived from Vancouver yesterday afternoon, will leave for Terrace tonight. He will work west from Terrace stopping off at various points to arrange for accommodation of his party which will be formed later.

Mr. Bergin's reconnaissance work will be between Terrace and Tyee, the part between here and Tyee having already been gone over by the local office. Mr. Bergin is particularly fitted for the work he now has in hand for he was a locating engineer with the G.T.P. prior to the road being built in Prince Rupert. He is quite familiar with this section of the country.

FISH FEATURES LENTEN SEASON

Many Varieties Offered in Local Stores—Egg Prices Declining — Potatoes Are Going Up

The Lenten season is here again and fish will be featured stronger than ever by local grocers and butchers. With fresh spring salmon again coming in and a good supply of crabs, shrimps, halibut and herring, besides smoked fish such as kip-pers, black cod, finnan haddie and boxed fish—mostly Eastern imported lines such as Labrador herring, Holland herring, mack-erel, blue-nose codfish, etc.—local consumers will be well taken care of.

Egg prices have been dropping heavily of late but it is felt that the bottom has now been reached. Due to warm weather on the prairies, Alberta has ceased to be a customer for B.C. eggs and usual shipments for this market have been thrown on the coast. At present prices, many eggs will find their way to storage to relieve the glut now existing.

Green Stuff

California red ripe outdoor grown tomatoes, the finest ever imported at this time of year, are a feature in local stores today. The stock is firm and reasonably priced at 40c a pound. Some splendid extra fancy Chula Vista celery is commanding the particular attention of local epicures. Sweet potatoes are high in price and scarce at present. Cauliflower is becoming more plentiful but prices are not showing much change.

Florida grapefruit is still the most popular citrus fruit. The best lines are now individually marked such as Blue Goose brand—now a big favorite with many of the local dealers.

Potato prices are higher in sympathy with Vancouver quotations but they will ease up after March 15 when the railways again accept perishable commodities without being prepaid. No change is expected in the meantime.

Market prices prevailing here today are as follows:

Butter

Why?

WHY waste time in useless "shopping around" when the advertisements lay before you the choicest wares of every progressive merchant in town?

WHY use needless effort in an endless store-to-store quest when the advertisements enable you to make your choice of the finest merchandise without even leaving your home?

WHY pay more than you ought when you can stretch your dollar to the elastic limit by taking advantage of the bargains and good buys that are daily advertised in this paper?

WHY risk dissatisfaction by buying unknown, unbranded goods when you can assure yourself complete satisfaction by buying an advertised product, backed by the integrity of a man who spends real money to establish his name and to build up public good-will?

Read the Advertisements. Buy Advertised Wares. It is a safe and sound policy

PROVINCE SAYS STOP TALKING

Leading Newspaper of B.C. Declares Third Party Charges Failed.

VICTORIA, March 6.—During the past week, or since the adjournment of the Royal commission on P.G.E. railway matters, it is generally conceded that the Third party-under General McRae failed miserably in their attempts to discredit the government, Hon. William Sloan and W. J. Bowser. Editorial comment in the leading newspapers of British Columbia, whether politically biased or independent, show this.

The Daily Province says: "When the heads of the Third party formulated charges against Mr. Bowser and Mr. Sloan the confidence of the average citizen in high public officials was somewhat shaken. He could not conceive of responsible men making accusations such as these unless there was direct evidence to back them up. What that evidence was based upon, readers must judge for themselves. That the charges failed of proof does not mean that elections in British Columbia are won altogether by prayers or that there are no such things as campaign funds. But it may be taken as fairly showing that public men of the province are essentially honest. As for this talk of corruption, we should hear no more of it. It gives the province a bad name, it discourages interest in public affairs and trust in public men; it diverts attention from vital issues and saps the energy of the administration. Worst of all, perhaps, it deters many a man of judgment, character and ability from entering public life. It is time to go to work."

Similar opinions are expressed by other journals. However, every opportunity is to be given the Third party to prove its allegations of extravagance and unbusinesslike administration. On the other hand, a careful checking up of the charges to be heard before Mr. Justice Gaffner, and a study of the rebuttal evidence in the hands of the government counsel, leaves no doubt in the mind of the careful observer that there has been nothing to conceal and that the hand-

TIMBER SALE X 6003.

Sealed Tenders will be received by the District Forester, not later than noon on the 17th day of March, 1924, for the purchase of Licence X 6003, near Steamer Passage, south side of Sonerville Island, to cut 200,000 T.B.M. of spruce, cedar, hemlock and balsam sawlogs.
One (1) year will be allowed for removal of timber.
Further particulars of the Chief Forester, Victoria, or the District Forester, Prince Rupert, B.C.

ling of the P.G.E. has been carried along on sensible, economic lines.

What remains for the public to grasp, if it has not already done so, is that British Columbia has already entered upon a momentous era of progressive development. This province has the resources, undoubtedly. It has public men of integrity, sagacity and industry. The confidence of the electorate in the administration is alone needed to ensure the future of British Columbia, but without that confidence it is difficult for the most able government to carry on.

CLOTHIER TELLS OF MINING IN NORTH

George A. Clothier of the Mines Department of British Columbia, and resident engineer under this department for the northern part of the province, is staying in this city, says the Victoria Times. His home being in Prince Rupert Mr. Clothier is closely in touch with mining affairs in the Stewart mining district.

He believes the striking of high grade ore in No. 3 level of the Dunwell mines, to be a most important event, and establishes confidence in the Bear River section of the district. Development in this area will greatly aid the town of Stewart, which will grow in importance as a mining centre, he believes.

Stewart, however, is not the only camp of the North which will grow, Mr. Clothier states, and not the only district where there is immensely wealthy property. Capital and development are the only things needed to open up equally fine diggings at various other points, which will equal if not surpass those of Stewart.

INVESTIGATION IS PROCEEDING

(continued from page one)
involved would be produced in the form of vouchers. A copy of the final settlements between the construction company and the sub-contractors would be furnished.

Mr. Boyd said the ledger covering accounts between his company and another up to May, 1920, had disappeared and he did not know what had become of it. He explained that practically all the transactions contained in the lost ledger were covered by vouchers available.

DENMARK HAS FULL CONTROL GREENLAND

COPENHAGEN, March 3.—Negotiations between Norway and Denmark relative to the sovereignty of Greenland are likely to result in a friendly settlement of the dispute, according to the Politiken.
It is expected that Norway will acknowledge Danish sovereignty of Greenland, subject to non-interference by Denmark with Norwegian enterprises in the waters of Greenland and East Greenland.

TELEGRAPH MANAGER TALKS OVER RADIO

Tells of Development of System Until Today 1800 Offices Serve Public

OTTAWA, March 6.—The function of the telegraphs in the commercial and social life of the world formed the subject of an address by C. E. Davies, acting-general manager of the Canadian National Telegraphs, which was broadcasted last night from station CKCH, the Ottawa radio broadcasting station of the Canadian National Railways.

The development of the telegraphs from both the service and technical standpoints had been remarkable, Mr. Davies pointed out. Twenty years ago the words "telegram for you" carried a measure of dread as the use of the telegraphs was confined largely to matters of extreme urgency and life and death affairs, while today the telegraph is so closely interwoven with progressive business as to be inseparable. Thanks to the education and development work of the telegraph companies, the telegraph now ranks as possibly the greatest medium in doing business and is the greatest time saver known.

Describing the growth of the Canadian National Telegraphs, under which name the Canadian National Railways operates its telegraphic service, Mr. Davies stated that his company now serves Canada through the medium of 4,800 offices in Canada, by its connecting lines to 75,000 places in Canada, United States and Mexico; by operating more than 113,000 miles of wire carried on close to 23,000 miles of poles; and with the most extensive telegraph plant in Canada. "The management is looking forward to 1924 with optimism. Doing business in a country of unlimited potentialities, with a plant adequate to the needs, a corps of well trained employees, and enjoying the co-operation of the other departments of the railway, we feel that this year will be a banner year in the history of the Canadian National Telegraphs," Mr. Davies stated.

An intensely interesting address was given today at the Rotary luncheon by Dr. L. W. Kerwin on the subject of Insulin. He told about the discovery of a public building at Kamloops, B.C. Plans and specification can be seen and forms of tender obtained at the office of the Chief Architect, Department of Public Works, Victoria, B.C., the Clerk of Works, Department of Public Works, Vancouver, B.C., and the caretaker, Post office building, Kamloops, B.C.

SEALED TENDERS addressed to the undersigned and endorsed "Tender for public building, Kamloops, B.C.," will be received until 12 o'clock noon, Thursday, March 13, 1924, for the construction of a public building at Kamloops, B.C.

Each tender must be accompanied by an accepted cheque on a chartered bank payable to the order of the Minister of Public Works, equal to 10 per cent of the amount of the tender. War Loan Bonds of the Dominion will also be accepted as security, or war bonds and cheques, if required to make up an odd amount.
By order,
L. H. COLMAN,
Secretary,
Department of Public Works,
Ottawa, February 9, 1924.

NOTICE.

NOTICE is hereby given that tenders will be received up to noon on the fifteenth day of March, 1924, at the office of the undersigned, in the City of Prince Rupert, Province of British Columbia, for the purchase of the building situated on Lots 27 and 28, Block "F," City of Prince Rupert, B.C., and known as Alder's Flaming Mill, together with whatever material there may be on the premises.
Each tender must be accompanied by a cheque for the amount of the tender, the cheques of the unsuccessful tenderers will be returned immediately the building is disposed of.
Under the conditions of this sale it is necessary that the building be removed from its present site before June 30th, 1924, the lots to be left in a safe and sanitary condition, all debris to be removed and all excavations to be filled in.
The highest or any tender not necessarily accepted.
