FRANCE WILL MAINTAIN HER CURRENCY

CHOONER HAYSPORT THOUGHT TO HAVE BEEN LOST IN MILLBANK SOUND

France Will Maintain Her Financial Probity Says Premier Herriot

PARIS, Feb. 16.—Premier Herriot, examining the government's financial policy to the chamber of deputies this afternoon, declares emphatically against inflation. "Cost what it may, France must, in the solution of this problem, maintain her reputation for financial probity. Cost what it may she must resist all temptation to abandon the policy of avoiding inflation," he said.

The fall of the franc has been causing alarm but the government's attitude already has had a reassuring effect causing improvement in exchange.

ANCOUVER IS OVERWHELMED BY ALL BLACKS

by Team From New Zealand
Scores 49 Points to Nothing
Saturday

VICTORIA WEDNESDAY

VANCOUVER, Feb. 16.—Before 20,000 spectators, the largest crowd that ever witnessed an indoor sport event in this city, the famous New Zealand All Blacks rugby team overwhelmed its representative all mainland by a score of 49 points to nothing. The All Blacks were playing fast, giving the finest exhibition of rugby ever seen.

The visitors play Victoria Tuesday and return here for final match next Saturday.

VERDICT TEXT MUNRO INQUEST

Supreme Court Judge Will Decide What Action to be Taken

Following is the text of the verdict delivered by the coroner's jury which disagreed on Friday at the inquest into the death of Norma Munro: "That Norma Munro came to her death as a result of being struck on the right side of the head by an automobile driven by V. Symes on Fifth Avenue East. That, owing to disagreement of the jury as to whether or not negligence on the part of said V. Symes contributed in any measure to the death of said Norma Munro, it is hereby recommended that the inquest be adjourned until the next court of session."

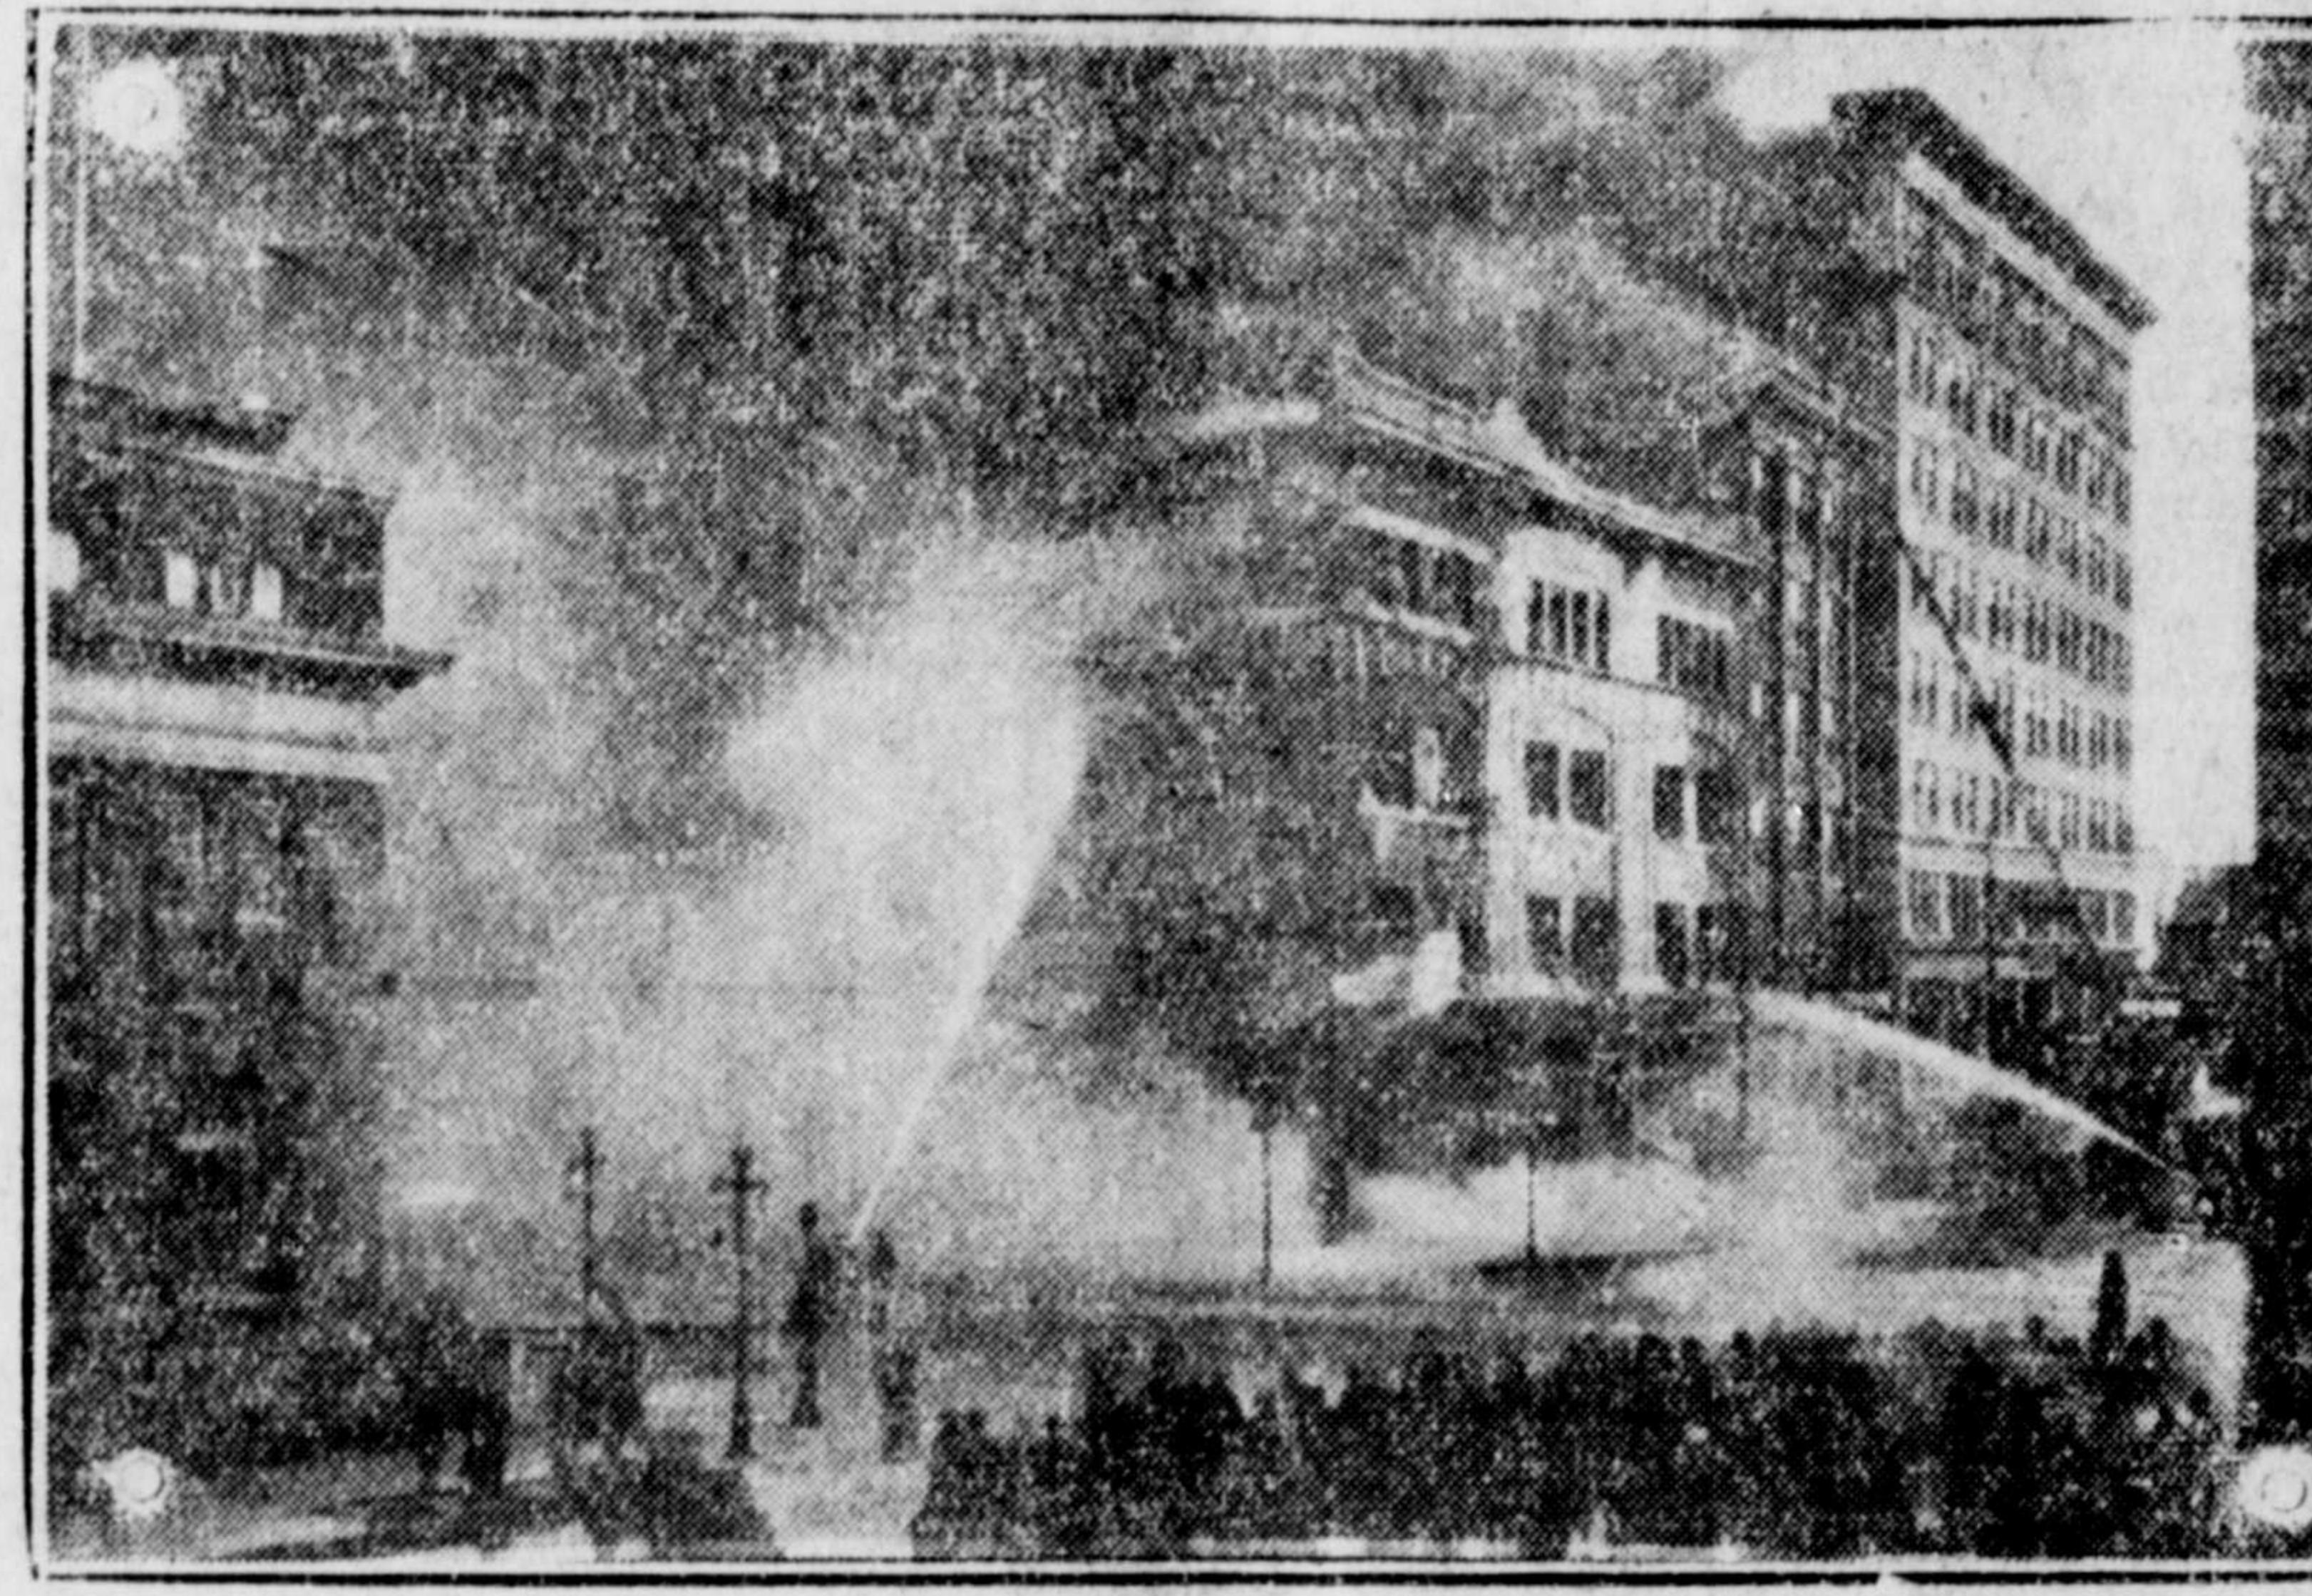

At the assize, the presiding judge will decide what further action, if any is to be taken, if the jury at that time still remains in disagreement. Under date, the only person who can discharge a disagreed coroner's jury is a Supreme Court justice.

RENCH COUNTERFEITERS GIVEN STIFF SENTENCES

PARIS, Feb. 16.—Thirteen of these persons, charged with counterfeiting one million franc bills, have been sentenced to six years solitary confinement and fined 100 francs. The two others were acquitted.

BIRTH

A son was born at the Prince Rupert General Hospital on February 14 to Mr. and Mrs. Sydney Alexander, 14th Avenue East.

In one of the most disastrous fires in Sasapton's history, the Drinkle block, on the busiest corner of the city, was destroyed, resulting in a loss of nearly a million dollars. The building once housed the University of Saskatchewan, when its first classes were held years ago.

BODIES OF BUCKLEY BAY OFFICIALS HERE

Remains of Late H. F. Dunning and C. A. Hancock, who Were Drowned Last Week, Brought to City on Prince John

The bodies of H. F. Dunning, late manager of the Massett Timber Co.'s sawmill at Buckley Bay, and C. A. Hancock, assistant logging superintendent, who were drowned last Wednesday morning when their gasboat sank in the ice off Juskath Inlet, were brought to the city on the Prince John last night. They are in the hands of the B.C. Undertakers and will be forwarded south on the Cardena tomorrow afternoon. Mr. Dunning's remains will be interred at Longbeach, California, where his family resides, and Mr. Hancock's, at Vancouver. Mr. Hancock's body is accompanied by his widow and family who were met here yesterday by George P. Hale, of Vancouver, a brother-in-law, who arrived from the south on the Cardena. Mr. Hale himself was formerly an official of the Massett Timber Co.

The body of Mr. Dunning will be accompanied to Longbeach by B. F. Pine.

Details of Accident
The accident, which resulted in the drowning of Mr. Dunning and Mr. Hancock, occurred in Juskath Inlet about twenty miles from Buckley Bay. The launch Kathleen had come from Buckley Bay and was being driven through a sheet of ice about half an inch thick. Only a short time previous, the boat had been iron sheathed for use in ice. It is assumed, though the craft has not yet been raised, that the ice penetrated under the sheathing and cut into the timbers. In any case, the boat had only been going through about 100 yards of the ice when it sank. This was about 200 yards from shore, but, on account of the ice, it was impossible for the men to swim. Had they had a dugout, they very probably would not have lost their lives. The Kathleen was a sturdy 50 foot craft.

SCHOONER REPUBLIC SUNK OFF SABLE ISLAND

HALIFAX, Feb. 16.—The schooner Republic was sunk by an unidentified vessel last night. Twelve of her crew are safe at Sable Island, but the captain and six others are missing.

BIRTH

A son was born at the Prince Rupert General Hospital on February 14 to Mr. and Mrs. Sydney Alexander, 14th Avenue East.

VANDERHOOF CREAMERY IS IN DIFFICULTIES

Shown to be Insolvent but Shareholders Vote Against Liquidation

VANDERHOOF, Feb. 16.—The creamery here is in financial difficulties. It has been losing money for some time and just now is insolvent. A proposal to go into liquidation following a statement from the Provincial Government that it would grant no further financial aid, was voted down at a recent meeting of shareholders. The affairs of the institution were discussed for over four hours and the vote for winding up then stood 44 to 19 in favor but the vote was not large enough under the provisions of the law as 75 per cent is required.

The committee in charge will keep the creamery going until the annual meeting.

MAGIC CLOTH RADIO SETS

Latest Invention Does Away With Aerial and Coils

WASHINGTON, Feb. 16.—The League of American Inventors announce that one of its members has satisfactorily tested a "magic cloth" which, with the aid of a crystal detector and a pair of earphones makes a perfect radio receiving set. No coils and no aerial are needed.

PROGRESS SLOW IN SAND CAVE

Probably Many Hours Before Collins Can be Reached

CAVE CITY, Ky., Feb. 16.—Progress was slow in stopping the lateral at the base of the sand cave tunnel where Floyd Collins has been imprisoned for more than two weeks today. Every bit of rock and dirt had to be passed back into the main shaft and care taken to prevent a serious caving. Now there remains the question of the number of cubic yards to be removed. Before Collins can be reached it may take many hours of toil.

CEMENT HERE FOR ELEVATOR

Six Hundred Barrels Arrived Yesterday for Albert & McCaffery—By Arnett Hero

With 600 barrels of cement, Coastwise Steamship & Barge Co.'s steamer Griffco was in port from 10 o'clock yesterday morning until 6 in the evening. The cement was discharged at the government wharf for Albert & McCaffery, which firm will supply this material for the elevator foundations. About 2,000 barrels, it is expected, will be used in the foundation work.

W. G. Arnett of Vancouver, who has the contract for gravel and dredging in connection with the elevator foundation work, arrived in the city from the south on the Cardena yesterday afternoon. His tug Fearful and dredge No. 10, which will be used in the work, has been delayed in coming up the coast on account of rough weather and may not be here for some days yet. It will start work immediately on arrival.

Two Tugs Coming

Accompanying the Fearful and Dredge No. 10 up the coast is the big tug Cape Scott with two dump scows in tow. When heard from at the end of the week, the equipment was at Port Hardy in readiness to cross Queen Charlotte Sound.

Mr. Arnett said this morning that he expected his part of the elevator job will take about six weeks. He will be here during the greater part of that time. Twenty men will be employed, all of them across the harbor. There the gravel will be dug out and the Fearful will bring it to this site in the dump scows.

The tug Fearful and the dump scows were bought from the Grant Smith Co. by Mr. Arnett. They were used here during the construction of the ocean dock. The dredge is a larger one than that which was here at that time.

One of the G.G.M.M. vessels is expected here before the end of the month to enter the local dry dock for inspection and repairs.

HOCKEY SCORES

Victoria 1, Calgary 2.

Schooner Haysport is Thought to Have Been Lost in Millbank Sound

From evidence to hand, it is assumed that the auxiliary schooner Haysport No. 2, which was on her way to Skagway with a cargo of gasoline and explosives for points in the Yukon Territory, foundered with all hands on board in Millbank Sound on the night of January 25.

The vessel having been overdue at Ketchikan for several days, queries were sent out to all points along the coast and it has been learned by the provincial police here that, laden so heavily that her decks were almost awash, she left Nanoose Bay, Vancouver Island, on January 20, and was seen passing Namu, north of Queen Charlotte Sound on January 25. On February 1, part of her deck cargo of gasoline, addressed to a consignee in Carcross, was picked up near Ivory Island. No other trace of the craft or her crew of four men has been found. It is thus believed that the vessel must have foundered in Millbank Sound. An explosion on board

is believed to have been improbable, since part of the gasoline was found.

It was believed that M. P. Olsen, formerly a well known Alaska mining man who had chartered the Haysport No. 2 to make this trip, was aboard but some of his acquaintances in this city say he was not. Neither is it known here who were the members of the crew. They were signed on in Vancouver it is believed.

Former Local Boat

The Haysport No. 2 was built in 1906 in Seattle and was then named the Roosevelt. In 1909 she was acquired by the Maritime Fisheries and operated in connection with the company's plant at Haysport, her name being changed to Haysport No. 2 and her registry to Canadian. Later, the vessel was acquired by the Deep Sea Fisheries who, in turn, sold her to James McNulty and Art Oswald of this city. In 1923, she was sold by the local men to Harry L. Higgins of Vancouver for use as a liquor carrier south from Vancouver. Like other vessels, she got into scrapes in connection with these activities and had been tied up at Vancouver for some time before embarking on her last and supposedly fatal voyage.

The Haysport No. 2 was 64 feet long, 17½ feet in beam and 8 feet deep. She was of 40 gross tonnage and 21 tons register. When sold in 1923, she was engined by a 50 horse power Standard motor.

RETURNS TO CITY AFTER INSPECTION BUCKLEY BAY MILL

S. M. Bump and Party Came in on Prince John Last Night

R. R. Maxwell Now in Charge of Plant

Representative of the provincial government — Mrs. W. H. Kergin.

Representatives of the Methodist Church — Miss M. L. Deacon, Rev. William Allen and Rev. G. G. Baker.

During the past year, new x-ray equipment has been installed at the Port Simpson hospital and a Delco light system has also been put in.

John Owen Wilson of Prince George has been appointed a judge of the court of revision and appeal for that district in place of R. W. Haggen.

Mrs. De Bucey, sister of F. Richardson of Tillicum, arrived from the Queen Charlotte Islands on the Prince John last night and will spend a fortnight visiting in the city.

MILLER CHARGE WAS OLD ONE

Arose Out of Seizure of Smuggled Liquor at Long Beach Two Years Ago

LOS ANGELES, Feb. 16.—The sentence of Jack Miller to two years in Leavenworth and a fine of \$15,000 and of Alexander Curtis to two years and a fine of \$7,500 followed a recent conviction along with eight others, all of whom were sentenced at the week end.

The conviction arose out of the seizure almost two years ago, on March 22, 1923, of a cargo of liquor at the Curtis Packing Company's warehouse and dock at Long Beach, the liquor having been smuggled into the country contrary to the laws of the United States.

RUSSIA HAS GOOD JAILS

Foreign Correspondents Said to Have Found Comfortable Places in Land of the Red

MOSCOW, Feb. 16.—Russian prison conditions appear to have improved, days following the Bolshevik revolution. A much less drastic and more humane regime has been adopted. Foreign correspondents visited a number of prisons today. They found them to be well lighted, clean and comfortable places.

Summary executions no longer take place and all prisoners are now heard by constituted revolutionary tribunals.

Cowen Boat Aikman and Also Won With Underhill in Doubles

OTTAWA, Feb. 16.—McTaggart Cowen of Vancouver, the Pacific coast star, established his supremacy on the badminton courts of Canada when he won the singles, defeating G. W. Aikman of Montreal 15-9, 15-5 and partnered with J. Underhill of Vancouver took the doubles trophy, defeating Snell and Stewart, the Ottawa titleholders, 15-4, 15-13.

Mrs. De Bucey, sister of F. Richardson of Tillicum, arrived from the Queen Charlotte Islands on the Prince John last night and will spend a fortnight visiting in the city.

Special Articles In This Paper.

The address of General McBrien, a report of which was published in this paper Saturday in regard to the defences of the Pacific and failure to defend Prince Rupert, caused a great deal of comment. This article along with the despatch telling of the sentence of Jack Miller and the action of Fred Stork in the Dominion House in regard to the treatment of British Columbia by the Federal Government, were all special despatches to this paper only and were secured at considerable cost to us. They were part of an effort being made to give Prince Rupert people as good a news service as possible consistent with the amount of support the paper gets locally. The cost of such special services comes high.

Bulk Of Grain Still Goes East.

The bulk of the grain crop still goes East. This year comparatively little has come to Vancouver largely because the territory shipping west has not had a good year. Another reason was because the smallness of the crop made it desirable to fill the empty elevators at the head of the lakes. These elevators are in many cases owned by the dealers and if they were not used as storehouses during the winter they would be a distinct loss to the owners. It also looks as if a big effort was being made to retain the grain business in the East. Much of the winter shipped grain goes out through United States ports and helps to make them prosperous instead of coming this way and building up Canadian ports. Happily the proposed change in rates to this coast will be likely to affect the business next year, putting this coast more nearly on an equality with the East.

Power Of Money Shown In France.

The power of money and the danger of tampering with the ordinary business of the country by the state is plainly shown in France where the franc has been dropping in price and serious interference with the business of the country has followed. France suffers when her money is below par just as Germany and Russia suffered from the debasement of their respective currencies. People who reside in stable countries cannot quite realize what has happened there. They cannot understand to what an extent the people have suffered.

There has to be change along the line of progress. We are learning better methods of conducting governments and carrying on affairs of state and these will gradually improve until some day we shall have a much more perfect government than we have today. Radical changes, however, are bad for any country. What is needed is a gradual evolution that will make the changes without causing an upheaval in which everybody suffers, the rich with the poor.

Mining In Interior Covered By Articles.

The series of mining articles dealing with the Bulkley country will prove of great interest to mining people. People have not realized to what an extent mining has been carried on there. The district is right in the centre of the mining zone and great things may be looked for in the future.

Mineral Wealth of Bulkley Reviewed in Article Prepared by Smithers Board of Trade

The mineral wealth of the mountains in and around the Bulkley Valley is very considerable, and may prove to be very great. It is chiefly contained in prospects and mines in various parts of Hudson's Bay Mountain, the Babine Mountains, Dome Mountain district and the Telkwa Mountains. Of these Hudson's Bay Mountain is at present the most important because more ore has been shipped from there than from any other district. The wealth is mostly in lode mines in which silver, lead, copper, gold, and zinc are found. There are also valuable coal and iron deposits. As transportation is improved interest in the mines increases and today, the future of the industry looks bright.

A report on the district has recently been prepared by L. S. McGill, until recently secretary of the Smithers Board of Trade and now its president and the information contained in that report will be published for the benefit of Daily News readers in instalments of which this is the first. The report says

Favorable Opportunities

Very few fields present such favorable opportunities for the investment of money in legitimate mining enterprises. Promising prospects are many. The demands of the prospectors, owners, with some exceptions, are most moderate. Of these prospects all will not, of course, make mines. Many risks are to be taken, many difficulties to be overcome. But in the past in other mining camps huge profits have been made by the same and careful investor. Just as certain

is it that in the future huge profits will be made in this district by him who comes early, chooses carefully, develops judiciously. All that is now required to turn this great mineral wealth into profits and prosperity is the coming of the necessary capital and continuity of the ore bodies.

Zeolitic Group

The Zeolitic Group of six crown-granted claims, owned by Joseph S. Kelly and Randolph Haigh, has been idle for the last few years owing to disputes between the partners. These claims are situated right at the railway yards in Smithers.

In the Letter Box

MAKES PROTEST

Editor Daily News,

If you would allow me little space in your paper, I would like to give a word of warning to merchants and others who are having any dealings with the National Protective Agency of Los Angeles, Cal.

They do not live up to their agreements. They sent me a letter asking for \$22, and old debt to the Prince Rupert General Hospital promising if I sent the money in full, they would forward me my bill received.

I promptly sent them the money and in return I received a receipt for \$22 on account, and a threatening letter, that, if I do not send another \$7.04 interest on the money before February 28, they will take action against me to collect the amount.

I ask all fair minded people is that proceedings, living up to the letter of their first agreement?

MRS. F. PIPER.

RE-THE PRICE CUTTER

Editor, Daily News.

The last two nights I have noticed an article in your paper entitled the Price Cutter in which the gentleman goes on to say that the price cutter not only pulls down the standard of his competitors but his own trade; I differ with our friend even so far in his article. What seems to be his main grievance is possibly his trade is hurt a little and also his prices may have to come down to hold the balance of his customers.

Further he states nothing is so easy as to cut prices and nothing is so hard to bring them back, but who wants them to go back? It is sure time they were coming down in this town and down within reach of the consumers, and as far as the net profit is concerned it usually looks after itself. That is the trouble nowadays, things are made for profit and not for use.

Still our friend states, 'who gets the benefits of price cutting? Nobody; also the one that patronizes gets an inferior article and no business can prosper under these conditions, etc.'

In the first place the majority benefit, naturally the consumer benefits and also the merchant benefits as the volume of his patrons and sales increase to almost double in most cases.

If the working man of today

can buy more reasonable, and get the same quality, or better, that is what we want, price cutter's and lots of them. The retailer that is selling lower has a quick

turnover of stock so consequently you are not getting shelf worn articles.

If a few of the non-going concerns in this place would come down in price they would possibly get about 50 per cent of the business done from here by the T. Eaton Co., which would make them all going concerns without a doubt. And as for not being able to prosper under these conditions, some of our price cutting stores are within a short space of time doing an enormous trade, and some of the organizations that started this game long ago are now the best going financially and otherwise than any others on this continent.

If you want to co-operate do it under the right system, which is co-operating in the production or provision of goods for the common benefit.

A CONSUMER.

SALVOR DISCHARGING CARGO AT DOCK HERE

First Visit to Prince Rupert as Freight Carrying Vessel

The Galt steamer Salvor, Capt. Rush, arrived from the south at 5 o'clock Saturday afternoon and is unloading 200 tons of Vancouver Island coal for Albert & McCaffery. She will return south this afternoon after she finishes discharging. The Salvor formerly belonged to the Pacific Salvage Co. and about a year ago was purchased by her present owners. This is her first call here as a cargo vessel although she was in the vicinity several times last summer.

BRANCH LINES ON NATIONAL

Little Over Million and Half Expenditure Last Year But Eight and Half This Year

OTTAWA, Feb. 16.—The Canadian National Railways expended \$4,650,751 on branch lines construction work in the calendar year 1924. Estimated expenditure on branch lines in 1925 is \$8,766,585. The whole program of the Canadian National Railways involves construction of 548 miles at an authorized expenditure of \$15,486,000.

A report of the department of railways tabled in the House of Commons gives full details of all work done on all branch lines.

A total of 91.5 miles of track were laid; 38.5 miles were ballasted; a proportionate amount of grading work was carried out, and 72.6 miles of telegraph lines added to the system. The greatest progress was made on the Peebles, Sask.; Prince Albert Northeast Saskatchewan, Gravelbourg, Sask.; St. Rose Du Lac, Man., and the Grande Fresnere, Que., branches. Some further work, which will practically complete these branches, is provided for in 1925. Provision is made for further construction work in 1925. An expenditure of \$2,168,500 this year on the Kamloops-Kelowna branch is expected.

PATTULLO ADDRESSED WOMEN'S CANADIAN CLUB ON SATURDAY

**Minister of Lands Gave Interest-
ing Discourse on "Forest
Policy of British
Columbia"**

A large number of ladies listened with interest in the Boston Hall on Saturday afternoon to an address given by Hon. T. D. Pattullo, member for Prince Rupert and minister of lands, before the Women's Canadian Club on the subject of "Forest Policy in British Columbia." Mr. Pattullo explained such technical terms as crown grants and licensed timber, referred to the recent changes in royalties and dealt emphatically with the matter of fire prevention and natural regeneration which he declared were necessary for the preservation of the timber industry of the province.

PRESENTATION MADE BY SKIDEGATE NATIVES TO REV. ARTHUR BARNER

Rev. Arthur Barner, superintendent of Indian Missions of Toronto, accompanied by Mrs. Barner, arrived here yesterday, following a visit to the Indian villages on Queen Charlotte Islands. They also visited Dead Tree Point, Queen Charlotte City and Sandspit.

At Skidgate Indian village a banquet was given in honor of the visitors and after the supper they were presented with two beautifully carved silver Haide spoons.

REVENUE PATROL IS TO BE CANNERY TENDER

SEATTLE, Feb. 16.—The steamship Rush, formerly a revenue patrol boat, has been purchased by Craig Millar of Ketchikan and she will be used as a cannery tender at the Heceta Island Co.'s plant on the west of Prince of Wales Island.

J. Field Strang, manager of Sunnyside cannery, and Mrs. Strang arrived at Sunnyside at the end of the week after having spent the winter in Vancouver. Mr. Strang is back making preparations for the coming cannery season.

Hard Fought Game Between Round House and Car Shops Yesterday

SMITHERS, Feb. 16.—The return match between the Roundhouse and Car-shop teams was played on Sunday afternoon and won by the former with a score of two to one.

Both teams had some new material on the ice for this match and it was certainly a hard fought game in which the hockey sticks were greatly assisted by elbows and feet.

Several of the players finished the game with nice souvenirs to remind them of the energetic tactics of their opponents, but after the fray good humor again prevailed and all voted it worth the fun.

Several of the players finished the game with nice souvenirs to remind them of the energetic tactics of their opponents, but after the fray good humor again prevailed and all voted it worth the fun.

BASKETBALL TEAM FROM KETCHIKAN MAY TOUR IN THE STATES

KETCHIKAN, Feb. 16.—An effort is being made to arrange for the sending of the Ketchikan basketball team to the States to play against leading teams in the Pacific northwest. Following their last game with Metlakatla, a banquet was tendered the victorious team and the question of sending them south discussed. Work with that end in view has already commenced.

STIRRING MELODRAMAS SEEN HERE TONIGHT

Arizona Express is Picture of
Wild Adventure Including
Big Train Wreck

Probably there are few situations known to drama more thrilling than that in which an innocent person allows himself to be convicted of murder to save another. David Butler in "The Arizona Express" at the Westholme tonight, does it even more dramatically than usual — probably because Lincoln J. Carter, that famous king of melodrama, wrote the play.

David is deeply in love with a dancer who is using him to get information about his uncle's bank in which he works. The uncle suspects the girl, follows her to her apartment and finds her drawing the plan of the bank for Johnson, her lover, who is at the head of a gang of thugs. He tries to get the drawings away from the girl and Johnson shoots him. Just then a knock is heard at the door and the girl pulls her hair over her face, rips open her waist and tells David, who enters, that his uncle had assaulted her and she shot him. When the house detectives enter a minute later, David tells them that he did the shooting to protect the girl. It is a thrilling moment, and it is only a beginning. The whole picture is redolent with such tense situations.

There are the many adventures Katherine Keith, David's sister has when she sets out to retrieve an incriminating letter written by the dancer which would prove her brother's innocence. There is a breath-taking moment when she crawls along a narrow ledge high up on a building and enters the window of Johnson's hotel room. Then, after getting the letter, there is the wild chase in a taxi through crowded streets, when Johnson discovers its loss and pursues her.

Later there is a train wreck in which a long line of cars and a locomotive plunge over a trestle and into a river, and a fight in the water where a mail clerk keeps the precious letter safe. The chase ends only after the clerk and Katherine have commandeered a locomotive, narrowly escaped crashing into a train coming from the opposite

direction and finally reach the Governor's house with the letter just in time to secure David's pardon.

SPECTACULAR RAID ON BOOTLEG JOINT

Leading Lights of Hollywood
Include Personnel of "Those
Who Dance"

Police staged a spectacular raid on a "bootlegging joint" which has been operating in the cellar of a deserted tenement under the name of "The Cellarette."

The fact that these notables appear in a real raid instead of a real raid is all that saves them from notoriety. They are featured players in Thomas H. Ince's drama "Those Who Dance," a First National release which tells the dramatic story of liquor and is shown here at the week end.

Aside from the huge quantities of liquor stored there, the raid netted the most spectacular haul in months for the prisoners taken included leading lights of Hollywood's screen colony — Blanche Sweet, Bessie Love, Warner Baxter, Robert Agnew, Mathew Bets, Lydia Knott and Lucille Rickson!

The fact that these notables appear in a real raid instead of a real raid is all that saves them from notoriety. They are featured players in Thomas H. Ince's drama "Those Who Dance," a First National release which tells the dramatic story of liquor and is shown here at the week end.

Without dealing with the moral of the prohibition question, Ince has staged a drama as effective as it is unusual in this story. The bootlegger, the hijacker, who plays unostenated on the bootlegger, and the prohibition forces all have their share of the limelight with human interest story of a young girl who goes into New York and seemingly becomes part of the underworld to save her brother from a gang of criminals holding plenty of heart throbs.

The fishing boat Wanderinger with skinner Nels Neilson arrived from Prince Rupert on the way to the banks.

Freeman Tingley of Port Clements came here on the last trip of the Prince John to take over the logging for the Queen Charlotte mill. He will use oxen in the woods.

The new school was opened on Friday last. The Thirteenth was chosen as being a lucky day.

J. Jones & Co. have brought in a new motor truck which they will operate between Skidegate village and Skidegate Mission.

Capt. Archie Fleming of the Dorotholon arrived in port recently from Cumshewa where he has been taking logs for the T. A. Kelly Co.

R. McDonald has finished his logging contract at Lagoon Bay and has closed down the camp.

Al Daden has finished up at Lagan Inlet where he has been logging for the T. A. Kelly Co.

"The Silent Watcher" pictorially relates the story of Joe Roberts, secretary to John Steele, famous lawyer and senatorial candidate and their respective family and business affairs. The story is said to possess much of intense human appeal and considerable wholesome humor and reaches its climax when the secretary is called to police headquarters and given the third degree in an effort to attach the blame for the murder of a girl, with whom his employer had been in close association, and of which the boy knew nothing. Many surprising developments are said to occur when the youth finds the girl to have been shot by a gun registered in his name and in an apartment he had rented for his employer in his own name.

Hunter, in interpreting the role of Joe Roberts, is reported to have given one of the finest dramatic performances the screen has ever seen, and Miss Love, as Mary Roberts, likewise reaches dramatic heights, reviewers state.

PRESENTATION MADE MISS JUDITH LAMBLY

Friends Spring Surprise in
Anticipation of Forthcoming
Marriage to Will Stephens
of Prince Rupert

The Lambly ranch, Lewis Island, was the scene on Saturday evening last of a very enjoyable social function when a number of friends and neighbors on the island sprang a surprise party, the occasion being the forthcoming marriage of Miss Judith Lambly, daughter of Mr. and Mrs. R. E. Lambly to Will Stephen, son of Mrs. P. Stephen of this city.

During the evening the prospective bride was presented with several beautiful gifts. The gifts included an oak dining room table and Morris chair by Fred Keith, J. Oland and H. Streethouse. Hand made jolies and tray cloths by Mrs. Goodeope and a hand worked doily by little Miss Goodeope. Mrs. Rosang presented a case of cutlery, Mrs. Ivor Wicks handwoven pillow slips, and Frank Armstrong a dresser.

A most enjoyable time was spent in dancing, music and games, and delectable refreshments were served at midnight. The wedding will take place in Prince Rupert on February 24.

SKIDEGATE

J. McCullough, manager of the Sitka Spruce Mills Ltd. of Queen Charlotte City is making good progress getting the mill in shape for operation. Twenty men are employed there. Mr. and Mrs. J. McKenzie, who have taken over the Premier Hotel, are boarding the men.

Capt. George McRae and Capt. Nels Larsen are busy repairing their boat to go to Kootenay Harbor where Capt. McRae owns the Blue Mule group of mineral claims. The ore there contains free milling gold and the assays have averaged \$26 to the ton and naturally everyone on the Islands is interested in the development of the property, which is situated on the west coast of Moresby Island.

Lemon soles are very plentiful just now off Skidegate village. The natives go out and catch all they want in a few minutes with hook and line.

The fishing boat Wanderinger with skinner Nels Neilson arrived from Prince Rupert on the way to the banks.

Mrs. H. G. Windt was winner of the first prize, Mrs. S. P. Bennett winning the second.

Mr. and Mrs. T. Brewer gave a jolly dance at their home of Friday night, when several hours of dancing was interrupted only by an occasional song. Refreshments were served at midnight.

Constable Eggleston returned from Prince Rupert Wednesday evening.

Mrs. J. Russel and children have gone to Ush to join Mr. Russel who has a position there.

Mrs. Thomasson returned from Hazelton when the trains from the East got through.

Mrs. Harrigan returned from Prince Rupert on Wednesday.

Messrs. Allan, Goodenough and Dalquist, who are connected with the Hanson Lumber Co. went up the line Wednesday evening.

Wm. Burnett made a trip to Ush Monday returning Wednesday morning.

Dick Howe of Prince Rupert, was a business visitor to Terrace Wednesday.

Rural Dean Marsh spent a few days at Ush this week.

The many friends of Mrs. Whillay will be sorry to hear of her serious illness from pneumonia.

Frank Hicks of Port Clements is spending the day in the city having arrived from the Islands on the Prince John last night. He expects to return this evening.

BRITISH COLUMBIA

The Mineral Province of Western Canada

TO END OF DECEMBER, 1923.

Has produced Minerals as follows: Placer Gold, \$76,962,203; Lode Gold, \$113,534,655; Silver, \$63,532,655; Lead, \$58,132,661; Copper, \$179,046,508; Zinc, \$27,994,756; Miscellaneous Minerals, \$1,468,257; Coal and Coke, \$250,968,113; Building Stone, Brick, Cement, etc., \$39,515,234; making its Mineral Production to the end of 1923 show an

Production for Year Ending Dec. 1923, \$41,304,320

The Mining Laws of this Province are more liberal and the fees lower than those of any other Province in the Dominion, or any colony in the British Empire.

Mineral locations are granted to discoverers for nominal fees.

Absolute Titles are obtained by developing such properties, the security of which is guaranteed by Crown Grants.

Full information together with Mining Reports and Maps, may be obtained gratis by addressing—

THE HON. THE MINISTER OF MINES
Victoria, British Columbia.

SMITHERS

Major R. Lowe of Prince George was a business visitor in Smithers the latter part of last week. A revision is being made in the boundaries of the Public Works districts and Mr. Lowe has received the appointment of Assistant district engineer for the Omineca district and will establish his headquarters at Burns Lake or one of the other towns up the line. Mr. Lowe was formerly stationed at Clinton with a similar position.

A very enjoyable evening was spent at the farm home of Mr. and Mrs. G. Oulton on Thursday night when a number of friends of the town and district gave them a surprise party. Refreshments were brought along and dancing and gaieties made up a program that lasted until the early hours of the morning.

Word has been received from Edmonton that the doctors there have every hope of being able to save Ernie Hann's eye that was badly injured by a flying splinter of wood a couple of weeks ago.

Mrs. D. D. Rolston entertained a number of ladies at a bridge party given in her home, Main Street on Thursday night. There were five tables and the guests enjoyed a most delightful evening followed by a dainty supper. Mrs. H. G. Windt was winner of the first prize, Mrs. S. P. Bennett winning the second.

Mr. and Mrs. T. Brewer gave a jolly dance at their home of Friday night, when several hours of dancing was interrupted only by an occasional song. Refreshments were served at midnight.

TERRACE NOTES

Constable Eggleston returned from Prince Rupert Wednesday evening.

Mrs. J. Russel and children have gone to Ush to join Mr. Russel who has a position there.

Mrs. Thomasson returned from Hazelton when the trains from the East got through.

Mrs. Harrigan returned from Prince Rupert on Wednesday.

WESTHOLME THEATRE

Tonight and Tomorrow Night, 7 and 9 p.m.

"THE ARIZONA EXPRESS"

A mile-a-minute railroad thriller adapted from Lincoln J. Carter's famous melodrama of that name. An express that carries a large consignment of love, mystery and romance. A superb photo-play abounding in re-stirring incidents set amidst an unending variety of beautiful scenery. The romance of a young mail clerk and a beautiful girl and the exciting adventures that befall them whilst saving her brother from the death penalty for a crime he had never committed. None should miss the washed out trestle and the train wreck, and the hold-up by mail-car bandits. Strong cast.

David Butler, Pauline Starke, Harold Goodwin, Francis MacDonald, William Humphrey, Evelyn Brent, Anne Cornwall and others.

STEWARDESS IS DISMISSED FOR WEARING BREEKS

Not Considered Proper Garb
When Serving Meals in
Arctic Circle

EDMONTON, Feb. 16.—Because the Northern Trading Company, Limited, decreed that riding breeches and a khaki shirt were not the proper garb for a stewardess to wear when serving meals in the Arctic circle to hardy northerners and other denizens of the broad open spaces who were being transported on their boats, Alice Joyce, a university student, who had served several months of last year on the Northland Echo lost her job and brought suit against the company for \$50 for transportation and a bonus of \$25 in the district court before His Honor Judge Crawford. The company alleged that Miss Joyce had broken her contract. Judgment was reserved after a

STOP THAT COUGH
NOW
WITH A FEW DOSES OF
DR WOOD'S
NORWAY PINE SYRUP

Mrs. Alex Foster, R.R. No. 2, Proton, Ont., writes: — "I took a severe cold which settled on my lungs, and my cough was so bad, at times, it seemed as if it were tearing my lungs to pieces. I sent and got a bottle of Dr. Wood's Norway Pine Syrup and I got relief after the first few doses, and by the time I had finished the rest of the bottle I was completely relieved of both my cold and cough."

"Dr. Wood's" has been on the market for the past 35 years; you don't experiment with some new and untried remedy when you buy it; put up only by The T. Mihm Co., Limited, Toronto, Ont.

hearing lasting two years.

Jake With Her

A. L. Sawle, a director of the company, stated that while he was on an inspection trip on the Northland Echo last year, Miss Joyce appeared at different times in breeches and khaki shirt. He objected to this costume as he did not consider it becoming one for a stewardess among such a class of men. He also objected to Miss Joyce sitting in the purser's cabin so garbed. Towards the end of the return trip in October he asked her to wear her proper uniform on one of the occasions and Miss Joyce refused. He then told her if she continued to do these things she could consider herself no longer in the company's service, to which the answer was, "That's Jake with me."

Mr. Sawle was cross-examined by G. H. Van Allen as to the number of times Miss Joyce had worn the breeches and why he had not complained before. He answered that the company wanted discipline, but liked to give a certain amount of leeway to its employees. "But there's a limit to everything," he added.

Thought Reasonable

Part of the contract with Miss Joyce was that in consideration of her services being satisfactory the company would refund her \$50, the fare and return to Waterways, with the addition of a \$5 per month bonus. His Honor Judge Crawford thought that the request to discard the clothes was a reasonable one to make so far north, but reserved his judgment to review the conditions of service.

PRICE OF FURS ON NEW YORK MARKET

Sale Commenced with Red Fox,
White Fox, Lynx and
Squirrel

NEW YORK, Feb. 16.—Bidding for red fox featured the opening sessions of the five million dollar fur auction here. The sale is the largest to be held in this city since the boom days of 1919 and 1920. Buyers were present from all the leading fur markets of this country and Canada as well as from France and Germany. The best price received for red fox was \$35. This fur is much in demand for trimmings at the present time and manufacturers bought it freely. White fox brought a top price of \$50 while the best lynx pelts fetched \$30.50. Wild cat brought prices ranging up to \$14 and the best skins in a collection of nearly two hundred thousand squirrels sold at \$1.20. An offering of sixty-six thousand ermine was sold at prices ranging up to \$3.65 each.

Compared with the average prices received at the fall sale of the New York Auction Company the furs sold yesterday showed the following percentages advances. White fox ten, eastern Canadian and north-western red fox 15; other red fox unchanged; lynx 25; wild cat 25; squirrel unchanged and ermine twenty.

KETCHIKAN FORMS AUTOMOBILE CLUB

Will Work for Good Roads and
Help Serve Tourists Visit-
ing Place

KETCHIKAN, Feb. 16.—Ketchikan now has an automobile club. It was formed this week with M. J. Buey as president, J. V. Hickey, vice-president; J. E. Johnson, secretary and M. H.
