## JANET SMITH MURDER CASE IS PROCEEDING

## ARGENTINEAN AVIATOR MEETS WITH ANOTHER SETBACK ON WORLD FLIGHT

### Body of Nursemaid was Burned After She Died According to Physician

VANCOUVER, May 13.—Evidence of Dr. W. A. Hunter, who performed the autopsy on the body of Janet Smith two days after death, and the appearance of F. L. Baker on the witness stand, featured yesterday's session of the preliminary hearing of the case against Wong Foon Sing, charged with murdering the Scottish nursemaid last July.

Dr. Hunter testified that to the best of his belief the burning on the girl's body occurred after death and stated the fact that the body was embalmed greatly interfered with his work.

From Dr. Hunter, crown counsel elicited a statement that cocaine causes sudden death with some people, even when administered surgically as a local anaesthetic. The significance of this statement has not yet been revealed.

Mr. Baker's evidence was much along the same lines as given at previous inquiries but crown counsel stressed the fact that there were several discrepancies between the evidence given yesterday and that of previous occasions.

Mr. Baker was on the stand when the case resumed this morning.

Representatives of the fruit industry estimated that cider would mean hundreds of thousands of dollars annually to the growers of the province as it would give an outlet for low grade apples.

The Government expert reported that the proposal was impracticable as cider would not mix with beer, stating that nothing produced a "jag" quicker than drinking cider on top of a little beer.

### UNION OF TWO CHURCHES NOW

Congregational and Methodist Congregations Propose to Form One at Victoria

VICTORIA, May 14.—One of the first fruits of Church Union here is a proposal to unite two struggling congregations, that of the First Congregational Church with Centennial Methodist. The former has always found it difficult to get along and the latter has not recovered from the sear formed when the Church forced Dr. Glen Davies to leave and set up for himself, forming what is now the City Temple, the largest congregation in Victoria.

A joint committee of both churches has reported favorably on the financial and practical aspects of such a union and the question is now being dealt with by the congregations separately.

### MOOSE TEMPLE BEING PLANNED

Lot on Fraser Street Near Salvation Army Hall is to be Purchased

The local Moose Lodge is planning the erection of a temple in the near future, the project to be financed by the floating of bonds among the members. A lot on Fraser Street near the Salvation Army citadel is to be purchased.

### PROSPECTORS ARE DELAYED

(Special to Daily News TELEGRAPH, CREEK, May 14.—The three Barrington boats carrying over 100 prospectors for the Dease Lake country and freight which left Wrangell last Sunday have not yet arrived here. There is great deal of ice in the Stikine River yet and it is presumed that the jams are causing the delay to the boats.

### FAMOUS AUTHOR ENDS CAREER

Sir Rider Haggard Author of King Solomon's Mines Died Today

LONDON, May 14.—Sir H. Rider Haggard, writer of romances and author of works on agriculture and other similar solid subjects, died here today at the age of 69 years.

While Sir Rider had been prominent in England for many years taking part in public life and writing on land and agricultural problems it is for his novels that he is known throughout the world. Away back in the seventies he spent several years in South Africa in official positions and it was at that time he obtained the local color for his brilliant success "King Solomon's Mines" which was published in 1886. This book was followed by "She" and then again by "Jess" and others but the others are little known.

In 1912 Sir Rider was knighted as a reward for his work.

The Marquis and Marchioness of Aberdeen recently arrived in New York en route to Washington, where the marchioness, as president of the International Council of Women, will attend the sixth quinquennial convention of the organization. The marquis is a former governor-general of Canada.

### Zanni's Plane Overturns; Damaged by Heavy Waves but No Casualties Result

OSAKA, May 14.—Major Zanni, the Argentine aviator, met with an accident this morning as he was trying to leave here. He was attempting to hop off for Kasumigaura from which place he was to renew his world flight when his plane overturned. No casualties resulted but heavy waves damaged the plane before it was towed to land and lifted ashore by a crane.

### Wheat Shortage is Predicted Unless More Land is Brought Under Cultivation by Whites

NEW YORK, May 14.—(By Canadian Press)—"Future generations will see a world shortage of wheat unless rational land and population policies are formulated for the white race." This is the opinion of Dr. Baker, an official of the United States Department of Agriculture, as quoted in a newspaper item by the Wall Street Journal recently. The article continues:

"The white races of the world, who are the principal consumers of wheat, have an average consumption of 2,525,000,000 bushels a year. Dr. Baker figures that the increase in population of the white race will necessitate 3,200,000,000 bushels in 25 years, 4,300,000,000 in 50 years and 5,800,000,000 in 100 years. Should the average per capita consumption increase to that now prevailing in France, which on account of the inevitably higher prices of meat is almost a certainty, the white races would require 5,500,000,000 annually within 50 years and 7,400,000,000 in the next century. As present-day production for all the world ranges from 3,000,000,000 to 3,500,000,000 bushels a year the question of such an increase for the bread supply of the white races alone gives rise to the question, can the white man's world almost treble its production of wheat in a century or even produce the 5,500,000,000 bushels which may be needed within the lifetime of some of us?"

### NEW PARSONS ARE SLATED

### City of Ketchikan has Interesting Features and is a Live Place

Pays its way as it goes and tax rate is kept low, yet many improvements there

(By H. F. Pullen)  
Ketchikan is one of the liveliest little cities I have ever visited. Its businessmen are on the job and most of them have built their businesses from the ground up. The people there say they have had to fight their way inch by inch and everything they have well to do, but they are just as keen Ketchikan patriots as when they were working their way up. They seem to see but one thing and that is the welfare of their city.

Many of the stores in Ketchikan carry large stocks and make the displays and their windows are always bright and clean and the whole place has an air of prosperity.

The townsite is not a good one. It is long and narrow and has apparently not been laid out by an engineer. It looks as if it just grew and it is what it looks. The visitor steps off the steamer into the main street of the city and enters the hotel across the way. The stores crowd around the docks and the streets are narrow and some of them are built on piles, which are expensive to renew but the redeeming feature is that the place is busy. People and automobiles move rapidly hither and thither. There is little idling. Even those standing on the street corners seem as if they were hurrying to finish their conversation so that they may get back to work.

### SENTENCES IN TWO CASES AT WESTMINSTER

Mrs. Collich Got 23 Months Only for Cutting Husband's Throat with Razor

NEW WESTMINSTER, May 14.—Sentences were meted out today at the conclusion of the spring assizes to prisoners previously found guilty.

For attempting to murder her husband, Paul Collich, at their home at Hope with a razor as he lay in bed Mrs. Mamie Collich was given 23 months in jail.

The judge who said the prisoner had committed the act while "obsessed by insane jealousy," remarked that the leniency of her sentence was due to pleas for mercy made by the husband and the jury.

A. Hershlock, a Russian, was sentenced to five years in the penitentiary for wounding Dr. George Wilson of Burnaby with a revolver on March 24. The court said that Hershlock and others must realize that it is against the law to carry revolvers in Canada.

### CONFERENCE OF EMPIRE SOON

Matters Such as Immigration and Citizenship to be Discussed

OTTAWA, May 14.—A conference of the British dominions and Great Britain will be necessary to the enactment of immigration legislation dealing with such subjects as repatriation of Canadian subjects and the definition of the nationality of a Canadian woman who marries a citizen of another country. This was intimated by Hon. Arthur Bliss Copp, secretary of state, in the House of Commons yesterday. He said he hoped to have such a conference called soon.

The members of the city council, elected for two year terms, are not paid and neither is the mayor, as such, but the present mayor has been for the past several years city manager and for that he is paid \$3,600 a year. The present mayor was chosen city manager five years ago when the affairs of the city were in a bad way and he has succeeded in getting them back to a business basis. Mayor Thomas Torry is a contractor and builder by profession. In addition to the five years consecutively in which he has served under the present system he was for two years mayor under the old regime. He is elected each year by the citizens but his appointment as city manager is made by the members of the council.

In 1920 the population of Ketchikan was 1,000.

**Prince Rupert And Alaska.**

Prince Rupert as the terminus of the Canadian National Railway is vitally interested in the territory of Alaska. Already there is a great deal of competition between Alaskan towns and this one over the fishing industry and there is much rivalry with some local irritation at times at the attempts made to get business away from this city.

It must be remembered that Alaskans are trying to look after their own interests and we are looking after ours as we see fit. Anything we do is not primarily to help them but to help ourselves. So, any action they take is not for our benefit but their own.

However, there are matters of common interest in which we can join without any conflict. Most of the Alaskan people seem to be opposed to the Jones Bill but it still stands and keeps Canadian vessels from operating in a manner that would benefit both Prince Rupert and Alaska.

**Natural Outlet For Alaskan Products.**

"Prince Rupert is the natural outlet for Alaskan products," said a Ketchikan merchant a few days ago to a representative of the Daily News, and his statement has been echoed by numbers of others. They all want to ship goods through this port and we want them to do it, but there are fool regulations that prevent. The regulations are not ours but theirs.

There is a general desire at Ketchikan to work together with the people of Prince Rupert for those things that would benefit both places without discriminating against either one. The people there are fully alive to their own interests, keen businessmen, who have had to fight their way step by step for everything they have.

**Been In Business For Long Time.**

Ketchikan has been 25 years in building and yet it is not as big as Prince Rupert. It is greatly handicapped by having a poor townsite, but the people have energy, determination and business ability and they pull together, realizing that in union there is strength.

The towns of Northern British Columbia and Alaska are somewhat scattered and none are large. Because of that they can benefit from uniting on those questions which concern both. If Ketchikan ships its products direct to the markets of the world and Prince Rupert does the same, it will be easier to get ships to call if the products of both ports are available. A ship calling here for grain could well put on a deckload of lumber at Ketchikan and proceed to Great Britain or the Orient from there. We lose nothing by encouraging Alaskan business and we have everything to gain. It is to be hoped that from now on business with the Alaskan ports will increase. We have the facilities to handle it and there seems to be no good reason why there should not be a steady growth of trade between that territory and this port.

**Readjustment Seems Quite Probable.**

There has been a period of high prices in various parts of the North American continent with consequent prosperity. Now this inflated period seems to be on the wane and it is affecting the producing districts including Prince Rupert. The people in the big centres have not the money to buy the high priced goods and the result is that the prices slump. This has affected both the halibut and salmon here. The buyers here, operating on a falling market, are buying eight days ahead of delivery and they can only guess what the prices will be when the product reaches the eastern market. Sometimes they make a good profit and sometimes they lose. What they have to count on is the average.

**DINNER GIVEN ON A GASBOAT**

Local Men Entertained to Fine Spread on Board Small Craft

(Ketchikan Chronicle)

Ketchikan has been surprising the Prince Rupert Rotary visitors in a good many ways, but no surprise was more agreeable, they say, than that which awaited three of them yesterday. They were asked to go for a trip up George Inlet on the gas boat "Van," skippered by Johnson Van Marter and with Ray Hall as first officer and Frank Parrish as chef. The guests were Frank C. Riggs, district governor of Rotary, whose home is in Portland; George Bryant, trout fishing and deer hunting expert, who incidentally conducts a men's furnishing store at Prince Rupert; and Harry Pullen, chief scribe on the Prince Rupert Daily News, gas boat expert, who goes around most of the time trailing a camera from his shoulder. They were a jolly bunch and they enjoyed every minute of the outing, they say, but the surprise came at lunch time.

On arrival at the head of George Inlet, Frank Parrish had shooed them off the Van and told them to go and inspect the natural falls leading into the Salt Lagoon. This they did, and they also indulged in some rifle shooting competitions as to the result of which there seems to be a difference of opinion, the bets having been held up temporarily until further tests decide who is the best shot.

Arriving back at the Van they found Frank in his shirt sleeves, while in the dining room of the launch a sumptuous repast had been spread with snow-white napery decorating the table. The luncheon consisted of five courses. There was "cocktail de Prince Rupert," "Fruit salad a la Ketchikan," beef steak with baked potatoes and roast onions; "cote noir," "McLaren's Imperial cheese," and last but not least, "Peaches and cream." At each plate was a menu card and Frank hovered around, lithe as a Ketchikan waitress, attending to every want of the visitors.

On the way home the members of the party enjoyed the wonderful scenery, swapped stories and incidentally learned to pronounce the name of this island, "Revillagigedo," in doing which one or two of them became so exhausted that they had to take a nap. They declared that a trip up George Inlet with Frank Parrish as chef is the finest entertainment they could possibly have.

**NEW REGULATIONS FOR BARBERS OF PROVINCE**

Alum Stick Must Go and Sterilizing Must be More Perfect Than at Present

VICTORIA, May 14.—The alum stick must go. Sponges are taboo. No longer may a barber tuck a rubber cloth under the edges of a shirt collar. Towels can be used only once and must then be laundered again and razors, scissors, combs or other instruments in general use must be sterilized for each customer, according to the regulations published by the Provincial Board of Health.

Barbers by choice have generally worn a washable white coat. Now the regulations say they must, if they want to use powder they must transfer it to the client's face with a blower or absorbent cotton or towel that is only used once. Individual razors, soap and brushes are advocated, but if this policy is not followed the shaving brush must be immersed in a strong solution of lysol or carbolic acid and afterwards rinsed in clear water and dried with a towel or by heat.

Some of the most important of the regulations are as follows: Before passing from one customer to another, the barber or hairdresser shall wash the hands, using soap, preferably carbolic, and a nail brush. The use of the alum stick, frequently used to stop the flow of blood, shall be discontinued, and replaced by calcined alum, a powder which can be applied on cotton wool, which shall be

thrown away immediately afterwards.

The use in common of the same vaseline pot is abolished. Vaseline shall only be used from a squeeze tube.

Sponges shall not be used.

Razor-strops shall only be used for razors which have previously been disinfected.

The hair-cutting wrapper, so commonly used in barber shops, shall be placed only around the shoulders of customers and fastened with a safety pin or other device at the back, and clean towels shall be used about the neck to prevent hair falling down.

Ross Draper of Linotype Farm Gets Letter from Publisher of Wrangell Newspaper

Ross Draper, special agent for the Canadian Linotype Ltd., who returned a few days ago from Wrangell received the following letter from J. W. Pritchett, publisher of the Wrangell Sentinel as follows:

"How I wish you might have been here yesterday to have had a few thrills when the stampellers left for the Cassiar. It was one of the most perfect days imaginable and the little fleet of river boats loaded with people from everywhere starting out on a gold seeking expedition was a sight never to be forgotten."

"A cinematographer was on the job and soon you may see pictures of what took place here."

"Nearly all the local people were busy with their kodaks. As soon as any of the pictures are developed I shall send you some."

"The Indian printer I was telling you about will arrive tonight. With his coming I expect to put the shop on a more efficient basis."

With kindest personal regards from Mrs. Pritchett and myself, I am, very truly yours,  
J. W. PRITCHETT.

### TO USE SNOWMOBILE IN NORTHERN WILDS

Indian Agent to Use Power Vehicle in Place of Dogs

EDMONTON, May 14. — The Ford snow-mobile is to be used by Dr. Bourgel, Indian agent for the Dominion Government, in the far north next winter. He has hitherto used dogs for winter travel but now he proposes to use a motor driven vehicle.

The car has been used in this neighborhood during the past winter. It has a caterpillar drive in the rear and is fitted with sled runners in front. It was successfully driven from Calgary to Edmonton and from Edmonton into the St. Paul des Metis district. Now it is to be taken north. It will make twice the speed of a dog team.

### WHAT RUINED THE SAVORY

Mrs. Benton tasted the savory morsel she had carefully compounded in the chafing dish and looked at her husband somewhat apprehensively. Then she said: "Somehow, it doesn't taste just as Mrs. Mink's did the other night. Yet I thought I remembered the recipe all right. I suppose I must have left something out."

Mr. Benton tasted reflectively. "I don't think so," he remarked.

Mrs. Benton's face brightened visibly. Then her husband continued: "There nothing you could leave out," he said, "that could make it taste like this. It's something you've put in!"

### PAPER FROM STRAW ALBERTA PROVINCE

Plans to Establish Plant Near—ing Success Declares Trade Commissioner

EDMONTON, May 14. — Efforts which have extended over the past three years to demonstrate the practicability of Alberta straw for the manufacture of papers of different kinds are nearing complete success, according to Trade Commissioner Howard Stutchbury. Mr. Stutchbury has brought back with him from the laboratories of the pulp and paper division of forestry products at Montreal, a variety of samples of newsprint, wrapping paper, felt paper, insulating board, etc., all of which have been manufactured by the Bache-Wiig process from a shipment of Alberta straw which was sent to Montreal last fall.

Arrangements are now being made and will probably be completed during the present visit of Premier Greenfield to the east, to have an expert and paper engineer visit the province in the near future and make an examination of the local conditions. That the manufacture of this product on a large and profitable scale in Alberta is now assured, both Mr. Stutchbury and the eastern laboratory experts are confident, but it is thought advisable to secure final reports made by an expert after he has gone over the local situation.

It is estimated that a plant turning out the coarser products to the amount of twenty-five tons a day, will cost in the vicinity of \$200,000, and it is hoped to interest capital in this project during the coming summer. It is pointed out that there would be a good market from the start for building papers and kindred products and as this business developed, the manufacture of newsprint and finer grades of paper could be later taken up.

### GOOD MARKET FOR CANADIAN GOODS IN AUSTRALIA STATED

WINNIPEG, May 14.—A substantial market for Canadian products exists in New Zealand, Australia and the Orient, for the manufacturer who goes after the business, is the opinion held by William Armstrong, vice-president of the Manitoba Gypsum Company, who has just returned to Winnipeg from a combined business and holiday trip.

The Canadian manufacturer, Mr. Armstrong said, had a decided advantage over the United States in seeking entry into the New Zealand and Australian markets. There is the preferential duty in both countries, which favors Canada, and again he said there was a preference of the people for Canadian goods. "The chief requirement is for the manufacturer to go there, find out what the people want and then endeavor to fill their needs," he declared.

### ARE YOU TORTURED WITH ECZEMA?

Eczema, or Salt Rheum, as it is commonly called, is one of the most agonizing of all skin diseases.

The intense burning, itching and smarting, especially at night or when the parts are exposed to heat are almost unbearable and relief is greatly welcomed.

The most reliable and effective remedy for this trouble is

### BURDOCK BLOOD BITTERS

Mrs. J. R. Johnson, R.R. No. 1, Oshawa, Ont., writes:—"For years I was troubled with eczema, and had that terrible itching and burning sensation, and could find no relief for it. Finally, I was advised to use B.B.B., and after my second bottle I began to see a great difference, and I can, now, advise anyone troubled as I was to use this wonderful remedy."

**"For all washing and cleaning you can't beat this soap —"**

says Mrs. Experience, who chooses soap for its economy and, labour-saving value.

"Sunlight puts the sunshine of cleanliness into the home! For washing clothes, dishes, wood-work, linoleums, in fact, for anything that can be cleaned with soap and water—I call on Sunlight. And Sunlight does its work so well and leaves everything sweet and clean.

"Sunlight really is economical, too! You see, every bit of it is pure, cleansing soap, containing no filling or hardening materials, which are only waste as far as we women are concerned.

"You get greater cleaning value out of a pure laundry soap—and so I say, 'Always keep a good supply of Sunlight on hand'. It really improves with age. And because of its purity, Sunlight is kind to your hands and keeps them smooth and comfortable." Sunlight is made by Lever Brothers Limited, Toronto.

CITY OF KETCHIKAN HAS INTERESTING FEATURES AND IS A LIVE PLACE

(continued from page one) chikan was 3,000 and since that time it has been growing fast until today it is estimated by some to be 6,000.

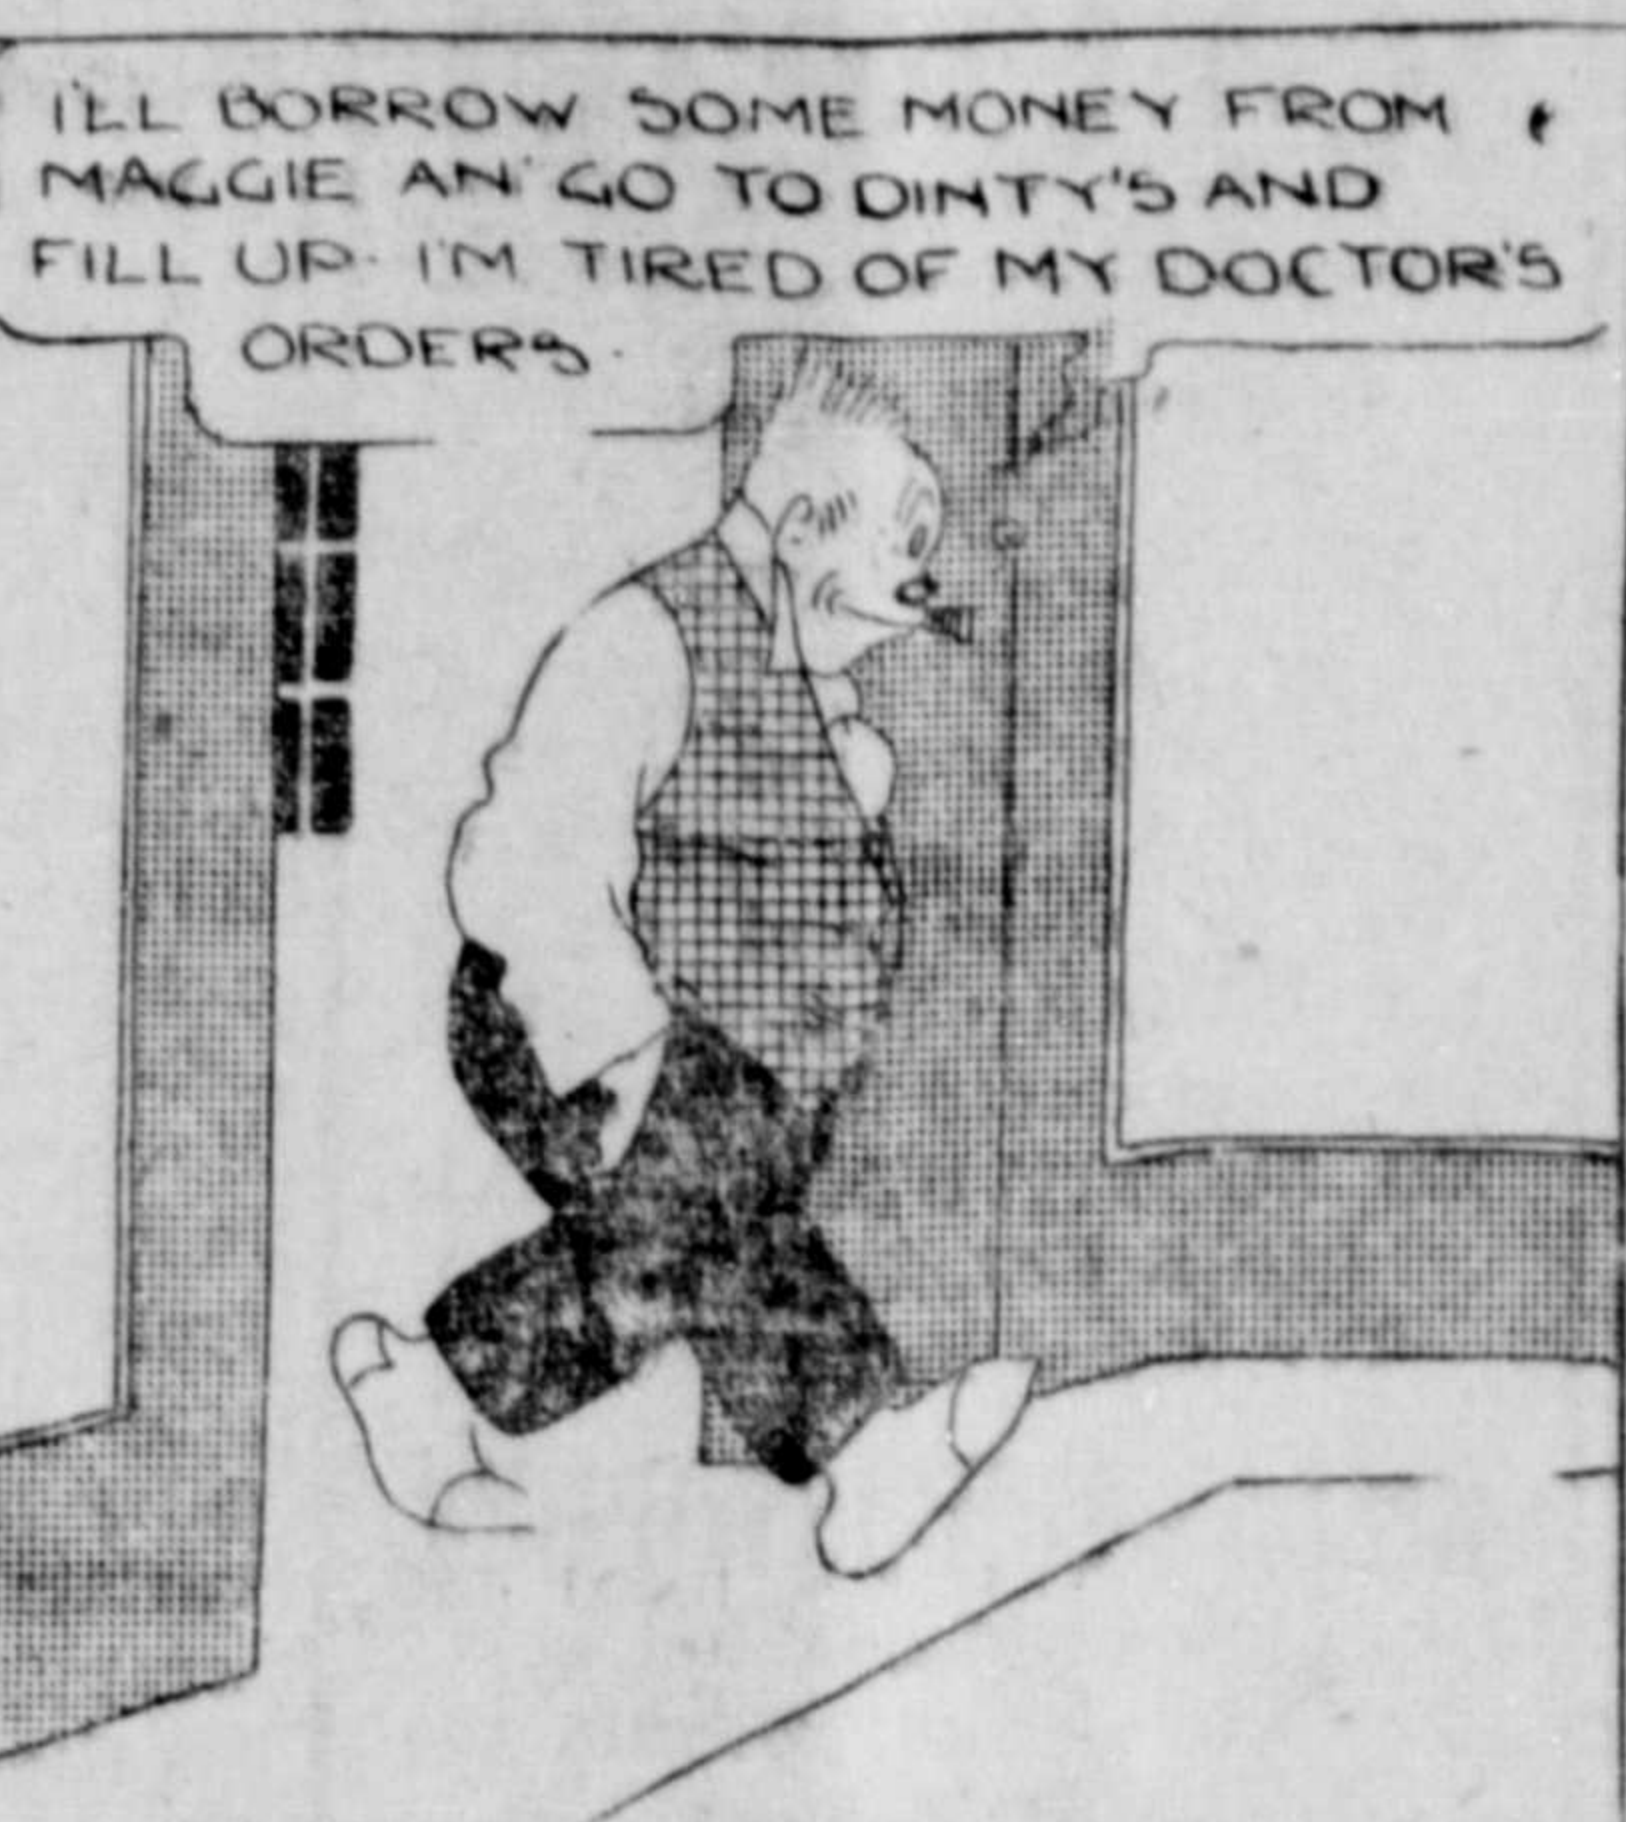

Very Little Debt The city has no debt except \$150,000 recently borrowed for the new school.

There is no city engineer but the city foreman is a civil engineer and the city manager, being a builder, the need is not great.

Outside the city roads are being constructed by the federal government. Already there is a road leading seven miles northward along the shore of Tongas Narrows to Ward's Cove and the surfacing of a road south to Saxman three miles distant is proceeding.

City Utilities The city does not own its utilities but these are in the hands of the Citizens' Light, Power and Water Company which also owns the telephone.

GYRO ATHLETES GETTING BUSY

May Enter Team in Senior Baseball League — Tennis Challenge From Rotary to be Accepted

The Gyro Club at its regular monthly business meeting yesterday afternoon left in the hands of a committee consisting of George R. Tite, Sidney Bazett-Jones and Fred Henning with power to act the proposition that the club enter a team in the Senior Baseball League.

It was decided to accept a challenge from the Rotary Club for a tennis tournament, arrangements being left with S. K. Campbell, W. Cruikshank and E. A. Mann.

The meeting further discussed the 1925 playground program and a committee will meet the city council at its next meeting with regard to the improvements that it is proposed to effect in Westview Park.

Reports from the concert and hoedown dance committees showed that \$139 had been realized by the club as a result of the concert and \$375 as a result of the hoedown.

Past President Milton Gonzales presided over the meeting in the absence of President Roy McNaughton and there was a large turnout of members.

Arrangements are being made for a series of whirlwind events on May 25 at the Stewart celebration, an invitation to which is being extended to the public of Prince Rupert.

Jack Dempsey, champion heavyweight pugilist of the world, aboard the Cunard liner Berengaria in mid-ocean on his way to Europe last week, received his first offer for a fight in Europe with either Erminio Spalla, European heavyweight champion, or Pallino Uzeadan, the Spanish pugilist, at Deauville, France, next August.

The Sons of England and Great War Veterans will meet tomorrow night in the fourth game of the Stuart Shield football series. Should the Englishmen win they would go to first place one point ahead of the Callies while a victory for the Vets would put them on even footing at the top with the Scots.

### DID VERY WELL ON TRIAL RUNS

New Forest Cruiser Turns up Speed of 9.7 Knots on Measured Mile—off to Alice Arm Today

The new forestry cruiser, Lillian D., built at the local dry dock for use in this district, had her trial run yesterday afternoon and performed very satisfactorily turning up a speed of 9.7 knots on the test mile. The vessel was out three hours and was outside of the harbor. Those making the trip were J. H. Blake, mechanical superintendent for the forest branch; F. P. Quinn and Howard White, representing the builders; Hubert Ward, agent for Vickers-Petter engines; Tom Clarke, representing the Forest Branch; W. B. Penney, who will be captain of the new boat; W. Smith, engineer, F. G. Dawson and Fred Aslin of Burns Lake.

This morning the Lillian D. was formally turned over by the builders to the department and, soon after, left for a long test voyage to Alice Arm, P. S. Bonney, district forester, and J. H. Blake being aboard.

NOTICE TO CONTRACTORS

SEALED TENDERS for the construction of a reinforced concrete grain elevator superstructure, with timber dock-galleries and warehouse, will be received at Ottawa, Ontario, until Noon of Monday, May 18th, 1925.

Tenders should be sent in an opaque sealed envelope, marked "Tender for Grain Elevator" and addressed to Mr. F. C. T. O'Hara, Deputy Minister, Department of Trade and Commerce, Ottawa. A lump sum for the work is desired. An accepted bank cheque for Fifty Thousand Dollars (\$50,000.00) made payable to the Minister of Trade and Commerce, must accompany each tender, which sum will be forfeited if the party tendering declines to enter into a contract for the work on the terms stated in his tender. The cheques of unsuccessful tenderers will be returned. The cheque of the successful tenderer will be retained as security for the due fulfillment of the contract to be entered into, or cheque may be replaced with equivalent par value of bonds of the Dominion of Canada.

Plans, specifications, and all necessary information regarding the proposed work may be obtained from C. D. Howe & Company, Consulting Engineers, Whalen Building, Port Arthur, Ontario. Deposit of One Hundred Dollars (\$100.00) is required for plans and specifications, deposit to be returned on return of plans and specifications in good condition.

The lowest or any tender will not necessarily be accepted.

By order,  
F. C. T. O'HARA, Deputy Minister,  
Department of Trade and Commerce,  
Ottawa, April 9th, 1925.

### Tribute to General Hospital

By Person who was ill there

When you are feeling kind of sick,  
And life looks pretty blue,  
While you wonder, as the days go by,  
"Whatever shall I do?"

Just list to me, a once sick man,  
I know whereof I speak,  
Having rested in a local cot  
For five days plus a week.

Go tell the Doc what's ailing you,  
And in him place your trust,  
He'll quickly diagnose the case  
Without a lot of fuss.

Perhaps it's to the hospital  
Your steps the Doc will turn,  
And if it is, just take my tip  
You're on the road to learn.

That hospital are beacons bright  
Along life's road of pain  
All fitted up with wondrous things  
To make you fit again.

When once across the portals  
Of that home of spotless hue,  
And the smiling nurse, God bless her,  
Has quickly passed you through.

You've nothing else to trouble you,  
In fact you'll feel just right  
When you are snugly tucked in bed,  
And settled for the night.

Next morning Doc will be on deck  
With nurses at his side,  
When they get through with their repairs  
Your chest will swell with pride.

There's really nothing to it  
Whatever there is to do,  
For Doc and Nurse know just how  
To work and pull you through.

And as you lie recovering  
Your health by leaps and bounds  
The bustle 'round the corridors  
To you like music sounds.

There's nothing ever left to chance,  
Of that you may be sure,  
It matters not your post in life  
Or whether rich or poor.

Then when you're feeling all "pepped up,"  
And life is bright and gay,  
You'll feel a mighty interest  
In Doc's and Nurse's Day.

### MAKING UP FIVE SPECIAL TRAINS FOR IMMIGRANTS

Rolling Stock Being Rushed to Quebec and Halifax to Meet Week End Boats

MONTREAL, May 14.—To provide for the large number of passengers disembarking during the week-end at the three ports a considerable amount of equipment and rolling stock is now on its way to Quebec and Halifax and it will be necessary to make up at least five special trains, two of which will operate from Halifax and three from Quebec. In addition to the usual travellers there are considerable numbers of settlers and agricultural laborers on the steamers now heading for port. There are parties for the Ontario government and on the Athena, Donaldson liner, is a group of 75 individuals coming to Canada under the auspices of the Salvation Army. On the Doric, White Star-Dominion, there are a number of persons being brought out by the British Dominions Immigration Society. The majority of

### TOURIST FARES ON RAILWAY BEGINNING

Tomorrow Sees Special Rates to Pacific Coast and Other Holiday Resorts

WINNIPEG, May 14.—Tomorrow, May 15, will mark the coming into effect of summer tourist fares and the opening of the Jasper Park Lodge, according to an announcement by Canadian National Railways passenger officials here. The rates, which extend to September 30, provide for reduced fares to Rocky Mountain resorts, including Jasper and Mount Robson, the Pacific Coast, Alaska and Eastern Canada, with increased passenger service on Canadian National lines, to these parts.

A. S. McLean, general superintendent Canadian National hotels is at Jasper now for the official opening of the company's Lodge there.

### RADIO LECTURES ON FARM SUBJECTS AT WINNIPEG COLLEGE

WINNIPEG, May 14.—Commencing tonight, the agricultural department of the Canadian National Railways in co-operation with the Manitoba agricultural college will broadcast a series of educational talks from station C.N.R.W. on farm subjects to the farmers of Western Canada. The first of the series will be delivered this evening by W. E. Watson, agricultural agent of the National system as part of the 15 minute agricultural section of the weekly broadcast. This feature will commence at 8.05 weekly.

# NO MORE FOOLING

NOWHERE did Abraham Lincoln show his shrewdness of judgment to better effect than in that famous utterance which ended, "You can't fool all the people all the time."

In the past, there were a few misguided advertisers who thought they could sell their wares better by misrepresentation. But those advertisers have long since gone out of business or mended their ways. Hard experience taught that Lincoln was right. Untruthful advertising doesn't pay.

Other advertisers proved that the only way to advertise successfully, make regular customers and build up public good-will was to tell the absolute truth about their goods.

So, you can be sure that every consistently advertised product is good. The advertising test has proved it. The very fact that it is advertised is your best warranty of satisfaction and true quality.

The concern that tells you frankly what it is doing is a good concern with which to do business. That is why it pays to read the advertisements, to patronize advertisers, and to buy advertised merchandise.

It's mighty good business

# HOSPITAL DAY IS OBSERVED

Prince Rupert General Hospital Open to Public This Afternoon From 2 to 6 O'clock

So that the public may be afforded the opportunity of acquainting themselves with the objects and work of the hospital, National Hospital Day is being observed this afternoon between the hours of 2 and 6 by throwing the Prince Rupert General Hospital open for public inspection. The directors and members of the staff are taking the visitors in hand and personally conducting them about the institution.

There will be a musical program in the course of the afternoon to which the Ladies' Music Club, the juvenile orchestra and Miss Nada Johnstone, with vocal solos, are contributing.

The committee having arrangements for the observance of hospital day in hand consists of H. H. Little, chairman; J. L. Christie, J. B. Thompson, Miss Edith McCaul, R.N., and Mrs. Robert C. Parsons.

Pots of plants and flowers with which the hospital is decorated for the day were kindly loaned by Mrs. R. McCarthy.

# LITTLE GIRLS ARE TRAVELLING ALONE

Seven and Nine Year Maidens on Way to Vancouver from England

MONTREAL, May 14.—Two young misses aged seven and nine years travelling unaccompanied from their former home in England to meet their mother at Vancouver are, undoubtedly, the most interesting of the 2,063 travellers which the Canadian National Railways will have to provide for between now and Sunday at the ports of Montreal, Quebec and Halifax. The girls whose family name is Smallwood, are now on board the Ausonia, of the Cunard line, and will travel to Montreal on board the liner. Here, they will be taken in charge by a representative of the railway and will travel on the Continental Limited to Vancouver where their mother will be awaiting the arrival of the train. On the journey between Montreal and Vancouver these young travellers will be enabled to select their meals from the variety of special menus arranged for travelling children.

# SYNOPSIS OF LAND ACT AMENDMENTS

**PRE-EMPTIONS**  
Vacant, unreserved, surveyed Crown lands may be pre-empted by British subjects over 18 years of age, and by aliens on declaring intention to become British subjects, conditional upon residence, occupation, and improvement for agricultural purposes.

Full information concerning regulations regarding pre-emption is given in Bulletin No. 1, Land Series, "How to Pre-empt Land," copies of which can be obtained free of charge by addressing the Department of Lands, Victoria, B.C., or to any Government Agent.

Records will be granted covering only land suitable for agricultural purposes, and which is not timberland, i.e. carrying over 8,000 board feet per acre west of the Coast Range and 5,000 feet per acre east of that Range.

Applications for pre-emption are to be addressed to the Land Commissioner of the Land Recording Division, in which the land applied for is situated, and are made in printed forms, copies of which can be obtained from the Land Commissioner. Pre-emption must be occupied for five years and improvement made to value of \$10 per acre, including clearing and cultivating at least five acres, before a Crown Grant can be received.

For more detailed information see the Bulletin "How to Pre-empt Land."

**PURCHASE**  
Applications are received for purchase of vacant and unreserved Crown lands, not being timberland, for agricultural purposes; minimum price for first-class (arable) land is \$5 per acre, and second-class (grazing) land \$2.50 per acre. Further information regarding purchase or lease of Crown lands is given in Bulletin No. 10, Land Series, "Purchase and Lease of Crown Lands."

Mill, factory, or industrial sites on timber land, not exceeding 40 acres, may be purchased or leased, the conditions including payment of stumpage.

**HOMESITE LEASES**  
Unsurveyed areas, not exceeding 20 acres, may be leased as homesites, conditional upon a dwelling being erected in the first year, title being obtainable after residence and improvement conditions are fulfilled and land has been surveyed.

**LEASES**  
For grazing and industrial purposes areas not exceeding 640 acres may be leased by one person or a company.

**GRAZING**  
Under the Grazing Act the Province is divided into grazing districts and the range administered under a Grazing Commissioner. Annual grazing permits are issued based on numbers ranged, priority being given to established owners. Stock-owners may form associations for range management. Free, or partly free, permits are available for settlers, campers and travellers, up to ten head.
