## UNION BANK TO BE TAKEN OVER BY ROYAL

### CARTER-HALLS COMPANY OF WINNIPEG LOWEST TENDERER ON ELEVATOR

#### Union Bank Sold to Royal Subject to Endorsement by Shareholders of Each, Announces Finance Minister

OTTAWA, May 23.—Hon. J. A. Robb, acting minister of finance, announced last night that he had given his consent to the purchase of the Union Bank of Canada by the Royal Bank, the shareholders of the Union to receive one share of Royal stock for each two shares of Union stock.

The purchase requires ratification by the shareholders of both banks.

Mr. Robb stated that in asking his consent to the agreement of sale the directors of the Union Bank had reported that in view of the substantially reduced earnings with no prospect of an early improvement and the difficulty, "despite rigid economies of curtailing proportionately the cost of operation, they were faced with the necessity of making a drastic cut in the annual dividends, which would result in a substantial drop in the value of the bank shares and further might adversely affect the general standing of the bank. To obviate the possibility of such a serious situation and in order to protect the shareholders and the public as well as in the interest of general financial stability, the directors of the Union Bank after exhaustive consideration, deemed it their wisest course to obtain the consent of the acting minister of finance to a sale to the Royal Bank."

The purchase by the Union Bank of the Royal reduces the number of banks chartered by the Federal government to eleven.

The total liabilities of the Union at the end of March were \$111,688,470 and the total assets \$115,316,741.

The Royal liabilities were \$692,583,051, and the total assets \$695,527,694 at the end of March.

The paid-up capital of the Union is \$8,000,000 and the reserve \$1,750,000. The paid-up capital of the Royal is \$20,100,000, and the reserve the same.

O. B. BUSH IS BACK IN NORTH

Well Known Mining Man to Start Development Work on National Silver at Stewart

Paying his first visit to the north since 1920, O. B. Bush, prominent mining man and one of the early owners of the famous Premier mine, is going through on the Prince Rupert today bound for Stewart. Mr. Bush, who has been spending some time in California in the oil game at which has had some success, is to start development work on the National Silver Mines, Ltd., property which lies north of the Premier close by and is said to run into its vein.

Perhaps the property is better known under its former name of Bush mine which, however, has been added to. A contract has been let to Boyle Bros. for diamond drilling.

Mr. Bush is president of the National Silver Mines Ltd.; Jas. A. Shaw (Vancouver) vice-president, and directors are Angus Stewart, George Black, M.P., H. J. Bush, M. Lodge (Moncton, N.B.) and M. R. Bush.

HON. T. D. PATTULLO SENDS CONTRIBUTION TO CHILDREN'S WARD

Hon. T. D. Pattullo, member for the district has sent the following personal letter to the editor of this paper accompanied by his check:

"Dear Mr. Pullen, "I notice by the press that a campaign is being carried on in Rupert for the benefit of the Children's Ward of the Hospital and have pleasure in enclosing cheque for \$20.00 toward this fund. I trust that the campaign will be very successful.

"Faithfully yours, "T. D. PATTULLO."

#### BUCKLEY BAY CLOSED DOWN

Manager and Other Officers of Massett Timber Co. Arrive in City on Way South

The last fifteen men left at the Massett Timber Co.'s mill at Buckley Bay will proceed south to Vancouver at the first of the week and the plant will then be in charge of two or three watchmen stated R. R. Maxwell, manager of the plant, who arrived in the city this morning on the Prince John on his way south.

Jack McDonald, former accountant at Buckley Bay and more recently purchasing agent for the company at Vancouver, arrived in the city from the south today and will proceed tonight on the Prince John to Buckley Bay. He will be in charge of the plant during the period of its shut-down.

Mr. Maxwell states that the company is going to sell its logs and the \$10,000 stock in the general store there. The mill is not expected to reopen for at least a year's time.

Mr. Maxwell is accompanied by his wife and there also arrived on the Prince John Dr. Guy Palmer, who has been physician for the company, and J. R. McWilliams, who has been in charge of the wireless station at Buckley Bay. They will all go south on the Prince Rupert tomorrow night.

#### Carter-Halls Company are Lowest Tenderers on the Prince Rupert Elevator

(Special to Daily News)

OTTAWA, May 23.—The tenders for the Prince Rupert elevator have been opened and consideration is being given to the various bids. No contract has yet been let.

While nothing official has been given out in connection with the tenders, it is understood that The Carter-Halls Company of Winnipeg are the lowest bidders.

The Carter-Halls Company built the elevator at Edmonton and they have been doing big jobs of that nature in different parts of the country, including Vancouver.

#### Buckley Opening up Logging Camp on Queen Charlottes to Supply Local Mill with Logs

On his way to Port Clements where he will open up a logging camp which will produce logs for the Prince Rupert Spruce Mills Ltd., and possibly his own mill at Port Clements when it is reopened, Frank L. Buckley, well known lumber operator of this district, arrived from Vancouver on the Prince Rupert this morning and will sail tonight on the Prince John for the Queen Charlotte Islands.

Mr. Buckley announces that this new camp will employ to start with about 25 men. A. E. Johnstone is with Mr. Buckley and will be superintendent of the camp which is to be located in extensive timber limits held by Mr. Buckley on Massett Inlet.

Regarding the Port Clements mill, Mr. Buckley stated that it would start cutting as soon as conditions permitted but that would probably not be for some months at least.

Also accompanying Mr. Buckley on this trip is W. E. Salmon, chief inspector for Viekers, the big British airplane manufacturers at Weybridge, England. Mr. Buckley has taken a large contract to supply Viekers with airplane spruce and has sub-let orders to district mills including the plant here which they visited today.

#### SHOCKLEY & HANSON GET SMITHERS JOB

Will Build New Government Building There—Shockley Coming to Supervise Work

Olof Hanson and E. H. Shockley have been awarded the contract for the erection of the new government building at Smithers. It is expected that Mr. Shockley will come north from Vancouver shortly to supervise the work.

#### EXPLOSION IN FORD MOTOR BUILDING AT WINNIPEG EARLY TODAY

WINNIPEG, May 23.—Thirty men were hurled to the floor, several sustaining injuries, near-by buildings were rocked when the enameling department of the Ford Motor Co. at Portage Ave. was wrecked by a gas explosion this morning. Much machinery was wrecked.

#### Terrifying Earthquake Southern Japan was Worst in Thirty Years

TOKIO, May 23.—The department of communications announced today that more than 200 persons are believed to be dead and several hundred houses damaged in an earthquake and fire at Kinokawa Springs, the famous resort visited by tourists. It is not believed that any of the foreigners are victims.

Another report states that the railroad train was buried in a collapsed tunnel near Ashiya.

LONDON, May 23.—Tokio reports state that the earthquake in southern Japan was of a terrifying nature and the shock was the worst felt in 30 years.

OSAKA, May 23.—A severe earthquake occurred at 11.08 this morning centred in the Tajima district 80 miles northwest of Osaka. It is reported that 200 houses collapsed at Toyo Oka. There were numerous fires and railroads and telegraphs to the north coast were interrupted.

#### PRINCE JOHN BACK IN SERVICE AGAIN

Arrived This Morning at 8 o'clock from Vancouver and Islands—Capt. McLean in Command

After a month's lay-up in the south for general overhaul which, however, did not include dry docking, C.N.R. steamer Prince John, with Capt. Neil McLean on the bridge, arrived from Vancouver via the Queen Charlotte Islands at 8 o'clock this morning and is scheduled to return south by the same route at 8 o'clock tonight. The trip up the coast was a fine one with the exception of some fog the first day out of Vancouver. The vessel, which was delayed through having to unload 140 tons of coal at the Naden Harbor whaling station, brought a few passengers here and a small freight cargo including salt and empty tierces for the Canadian Fish & Cold Storage Co.

#### EMPIRE DAY LESSONS TAUGHT IN SCHOOLS

No Demonstration this Year but Instead There were Practical Talks on Patriotism

Yesterday was Empire Day in the schools and the pupils instead of having a procession and public gathering were given lessons on patriotism in their individual rooms.

A number of the teachers gave lessons on the flag. The political position of Canada as a part of the British Empire and its position as a self-governing nation.

OTTAWA, May 23.—Hon. E. J. McMurray, solicitor general, tendered his resignation and it has been accepted. Premier Mackenzie King announced in the House of Commons.

Mr. McMurray said he resigned because of "matters of a professional and private nature, which it is understood refer to the indebtedness of the legal firm of which he is a member to the defunct Home Bank."

#### PRINCE ALBERT HAS BEEN SOLD

Will be Overhauled at Yarrow and Returned to Service

VANCOUVER, May 23.—The steamship Prince Albert has been released from custody at Victoria where she has been held since last October following a libel against her by the Commercial Pacific Cable Co. of San Francisco having been sold to Ernest Wild, a Vancouver broker, it is announced.

The cable company claimed \$190,000 from the former owners for alleged damages when the vessel's anchor fouled the cables while lying off the California coast on two occasions.

The parties are understood to have reached an amicable agreement, the terms of which are not announced.

Wild paid \$12,208 for the ship. (Special to Daily News)

VICTORIA, May 23.—The steamer Prince Albert which has been in custody of the marshal here with \$190,000 libel plastered on her will be thoroughly overhauled at Yarrow and return into service.

**Good Type of Men In Political Life.**

The nomination of George Bushby as candidate to contest this seat on behalf of the Conservatives at the next Federal election is another evidence of the trend of the times to nominate men of the best type for positions in public life. There are, of course, exceptions to this, but the general tendency is that way.

Liberals as well as Conservatives will welcome the nomination of Mr. Bushby, feeling that no matter what may be the outcome of the next Federal contest, the interests of the constituency will be in good hands. Having good men in the field on either side raises the campaign above personalities and gives the people an opportunity to discuss policies.

**Stayed With Job For Many Years.**

It seems so unusual for a man to stay with his job for many years in this country that when it does occur it is worthy of note. Recently there was a printer died in Winnipeg, Arthur Judd, who had been connected with the mechanical department of the Manitoba Free Press for forty years. For 25 years of that time he was foreman in the composing room.

Forty years is a long time to be with one firm in Canada. He must have seen the paper grow up from very small proportions to the fine sheet it is today. Incidentally it may be mentioned that Mr. Judd was an Ontario man.

**Is Woman Liability To Man During Life?**

The question is discussed in a current magazine whether a person marrying is incurring a liability. Is woman a liability to a man or an asset?

In spite of all the arguments to the contrary it may be laid down as an axiom that two cannot live as cheaply as one. In that respect, perhaps, woman is a liability. It is not in that sense, however, that the question is raised. What it is aimed to find out is whether woman helps a man in his life work or is a drag upon him.

Of course it all depends on the woman. Some women have no sympathy with the aims and aspirations of a man and do everything possible to discourage him. That was true of the wife of John Wesley, the founder of Methodism. It is said of her that she would sit at the back of the church and make faces at her husband while he was preaching. She ridiculed him and put stumbling blocks in his way whenever possible.

Yet anyone who has friends must know of cases where the woman is an inspiration to the man, encouraging him in his work, sympathizing with him in his failures and strengthening him in his resolves. So much depends upon the woman. Even in the case of Wesley, his wife probably helped him, as the failure of his home life turned his mind wholly to the task he had in hand.

**Good Thing Sometimes To Forget Work.**

Sometimes we do not attend to business closely enough and then again we do not play well enough. Today everyone is thinking of play rather than work, for there is a big holiday Monday when almost all people get away from the routine task in which they are engaged.

The person who does not work hard and keep at it during business hours will never make a success. So the person who does not at times throw off the cares of business and give himself up to some recreational occupation is not likely to be able to do the best work.

For the holiday, our suggestion is to those with an unfinished task, "Forget it."

**WHEN OPPORTUNITY COMES**

HOW much money have you "put by" at the present time?

Enough to pay a doctor in case of sudden illness in your family? Enough to make a payment on a home should you be offered a bargain? Enough to take advantage of a sudden business opportunity?

Ordinary opportunities, ordinary happenings, these, yet how many are ready for tomorrow's big chance—tomorrow's emergency? The man with a good bank balance is always ready for the unexpected.

Our booklet, "THE MEASURE OF YOUR INCOME," will help you. Ask the Manager for a copy.

**LORD FRENCH AND HIS WORK**

**Famous General Had Difficult Position in France and Later in Ireland**

The Earl of Ypres, formerly Field Marshal Viscount French, Lord Lieutenant and Governor General of Ireland, relinquished command of the British forces in France and Flanders to Field Marshal Sir Douglas Haig in December 1915, after 16 months of warfare with the Germans. Until then he had been termed "the luckiest man in the British army."

Outnumbered by the enemy and short of high explosives needed to halt their advance, he had handled the sorely tried British army in a masterly way in its strategic retreat from Mons. A few weeks later, with nearly 1,000,000 men, he fought the historic battle of Ypres, the winning of which barred the Channel ports from the Germans and saved England from invasion. It was at Ypres that the Germans first resorted to their deadly asphyxiating gas attacks.

"The glorious troops under my command had gone valiantly to their death," Field Marshal French wrote, "when a few more guns and a few more shells would have many times saved their sacrifice. And still no sufficient supplies came." Criticized at home for permitting the Germans almost impregnable to entrench themselves, the Field Marshal became engaged in a controversy with his old South African commander, Lord Kitchener, then Secretary of State for War.

**Kitchener's Burden**

Lord Northcliffe of the London Times had gone to the British front and, upon his return, bluntly told the facts of the shell shortage. Kitchener, "for almost 10 months head of the British War Office with a free hand and absolute control," was shown to be bearing a burden too much for any one man. Parliament passed a bill creating the Ministry of Munitions and David Lloyd George, then Chancellor of the Exchequer, took the new post in the incoming coalition government. It was Lloyd George's eloquence that awakened the shop workers of Great Britain to a realization of their country's peril, resulted in a tremendous output of shells and other war implements, and ultimately made the Welsh statesman Premier. Lord Kitchener, his burdens lightened but still Secretary of State for War, started on a diplomatic and military mission to Russia. He perished at sea when the warship conveying him struck a mine and sank with all hands aboard.

To revert to French's "luck," He was 41 years old and a half-pay Colonel on the retired list in 1893. He had been shelved to give younger officers a chance. In 1895 the British military authorities decided to revise their cavalry drill book. Sir George Luck, then Inspector of Cavalry, under whom French had served in India, chose him to write the new regulations. It was a success. French was made Assistant Adjutant General of Cavalry and thereupon headed direct for the command of the "first hundred thousand" British soldiers who met the first terrific German onslaughts. Meanwhile he had won distinction as a cavalry leader in the Boer War for which he was knighted and given a Lieutenant Generalcy. For two years before the outbreak of the World War he was chief of the British Imperial Staff.

**Ulster Trouble**

In March, 1914, there had been trouble in Ulster over the organization of Sir Edward Carson's "volunteer army" opposed to Home Rule. Troops at the Curragh camp had been ordered to Belfast and a number of officers had resigned. General Paget, in command, urged the government that officers with family connections in Ulster should not be sent there. Lord French had signed a memorandum, agreeing to Paget's request and the government repudiated the document as permitting "optional obedience" whereupon numerous British army officers, including Colonel Seely, then Secretary of War, and General French, resigned as chief of staff. Premier Asquith assumed the added duties of the War Department. The Irish political situation, however, underwent a change and many of the officers, including

**HER HEADACHES WERE SO BAD SHE COULDN'T DO ANYTHING**

Once the head starts to ache and pain you may rest assured that the cause comes from the stomach, liver or bowels, and the cause must be removed before permanent relief may be had.

**BURDOCK BLOOD BITTERS**

There is no better remedy for headaches of every description than as it removes the cause of the headaches in a way that no other remedy will do. Mrs. Wm. Heward, Lower Stewiacke, N.S., writes:—"I suffered for a long time with my head. It would ache and ache until it made me so sick I could not do anything, but after taking four bottles of B.B.B. I feel that I cannot recommend it too highly to all those suffering from headaches of any kind."

B.B.B. has been on the market for the past 46 years and is recognized by all who have used it to be without an equal as a remedy for headaches; put up only by The T. Milburn Co., Limited, Toronto, Ont.

General French, withdrew their resignations.

Upon his retirement as Commander-in-Chief of the British forces in France and Flanders, Field Marshal French was created a Viscount and designated as Commander-in-Chief of the armies of the United Kingdom. He served in this capacity until May 11, 1918, when he was made Lord Lieutenant of Ireland, much to the surprise of the Irish Nationalists who expressed the belief that Lord French's administration would be characterized by repressive measures. On December 19, 1919, when the Lieutenant General was motoring in Ireland, an attempt was made to assassinate him. His car was ambushed and fired upon but he escaped injury.

**Student of Napoleon**

Field Marshal French was a great student of Napoleon, the soldier, and believed him the greatest strategist the world ever knew. In following out Napoleon's campaigns in detail he personally covered and studied much of the very ground in Belgium over which, years later, he was to combat as formidable a foe as the Little Corporal faced at Waterloo. His favorite authors were Dickens and Thackeray and his favorite books "Bleak House" and "The Book of Snobs."

He was of Irish descent, born in 1852 and the son of a British navy captain. For four years the future head of the British army was a naval cadet and midshipman but abandoned the royal navy to enter the army of which he later became the Commander-in-Chief.

**AIRPLANE FOR SEAL HUNTING**

**Flyer Going North From Here Spent Winter in Newfoundland on Interesting Work**

C. S. Caldwell, who will go north from here as mechanic on the Vickers Viking flying boat taking Archibald Little, Detroit mining engineer, to the Cassiar gold fields, came to the city from Newfoundland. During the winter he was piloting an airplane used by sealing vessels for locating their catches in northern Atlantic waters.

The machine, used in this work, is of the type known as a Baby Avro. Moored to the sealing ship, it is slid off onto the ice from which it takes off and lands, the machine having skids instead of pontoons or landing wheels. Of a diminutive size, the Baby Avro has a wing spread of thirty feet, is propelled by an 80 horse-power rotary motor and carries two persons.

*The Sudsy Way*

House cleaning time calls for fresh, sudsy baths for all the winter bedding, so that it may be neatly put away. But are you going to try this season to do up all those heavy woollen blankets yourself—when you can be relieved of this really fatiguing work by having us do them for you? We wash your blankets, cotton and woollen, in the foamiest of billowy suds and pure, soft water, at just the right temperature. This gentle treatment gives them a rich, velvety feeling, and preserves the nap in its original fleecy condition. After a thorough rinsing we dry your blankets in currents of pure, warm air, as hygienic as a sun bath—pure air and that restores to them all their fine and downy quality. You can send us your woollen blankets and eiderdown quilts with perfect confidence. Phone No. 8, and our driver will call.

## FIRE BRIGADE FOR SMITHERS

New Organization Being Formed Under J. S. Kennedy at Interior Centre

SMITHERS, May 23. — Active steps to form a volunteer fire brigade for Smithers were started on Wednesday afternoon at a meeting held in the Municipal Office, when, at the request of the village commissioners, the business men of town gathered to discuss this question. It was unanimously agreed that immediate action should be taken to overhaul and make additions to the fire fighting equipment now on hand. To make this possible the commissioners agreed to provide a house for the chemical wagons and to purchase additional ladders, buckets and other necessary apparatus.

In the selection of a fire chief to organize and take charge of a volunteer fire brigade. The unanimous choice was J. S. Kennedy who has acted in this capacity before in Smithers. The new chief started right in on his duties after the meeting and took stock of the present equipment and listed the stuff that will have to be purchased. He also started enlisting volunteers for the fire brigade and is receiving good response from the men of the town, who all express a willingness to help in this respect.

## MONTH IN JAIL TO INDIAN FOR ASSAULT

Naturalization Papers Granted by Judge Young and Will Probated

SMITHERS, May 23. — His Honor Judge Young of Prince Rupert conducted a session of the County Court here on Thursday. There was only one criminal case, that of Johnson Williams, an Indian, who was charged with assaulting another native, Gordon Mackay, on May 8. There was also a second charge against the same man, that of breaking jail on May 10. He was found guilty on both counts and sentenced to one month in jail for each, sentences to run concurrently.

H. L. Robinson acted for the defendant and L. S. McGill for the Crown.

Four applications for naturalization papers were granted: Bernhard Nelson and Frank Strauss of Smithers, and Erick E. Backlund and John A. Nyberg of Esk.

The will of Peter Hagglund, an old timer of the Kispiox Valley, who died in March, 1924, was passed for probate.

## SMITHERS

C. H. Sawle and S. H. Senkpiel of New Hazelton spent a couple of days in town returning home on Wednesday in the new Ford purchased by Mr. Senkpiel.

W. S. Henry, the local Ford dealer received his third carload of these popular cars this week.

The regular monthly meeting of the Anglican Church Women's Auxiliary was held at the home of Mrs. R. Champion on Thursday afternoon. Arrangements were completed for holding the next bi-monthly tea and sale of home cooking which is to be at the home of Mrs. H. G. Windt on June 4.

Peter Carr, chiropractor of Vancouver, a brother of the Carr boys arrived in town on Wednesday evening and is renewing old acquaintances.

Shel Robinson of Unea Valley and a former Smithers resident arrived on the delayed train Wednesday and will spend a couple of weeks in town.

Stephen H. Hoskins, registrar of voters for the Skeena Electoral District, left on Thursday for points in his district west of here and will conduct Courts of Revision in connection with the voters' list.

A. Fred Dunn, a Smithers student of Edmonton University, is receiving the congratulations of his friends on his winning a first year scholarship for general proficiency in medicine and surgery.

The marriage of Percy A. Claridge of Hanall and Miss J. Overend of Belfast, Ireland, was solemnized in the sitting room of the Bulkeley Hotel on Wednesday evening. The happy couple left on Friday morning for Hanall where Mr. Claridge is employed as a millwright.

The athletic association has received two requests from neighboring towns for teams to participate in the Empire Celebrations next Monday, and the boys are turning out for practice every night. The football team is billed to play the Telkwa team at the race meet in that town, and the baseball team has been asked to play at New Hazelton.

## TELKWA

Plans for the spring race meet to be held on May 25, are well under way, and a day full of interest is assured those who attend.

For several days the water has been very high in both Bulkeley and Telkwa rivers. In many places the roads have been almost impassable, and people living near the river have had to do a little mountaineering to get into their respective homes.

Mrs. J. Green of Tye Lake is the delegate of St. Stephen's W.A. at Prince Rupert.

F. B. Chettleburgh returned on Wednesday's delayed train from a trip to Popley near where he is interested in mining claims.

M. Svendsen and a number of men have been busy at the sawmill at Tallow for several days. Miss G. Banks left on Wednesday night for Prince Rupert, where she has accepted a position with the firm of Linzey & Davies.

Mrs. Harry Willis entertained the ladies of St. Stephen's W.A. at her home on Tuesday.

## GOING WITH SHRINERS TO VISIT CALIFORNIA

Ralph Le Pine, accompanied by Mrs. Le Pine, will sail tomorrow night on the C.N.R. boat for Vancouver on an extended holiday trip in southern cities during which he will attend a meeting of the Imperial Shrine in Los Angeles on June 4, 5 and 6, as a

member of the Divan of Gizel Temple. The band patrol and nobles of Gizel Temple, Victoria, will leave Vancouver by special train on May 29 to attend the Los Angeles festivities and Mr. and Mrs. Le Pine will go south with the party. The Gizel Temple of Victoria is holding a shrine ceremonial in Vancouver today.

## ANYOX CHILDREN MAKE A BIG HIT ANGLICAN CONCERT

No Grownups Took Part Except as Accompanists and Orchestra

ANYOX, May 22. — Those who attended the children's concert under the auspices of the Anglican Church, a few nights ago, were as greatly surprised as they were pleased not only with the excellence of the entertainment but with the variety of talent demonstrated. There wasn't a grown up who had anything to do with it except the accompanists and orchestra which played several overtures. Opening the evening's program, the Elks' Orchestra, already a favorite institution, won fresh praise for their selections. The second item was a song by a quartette of boys, John Gillis, Lawrence Kirby, Sidney Armstrong and Walter Johnson, who have been undergoing intensive training under the leadership of Frank Dreyer for some time. They received well merited encores, following this number the Misses Tess Gordon, Vera Eve and Patricia O'Neill danced "La antana" with a spirit that could be hard to excel anywhere. All three girls were particularly graceful. A treat was the reciting of Miss Hattie Young. Little Miss Young is a new comer to Anyox, but she will be a welcome contributor to future entertainments. Toe dancing was demonstrated by Misses Edna Berlin, Flo Kelley, Dora Grigg and Jean Robertson, while Frances Kelley did the "Pas De Seul" and had to repeat it.

At the piano, Miss Pearl Jago showed considerable talent, as did Christina McLeod with her violin playing. Both these young lady contributors had to respond to encores. The "Benita Caprice" was danced by the Misses Dora Grigg, Joan Whelan, Dorothy Dodd, Audrey McMillan, Nan Dunn, Helen Simpson, Jean Robertson, and Hattie Young. Flo Kelley did an interpretive dance called "Joy"; Tess Gordon and chorus did a sailor's hornpipe and sang a sea song; Dora Grigg, Hattie Young and Jean Robertson were seen on a Japanese dance, while "Pierrette At Play" was the occasion for Mrs. Kelley's senior class of dancers to exhibit their accomplishments. The Misses Vera Eve, Hazel Dwyer, Tes Gordon, P. O'Neill, Kathleen Eve, Flo Kelley, Edna Herrin and Agnes Kruzick were seen in this number, which was splendidly executed, and won a lot of applause. Two other numbers by Mr. Dreyer's boys were also given, while Alex. Cameron and Jimmie Foxley put on a duo which was introduced into the program at the last minute, and they made a big hit.

Mrs. Ringstad and daughters, Geraldine and Jeanette, were passengers on the Princess Beatrice this morning bound from Bellingham to Port Edward where Mr. Ringstad is manager of the Pacific American Fisheries Co.'s cannery.

Mr. and Mrs. H. K. Christensen, formerly of this city, and family were arrivals from Selma, California, on the Princess Beatrice this morning. They are staying at the Prince Rupert Hotel.

Doings of the Mosquito Fleet which is the chief source of Prince Rupert's prosperity

**Business Brisk**  
All departments connected with the fishing industry report that business has been brisk this week with collections slightly easier.

The waterfront shipyards have a number of boatbuilders employed upon the building of new power boats while the repairing end and the building of skiffs and rowboats has been particularly busy lately.

While the halibut arrivals have not been heavy, the prices offered on the Fish Exchange for both first and second class fares have kept at a remunerative level and it is the consensus of opinion the halibut prices will have more of a tendency to creep up than to slide down from now on. The weather on the deep sea fishing grounds has not been of the best but no very severe storms have been encountered and fishing has been well up to the average in volume for the time of year. No untoward happenings have been reported.

From reports to hand the salmon trollers operating in the vicinity of Dundas and Hippo Islands are meeting with good success and the spring salmon are running well up to the average for the time of year. All boats of the trolling fleet are out, one or two of the "luggers" getting away this week.

### Lots of Natives

This week has seen a considerable number of native craft anchored in Cow Bay and surrounding waters from Kitkalla, Port Simpson, Melakalla and other northern points which put into port for supplies on their way to the canneries and trolling grounds. Most of the boats have been doing mechanical repair work and otherwise overhauling their boats before engaging in the final dash of the journey.

### Challenge Accepted

Jack Nicholls, of Cold Storage fame, has picked up the gauntlet thrown down by George Bushby, of tow boat fame, in last week's issue of the Whiffs wherein the latter challenged the W.R. Lord. The result of the race, which is expected to be pulled off any day now, will be published in these columns, so order your copy of The News early to avoid disappointment. The stakes are "high", both as to value and smell. George bets a sack of fertilizer against Jack's box of kippers but there are strings to the stakes. If Jack wins the fertilizer it will be on condition that it is only used for "pepping up" the plants and ferns inside the house and upon no account is to be used on the garden outside. Jack's condition is that if George wins the box of kippers they are only to be cooked upon the electric range and fried in oilichan oil. If the tugboat owner cannot eat them that way he will have the satisfaction of knowing that his house has been perfectly fumigated against the persistent mosquito or any other insect gifted with a taste for human blood. It is understood that the course of the race will be laid out with "empty" beer kegs to prevent any enforced breakdowns on the way. Arthur Little will probably make a book on the outcome of this auspicious sporting event.

A Columbia river boat is being remodelled for Cecil Ross of Port Simpson on the Suga ways. The boat will be converted into a salmon troller and when completed will be powered with a brand new 6 h.p. Vivian engine.

A new keel for a 32 foot seine boat is being laid at the Suga ways for Andrew Lewis of Kitkalla. The beam will be 9 feet 6 inch and the boat will be powered with a 14 h.p. Frisbee engine.

With old King, Sol beaming in right royal fashion on Sunday last the Yacht Club wharf was all hustle and bustle and every boat was put into commission on

picnic dashes. From early morning until late in the afternoon members were leaving the floats and it was late in the evening before the final boat was berthed on the homeward bound voyage. Any engine that had a "kick" at all left in it from last season was given the juice and made to perform its function of carrying heavy baskets of "goodies" to say nothing of the human freight.

W. Ridley, Lowe Inlet, is installing a 12 h.p. Fairbanks-Morse gas engine in his boat Snooks in place of a 5 h.p. Frisbee.

### Yacht Club Gala

On Thursday, June 4, the Yacht Club will put on a regular gala day including power boat races, rowboat races, canoe races and other amusing stunts. A picnic "a la floats" will be held by members and their friends. The sports will include a power boat race for the Yacht Club silver cup in which all boats will participate, a handicap boat race in which the winner will take the "pot" subscribed to by the entrants, men's and ladies' mixed doubles, men's and ladies' singles, and a speed boat race over a six mile course. The day promises to be a humdinger in the sporting annals of the city and members are busy getting everything in apple pie order for the occasion.

The new Universal engine has arrived for C. G. Minns' boat and will be installed immediately.

The power boat Nechako, owned by G. H. Arnold, will shortly be taken up on the McLean ways for a general overhaul.

A. Macdonald's newly acquired coastal cruiser Vaquero is to take a prominent part in the Yacht Club festivities on June 4, and to this end the work on the installation of the 35 h.p. Sterling engine is being rushed.

Mr. and Mrs. Ward are leaving over the holiday week and aboard their power launch Eva on a fishing trip to Spiller River.

### New Machinery

Several new and up-to-date machines have been installed at the Miller Cannery, Seal Cove, to take care of the salmon canning operations to be undertaken this season. Among the latest machines to be installed is an automatic can filler. Three electric motors to drive the new machines have been installed by the Ward Electric Company, one of 15 h.p. and two of 5 h.p. capacity.

The Canadian schooners E. Lipsell, Gibson and Wave have been up on the Ward ways for painting this week.

### McLean Busy

The new Wicks' halibut boat is nearing completion on the McLean ways and it is expected the hull will be given its first taste of salt water today. The boat will be powered with a Vickers-Peters 24-28 h.p. semi-deisel engine.

The 20 h.p. Hein Skibsmotor engine has arrived from Denmark for the new Havmoller 38-foot halibut boat. The keel will be laid as soon as the Wicks' boat is clear of the ways.

Joe Howe is re-modelling a 35 foot boat on the Cow Bay creek ways in which will be installed a 4 cycle Buffalo engine.

The installation of an electrical starting device on the semi-deisel engine has been completed on the tugboat P.R.T., of the Bushby towing fleet, and the famous tug is now ready for any marine business that offers.

The tugboat M.T.3., Capt. Reggie Green, flagship of the Bushby towing fleet, left port at 8 o'clock yesterday morning for the Georgetown mill to bring

down a carload of lumber for the Big Bay yards.

The new halibut boat Alken, Capt. Hanson, left on her maiden trip to the hilbul banks this week.

The power boat Petrel, Reuben Leighton, was in port from Melakalla this week and had a new exhaust fitted at the Akerberg Thomson shops.

Oscar Strum has purchased a 5 h.p. Imperial gas engine from the Canadian Fish & Cold Storage Co., which he is installing in his boat prior to leaving for the Dundas Island salmon trolling grounds.

### Going Logging

Axel Anderson arrived in port on Monday morning from Butedale aboard his schooner Rose McCoy. Axel is quitting the halibut fishing and will in future devote his earnest attentions to logging. While in port he equipped himself and craft for logging operations and has now proceeded to his camp situated on the shores of Milbank Sound.

### Fine New Boat

The new general utility power boat recently built at the Vancouver shipyards Ltd. for Messrs. Gammon & Waff has arrived in port. She is a fine looking craft and has a fast turn of speed. The boat measures 62 feet long by 15 feet beam and is powered with a 60 h.p. 4 cylinder, 2 cycle, Fairbanks-Morse oil engine. She is built of fir with oak finishing and hardwood stern with the usual seine boat layout. The new boat is to be commissioned in the fish packing business this season.

The Violet J., a new tender for the Lockport Cannery, Queen Charlotte Islands was in port this week. The boat was built by Erickson Brothers, North Vancouver. Her dimensions are 54 feet long by 13 feet 8 inch

beam and has a depth of hold of six feet, 1 inch. The boat is powered with a 40 h.p. Danish deisel engine and has an auxiliary 3 h.p. gasoline engine for charging batteries, etc. when the big engine is not running.

Gasper Gordon, of Sunnyside cannery, is having a seine winch installed on his power boat Dolphin.

### The New Cook

Yes, sir, it served him durned well right. He kept looking for work and eventually found it as cook on the Beaver cannery tender Hope, and that's where Geo. Murray got the name of the White Hope. Anyway George was always a good sport and we hope the crew of the Hope will not hope for better food in vain. Someone on the waterfront remarked the other day that George looked as though he had something heavy on his mind and now we know what it was. George was dying to cook a cake for the welfare of the inner man. Some wit once remarked that "a piece of George's cake was good for belly ache" and we are game to take his word for it. It has been said that one of the beauties of this life is to see George in his white cap trying to whip the yellow color out of the yoke of an egg. Yes, sir, he's mighty particular too, is George, about the ingredients in his messy results. If an egg says a word back to him it never gets a second chance to speak, he strangles it right there. And clean, why George is the acme of cleanliness. He even dusts the coal before he puts it on the fire. And honest, why George is so honest that if a bee left a sting in him he'd give the sting back to the bee. And good, why George is so good that if you pass any unsanitary remarks about his cooking he'll make you eat the whole works. If you chance to see a body of well fed looking men up-town, who can't get into the stores because the

## SHOT GRIZZLEY GARDNER CANAL

Capt. Larson and Party Arrive on Polar Bear After Interest-Trip

"We sure had a great trip up the coast and met with wonderful hospitality at all points" said Captain Louis Larson upon his arrival in port yesterday evening accompanied by Roland Aston and Dunk McGiven aboard the power boat Polar Bear, owned and skippered by Capt. Casperson of Bella Coola. The Polar Bear came in from Channel Island, Gardner's Canal. Capt. Larson has been spending six months' trapping and hunting along the coast having left Fanny Bay, situated on the east coast of Vancouver Island, on January 4, aboard his power boat Water Vag accompanied by Roland Aston, Fred Larson, Andrew Anderson and Dunk McGiven.

The Water Vag met with Capt. Casperson at Channel Island and as he was coming into Prince Rupert Capt. Larson took advantage of the trip leaving his own boat in care of his brother Fred and Andrew Anderson. The party have been stopping over at various points down the coast and has taken every opportunity to enjoy shooting in season to say nothing of fishing and sea lion hunting, while particular attention was paid to the hunting of grizzly bear.

While anchored in Long Inlet a fine grizzly bear was shot right on the beach and a monster grizzly was sighted on the hillside and this party intends to get on its return trip. Capt. Larson is staying with his sister and brother-in-law

## Sport Chat

There will be an interesting program of sport on Monday in connection with the Empire Day celebration being staged by the Elks and Fair Board. Plans are well in hand and only the good graces of the Weather Man are now required to ensure complete success. In the morning on Second Avenue the road races will take place. These events have been carefully planned by the committee in charge and it is hoped that they will mark the inauguration of similar events to be held every year. The program for the afternoon at the Fair grounds will include baseball and football games between local select teams.
