# STORMS FOLLOW INTENSE HEAT IN STATES

## LOCAL MAN IS CHAIRMAN OF PACIFIC COMMITTEE OF BIOLOGICAL BOARD

### No New Construction Peace River Railway Is Likely This Year

Sir Henry Thornton's Proposal Not Considered  
Last Word in Negotiations for Relief

VANCOUVER, June 2.—A special despatch to the Province from Ottawa states: "The proposition which Sir Henry Thornton has submitted in regard to the Peace River Railway is not considered to be the best offer of the Canadian National but rather a basis to work on. It is said that Sir Henry is ready to admit of further concessions."

Meanwhile in certain quarters the idea is apparently being inspired that the whole project has fallen through. Members of the delegation from the district, who are still here, do not regard it in that way nor is it so viewed by the Dominion authorities.

So far as the building of the new line is concerned, the scheme undoubtedly is indefinitely halted because the executives of both railways consider that at this juncture it could not pay and the heavy outlay could not be justified.

"The situation," the despatch continues, "reduces itself to this that construction of the new outlet through the mountains is seemingly out of the question now but lower rates over the E.D. & B.C. are reasonably assured until building is started."

#### Sir Henry's Proposal

The proposal made by Sir Henry was that the Canadian National should take over and operate the Edmonton, Dunvegan and B.C. Railway, the fixed charges to be assumed by the Province of Alberta and the operating costs and maintenance by the G.N.R. system.

Rates for grain export via Pacific coast ports would be almost or quite equal to the prairie rates, the mountain differential being abolished.

Sir Henry expresses a willingness to go ahead with construction of the railway as soon as the grain production of the Peace River district amounts to from ten to twelve million bushels a year, the construction costs to be assisted by land grants from Alberta and British Columbia.

A proposal made by the C.P.R. makes no promise of a western outlet by means of new construction.

It is understood that any grant made by the government to aid in reducing the rates to the Peace River shippers would be made north of here.

Falt shot himself through the head when officers approached only to the Canadian National at Little Port Walter, 126 miles north of here.

Falt shot himself through the head when officers approached only to the Canadian National at the gasoline boat where he had road and not to the competing barricaded himself.

### SHOOTING AT PORT WALTER

Adolph Falt Killed John Dalston  
and Then Shot Himself  
Through Head

WRANGELL, June 2.—United States deputy marshall Campbell and special deputy Earl West arrived here with the body of Adolph Falt, who on Wednesday shot John Dalston in a fit of insanity. He shot him five times at Little Port Walter, 126 miles north of here.

Falt shot himself through the head when officers approached only to the Canadian National at the gasoline boat where he had road and not to the competing barricaded himself.

### Prospectors Still Await Thaw on Dease Lake Before Leaving Telegraph Creek for Goldfields

There is still ice on Dease Lake and it will not be navigable until about the middle of June according to word brought back here by persons visiting Telegraph Creek last week. In the meantime, some 250 prospectors, awaiting the opening, are now camped around Telegraph Creek filling in the time by prospecting in the hills surrounding that point.

These prospectors are not giving any particular attention to the find last year of Grady and Ford on Gold Pan Creek but they are convinced that somewhere in the neighborhood is a big and rich placer field. Though nothing definite of vast importance has yet been discovered, the firm belief prevails that big things will develop in the Cassiar country eventually—though possibly not this summer.

It costs about \$50 or \$60 a ton to take in freight from Telegraph Creek now are of an

### Storms and Heavy Rain Follow Intense Heat in Central States

#### Score of people dead as result of Lightning and Heat Wave from Nebraska to Ohio

CHICAGO, June 2.—A score people are dead and as many more injured in the middle west today as a result of the heat wave and ensuing storms extending from Nebraska to Ohio.

Yesterday the first heat records were smashed at Chicago when the thermometer jumped to 92 degrees in the shade. Cleveland registered 91 and Detroit 92.

Thunderstorms brought relief from drought in many states, notably Nebraska, which has recorded the driest month since 1870.

Storm damage was greatest in Iowa, where four deaths occurred, three from lightning. Property damage amounted to \$200,000.

### RUM ROW IS NOW ACTIVE

Report That Armed Fleet is to  
be Used in Smuggling  
Liquor

NEW YORK, June 2.—Rum row is showing activity again after virtually at a standstill because of five weeks' blockade of the coast by coastguard. Eight ships are now in the smuggler's zone off Boston.

The New York bootlegging ring is reported to have contracted for construction of an armed high powered fleet to combat the coastguard.

### SASKATCHEWAN ELECTION TODAY

Keen Contest in Cities of Prairie  
Province to Overthrow  
Liberals

REGINA, June 2.—Saskatchewan voters went to the poll today to choose a new legislature. The Liberal government headed by Premier Dunning is asking for re-election. They are strongly opposed, bitter contests being waged in Regina, Saskatoon, Moosejaw and other centres and the prospects are for a record vote in these cities.

Drenching rains have made the roads impassable in many rural districts, and this may have an appreciable effect on the size of the vote.

### NECK BROKEN STUNT JUMPING

Man Instantly Killed at New  
Westminster When Car  
Refused to Leap

BROKE HIS OWN NECK

NEW WESTMINSTER, June 2.—Robert Swayne, 26 years of age, of North Bay Ontario, was instantly killed yesterday afternoon when attempting a long jump stunt with an automobile.

The stunt consisted in rushing

up a prepared incline at a speed

of 40 miles an hour and jumping

the car off an eight foot plat-

form a distance of 40 yards.

The car lurched, landed on its

nose 26 feet beyond the plat-

form, turned turtle, and crumpled up a total wreck.

Swayne's neck was broken and

his skull fractured and he was

otherwise injured. He is said to

have performed a similar stunt

successfully in 25 different

places in Canada and the United

States.

### BODY OF MURDERED MAN IS DISCOVERED NEAR SEWARD, ALASKA

SEWARD, Alaska, June 2.—It is believed by a party which returned to Kanatak that the body found in Uashik River near his cabin with a deep gash over one eye and covered with bruises was that of K. B. King, who apparently had been murdered. This is the second violent death in this region during the past winter.

### UPRISING IN AFGHANISTAN

British Forces in India Moving  
Toward Frontier Following Reports

LONDON, June 2.—British forces in India are moving in the vicinity of Afghanistan on the Indian frontier as a result of reports reaching official circles here of an imminent general uprising in Afghanistan against the Emir.

The reported proposed uprisings is rumored to be the result of activities of the Soviet emissaries who have been working in Afghanistan during the past two years.

### J. Dybhavn Chairman of Pacific Committee Can. Biological Board

More Active Work to be Carried on Connection  
With Investigations of Commercial  
Fish Propagation

(Special to Daily News).

OTTAWA, June 2.—The Biological Board of which John Dybhavn of Prince Rupert is a member is to take a much more active part in connection with fish culture and investigations leading to the protection and propagation of commercial fish than it has done in the past and with that end in view has decided on a definite policy for the future. At its annual meeting it decided to appoint a sub-committee for each coast. The Pacific committee consists of Professor O'Donoghue, Professor Hutchinson and John Dybhavn, with John Dybhavn as chairman and Dr. Clemens secretary.

The Atlantic committee consists of A. H. Whitman, Professor Connelly and Professor McKey.

These committees will have charge of supervising undertakings peculiar to their parts of the country.

An understanding has been arrived at between the biological board and the department of marine whereby the hatcheries shall hereafter be under the direction of a research committee of the board in co-operation with the superintendent of fish culture. This research committee consists of Professors O'Donoghue and Cox, Doctors Huntsman, Clemens, Leim, Foster, and a man to be appointed for the investigation of inland waters.

In connection with the action being taken on the Pacific coast to determine the movements of salmon, the biological board decided to assist in the work in British Columbia, Dr. Williamson to have charge of this special department.

A definite plan for checking and marking salmon extending over a number of years has been decided upon to be carried out at Cultus Lake, B.C., in order if possible to determine the actual number of mature fish returning and as far as possible to compare results as between natural and artificial propagation.

### PLAN TO BLOW UP RAILWAYS

Boxes Supposed to Contain  
Bombs Discovered and  
Thrown Into River

NEW YORK, June 2.—A plan to blow up the elevated trains was frustrated today with the finding of two boxes believed to contain bombs projecting over the tracks at two stations. The police threw the boxes into the East River.

### Stork Defends Vote for Grain Elevator at Prince Rupert in House of Commons at Ottawa

In the course of the lengthy discussion in regard to the Prince Rupert elevator vote at Ottawa, in which the Conservative leaders strongly opposed it, Fred Stork, member for Skeena, spoke in its defense as follows:

"I wish to deny entirely that this is in any sense a political elevator. The hon. member for West York (Sir Henry Drayton) has referred to it in those terms, but I may remind the hon. member that in 1917 I carried that constituency by a majority of six hundred without any reference to construction of an elevator. In 1921, without the benefit of an elevator, I again carried the constituency, and I am sure the same result will be once more achieved even without the aid of the elevator. However, Mr. Chairman I have spoken in this House on many occasions in support of this project. Therefore it is unnecessary, I think, for me to go into all the details again; to again refer to the fact that Prince Rupert is some 180 miles nearer the Orient than any other port on the Pacific, that there is a harbor there which is economi-

## DAILY EDITION

TUESDAY, JUNE 2, 1925.

## Action And Reaction.

For every action there is a reaction. If you take too much exercise your limbs become stiff. If you eat too much you get indigestion, fogged brain and a hundred other ailments. If you drink too much you make a pig of yourself and suffer many physical ailments. If you make no friends, the time comes when you need them and you suffer accordingly. So in every walk of life there is a corresponding result for certain lines of action or, as the good book says, "Whatsoever a man soweth, that shall he also reap."

What Are We Sowing  
In Preparation For Harvest.

This is not exactly a preaching, but in view of the lesson taught by preachers and scientists and others it might be well now at the beginning of summer to ask ourselves just what kind of seed we are sowing for the future harvest. We are all intent on trying to make money or to spend it. Many of the finer things of life we lose. We are living on the outskirts of civilization and we are engaged in the great work of hewing a city out of the wilderness. And we are meeting with a certain degree of success. Many visitors think we have been successful beyond all expectations. Many of us feel almost as if we had failed because we have not individually made our pile. Life is still a struggle with us, whereas we thought to have got rich quickly and that without much labor.

Today we all have our noses on the grindstone. Life is no bed of roses. We have little time to devote to the arts and the sciences, and the result is we shall have to take our enjoyment in the cruder things of life such as those having to do with commercialism. Literature and art and music are names only to many. And yet there are few who keep the flame burning and who will save the city from gross materialism and many of these are to be found among the wage earners of the city. Also the women of the city have higher ideals than the men.

Materialistic Phase  
In Every City.

There is a materialistic phase in the life of every city. It is the time of greatest growth when people bend all their energies to advancing the material welfare of the place. We all come here to make a little more than a living and we are trying to do it, although many fail.

The person who gives himself up wholly to making money will later when he has made money have no other pleasure left. He will probably die when he gets rich enough to be able to afford it.

Victory For Labor  
In New South Wales.

Labor has won the election in New South Wales. This will cheer many of the Labor leaders who have entered politics here and failed. It must be remembered, however, that labor can win only when its policies are such as to appeal to a majority of the people. In Australia labor is simply a name. There are wealthy men supporting the labor cause and there are all sorts and conditions of people on the other side, including many working men. Australia is no more class conscious than is Canada. Some day perhaps we shall have a labor government in Canada, but if we do it will only be because the policy of the labor party is such as to appeal to the mass of the people, and the leaders must be men who can inspire confidence in the electorate. A name is worth something but there must be also something beside a name in political life. This is true of the old parties as well as of new.

## CITY ENGINEER HAS RESIGNED

III Health Compels F. W. Pearson to Ask City Council For His Release

Having been advised by his physician that a complete change was needed for at least one month owing to his recent ill health, F. W. Pearson, city engineer for the past two years, tendered his resignation to the city council last night. The resignation, which is to take effect on June 8, was accepted on motion of Ald. Perry, seconded by Ald. Stephens. The mayor and city clerk were instructed to give Mr. Pearson a good letter of recommendation in recognition of the two years of efficient service he has given when important street work was under way and he was also voted his salary for the month of June in view of the fact that he had no holidays last year.

In his letter of resignation, Mr. Pearson stated that he was giving notice to the council so that it would cause no embarrassment and so there would be no interference with the progress of the work now going on. Mr. Pearson pointed out that almost all the grading would be completed by the end of this week and the present staff would be capable of carrying on the work now in progress. He hoped that his resignation would be accepted in the same spirit in which it was tendered.

Ald. Casey said he had intended asking Mr. Pearson for statements of cost in connection with recent local improvement work so that the council might be informed as to whether or not it had exceeded the estimates. Work now in progress would probably come under the estimates. Atlin Avenue grading had exceeded the estimate by perhaps more than twenty per cent.

Resolutions accepting Mr. Pearson's resignation and granting him salary for the month of June was then passed.

The matter of taking action following Mr. Pearson's resignation was left to the board of works.

## Going to Toronto

Mr. Pearson will leave the city on Saturday of this week. He will proceed leisurely to Toronto where, after a month's rest, he will take a responsible position as superintendent for the McNamara Construction Co. of that city. His first duties in the new post will be the supervision of a large highway contract involving reinforced concrete bridge and paving work. He has made a special study of this work, results of which have been seen on local streets during the two years in which he has been here.

MOOSE WALKED  
ALONG STREET

Bert Creech Fortunate to See Big Animal Passing Along Telegraph Creek

While big game hunters are paying thousands of dollars to pay guides and hire packhorses to take them to where they can see or hunt big game Bert Creech, representative of the wholesale firm of F. G. Dawson Ltd., had the big game come to him a few days ago. He was in Telegraph Creek in the interests of his firm, when as he looked up the street, what should he see but a big moose come sauntering along. Taking no notice of anyone or anything, the big creature advanced until right in the centre of the town along Main Street, looking over the store windows and the signs and then, turned to the walk leading to the river and swam across the stream. Nobody bothered it and it bothered no one.

One of the residents casually remarked to Bert: "Do not take any notice of that. They do that always on May 24. If you wait a few minutes you'll see a grizzly bear strolling along."

Miss Mary McRae, daughter of Mr. and Mrs. D. C. McRae, who successfully graduated from the Provincial Normal School at Victoria, is expected home at the end of this week or the first of next to spend the summer vacation here.

HEART WAS WEAK  
NERVES ALL GONE

Mrs. J. H. Haffenbeck, 117½ Welland Avenue, St. Catharines, Ont., writes: "I was in a gas explosion; it left me with a weak heart, and my nerves were all gone. I suffered everything; couldn't sleep, or endure any excitement, and when left alone I felt as if I could scream. I took dizzy spells, often falling and bruising myself. My mother read about your Milburn's Heart and Nerve Pills, and bought me a box, but having taken so many different kinds of medicine it just seemed that I did not have any confidence in any of them. I took one box of H. & N. Pills, and felt so much better I continued with them until I had used five boxes, and after I had taken them I did not need any more. I cannot praise, or recommend, Milburn's Heart and Nerve Pills too highly after all they have done for me."

Put up only by The T. Milburn Co., Limited, Toronto, Ont.

PRESENTATION MADE  
REV. J. S. BRAYFIELD  
BY PEOPLE OF TELKWA

Gathering Held in the Library to Wish God Speed to Minister Who Was Leaving

(Special to Daily News)  
TELKWA, June 2.—In the Telkwa Library on Friday night, the many friends of Rev. J. S. Brayfield gathered for the purpose of wishing him happiness in his new field, at the same time expressing regret that he is leaving Telkwa where he has served so faithfully for over five years.

F. M. Doeckrill, on behalf of the citizens, spoke of the work done by Mr. Brayfield, not only as a minister, but as an interested citizen and at the close of this, Mrs. E. M. Hoops presented a purse carrying with it all the good wishes of the community.

## The Man in the Moon

SAYS—

ENJOY a frolic while it is going, but remember there is a night after.

OH the night, Oh the night,  
Oh the night after!  
That's when I suffer for  
An evening of laughter.  
"Trip the light," someone said,  
But my feet feel like lead  
And I'm standing on my head.  
It's the night after.

THERE was a young fellow named Tom  
Who dropped a big dynamite bomb  
And now up in Mars  
They are saying "My Stars!"  
Where on earth did he emigrate from?"

DAY by day in every way I am coming to a realization of the fact that the dollar bill is getting smaller and smaller.

THERE was a time when dad used the shingle on the flapper but now the flapper's shingle helps break dad.

KNOCKING pays sometimes in spite of what the editor says. Look at Jack Dempsey.

WITH the salaries of movie stars on the decline, it is to be expected the public will soon be asked to buy autobiographies on "How I Became a Great Actress."

A MAN is taking chances when he gets married, but after marriage he has no chance at all.

THE good old days married men look back to were mostly nights.

WHEN a person speaks good English you begin to wonder if he is not really Japanese.

IF everybody works in heaven, I know several people that won't be there.

IF the country needs rain and you need a Sunday outing which are you going to pray for?

Ten Years Ago

After having dissolved partnership, Joe Sigmund is continuing the business of the Prince Rupert Exchange at the same address.

**Coal \$14.50. Double-screened Nanaimo-Wellington — positively the best domestic coal in British Columbia. Albert & McCaffery, Ltd. Phone 564 and 116.**

Alex. Mackenzie, having dissolved partnership with Joe Sigmund in the Prince Rupert exchange business, has opened up for himself in the furniture line in the John Christie old store on Third Avenue.

The Prince Rupert Boat House gashoal Myfanwy was taken on the dry dock this morning for cleaning and painting. The G. N. R. Swanson Bay car ferry was also taken up for annual overhauling.

There were six fire calls during the month of April according to report of the fire chief for that period submitted to the city council last night. The total damage was \$4,774—all of which was covered by insurance. The chief loss was that when the residence of P. Gamula was burned.

### FISH PRICES STILL KEEP FAIRLY HIGH

Considerable Spread Between Canadian and American at Exchange

There is still considerable spread between Canadian and American fish sold at the exchange. Prices remain fairly high for the U.S. product. Following were today's sales:

**American**  
Stika 36,000 at 12.60 and 1 to Gold Storage.

Rainier 39,000 at 13.20 and 1 to Booth Fisheries.

Gladys 12,000 at 14.10 and 6 to Royal Fish Co.

Hilda 5,500 at 14.10 and 6 to Atlin Fisheries.

Thelma N. 8,000 at 14 and 6 to Pacific Fisheries.

**Canadian**  
Fanny F. 5,000 at 11.80 and 5 to Atlin Fisheries.

Toodie 6,000 at 11.80 and 5 to Cold Storage.

Margalice 4,000 at 11.80 and 5 to Royal Fish Co.

### NEW OFFICERS OF PYTHIAN KNIGHTS

E. Hudson Chosen Last Night to Head Order For Forthcoming Term of Office

Sheena Lodge No. 45, Knights of Pythias, last night elected officers as follows for the forthcoming term:

Chancellor Commander — E. Hudson.

Vice-Chancellor — R. McDonald.

Prelate — H. Hawkins.

Master of Works — F. Garton.

Keeper of Records and Seals — Fred Wesch.

Master of Finance — S. Hamblin.

Master of Exchequer — G. W. Johnstone.

Master at Arms — W. Burkin.

Inner Guard — H. Blake.

Outer Guard — F. W. Hart.

### BIRTH

A daughter was born at the Prince Rupert General Hospital on June 2 to Mr. and Mrs. Frank Johnson of Inverness.

### BIRNIE HAD CLOSE CALL

#### Little Lighthouse Tender Nearly Sank at Government Wharf this Morning

The sinking of the lighthouse tender Birnie and drowning of members of the crew sleeping aboard the vessel was narrowly averted at the government wharf early this morning.

Loaded to capacity with supplies and equipment for a beacon that is to be erected at Vadso Rock near Anyox, the Birnie during the night apparently began to ship water through dried seams under the guards. When officers of the vessel arrived on the scene at 5:30 this morning preparatory to sailing for the north at 6 o'clock, they found the after deck awash and water up to the engine clutch. Soaking lime was letting off volumes of smoke. They immediately aroused the sleeping men aboard and called for assistance from the crew of the Newington which was lying nearby. The full crew of the latter vessel turned to and within fifteen minutes, the situation was under control, some fifteen tons of gravel, lime, carbide, etc., having been thrown overboard.

Capt. Peterson, master of the vessel, said this morning that it was fortunate that the assistance of the Newington's crew was on hand. If the plight of the Birnie had been discovered a little later and help not given immediately, the sinking of the vessel probably could not have been avoided.

The Birnie was being pumped out and unloaded this morning pending instructions being received to have the vessel put on the dry dock for survey.

Babe Ruth in Game Today

Made Debut For Season After Being in Hospital Several Weeks

NEW YORK, June 2.—Babe Ruth has recovered from his illness, which confined him to the hospital for several weeks. Yesterday he made his debut for the season with New York but failed to halt Washington team in their quest for another pennant, the world champions winning by 5 to 3.

Babe was relieved in the seventh inning to avoid the possibility of overtaxing himself.

THREE CRIMINAL CASES AT ASSIZES

Liard River Murder Charges Will Not be Heard at Session Opening Here Next Week

So far as is known now, the criminal docket at the Supreme Court Assizes which opens here next Tuesday with Mr. Justice W. A. Macdonald presiding will contain two manslaughter cases and a case of wounding with intent.

C. V. Symes, local taxi driver, stands charged with manslaughter in connection with the death of little Norma Munro on Fifth Avenue East when she was struck by accused's car. W. Pollock, Bella Coola Indian, is also charged with manslaughter in connection with the death of John Clelland, white, as a result of an automobile collision.

Arthur Stewart of Port Essington will take jury trial on a charge of wounding with intent. Alex Douglas also of Port Essington. Both are natives.

The trial of five Liard River Indians on charges of witchcraft murder it is not expected will take place at this Assizes but will be heard later in the season when it is possible for the witnesses in the case to be brought out of the Cassiar district.

## BRINGING UP FATHER

## HOW TO PLAY FOOTBALL

### Pointers given for placing of men on field--what each position requires

(By "Andy" Ducat, Manager of Fulham Club.)

(Reprinted from "Greenock Herald")

You need to put each man in the place where he will do best. Few managers get the chance to fill every position on the field with their ideal man for it. They all, however, cherish a clear notion of the sort of man they want for each place.

For your goal keeper you need a man as near to 6ft. as you can get. He must have a good eye—enabling him to punch the ball out in emergency or tip it over the bar. Spectators often make remarks about the goal keeper and, since he stands still, he cannot help hearing them.

It is fatal to have a man who is easily "rattled" in goal. You want a man of calm and cheerful disposition. Dash is best avoided as it may cause him to dash out at the wrong moment, enabling the forward to take the ball around him.

Your goalkeeper needs the power to kick straight, hard and low. When backs are compelled to take goal kicks, they are robbed of energy that they ought to save for clearing at more dangerous times.

#### Tactics for Backs

Backs are stoppers and kickers. They need never run with the ball or dribble it. Their work is to stop the attack and kick the ball out. A man of medium size is frequently heavy enough to make a good back. Big men have a natural advantage, but an amateur team is compelled to make the best of talent, and the biggest man in the team may be needed as centre-forward. If the big man is a crack shot it is a pity to waste this match-winning power by putting him at back. This is a mistake many teams make—they put their biggest men behind without considering whether or not they would be better employed in front.

Given judgment in manoeuvring for position, courage in going after the ball, and power to kick it out, any two fair-sized men can be trained to combine as a defensive pair.

Kicks of great power are not needed. A well-placed kick to one of your own side is far more likely to result in a quick run down and a goal.

#### Keen Centre-half

Your centre-half is a terrier. His work is to worry. He worries the opposition centre-forward chiefly, but his job is to play like a back when back play is needed and like a forward when forward play is needed.

Here you must have a man of persistence and stamina. You may be able to find one with the necessary persistence and power to make himself thoroughly troublesome to all of the opposing attackers; but he must be keen enough on the game to keep in rigid training—that is important. If he falters half way through a match all his good points are wasted.

Should he lose hope or tire in the second half the whole of the team may become infected with the same spirit.

That is why the most virile and enthusiastic member of the team must be your choice for centre-half. He is the only man privileged to move pretty well where he likes about the field. Judgment is called for to use this privilege to the best advantage.

Here, then, are the chief abilities by which you may grade your men:

Goal-keeper: Height, calmness and activity.

Backs: Kicking power.

Centre-half: Enthusiasm and strength.

Wing halves: Tackling power.

Centre-forward: Shooting ability and size.

Inside men: brains and nimbleness.

Wing forwards: Sprinting power.

district people and the advertising of the country. Everything hinges now on whether or not sufficient capital can be raised locally to clear the grounds that would be necessary and pay for other arrangements. J. H. Johnson was elected president of the Stampede committee, Claud Food, secretary; and H. A. Carnegie, Alex. McB. Young, L. B. Baird, Mayor Alward, Alex Moffatt, J. C. Pidgeon and A. E. Sibley on the executive. D. P. Lockhart of Quesnel was made honorary president and honorary vice-presidents have been appointed to represent all parts of the district.

The fickleness of the masses is as serious a factor in sport as in anything else, and it was never shown more than in the case of Ty Cobb. After many years of playing with the Detroit Tigers, after working so hard and brilliantly that all sorts of honors have been showered upon him, and his name was writ large not only in the weekly and annual recapitulations of baseball prowess but in the general history of the game, a petition is being circulated for signature, in the city of Detroit, to have him deposed from the position of manager of the American League club of that city. And while poor Cobb is wondering whether he shall resign, "Babe" Ruth is regaining his strength slowly, and able to walk about. But the doctors said last week that it would be a long time yet before he would play again.

Supporting the centre are two halves chosen for their tackling power. Hard kicking and dribbling are not the greatest of the halves' work—what they need is fearless and clever tackling.

The shot the halves use so frequently that it becomes a habit is the one which swings the ball out to the wing forward, to clear the ball to the centre of the field more often than not.

It only provides temporary relief.

A neatly placed forward pass out to the wing, however, is likely to provide your wing man with a chance for a brisk run and so change the defence into an attack.

Backs concentrate chiefly on stopping tactics. Halves must stop the attack and open up the counter offensive in one and the same move.

That is why a good half-back line makes a good team, and a good half-back is a discovery to be cherished.

#### Forward Qualifications

When you come to your forward line you are on very clear ground as to the men for the work. Without hesitation I assure you that it will pay you to put your two quickest sprinters and dribblers on the wings. You may have a man who looks big enough to be a back, but if his bigness is the long-legged sort that means sprinting power, you ought to make him your wing forward.

The post of inside forward is one for a "first-class brain." This is the place for a man who can run round the others, pass trickily, use his head to find openings, and generally play a strategic game.

Your centre-forward is a shooter of goals, and ought to devote himself to becoming perfect at this work. A big man who can hold his own when attacked in front of the goal is desirable, but shooting power is the first essential.

Here, then, are the chief abilities by which you may grade your men:

Goal-keeper: Height, calmness and activity.

Backs: Kicking power.

Centre-half: Enthusiasm and strength.

Wing halves: Tackling power.

Centre-forward: Shooting ability and size.

Inside men: brains and nimbleness.

Wing forwards: Sprinting power.

The Sons of England defeated the Canadian Fish & Cold Storage Co. by 6 to 2 in the opening game last night of the Mobley Cup (city championship) soccer series. It was an easy win for the Englishmen who clearly outclassed the men from Seal Cove. It is hoped, however, that as the season advances and they become more practised up, the latter aggregation will show to better advantage.

The score at half time was three to nil in favor of the Sons of England. For the winners, the scorers were Farquhar (2), Johnson (2), Dickens and Howe. The Cold Storage scorers were J. Corbett and S. Darton.

Alex Holmberg refereed and there was a fair attendance of spectators.

## PARKS BOARD TO HOLD MEETING

### Newly Constituted City Body Will Meet Today—Ald. Casey Complains of Work Being Held Up

Money to be used in Connection With Organization's Play-ground Activities This Year

The recently formed city Parks Board is holding its first meeting today. The council was so informed last night after Ald. Casey had stated that work at McClymont Park which might be done by the caretaker was being unduly delayed. The construction of a tool house and shelter had been authorized but the caretaker had been instructed to delay building it.

Ald. Perry explained that the caretaker had been told not to proceed as the site selected for the tool house might be changed.

Mayor Newton said the caretaker had not been entirely wasting his time. He had prepared

considerable ground for the planting of seed. He thought

## GRADING WORK TO CONTINUE

Fourth Avenue and Graham Ave.  
Work to be Done this Summer

In connection with the introduction of a local improvement bylaw to provide for the construction of mattress grading on Fourth Avenue East between McBride Street and Fifth Ave at Hays Cove Circle, the question arose at last night's council meeting as to whether or not it was advisable for this work to be proceeded with immediately or left over until next winter.

Ald. Perry thought that the Fourth Avenue work, being largely in rock, might be left until winter and Graham Avenue, which was more muskeg, he started in the summer.

Ald. Larsen agreed that rock work could be more readily done in winter than muskeg work but the people on Fourth Avenue had been pressing to have their street done and if it were delayed he feared there would be protests. There were not so many people on Graham Avenue so it was in a better position to wait.

### Winter Work Costly

Ald. Stephens said he was in favor of leaving work over until next year if possible but he was opposed to doing any work, rock or muskeg, in winter if it could be done in summer. He did not think the work could be done as cheaply in the winter and it was the duty of the council, on behalf of the property owners, to do the work as cheaply as possible. The city engineer had stated that it cost from 25 to 35 per cent more to do work in winter than summer.

Ald. Brown, as a resident of Graham Avenue, felt that Fourth Avenue was most in need. Graham Avenue people, anyway, had not expected their street would be done this year.

### Tenders Suggested

Ald. Casey urged that the grading work on all streets be proceeded with as rapidly as possible. Fourth Avenue, he thought, would lend itself better than others to winter work and, if it could not be left over, then none could. He was opposed to the policy of spending more money on plank road maintenance. He also suggested that tenders be called for the Fourth Avenue work. It was particularly adaptable to contract and the city might save money by having

### IN PROBATE

Initiative bylaws providing for mattress grading of Fifth Ave, West and Borden Street and Seventh Avenue from Fulton St. to Taylor Street were given their third readings.

**CITY TO BUY CEDAR POLES FOR ELECTRIC LIGHT DEPARTMENT**

The city council last night received tenders for 130 cedar poles to be used by the electric light department. The Hanson Lumber & Timber Co. bid \$1430 for the lot and the Vanarsdol Lumber & Shingle Co. (William Hagen), 18¢ per lineal foot. The bids were referred to the utilities committee with power to act.

**DATES ARE SET FOR COUNTY COURT CASES**

Dates of cases for the June County court were set yesterday before Judge F. McB. Young. They are as follows:

Mike Kovacs vs. G. Karo, \$42 for board and lodging, date to be fixed.

Emma Edwards vs. Bert Hansen (from May list) June 29.

Imperial Machine Works vs. G. F. Waul (May list) settled out of court.

Saindon vs. Black (May list) June 5.

Laura Darwin vs. A. J. Richardson, \$130 part payment on Seal coat purchased, returned and not redeivered, M. Gonzales for the plaintiff and W. E. Fisher for defendant, June 5.

Tibbits vs. Pirillo, June 23.

Lieut. R. P. Ponder commanding

**Orders for June, 1925.**

Drills.—Mondays, Wednesdays and Fridays, 7:30 pm to 9:30 p.m. Instruction will be arranged by C.P.O. Inst. Kinch according to the number of ratings on parade.

Boat work.—Ratings desirous of going away in the whaler on Sundays should give their names to the Instructor on Wednesday preceding any Sunday.

Training at R.C.N. Barracks.—

The next period commences June 29 and ends July 11. Rating who

will be able to take this course

should give their names to the Instructor by the 15th inst.

Instructions as to date of sailing will be issued in due course.

Transfer of Headquarters.—

Headquarters have now been transferred from the Hays Building to the Immigration Building on the C.N.R. wharf.

The city council last night

adopted a report from the utilities

committee recommending that tenders be called for seven

uniforms for the fire department.

## REPORTS FAVORABLY ON USING SLABS FOR MATTRESS GRADE WORK

The city engineer reported favorably to the council last night on the suggestion made by Ald. Casey last week that sawmill slabs might be used more economically in connection with mattress grading of streets than new lumber where planks from old streets were not available.

Mr. Pearson expressed confidence that the process suggested could be employed to advantage providing fairly uniform slabs could be obtained. Eight feet would be the shortest that could be used and there would have to be a minimum thickness of three inches. Slabs used for decking would have to be sixteen feet long and even more uniform in thickness. J. A. Smith, president of the sawmill, had stated that the slabs required could be turned out and had agreed to furnish enough for experimental purposes. The engineer recommended that the experiment be carried out.

The report was sent on to the board of works.

## PRESENTATION MADE TO ARTHUR HOWARD

Employees of Rupert Table Supply Give Fellow Worker Something to Remember

A presentation was made last night to Arthur M. Howard, a member of the staff of the Rupert Table Supply who is leaving the city after being over a year in the employ of the local firm. He is going to Vancouver.

The affair was held at the home of Mrs. Tupper, who is a member of the Table Supply staff. All the employees were there and the evening was spent in dancing and games and refreshments were served. A signet ring was then presented to the guest of the evening on behalf of all his fellow employees who regret greatly his departure.

## CANNOT GIVE FLAT RATE FOR WATER TO CANNERY JUST NOW

The utilities committee submitted a report to the city council last night recommending that the Somerville Cannery be informed, owing to lack of data at the present time as to possible consumption, that the flat rate of \$25 per month for water service asked for by it could not be granted at this time. The report, which added that the matter might again be considered when the plant was in full operation, was adopted.

## TERRACE NOTES

## Save Your Eyes

Our Optician has had over 25 years' experience testing eyes and fitting glasses.

Satisfaction Guaranteed.

## Max Heilbronner

The Diamond Merchant of the North.

### One cannot burn the candle at both ends

You wouldn't light a candle at both ends and expect it to last very long. And you can't attend your many duties as wife and mother, then pile on wash-day labor, and expect to keep yourself fresh and vigorous. Why not let us take care of wash-day toil and trouble? One of our many services will fit exactly both your needs and your purse. And you can "keep the home fires burning" without burning the candle at both ends.

### LAND ACT.

#### Notice of Intention to Apply to Lease Lands.

In the Land Recording District of Prince Rupert, situated on the north-west coast of Pearse Island, B.C., approximately three miles north from the mouth of Winter Harbor.

Take Notice that J. Fielding Strang of Smiths Bay, occupation canneryman, intends to apply for a lease of the following described lands:

Commencing at a post planted approximately three miles north from the mouth of Winter Harbor, Pearse Island; thence northwest two (2) chains more or less, to low water mark; thence northeast along low water mark one hundred and sixty (160) chains; thence southeast one (1) chain more or less, to point of commencement and containing thirty-one (32) acres, more or less, to point of commencement and containing thirty-one (32) acres, more or less.

JAMES FIELDING STRANG,  
Name of Applicant.

Dated May 12th, 1925.

#### WATER NOTICE. (DIVERSION AND USE)

TAKE NOTICE that William Morgan whose address is Lockport, B.C., will apply for a license to take and use 2,000 gallons daily of water from the following: a west side of Lockport, Q.C.L., B.C., which flows southerly and drains into west arm, "Longfellow," Mineral Claim, claim number 232,000 ft. The water will be diverted from the stream at a point right at source about 1,500 feet or so from Lockport Harbor, and will be used for domestic canning purpose upon the premises named at Lockport, Q.C.L. This notice was posted on the 12th day of May, 1925. A copy of this notice and an application pursuant thereto and to the Water Act, 1914, will be filed in the office of the Water Recorder at Prince Rupert, B.C., within ten days after the first appearance of this notice in a local newspaper. The date of the first publication of this notice is May 26th, 1925.

WILLIAM MORGAN, Applicant.
