TWELVE JAPANESE LOSE LIVES WHEN PINNACE RUN DOWN AT VANCOUVER

Twelve Visiting Japanese at Vancouver Drowned When They Were Returning to Ship Idzumo

Pinnacle Was Run Down by Car Barge Towed by C.P.R. Tug Nanoose Leaving Harbor

VANCOUVER, Feb. 9.—Twelve men of the Japanese training squadron in port here met death by drowning at midnight Saturday when a pinnace returning to the ship Idzumo was washed into by a transfer barge and sank in a few moments.

There were sixteen men on the tiny craft which was towing a heavily laden boat with fifty or sixty men of the fleet returning from shore leave. All the men in the boat escaped but of the sixteen in the pinnace, ten were actually drowned and two died soon after being taken from the water.

It was the greatest tragedy in the history of the port. According to statements made by those who saw the accident the pinnace had left the Ballantyne pier about 11.30 p.m. and when nearing the Idzumo the tug Nanoose belonging to the C.P.R. and towing the heavily laden transfer barge hove in sight heading for the first narrows bound for Ladysmith.

The pinnace, it is stated, swung to port and passed to the rear of the tug, but the barge caught the tiny craft, sending it to the bottom. Divers immediately set to work in an effort to locate the sunken craft and commenced a search for the bodies but despite continued efforts during the night and Sunday no trace of the craft or of the bodies of the drowned men could be found.

Of the men who lost their lives five were non-commissioned officers and five seamen. All belonged to the crew of the Idzumo. The tragedy marred the visit of the squadron to the port. It is anticipated that an inquiry will be held as soon as possible. The fleet, which arrived last Friday was to have remained here a week.

EXPORT DUTY IS WARRANTED

Surgeon Grain Commission Submits its Report to House of Commons

OTTAWA, Feb. 9.—Export duty on Canadian wheat entering the United States is discussed in the report of the royal commission which this year investigated the grain trade. The report says that, while as a general thing, export duties are to be deprecated, the exceptional situation which arises in this instance might warrant such an impost. The report, which is signed by all four commissioners, including the chairman, Hon. W. F. Turgeon, has been tabled in the House of Commons.

CLEARING FOR ALASKAN PORTS

Mary M. Christopher Was First to Leave En Route to Hall-but Banks

The Mary M. Christopher, Captain John Wick, was the first boat of the season to get away. She cleared last Friday for some Alaska port and was quickly followed by the Adeline, Captain Rinzland.

This morning two schooners, the Talonia, Capt. Pearce, and the Seamaid, Capt. H. Dorreen, also cleared for Alaskan ports and in a few days every boat in the harbor will be bound for the halibut banks.

Probability of Mills Resuming When Prince Rupert Sawmill is Started Announces Geo. Little

Export lumber shipments by water from Prince Rupert will be the salvation of the smaller sawmills in the interior, states George Little, owner of the Terrace and Ansbury mills, who is in the city today. With the reopening of the sawmill here, it is possible that arrangements may be made to have the interior mills contribute shipments in carload lots to be loaded on vessels here. In that case there would very likely be a general resumption of lumber cutting activity with this city as the shipping port.

CHURCH WINDOW WAS PRESENTED

Sixteen Members of St. Andrew's Society, Who Died in Great War, are Honored

The handsome memorial window erected by the St. Andrew's Society in honor of its sixteen members who gave up their lives in the Great War was presented and dedicated at the evening service in the new First Presbyterian Church last night. In an eloquent and feeling address, Thomas McClymont, president of the Society, presented the window which was received in the name of the congregation by the pastor, Rev. Dr. H. R. Grant. Dr. Grant also pronounced the dedicatory prayer and his sermon, based on "The Potter's Saturday Night," was also appropriate to the occasion. The Last Post was sounded by Bugler W. Rance. The choir sang "Radiant Morn" and S. K. Campbell, a vocal solo, "He Lifted Me."

WILL ERECT NEW HOTEL?

Big Lot on Second Avenue Sold by Railway Company to Chicago Man

The 120-foot square lot on Second Avenue in Waterfront Block "E" opposite the government agent's house, better known as the "post-office site," has been sold by the Grand Trunk Pacific Development Co. to Archibald T. Naugle of Chicago according to advice that has been received at the City Hall.

While no official information is to be obtained locally, it is stated on some authority that the purchaser of the property intends the erection of a new hotel. Mr. Naugle having no agent here, as far as is known, it was impossible to confirm this statement.

The deed to the new owner has not yet been registered.

Engineer for Elevator Arrives Here Today and Officials on Wednesday

Arnett's Dredge and Outfit Did Not Get Away From Vancouver Until Friday

William Small, engineer for the Northern Construction Company, arrived here this afternoon on the steamer Princess Mary to commence construction of the new government elevator and dock, the contract for which was recently let to the Northern Construction Company of Vancouver. He was accompanied by C. D. Howe of Port Arthur.

Cy. Arnett's dredge and scows were delayed somewhat in getting away from Vancouver and finally left on Friday.

The officials of the Northern Construction Company will leave Vancouver tonight on the Prince Rupert arriving Wednesday, to establish the Prince Rupert headquarters for the work.

PLACE RUPERT EQUALITY WITH OTHER PLACES

Report of Grain Commission Investigation Favors Western Ports

(Special to Daily News)
VANCOUVER, Feb. 9.—Hon. W. F. Turgeon's report on the result of the grain commission's investigation out today readily recommends that the railway rate on the export of wheat to Vancouver and Prince Rupert should be placed on a mileage basis pro rata with the Crows' Nest rate to Fort William, says a wire to the Sun from the Ottawa correspondent of that paper. If the railways do not earn 20 per cent profit on these rates to Canadian ports the Government is asked to supplement the difference and charge it to colonization.

The railway tariffs west of Fort William, except on export of wheat and flour, are not to be disturbed. The Canadian National and C.P.R. freight steamers are to carry grain from Canadian seaports at New York rates.

PRESTON MAKES BOLD REPORT

Speaks of Shipping Combine as a Menace to Development of Trade

OTTAWA, Feb. 9.—The North Atlantic shipping combine is an obvious menace to the natural development of the export trade of the country and an evident deterrent to prosperity and the welfare of the population. Moving spirits in this gigantic world wide maritime organization have conspired, combined, agreed and arranged to unduly limit facilities for ocean transportation. They are preventing, limiting and lessening competition in ocean transportation to and from Canadian ports. So W. T. R. Preston, appointed by the Government to inquire into the operation of the North Atlantic combine, summarized his conclusions.

The report of Mr. Preston was tabled in the House of Commons today. He declared that the organization wields the big stick over shippers and restricts emigration to Canada by excessive stevedore rates, exerts a stranglehold on the foreign trade of the Dominion.

Avoid Attempt To Boom Real Estate.

It is to be hoped that, in connection with the expected revival of business here no attempt will be made to boost the price of real estate inordinately. Residential lots are high enough now and business properties are better kept low in price in order to enable those who would build or who wish to come here to establish businesses to do so without unnecessarily encumbering themselves. It injures a city to have real estate prices too high and a disastrous slump is liable to follow any undue forcing up of values. The ideal condition is for people to be able to come here and buy or rent at moderate prices.

Those Who Bought High Will Like To Unload.

Naturally those who purchased real estate at the high pre-war prices and have held on and paid taxes since that time feel that they would like an opportunity to unload and recover some of the money they put in. No one can blame them for that. At the same time it is generally acknowledged that the prices at that time were unreasonably high and are not likely to be reached again for many years to come. The best thing to do with vacant property is to try to make it revenue producing. To continue to pay taxes and to be out the interest soon eats up the investment.

Own Your Home Is A Good Dictum.

In many cities they are having campaigns with the object of inducing residents to own their homes instead of continuing to pay rent. The object is a good one although it has not been ascertained what effect such a campaign has. A city where people own their homes means a city of well kept places of pretty gardens, where people take a pride in their surroundings. Just now there are new buildings needed in Prince Rupert and it is very desirable that people who have money should build for themselves. They take a new pride in life when they have a place to call their own. There is individuality when a house is built to suit a customer.

Those looking for houses would do well to consider the possibility of building now while the price of lots is reasonable and before the carpenters get too busy. This is the time to lay plans for the coming summer.

Warning Given To All Gamblers.

Wheat gambling was a craze the last week or two and the gamblers came a cropper, many people who could ill afford it losing thousands of dollars. They took a chance and lost, fleeced by the operators. The game was loaded against them. So it is with horse racing and with most games of chance. The game is loaded against the public. The lambs are fleeced. Yet they continue to grow new crops of wool to be again taken. If a person bets on horse races and ten per cent of the bet is taken by the operators each time, it is plain to see that by the law of averages all his money is gone after ten bets. It is possible that he will win, but if he continues to bet, in the long run he will be fleeced. It is inevitable. So in all games where the operator gets a rakeoff. In stock exchange gambling the loading is even heavier than in a game of roulette. The novice has little chance to succeed.

ARGENTINE ROMANCE SHOWN HERE TONIGHT

Stirring Story of South American Girl Educated in the United States

The newest romance by Vicente Blasco Ibanez "Argentine Love," a Paramount picture produced by Allan Dwan and Bebe Daniels and Ricardo Cortez featured in the principal roles, comes to the Westholme Theatre tonight.

The story, as the title indicates, is a South American love-drama, rich in color and teeming with fast-moving action. Miss Daniels is cast in the role of Consuelo Garcia, a young Spanish girl who flouts all the old, time-worn customs and traditions of her race and manages the affairs of her heart to suit herself.

Parents do Picking
It is the custom in the Argentine for the parents to do all the picking of a life mate. But not so for Consuelo. She has been to the United States, absorbed a new world polish and acquired, among other things, a fiancé—a young American engineer who accompanies her to the Argentine where his work brings him.

Needless to say, the girl's parents are furious—and when Juan Martin, the financial king of the little town of Alcorca, comes to claim his bride, there is the very dickens to pay. Consuelo simply will have none of him and tells him so. Martin claims her as his own and vows that no one else will ever have her.

Queer Situation
Consuelo's parents, who have been having quite a hard time of it financially, point out to the girl that her education, everything was paid for by Juan Martin. She owes much to him. But even this fails to change the girl. She leaves the house in a huff and goes with a faithful old nurse to live in a deserted hacienda that had once been her father's home.

Martin has her every move reported to him and he kills a man in a fit of jealous rage over Consuelo. He is a fugitive from justice though the townspeople place the entire blame for the affair on Consuelo. They flog her in a public square. Philip Sears, the American engineer, arrives just in time to save her from the mob. The scenes that follow—wherein Martin gets all that is coming to him and Sears and the girl are united—bring the production to a fitting climax.

TOM MIX STARRING IN LAST OF DUANES

Rescues Girl and Finds Himself in Love After Refusing to Fight

Sons may inherit the sins of their fathers, but they also come into paternal virtues. Zane Grey cited an instance in his book "The Last of the Duanes," and Tom Mix emphasizes the fact in the Fox picture to be here at the middle of the week.

Buck Duane appears to be a rather timid young man when the picture opens. Seems as though everybody else has notches on his gun and callouses on his knuckles. But Buck doesn't fight. Even at a dance, he permits a range bully to get away with everything, including the girl.

But Buck has promised his mother he won't fight. She lost her husband that way after he had cut a dozen notches in the handle of his Colt. She doesn't want her son to grow the same way. But right there you know that with Tom Mix cast as Buck

Duane, something has to happen. It does. Buck has inherited his father's lightning hand and sure eye. When the smoke clears away Buck rides into the outlaw country until the trouble blows over. There he meets again the little girl who had driven through the Duane ranch some months earlier. Jenny, the girl, now is a captive on the ranch of a bandit leader. Buck rescues her and finds himself in love.

MERTON OF MOVIES A GREAT SCREEN PICTURE

Story of Boy Who Went to Hollywood and His Experiences There

Another picture which bids fair to attain screen immortality comes at the week end in "Merton of the Movies" starring Glenn Hunter. Gruze's knowledge of human nature, his understanding of comedy values, and his genius for mixing humor and pathos have never before been better illustrated. It is a sure thing "Merton" is a fitting successor to "The Covered Wagon" and Gruze's other big hits.

Walter Woods wrote the screen play from the famous novel by Harry Leon Wilson and the popular stage success by George S. Kaufman and Marc Connelly.

The story of "Merton" is the story of what happens to thousands of boys and girls who go to Hollywood without knowing what is ahead of them. Merton is a movie-struck youth in a tiny village of Illinois. Eventually he comes to Hollywood to seek fame and fortune as an emotional actor. The sights he sees, the rude awakening to realities and his myriad of strange experiences constitute a story replete with comedy situations built upon a thin layer of tragedy—the tragedy of a boyish ambition that seems doomed to disappointment.

Glenn Hunter has been identified with the character of Merton so long on the stage that it was natural to expect he would create the title role in the screen version. He plays Merton with such sincerity and feeling that for the time being you forget that he is acting. Mr. Hunter is surrounded with a superlative supporting cast, headed by Viola Dana, featured as "Flips" Montague, the girl whose machinations are responsible for Merton's final triumph.

**A crisp,
tasty cracker**

If you like shredded wheat biscuit you
will like Triscuit, the shredded wheat
cracker. It is not made of flour—it is
made of perfect whole grains of wheat
cooked in steam, shredded, compressed
into a cracker and baked in electric
ovens. Its crispness compels thorough
chewing. The more you chew it the
better you like it. A lot of real food
in condensed form. At
all first class grocers.

**SYNOPSIS OF
LAND ACT AMENDMENTS**

PRE-EMPTIONS
Vacant, unreserved, surveyed
Crown lands may be pre-empted by
British subjects over 18 years of age,
and by aliens on declaring intention
to become British subjects, condi-
tional upon residence, occupation,
and improvement for agricultural
purposes.

Full information concerning regu-
lations regarding pre-emption is
given in Bulletin No. 1, Land Series
"How to Pre-empt Land," copies of
which can be obtained free of charge
by addressing the Department of
Lands, Victoria, B.C., or to any Gov-
ernment Agent.

Records will be granted covering
only land suitable for agricultural
purposes, and which is not timber-
land, i.e. carrying over 8,000 board
feet per acre west of the Coast Range
and 5,000 feet per acre east of that
range.

Applications for pre-emption are
to be addressed to the Land Com-
missioner of the Land Recording Di-
vision, in which the land applied for
is situated, and are made in printed
forms, copies of which can be ob-
tained from the Land Commissioner.
Pre-emption must be occupied for
five years and improvements made
clearing and cultivating at least five
acres, before a Crown Grant can be
received.

For more detailed information see
the Bulletin "How to Pre-empt
Land."

PURCHASE
Applications are received for pur-
chase of vacant and unreserved
Crown lands, not being timberland,
for agricultural purposes, minimum
price for first-class (arable) land is
\$5 per acre, and second-class (graz-
ing) land \$2.50 per acre. Further in-
formation regarding purchase or lease
of Crown lands is given in Bulletin
No. 19, Land Series, "Purchase and
Lease of Crown Lands."

Mill, factory, or industrial sites on
timber land, not exceeding 40 acres,
may be purchased or leased, the con-
ditions including payment of
stampage.

HOMESITE LEASES
Unsurveyed areas, not exceeding 20
acres, may be leased as homesites,
conditional upon a dwelling being
erected in the first year, title being
obtainable after residence and im-
provement conditions are fulfilled
and land has been surveyed.

LEASES
For grazing and industrial pur-
poses areas not exceeding 640 acres
may be leased by one person or a
company.

GRAZING
Under the Grazing Act the Pro-
vince is divided into grazing districts
and the range administered under a
Grazing Commissioner. Annual
grazing permits are issued based on
numbers ranged, priority being given
to established owners. Stock-owners
may form associations for range
management. Free, or partly free,
permits are available for settlers,
campers and travellers, up to ten
head.

SEES DOOM OF GAME BIRDS ON THE CONTINENT

Ducks and Geese Cannot Last Long Says Famous Authority on Birds

HORNADAY'S APPEAL

NEW YORK, Feb. 9.—The migratory game birds of North America are threatened with practical extinction, in the opinion of Dr. W. T. Hornaday, noted naturalist and defender of wild birds and animals. Ducks and geese may come to the vanishing point in ten years if the present rate of slaughter continues. "The doom of our non-migratory birds as well is sounded unless bag limits are immediately reduced," Dr. Hornaday declares.

"An army of 6,000,000 hunters equipped with the most modern devices of slaughter has reduced to a certainty the practical extermination of the game birds if the present unparalleled rate of destruction continues," the speaker said. "There has never before been anything equalling the present pursuit of bird life in American history. Not even the destruction of the buffalo was more persistent or widespread."

Danger of Auto

"It is generally admitted that the automobile has doubled the perils of the game, because it has placed every stretch of water where ducks may be reported, and every hunting ground within the reach of hunters living within a radius of 200 miles or more."

"Under the ruling of the Department of Agriculture the bag limit that may be shot by a single hunter in one day is 25 ducks of all kinds, except the wood duck and eider duck, and eight geese and eight brand. The season lasts for three months or more. These limits are most wasteful. No man or ordinary sized family can eat 25 ducks in one day, nor more than one-fifth of that number, and since their sale is forbidden in most states, indications are that a large percentage of a full bag must be given away or become a loss by decay."

"The awful limit of 25 ducks a day now prevails in 29 states, fatally including all the states where the ducks find winter feed and where they congregate in greatest numbers in winter. Although no hunter gets his limit every day, and in many states where ducks were once plentiful he will now be fortunate if he kills one duck, yet in those diminishing areas where ducks seek winter protection and food, he often gets the limit by the time most of us are breakfasting."

Thing of Past

"Without further legal restrictions, in ten years our migratory game birds will have become so shot to pieces and weakened as to be reduced to the vanishing point. Unless steps are taken further to protect the birds against the millions of hunters arrayed against them for three months of the year the slaughter will automatically make duck shooting a thing of the past, and many species may pass permanently from our list of game birds. I appeal not only to the sportsmen but to all bird lovers, to the women of the country, to all others who are interested in preserving our wild life for future generations, to act now, before it is too late."

PLANNING OPERATE DRUM LUMMON MINE

New Syndicate has been Organized from Shareholders of Former Defunct Company

A syndicate organized from the shareholders of the former company has secured an option on the Drum Lummon mine, which is now in the hands of an assignee, with a view to protecting those who are interested in it. Arrangements have been practically made to meet the first payment and funds are being secured to drive a low level tunnel as nearly as possible at sea level to avoid the necessity of the more expensive plan of sinking a shaft.

The mother of this attractive little girl, Mrs. E. E. Emmans, of 215 Seventh Ave., N. E., Fortage La Prairie, Man., is one of the many Canadian mothers who are enthusiastic about the vaporizing salve, Vicks VapoRub, for treating children's colds. Mrs. Emmans writes: "My little girl had croup at night pretty badly and Vicks did her a lot of good. I have also used it with very satisfactory results for head and chest colds."

Vicks is just "rubbed on" for sore throat, tonsillitis, bronchitis, croup or deep chest colds. When so applied, Vicks has a double direct action; internally medicated vapors are inhaled while, at the same time, externally, it is absorbed through and stimulates the skin.

A GOOD WAY TO INCREASE BUSINESS

Many advertising messages fail to attract attention because they are either unattractive or are too stereotyped.

This is the opinion of one of our busiest and most successful business firms—Albert & McCaffery, Ltd. They have succeeded in interesting many new customers in the story of the famous Nanaimo—Wellington coal and since the coal itself lives up to its reputation these customers are coming back daily for more. Nanaimo—Wellington coal is the premier fuel for the fireplace, range and furnace. More heat—less ash—no rock or clinkers.

You should try Nanaimo—Wellington as soon as your present supply gets low. Better still, if you order some now you can test it out with the coal you are now using. Nanaimo—Wellington stands supreme when a comparative test is made.

To secure a supply phone Albert & McCaffery Ltd., who are sole agents here. Their phone numbers are 446 and 564.

BIG GRANT FOR PUBLIC HEALTH

Social Hygiene Council Supported in Combating National Menace

(By Canadian Press)
TORONTO, Feb. 7.—Impressed by the character and effectiveness of the public health work being done in Canada by the Canadian Social Hygiene Council and the very definite effect this work is likely to have in lengthening the span of human life, one of the big insurance companies of New York, which makes a specialty of encouraging scientific effort of this kind on this continent, has offered to the council a grant of \$25,000 for the year 1925.

It is understood that this offer has come through the very favorable report made by the officials at the Canadian headquarters of this company in Ottawa, regarding the activities and program of the Social Hygiene Council in its combat with the national menace of venereal diseases.

Two Weaknesses

In speaking of the uses to which this money is likely to be put Dr. Gordon Bates, General Secretary of the Council, said: "Though we have 50 branches of our council throughout Canada, and a national program of social hygiene, there have been two definitely weak spots in our movement, and these we now hope to remedy. One has been the need of organizers in both eastern and western Canada. These we hope to appoint at once and so to get a much firmer hold—on points distant from headquarters, which need not only inspiration—as to programs of activity but assistance in carrying them out."

"The second weakness has been in our failure to work out a national scheme for the adequate scientific education of adolescents and children in the meaning of social hygiene, so that from the earliest years onward, there may come to them through proper channels a gradual but accurate knowledge regarding certain biological facts, the maintenance of clean standards of conduct, and the responsibility of every individual for the building up of those fine and healthful social conditions which are the aim of every scientific hygienist."

Adults and Parents

"In our work so far we have aimed at these objectives by educative work for adults and parents. But we feel that there should be a more aggressive and definite plan to ensure child education along all these lines."

TO REDUCE ARMY

TOKIO, Feb. 9.—Four divisions comprising 40,000 men of the Japanese army will be dismissed by May 1, in accordance with the general retrenchment plan of the government. The divisions abolished have been selected largely with a view to the economic results in the regions where they are stationed.

IS YOUTHFUL MUSHER

Says Expects to Win Again But at Anyrate Will Make Good Try

WINNIPEG, Feb. 9.—Determined to make a hard fight for victory in the Quebec Dog Derby, Emile St. Godard, 18 year old musher, of The Pas, Manitoba, who distanced all his competitors in the annual 200 mile classic of Northern Manitoba, left Winnipeg for Quebec this morning over the Canadian National Railways.

St. Godard, who was taking part in his first race at The Pas last week, put many miles between himself and his nearest competitor, and made the 204 mile journey to Herb Lake Gold Mines and return in what was considered good time considering the route and trail conditions. The time of this year's race was slow compared with last, when the winning team finished nearly twelve hours sooner than did St. Godard, but trail conditions were vastly different so much so, in fact, that several experienced mushers who were to enter their teams refused to do so because a large part of the route was laid along the Hudson Bay Railway track and they declared that dogs could not stand the many miles of travelling over cinders and gravel.

Brought in Dogs

St. Godard, driving Bacon's team finished in good shape, however, but brought in on his sleigh one dog, which had played out. The conditions of the race call for drivers finishing with every dog, dead or alive, either hitched to the sleigh or riding on it.

On arrival at Winnipeg, Saturday, St. Godard's team showed little effect of having gone through such a grind, when unloaded from the Canadian National Express car in which they had travelled down from the north, the dogs were harnessed to the sleigh and taken out for an exercise run. Their start from in front of the express stables, where they were quartered for the night, was an indication of why St. Godard had been able to secure and hold such a lead in his dash at The Pas. The owner of the team, Bacon, accompanied the youthful musher to Quebec, and is hopeful that they will be able to land the prize in the grind there as well.

A MARTYR TO CONSTIPATION

"Fruit-a-tives" brought early relief

MRS. C. W. THOMPSON

"I first heard of 'Fruit-a-tives' through a friend of mine living in St. Johnsbury, and as I was troubled with very high blood pressure and constipation, I decided to try the fruit treatment. The result is that I am feeling very much better, and I am glad to recommend 'Fruit-a-tives' to anyone." Mrs. C. W. Thompson, Lyndonville, Vermont.

All your physical and mental energy is drawn from your blood stream. If the bowels and kidneys do not function properly, poison enters the blood-stream, and the heart, brain and nerves are all affected. "Fruit-a-tives" clear the system of all waste matter, purify the blood and tone up the whole system. They are made from the intensified juices of luscious healthful fruits combined with tonics. Sold everywhere 25c & 50c.

Gives Interview

To newspapermen who met him at the station on arrival here, St. Godard expressed himself as optimistic as to the outcome. At any rate he could try as hard as he had done at The Pas, and he believed his team was speedy as anything which either east or west could produce. St. Godard himself has the build for a long distance runner and looked the picture of health. He declared he had long since got over the effects of his long grind of last week, and had not felt particularly tired at the finish despite the thirty hours duration of the journey. "But it was pretty hard on the dogs" he added. His team, however, were in good shape again and would be eagerly awaiting the starting pistol.

Gives Interview

St. Godard will have real competition from his home town when he starts in the Quebec Derby. In addition to Earl Brydges, winner of last year's Quebec race, he will have Shorty Rustick, winner of the 1924 classic at The Pas and McDonald's fleet team of huskies to contend with. The other three drivers with their teams are due to reach Winnipeg on Tuesday.

BADMINTON IS WELL CONTESTED

Prince Rupert Club Wins by Three Games Against Regiment at Armories

The Prince Rupert Badminton Club scored a second victory against the First B.C. Regiment at the Armories yesterday afternoon, beating them by three games out of a total of fifteen. Most of the games were well contested and the spectators experienced scarcely a dull minute while play was going on. During the course of the afternoon ten was served to all those present by the ladies auxiliary, Mrs. Nicholls pouring.

By points the play was very close, the total for the Prince Rupert club being 175 and for the Regiment 167. One interesting feature was the defeat of Bartlett by Johnstone in the second round.

At the conclusion H. E. Puller on behalf of the visitors thanked Colonel Nichols and the Regiment for the enjoyable afternoon's sport and wished them better luck next time. Colonel Nichols responded. The scores were as follows:

First Round Singles

Scott beat Rix 15 to 10.
Philpott beat Thompson 15 to 4.

Tinker beat Wyles 15 to 10.
Bartlett beat Johnston 15 to 13.
Crews beat Tremayne 15 to 8.
Nicholls beat Carmichael 15-5.

Second Round Singles

Scott beat Rix 15-6.
Philpott beat Thompson 15-7.
Wyles beat Tinker 15-3.
Johnston beat Bartlett 15-10.
Crews beat Tremayne 15-9.
Carmichael beat Nicholls 15-11

Doubles

Philpott and Tinker beat Scott and Wyles 15-14.
Bartlett and Carmichael beat Rix and Johnston 15-9.
Thompson and Crews beat Tremayne and Nicholls 15-8.

Sport Chat

In addition to the regular basketball games tonight, several local businessmen have volunteered to stage a little battle according to an announcement made by B. J. Bacon. The game among the butchers last week proved so interesting that it has been decided to give the fans a chance to see a game which will make up in enthusiasm any thing that it may lack in skill. The regular games tonight will include a battle-royal between the Elks and Sons of Canada who are tied at the top of the Senior League, another of those interesting Ladies' League engagements between the Maple Leafs and Gill's and an intermediate match between the Grotto and Regiment. It is, on the whole, a very interesting program and there should be a bumper crowd of fans out for the evening.

They tried a new golf stunt in Montreal the other day on the snow-covered links of a small club known as the Rosemount Club in one of the suburbs. They called it golf on snowshoes and, while the participants claimed they enjoyed it thoroughly, it is doubtful if it will ever become generally adopted. Some years ago there was a fox hunt over the snow near Montreal and, though that too was a great frolic, it was never repeated. In the golf on snowshoes, a tennis ball was used. Old Country people say that, after the first snowfall in Scotland, the dyed-in-the-wool golfers keep on playing until the snow gets too heavy and use a ball painted red to facilitate spotting it.

It was announced this morning that the Colts, having failed to field a team in Thursday night's Senior League basketball game, thus forfeited the match to the

REVISION COURT SESSION TODAY

Ald. Stephens Moves For General Reduction of Assessment in all Sections

Having eleven appeals before it, the court of revision on the city assessment roll opened its annual session in the city council chamber this morning with Mayor Newton, Ald. Stephens, Ald. Casey and Ald. Smith present. The fifth member, Ald. McMorde, is out of the city. Several of the appeals were disposed of and adjournment was taken until Thursday afternoon.

The feature of the proceedings was the giving of notice by Ald. Stephens of a resolution calling for a general reduction in assessment of ten per cent of all lots in sections 1, 2, 5, 6 and 8 and of fifteen per cent in section 7. Mayor Newton and Ald. Casey opposed the resolution on the grounds that reduction of assessment would make no difference to the ultimate taxation. Ald. Stephens' point was that the assessment should be made as

ONLY THE MOTHER KNOWS ABOUT THE COUGHS AND COLDS OF THE CHILDREN

It is hard to keep them from taking cold; they will run out of doors not properly clad, or have on too much clothing; play too hard and get over-heated, and cool off too suddenly; get their feet wet; kick off the bed cloths at night, and do a dozen things the mother can't prevent. The prompt use of

I tried Dr. Wood's Norway Pine Syrup, and after using three bottles he was completely relieved. I would advise all mothers to use this remedy for their children as it is an excellent medicine."

GRAVES OF SOLDIERS LOOKED AFTER WELL

Director of Commission Tells of Work Done in Salonica and Other Places

OTTAWA, Feb. 7. — Shaded from the scorching sun by the cool, green, swaying branches of native trees, and enclosed within high stone walls that afford access to mourners and sympathizers alone, the remains of Britishers who gave up their lives in the Great War while serving in far-off Macedonia, Greece and the Balkan States, lie tranquilly at rest, while inscribed on each shining headstone above the grass grown mound are the words "Their Name Liveth for Evermore."

This was the reassuring picture furnished by Captain A. F. Menzies, deputy director of works, Imperial War Graves Commission, in an interview on his return from Salonica, where since 1924 he has been actively engaged with the commission. Captain Menzies, who is an Ottawa man, reached Salonica in the Christmas of 1920 as assistant deputy director of works with the Imperial War Graves Commission. Since that time until his recent return he has been steadily engaged in the work of establishing cemeteries and gathering together the graves of British soldiers who gave up their lives for the cause of world peace and world freedom.

3rd Avenue. The Quality Home Furnisher Phone 20

on Colonial Hill overlooking Lake Doiran and facing the Grand Corinne in front of which the Allied Forces were held up for a considerable time owing to the inaccessible position held by the German and Bulgarian troops, is to be unveiled about April 12, 1925, when all British cemeteries will be officially opened.

Union steamer Gardena, Capt. A. E. Dickson, arrived from the south at 2 o'clock yesterday afternoon and sailed at 8 for Anyox, Stewart and Alice Arm. The vessel had the following passengers: for Prince Rupert—H. Spaner, H. Atchison, S. G. Harlan, R. M. Winslow, George A. Young, Mr. and Mrs. N. Lando, Miss N. Johnston, H. M. McLeod, J. Armstrong and A. W. Collins; for Anyox—H. M. Williams and Mr. Ruckaber; for Stewart—Mrs. T. W. McDonald and H. Hummel.
