## COOLIDGE OUTLINES POLICY OF THE U.S.

### PRESIDENT INAUGURATED TODAY AT WASHINGTON BEFORE HUGE CROWDS

#### Coolidge Makes Pronouncement On Many Matters Affecting both International and Domestic Policy

**Opposed to Armaments to Preserve Peace but Favors International Friendship and World Court**

**IS OPPOSED TO PUBLIC OWNERSHIP**

**Would not Overtax Big Incomes but Would Make Chances for Everyone Better**

WASHINGTON, Mar. 4. — The following are outstanding features of the Coolidge policy as revealed in the President's inauguration address today:

- Promotion of international peace "through friendship and goodwill, through mutual understandings and mutual forbearance."
- Opposition to the policy of competitive armaments.
- Denunciation of the theory that "enjoyment of peace could be maintained only by a threatening array of arms."
- Encouragement of and participation in frequent international conferences and calculations.
- Adherence to a permanent court of international justice.
- Non-interference in political affairs of the old world.
- Maintenance of the United States position of political detachment and independence.
- Opposition to any form of public ownership.
- Economy in public expenditures.
- Reduction and reform of taxation, with the imposition of taxes which are not absolutely required.
- Opposition to high rates on big incomes in order "not to destroy those who have already secured success, but to treat conditions under which everyone will have a better chance to be successful."
- Continuation of the policy of restrictive immigration and protective tariffs.
- No inquisition either within or without the law to be permitted to apply to any religious test to the holding of office.
- Development of waterways and natural resources.

#### PUGSLEY DIES AT TORONTO

Former Premier New Brunswick Was Later Minister Public Works for Dominion

TORONTO, Mar. 4. — Hon. William Pugsley died last night of pneumonia after an illness of two weeks. He was born 75 years ago and occupied many prominent positions. The latest activity was as chairman of the committee for adjusting claims of Canadians for reparations against Germany. He was on his way west to hear claims when he was stricken with the illness from which he failed to recover.

The death of Hon. William Pugsley removes one of the best-known figures from public life in Canada. In the political, legal and social worlds he occupied a position of prominence but it was perhaps in the political arena that he won highest honors. His political activities were not confined to his home province of New Brunswick, where he ultimately rose to the position of Prime Minister, but he achieved distinction in the Federal arena as a staunch supporter of Sir Wilfrid Laurier. From August 29, 1907, when he was sworn in as Minister of Public Works in the Laurier Government until October, 1911, when that administration went out of office, he took an active part in the government of the Dominion.

Hon. William Pugsley was born at Sussex, N.B., on Sept. 27, 1850, and educated at the common school there. He graduated B.A. at New Brunswick University in 1868, was Gold Medalist in his junior year, and took a number of scholarships. He was called to the New Brunswick Bar on June 27, 1872, and was made a Queen's Counsel in 1891.

#### In Provincial Politics

His entry into the field of provincial politics took place in July, 1885, when Mr. Pugsley was returned to the New Brunswick Legislature on the death of the sitting member, Dr. Vail. He was re-elected at the general elections of 1886 and 1890. From March 1887 to May 1889 he occupied the position of Speaker of the Legislature, and in the latter year was appointed solicitor.

A White House secret leaked out recently when it was discovered that President Coolidge had a real hobby horse and for a month he has been riding three times a day. Here is shown a similar electrical contrivance.

#### Coolidge Inauguration Today was very simple Huge Crowds Attended

WASHINGTON, March 4. — (Associated Press.) — President Coolidge was inaugurated today with one of the simplest ceremonies of a hundred years. Almost at the same time Vice-President Dawes also took the oath of office.

For the first time not only the thousands who gathered in Washington heard a president deliver his inaugural address, but millions throughout the United States and probably many elsewhere, heard the address by radio. President Coolidge spoke to probably the greatest audience, seen and unseen, that ever has been addressed by any man in the history of the world.

With all its studied simplicity and lack of display, which was at the express direction of the President, the ceremony was in marked contrast with the events of 19 months ago, when roused from sleep by news of the sudden death of President Harding, Mr. Coolidge took the oath of office administered by his father in the glow of an oil lamp in a Vermont farm house.

**Renewed Oath**  
 The only vice-president since Roosevelt to succeed to the office by popular election, President Coolidge renewed his oath before Chief Justice Taft, the only president to take it before a former president. The ceremony was the traditional one, and was carried out on a platform built at the east front of the Capitol, before the great steps leading to the entrance at the middle of the building, a spot selected in the historic compromise of generations ago when the House and Senate each contended that the inauguration should take place within its own precincts.

While Congress was winding up its eleventh hour business, the official congressional communique (continued on page 5)

#### Canada Approves Treaty with States to Prevent Smuggling and Drug Traffic on Boundary

OTTAWA, March 4. — The House of Commons yesterday expressed its approval of a treaty concluded between Canada and the United States the first aim of which is the suppression of smuggling operations and illegal drug traffic along the international boundary and the second enlarges the list of extraditable crimes by including crimes against the law for the suppression of the traffic in narcotics.

During the discussion it was intimated by Hon. Jacques Bureau, minister of customs, that he intended to ask the House for authority to provide a special squad of men not subject to the civil service commission who will be especially qualified to work for the suppression of smuggling.

**JUROR WAS DEAF**  
 VANCOUVER, Mar. 4. — The new trial granted to Dr. Book of Victoria was on the ground that one of the jurors at a previous trial was deaf.

#### Hazelton Delegation Here to Confer on Route to Peace River Urging Support via Peace Pass

To confer with the Prince Rupert Board of Trade and, if possible, decide on some line of concerted action with respect to representations regarding the outlet for the Peace River district which will be for the benefit of Prince Rupert as well as the interior district from which they come, a delegation consisting of Dr. H. C. Wrinch, M.L.A., G. H. Sawie, George Reirnes, W. S. Sargent and P. Corrigan arrived from Hazelton on this morning's train. This afternoon they are meeting the Board of Trade and they expect to return to the interior on this evening's train.

Speaking to the Daily News this morning, Dr. Wrinch declared that there was a perfectly feasible route from the Peace River with its outlet at Hazelton and with Prince Rupert its Pacific shipping point. It was true that the route to Hazelton would be longer and would cost more than routes further East but it would open up a country rich in mineral and agricultural possibilities such as the Omineca and Ingenika valleys. Another feature of the Hazelton route would be that it would be within 40 miles of the potential Ground Hog coal fields. The route to Hazelton would be through Peace River Pass.

Some members of the Hazelton delegation came armed with a great deal of personal knowledge of the nature of the country through which their proposed route would lead.

#### BRITISH LABOR OPPOSED TARIFF

VANCOUVER, Mar. 4. — Following repeated adjournments during the past four months the charge of murder laid against John O'Grady, private detective, was dismissed today.

In dismissing the accused, Magistrate Shaw said there was nothing in the statement that Mrs. Violet Carr admitted as evidence to show that O'Grady administered to her bichloride of mercury, from which she died.

#### WORK OF LIBRARY KEEPING UP WELL

During the month of February the public library loaned 3,293 books or an average for the month of 133 daily. This is compared with a total of 2,601 last year or an average of 104 daily. #### JAMES CRONIN DIED SPOKANE

Well Known Mining Man Was Owner of Famous Babine Bonanza Mine

SPOKANE, Mar. 4. — James Cronin, aged 72, a pioneer mining man of the Pacific Northwest, died here. He resided here for the past 20 years and in recent years spent considerable time developing the silver-lead mines in the Babine Mountains of Northern B.C.

Mr. Cronin, who is particularly well known at Smithers, was the owner of the famous Babine Bonanza, north of the Canadian National Railway and about 80 miles from Telkwa. Development work had been done on it regularly for the past fifteen years and only last fall it had been examined by mining men with a view to purchase. The difficulties of transportation prevented its development.

#### CALL TENDERS NEXT MONTH

Foundation of Elevator Supposed to be Completed by April 15

Foundation work for the terminal grain elevator being erected here is to be finished by April 15 and about May 1 the erection of the superstructure, which is the really big job, should commence. Tenders for the superstructure will be called during April when the foundation work is nearing completion.

The wharf is to be completed in June. Gravel filling will take nearly two months' time and, when it is completed, pile driving will commence. The work on the wharf will not interfere with the erection of the superstructure.

Work on the excavation, most of which at the present time is between high and low water marks necessitating operations being carried on between tides, is proceeding satisfactorily as is also the towing of gravel from McNicholl Creek to the elevator site. Some 25 men are now employed on the excavation work.

Canada leads the world in automobile exports in proportion to production, domestic sales or ownership of motor vehicles or to population. Not relatively but absolutely the automobile exports of the Dominion are only exceeded by those of the United States. Since 1920 the motor vehicle exports of Canada have nearly doubled, the increase being from 9.8 per cent to 17 per cent of the automobile export trade of the world.

A special train of forty-two cars, containing nearly 900 head of stock for export to Great Britain, arrived at the Canadian Pacific Railway's East End stock yards, Montreal, recently. These, added to shipments from Packerham, Ont., Toronto and other points in Ontario and Quebec, made up what cattlemen claimed to be the greatest concentration of Canadian cattle for export in the history of the trade. From the yards the cattle were shipped by special train to the ship's side at St. John, N.B.

When the round-the-world cruise passengers aboard the Canadian Pacific steamship "Empress of France," reached Egypt recently, they were entertained by Enani Khattab, a prominent sheik holding authority over a large number of villages along the Nile. Unfortunately, the sheik succumbed to a sudden attack of heart failure. The visitors from across the Atlantic before returning to their ship were permitted to attend the funeral, which was conducted in the desert with weird and impressive religious rites, an experience few world-travellers have known.

"Not long ago I saw an ad in the street car, 'Soaking takes the place of rubbing'. The next day I sent for a package of Rinso and tried it. I was delighted with the result and now wash my children's clothes without any effort whatsoever - they soak themselves clean in the Rinso suds. I just had to write and tell you how 'wonderful' I think Rinso is and have told several of my friends to try it.

"It is wonderful for scrubbing floors. Without a doubt the best thing I have ever used. I also cleaned my enamel sink with it and it is splendid."

The foregoing letter is but one of the many received by the makers of Rinso from women who are enthusiastic about this newer, easier, better way to wash and clean—the Rinso way.

ANGLICAN SOCIAL AT TERRACE SUCCESSFUL

TRIED TO GET WHALE WHEN HAND LOGGING

SKIDEGATE, Mar. 4.—Every man to his trade is a maxim that Charles Valley is advocating here.

Mr. Valley is a hand logger and is not an adept at whaling, neither has he the outfit with which to capture the leviathan of the deep.

One day the whale blew just opposite them and they got a whiff of the vapor that came from the blow.

The boys were convinced that this particular mammal had a secretion of ambergris inside his big carcass and they laid plans to get him.

Mr. Valley would like to have related how the point of the log pierced the side of the whale and how they found a piece of ambergris worth ten thousand dollars or thereabouts.

Mr. Valley and his partner decided that their hand loggers' license did not include whaling and that from henceforth they would stick to their trade.
