## SITUATION IN BALKANS CAUSE OF WORRY

### FIRE AT ESQUIMALT DOCKYARD DESTROYS STORES OF H. M. S. PATRICIAN

#### Possibility of Balkan War as Outcome of the Disturbances in Bulgaria says London Despatch

LONDON, April 25.—The situation in Bulgaria as reflected by the despatches from Sofia and outside points is apparently calmer but Bulgaria's neighbors are in a state of anxiety lest her troubles, which are ascribed by Bulgaria to communist plots, spread to their own territory.

Roumania appears to have become fully alive to the threatened danger and is lending Bulgaria every assistance, while Greece is more or less neutral. Jugo-Slavia's position is not so clear and a Berlin despatch says German government circles emphasize the danger of possible Jugo-Slavia intervention, which, they point out, might easily lead to another Balkan war.

Reports received from Italian correspondents state that Sofia still presents a civil war aspect with the possibility of a recurrence of violence.

#### CONTRACT FOR BUILDING LET

Modern Structure on Third Avenue Will be Built For Max Heilbronner by R. Moncrieff

Max Heilbronner has let the contract for his store and apartment building on Third Avenue between Fourth and Fifth Streets to R. Moncrieff, general contractor of Vancouver. Mr. Moncrieff has let a sub-contract to A. Antonelli for the excavation, and work will commence immediately. It is expected that the building will be completed and ready for occupancy by September.

The new building will be one of the most modern and best-equipped structures in the city. Two stories in height with concrete foundation, it will fill the entire 25 by 100 foot lot. The main structure will be of reinforced concrete with copper fire-vault and flashings. A concrete sidewalk will be put in with a marquee over this. On the main floor there will be a store and on the second floor a large apartment. Both will be occupied by Mr. Heilbronner.

A. A. Cox of Vancouver is the architect.

During the war of 1812 this boulder was used by General Sir Isaac Brock as a seat from which he viewed military operations being carried on at Queenston. The stone was placed in St. Mark's churchyard, Niagara-on-the-Lake, by William Kirby, famous Canadian author and poet of the last century.

#### Three Men Injured and Torpedo Tube Explodes: Scarcely Anything Saved From Burning Buildings

VICTORIA, April 25.—Two sailors from the destroyer Patrician and a soldier of the permanent force at Work Point were injured and damage amounting to approximately \$75,000 was caused by a fire last night which completely demolished the boiler room and coal shed at the Esquimalt Naval station. The three men were not seriously hurt but recovered after being carried on stretchers away from the scene of the fire.

A number of small boats and steel torpedo cases belonging to the Patrician together with expensive machinery such as drills and saws were also destroyed.

The heat weakened the shell of one of the uncharged torpedo cases so that the compressed air chamber exploded with a roar. A shower of sparks and debris was thrown into the air and the fire fighters were obliged to beat a hasty retreat. Only two of the big torpedo tubes were successfully removed from the burning buildings.

#### TWO COMPANIES FOR STEWART

Capitalization of \$1,500,000 Each with Well Known Directors

VICTORIA, April 25.—Two new Portland Canal Mining Companies were today granted incorporation, each with a capitalization of \$1,500,000. Dr. R. E. McKeelnie, chancellor of the University of British Columbia, is chairman of the board of directors of the Marmot Metals Co. with head office at Stewart and Angus Stewart is one of the managing directors.

The Rush-Columbia Mines Ltd., with headquarters at Victoria is headed by Col. A. L. Jacob and the directors include Paul Danhart and W. W. Rush of Stewart.

#### MAKE ARRANGEMENTS FOR ALASKA SERVICE

G. A. McNicholl and Reginald Beaumont are in City on Their Way North

On their way to various Alaska ports including Ketchikan, Juneau and Wrangell where they will open offices and make other arrangements for the service that is to be inaugurated to the north this summer, G. A. McNicholl, C.N.R. general passenger agent, and Reginald Beaumont, G. G. M. M. assistant Pacific coast manager, arrived from Vancouver on the Prince Rupert this morning. They will sail from here for Alaska on the Princess Mary on Monday.

#### ANOTHER MAN IS IDENTIFIED

Was With Alleged Bank Robbers at Garage in Seattle Before and After Event

SEATTLE, April 25.—Identification of Ed Gorman, one of the four suspects taken by the police Thursday as one of the gang who staged the \$42,000 Nainaimo Bank robbery in December, was made yesterday by Claude Burgess, a Bellingham garage man who declared he remembered Ed Gorman visiting the garage the day before and the day after the robbery with others already under arrest for participation in the bank raid.

#### INDIAN BOY DIED RESULT OF SHOT

Wilfrid Robinson, Aged 13, of Kitimaat, Expired in Hospital Last Evening

Wilfrid Robinson, 13-year old Indian boy of Kitimaat, who was brought to the city last week suffering from injuries sustained when he accidentally shot himself last night at 8 o'clock in the Prince Rupert General Hospital. The remains are being taken south on the Princess Beatrice this afternoon for burial at Kitimaat, a brother, Sampson Robinson, accompanying them.

The accident which resulted in the boy's death occurred a week ago last Monday. The lad had just returned from a hunting expedition and was about to take the shells out of his shotgun when the boat in which he was sitting tipped. The weapon discharged and a shot penetrated his leg. After coming here, the badly shattered member was amputated but tetanus set in causing death.

Parents of deceased reside at Kitimaat.

#### TAUNTS GOVERNMENT OVER TRADE AGREEMENT

Member for Vancouver South Thinks Salmon Cannery Would Benefit from Australian Pact

OTTAWA, April 25.—Charging the Government with vacillating is not presenting the Australian trade agreement to Parliament for ratification, L. J. Lader, Conservative of Vancouver South, speaking to the budget last night, said he favored the agreement. He believed it would benefit the salmon industry of British Columbia. If not ratified Canada might be deprived of a market for her salmon in Australia.

#### ROBERTS GUEST CANADIAN CLUB

Men's and Women's Organizations Will Unite for Big Event Thursday

Charles G. D. Roberts, who is now in Alaska, and who is to lecture here on Wednesday evening, has accepted an invitation to address the Canadian Club at the Boston hall at a luncheon on Thursday afternoon. W. S. Fisher, president of the club, received a wire this morning accepting an invitation sent several days ago. He says that the members of the Women's Canadian Club will be asked to join the men at the luncheon.

The Rotary Club usually holds its luncheon at the same hour but as a number of Rotarians are members of the Canadian Club and would wish to help do honor to the prominent Canadian author, it is expected the Rotary luncheon date will be changed unless it should be decided to unite with the Canadian Club for the occasion.

#### GREB OUTPOINTED CANADIAN CHAMPION

Had Considerable Margin in Bout Last Night in Toronto

TORONTO, April 25.—Harry Greb of Pittsburg, the world's middleweight champion boxer, won on points in a ten round bout with Jack Reddick of Moosejaw, Canadian light heavy-weight and middleweight champion. Greb had the best of it by a considerable margin.

**Business Of All To Keep Posted.**

It is the business of every person to keep posted on matters political, social, educational, religious, and economic throughout the world. To do that is difficult because this is an age of propaganda in which the people of the world are just beginning to realize the value of publicity and the desirability of keeping their particular views before the people. In Russia they allow no views to be published except those favorable to the Soviet government. In many parts of the country it is fatal to a newspaper to publish articles dealing with religious questions, while economic discussions are apt to become extremely dangerous for the reason that the faddist is always active while the orthodox person does not take the trouble to defend his position. Yet the world is moving very fast and it is well for everyone to keep in close touch with all world movements. Unless this is done the person is not educated. A knowledge of Greek and Latin is no aid in keeping abreast of the times on current events. We can do so through reading books, magazines and newspapers and by delving occasionally into other than the extremely orthodox publications.

**Shabby Thing To Steal Flowers.**

Reports of flower stealing are common in the city. No one so far has been arrested for the crime but it goes on, according to general complaint. Apparently there are just a few people who do it who are not aware of the fact that they are liable to serve a term in jail for the offense. Also they do not realize what a poor class of citizen they are. Probably it is done thoughtlessly but it shows an absolute lack of public spirit. Nothing is so annoying as to carefully dig the soil, plant the flowers and then have someone come along and spoil the effect. The monetary loss may be small but the real loss is large.

Sometimes public spirited citizens cultivate part of the street and plant flowers on it. To steal these is just as bad as to steal from a private garden. We need our city beautified. A Parks Board has been formed to encourage it and then to have a few vandals come at night and tear up the fruits of the person's labor is a most dastardly act.

**Many Changes In Local Population.**

Many changes are taking place locally. Old time residents move away and others come to take their places. People who lived here a few years ago and who return find themselves rather out of the running. The new arrivals are putting ginger into the place and nosing out some of those who have not been keeping up to date.

The new people are very welcome for their influence is needed. What we all have to guard against is letting ourselves run to seed. We must keep up our faith and enthusiasm or we might as well move. Prince Rupert is a place for men and women who believe it can be developed into a city not, as was at one time imagined, through political influence or because of its natural position, but through the energy of those who live here.

All cities have been built up that way. It is the sure foundation. If we feel disappointed at what has happened in the past it should not sour us in the future. Everything is before us, but if we drag along the sins and shortcomings of the past and continually harp upon them, we shall never get anywhere except stuck in the mud.

Let us be thankful then for the newcomers who are bringing inspiration and faith and hope and who will yet lead us into the promised land of progress if we do not ourselves put hindrances in the path.

**New People See What Others Cannot.**

"You are making wonderful progress here," remarked a visitor recently. "This town is going ahead fast and every year should see things better." The local man who heard the remark did not chime in very enthusiastically. He admitted that things were looking fair but they had looked good before and nothing much had come of it. He said he had to be shown. The result was that the visitor began at once to doubt whether, with such people living here, the rosy hopes of himself and other visitors could become actualities. It was a wet blanket.

As Dr. Grant would say "Men, men, don't lose the vision."

**"Eczema on My Face Completely Relieved"**

Miss Winifred Ernest, Box 46, Blockhouse, N. S., writes:

"Ever since I was a little child, I suffered with eczema on my face. At times my face was completely covered with large sores, and I tried nearly every kind of medicine that I heard of with no results. This lasted for over twenty years, until one day I asked the advice of my druggist, who bade me give Dr. Chase's Ointment a trial. After using the Ointment for a few days, the sores began to heal, and soon I was completely relieved of the disease."

**GOSSIP ABOUT LONDON PEOPLE**

**Latest Freaks and Fashions of World Metropolis; New Diversion For Wealthy**

LONDON, Eng., April 25.—The smart young people of London, with plenty of money and plenty of time in which to spend it, have discovered a new diversion which eclipses the Treasure Hunts of last year in freakishness and originality.

The idea itself is simple enough. You stay in bed all day and sleep, and rise about nine o'clock in the evening, have breakfast and begin the day. All the house party, of course, does the same. At one a.m., in the cold hours of the morning, there is lunch, and the day is filled in with moonlight tennis and golf, and some of the guests go and paint night-scapes with electric torches.

A feature of the game is that there are heavy fines for anybody who refers to the fact of it being night-time. For instance, there is a great temptation at breakfast time to say, "What a lovely night," instead of "What a marvellous morning," but that will cost five dollars.

Lady Louis Mountbatten, Mrs. Richard Norton, and the young Duchess of Roxburghe were amongst the guests of a "Night-Time Day" which was given a few nights ago by the Hon. T. Fellows at her house in Eaton Square. Before breakfast—that is about eight p.m., all the guests went for a ride in the Row. Lunch was at Mrs. Fellows' house. There was tennis in the afternoon on the hostess' own courts—electric lamps had to be furnished here—and having changed for dinner all the party went on to the Savoy for cocktails and dinner about seven in the morning—just as a number of Americans were leaving for the early boat train on their way to Southampton.

**Gondola up Grand Canal**

King George and Queen Mary, neither of whom have ever been in a gondola, have decided to see what it is like and going to Venice for a fortnight. The Royal Yacht had been having bad weather and the Queen has been thankful for the swivel bed which she had fixed in her bedroom before the yacht left, and which provides her with a certain amount of stability when the Victoria and Albert is rolling.

As private radio receptions are banned in Venice, special permission has been given to the Royal travellers to listen-in to London and Paris programs; for they are keen fans and a concert from the Savoy ballroom in London is heard on the Royal Yacht most nights.

**Ballroom Muffs**

Wonderful evening cloaks and ballroom muffs are the sensation of the newest spring offerings shown this week. The ballroom muffs are taking the place of handbags and are made of wonderful ostrich feathers, the longest and finest that are procurable. Inside there are little nests of compartments for all feminine necessities and the muffs are worn whilst dancing.

On the newest evening cloaks the collars are bigger than the cloak's themselves, and white and silver are the favored colors. Huge collars of billowy ostrich feathers, marabout or white fox were the collar trimmings on some cloaks that were made of latticed metal cloth.

Shingling is on the wane—this is a sign that the big hat is steadily coming back for a long time. And when you see a lot of young debs with bandeaux of feathers or brilliants where their shingles used to be, you know that they are going through the trying stage of getting back to normal again.

**Men Have Fashion Fads**

There are something like 5,000,000 wrist watches in London which nobody wants. About three years ago every man in three wore a wrist watch. Now not one in twenty does. One of the reasons for this is that they are easily lost when removed for washing, and moreover, with the very long and very tight shirt cuffs that are now worn they are extremely uncomfortable.

Smart young men now wear

**HAD BAD SPELLS WITH HER HEART**

Mrs. C. Martin, D.D., No. 2, Orilla, Ont., writes:—"I have been troubled with my heart for a long time and very often had bad spells with it. He got me everything he could think of to see if they would do me any good, but nothing seemed to help me. One day a friend was in to see me and advised me to try

Hugging bandits are the latest thing in Chicago. Of course they are rather out of date here.

When the butcher told a male customer the steak was as tender as his wife's heart, he said he thought he'd take sausage, thank you.

The difficulty about running a column in Prince Rupert is that there are no mosquitoes to make jokes about.

Now that we have saved the forests, what will we do next? It was years ago that we thought of saving our souls.

Clynes, the labor member, says things are high in Downing Street. If he dropped into some of the larders here in the deer-hunting season he'd find something higher.

I wonder if Clynes pays two bills for his shoe shines?

If I earn enough money I intend to buy a piece of gold as the gold standard returns. They say you can get it for five dollars at the bank.

Agents specializing in Irish business in Canada and the United States look for a big boom in steamship passenger traffic, according to reports received from steamship companies. The present outlook is said to be for the highest level of emigration to Canada since the war.

Sir William S. Glyn-Jones, Secretary of the British Pharmaceutical Society, is touring Canada under the auspices of the Canadian Pharmaceutical Association with a view to explaining the workings of the Proprietary Articles Trade Association of Great Britain. He is opposed to "cut-rate" methods of selling drugs.

With 3,600,000 milch cows, 300,000 dairy farmers, 1,500 creameries and many thousand cheese factories, Canadians are the greatest butter eaters in the world with an annual average per capita consumption in 1923 of 27.43 pounds, according to D'Arcy Scott, secretary and treasurer of the National Dairy Council of Canada.

The shield taken from the gates of Quebec City when the Ancient Capital was taken in 1759 and which was donated to the City of Hastings by one of the conquerors, General Murray, will be returned to Quebec after an interval of 165 years. Lord Willingdon, First Viscount Raton, will be the special emissary who will bring the Shield back to Canada.

Salmon-fishing in the Eastern Townships of Quebec will be one of the attractions of that region when the Gaspé salmon eggs brought to the provincial government hatcheries at Lake Memphremagog are developed. # IMMIGRANTS FOR CANADA

Numbers Arriving from Europe This Week end on Several Steamers

## MANY FROM BRITAIN

Special Trains are Meeting New-comers at Quebec today and Tomorrow

MONTREAL, Apl. 25.—Groups of agricultural settlers who are coming to Canada under the auspices of the department of Colonization, Agriculture and National Railways are included in the passenger lists of the Aurania of the Cunard line and the Megantic and Star of the Dominion line, which steamers are at Quebec this week end.

On the Aurania is a special party of 127 men being brought out as farm hands, this party being in charge of R. B. Maxwell of the Belfast office of the Canadian National Railways. These men are destined for western points but a number of them will be located on farms in Ontario.

There are also on board the Aurania two groups coming to the Dominion under settlement acts by which families are placed on the land on farms ready for occupancy and operation. Some of these families are travelling under the auspices of the overseas settlement act, in which the governments of Great Britain and Canada co-operate. Included in these family groups are nine who followed the special correspondence course organized in Europe by the Canadian National Railways for the purpose of acquainting intending settlers with the special and peculiar agricultural conditions that prevail in the Dominion.

### Ontario Government

There is further a party numbering 23 individuals being brought to Canada by the Ontario government and a further group of 22 Ukrainians who are being admitted to the country under the provisions of the special act which permits a limited number of farm laborers to come from countries in Europe outside the selective area.

From the Megantic there will also disembark a large number of settlers of British origin including a special party from communities in Wales. There are on the Megantic twelve families coming here under the overseas settlement act, these families numbering in all 86 individuals. There is a party of 27 farm laborers from Czechoslovakia coming to the west. Altogether there are 951 passengers to disembark from the two steamers at Quebec today and Sunday, the examination of the third class passengers being made at that port.

### Special Trains

As soon as the landing formalities will have been completed with these travellers will embark on special trains on the Canadian National Railways which will be in waiting on pier, and will continue to their destination over the lines of that system. There are yet parties landing at Halifax but these have considerably lessened in numbers, the great movement now being directed towards Quebec with the opening of the St. Lawrence route.

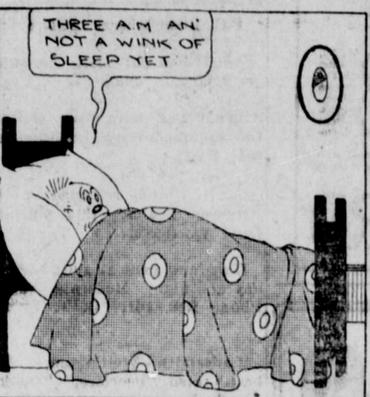

The special staffs of the Canadian National Railways which are in charge of these large movements at the Atlantic seaports have been transferred from Halifax and are now at Quebec in readiness for the season's business there.

# SHIPMENTS OF PRAIRIE GRAIN

During Crop Year 113,002,000 Bushels Moved From Western Points

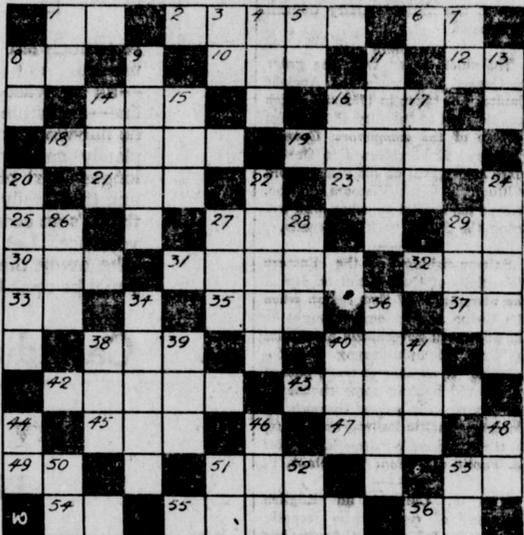

WINNIPEG, April 25.—Nearly 1,400 trains of sixty cars each and each train nearly half a mile in length are represented in the total movement of the grain from points on the Canadian National Railways in Western Canada since the opening of the present grain year, on August 1, 1924, according to grain figures issued today by Canadian National officials here. In the period from August 1, 1924, to April 23, 1925, a total of 83,631

## TENNIS DANCE WAS BRILLIANT

Annual Event Last Night in Elks Hall Proved Most Enjoyable

Seldom has there been a dance given in the city that proved as enjoyable and brilliant as the tennis ball at the Elks' Home last evening. Practically all the tennis players of the city were there with their friends. The hall was tastefully decorated with tennis nets, rackets, balls and other emblems of the game and of the local club which encourages that kind of sport. Music was provided by the Sorenaders, consisting of Miss Morrison, Kenny Rood, George Rorie Jr., and W. Cooper with additions from time to time from the Westholme Orchestra. A splendid buffet supper was served at half past eleven, the earlier hour being much appreciated by the dancers. All sat down together and the boys of the tennis club waited on them, giving wonderful service.

This is an annual event and last night it lacked nothing of the enthusiasm of former similar occasions. The fact that the sexes were about equal in numbers tended to make things go well. Committees in charge were as follows:

- Chairman and M.C. — A. H. Carmichael.
- Refreshments — Misses Caroline Mitchell, Etanda Marsh, Ruby Scott and Mrs. S. P. McMorde.
- Decorations — W. L. McKenzie and W. Cruikshanks.
- Programs and music — Miss Grace Curtin and W. Burgess.

## HINTON IS ACTING FOR PROVINCE OF ALBERTA ON COAL

W. P. Hinton, well known in this city as a frequent visitor formerly when he was vice-president of the Grand Trunk Pacific Railway, is representing the province of Alberta in connection with coal shipments to the province of Ontario and the development of the railway rate for it. It is hoped to ship a quantity of the product this year.

## Sport Chat

Of course the breezes are still a little chill to think of swimming but that is no reason why those who take so much enjoyment during the summer at the Salt Lake should not turn out now to get things in shape so that they may enjoy their sport again in a few weeks' time. The fact that the Swimming Club was not able to get a quorum on Thursday night for its annual meeting makes it look as if a lot of people here like to enjoy themselves but want someone else to do the work that will make it possible for them to do so. If conditions at the Salt Lake this year are not favorable, lots of people will complain, forgetting that they did not show enough interest in the thing themselves to turn out for the annual meeting.

A nine-hole golf course will be an added attraction this year at Jasper Park for tourists. The course has been built to the highest standards and uses a golfing terrain immediately available to the lodge. Work was commenced early in the summer of 1924 and was rushed forward with such success that the course will be ready for use by the time the season opens. There

## STOLE FLOWERS FROM FIFTH AVENUE GARDEN

Daffodils Carried Away and Even the Bulbs Dug up and Removed

This spring Tom Silversides planted two rows of daffodils, one on each side of the path leading to his front door. They thrived well and came into bloom. Then along came a vandal or vandals, visited the garden by night and picked all but three of the flowers. That was on Thursday. Yesterday the remaining three were taken, and in at least one case the bulb was lifted and everything carried away.

Mr. Silversides has been conferring with his neighbors and finds that others have had similar experiences.

R. S. Sweeting, C.P.R. auditor, arrived from Vancouver on the Princess Beatrice this morning. He will be here until Monday when he will proceed on the Princess Mary to visit the company's Alaska offices.

The remarks made in this column last week regarding the Canadian halibut fishing situation caused considerable comment, and, as was to be expected, some criticism.

In the first place, the Canadian fishermen say they are not getting an even break with the Americans as far as marketing is concerned. This, unfortunately, is true. The great halibut market is in the United States and every pound of Canadian fish that enters there has to pay the American 2c tariff. Nobody can overlook this handicap. Though some remarkable remedies have been proposed such as imposing a tonnage tax on American fish using the key port of Prince Rupert or closing the port to the American fishing altogether, there seems to be a great difference of opinion as to whether or not this would have the effect desired—namely, removal of the American tariff on Canadian fish. The action suggested would be arbitrary and there is no reason to believe that, if it were resorted to, the U.S. government would immediately come to terms and the Canadian fleet would probably be no better off. Public opinion seems to be largely in favor of at least awaiting the findings of the Hopkinson commission and any action on the part of the States that may follow its recommendations.

The suggestion that the Canadian fleet should be rejuvenated has been met in some quarters with the response that the Canadian fishermen are not in a position financially to do so. It is said that the citizens of Seattle are solidly behind their halibut fleet and have aided financially in connection with the building of some of the big new American boats that have made their appearance in the fleet. To

**HER HEADACHES WERE SO BAD SHE COULDN'T DO ANYTHING**

Once the head starts to ache and pain you may rest assured that the cause comes from the stomach, liver or bowels, and the cause must be removed before permanent relief may be had.

There is no better remedy for headaches of every description than

**BURDOCK BLOOD BITTERS**

as it removes the cause of the headaches in a way that no other remedy will do.

"Mrs. Wm. Helpard, Lower Stevedock, N.S., writes:—'I suffered for a long time with my head. It would ache and ache until it made me so sick I could not do anything, but after taking four bottles of B.B.B. I feel that I cannot recommend it too highly to all those suffering from headaches of any kind.'

B.B.B. has been on the market for the past 46 years and is recognized by all who have used it to be without an equal as a remedy for headaches; put up only by The T. Millburn Co., Limited, Toronto, Ont.

Malaspina proceeded to the North Island halibut banks.

The Bushby tug M.T. 3, Capt. Reg. Green, performed another neat salvage job on Tuesday when it assisted the C. P. R. transfer barge No. 4, in getting off the Digby Island rocks. The M.T. 3 put a line on the ponderous creosoted timber laden barge and towed her half way to the dock. The tug Qualicum, which, herself had been ashore, then bumped along with two propeller blades missing and took over her charge. It looked for a while as if both craft were in a bad fix but, as the philosopher says, all's well that ends well and the dry dock got a little work out of it all, anyway.

At 5.30 a.m. the boss of the tugboat fleet was hailed out of bed to go to the assistance of the tug and barge, ashore on the tip of Frederick Point, Digby Island. Out he went on the redoubtable little M.T. 3, hooked on to the big transfer barge like a toy terrier onto a Newfoundland dog, keep her head up to wind and tide, finally working her clear of the shore and away she started with her enormous tow for inside the harbor.

The tug and the barge berthed at the Salmon dock, where the load of creosoted piling was unloaded by Bob Sharp's gang of hustlers under Signor Foley, the eminent pile driver expert.

Jack Murray, official pilot of the Royal Fish Co.'s light delivery car, is not quite as sleepy as Jim Bacon would try to make out. After a trip to the Cold Storage last week, Jack came back on the rim. Jim accused him of losing a tire without knowing about it and got a great laugh out of it. It turned out, however, that there had been a puncture and Jack had deliberately returned to headquarters on the rim. Jack advised Jim that a more close attention in future to his fish curing would be appreciated by the automobile drivers.

The Sunnyside cannery tender China Hat was in port this week. She has a brand new Fairbanks 60 h.p. engine this year, so look out for her smoke.

The newstand on the government wharf has been taken over by 75 taxi and will again minister this year to the legal requirements of the Alaskan tourists. The building has been painted by Joe Filion. It is to be hoped, however, that Joe was not responsible for the choice of color for it shows mighty poor taste. In fact, the taste was so poor that the structure will be bound to attract attention and—Jack Bulzak hopes—business.

The government wharf shed is getting a coat of paint also at the hands of Joe Filion. The regrettable feature of the thing is that the coat is only on the south side which not very many people see. The provincial government, undoubtedly, in their wisdom, have decided to leave the rest of the structure as it is so that it will display a novel dilapidated appearance for the benefit of this year's tourists.

**Trotting for Sport**

George Richmond is the latest recruit to the ranks of the salmon trollers. George does not go into the game for profit but for sport. It is said that he is getting plenty of that. Out in his launch the other day excitement ran high. He made a strike and in his own opinion he must have had a least a little whale on the submerged end of the line. He hauled in slowly and carefully and the more he hauled the more sure he felt that he had something really big. Then he hauled some more and, being eager not to lose the fish, allowed no time for the whale or whatever it was to become exhausted. Suddenly the line went slack and the end came aboard with a fish head attached to it.

Now George is wondering what it was he really had on that line. It may have been a whale which swallowed the fish after George caught it. Such things have been known and then when he found that he might be caught, he did like his forebear did with Jonah, vomit it forth and lost the head. At any rate in spite of George's efforts, he has taken home no fish, at any rate not as much as could be served as a starter to a fifty cent lunch.

**McCaffery Hits a Record**  
On Saturday last the Princess Beatrice brought 125 tons of cement to Albert McCaffery's dock, and Captain Cliffe of the Beatrice was worried to death because he thought he would be unloading all night and that would bring him in too late in Vancouver on his return trip to go to the movies. But he had reckoned without the resourcefulness of Mike McCaffery's coal punchers.

With Bolivar at the crane, Ex-Mayor McCaffery at the main hatch and Bob Davey bossing things at the after hatch, two Ford trucks doing power trucking and with cement being loaded into a C.N.R. car for the elevator, into the waterside warehouse by the crane and into the cement warehouse by the two trucks, it was a busy two hours for all hands and in a little over that time the whole load was cleaned out and all and sundry departed for home, tired but happy to say nothing of being "cemented."

The Muse pile driver was busy this week driving a set of piles and dolphins for the Forestry float at the Big Bay wharf.

With the tourist season about to start, waterfront people are getting ready for the entertainment of many distinguished personages. Whenever anybody is shown Prince Rupert, the waterfront is the first place that is visited so the folks there have to be ready. In fact if there is anybody important in town you almost bound to find them on the waterfront some time during their stay. Last week, Bishop and Mrs. A. U. DePencier paid their calls to various points of marine interest and on Wednesday Sir James Loughheed of Calgary, was shown around.

His friends will be glad to know that Sid Webb of the Daily

A good name is recognized as the biggest individual asset a business can have. It is the very keystone of modern industry. Business today is done on such a broad scale—every merchant and every manufacturer has such a long list of customers—that it would not do to have a reputation for "slipping something over"

At noon Thursday, the deep sea tugboat Cape Scott brought in 32 sections of logs for the Prince Rupert Spruce Mills from Alice Arm. ### MURDER COMMITTED FOR EVERY DEATH NATURAL CAUSES

So Says Miss Young of South Sea Islands; Cannibalism There Yet

TORONTO, April 25.—There is a murder committed for practically every natural death among the natives of the South Sea Islands, where cannibalism, although dying out, is still practiced, states Miss F. Young, secretary and treasurer of the South Seas Evangelical Mission, in the city enroute from Australia to England. With headquarters in Sydney, Australia, the mission which is interdenominational, carries on an extensive work among the Solomon Islands, including Malaita, Guadalcanar and Makira with a total population of more than 100,000 people. In 1904—two years before the Queensland government deported the islanders back to their homes—a branch of the work was opened in the South Sea Islands. Miss Young was a member of the first party of this missionary enterprise to visit the South Sea Islands, and continued spending four and five months annually among the mission stations thus established.

## Waterfront Whiffs

(continued from page five)

of the vessel reported very heavy weather outside with much snow and sleet.

The tug Alcedo, Capt. Alfredson, left yesterday afternoon for Stewart to bring down two booms of logs for the Big Bay Lumber Co.'s mill at Georgetown. The Alcedo just recently brought in two booms from Alice Arm for the Prince Rupert Spruce Mills.

Halibut fares marketed during this week have been a little heavier than last but the prices have averaged a little better. The highest paid American boat of the week was the Lansing which sold 11,000 pounds on Wednesday to the Royal Fish Co. for 11.6c and 4c. The highest Canadian price was received on Monday by the Teran which sold 8,000 pounds to the Canadian Fish & Cold Storage Co. for 9.9c and 4c. During the week a total of 1,101,200 pounds was handled, 821,700 from American boats and 279,500 from Canadians.

Arrivals of the week, not naming today's boats which are, however, included in above totals, have been as follows:

American—Allen, 58,000; Radio, 55,000; Constitution, 40,000; Senator, 35,000; Lituya, 24,000; Oona, 9,000; Reliance, 9,000; Arrow, 25,000; Bravo, 8,000; Sadie K., 6,500; Sitka, 50,000; Mariner, 22,000; Leviathan, 28,000; Paragon, 31,000; Pioneer, 30,000; Yukon, 24,000; Lansing, 14,000; Rainier, 6,500; Chum, 8,000; Wash, 4,500; Yakutat, 35,000; Taloma, 22,000; Swan, 8,000; Albatross, 47,000; Washington, 9,000; Virginia, 22,000; Bonanza, 17,000; Imperial, 18,000; Glacier, 12,500; Viking, 8,000.

## FOOD MANUFACTURERS AIM AT BEST QUALITY

Much has been done in recent years by the application of scientific knowledge to food production. It can be definitely stated that food products in general today are of a much higher quality than those of thirty years ago.

This improvement is very true in regard to all the products of wheat. Our daily food, "Bread," represents purity of materials throughout when made by the Electric Window Bakeries. 98

USUALLY when fire breaks out it is too late to avert the loss of valuable papers locked up in a drawer in office or home. The cost of protection is generally far less than the expense of replacing one document—provided it can be replaced. Don't put off renting a Safety Deposit Box until it is too late.
