ELEVATOR ENGINEER IS ALREADY HERE

NEWTON ELECTED YESTERDAY AND FOUR LABOR ALDERMEN ON COUNCIL

Engineer Here to Supervise Elevator Says Work Should be Commenced in About Two Weeks

Here to supervise construction of the million dollar terminal grain elevator actual work on which will commence in about two weeks' time, W. N. Chater, representative of C. D. Howe Co. of Port Arthur, consulting engineers and designers of the plant to be erected at Prince Rupert, arrived in the city this morning. He will remain here for about ten months' time or until the elevator is in operation about November 1 ready to handle the 1925 grain crop from the prairies to the Pacific Coast.

**EXTRADITION
ROSS WATSON
WAS GRANTED**

Writ of Habeas Corpus to be Again Applied for by Counsel for Prisoner

WITNESSES REFUSED

SEATTLE, Jan. 16.—In a ruling in the Superior Court Judge Gilliam ordered Ross Watson to be held for extradition to Canada on the charge that he is one of the bandits who robbed the Royal Bank at Nanaimo of \$42,000.

Watson was denied the right to introduce seven witnesses to establish an alibi, who, his counsel, would prove that Watson was in Seattle at the time of the robbery.

Counsel will now go to the Federal Court with a renewal of the petition for a writ of habeas corpus to free Watson.

Counsel for T. H. Johnson, Wm. Bagley and Harry Stone, the other Nanaimo robbery suspects also held for extradition are applying for writs of habeas corpus by which they expect to keep their clients out of Canada for two years if not ultimately free them.

ON THE COAST**

Most Desperate Man on Atlantic Comes to Puget Sound

SEATTLE, Jan. 16.—Simultaneously with the news of the capture in New Orleans of "Si" Sowash, wanted in connection with the Beryl G. murder, comes the report that James Truitt, alias, Mawbray, reputed to be the most desperate hi-jacker that has been known on the Atlantic coast, has transferred his activities to Puget Sound.

**HI-JACKER IS
APPREHENDED**

Harry Myers alias Sowash Taken at New Orleans Completes List Wanted

VICTORIA, Jan. 16.—Word was received this afternoon that Harry Myers, alias Sowash, was wanted in connection with the murder of Capt. Gillis and his son on board the rum runner Beryl G. last September. He was arrested at New Orleans, his capture completing the apprehension of all persons implicated.

Interviewed this morning by the Daily News, Mr. Chater said that all that was now being awaited was the opening of the tenders at Ottawa on Monday next by the Department of Trade and Commerce and the letting of the contract for the foundations and dock. He expects to know on Tuesday who has been awarded the job. It will take about ten days for the successful contractor to get equipment on the ground and work will then proceed immediately.

The plans for the entire structure, Mr. Chater states, are now being completed by C. D. Howe Co. and tenders will be called for the superstructure about the middle of February. This contract will probably be awarded some time in March. In the meantime, work on the foundations and dock will proceed. The time limit for the foundation was originally set at April 1 and for the dock June 1. In view of the fact that the opening of tenders was delayed for seventeen days, however, it is now likely that the time limit for the completion of the work will be similarly extended. Foundation and dock work will be carried on concurrently by the same contractor, both works being included in the one tender. In any case, the elevator is to be completed ready for operation in time to handle the 1925 crop.

Imposing Structure

The elevator, which will be the most imposing structure on the Prince Rupert waterfront when completed, will have capacity for 1,250,000 bushels of grain. It is properly termed a terminal grain elevator. It will have both grain sacking and bulk shipment equipment as well as a drying house. The main building, known as the work house where the actual work with the grain is carried on, will be 200 feet high with base measurements of 95 by 60 feet. There will be 39 circular bins 90 feet high and of 21 feet diameter with smaller bins between.

Mr. Chater says that Mr. Howe will be here about February 1 to pay his first visit of inspection. At the same time, it is likely he will take up with the city the matter of making arrangements for power supply to the elevator which have not yet been finally completed.

The site for the elevator off the mouth of Morse Creek and all preliminary arrangements have, of course, been made.

WORLD RUNNER**

Captured Honors From Other Famous Foot Racers Today

NEW YORK, Jan. 16.—Paavo Nurmi was again victorious when he outran Willie Ritola and three other starters in the 3,000 metre running race. Nurmi won easily lapping all his rivals except Ritola who finished 65 yards behind. He shattered three world records in distances of 1 1/2 miles, 3,000 metres and 17-8 miles. The performance is regarded as astounding.

VICTORIA, Jan. 16.—The eight hour day board of adjustment orders the exemption of certain members in the interior lumber industry, baking industry, metal working and ship industry from the eight hour law. In all cases, however, overtime allowed workers is specifically provided so that the principle of the eight hour day may be observed.

Dominion More Powerful as Partner in Empire Than Are Small Independent Countries

LONDON, Jan. 16.—That Canada is more powerful and has a much greater influence in the world as a partner in the British Empire than does any nation of her size that is independent, was shown clearly by Right Hon. L. S. Amery, secretary of state for the colonies, in an address to the Canada Club here.

Mr. Amery showed how the Dominions had gradually evolved from colonies to independent nations, equal partners in the British Empire. Formal recognition of the process had been made at intervals but Britain, being a conservative country, had often lagged behind in that recognition. While insisting on the recognition of Canada by foreign nations she had often not accorded that full recognition herself, especially in little things. Now this was all changed. Today Canada was given all the recognition accorded independent nations and her representative was shown equal courtesies with those of other nations.

Speaking further of the status of Canada in the Empire, Mr. Amery mentioned her part in the Treaty of Versailles. While the independent lesser powers hung round the outskirts of the conference knowing little of what was really going on and having little influence in the decisions of the Big Four, Canada was consulted at every step because she was a partner in the Empire. She knew everything that was going on and no decision was

THE MAYOR'S THANKS

To the Electors of Prince Rupert—Please permit me to extend to my supporters in yesterday's mayoralty election, my warmest thanks for the whole-hearted support accorded me.

It is true I never anticipated such an overwhelming endorsement after the many trials and tribulations of a two-year continuous administration, which usually ends in dire wreckage, and for that reason I appreciate all the more, the apparent explicit confidence reposed in me, by such an unusually large majority.

You may depend upon it, however, that I shall still strive, even more diligently than ever, to use my very best endeavors towards a further fulfillment of what I deem to be only fair and beneficial for the mutual and very complex interests of this city, through your newly-bestowed confidence.

Under the new and more encouraging aspect of fuller council support, I shall strive to render you even increased public service during the year 1925, and in that way measure up to the fuller requirements of my new responsibilities.

Yours, with renewed thanks for past favors,
S. M. NEWTON.

Newton Re-elected by Larger Majority Than Ever; Labor Council

Seville Martineau Newton was elected mayor of Prince Rupert for the sixth term at the municipal election yesterday. He defeated his opponent, Ald. Theo. Collart, by the largest majority that has ever been rolled up for a mayoralty candidate in the history of the city. The total vote was also the heaviest that has ever been recorded in the city.

Perhaps the outstanding feature of the election was the success of the Labor candidates all of whom were returned with big votes. With the support of Mayor Newton which they will

continue his policies of the past, the Labor element will control the council for the next twelve months. Three of the Labor candidates headed the polls and the fourth came in sixth. Those elected in order were: William M. Brown, Ald. George B. Casey, John McKechnie, Ald. S. P. McMordie, Ald. R. F. Perry, Oscar Larsen, Ex-Ald. M. M. Stephens and Ald. J. Arthur Smith. The first four will serve two year terms and the last four, one year. Ald. Frank Clapp and Ex-Ald. George W. Kerr were the defeated aldermanic candidates.

The Labor candidate, James Coombs, was also successful in the contest for police commis-

sionership. Robert J. McCarthy was second and Ex-Ald. Alex. Mackenzie, third. W. O. Fulton, Ex-Mayor H. B. Rochester and Sydney D. Johnston were elected to the school board, Henry Smith being an unsuccessful candidate. Both money bylaws and the Cow Bay plebiscite were carried with substantial majorities. The detail of the voting was as follows:

Body of London Typist, in Three Sections, Found on Farm of Her Fiancee

CROWBOROUGH, Sussex, Jan. 16.—A gruesome tragedy was revealed here today when the body of Miss Elsie Cameron, cut in three sections, was discovered buried on the farm of her fiancee, Norman Thorne.

Miss Cameron, who was a London typist, disappeared early in December when she left her home ostensibly to visit Thorne. The latter joined in the hue and cry that was raised and wrote a letter to the newspapers saying: "Please just write me a line to remove the dreadful suspense. You must realize, dear, the intolerable agony your silence is causing."

Thorne has been arrested and charged with murder.

Regards his position in Italy as Impregnable—Admires British Methods

LONDON, Jan. 16.—Interviewed by a Rome correspondent of English papers, Premier Mussolini of Italy gave the impression that he regarded his position as impregnable and that power could not be wrested from him without a desperate struggle. Mussolini said he had introduced the British electoral system into Italy because he admired the British system and their methods of government. Italy was no more disturbed than any other country today, he asserted.

Elections Over And Business Calls.

Once more the elections are over and the Daily News extends its congratulations to the successful candidates. Those who are elected have a big year's work ahead of them. If this is to be the growing time, as we all believe it is, the interests of the city will need watching all the time both by the city council and by the educational and police departments. It is no sin to be elected to public office. It is an honor, but it carries with it much work.

There are always two big things to consider. One is to avoid running too deeply into debt and the other is to avoid dropping behind as a city. We have to be progressive and yet not extravagant. Doubtless this is the policy that will be followed, as it has in the past few years.

Why Are Women Not Considered Prominent?

Apparently women are not looked on as prominent citizens. When possible senators are being considered, women do not seem to be in the running. None have been appointed so far. Possibly the reason for the neglect is the fact that they usually do not control the purse strings. Money talks very loud, especially in politics, and the person without money does not usually get far.

Women do not often have much property or cash of their own. It is the men who do the business, although many rich people have owed their wealth to the saving habits of their wives. Women make men prominent but only a few become prominent themselves. They work in the background but their influence in the nation is just as great for all that.

Two Women Mentioned For Senatorship.

Two women are being mentioned as possibilities for the Senate just now. They are Mrs. Nellie McClung and Mrs. Judge Murphy, both of Edmonton. Both are well suited to the position, but the despatch which tells of the possibility adds that a man will probably get the position. The man in question is not known here, but the women both are. The reputations of Mrs. McClung and Mrs. Murphy have spread all over Canada. They are prominent citizens but not prominent enough, apparently to get the senatorship.

Punishment Delay Is Not A Credit.

It is not a credit to Canada to say that it took eighteen months to punish the murderer who was executed yesterday. It was shown that Chong Sam Bow of Vancouver murdered a white man in the summer of 1923 and yet it was only yesterday that he expired his crime on the gallows. That smacks too much of U.S. methods. An attempt is being made to delay the appeal of Dr. Boak but the appeal court has set itself against delay, stating that such was against the interests of justice.

Dogs A Nuisance In The City.

Complaint has been made to the Daily News that there are too many stray dogs in the city and that they are a nuisance. There seems to be justification for the complaint. Too many dogs are running at large around the streets and some are doing it contrary to law. It is particularly noticeable that there are more dogs to the square yard here than in any other city on the coast.

There are in the city many dog lovers and they would be the last in the world to wish the dogs to become a nuisance. If they are dog lovers, they are caring for their dogs and keeping them at home. To allow them to roam at will all the time is to have them become wild and unruly besides being a general nuisance. Possibly a hint of this kind will prevent the complaints going farther and resulting in any drastic action being taken which would be obnoxious to owners of canines.

BOULTBEE NEW PRESIDENT OF FARMERS' INST.

Following Election of Officers and other Business, Party Danced all night at Skidegate

BREAKFAST WALTZ 8 A.M.

G. H. Boultee is the new president of the East Coast Graham Island Farmers' Institute, his election taking place at the annual meeting held at Community Hall, Skidegate, recently. About 40 members were present from all up the coast and the election followed a big banquet. President Schaffer was in the chair and the event proved successful in every way. The complete list of officers follows:

President G. H. Boultee.
Vice-president, B. F. Roberts.
Sec.-Treas., G. D. P. Turner.
Directors: E. Richardson, Mrs. E. Richardson, Wm. Andrews.

The annual report showed that financially the condition of the institute was sound, there being a balance on the right side.

After a discussion of various matters of business which lasted two hours, the hall was cleared and dancing commenced, and continued throughout the night, the breakfast waltz being played at 8 a.m.

Eric Richardson, pianist, had charge of the orchestra.

Mrs. N. Schaffer and Mrs. G. D. Pitt Turner had general charge of everything and at the close were accorded a hearty vote of thanks.

In the Letter Box

A PIPE DREAM

Editor Daily News.

Seeing some arguments in some Old Country papers in regard to Canada wanting separation, I must here say there is no force in the world so strong as the national spirit. It has a firmer and deeper grip on men's minds than anything else. Just as love was the first principle of family life and faith was the first principle of religion, so is the national spirit essential to the state. A national spirit is a force and is just as good to the state as it is to good government.

If our people in Canada were imbued, as they ought to be, with the true national spirit, with a true feeling of loyalty and of working for their fellow men and if we are a people deserving of any trust or any confidence at all, surely the day is not far distant when we will be trusted with the management of our own affairs in Canada. The present position, to my mind, is anything but satisfactory. The result will be that the affairs of Canada will drift more and more into the hands of professional politicians, the men who live by stirring up bad feeling and strife and agitation and draw most of their power and most of their votes from the people.

We are not Canadians at heart or have the welfare of the country at heart but by sheer

force of circumstance the day is not far distant when there must be some devolution of Government. Then would be the opportunity for Canadians to see the franchise was so restricted that the people who got in power represented the country and the people in the country, not representing the Old Country. There has been so much of that in British Columbia lately. We must all join together in one Canadian spirit and the building up of our good Canadian town and our national spirit as Canadians.

ROBERT HANNA, D.S.F. Union.

WILL USE AIRPLANES GUARD BRITISH COAST AGAINST SMUGGLERS

First Attempt Ever Made to Patrol Whole Shoreline is to be Attempted

LONDON, Jan. 15.—Hundreds of miles of lonely stretches along the coastline of England and Scotland will shortly come under the eagle eye of the revenue department focused from the skies in an airplane. A fleet of machines has been added to the existing equipment to protect the northern and eastern Scottish coasts, long suspected of being the favorite stopping off places of international smugglers.

Patrolling the long coast line surrounding England, when almost every section is within a day's run from countries producing dutiable goods, has always been a problem for the British government except for the few intervals when the Liberal Free Trade party occupied Downing Street. In Victorian days only in the populous sections was any permanent endeavor made to guard the coast line against smugglers. Revenue ships often made circuits of the island, or bustled themselves in some locality suspected of harboring defaulters against Her Majesty's rightful duties, but daily patrolling of some 3,500 miles was not even attempted.

Here's for the transparent.

This Lassie Has Her Colds "Rubbed Away"

The mother of this attractive little girl, Mrs. E. E. Emmons, of 215 Seventh Ave., N. E., Portage La Prairie, Man., is one of the many Canadian mothers who are enthusiastic about the vaporizing salve, Vicks VapoRub, for treating children's colds. Mrs. Emmons writes: "My little girl had croup at night pretty badly and Vicks did her a lot of good. I have also used it with very satisfactory results for head and chest colds."
Vicks is just "rubbed on" for sore throat, tonsillitis, bronchitis, croup or deep chest colds. When so applied, Vicks has a double direct action; internally medicated vapors are inhaled while, at the same time, externally, it is absorbed through and stimulates the skin.

A BAD COLD DEVELOPED INTO BRONCHITIS

Mrs. Levi Ogden, Amherst Shore, N.S., writes: "My baby girl had a very bad cold which turned to bronchitis, and she could not sleep at night for the coughing. I gave her everything I could think of to relieve her, but nothing seemed to do her any good, and she was not getting any better. I was advised, by a friend, to try

DR. WOOD'S NORWAY PINE SYRUP

I did so, and after giving her a few doses I saw good effects so I kept on with it. I gave her two bottles, and her cough soon left her, and now she is as well as can be. I cannot praise Dr. Wood's enough; it is certainly a wonderful medicine."

This preparation has been on the market for the past 35 years; manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

OLIVER BACK FROM OTTAWA

Talks on Result of Conference at Capital on Railway Matters

VANCOUVER, Jan. 16.—Construction of a railway into Peace River from some point on the Canadian National Rly. east of Brule Lake will furnish the solution to the Peace River's long standing transportation problem, according to Premier Oliver, who returned today from Ottawa. He stated that he was somewhat disappointed with the railways attitude at Ottawa. "They promised to put the cards on the table but did not do so," he asserted. He had hoped to see the P.G.E. become a part of the system but that seemed impossible. Meaning there is nothing new regarding the disposal of the P.G.E.

PUT DEMOCRATS ON THEIR FEET

Franklin Roosevelt Making Efforts to Rehabilitate the Party

WASHINGTON, Jan. 16.—(By Canadian Press) — Domestic chiefs and politicians generally are stirred up over a movement to reorganize the democratic party and rehabilitate it in preparations for the 1926 congressional campaign and the presidential campaign of 1928. Franklin D. Roosevelt, who was candidate of the democrats for vice-president in 1920, has begun the movement and is sending out a communication to leading democrats for the purpose of exchanging views. This is expected to lead up to a national conference.

Importance of the movement lies in several phases of it. In the first place, Roosevelt is a Smith leader but he is enlisting Smith men, McAdoo chiefs, and democrats of various stripes, with the exception that the most radical democrats are being left out. For instance, it is said democrats of the type of Senator Wheeler who went out of the party in the recent campaign are not being encouraged.

If Roosevelt can succeed in his plan, the democratic party may get on its feet again and make a formidable showing two years hence. Democratic leaders insist they will then carry Congress.

Moreover, the movement is proceeding on the theory that the third party movement will either be dropped or will not become formidable.

In a practical way, it is proposed to put the finances of the democratic national committee on a sound basis; to energize the democratic national organization and have a year round campaign, especially in respect to publicity, speech making and the use of the radio; to have the national and state organizations constantly co-operate and watch closely over the special elections as they come up. It is not proposed to oust Democratic National Chairman Shaver, though this has been suggested.

Six-Day Trip from Metlakatla to Victoria on Old Steamer Barbara Boscowitz in Verse

(By C. Harrison)
 It took about six days for the Barbara Boscowitz to make the trip from Metlakatla to Victoria as she called in at every place on her way down wherever she could pick up any freight. I was one of the passengers that made the trip to Victoria the same time that the deputation to settle the troubles at Metlakatla commenced their journey homeward, having nothing else to do, the following medley was composed, and as it has never yet been printed, it may be of interest as it gives a full and clear description of the coast line and the Sounds that the vessels have to pass by and through on their voyage either up to or down from Prince Rupert. I will give it just as it was written in the year 1884.

Oh Barbara! My heart did wait and yearn
 For thine appearing—and thou didst appear
 And take me to thy bosom—and now, when,
 When shall I see the last of thee? Oh
 Man, they name is fickleness!
 I sat and gazed
 Day after day, on Metlakatla's shore,
 Out seaward, towards the distant isles that rose
 Hazy and dim from out the shimmering waves,
 Till, one bright evening, brighter hope came up
 As from the under world—then forth I flew
 With bag and bundle, in the Bishop's boat
 To meet the sylph-like form that dancing came,
 Yet not too fast, to hear me far away.
 Day set on Metlakatla's steep;
 And shookum house where captives weep,
 And Tugwell Island lone,
 The Mitre banner broad and high
 Above the belfry, toward the sky
 In yellow lustre shone.
 The steamer's started! Fire, ye brave
 The gun ye did from Duncan save;
 Wave Mission house, they kerchiefs wave,
 And brandish your embroidery.
 Merrily, merrily, out of the bay,
 Bumped on a rock as we steamed away,
 The gentle captain was ready to swear
 But for the parson who stood by him there.
 The prayer bell tolls the knell of parting day;
 The Boscowitz winds slowly o'er the sea;
 The deputation homewards plods its way;
 And leaves the Mission not to T. and D.
 (i.e., the Beys, Tomlinson and Duncan.)
 Now fade the bathing vans right out of view
 (i.e. Indian's houses)
 And all the boat is bathed in solemn peace,
 Save where the engine gently turns the screw,
 And squeaks the steering gear for want of grease.
 Barbara goes gently steaming
 Down the coast, like mermaid dreaming,
 Stretched upon the sunlit ripple,
 Dreaming of the endless people
 That might find full occupation
 In those forest reclamation,
 From the mountain's snow-flecked summit,
 Down to where the sailor's plummet
 Close beside the rocky bank, or
 Shore, can find no place for anchor;
 Up and down, on rock and mountain,
 Bending o'er brown tinted fountain,
 Dipping into lake and feeder,
 Everywhere 'tis spruce and cedar,
 Where no human foot has stood,
 Everywhere 'tis wood, wood, wood,
 By these labyrinthine seas,
 Everywhere 'tis trees, trees, trees,
 In and out we're ever sailing,
 Channels that there's no detail in;
 Channels broad and channels narrow,
 Channels straight as any arrow,
 Channels like a serpent winding,
 Somehow still the right way finding.
 Four days on my Boscowitz,
 Steadily and gently flits—
 But on every side the forest
 Gives the weary gazer no rest.
 Oh, for a peep of verdure green!
 Oh, for a vista the trees between!
 Oh, for a glimpse of some open prairie,
 Dancing green or woodland fairie!
 For the abounding eyes here surely,
 Can misport themselves but poorly,
 Where some thousands of trees stand up to the aere,
 The fairies must be as sedate as a quaker.
 Oh, these endless trees, the whole landscape clothing
 Almost turn wonder at last to loathing.
 Queen Charlotte's been silent
 This many a year,
 And yet the Sound is a Sound of fear,
 And not at all like music—
 Unless it be music deprived of its head,
 Ah, yes, that is like to this 'S and of dread
 For that like this makes us sic,
 Groans idle groans, I well knew
 what they mean,
 Groans from the depth of some marine despair,
 Rise from beneath and gurgle in the throat,
 In thinking of the meals that are gone by
 And looking on the waves o'er which we float.
 In Barbara's arms as I lay a-dreaming,
 Methought—nor was it all idle seeming—
 That Ursa Minor from above
 Came down my patient heart to prove,
 And truly it was she—
 I heard her mid my raiment fumbling,
 And to herself all gently grumbling
 In youthful jollity;
 Now had it been Ursa Major
 My last dollar I'd willingly wager,
 I could scarcely have cared to engage her;
 But this little bear I scorned to fear—
 By the back of the neck I caught her quick
 And chucked her out of the door
 Like a naughty child, "without-ing" wild
 She sat on the cabin floor,
 By that I knew, though my dream was true
 'Twas no genuine constellation,
 For the true Ursa Minor, that heavenly shiner
 Would scorn such ululation;
 And the tail of the bear that abides up there
 The Polar star includes—
 While this Brunette, has a tail you may bet,
 Scarce an inch and a half protrudes,
 Did Barbara bear but be bar-

barous barber,
 He should shave the bear so bare,
 That her gentleman owner would sadly bemoan her,
 And wish she had never come there.

The postscript bears, 'tis widely known,
 The gist of every letter,
 So this in sympathizing tones,
 Asks kindly, are you better?

(Editor's note—This is the fifteenth of Mr. Harrison's series of articles. The sixteenth will appear in an early issue.)

SMITHERS

Bulkeley Lodge, No. 30 L.O.O.F. held their installation of new officers at their last meeting. Those elected being: Noble Grand, Matthew Norton; Vice Grand, B. M. Robinson; Secretary, A. E. Campbell (re-elected), Treasurer, R. W. Champion.

The appointments made were: Warden, W. N. Goheen; conductor, J. H. Kelly and chaplain, Jas. Porteous. Reginald L. Gale, the retiring Noble Grand will occupy the Junior Past Grand chair for the next term.

The Rebekah Lodge held another of their pleasant card drives on Wednesday night, a good crowd of whist and bridge enthusiasts turning out to make the affair a success.

The winners at whist were Mrs. Birnie and W. Lamb, and at bridge the prizes went to Mrs. G. Wall and S. Bennett. After the games were finished a dainty supper was served before the guests departed for their homes.

Chas. Wilson of Lake Kathryn who contracted to put up the ice for the Booth Fisheries of Prince Rupert has completed his job and has the three large ice houses filled to the roof with an extra good quality of ice. Mr. Wilson kept a large area of ice scraped clean from snow and the ice is very clear and about 22 inches thick. He had a large crew of men and teams at work and put up over 5,000 tons in eight days.

A GOOD WAY TO INCREASE BUSINESS

Many advertising messages fail to attract attention because they are either unattractive or are too stereotyped.
 This is the opinion of one of our busiest and most successful business firms—Albert & McCaffery, Ltd. They have succeeded in interesting many new customers in the story of the famous Nanaimo-Wellington coal and since the coal itself lives up to its reputation these customers are coming back daily for more. Nanaimo-Wellington coal is the premier fuel for the fireplace, range and furnace. More heat—less ash—no rock or clinkers.
 You should try Nanaimo-Wellington as soon as your present supply gets low. Better still, if you order some now you can test it out with the coal you are now using. Nanaimo-Wellington stands supreme when a comparative test is made.
 To secure a supply phone Albert & McCaffery Ltd., who are sole agents here. Their phone numbers are 116 and 564. If

BILIOUS AND SICK HEADACHES ARE CAUSED BY CONSTIPATION

Once you allow your bowels to become constipated you will become troubled with bilious and sick headaches, and for relief you must help your liver to remove the poisonous bile that is circulating in the blood and upsetting the entire biliary system. For this purpose there is no other remedy so equal.

MILBURN'S LAXA-LIVER PILLS

Mrs. L. G. Nethercott, R. R. No. 1, Ceman, Ont., writes:—"I was awfully troubled with constipation, and sick and bilious headaches accompanied with severe vomiting spells which made me very miserable. I tried different remedies, without relief, but since taking Laxa-Liver Pills the headaches and constipation have disappeared, and I am very thankful for what they have done for me."

For sale at all druggists and dealers; put up only by The T. Milburn Co., Limited, Toronto, Ont.

NORTHERN TURNIPS PARTICULARLY GOOD

Vancouver Paper Comments on Quality of Produce From Woodcock

The Vancouver Province which arrived today says:

With potatoes high many people are taking to other vegetables as a substitute. Turnips are being favored more for table use and at a price to the retail trade of around \$30 a ton are being more sought after. Turnips on the track at Vancouver are bringing around \$25 a ton, but some specially good swede varieties, brought in from Woodcock, about ninety miles east of Prince Rupert, are much higher. The wholesale price to the retail trade for this class of turnip being quoted at \$3.00 a sack.

The turnips were sold in Vancouver by Sid Thompson during the Christmas holidays when he visited that city. It is the third shipment made by him this season from Woodcock and Cedarvale.

CANADIAN WINNER IN FROM ORIENT

C.G.M.M. Vessel Spent Night in Port and Proceeded to Swanson Bay to Load Lumber

C. G. M. M. steamer Canadian Winner, Capt. N. P. Hoeking, arrived here from Shanghai last night at 7 o'clock to enter and clear and, after spending the night anchored in the harbor, sailed at 8 o'clock this morning for Swanson Bay where she will load one million feet of lumber for Boston, later going to Vancouver and the island to complete cargo.

Capt. Hoeking reported a fast and uneventful passage of 21 days across the Pacific Ocean from Shanghai. The vessel is light. She was picked up at Triple Island by Capt. E. McDuckie and piloted in here and thence to Swanson Bay.

John Barrymore in "BEAU BRUMMEL"

A gorgeous screen presentation of Glyde Fitch's famous play of that name. The absorbing story of the famed Beau, dandy, arbiter of fashions and wrecker of fair ladies' hearts. John Barrymore, a superb figure himself, as the insolent, infinitely witty, handsome, most picturesque figure in the social history of England. A great impersonation of a great personality who insulted princes, had three hairdressers at one time to fix his hair, fought off the army of admiring women after bits of his hair, had the soles of his shoes polished, who was a dandy because he had a broken heart. A great star! A great play! A great cast!
