# MASSETT GOLD PROJECT TO BE CONTINUED

## ROSS WATSON OF SEATTLE IS ON TRIAL FOR NANAIMO BANK ROBBERY

### Masset Gold Project Has Been Financed; Work to be Continued

Charles T. Cabrera arrived from Philadelphia with New Assistant Engineer for P. B. C. Mines

Returning from a four months' trip to Philadelphia and other Eastern centres, G. T. Cabrera, Massett mining engineer, announces that he was successful in obtaining further substantial backing for the project on which he is working of extracting gold from the black sands of Graham Island on a commercial basis.

Mr. Cabrera returned to the city on last night's train with Mrs. Cabrera who went East to meet him. They are registered at the Prince Rupert Hotel and will proceed to Massett on the next boat.

**DEPOSITORS IN HOME BANK TO RECEIVE CASH**

Mr. Cabrera, who was engineer-manager and one of the three owners of the P.B.C. Mines Co. operating on Graham Island, went to Philadelphia in March in the interests of the P.B.C. Mines Co., which company, he states, will soon be in operation but detailed information relative to their plans he is not at liberty to give out for publication at this date, except to state that they are of the best.

#### New Engineer

J. H. Robertson, M.E. accompanies Mr. Cabrera in the capacity of assistant engineer. Mr. Robertson has been engaged in mining in the Malay Straits Peninsula for over twenty years during which time he was manager of the Eastern Smelter Co. of Penang, the Royal Johore Mines Co., the Simpan Hydraulic Mines Co. and the Surrender Hydraulic Co. and other prominent mining operations in the Malays. During the war and up to the end of 1922 he was in the directory of research of the air minister in London, England where he was in practical charge of the research work relating to metal construction in aircraft.

The motion which appears on the order paper Monday says: "It is expedient to provide the sum out of consolidated revenue and to authorize the Government in council to raise by way of a loan such a sum as may be required for the purpose of making payment of the aforesaid."

### SEIZED BOATS RUM CHASERS

Several Now Held by Canadian Customs on This Coast May be Utilized

VICTORIA, May 30.—As a result of negotiations between Canada and the United States on the rum running traffic, the Canadian customs department has adopted the United States system of converting the seized rum sellers into rum chasers, it is disclosed by customs officers here.

The M.S. 22 was seized some time ago and turned over to the customs force while three other boats, the Ipalawa of Vancouver, the Eva B. of Seattle, and the Beryl G. now held by the authorities may be similarly utilized. An armed crew will man the M.S. 22.

### MILLION DOLLAR CO. IS INCORPORATED TO CONTROL STEWART MINE

VICTORIA, May 30.—The Dalhouse Mining Company, Ltd., controlling the Dalhouse Mining property near Stewart was incorporated today, the capitalization being million dollars. The claims which the company will develop were discovered some time ago by George Cameron and William Pratt, pioneer prospectors.

Advertise in the Daily News.

### POOR WEATHER CAUSES SMALL HALIBUT CATCH

Total for May was Less Than Same Month Last Year

During the month of May a total of 2,633,400 pounds of halibut has been marketed through the local Fish Exchange as compared with 3,368,800 pounds in April this year and 2,653,200 pounds in May last year. The fact that weather conditions on the banks, during the greater part of the month, have not been favorable probably accounts for the decreased catch during this past month. Prices prevailing during the month have been regarded as satisfactory, 17c having been the highest and 8c the lower for first class fish. High and low prices in May last year were practically the same.

Of the total of 2,633,400 pounds handled here during the month of May, 1,972,200 pounds was from American bottoms and 682,200 pounds from Canadian. Arrivals and sales today, the last to be included in this month's business, were as follows:

**American**  
Lumen, 13,000 pounds, at 13c and 5c, and Grayling, 12,500 pounds at 12.5c and 5c, to the Pacific Fisheries.

Brothers, 15,000 pounds at 13.2c and 5c, to the Booth Fisheries.

Ivanhoe, 15,000 pounds at 13c and 5c, to the Canadian Fish & Gold Storage Co.

**Canadian**  
Point May 6,000 pounds, at 11.5c and 5c, to the Canadian Fish & Gold Storage Co.

### AIRMEN ONLY WAITING FOR BETTER WEATHER

Vickers Viking Machine Will Take Off As Soon as it Clears up—Present Conditions General

The party which will fly north from here to the Cassiar gold fields on the Vickers Viking flying boat now moored at the dry dock are patiently waiting for a clearing up of weather conditions. Just as soon as this occurs they will hop off for the north. It is necessary that the weather be fairly clear for the machine is flown at considerable height—generally around 8,000 feet. The conditions now prevailing are general along the coast and may be worse in the north than they are here.

### Conflicting Evidence in Trial of Ross Watson on Charge of Complicity in Nanaimo Robbery

NANAIMO, May 30.—With part of the evidence before them, the jury having the fate of Ross Watson in their charge were relieved from duty last night until Monday morning to ponder over the evidence submitted to them yesterday in connection with the robbery of the Royal Bank here of \$12,000. One story adduced by the crown yesterday purported to identify Watson as the man who hired the car and as the man who carried the sack of money out of the bank.

Defense evidence told various activities of the accused man in Seattle on the day before and the day of the robbery. It will take another day to complete the defense alibi evidence, counsel for the prisoner intimated.

Crown witnesses who were in the bank at the time of the hold-up are positive that Watson was the man who helped himself to the money, put it in a white sack and left the bank with the rest of the gang.

**TERRIFIC SPEED AT AUTO RACES**

Spectators Numbering 125,000 Witnessed Event: 103 Miles an Hour

INDIANAPOLIS, May 30.—With fully 125,000 spectators at the speedway, 22 automobiles driven by the world's greatest drivers, started in a 500 miles race this morning with prizes aggregating \$100,000.

From the first lap a terrific speed was set for the completion of the 200 mile mark, showing an average of more than 103 miles an hour.

There were no serious accidents.

### Strike Demonstrators Fired on by Sikh Police at Shanghai and Four Killed and Three Injured

SHANGHAI, May 30.—Sikh police armed with carbines fired into a mob of three thousand Chinese students attempting to storm Louza police station today, killing four and injuring six.

The demonstration, which is attributed by the police to Chinese and Russian Bolshevik activities, was attempted as a protest against the conviction of Chinese strikers at the Japanese cotton mills.

At Tsingtao three Chinese strikers at the cotton mills were killed and a score injured when the police attempted to clear the strikers from the mill.

### Meetings Preparatory to Union of Churches Commence Next Week

Presbyterian General Assembly Begins Wednesday, others a week later; Union on June 10

TORONTO, May 30.—(By Canadian Press).—Preparatory to the consummation of church union and the first meeting on June 10 of the General Council of the United Church of Canada, governing bodies of the three denominations entering the new church are to hold their final meetings in Toronto in the early days of next month. Unionists and anti-Unionist Presbyterians meet together for the last time as an official body next week from June 2 to June 9, and then the continuing Presbyterian Church will proceed to organize itself in General Assembly along traditional lines.

In June there meet also representatives of the Methodist Church who are delegates to the United Council, augmented by 150 others prominent in the denomination; and on June 8 and 9, the Congregational Union of Canada. On Wednesday, June 10, all of the participants in these historic meetings with the exception of the anti-Unionist Presbyterians gather together to march to Massey Hall, where the new church will be born and consecrated and, for probably the two ensuing weeks, the united body of 350 delegates will labor with multitudinous and formidable problems of organization. Leaders of the churches will witness in this June the realization hopes of years and the fruition of mighty effort; but the stalwart company of anti-Unionist Presbyterians will go on broken in numbers but full of confidence and determination.

#### The General Assembly

The Presbyterian General Assembly meets in College Street

on the morning of June 10, and it is expected there will be present about 600 commissioners, of whom not more than 50 or 65 will be anti-Unionists. Special significance attaches to this assembly as it marks the completion of fifty years since the union of four Presbyterian Churches in 1875, and is the last assembly before the Presbyterian Church in Canada becomes part of the United Church of Canada. It is expected that several ministers will be present who have served for practically the entire fifty years, and that special reference will be made to the achievements of the church in that period.

At the opening session a sermon will be preached by Principal Clarence Mackinnon, retiring moderator.

From reports in different parts of the church it would seem that the new moderator will be Rev. Dr. George G. Pidgeon, minister of Bloor Street Church, Toronto, who has been for the past four years convener of the church union committee.

#### Church Union Reports

An outstanding feature of the assembly's program will be the report of the committee on church union. This committee has been in existence since 1904 and will now present its final report. This will contain an account of the last steps taken in the completion of union, the securing of appropriate legislation in the parliament of Canada and in all the provincial legislatures, and a statement of the results of the voting which has taken place.

The greater part of the time

(continued on page two)

### TOURISTS ARE NOW STARTING

Prince Rupert Brought in a Few This Morning Who Went East by Train

The tourist season is commencing and already a few holiday travellers are passing through the city. This morning, in addition to her regular local and Stewart list, the C.N.R. steamer Prince George had a number of tourists who proceeded East by train.

In July with the C.P.R. and C.N.R. each having a boat northbound or southbound in port every day and the Union Steamship Co.'s adding to the traffic with the steamers Cardea and Catafa, there should be an unprecedented volume of tourists visiting here.

In addition to the regular sailings, special trips are being arranged by both the C.N.R. and C.P.R., whole boats having already been sold out to large individual parties.

### JUMPED FROM TRESTLE TODAY

Seattle Laborer Ended Own Life on Second Attempt

SEATTLE, May 30.—Eluding two policemen who sought to restrain him, Norman Spaeth, 36 years of age, leaped 100 feet to death from a trestle here this morning.

On February 27 Spaeth jumped from the third floor of a hotel here but suffered only a broken leg.

### LAST POST SOUNDED OVER DEAD GENERAL

Sir Edward Morrison Buried today at Beechwood Cemetery

OTTAWA, May 30.—The Last Post was sounded over the grave of one of Canada's greatest soldiers this afternoon when the remains of Major General Sir Edward W. B. Morrison were buried at Beechwood cemetery while the guns of the first brigade Canadian field artillery fired a salute.

The funeral procession was one of the most impressive ever held here. The honorary pall bearers were all generals.

#### June Is Always Wonderful Month.

June is about here and that is the beginning of summer. James Russell Lowell, the famous American poet, wrote:

What is so rare as a day in June?  
Then, if ever, come perfect days.  
Then heaven tries the earth if it be in tune,  
And over it gently her soft ear lays.  
Whether we look or whether we listen  
We hear life murmur or see it glisten.  
Every clod feels a stir of might—  
A something within it that reaches and towers  
And searching blindly above it for light,  
Climbs to a soul in grass and flowers.

June is the month when summer is young and lovely. It is the time of year when we are looking for warmth and sunshine and the outdoor life and when all nature conspires to bring joy.

#### Modernists In The Church.

There is still a good deal of fuss being made in the East about modernists in the church. These modernists are the Nonconformists of today. They say it is not necessary to believe things that were set down as necessary hundreds of years ago. They openly scout adherence to many of the church usages and take it upon themselves to interpret scripture in their own way.

Of course there is danger in all this. Those who hold to the old beliefs say they do not mind the modernists preaching anything they wish as long as they do not use their churchés for the purpose. The difficulty is that in many cases the members of the congregation are as modern in their religious ideas as the new preachers.

#### Many Preachers Use Discretion.

Many preachers of today who agree with the new developments are wise in holding back from too much public expression. They say that it is necessary to carry the people along gently, gradually showing them the new path. They conform outwardly to the orthodox way and yet now and then the truth as they see it comes out and the congregation gets many a shock.

At any rate a great change is gradually taking place. New interpretations are being placed upon old things. New men with new ideas, new methods and a new spirit are taking hold.

Men of the type of Dr. Fosdik are the effervescences of modernism and not the thing itself.

#### Life Relieved By Sense Of Humor.

A sense of humor is the greatest thing in life. It saves men and women from wearing themselves away mentally or physically. It cheers them and lightens their labors.

Those who do not have a sense of humor grow old quickly and seldom really enjoy life. How can they? To be able to see the humor in serious things is a great relief.

Two men were out on a boating trip. They upset the craft, were soaked to the skin, were cold and almost hopeless, but the humor of the situation struck them. They began to laugh at each other and from that moment conditions improved. The blood began to race through their veins and very soon they were happy and comfortable. Verily humor is a great relief!

## The Partnership

They offered him a partnership if he could invest a little money. But he hadn't the money, and the opportunity was gone.

Don't let lack of money spoil the opportunity that may come to you. **Bank**. One dollar will open a Union Bank Savings Account.

985

## UNION BANK OF CANADA

Prince Rupert Branch - H. H. Little, Manager

#### MEETINGS PREPARATORY TO UNION OF CHURCHES COMMENCE NEXT WEEK

(Continued from Page One).

of the assembly will be devoted to hearing reports from the missionary, educational and benevolent agencies of the church, and to setting its house in order prior to the consummation of union. It is probable that distinguished representatives from overseas to the first General Council of the United Church of Canada will arrive in time to be present and address the General Assembly. Among these will be Professor W. M. MacGregor, D.D., Glasgow, former moderator of the United Free Church of Scotland; Rev. P. D. Thomson, D.D., Glasgow; Rev. Joseph Rorke, London, ex-moderator of the Presbyterian Church in England; Rev. R. K. Hanna, Dublin, representing the Irish Presbyterian Church.

#### Non-Concurrents Meet

In St. Andrews' Church on June 8 there will open a congress of non-concurring Presbyterians, to continue three days. It will be composed of three delegates from each congregation which voted against union and an equal number from each organization minority, and Rev. J. W. MacNamara, secretary of the Presbyterian Church Association, estimated that there will be between 1,500 and 2,000 men and women present, representing every province. There will be reports from key men in each section of the country, and inspirational addresses from prominent men and women. On June 11, when the original General Assembly will have been absorbed into the United Church, the non-concurrents will proceed to organize their own Assembly. Their commissioners in the old body will be augmented by ministers and elders who have been in attendance at the Congress, and for three or four days they will wrestle with their own problems of organization. Reports will be ready from provisional committees who have been working on details of organization, of mission work, education and other items of religious activity. It is the expectation that Rev. Dr. E. S. Scott of Montreal will be the first moderator of the continuing church.

#### Other Meetings

The Methodists who will meet morning and afternoon in Sherbourne Street Church on June 9 have no official authority, strictly speaking, but for all that they will be thoroughly representative of the denomination. The body will be composed of the 150 Methodist members of the General Council of the United Church, who were elected by the 1922 General Conference, and in addition an equal number of delegates chosen by the twelve annual conferences. On the general theme of "Consummation of Union" the delegates will hear reports on the events of recent years and outlines of plans for the future.

About eighty delegates will be present at Bond Street Church for the annual meeting of the Congregational Union of Canada on June 9. The program includes addresses by any men prominent in the denomination and the transaction of the regular business.

#### General Council Session

The General Council itself, when it meets on June 10 in circumstances of dramatic and historic interest, will consist of 150 Methodists, 150 Presbyterians, 40 Congregationalists and ten representatives of the Council of local union churches mostly from Western Canada. Meeting for the last time as Congregationalists, Methodists and Presbyterians, the representatives of those denominations will gather at a central place and march to Massey Hall, undoubtedly escorted by many hundreds of non-delegates eager to have a part in the ceremony.

#### MASSETT GOLD PROJECT HAS BEEN FINANCED AND WORK TO BE CONTINUED

(continued from page one)

mean the opening up of mining activity there. All of this will be of vast importance to Rupert as supplies, equipment, etc., would have to come from a Pacific city shipped in by rail to a base point and from thence overland to the new field. Rupert should get its share of this business.

Substantiating his faith in Canadian Mining, Mr. Cabrera has opened an eastern office in 407 Commonwealth Building,

Toronto, and a western office in Prince Rupert. In the Toronto office he has a staff of engineers as well as a financial department, which department is under the management of W. H. Fielden who received his early training as an employee of the Bank of England and who is well known in financial circles. The Rupert office will be under Mr. Robertson. The business is to be a mines engineering and contracting business combined with mines financing which department will in no way be connected with any stock sales deals but will act only as agent in securing funds for mine development and operations from syndicates of a private nature.

#### Mining Men Busy

In Boston, New York and Philadelphia activity in mining was quite in evidence marked by the almost total absence of the engineers in those cities. This of course means only one thing and that is that they are making extensive field investigations, sure indication of mining developments both present and future. Further the various brokers and mining interests were optimistically engaged in starting new enterprises in new mining fields and they also displayed intense interest in news relating to the mining sections of B.C.

Keep Thursday, June 4, open for the Yacht Club Regatta.

Kate Wesley, Indian woman, was fined \$10 in the city police court this morning for intoxication.

Harold Boyd, a well known commercial man of Calgary, is here today with his bride of a few days.

John Mitchell of Mitchell & Currie left on this morning's train to spend the week-end at Vancarsol where his company has a contract.

Victor Wright, Edmonton sign painter, is a visitor in the city. He arrived during the week from the East by train and will sail for Vancouver on the Princess Beatrice this afternoon.

Mrs. R. H. Gurd arrived on the Prince Rupert this morning from Vancouver on her way to Cassiar cannery where she will spend the summer. Mr. Gurd, who is an accountant at Cassiar, came in to town to meet her.

John McSwan of the Pacific Mills office at Ocean Falls arrived in the city on the Prince Rupert this morning to check up on log deliveries being made through here from Alice Arm to Ocean Falls.

COAL, \$14.50. "The Best." Double-screened Ladysmith-Wellington lump. Peerless Egg, \$11.00. Peerless stove, 12.50. No soot, clinker, little ash and no slack. Prince Rupert Coal Co. Phone 15.

D. B. Hopkinson, who was formerly a member of the staff of the local branch of the Canadian Bank of Commerce and who has more recently been at Mission City near Vancouver, was a passenger going north on the Princess Mary yesterday bound for Dawson where he will be stationed for three years.

LATE THOMAS O'BRIEN  
BURIED THIS MORNING

Service Took Place in Catholic Church and Remains Were Interred in Fairview Cemetery

The late Thomas O'Brien, who died on Wednesday afternoon in the Prince Rupert General Hospital, was laid to rest in Fairview Cemetery this morning after a service conducted by Rev. Father P. J. McGrath was held at 9 o'clock in Annunciation Church. Friends of the deceased assembled to pay their last respects and there were a number of floral tributes. Pallbearers were Sergeant Hugh McGlinchy, Harry Astoria, W. G. Fortune and J. H. Meagher. The B.C. Undertakers had charge of funeral arrangements.

## FINE DISPLAY MANUAL ARTS

Domestic Science Work of Girls  
 Shown at Booth School  
 Yesterday

### GOOD WORK OF BOYS

A great many visitors attended in the lower part of the Booth School yesterday afternoon to view a splendid exhibit of domestic science and manual training work done by the pupils of the public and high schools under the superintendence of Miss Elsie Hardig and D. Ross respectively. Tea was served by the domestic science girls under the presidency of Miss Evelyn Dalby, with Miss Mary Walters secretary. The rooms were very tastefully decorated for the occasion, the arrangements being in the hands of a capable committee.

The proceeds of the sale amounted to \$82.00.

In the tea rooms were stalls at which candy and home cooking made by the girls were sold, the money to go toward a fund for the furnishing of the dining room. The dressmaking department was the one that attracted most attention. It looked like the show room of a ladywear store. The dresses adjudged the best were displayed around the walls or on the tables. All sorts of work was seen, the product of many enjoyable hours of planning and serving. The training to the girls is invaluable and the amount of work produced is really wonderful. The exhibit this year is the largest ever shown here and it is a pity more people could not have seen it.

In connection with the booths in the tea room, the girls in charge did their own decorating and the results were excellent. The candy, sewing and home cooking stalls being particularly commendable. The girls in charge were:

### Booths

Candy—Convenor, Jean Grieve; assistants, May O'Brien, Doris Cawdow.

Sewing—Convenor, Kay Enny; assistants, Nellie Wilson, Hilda Olafson.

Tea room—Convenor, Ruth Dutton; assistants, Mary Walters, Olive Gordon, Helen Nuttich, Lois McRae.

Home cooking—Convenor, Virginia Riel; assistant, A. Spencer. Exhibits—Evelyn Dalby, Mary Walters, Ada Minzgohr, Mary Dowther Rhoda.

Decorations—Convenor, Lucy O'Brien; assistants, Dorothy Deane, Swans Olafson.

Woodworking Department

In the manual training department excellent work was seen, the feature being the dining room set being built by the boys of the second year High School for the domestic science department. The six chairs had been completed, the upholstering being done by the girls of the same class. The frame of the table and the almost finished sideboard were there and, when completed, they will be a permanent memento of Mr. Ross' regime and a credit to the lads who did the work.

In this department boats are featured. This being a seaport town the building of model boats is particularly appropriate. One feature that attracted attention was the design of a cruiser type motor boat made by Jimmie Donaldson of the first year High School. This young man has evident marked ability in the work. The boys who are making the furniture set are Norman Kinslow, Henry Heilbronner, Arthur Cade, James

Parker, Iso Katsuyama, Yoshi Katsuyama, Clarence Thompson and Arthur Cameron.

## LATEST SPORT ROPING BEAR

Three Presented to Cy Arnett  
 the Other Night; Captured  
 on 2nd Ave.

The latest out-door sport in the city is bear hunting without firearms and the originators of the game met with considerable success on Wednesday night when three fine specimens of black bear were captured on Second Avenue in the vicinity of "Goldie" Goldblum's store. Just how many hunters engaged in battle with the monsters is not known but it is conjectured it took at least three mighty nimrods to capture the triplicate bruins, allowing one man to each bear. It seemed easy enough to make the "kill" but the feat accomplished, the next problem was what to do with them. Knowing Cy Arnett's fondness for wild game, one of the party suggested that Cy might like to look them over but, being rather late in the evening, they did not care to arouse him from his well earned slumbers.

The hunters, however, determined that the dredge magnate should see the fine specimens of the chase so they decided to leave the three bears outside Cy's bedroom door. Upon Cy going out of his room in the early morning to get a drop of shaving water, and confronting the three beasts standing upon their hind legs—well Cy didn't need the shaving water after all as the whiskers popped back into his face with alarm.

Assertion in a sermon by the Bishop of Peterborough, Dr. C. C. Bardsley, that football players in England were "bought and sold almost like slaves," has stirred up a hornet's nest among Old Country sportsmen, who have rushed into print to deny the clergyman's contentions. The bishop, preaching at Leicester, said he regretted the extension of professionalism to football "which has done an awful lot to ruin our games." To this he added: "I seem to see football players being bought and sold almost like slaves, and human machines trained as gladiators. It is the ruin of club patriotism. Football is too great a game to be spoiled in this manner."

A. J. Darnell, of Northampton, president of the Southern League, among others, replied to the bishop, maintain-

ing that the statement comparing the transfer of football players to slaves was all "nonsense." "A player is a free agent," said Mr. Darnell, "and he may refuse or accept an offer as he sees fit. He receives, if transferred, a substantial proportion of the transfer fee, and it invariably means his promotion to a higher class of football."

Professional football players in England receive between \$30 and \$40 a week throughout the year.

League football will be resumed next Monday night with the opening game in the Mobley Cup, city league football competition series, between the Sons of England and the Canadian Fish & Gold Storage Co. The latter aggregation

will make its first appearance of the season except for the match last Saturday with Claxton when it was badly beaten. That defeat, however, is not regarded by supporters of the team as any indication that they will not be able to take care of themselves in the league. In fact the boys from Seal Cove present a collection of soccer material that should give a good account of itself.

The second soccer game

next week, Thursday night, will be between the two other teams in the league—Veterans and Gables, the latter winners of the

Stuart Shield.

The hunters, however, determined that the dredge magnate should see the fine specimens of the chase so they decided to leave the three bears outside Cy's bedroom door.

Upon Cy going out of his room in the early morning to get a drop of shaving water, and confronting the three beasts standing upon their hind legs—well Cy didn't need the shaving water after all as the whiskers popped back into his face with alarm.

Third Avenue.

Dated May 19th, 1925.

The waterfront business has been slightly interfered with by the Victoria Day holiday intervening on Monday last when the Fish Exchange did not operate and the other business houses were closed. However, the holiday has had little effect upon the volume of work carried out during the remainder of the week and a small thing like a holiday does not retard the fishermen or their colleagues very much. On Tuesday some 300,000 pounds of halibut was marketed on the Fish Exchange when prices for both American and Canadian landings dropped a few points.

While the weather man did not serve up a particularly brilliant brand of weather for the holiday, it might have been worse. In spite of several intermittent showers, the nautical fraternity and their families were astir early in the day and many of the schooners in port put out for distant points loaded with joyous fares of women and children.

Weldon McAfee of the Georgetown mill has taken over the management of the local office for the Bag Bay Lumber Co. in the absence of Ralph Le Pine, who, accompanied by Mrs. Le Pine, is taking a prolonged holiday in southern cities including Los Angeles.

**Don't Like Bread**  
If you should ever chance to be invited to join Messrs. Woods, Parr and Grindle, of Cold Storage fame, on a fishing expedition never by any chance take along such a useless food as bread or you may see unexpected trouble. The three aforementioned piscatorial wonders took it into their heads to go up to Woodworth lake over the holidays to hunt trout and upon arrival at their camp discovered, apparently much to their joy, that no one had brought along any bread. It is said that Billy wept with happiness while Fred broke into song when the discovery was made. The party left port in the Leviathan II. on Saturday morning and being unable to find an engine lying around loose decided to rely upon a three man power affair which worked well in spasms. At the conclusion of the first mile it was necessary to hove to and render first aid to Billy's hands which had become more or less marked with the beastly paddle. Dr. Parr saved the day by smearing the injured member with some bacon fat. The ship had not got much further on the course when Billy again distinguished himself by dropping his fishing rod and tackle over the side. However, a few minutes of fancy diving soon restored the missing article. Between Sunday morning and Monday afternoon one of the fishermen—the real culprit's name is not to hand—caught a half inch fish. In the fight for the fish the poor little thing got badly beaten up and only half of it was finally recovered. The party returned home on Monday night safe but empty.

**New Boat Launched**  
Cass Edwards' new 62 foot halibut boat has been completed in Vancouver and was launched on May 20. Mrs. K. Newell, of 119 Cordova Street, Vancouver, sponsor for the boat, officiated at the launching ceremony and christened the new craft "Emma K.". The Emma K., which is rated as one of the smartest boats on the coast, took the water splendidly.

**Battle Anniversary**  
Lest we forget. Tomorrow, May 31, is the ninth anniversary of the Battle of Jutland when the German high seas fleet was put to route by the British navy under command of Admiral Jellicoe.

**A Comfortable Boat**  
Doug Stork's power launch Sunbeam II. has been recently transformed into a very useful looking and comfortable cruiser. The observation cabin, formerly covered with canvas curtains, has been closed in with boarding and swinging berths have been installed which gives sleeping room for four full-sized persons. When the berths are closed up the cabin gives nice comfortable room for observation purposes through four large windows. In addition two persons can sleep in the fore part of the boat. The interior looks very inviting and with plenty of power Doug should be able to entertain royally during the amateur fishing season.

**LAND ACT.**  
In the Land Registering District of Prince Rupert, and situated on the north-west coast of Prince Island, B.C. approximately six miles north from the mouth of Winter Harbor, Pearya Island, lies a low water mark; thence northeast to low water mark one hundred and thirty (160) chains; thence northward sixty (20) chains; thence southwest one two (2) chains; thence southward one hundred and sixty (160) chains, more or less, to point of commencement and containing thirty-two (32) acres, more or less.

**GOSSE-MILLERD LIMITED.** Notice of Intention to Apply to Lease Lands. In the Land Registering District of Prince Rupert, and situated on the north-west coast of Prince Island, B.C. approximately six miles north from the mouth of Winter Harbor, Pearya Island, lies a low water mark; thence northeast to low water mark one hundred and thirty (160) chains; thence northward sixty (20) chains; thence southwest one two (2) chains; thence southward one hundred and sixty (160) chains, more or less, to point of commencement and containing thirty-two (32) acres, more or less.

GOSSE-MILLERD LIMITED, Name of Applicant.

Dated May 19th, 1925.

week end over at Metlakatla. The party left on Friday night aboard the launch Joy Bird, Capt. Cook returning to port on Monday night.

Capt. "Handsome" Jim Morrison has fished for the last time on the high spots and the famous schooner Gaygeon now has Capt. Oscar Young at the gadgets. Jim has joined the staff of the Geo. Bushby towing fleet and is master of the tugboat Tide Rip for the time being. We understand that Mr. Bushby will permit "Handsome" Jim to pose for the summer tourists at stated intervals in the interests of the port.

### The Latest Engine

The latest and one of the finest marine engines to arrive in Prince Rupert, and for that matter in the Dominion, is the 20 h.p. Denmark diesel engine, manufactured by the Hein Sonos Company to be installed in the new Haymoller trolling boat which is being built in the McLean yards. This engine is of the full diesel 4 cycle class and one of the most reliable crude oil engines on the market today. A feature of the engine is that it so well counter-balanced that it does not necessarily need to be bolted in a boat at all. The makers guarantee that it can be run at full speed on the stand unfastened and that it will not move a fraction of an inch. The vibration is therefore nil. The engine is now at the McLean yards and is causing a great deal of interest among local fishing boat owners.

Henry Carlson of Kitkatla is in port with his power boat Kathleen and is having considerable repair work done on her at the McLean yards. The hull is being entirely recaulked while re-planking and deck remodeling will also be carried out. The engine will also be rebed.

### Changing Engines

The power boat Wake, Capt. Clarke, is being powered with a Fairbanks 4 cylinder gas engine recently purchased from Dr. Sagar of Port Simpson. Dr. Sagar has taken the engine from the mission boat Northern Cross, Canon Rushbrook, who is putting in a new Standard medium duty engine.

Capt. Claude Keichum has recently overhauled the engine in his power boat Wigwam.

### Tugboat Busy

The tugboat M.T.S., Capt. R. Green, flagship of the Bushby towing fleet, arrived in port on Tuesday evening from Georgetown having in tow a scow load of fish boxes for the Pacific and Booth Fisheries. The tug has since left for Stewart with a cargo of pack horses and on her return south will bring a boom of loss from Wark Canal for the northern mill.

The schooner Lyskil, Capt. Peter Jensen, has been taken up on the dry dock pontoons to have her stuffing box and stern bearing fixed. Upon the termination of this repair work the Lyskil will cease fishing and will take over a contract with the Port Edward cannery.

Mrs. A. Claperton left on the eastbound train this morning for Cedarcroft to visit with Mr. and Mrs. Rohr. Wiggins in an effort to get rid of a bad attack of rheumatism.

### Out of Commission

It is announced that W. G. Welford, of boat building fame, is confined to his home suffering

## HEART TROUBLE SHORTNESS OF BREATH

Mrs. Geo. E. Bowman, Morrisburg, ont., writes:—"I am writing you a few lines to let you know of my experience with Milburn's Heart and Nerve Pills. Two years ago I became very poorly with my heart and nerves and whenever I took the least little bit of exercise my heart would start to jump and flutter. I could not walk up stairs without having to sit down and rest before I was half-way up, on account of my breath becoming so short. I commenced taking

## MILBURN'S HEART AND NERVE PILLS

and in no time I felt a great improvement, and can now heartily recommend them to all those who are troubled with any affection of the heart."

H. & N. Pills are for sale at all drug and general stores; put up only by The Milburn Co., Limited, Toronto, Ont.

## SHORTAGE OF STRAWBERRIES

**Crop in South is Failure on Account of Rain—Fresh Fruit and Vegetables**

The strawberry crop in the south this year is more than half a failure on account of wet weather conditions and what berries are arriving are coming in poor shape. It is expected there will be practically no B.C. strawberry jam pack this year and the market is going to be high. Local housewives will have to wait for Terrace berries for canning purposes. A good crop in the central interior is expected this year. The lowest prices will range from \$2.50 to \$3.00 per crate.

New vegetables are beginning to make their appearance on the local market. The tail end of last year's potatoes are now being cleaned up and new potatoes from Texas are on the market. Local rhubarb is also being sold.

Cherries, grapes and cantaloupes are also being offered now.

The flour market has advanced and it looks as though the upward movement will continue. Feed is also up \$1 per ton.

Raw sugar has advanced and local retail prices are due for a rise.

Retail prices prevailing here today are as follows:

**BUTTER**
