NORWEGIANS TAKING STEPS TO PREVENT RUM RUNNING BY HER SHIPS

Masters of Norwegian Vessels Cautioned Not Engage in Rum Running

OSLO, Norway, Jan. 17.— The Norwegian government is considering legislation to prevent participation of Norwegian vessels in rum running to the United States. The foreign office through the Washington legation obtained the names of Norwegian ships identified as among those on "Rum Row" and sent the list to the Ship Owners' Association and the minister of justice for further action.

The association has already cautioned the masters of the vessels against rum running, warning them that it would refuse aid to vessels running foul of U.S. laws.

731 IN FAVOR CHURCH UNION

Hundreds of Churches Will go in Automatically Without a Vote

TORONTO, Jan. 17.—Of the 4,509 churches, missions or preaching stations of the Presbyterian Church in Canada, reports on the vote for Church Union have been received by the Church Union bureau from 911 of which 731 favor entering the United Church and 180 are opposed to it.

The bureau states that there are hundreds of churches in various parts of Canada that won't take a vote on the question because they are unanimous for union and will go into the Church automatically. Under the law as passed by the Dominion Parliament unless they vote themselves out they are in.

DAUGHTERS OF EMPIRE BUILD

Tenders Being Called For Assembly Hall on Fifth Ave. Lots

The Imperial Order Daughters of Empire have decided to erect a building on their lots on Fifth Avenue East, near the corner of McBride Street and are today calling for tenders. The excavation has already been completed.

The building will be of frame construction of substantial size and the main feature of the structure will be a large assembly hall with a ten foot balcony on one side. The order has the money on hand to pay for the building.

PRESIDENT-ELECT RESIGNED OFFICE

Sons of England will Retain Officers of Last Year for Another Six Months at Least.

Henry Smith, president-elect of the Sons of England, and W. H. Goodsell, vice-president elect, resigned office at last night's meeting of the lodge and it was decided that all officers of last year including President W. G. Hughes and Vice-President R. Yates should retain office for at least another six months.

R. P. Wilmot of the Liquor Control Board staff arrived from Victoria on the Princess Beatrice this morning.

BURGLAR ALARM FOILED ROBBER

Attempt was Made Early Last Night to Enter Bulger & Cameron's Jewelry Store

An effective burglar alarm system last night prevented Bulger & Cameron's jewelry store from being entered by a thief. At 7.25 the would-be burglar, having broken a rear window and unlocked the sash lock, started to open the window when the burglar alarms started in full peal and the lights of the store flashed on. He immediately retreated and was gone before John Bulger and Sergeant McGlinchy arrived on the scene but a very few minutes later. No entry had been gained.

The person who attempted to enter the store left tell-tale foot prints on the fresh snow and an ash pile in the lane and, on the strength of this, a suspect was taken to the police station by Sergeant McGlinchy within an hour. However, ther were no eye witnesses and it was necessary to let the man go in this connection.

SEEK DAMAGES STEWART MAN

John The Finn Sued by London Lady For Breach of Promise of Marriage

VANCOUVER, Jan. 17. — That she was induced to leave London, England, and travel to Stewart to marry John Haahti, mine owner, better known at Stewart as John the Finn, and to have the engagement broken off on the eve of the wedding was the allegation of Lottie Maud Munn, who seeks $10,000 damages in a breach of promise suit here.

Haahti was the discoverer of the Silverado and other mines at Stewart.

City Council Committees are Being Discussed but Nothing Will Be Known Until Thursday

The new city council will hold its first meeting next Thursday night when Mayor Newton will announce his standing committees for the coming year. In the meantime, the 1925 aldermen, police commissioner and school trustees will be sworn in.

While it is the practice to appoint aldermen who come at or near the head of the polls to chairmanship of committees, it is not expected that Mayor Newton will be able to follow this in drafting his committees this year. Previous aldermanic experience is also generally considered a requirement in the naming of committee chairmen. The general expectation is that Ex-Ald. M. M. Stephens will head the finance committee again, that Ald. McMordie will be appointed chairman of the utilities committee and that Ald. Perry will continue as chairman of the board of works. Ald. Casey was chairman of the building commission last year and it is probable that he will continue as such in 1925.

The following is a popular committee slate for the forthcoming year and it is expected that the mayor will probably follow it pretty well in naming the personnels of the three most important committees this year:

Finance—Ald. Stephens and Ald. Smith.

Utilities—Ald. McMordie, Ald. Casey and Ald. Larsen.

Board of Works— Ald. Perry, Ald. Brown and Ald. McKechnie.

It was rumored about town this morning that one of the aldermen-elect was considering resigning because Labor would probably be in control of this year's council. Ald. McMordie stated this afternoon that, as far as he was concerned, he considered such a rumor ridiculous and that there was nothing to it at all.

First Large Timber Sale is Made Since Passing of the New Royalties Act: Others Pending

VANCOUVER, Jan. 17.—At a price, said to be about $400,000, the first large sale of timber limits since the Legislature fixed the royalties was completed yesterday, when Bloedel, Stewart, Welch, Farris and King took over eleven thousand acres near Great Central Lake near Port Alberni.

Great Activity has been shown in the timber market since the royalties were fixed and several huge transactions are under way. It is understood that one deal involves a large mainland tract at a price of four million dollars.

Timber cruisers and forest engineers are now arranging to visit large northern areas as soon as weather permits to report to prospective purchasers on the limits for which negotiations are under way.

MORE WOMEN CONSTABLES

London Will Double the Number at Present Employed on Metropolitan Force

LONDON, June 17.—The Home Secretary is planning to increase the number of women constables on the Metropolitan force. At present there are 24 but this number he thinks of increasing to about fifty.

The question of the value of the work of women police is one that has been much discussed. Lady Astor is one of the champions of women in this regard and her influence is being used to have the increase made. She declares that during the war women often were able to arrest men when male constables could do nothing with them.

BRULE CUTOFF TO BE ROUTE

Oliver Quotes Sir Henry Thornton as Authority for His Statement

VANCOUVER, Jan. 17. — The new railway which will tap the Peace River country, according to the conviction of Premier Oliver expressed at a Liberal gathering last night, is to begin about sixty miles east of Brule Lake at Obed on the Canadian National Railway main line, follow the Athabaska River northward for 35 miles and then follow the curve bulging slightly to the east until it reaches Sturgeon Lake, 40 miles east of Grand Prairie. The branch will then run westward to Sturgeon Lake and northward to a point half way between McLennan and Peace River Crossing on the E.D. and B.C. He quotes an interview with Sir Henry Thornton as his authority.

REGULATIONS TO BE DRASTIC

Beer Seller Will Lose License Immediately if Law is Broken

VICTORIA, Jan. 17.—New regulations for the sale of beer by the glass are not yet ready, but it is understood they will be drastic and will be framed to prevent abuses leading to discredit government control. Any license holder who violates the law either by selling an intoxicant other than beer or by failure to keep the premises in a respectable condition will lose his license immediately.

Future Is Looking Full Of Promise.

The future is full of promise for this city. People outside are realizing it perhaps more than those living here. The arrival of the elevator engineer and the millmen is having a good effect psychologically and it should not be very long before we begin to feel the results.

The building of the elevator, the improvement and operation of the lumber mill, the building and operation of the new cannery near Seal Cove, the erection of the biological station, the work on the road construction and the power plant and street and other improvements and the large expenditures on buildings, which is bound to follow the other developments, all will bring people to the city and keep them busy. It is to be expected that Prince Rupert will be busier this year than ever she has been before.

In addition to the developments in the city, there is going to be a busy time in the district. The mining outlook is better than it has ever been before in the Portland Canal district and it is confidently expected the district mills will all be working as the lumber business picks up. Fishing will go on as usual and the cold storage plants which will have been cleared out during the close season, will have to once more fill up their rooms.

Status Of Canada In British Empire.

Colonel Amery, secretary of state for the colonies in the British Empire, well stated the case when he said that Canada was a much greater influence in the world as a partner in the British Empire than she could hope to be in an independent capacity. If today she were independent, without army or navy, and lacking a very large population, she would be a nonentity. As it is she has a say in all world affairs and that without any other country interfering in any way with her internal workings. Colonel Amery lived in Canada for many years and knows the country well. He is a kindred spirit for he has camped in the mountains, ridden over the plains and taken part in the life of the people. He rather objects to the title which he now holds, that of "Secretary to the Colonies," recognizing that the Dominions are no longer colonies in the old sense but have evolved into nations. Probably the position will be abolished soon or given a more appropriate name.

Using Bank Money To Fight Extradition.

The alleged bank robbers are fighting extradition and if they are guilty, as their actions seem to indicate, they are probably using the stolen money to keep themselves from facing the music. Unfortunately the machinery of justice in the United States is such that delays are not only possible but probable. In Canada delays are sometimes possible but in the neighboring states loopholes seem so numerous that it is easy enough to slip into one.

It is to be hoped that, for the sake of the future, the men accused of robbery on this side the line will be brought to face the judge.

Do Not Like Canadian Justice.

U.S. criminals like to take a flyer on this side occasionally but they immediately make for the other side as soon as they get the job done. They do not like the prospect of facing Canadian law courts. While they can expect nothing here but justice they get a fair deal.

If the bank robbers expect to get clear by delay, they should remember what happened the Chinese murderer two days ago. He committed the dastardly deed a year and a half ago yet he went to the scaffold. Even if the bank robbers should delay proceedings for two years they would not escape because of that.

MAYOR SPEAKS TO RATEPAYERS

Addresses Association on Question of Filling Cow Bay and Other Matters

His remarks being principally in connection with the project for the filling in of Cow Bay for the privilege of doing which the provincial government intends to turn over to the city 200 feet of waterfrontage, Mayor re-elect S. M. Newton addressed the Prince Rupert Ratepayers' Association last night. The meeting was presided over by Vice-president M. M. Stephens and there was a fair attendance of members of the association.

In connection with the final settlement of this proposal, which had been approved by the electors, Mayor Newton said that the Ratepayers' Association might give valuble assistance. The proposal was that the city should receive 200 feet of waterfrontage just east of the mouth of Cow Bay in return for giving permission to the filling up of the bay. It would be the intention of the city on the waterfrontage it thus received to provide landing and shelter for vessels of fishermen and people from outside points along the coast. After denying the suggestion that, in advancing the proposition he had been serving any interests, Mayor Newton entered into an account of the steps that had led up to the plebiscie being presented. There was still a feeling that a mistake might be made in permitting the filling up of Cow Bay for fear that it would be impossible to obtain any other adequate shelter. However, he could see no other course open if the desired facilities for the landing and shelter of small boats was to be obtained. This was a matter, he felt, that should have been attended to long ago as a matter of keeping faith with the fishing interests. It would benefit the city, he felt, in the competition to make this the headquarters of the fishing industry of the Pacific Coast.

Extols Association

In the course of his address, the mayor reiterated former statements he had made regarding the value of the Ratepayers' Association to the city. Through suggestions and assistance given the city council last year, he felt it had demonstrated its usefulness which he hoped would be continued. Any complaints or suggestions if had to make would always be welcomed and given full consideration by the council.

Mr. Stephens having congratulated Mayor Newton on his re-election, Mayor Newton reciprocated the sentiments of Ald. Elect Stephens and stated his hope that the 1925 council would so measure up to its responsibilities and requirements that, when the end of the year arrived, the association could not but feel that the best courses had been followed in the interests of the citizens generally.

The question of the removal of the plank roadway on Tate Street again having been brought up, Mayor Newton stated that it had been decided to extend grading to Section 2 to take in this street if the property owners involved so desired.

Seventh Avenue Water

In answer to remarks by D. B. McDougall respecting the advisability of enlarging the water main on Seventh Avenue West, His Worship stated that he had brought this matter to the attention of the city council and it would be dealt with by the new board of works.

OBJECTS TO METHOD OF DEBT COLLECTING

At the meeting of the hospital board last night J. J. Gillis objected to the methods being used to collect debts for the General Hospital. He owed a small amount and the account had been placed for collection with a foreign collecting agency.

Alderman Macdonald suggested that for a man with seven children and employment not very regular some leniency should have been shown. He defended the action of the secretary, who was working under instructions. He did not like the method of securing the aid of a foreign agency to collect debts.

Mr. Mackay defended the method, saying that an international organization could be more effective than a purely national one. Even their unions were international. However he thought the members of the Board should authorize such a matter as this.

CHINESE THEATRICALS FOR LOCAL HOSPITAL

Entertainment Will be Given by Members of Local Colony Aid of Institution

There is to be clashing of Chinese swords, and all the regular accompaniments of Oriental tragedy and comedy accompanied by the wierd strains of barbaric music at one of the local theatres, if the plans of the members of the Pyne Min reading room mature. Louis Wing, their representative, had a letter before the Hospital Board last night offering the services of their theatrical company to raise money for the hospital and the offer was accepted. The Chinese will give the entertainment and the proceeds will go to the local institution.

It was left with the executive to make complete arrangements with the Chinese Company.

TWO SUPERVISING NURSES RESIGNED

Miss Crone and Miss Bailey are Leaving Hospital, Matron States in her Report to Board

The report of the Hospital Board of the lady superintendent read at the meeting of the Board last evening showed that there were on the staff at present six night nurses, thirteen pupil nurses and ten others with herself making a total employed there of thirty.

During the month a number of the nurses had been ill.

Some new tables were needed. The linoleum provided by the ladies' auxiliary was much appreciated but it was being held awaiting the putting in of proper castors for the beds.

Two supervising nurses, Miss Crone and Miss Bailey had handed in their resignations.

The committee was asked to again investigate the matter of nurses' salaries, after which the report was adopted.

D. C. McRae presided at the final meeting for the year of the hospital board, there being present Messrs. Mortimer, Macdonald, Thompson, Ross Mackay, Evitt and Secretary Birch. The business was mostly of a routine nature.

A letter was read at the meeting of the Hospital Board last night stating that Dr. C. H Wrinch had been appointed head of the regional committee for the celebration of the annual Hospital day and suggesting how it should be observed.

Trappers and Fur Dealers! If you are not satisfied with the prices I offer, bring in your furs anyway and I will advance 75 per cent without interest. You can use my store as a sales headquarters and invite any buyer to view your goods, entirely free of charge. There are no strings to this offer. W. Goldbloom, Second Avenue.

The report of the auditor on the finances of the hospital in connection with the annual report which is being prepared for the annual meeting which is to be held on or about Wednesday, January 28, was considered by the Hospital Board last night and adopted. The complete financial report will be presented to the annual meeting.

City Treasurer D. J. Matheson and City Engineer F. W. Pearson have consented to address the Prince Rupert Ratepayers' Association if was announced by Vice-President M. M. Stephens at the meeting of the Association last night. Mr. Matheson will speak before the organization next month and Mr. Pearson is scheduled to appear in March when he will deal with the question of sewer extension.

M. M. Stephens drew to the attention of the Prince Rupert Ratepayers' Association last night that having been elected as alderman, it would be necessary for him, under the constitution of the Association, to withdraw from the position of vice-president. The matter of choosing a successor on the executive to Mr. Stephens will be dealt with by the executive of the association.

HER HEADACHES WERE SO BAD SHE COULDN'T DO ANYTHING

Once the head starts to ache and pain you may rest assured that the cause comes from the stomach, liver or bowels, and the cause must be removed before permanent relief may be had.

There is no better remedy for headaches of every description than

BURDOCK BLOOD BITTERS

as it removes the cause of the headaches in a way that no other remedy will do.

Mrs. Wm. Helpard, Lower Stewiacke, N.S., writes:—"I suffered for a long time with my head. It would ache and ache until it made me so sick I could not do anything, but after taking four bottles of B.B.B. I feel that I cannot recommend it too highly to all those suffering from headaches of any kind."

B.B.B., has been on the market for the past 46 years and is recognized by all who have used it to be without an equal as a remedy for headaches; put up only by The T. Milburn Co., Limited, Toronto, Ont.

Annual Meeting of the Prince Rupert Parent-Teachers' Association will be held in the auditorium, Booth School, Wednesday, January 21, at 8 p.m. Election of officers.

The gasboat Wanderer, Capt. Nels Nelson, which has been engaged in the recovering of ore from the wrecked motorship Kennecott on the west coast of Queen Charlotte Islands, was taken on the pontoons at the dry dock today. A new keel shoe is to be installed.

C.P.R. steamer Princess Mary, Capt. C. C. Saintey, is again delayed by stress of weather in the north and, at 1 o'clock this afternoon, she had not sent notice locally as to the hour of her arrival from Alaska ports. It is expected, however, that the vessel will be in late this afternoon or during the night.

A. Bigoff of Stewart was arraigned in the provincial police court this morning before Stipendiary Magistrate H. F. McLeod on four charges of forgery and was remanded until Monday. It is alleged that Bigoff forged the name of A. Berkoff and cashed checks on the Bank of Montreal at Stewart totalling $173.

MILLION TELEPHONES THROUGHOUT COUNTRY

British Columbia Has Largest Number, According to Population

TORONTO, Jan. 17.—There is one telephone for every ninth person in Canada. A recent report of the Ontario Municipal and Railway Board gives the total number of telephones in the Dominion as 1,022,782. In proportion to population British Columbia has the most telephones, there being 15.9 'phones to every hundred persons in the coast province, while there are 15.1 to every hundred persons in Ontario. But the province of Ontario has the largest number of telephones, 433,842, compared with Quebec's 185,410. The report shows the proportion of 'phones to population is considerably higher in Ontario and the four western provinces than it is in Quebec and the Maritime provinces.

MAGNET IS USED TO REMOVE IRON SPLINTER

Had Been in Patient's Eye Three Months but Blindness Prevented

BERLIN, Jan. 16. — An iron splinter, one millimeter long, was recently removed from the eye of a locksmith with the aid of a gigantic magnet. The splinter had been in the patient's eye for three months before it could be located. Eleven sittings, during each of which the splinter, which was located in a remote corner of the eye, was brought forward a little farther, were necessary to complete the operation.

Dr. Paderborn, the oculist in charge, was particularly concerned about removing the splinter, as the locksmith had lost one eye thirty years ago through a similar mishap. The experiment with the magnet was regarded as one having little prospects of success, but it seemed to be the only alternative to complete blindness.

CARD OF THANKS

Alderman R. F. Perry desires to thank his many supporters for their expression of confidence at the polls on Thursday.

ONTARIO AND QUEBEC HOBNOB

Big Delegation From Ontario Cities to Visit Montreal and Capital

HEADED BY GOVERNOR

Extensive Program of Entertainment is Planned by French Canadians

TORONTO, Jan. 17—(By Canadian Press).—One more link in the chain that is binding the English and French in Canada closer together will be forged when a party fully representative of Ontario's business, political and professional life, headed by Hon. Henry Cockshutt, Lieut.-Governor of the province, leaves Toronto on Jan. 28 for a three-day visit to Quebec City and Montreal. The visit repays the journey made in the early part of 1924 to Ontario by a similar party from Quebec. In addition to the Lieut.-Governor, a large number of members of the Ontario Legislature, propably including Premier Ferguson, and prominent leaders of business and industry in Ontario will make up the party.

The party will spend Thursday, Jan. 29, in the city on the Heights. An extensive program for their entertainment has been arranged. A sleigh ride round the city of Quebec takes place after breakfast, followed by winter sports at Battlefields Park, and a luncheon at the Parliament Buildings, where Hon. Narcisse Perodeau and Hon. Mr. Taschereau, respectively Lieut.-Governor and Premier of the Province of Quebec, will welcome them. In the afternoon a visit to the Legislative Chamber of Quebec will be made, where special addresses in honor of the Ontarioans' visit will be made. A reception at the home of the Lieut.-Governor, a banquet given by the City of Quebec in the evening, and a midnight parade to the station accompanied by snowshoers and skiiers, completes the day's programe.

At Montreal

Arriving in Montreal on Friday, Jan. 30, the party will enjoy the hospitality of the Metropolis until they leave for Toronto on Saturday. Montreal's hospitality will take the form of visits to a number of public institutions, including McGill College, Villa Marie Convent and the St. Denis Club. After a luncheon at the St. Denis Club the party breaks up, to meet for the dinner in the evening, which will be given by the City of Montreal.

TELKWA IS HAVING AN ACTIVE WINTER

Ties Being Hauled, Coal Mine is Running and New Bridge Building says Jack McNeil

Telkwa is having a busier winter this year than it has had for years says Jack McNeil, leading citizen of that town, who will return to the interior on tonight's train after having spent a couple of days in the city on business. In spite of reduced contracts, more ties are being hauled into Telkwa this winter than last. The coal mine is producing and shipping steadily and work is proceeding on the new government bridge across the Telkwa River which flows into the Bulkley from the south. This bridge, which has been sought for some time, will be a great convenience to the district farmers in that locality.

WHIST DRIVE

Twelve Tables at Affair Held Last Night by St. Andrew's Society

There were twelve tables at the whist drive held by the St. Andrew's Society last night and prize winners were: ladies' first, Mrs. John Watson; ladies' consolation, Mrs. Carlyle; men's first, Jack Laurensen; consolation, Mrs. J. McKechnie. Charles Taylor was in charge of the card tables. W. G. Murray presided at the door and the serving of refreshments was in the hands of a committee from the Ladies' Auxiliary.

Sport Chat

England, America and France have hitherto been regarded as the chief boxing centres of the world but Italy is slowly but surely forcing her way into the limelight. The recent success of Bruno Frattini in wresting the middleweight championship of Europe from Roland Todd has been quickly followed by an even greater triumph for Italy, "Cannonball" Martin having captured the world's bantamweight crown from Abe Goldstein. Martin's in-fighting and uppercuts to the chin had Goldstein in constant difficulties. In the twelfth round, Goldstein fought like a mad man rocking his opponent from side to side but his blows apparently lacked weight for the little Italian, continued to bore in flaying Goldstein with both hands. Martin maintained the ascendency all the way and was awarded the decision on points.

Boxing was practically unknown in Buenos Aires ten years ago but, thanks to the exploits of Luis Firpo in the United States, it is today very popular in that city. There are hundreds of clubs scattered throughout the Argentine whose main activity is boxing and the public interest in pugilism is constantly increasing. Matches are held in Buenos Aires every night and the attendance runs from 3,000 to 10,000 according to the importance of the program. South American boxing tournaments in which Argentina, Chili and Uruguay participate are held every year.

REGIMENTAL BALL PROVED GREAT EVENT

Nearly Four Hundred Present and Dancing Kept up Until Late Hour

Seldom has there been a scene so gay, a dancing crowd so large or representative or an event so enjoyable as was the annual ball of the First Battalion North British Columbia Regiment held last night in the auditorium. Fully four hundred attended and from half past nine until shortly after three without any intermission the dancing was kept up.

The dress uniforms of the officers and men and the costumes of the highlanders mingled with the more sombre evening dress of the civilians and the evening gowns of the ladies made a colorful scene. The effect was heightened by the decorations. What seemed like thousands of flags hung from the roof and enveloped the walls changing the usually rather bare hall into a delightful ballroom. Colored lights added to the effect and there was the extra military touch of rifles on the walls and other habiliments at suitable points.

The music was provided by a large orchestra made up of Art Easson's orchestra, the Westholme orchestra and the regimental band, varying in numbers from time to time. Everyone present pronounced the music excellent. Colonel Nicholls was in general charge of everything; Regimental Sergt.-Major Brown made an efficient master of ceremonies and committees in charge were:

Invitation: Lt. C. V. Evitt and R.S.M. Brown.

Music: Lt. J. Barnsley and Bandmaster Beale.

Decorations: Lt. Floyd and C.S.M. Robinson and R.Q.M.S. Lamb.

Finance: Major Johnston and Sergt. Unwin.

Refreshments: Ladies' Auxiliary, Capt. P. Tinker and C.S.M. Davies.

Stunts: Lt. Pringle and Pte. S. Bazett-Jones.

Floor Committee: Lt.-Colonel Nicholls, Sergt. Horrobin and Serg. Squires.

Punch bowl: S. Dorreen, Sgt. Murray, Sgt.-Maj. Wright Davies.

Door: Sgt. Unwin, Pte. Bell, Pte. Harris.

The grand march was led by the pipers' band headed by chief piper sturgeon and their playing later in the evening was also much appreciated.

Supper was served by the ladies auxiliary assisted by the members of the regiment and was far above the average. The table cloths were decorated with the colors of the regiment—orange and green—and daffodils and chrysanthemums in green settings helped to carry out the effect. Extra sitting out chairs were provided and everything possible done to add to the comfort and enjoyment of the guests.

With the re-opening of the halibut fishing a little less than a month distant the skippers of the home fleet are getting busy and there is a last minute rush for boat accommodation on the various shipways. The yards around Cow Bay are full to capacity and there is quite a waiting list of schooners to go up for overhaul. Boats not repairing any particular hull repairs are undergoing engine overhal while at anchor. The frosty weather has been much against the painting of boats and it is honed the present break in the frost will continue long enough to enable this work to be carried out on a number of crafi needing a coat of "weather shedder."

The various fish houses have practically completed their machinery repair work and the permanent staffs are now busy piling up fish boxes in readiness for the rush to come.

Work on the waterfront road is going on apace and the wagon road to the provincial dock, which runs behind the fish houses, is nearing completion. The dismantling of the overhead approach to the dock will soon be finished when the right-of-way will be all clear for the continuation of the road.

Fur Activity

This week there has been marked activity in the number of fur arrivals. Fur cargoes have come in from the Naas river and Gardner Canal districts, the catches having been made by both white and Indian trappers. A number of natives from Kitkatla have been out this season after the fur bearing animals. It is the concensus of opinion that the fur catch this year will exceed by a wide margin the catch of last year. The majority of the furs have been sold to local dealers.

Skipper Nulty of the good ship Kate arrived in port on Thursday morning from Oona River with a miscellaneous cargo.

Jimmy's Latest

Jimmy Thomas, the genial skipper of the power boat Viner, is responsible for the latest waterfront joke. Here it is. Two colored stewards aboard an Atlantic liner were discussing the meaning of the words "courtesy" and "tact." Sam was trying to explain the words to his mate Joe. "Now" said Sam "If ah dashed into a bathroom in a hurry and dere was a dame sittin' in de bath I'd bow an' say 'Excuse me, Sir,' and back away. Now, when ah sed 'Excuse me,' dat wud be courtesy, but when I said 'Sir' that would be tact." Joe is still trying to figure it out.

Capt. "Humpy Brown, owner and skipper of the power boat Ox, is in town from Dundas Island and has anchored in Sourdough Bay while he renews a few acquaintances around town. Cap brought in a nice catch of furs including some fine mink and marten.

The tug boat Alcedo, Capt. Andy Alfredson, has gone down to Havener's Inlet to pick up a boom of logs for the Georgetown mill.

Learns Rock Drilling

Capt. Jim Batt, skipper of the Fanny F., and Capt. Harry Lear, skipper of the N. & S., are reported to be learning the art of rock drilling, while engaged on the provincial waterfront road work. The idea seems to be that this branch of knowledge will prove of great value to skippers and will in future be added to the curriculum of navigation. If a skipper should suffer the misfortune to run up on a rock it would be easy, with a few sticks of dynamite and a thorough knowledge of the art of blasting, to extricate her without resorting to towing. No one can say that our skippers are not progressive.

Fireworks

This little yarn is on Capt. "Handsome" Jim Morrison, of Caygeon fame, according to one of a bunch of nauticals, who was telling the yarn on the waterfront. It happened in the days when "Handsome" Jim was captain of a passenger boat and prior to purchasing a fleet of his own.

Acording to the story-teller Jim's boat ran into a terrible storm one night in the south Pacific Ocean. The air was as thick as boarding house soup the wind was so strong that one had to hang on to his character for fear of losing it, while the rain poured down in drops as big as mallard ducks. So strenuous was the tempest that Jim had fears for the safety of his passengers and boat. As is customary in such severe circumstances the captain gave orders to his first officer to let up some distress rockets in the hope of securing aid should it become necessary. The first officer, who was a demon for discharging rockets, proceeded to emblazon the sky with lurid shafts of light. In the midst of the excitement a lady passenger poked her head out of the porthole and shouted "Oh! captain, would you mind postponing the firework display until my little boy wakes up. He's so fond of fireworks and we can never afford any."

The work of raising the deck aft on the schooner Gibson, Capt. H. Newell, is about completed. The work has been executed on the McLean ways.

The schooner Mary Christopher is undergoing an engine overhaul, while anchored in Cow Bay, at the hands of Cy. and Jack Swanson officials of the mosquito fleet mechanical department.

All is happiness once more,
Father dances on the floor,
Mum and brother smile, alas!
Papers say beer by the glass.

Halcrow's Calf

Larry Halcrow's calf, which has been residing in Capt. Swanson's tool shed on the provincial wharf since its arrival from the Queen Charlottes, is coming along fine under the care of Bob Thomas, the duly appointed valet. In fact it is growing so big that the sides of the shed are beginning to bulge as the calf breathes, which gives a sort of animated appearance to the surrounding landscape. It has been rumored that Bob suggested joining forces with Larry, the object being to go into the Bovril business and serve hot drinks at the boathouse. However, it is a fact that Larry and Bob will hold a directors meeting in the near future to decide as to the financial disposition of the animal and doubtless prime beefsteak will be on the boathouse menu before long. The hide of the animal, which somewhat resembles the coat of a bear, is said to be the most valuable part of it, and it is on the cards that "Goldie" Goldbloom will be in on the fur auction.

The tug M.T.3., Capt. Reggie Green, left for the Georgetown mill on Thursday morning to bring down a tow of lumber for the Big Bay Lumber Company.

Capt. Perry, the veteran skipper of the coast, arrived in port early in the week aboard his power boat Jeanette with a cargo of fur. Cap is attending to a little personal business while in the city.

The general utility boat Ol. Boy is on the McLean ways having her cabin and pilot house fixed. The interior is also coming in for a lot of attention.

Jimmy Wins

It is a source of pride to the nautical fraternity that their comrade James Coombs, familarly known as "Jimmy," won the police commissionership at the municipal polls on Thursday and the hearty congratulations of his brother fishermen and the community in general have been extended to the new police commissioner. The election of Jimmy to municipal office marks the first milestone in the career of the local fishermen in municipal government, and it is to be hoped this will auger well for the future interest to be taken by fishermen in electing to office men of integrity, of which there are many in their ranks. That Jimmy will not alone constitute the only milestone along the road of efficient police administration but that others of the same calling will also aspire to posts of honor in the service of the people, is the hope of a large number of the electorate, who hold the nauticals in high regard.

Is your wife wiser than you?

IF YOU read only the stock and sporting pages, and your wife is like other women, she is wiser than you. She reads the shopping news.

She likes to hear you jingle money in your pockets. She likes to stretch money to the limit, so she won't have to ask for more. She likes to shop strategically. Know what she does.

Comfortably at home in a cushiony armchair, she scans advertising columns. She compares, judges and selects the goods she desires; maps her route; with least effort and minimum time, goes direct to the planned store and buys.

She obtains what she wants at the lowest price it is offered. She is certain of full satisfaction, for she knows advertised goods live up to their claims. She saves time and steps, and returns sufficiently alert to enjoy new advertisements---and to prepare you an appetizing dinner.

These advertisements are written for your benefit too. Read them. Help her help you save.

Buying advertised products is a bond investment----not a stock speculation

A GOOD WAY TO INCREASE BUSINESS

Many advertising messages fail to attract attention because they are either unattractive or are too stereotyped.

This is the opinion of one of our busiest and most successful business firms—Albert & McCaffery, Ltd. They have succeeded in interesting many new customers in the story of the famous Nanaimo - Wellington coal and since the coal itself lives up to its reputation these customers are coming back daily for more. Nanaimo-Wellington coal is the premier fuel for the fireplace, range and furnace. More heat—less ash—no rock or clinkers.

You should try Nanaimo-Wellington as soon as your present supply gets low. Better still, if you order some now you can test it out with the coal you are now using. Nanaimo - Wellington stands supreme when a comparative test is made.

ANIMALS WERE EXTERMINATED

Manner of Disappearance of Elephants and Tigers from North Not Explained

POSSIBLY PESTILENCE

Mammoth, Tiger and Horse Disappeared About 100,000 Years Ago

MINNEAPOLIS, Jan. 17—Mammoths and mastodons, numbering thousands, which once roamed the western plains of America, penetrating to Alaska and as far east as New York, died under the blight of some mysterious power of nature, something that the science of man has not yet been able to discover," according to Professor Clinton R. Stauffer, geologist at the University of Minnesota. Not only the elephants of North America, but the horse and the fierce saber toothed tiger, his early contempories, died and vanished in a way that has not been explained.

Three natural assumptions, that they died becasue of climatic changes; that their proper food vanished, or that man slew them must all be abandoned, Dr. Stauffer declares.

Since Glaciers

"At least some of these creatures lived into post-glacial times when the climate was much what it is now, and all could stand temperatures even colder than those of the modern age," says Dr. Stauffer. In the stomach of a mammoth found frozen in Siberia, where he had died, was a meal of vegetation such as still grows. He was the same type of animal that lived in North America. Primitive man lived when these creatures did, but with his small numbers and crude weapons, he stood as much in danger of them as they did of him. He did not slaughter them as his successors did the bison.

"The only modern parallel for such a disappearance in North America is that of the passenger pigeons. Man slaughtered these by the million, but it has never been established that this carnage alone caused their final extinction."

Horse Returned

Dr. Stauffer inclines to the belief that a pestilence caused the disappearance of the mammoth, tiger and horse, although he sees no reason why all should have succumbed to the same disease, nor does he think they all passed at the same time. But they did all live at the same time, and all vanished, possibly 100,000 years ago. The horse alone repopulated part of North America after escaping from Spanish invaders in the sixteenth century. He then proceeded to flourish greatly.

Since last summer when the discovery of several Jeffersonian elephants in Minnesota was reported by geologists, the number was increased to 30. Formerly only about half that number had been known in Minnesota.

Spread of Elephants

American elephants were visitors from far away Egypt in the first instance, Dr. Stauffer says. From Egypt they spread to France and througout Europe and Asia, finally crossing Behring Straits to Alaska. Thence they wandered over North America. North American types included the mastodon and two mammoths, elephas jeffersoniensis and elephas boreus. Still another type was found in South America, to which it had wandered from the Northern continent, Dr. Stauffer asserts.

"Beau Brummel"

A gorgeous screen presentation of Clyde Fitch's famous play of that name. The absorbing story of the famed Beau, dandy, arbiter of fashions and wrecker of fair ladies' hearts. John Barrymore, a superb figure himself, as the insolent, infinitely witty, handsome, most picturesque figure in the social history of England. A great impersonation of a great personality who insulted princes, had three hairdressers at one time to fix his hair, fought off the army of admiring women after bits of his heart, had the soles of his shoes polished, who was a dandy because he had a broken heart. A great star! A great play! A great cast!

MONTREAL OFFICIAL FAVORS RED LIGHT DISTRICT IN CITY

MONTREAL, Jan. 17.—Recorder Geoffroin, testifying in Mr. Justice Coderre's court, at the investigation into local police affairs and vice conditions, asked Judge Coderre to recommend various changes in the administration of the law tending to make it more effective and to take steps to compel every young man and woman contemplating matrimony to undergo a medical examination.

This afternoon's session of the probe saw the conclusion of the recorder's evidence, after he had been the chief witness since the beginning of the present week. What he had to say regarding vice in Montreal, had been eagerly awaited, for Recorder Geoffrion's views that vice must and should be tolerated have made him the butt of several heated attacks by local reform leaders and church authorities.

During the last hours on the stand, Recorder Geoffrion reiterated his contention that disorderly houses must be tolerated for the city's general good. He took "full responsibility" for the existence of the "red light" district, suggesting that a medico-legal commission be appointed to study and report on conditions therein. The court adjourned until next week.
