#### President Coolidge Tells Women's Conference That United States Can Take Lead in Armaments Moderation

WASHINGTON, Feb. 23.—Proportionally as nations make progress in creating effective tribunals for the peaceful settlement of differences they will find themselves able to lessen their military establishments, President Coolidge told the women's conference on national defence. He did not mention a pending move for an armaments conference.

Mr. Coolidge declared a country so powerful in numbers, wealth and in possessing such fortunate location as the United States could pursue a policy of moderation in armaments and could invite other nations to do likewise.

#### Asking For Itinerary of United States Fleet on Forthcoming Visit

MELBOURNE, Australia, Feb. 23.—In the absence of official communication, Premier Bruce asked Washington for the itinerary of the United States fleet on the forthcoming visit to Australia. It is expected the government will spend £20,000 entertaining American sailors.

#### Car of Season Shipped Out by Cold Storage Co.

#### SKIPPER WAS ILL

The Canadian Fish & Gold Storage Co. will ship out on tonight's train the first express refrigerator carload of halibut from the east from this port since the close season was lifted. This morning, the cold storage bought carloads of three Canadian herring boats totalling 18,500 pounds weighing 21 lbs and 1 lb for them. This is just about the highest price that a Canadian boat ever received here.

The boats were: Prosperity A., Capt. A. Christensen, 12,000 pounds; Lysekil, Capt. Pete Jensen, 5,000 pounds; Kouyosu, Capt. David Rithelie, 1,500 pounds.

The Lysekil made rather a premature return to port on account of the illness of her skipper. The Prosperity A. and Kouyosu made regular trips, the first of the season.

#### SEATTLE JAIL TREATMENT BAD

#### Former Pilot in Air Force Tells of Treatment He Received There

VANCOUVER, Feb. 23.—Bringing a tale of conditions almost unbelievable under which he says Canadian ex-service men held in Seattle awaiting deportation, A. J. McDougall, ex-pilot of the R.A.F., is taking the matter up with the Returned Soldiers' Club and other organizations in an effort to have the probe asked for by the united veterans' organizations extended to the city jail in Seattle.

"I was six months in a German prison, and I'd sooner do that six months over again than the thirty days I was held in Seattle," said McDougall.

Room Was "Prowled"

McDougall declares he had been in Seattle for nearly three months, had a steady job, but when his room was "prowled" he was picked up by the police for evading the immigration authorities to entering, and was thrown in jail for thirty days, at the end of that time being deported.

Tea without milk or sugar; porridge ditto; bread thrown at you in chunks for which you had to fight; one blanket between three men, with no chance to wash or air it in thirty days; 18 men crowded into a room 30 by 16, and at night even this number increased; a brutal smash in the face if you made complaint to a guard and a general beating up if you showed any spirit.

Terrible Punishment

"There's a young Irishman there, well educated and high-strung, who keeps on protesting and whose face is all battered up from the slaps he receives in return," said McDougall. "I learned my lesson after one attempt. I did my thirty days without another peep but the men there asked me to let their former comrades know what was going on when I got to Vancouver."

McDougall wants the probe of the immigration department, the American Legion has been asked to make, extended to the city jail, where scores of Canadian ex-service men, he says, are being held until they can be deported.

#### Illness of King causes stir in Britain: Prince of Wales will carry out Tour Scheduled

LONDON, Feb. 23.—The illness of King George and the fact that he has been ordered to the Mediterranean for the remainder of the winter has caused quite a stir, of which newspapers have taken full advantage in front page displays.

The Queen will probably not accompany the King as she is a bad sailor. She will likely cross the channel to Calais and journey southward to join her husband.

The Prince of Wales will carry out his South African tour as scheduled but it has been remarked as unusual for the King and heir to the throne both to be absent from the kingdom at the same time.

#### Dredging Equipment Placed at McNicholl Creek and Gravel Deliveries Started Today

The tug Fearful arrived in port on Saturday afternoon bringing the second dump scow that it to be used by C. W. Arnett in his work at McNicholl Creek of digging gravel for the elevator foundations. The Fearful ran out of coal on the way up the coast and went into Swanson Bay for a fresh supply.

The dredging equipment has now been placed at McNicholl Creek and deliveries across the harbor were started this morning. In the meantime, excavation work is already under way at the elevator site. Surveying are being continued by W. N. Chater and Hartvig Os of the G. D. Howe Co.

#### SIR THOMAS FISHER DIES

LONDON, Feb. 23.—Commander Sir Thomas Fisher, 43 years of age, died yesterday.

#### Plenty of Herring Right Here in Prince Rupert Harbor and Boats out after them Yesterday

There has been quite a run of herring in the harbor since the middle of last week, but yesterday it reached its largest proportions and there were a number of boats and scows out gathering in the harbor. One outfit is said to have obtained twenty tons.

Many people visited the waterfront during the day and brought home strings of the herring with the result that a number of households are today having their annual feed of this succulent fish. The herring being caught in local waters are larger than usual this year and it is said that some nearly a foot long and resembling the Atlantic variety, were caught yesterday.

Passersby were interested in watching a seining outfit of the N. M. & R. catching the fish in large numbers just off the G.T.P. wharf. They will be taken to the company's live bait pounds outside the harbor.

For some days now herring have been caught nearby but

#### Haysport Disappearance Mystery to Everyone as no Trace of Wreckage

Mystery still surrounds the whereabouts of the auxiliary schooner Haysport II, and as the government patrol boat Malaspina failed to find the least vestige in Millbank Sound there is now some question of her having gone down.

The Haysport II left Nanouse January 20 for Skagway with a cargo of dynamite. All trace of the boat was lost after the Canadian Pacific Coast steamer Princess Mary sighted her January 25 a little south of Millbank Sound.

The department of fisheries sent the patrol boat Malaspina to search the vicinity of Millbank Sound and the following message was received:

"Aboard H.M.C.S. Malaspina: Have made complete search of all shores adjacent to Millbank Sound, and find nothing to indicate Haysport II wrecked in that vicinity. Lighthouse keeper at Ivory Island claims to have heard nothing of an explosion, nor seen any wreckage of any kind from the Haysport or any other boat recently."

Shores of islands near Millbank Sound were searched by the Malaspina for the four members of the crew, but without any success, and their fate, like that of the ship, is still a mystery.

Something Should Float

Navigators state that a wooden ship always leaves some trace of her fate if she sinks, and some part of her deck cargo, pilot house, lifebelts or lifeboat would float, and with an average of eight boats a day passing up and down these inside waterways it is doubtful if the boat could completely disappear from sight without leaving some trace.

#### SHIPMENTS OF HALIBUT MAKE BETTER SPEED

#### Connections in East Will be Improved to Route Cars Right Through

The local fish dealers have received a communication from A. E. Warren, general manager of the western region of the C.N.R., stating that by arranging better connection for the fish shipped from this port better speed will be made in shipments this year than last even though the train does not leave until noon the following day. The fish will be packed in the afternoon following the auction at the exchange just as it was last year but will leave on the passenger train, after the new schedule comes into effect on April 5. Sales will be held daily except Sunday.

In the meantime fish will be shipped out every second day except when there is sufficient offering to make up a train of not less than five or six cars. These will be sent right through.

#### CHURCH UNION HAS A HUGE MAJORITY UP TO THE PRESENT

A summary of the Church Union situation up to February 10 in seven of the provinces of Canada, New Brunswick not included, shows that up to that time of 4374 Presbyterian congregations only 383 had withdrawn. This number has since been increased to 463 and doubtless there will yet be some that will be added to that number. Many congregations, it is stated, will not vote but will remain in the Union without question.

In British Columbia up to February 10 out of 392 only 18 had withdrawn: In Alberta 20 had withdrawn out of 522; in Saskatchewan 44 out of 867; in Quebec and Ontario 298 out of 1380; in Prince Edward Island 12 out of 43, and in Nova Scotia 30 out of 370.

The city is running soup kitchens so you can guess what the situation is regardless of the advertising and boosting they are doing. **What A Difference Sunshine Makes!**

What a difference it makes to the world when all is bright. On a dull day we feel glum and depressed and when the sun shines we forget the dull times and take joy in the fact that we are alive.

So it is throughout life. Everyone can spread a little sunshine and make the world a pleasanter place in which to live. By trying to be pleasant and unselfish we increase our own enjoyment as well as the enjoyment of those around us.

**This Is A Sermon On Evergreens.**

This is a country of evergreens. Practically all the trees of the forest are evergreen. The deciduous varieties do not seem to thrive here except if be the alders and a few shrubs. As you get away from the coast the cottonwood and the birch and other trees are more common.

The trees that shed their leaves in the autumn are cheery in the spring, shady in the summer and brilliant in the autumn and during the winter, after they have shed their leaves they are useless. On the other hand the evergreens never look very brilliant but they are almost always the same and in winter the green stands out as a shelter and as an emblem of continuity.

What would the world be without the evergreens in life? There are the brilliant people who flit past us, cheering us as they go but not remaining. There are the friends who are always the same, who bear with us in our moods and refuse to be cast down even in time of affliction. These are the evergreens of life. These are the real friends who stick by us—Let us be thankful for the evergreens. The world would be but an empty place without them.

**Value Of Hospital To The Community.**

On several occasions this paper has mentioned the value of the hospital to the community but it cannot be said too often. Those who do not often visit the hospital cannot quite understand the wonderful work it is doing. Patients who come home after an illness speak of the work of the splendid women who care for them there and of the loss it would be if that work was in any way impaired through lack of funds. We have our institutions of learning, of recreation and amusement, and of culture but here is the one to which we turn when all other fail to help us.

**Looking Forward To Outdoor Life.**

This is the time of year when we tire of winter sports and amusements and turn to the outdoors. It is too early to take advantage of much boating or hiking or any other form of outdoor life but there are always preparations to be made for the change. Boats have to be overhauled, fishing tackle looked up, baseball bats ordered and lacrosse sticks restrung. It is the season of looking forward to the pleasant days to come and now and then stealing a pleasant day as it passes.

Mrs. Peter A. Palmer, Saltburn, Sask., writes: "Dr. Chase's Ointment has completely relieved me of eczema and piles. I also used this Ointment for my baby, who broke out in eczema. A few applications were all that was necessary in her case. Dr. Chase's Ointment has been worth a hundred dollars to me,—before using it I had spent a great deal more than that in unsuccessful treatment from doctors. We have also used Dr. Chase's other medicines, the Nerve Food having restored my health after suffering from severe nerve trouble when a girl."

**IDLE TONGUES TO BE SHOWN HERE TONIGHT**

Picture Illustrates Evil of Idle Gossip and Has Proved Sensation

"Idle Tongues" will make mischief here tonight. The picture of that name will be shown at the Westholme and if the criterion of other places is anything to guide here it should be well attended and useful.

There is the small town meeting, the usual cowardice of the crowd and the bravery of the few. Tongues wag and eventually the crowd turns on the man who is a confessed thief and drives him away. Eventually the alleged guilty man is found to be innocent; the idle tongues cease to wag and all the tangles of the tale are straightened out.

**BEAUTIFUL GLORIA SWANSON HERE AGAIN**

This Time She is Carmelita, Daughter of a French Regiment

The Foreign Legion! What a glamorous thrill, what an epitome of adventure, what swift-winged flights of imagination those three dauntless words flaunt before our tranquil lives. Three words whose full significance seems to have been vividly plucked from the ideally symbolic tricolor of France itself, and planted in the corner of a foreign land that is for ever all the world's own monument to courage.

It is about these intrepid legionnaires, recruited from the far corners of the earth, and of whom it is said, "The folds of their flag are not broad enough to hold their claims to glory," that the new Paramount picture, "Wages of Virtue," is woven—or, rather, about Carmelita, beautiful young daughter of the regiment.

Gloria Swanson plays Carmelita, an Italian girl who becomes the pride of the Legion.

"Wages of Virtue," is a heart-appealing romance of an Algerian barrack town. Carmelita is rescued from death by Luigi, strong man with a small, travelling side-show. He kills a man over love for the girl and joins the Foreign Legion to escape punishment for his crime. The girl, with absolute faith in him, follows and opens a cafe in town.

Carmelita meets and falls in love with a young American recruit, John Boule, a veteran of the regiment, sees that Luigi is not true to the girl and tells her so.

Luigi is furious over the girl's new love affair. He and the American fight, and Luigi is stabbed in the back by a legionnaire who has long nursed a grudge against the regimental bully.

Carmelita knows that the American will be accused of the crime, and with Boule's help they manage to escape into the desert, where they are attacked by a small band of Arabs.

The story has plenty of action and heart interest.

**WHITE MOTH TALE GAY PARISIAN LIFE**

Famous Society Drama to be Shown Here at Week End is Also Romance

"The White Moth," a First National picture coming at the week end, offers exceptional screen entertainment and marks a signal achievement for Maurice Tourneur, the director, and the artists who enact it.

It is a beautiful, fantastic,

absorbing piece of cinema entertainment revolving around the gay night life of Paris and the whirl of society in New York.

Barbara La Marr, as The White Moth, an American girl who becomes the dancing sensation of the Paris stage, with a legion of suitors, was never better cast, and Conway Tearle, co-featured with her as a millionaire who marries her to stop the romance of his brother, gives a powerful performance.

The White Moth in reality is a little choir singer who has left her home in Kansas to study music abroad. Failing to realize her ambition, she is about to commit suicide when Gonzalo Montrez, known as El Volcano, a dancer of the Folies Royale, rescues her and induces her to become his partner. Their subsequent success is beyond her wildest dreams, and at its peak the extraordinary romance with the two American brothers develops.

Ben Lyon gives a fine delineation as the younger brother, whose amour receives such an unexpected setback.

Charles de Roche is convincing as El Volcano, and the other players who contribute materially to the success of the production are Edna Murphy, Josie Sedgwick, Kathleen Kirkham, and William Orlamond.

**The Man in the Moon SAYS**

A MAN may have business down town at night, but not without his wife.

It is difficult to imagine anyone with a poker face enthusing over holding his best girl's hand.

"I AScribe the prosperity of Prince Rupert very largely to climatic conditions," said the professor. Yes, it's the climate!

THERE'S one thing about life here, we do not seem to be pestered much with seed catalogues.

WHEN a man tells you he has a gill edge proposition that is sure to return you thirty per cent per annum on your investment you can call him any kind of a liar you like and still be within the bounds of veracity.

NEVER marry for a meal ticket. That kind of a meal does not last very good.

MOTORBOATING is a continuous adventure. The fascination of the game is that you never can tell when the engine is going to stop, and you are not dead sure when it is going to start.

**Ten Years Ago in Prince Rupert**

February 23, 1915.

It being claimed that the new amendments to the Municipal Act being proposed at Victoria would put this city in an awkward position as far as the issuance of long term debentures is concerned, the city council decided last night, on advice of City Solicitor Fred Peters, to telegraph William Manson, M.P.P., requesting him to look after Prince Rupert's best interests on the matter.

A delegation consisting of G. W. Morrow, Father Bunoz and Rev. H. B. Grant appeared before the city council last evening to request the city to grant 8000 towards furnishing a field kitchen outfit for the men of the second contingent going from Prince Rupert on active service. The matter was referred to the finance committee.

Speaking before the Prince Rupert Horticultural Society last night, A. H. Tomlinson, provincial horticulturalist for this district, urged that vacant lots in this city be turned into profitable garden patches.

**For Variety in Your Cooking Use OXO CUBES**

**For all sorts of dishes**

Soups, sauces, gravies, meat pies, curries, and savoury dishes are as nourishing and tasty when made with OXO, as when meat is used. And OXO is quicker, handier, and more economical.

**For what-was-left-over from yesterday**

OXO Beef Cubes enable you to provide new dishes, and to improve old ones. You need never be at a loss for a dish—with OXO Cubes. They are made from prime concentrated beef, and give nourishment and the rich beef-flavor to savoury dishes made from "leftovers".

**For saving time and trouble**

Make cooking easy with OXO Cubes. They save time, trouble, and money, too.

**OXO and Cheese Toast**

1 OXO Cube  
Pepper and Salt  
Crumbs of Bread  
A little butter  
Stalenessproofly grated cheese.

Disolve the OXO in a little hot water. Put the butter and grated cheese into a small stewpan, and pepper and salt. When dissolved, add enough crumbs of bread to form the mixture into a cream. Serve on hot buttered toast.

**OXO Soup**

Chop an onion, turnip, small carrot, little celery and parsley, put into 2 quarts of cold water, bring to the boil and simmer for ½ hour. Add 3 OXO Cubes, season to taste and serve.

**OXO Spaghetti Pie**

Boil half a jacket of spaghetti till tender. Chop an onion, mix with ½ lb. Hamburger steak, fry till partly cooked, then put with spaghetti in pie dish, season to taste. Mix 2 OXO Cubes with little hot water, add can of tomatoes, and put over meat. Mash any cold cooked potatoes, spread on top and bake a nice brown.

**OXO Meat Patties**

Scraps of Cold Meat or Poultry  
2 Cubes OXO  
A Little Parsley  
Sauce and Seasoning  
Some flour paste

Mince the meat and make it savoury with the sauce, etc. Line some patties pans with the paste, fill with the mixture and the OXO to half a cup of boiling water, and add a little to each pan. Put on the tops, and bake till pastry is done. A little egg may be brushed over the tops if desired.

# Why not use Toilet Soap for washing dishes?

For nearly an hour and a half each day your hands are exposed to the harshness of strong, common soap!

And afterwards you look at them sorrowfully. Whiteness gone—all red and dried out.

Don't use common soap any longer! A spoonful of Lux skipped into a foamy suds will enable you to wash dishes quickly and easily. Lux softens water. It is as easy on your hands as the finest toilet soap.

Lever Brothers Limited, Toronto

*No rough, red hands when LUX is used*

## NEW BOOK MAKES ROMANCE OF HISTORY

Tells Story of Canadian Pacific Railway and Building of Dominion

A facetious American once referred to the Canadian Pacific Railway as "Canada on Wheels." Great as it is, the Canadian Pacific would be the last to appropriate such an appellation. It can be truthfully said, however, that to understand the recent history of the Dominion one must know that of the Canadian Pacific. Now at last comes a volume, well illustrated with photographs, which presents that history in its most palatable form—that is, in a form emphasizing the human factor. "The Romance of the Canadian Pacific Railway," by R. G. MacBeth (the Ryerson Press, Toronto, \$2.50).

The author, who has a number of historical works to his credit, is singularly well equipped. Apart from his literary skill, he has the advantage of having lived in the Canadian West all his life. He has always been in close touch with the Canadian Pacific, though he is careful to point out that he has never been connected with it and has written and published his book independently.

Mr. MacBeth here traces the amazing story of the company's development into the world's greatest transportation system; of the steamships, of the telegraph and express; colonization; irrigation; hotels and bungalow camps; of its war service and of all its activities, with a wealth of interesting detail which illustrates the brilliant administrative and organizing ability of its executive.

Canadians should be proud, as Mr. MacBeth reminds them, that their country approved the construction of this pioneer transcontinental when the population was only 4,000,000, though the United States had not dared to undertake a similar road till she had ten times that number. The frightful difficulties, political, technical and financial, through which the company's sponsors and founders fought their way to victory are well summarized. For instance, it is recalled that sections of the line north of Lake Superior cost \$500,000 a mile to build, and a muskeg east of Winnipeg swallowed seven tracks before it was conquered. The author shows that the triumphant accomplishment of the work was especially creditable because it took place in a period of immense depression.

Sir William Van Horne, general manager and later president, that man of tireless energy, vision and determination, is the central figure in the volume and there are many anecdotes illustrating his versatile character. But all the other great men of the company—Mount Stephen, Shaughnessy, Beatty, Angus and a host of others—receive their due. Lord Shaughnessy's fine words: "The shareholders and directors of the company have always been impressed with the idea that the interests of the company are intimately connected with those of the Dominion and no effort or expense has been spared to help in promoting the development of the whole country" are amply backed by the company's deeds. And the author makes a statement which is very a propos when he says: "The country and the railway, in such a case as this, must stand or fall together. Each is necessary to the prosperity of the other. Hence for one to attempt the destruction of the other is practically a roundabout but effective way for that one to commit suicide."

Nature Creates the Quality

The richness of Pacific Milk is entirely to the credit of the splendid milk supplied to the factories. The natural cream flavor is due to an improved process which keeps the true taste.

In other words, we do nothing but retain the good qualities nature bestows upon milk produced in the Fraser Valley.

# If you like a porridge

If you like a hot porridge in Winter why not eat a real whole wheat porridge? Put several Shredded Wheat biscuits in a small saucepan; add enough water to cover the bottom of the pan; add a little salt; stir and heat until it thickens, then serve with milk or cream. Not a party, mushy porridge. It is made of crisp shreds of baked whole wheat. Better for children than any ordinary porridge, and so easy to prepare.

### Mining around Deep Creek Topley, Barrett, and Houston Prospective of good results

Sixth of Series of Articles on Mining in Bulkley Valley, based on Smithers Board of Trade Report.

Deep Creek has its source in the Babine Range, whence it flows south-westerly to join the Bulkley River a little above Quick Station. From this region south-east to Topley the Babine Range of mountains becomes a series of rounded hills, unlike the rugged heights of the Driftwood Creek section, and in most places access is easy from both the railway and the main highway up the Bulkley Valley.

#### Deep Creek

On Deep Creek Tom Blythman and Dan Quinlivan have a group of claims located by them in 1923 on which they have worked in a small way the past two seasons. They have now, by open cuts and a shaft, made some progress towards the opening up of their showings. They have one vein of copper ore, low grade, thirty feet in width. Another vein averaging two feet in width shows a body of ore eight to twenty inches across containing some grey copper and the values run high in silver.

Between Deep Creek and Grouse Mountain Tommy Brewer and Tom Brandon have a low grade copper property of huge dimensions. Locating this in 1923 these prospectors have carried on work during the past two summers and now have their vein established in length for nearly six hundred feet by open cuts and stripping. An open cut shows mineralization across a width of 100 feet. In 1924 work was continued on a shaft now about 35 feet in depth with the showings steadily improving.

##### NOTICE OF APPLICATION FOR BEER LICENSE

NOTICE is hereby given that on or after the 19th day of March next, the undersigned intends to apply to the Liquor Control Board for a license in respect to premises being part of the building known as Queen's Hotel, situated on Lot 5, Main Street, in the City of Prince Rupert, Province of British Columbia, upon the lands described as Lots five (5) and six (6), in Block thirty-four (34), Section One (1), City of Prince Rupert, according to a registered map or plan deposited in the Land Registry Office at the City of Prince Rupert and numbered 923, for the sale of beer by the glass or by the open bottle for consumption on the premises.

DATED this 19th day of February, 1925.

Crown Copper Company has a group of six crown-granted claims. During war-time, work to the extent of many thousands of dollars was done on these, including more than four thousand feet of tunnelling. The values are in copper and zinc, with a little gold. In one place a body of ore eight feet in width is said to assay 3 per cent. in copper and 60 per cent. in zinc across the whole width. In other places mineralization to an appreciable extent is seen across forty to seventy feet. During the past few years the decline in the price of copper and internal financial difficulties of the company have kept the mine idle.

#### Lakeview

Nearby, on the top of Grouse Mountain, is the Lakeview property—silver-copper-zinc—owned by Louis Schorn of Telkwa. Last season he continued the development work which he has been carrying on from year to year. The main vein is established on the surface for 800 feet. The latest work has been the driving of a cross-cut tunnel at 40 feet of depth. In 1924 this reached the vein and cut through it, showing an ore body eleven feet in width. This is said to assay 3 per cent. in copper and 70 per cent. in zinc.

Louis Schorn has also, in partnership with W. Skelthorne, a high grade silver-lead showing located in 1923 on the Deep Creek side of Grouse Mountain. This is developed by means of a sixty foot open cut. Work was carried on in 1924 but as it is a new location it is not yet proven to any great extent.

J. Oakes and J. Donaldson, both of Telkwa, have a group of claims on Grouse Mountain taken up by them in 1923. Work was done in 1924, including erection of a cabin. It is a promising silver-lead showing.

George Dugate of Houston is developing in a small way, working for a time each summer, a group of three claims adjoining the Cassiar Crown property. This is a copper-zinc showing developed by open cuts and one twelve foot shaft.

On Grouse Mountain Hugh McLean of Telkwa has two groups of claims exhibiting good values in copper and zinc. Dur ng each

of the last three years he has carried on work, and he has three shafts sunk on one of the groups and a twenty-five foot tunnel on the other.

#### Venus Group

About seven miles north-east of Barrett station and within half a mile of the main highway up the Bulkley Valley is the Venus group of eight claims. These are located on a foot-hill of the Babines known as Mineral Hill, and they are owned by Joe Bussinger, M. E. Le Blanc and A. S. Millar. On the several claims there are different showings, some with copper values, others of silver-lead. Work progressed in the early part of 1924, then stopped until November, when Joe Bussinger took a lease of the property from his co-owners and commenced to get out for shipment a car-load of hand-sorted ore. This work is proceeding, and on the main vein of the Venus claim a shaft sunk some years ago has been deepened to forty feet and a drift tunnel commenced from that level. At this point the vein shows an ore-body sixteen inches across with high values in silver and lead, and improving with depth. On the surface this vein has been established by open cuts for a distance of about 700 feet. The claims constitute a likely prospect.

#### Tickoles Property

Near Houston, and less than four miles from the railway, Paul Tickoles of Houston made a valuable discovery in the summer of 1924 and located three claims on it. The main showing is in a vein two feet wide with values, which the owner states assay across the whole width \$112 per ton, all values included, there being 135 ounces of silver per ton, and 12 per cent. copper. Gold and bismuth are also in evidence. Tickoles has been working steadily on these claims and has now, in addition to surface work, a tunnel which he has driven fifty feet. He intends to continue at this and hopes to be in 100 feet by spring.

About three miles east of Knockholt station Mr. Tickoles has another group of three claims. Here at the side of the main road and railway a mineralized zone shows in a cut along the hillside. Into this he has driven a tunnel of nearly fifty feet. Although no defined vein has yet been established there is what appears to be a quartz filling. Appreciable values in galena and barium have been found. The location of the property is such that very low-grade ores could be handled to advantage.

#### Topley Group

Some years ago Indians found a vein six miles north of Topley with galena showing in it. Five claims were located on it but nothing done to develop the showings until 1924 when F. B. Chisholm of Telkwa took the property under option. Since then some \$2,000 worth of development work has been carried out, consisting of open cuts and one forty-five foot tunnel. These show a quartz-filled vein three feet eight inches in width with mineralization extending right across. Of this there is a body of ore nine to fourteen inches wide which will average across the whole 18 ounces in silver and 15 per cent. in lead. The vein has been established for 150 feet in length on the surface. Convenience to transportation will be an important factor in favor of this property and its future looks bright.

## CARBON DIOXIDE ICE PLANT HERE

New York Inventor Says in Seattle That Government Will Assist in Establishment

Fruit, meat and fish shippers and housewives can soon buy their ice in much the same manner as the owner of a soda fountain buys his liquid carbon dioxide, according to Walter S. Josephson, of New York, one of the inventors of a method of freezing carbon dioxide gas, says the Seattle Post Intelligencer.

"For a year I have been conducting tests for the Canadian government," Josephson said yesterday at the Olympic, "with the result that carbon dioxide gas manufacturing plants are to be established at Prince Rupert and Vancouver under government subsidy. The Australian Meat Council also has approved this new form of refrigeration." Josephson said that ice made from carbon dioxide gas creates a temperature of 114 degrees below zero while ordinary water-ice freezes at thirty-two degrees above zero. The gas is frozen in cylinders insulated by hair-felt. It melts into gas and consequently there is no dirt on water.

Charged That U.S. Goes Beyond Rights But Britain and Canada Not Worrying

VANCOUVER, Feb. 23.—Vancouver liquor interests have held a series of meetings within the past two days, and others are planned so that the members of the ring will be in almost continuous session until a campaign is formulated to deal with the war of extermination begun by the United States prohibition enforcement service with the seizure of the rum-runner Quaira and having its second phase in the capture of the steamship Coal Harbor with a half million dollar cargo off San Francisco this week.

## ONLY THE MOTHER KNOWS ABOUT THE COUGHS AND COLDS OF THE CHILDREN

It is hard to keep them from taking cold; they will run out of doors not properly clad, or have on too much clothing; play too hard and get over-heated, and cool off too suddenly; get their feet wet; kick off the bed cloths at night, and do a dozen things the mother can't prevent. The prompt use of

will check the cough or cold before any serious lung trouble can possibly develop. Mrs. Everett E. Keetch, R.R. No. 2, Fredericton, N.B., writes:—"My little boy, age nine years, had a dreadful cold which left him with a bad cough. I tried Dr. Wood's Norway Pine Syrup, and after using three bottles he was completely relieved. I would advise all mothers to use this remedy for their children as it is an excellent medicine."

will not worry seriously. Although boats have been seized outside the twelve mile limit, they declare, they have no recourse and the meetings this week at various places in the city are to debate the wisdom of withdrawing from the liquor exporting business for aye. It's too risky and expensive.

### Shareholders Divided

Some of the shareholders are for dissolving the business, others are for fighting the legality of the seizures to the United States supreme court, not so much for the value of the two vessels under detention, but for the safety of the profits in future cargoes.

In the capture of the Coal Harbor, United States patrol officers say she was within the 12-mile limit. The captain and crew state emphatically they were outside. Instruction to the skipper from the Canadian-Mexican Shipping Co., were to keep the proper distance. In his ruling upholding the seizure of the boat, the San Francisco judge practically gave authority for patrol boats to operate outside of territorial waters and bring in vessels accused of rum-running.

### Staggering Losses

The million dollar punch below the belt has caused severe cramp in the bank roll of operators and they have had to take unusual means to raise funds for current operations. The cargoes, two of their finest ships and the expenses of litigation in the American courts, plus forfeited bail of \$10,000, are not inconsiderable items, even to the liquor exporters.

## VANCOUVER MAY GET LARGE COLD STORAGE PLANT

Mitchell Albert is Moving Spirit in Big Enterprise Planned For Southern City

M. Aivazoff (Mitchell Albert), formerly of Prince Rupert, is negotiating with various large interests with a view to constructing a \$2,000,000 cold storage plant at Vancouver. He has assurances that the Fiji government will assist construction of such a plant in order to develop the Fijiian fresh fruit trade to Canada and has other interests who will provide sufficient money to complete the work. He has suggested that the Vancouver Harbor Board do nothing in the matter of erecting a cold storage plant until it has been proven that private capital will not do it. Mr. Albert is leaving Vancouver shortly for the East to meet New York and other Eastern capitalists who have signified their willingness to enter into the erection of a cold storage plant at Vancouver.

Twenty-two Animals Brought From Africa Recently as Experiment

LONDON, Feb. 23.—Zebras from the wilds of Rhodesia are soon to be added to the animal collection of several of the vast British and Scottish estates, where they will be allowed nearly as much freedom as in their native haunts. Twenty-two zebras arrived in London recently for G. B. Chapman, an animal importer, who will have charge of the experiment of raising the little striped beasts in this climate.

Several pairs will be assigned to the grounds surrounding Chilham Castle, in Kent, owned by Edmond Davis, while others will go to H. Whitley's Primley Park, Paignton, Devon and 8 to 10 others to Bealock Park, Dumfriesshire, owned by Sir William Cross.
