Mount Logan Climbers Are Off On Long Trek After Narrow Escape

Bridge Fell Directly Train Had Crossed it at
Cordova: Guide and Packer Dies
in North

VANCOUVER, May 16.—Filled with optimism and confidence over the final success of the Mount Logan expedition off on the long trek towards the Yukon border line and Canada's unquarred peak the shadow of sorrow saddened the members, says a despatch from McCarthy, Alaska, to the Province from its special correspondent with the expedition. The death occurred of Austin E. Trim, a former member of the Alaska boundary survey, a noted northern guide and packer who was one of the members of the preliminary party which laid in the supply caches with Captain McCarthy, leader of the expedition, and who returned April 22. His end was hastened by the terrible struggle of the heroic little party against the bitter cold which broke the pack ice and the soft snow which covered the trails.

Fears Entertained for Safety of Yukon Farmers on Islands Which Were Recently Flooded

DAWSON, May 16.—Fears are entertained here for the safety of several farmers living on islands in the Yukon River three miles south of here, as a result of the worst flood in the history of Dawson and which for several days threatened to wipe out the city. Police are making an effort to reach the islands to ascertain the fate of the inhabitants.

ELEVATOR TENDERS TO BE OPENED SOON

There is a difference of opinion as to when the elevator tenders are to be opened, but it is understood that they are to be in by Monday and that it should be the middle of the week before any word is received. Possibly it may be a week later.

PROSPECTOR IS GONE IN DOCK

Big Canadian Vessel Arrived
from Shanghai Yesterday
Afternoon for Overhaul

After making an unevenful 21 day voyage across the Pacific from Shanghai, China, C.G. M.M. freighter Canadian Prospector, Capt. Thomas, arrived in the harbor at 4.30 yesterday afternoon and early in the evening moved up to the dry dock where she was immediately taken on the pontoons for cleaning and painting and minor hull repairs. It is expected the work will be done in time to let the vessel get away on Monday night for Vancouver where she will load.

The Prospector which came empty across the Pacific, was met at Triple Island and piloted in by Capt. John McKernan who will wait over to take her down to Vancouver. H. T. Gross of the customs staff also went out to meet the vessel.

PEACE RIVER AGAIN TO FORE

Premier Oliver Been Doing Ef-
fective Work in Connection
With Proposed Scheme

OTTAWA, May 16.—If the C.P.R. does not undertake the development of the Peace River country the Canadian National will do so, it is generally understood here. Premiers Greenfield and Oliver have been taking the matter up with Sir Henry Thornton and it is understood that a concrete proposal will be made just as soon as it is known whether the C.P.R. will renew or throw up its option on the Edmonton Dunvegan and B.C. Railway.

Both the provinces of Alberta and British Columbia will be asked to make a cash contribution and B.C. will also be asked for a substantial land grant to the railway undertaking the work. The C.P.R. will have the first option as it already controls the present railway from Edmonton and it is essential the new construction be tied up with the other.

United States Asking Payment of War Debts by Borrowing Nations

WASHINGTON, May 16.—The American government is still standing firm in regard to its position as a war creditor. Debts to that country must be paid, it is intimated. With this policy guiding them, an intimation has been sent to several of the European governments that a prompt solution of the debts question is desired by the United States. Among the countries to which this creditor's notice has been sent are France, Belgium, Italy and Czechoslovakia, neither of which has so far taken any concrete step looking to the payment of war bills.

BOX MACHINERY ALSO HERE

A pony side, consisting of carriage, circular saw, shotgun feeder, etc., or in other words a complete sawmill in itself, is being added to the Prince Rupert Spruce Mill to cut airplane spruce and edge grain lumber from cants produced in the main mill, announced J. A. Smith, president of the Prince Rupert Spruce Mills Ltd., who arrived from Vancouver on the Prince Rupert this morning to spend the next two or three weeks at the plant. The new installation will increase the production of the mill from 100,000 feet per day which it is now turning out to 125,000 feet. The machinery for the addition is now here.

DAILY EDITION Saturday, May 16, 1925.

B.C. A Barren, Cold, Mountainous Country.

British Columbia people will be interested in a quotation from "Truth," published in London, England, on September 1, 1881:

"The Canadian Pacific Railroad Company" has begun, I see, to launch its bonds. A group of Montreal and New York bankers has undertaken to "float" ten million dollars' worth of the company's land grant bonds, and the Bank of Montreal, with its usual courage, has taken one-fourth of the entire loan. This announcement looks as if the Canadians were going to raise the necessary capital on the other side of the water, but I have a shrewd suspicion that they have no real intention of doing anything of the kind. The New Yorkers are keen enough gamblers, and reckless enough at times, I admit, and yet it is impossible to believe that they are such fools as to put their money into this mad project. I would as soon credit them with a willingness to subscribe hard cash in support of a scheme for the utilization of icebergs. The Canadian Pacific Railway will run, if it be ever finished, through a country frost-bound for seven or eight months of the year, and will connect with the eastern part of the Dominion a province which embraces about as forbidding country as any on the face of the earth. British Columbians, they say, have forced on the execution of this part of the contract under which they became incorporated with the Dominion, and believe that prosperity will come to them when the line is made. This is a delusion on their part. British Columbia is a barren, cold mountainous country, that is not worth keeping. It would never have been inhabited at all, unless by trappers of the Hudson's Bay Company, had the "gold fever" not taken a party of mining adventurers there; and ever since that fever died down the place has been going from bad to worse. Fifty railways would not galvanise it into prosperity."

Foolish To Spend Cash On Hudson's Bay Railway.

Doubtless if there had been no war and the country had plenty of money to spend there would have been a railway to Hudson's Bay by this time, just as it is to be supposed that Prince Rupert would have been much further developed and much larger than it is today. It is useless to discuss that. We are what we are because of conditions and as a nation we are burdened with debt because of war conditions. What we have to do just now is to carry on as best we can until there is improvement.

To build the Hudson's Bay railway under these conditions would be foolish. The railway will be built some day but not yet. Relief has come to Alberta and Saskatchewan by the development of the western route through the Panama Canal and that has set back the Hudson's Bay scheme many years. Any government that would put millions of dollars into that scheme, knowing that it would be operated at a loss for years would be sure to be dismissed by the people at the first possible opportunity.

Ketchikan's Road Building Progress.

Ketchikan has a road six or seven miles out in a northerly direction, which is well graded and surfaced with crushed rock. Another two miles is being built southward. Plans are being laid for further road building in the neighborhood. These roads are built by the federal government, which owns the land.

Ketchikan is an older city than Prince Rupert but it is not as large and has no railway. By comparison it is for the people here to consider how much road building they should have immediately adjacent to the city. Happily the work on the first piece is proceeding and before long we should be able to jump into a car and drive to the back end of Kaien Island.

Next Difficulty Is Getting Piece Of Land

Nothing holds back this city and district so much as the policy of the railway company and government in keeping the land all tied up in such a way that no one can purchase any of it. Many people would like to own a small ranch or country place adjacent to the city, which they could improve in their spare time. There they would eventually develop a garden and in time we should have places around the city that would partly supply the vegetables and fruit for those who live here. The fly in the ointment is the inability to secure suitable land within a reasonable distance of the city. There is plenty of land and it does not seem as if it would have any particular value for many years to come. If some of it were put on the market on reasonable terms the work of development could commence.

SMITHERS HAS HOSPITAL DAY

Generous Gifts to Their Local Institution by People of Neighborhood

(Special to Daily News) SMITHERS, May 16—Smithers celebrated Hospital Day in a most generous manner, the citizens forgetting for the day all thoughts of hard times and responding most liberally to the shower of provisions and supplies for the local institution. A committee from the Ladies' Auxiliary was on hand at the Interior News office during the afternoon and were kept busy receiving and listing the numerous gifts and contributions given in response to the appeal for help of this nature.

Another committee was on hand at the Nurses' Home where all the callers were served with afternoon tea. The day was fittingly brought to a close with a dance held in the Town Hall, and was enjoyed until the early hours to music supplied by the Gazeley orchestra.

A number of citizens of Telkwa motored over during the afternoon and joined in the celebration, they also turned out in good force to attend the dance in the evening.

TORONTO GLOBE ON RAILWAY MONOPOLY

Objects to Letting C.P.R. Have Canadian National and Does Not Like Government to Own All

The Toronto Globe of recent date commenting on the proposal to sell out the Canadian National to the C.P.R., says:

"The Globe shares with Mr. Graham his objections to a railway monopoly for this country. We believe that any proposition to merge the Canadian National with the Canadian Pacific under the latter's management would meet with instant disapproval from the vast majority of people from coast to coast. Canadians have good reason to dislike the idea of private monopoly in any form. There would be less objection to a monopoly under government ownership, but for the present at least Canadian opinion would be against shouldering any more railway troubles. One practical and commendable course alone is open—that is, two big railways, competing and yet co-operating. Mr. Graham says he is going to request another meeting of the two presidents to see if some arrangement cannot be arrived at for co-operation in many departments. Forced co-operation cannot be demanded, he added, because of the danger of alarming foreign capital. However, if railway officials cannot agree on co-operation and a reasonable degree of limitation in duplicate services, Mr. Graham would be quite justified in calling upon the Railway Commission to act in the capacity of arbitrator."

SMITHERS

John Dybbavn of Prince Rupert spent Wednesday in town, leaving next day on a trip that will take him as far east as New York.

Mrs. Chas. Chapman of Glentanna returned home on Thursday after having spent the past few months on a visit in southern cities.

The members of the Union Church Ladies' Aid gathered at the home of Mrs. Norman Kilpatrick on Thursday afternoon for their regular monthly meeting.

A little excitement was caused in town on Thursday afternoon when a fire broke out on the roof of a cottage owned by Tommy Fushimi, next to the G.W. V.A. Club rooms. It was only due to the prompt response of the citizens when the alarm was sounded that the building and perhaps some of the adjoining ones were not completely wiped out. The boys soon had the chemical wagons on the scene, however, and although the flames were shooting up ten or fifteen feet, their work was effective and the damage was confined to the roof.

Ten Years Ago in Prince Rupert

May 16, 1915.

The Dominion government has ruled, as a war time measure, that copper must not be shipped out of Canada. This affects the smelter at Anxox where this week a shipment of 150 tons, destined for Seattle, was blocked by William Marchant, inspector of customs, who is at present on a trip north.

Lieut. Barney Johnson, former skipper of the G.T.P. steamer Prince Rupert, is on his way to England where he will enter the submarine service of the British navy.

Mitchell Albert has taken over the Westholme Theatre from George Werner and associates who are leaving the city. He is arranging for an excellent moving picture service and is getting a new staff and well qualified orchestra together. Charles Balagno of Victoria has been engaged as pianist and will arrive here in a few days.

HEAD OF JERICO BEACH AIR BASE ON VISIT TO CITY

Will Make Arrangements for Mooring Fishery Protection Planes at Seal Cove

Squadron Leader Tudhope, commanding officer of the Jericho Beach station of the Royal Canadian Air Force, arrived from Vancouver on the Prince Rupert this morning. His mission is in connection with the bringing here next month of two planes from the Jericho Beach station for use during the summer in fisheries patrol. Now that Seal Cove is being used by the Prince Rupert Spruce Mills as a booming ground, certain new arrangements with the mill regarding the mooring of the planes there will likely have to be made.

H. A. Philpott is leaving on the steamer Prince Rupert tomorrow night for Vancouver and Victoria. He will be absent for about a month on business.

ENGLISHMEN BEAT VETS

Poor Football Game Last Night Resulted in Score of Five Goals to Three

Soft goals being the order of the day, the Stuart Shield football game last night between the Sons of England and Great War Veterans resolved itself into a scoring orgy which was won by the Sons 5 goals to 3. It was a ragged game with practically no combination work, poor defence and exceptionally bad goal tending especially on the part of the Vets, who themselves scored the two winning goals for their opponents.

The Sons of England at full strength played downhill the first half with only nine men on the field for the Vets when the opening whistle blew. Hanson scored the first for the Sons and Norwood followed with two in quick succession for the Vets. Skinner, accidentally, put the ball through his own goal giving the Sons the equalizer. Lamb scored the third for the Sons who got their fourth when Gawthorne dropped the ball off a shot from Tinker and it rolled inside his own charge.

In the second half, both sides scored once, Erskine making the tally for the Vets and Tinker the fifth and last for the Sons.

The Sons were given best service by Kelsey, Bales and Tinker while the best performance for the Vets was by Skinner, Mitchell, Norwood and F. Russell.

Tom Jones refereed, W. McGee and R. Woods were linesmen and the teams took the field as follows:

Great War Veterans—S. Gawthorne; W. Mack and G. Cochran; R. B. Skinner, G. Mitchell and D. Balfour; F. Russell, J. Campbell, S. Erskine, H. Norwood and Dido Gurvich.

Sons of England—D. Frizzell; R. Howe and George Kelsey; F. Hodgkinson, A. S. Bales and G. P. Tinker; Linsey, H. Hanson, Dick Lamb, A. Dickens and J. Farquhar.

League standing to date follows:

	W.	D.	L.	Pts.
S. of E.	1	2	0	4
Callies	1	1	0	3
G. W. V. A.	0	1	2	1

Sport Chat

The latest addition to the list of women in England who possess running steeds is Mrs. J. B. Brunel Cohen, wife of a member of parliament, who purchased Hideaway at Kempton after he had won her a ten to one bet in the Ashford Plate event. Mrs. Cohen had put \$2.50 on Hideaway but she was so overjoyed at victory that she purchased the winner at the auction following the race. If she is successful, she says, other horses will be purchased with Hideaway's winnings.

Two Wisconsin girls will this year attempt to wrest the women's national golfing title of the United States from its present holder, Mrs. Dorothy Campbell Hurd of New York. The younger of the pair, Miss Bernice Wall of Oshkosh, is now champion of Wisconsin for the third time while the other, Miss Francis Hadfield, of Milwaukee, has also been a state title holder. Both are faithful followers of the links and are planning to participate in all the leading events of the season.

The Callies will line up the following team against the Great

HEART TROUBLE SHORTNESS OF BREATH

Mrs. Geo. E. Bowman, Morrisburg, Ont., writes:—"I am writing you a few lines to let you know of my experience with Milburn's Heart and Nerve Pills. Two years ago I became very poorly with my heart and nerves and whenever I took the least little bit of exercise my heart would start to jump and flutter. I could not walk up-stairs without having to sit down and rest before I was half-way up, on account of my breath becoming so short.

I commenced taking

MILBURN'S HEART AND NERVE PILLS

and in no time I felt a great improvement, and can now heartily recommend them to all those who are troubled with any affection of the heart."

H. & N. Pills are for sale at all drug and general stores; put up only by The T. Milburn Co., Limited, Toronto, Ont.

War Veterans in the Stuart Shield football fixture scheduled for Monday night: A. Sinclair; R. Woods and W. E. Willis; J. Sims, S. Currie and Jas. Harris; A. Mitchell, R. McGonigall, D. Scott, W. Mitchell and J. Andrews; reserves, J. Hamilton and H. Hamilton.

BABE FORTIN HERE ON WAY TO STEWART

Jimmie McAleenan Getting Ball Team Together There This Year—Trip Going North

Jimmie McAleenan is busy at Stewart arranging for a strong baseball team there this summer. Passengers going north on the steamer Prince Rupert today are Babe Fortin, formerly of Prince Rupert; his brother, Edward Fortin, and W. Stieckner, who played four or five years ago at Alice Arm. The trio will play ball at Stewart this summer.

Babe says that neither he nor Andy Donald were hurt in the automobile smash-up on the Pacific Highway between Vancouver and New Westminster last Monday. The McLaughlin Six, which they were driving, collided with a Ford in a traffic jam and both autos were pretty badly smashed up though, fortunately, nobody was seriously hurt.

HOWARD FRIZZELL IS HOME FROM INDIANA

His Return From College Will be Welcomed in Local Baseball Circles

After spending nearly a year taking up commercial studies at Valparaiso University, Indiana, Howard Frizzell returned home on the Prince Rupert this morning. He says he will remain in Prince Rupert. His return will be welcomed in local baseball circles.

D. D. McMaster	16
Dr. Tait	15
E. C. Gibbons	15
W. Hastie	15

R. H. Gammon returned on the Prince Rupert this morning from a trip south.

ANOTHER VESSEL COMING TO DOCK

Canadian Observer Due For Overhaul About End of Month—Impossible to Get Prince Charles

The question of making alterations to the new steamer Prince Charles at the local dry dock was gone thoroughly into by himself with C.N.R. steamship officials at Vancouver, reports J. H. Pillsbury, manager of the local dry dock, who returned from Vancouver on the Prince Rupert this morning, but the decision was made to do the work in Vancouver partly because it could be done more cheaply there and partly because time, which would be lost in bringing the vessel here, had to be taken into consideration. Mr. Pillsbury said that it was the desire to send the boat here if it was at all possible.

Mr. Pillsbury announces that the freighter Canadian Observer, engaged in the Ocean Falls-California service, is due at the local yard about the end of this month for annual overhaul.

Doings of the Mosquito Fleet which is the chief source of Prince Rupert's prosperity

General Situation

Fish sea prices good and heavy weather encountered on the northern fishing banks sum up the situation as affecting the halibut fishing during the past week. While weather conditions at the beginning of the week were not of the best on the high spots, incoming skippers on Thursday reported that old King Sol was on the job when they left on the homeward bound trip and conditions augured well for some remunerative halibut hauling. Fishing conditions in Hecate Straits has considerably improved and good fishing weather has prevailed.

Salmon Trolling

A good report of the spring salmon run in the vicinity of the Dundas Island was brought to port by skipper Bert Wearmouth of the fish packer Narbethong. With the advent of warm weather conditions the salmon are now showing up in large numbers and there is a good sized flotilla of the local trolling fleet on the job gathering in the season's deep sea harvest. This week will see the last of the trollers outboard, the fleet being pretty well divided between the Hippo Island and Dundas Island grounds.

Pilfering Camps

The season of petty pilfering of summer camps is with us again and already several reports are to hand of camp owners suffering the annoyance of these thefts. Citizens go to the trouble, to say nothing of the expense, of fixing up a summer camp, where the summer season may be enjoyed far from the madding crowd, and no sooner is everything fixed up comfortably than some criminally inclined person, or persons, enter and lift anything that is movable. Any person who will stoop to do such petty thieving is a criminal at heart, and the only thing to be said in his favor is the successful manner in which he evidently covers his tracks. This sort of thing is getting too frequent and the owners of several camps intend to do a little tracking on their own account in an effort to make an example of the offenders.

Some Race

On Friday last Bob Blance and Jack Nicholls were out on the packer "W. R. Lord" taking a whirl out of the new 45 h.p. Fairbanks-Morse G.O. engine which has recently been installed. The W.R.L. can certainly ramble and it took the tugboat M.T.3, flagship of the Bushby towing fleet, all her time to hold Jack's boat down in a little impromptu race, but Jack "hoodooed" the W.R.L. when he offered to give the M.T.3 a tow.

George Bushby, the boss of the Bushby towing fleet, is willing to bet Jack Nicholl a sack of fertilizer against a box of kippers that the M.T.3 can wipe out the W.R. Lord any time she wants to. The W. R. Lord has since left port for Hippo Island trolling grounds on the season's fish packing for the Canadian Fish & Cold Storage Co.

The deep sea launch Pride of the West, Capt. Burrett, owned by the woollen mills of that name, arrived from Vancouver this week on a periodical business trip.

The power boat Pachena, flagship of the P.R. Boathouse fleet, has been gaily decked out recently with several coats of nifty looking paint. The decoration scheme has been carried out in black, white and brown and the boat presents a very smart appearance. The Pachena, with Capt. Swanson at the gadgits, is busily occupied on gravel hunting.

Naval Detachment Out

Last Sunday all ratings of the Royal Canadian Naval Volunteer Reserve detachment were out on the harbor in the naval whaler, a 27 foot boat, under the supervision of Lieut. R. P. Ponder and Chief Petty Officer Kench, receiving instruction in the handling of a boat under oars. The weather was ideal and the boys had the time of their lives.

Higher Skirts

Jim Bacon, president of the Bacon Fisheries, returned home on Wednesday, after having been on a two weeks' business trip in Edmonton, Calgary and southern cities. Jim says that he has yet to see a city he likes better than that situated on the little old Island of Kaien. While there were plenty of people rushing about in the larger centres the retailers were not doing much business and all he spoke with registered a kick. The thing that rather upset Jim's equilibrium was the shortness of the skirts in the prairie cities, and he remarked that if the cost of living goes up with the skirts he doesn't know what will become of the little fellows with large families.

The lighthouse tender Birnie, Capt. Petersen, returned from a trip of inspection, which took her as far as Anyox on Wednesday.

"Doc" Clapperton was discharged from hospital on Monday after having undergone successful face repairs. But for slight after effects of the anaesthetic Doc is feeling fine and it is anticipated he will be again

waving the flag on the side line early in the coming week.

The Good ship "Pie"

It is one thing to be the proud owner of a pleasure launch but it's entirely another thing to be able to find one's way back to port in a thick blanket of fog. This all leads up to the terrible experience of skipper George Richmond, and family plus a party of friends, aboard the recently acquired launch "Pie" on Sunday last. With flags flying and the exhaust exhausting, the "Pie" left port at 8 a.m. in a cloud of dust. The box of works was rarin' to go and the throttle was securely tied wide open to give the maximum of speed. The journey across the harbor was a work of art and not once was it necessary to refer to the compass or chart. The day was pleasantly spent in discussing nautical topics and the beauty of the spread "a la Richmond" was deserving of painting in oils. However, all good times come to an end and the Richmond day was no exception to the rule. As the party left on the homeward voyage the fog came down as thick as tar and then the trouble began. The compass refused to compass while the engine went on a sympathetic strike and the day of sunshine was quickly turned to a night of gloom. At one time George thought he was off the coast of China judging from the language picked up on deck. It was learned that the foreign dialect originated from the engine room where the volunteer engineer was trying to get the gadgits to function. The party eventually returned to port in the early hours of the morning voyaging to take another trip on Sunday if the sun holds out.

Teaches Painting

If you want to learn how to paint a boat without getting any paint on the boat just look at Professor Geoff Lambly painting the power boat Myfanwy at the P.R. Boathouse dock. On Thursday morning the professor was all dolled up like Aunt Jemima at a picnic sporting a real painter's cap, brush and paint bucket. With bent back and heaving chest Geoff would gaily thrust the brush into the mess of paint but before the brush could hit the woodwork on the boat the paint was coyly creeping down the creases of his pants. However, that is no good reason why Geoff cannot teach painting, in fact he does so, and if you want to become a painting nuisance you can do so for a small sum to be agreed upon by yourself and the professor. The reason Geoff is called the professor is because he professes to paint boats but doesn't.

New Troller

Charlie Miller is building a new 35 foot trolling boat on the Cow Bay creek ways. When completed, she will be powered with a 10 h.p. Vulcan engine. The engine, which has been purchased from John Bergman, rendered yeoman service in the old Nadu. The power plant has recently been completely overhauled at the Akerberg-Thomson shops.

According to a letter recently received by Dave Thomson from Ernie Shockley the latter is opening up a retail and wholesale lumber yard at Kerrisdale, Vancouver, opposite the municipal hall, and has engaged the services of an expert lumber salesman. The office building is now being erected and the stock of lumber will arrive shortly. Ernie is tickled with the southern metropolis and is doing well.

Jim to Quit

There is a persistent rumor current on the waterfront that Captain "Handsome" Jim Morrison, who has operated the famous Canadian schooner Caygeon out of this port for several years past, will shortly quit the halibut fishing and go to "work." This will be real news not only for his colleagues but for the many thousands of lady tourists who make the northern water trip from the southern states to get a glimpse of Jim and more especially to get a snapshot of his handsome presence.

owned by the B.C. Packers, Lowe Inlet, was in port this week for winch repairs at the Akerberg-Thomson shops.

The big seiner, President H. Dr. West, owner and skipper of the launch Wyllo, is supplanting his present two cycle engine with the Universal engine re-

NO MORE FOOLING

NOWHERE did Abraham Lincoln show his shrewdness of judgment to better effect than in that famous utterance which ended, "You can't fool all the people all the time."

In the past, there were a few misguided advertisers who thought they could sell their wares better by misrepresentation. But those advertisers have long since gone out of business or mended their ways. Hard experience taught that Lincoln was right. Untruthful advertising doesn't pay.

Other advertisers proved that the only way to advertise successfully, make regular customers and build up public good-will was to tell the absolute truth about their goods.

So, you can be sure that every consistently advertised product is good. The advertising test has proved it. The very fact that it is advertised is your best warranty of satisfaction and true quality.

The concern that tells you frankly what it is doing is a good concern with which to do business. That is why it pays to read the advertisements, to patronize advertisers, and to buy advertised merchandise.

It's mighty good business

Lay Roofs that won't Rot or Rust

Leaky roofs are a big trial. Every rain means worry about hard-won crops and expensive implements. Then, too, there is the frequent trouble and expense of patching.

Rugged and durable, Barrett Roll Roofings insure lasting weather-tight protection—give that well-kept look to barn, implement shed, garage or chicken-house. Soundly economical, they're easy and inexpensive to lay—never rot or rust—lowest in cost per-year-of-service.

Finally, Barrett Roll Roofings are fire-safe—proof against flying sparks and embers.

Call at this store and let us show you the different types of Barrett Roofings.—Roll and Shingles. You'll find the prices surprisingly reasonable.

MR. ALEXANDER MUNRO

"For over three years I was confined to bed with Rheumatism. I tried nearly everything without receiving any benefit. Finally I tried 'Fruit-a-tives'—half a box brought improvement and continued treatment made me well. Now, I can walk several miles, and do chores around the place"—Mr. Alexander Munro, Lorne, Ontario.

Rheumatism is the direct result of a poisoned blood stream. "Fruit-a-tives" act as a restorative to the liver and kidneys; cleanse the blood stream and make digestion complete. "Fruit-a-tives" act as a bracing tonic. They are the famous fruit treatment for all intestinal complaints. 25c and 50c boxes from all dealers, or mailed direct by "Fruit-a-tives" Limited, Ottawa, Ont.

HIPPO ISLAND IS BUSY PLACE

Trollers Nearly All There Just Now Catching Spring Salmon

(Special to Daily News)

SKIDEGATE, May 16.—Hippo Island is now the busiest place on the Queen Charlotte Islands. Boats from Prince Rupert, Vancouver, Victoria, Massett, and Skidegate are all collected there, as they do every May, June and July to troll for the spring salmon, the king of all the salmon.

The skipper of the Canadian Fish & Cold Storage boat Chief Sabassa, Bert Hanson, was the first buyer on the grounds this year and he picked up about 30,000 pounds.

The first run has fallen off quite a bit but the fishermen expect another big run when the tides fall off.

The price paid here just now is nine cents a pound.

At Seal Inlet, ten miles from Hippo there are three buyers for the Canadian Fishing Co., a branch of the New England Fish Co. their boats being the Bethune, Norlonian and Overtime. They are packing their salmon to Butedale.

Monday a humpback salmon was caught with a spoon which goes to show that these salmon do not go very far from the islands.

Some Japanese buyers have been here this week with the boat Nikko.

J. P. Dover of Skidegate was in during the week with the trolling boat Greyfish.

BIG DEMAND ON STRAWBERRIES

Local Merchants Selling Fruit Before It Arrives—Changes in Vegetable Market

There is a great demand for strawberries which made their first appearance of the season during the last week. Many local merchants were yesterday taking advance orders for a limited quantity that arrived on this morning's steamer. Strawberries, coming from California and Oregon, are today selling for 25c a basket in retail stores. They are of exceptionally good quality.

Orange prices are advancing. The Navel season is nearly over and Valencia's will be arriving at lower prices shortly. Lemons and grapefruit are also higher with big demand for the former.

Up river shipments of rhubarb are due within the next few days and local prices will drop with the arrival of the northern stock.

There are a number of changes in the vegetable market with the arrival of new season stocks including small beets, carrots, etc., in bunches. Prices in most lines are a good deal higher as last year's stock becomes exhausted.

Egg prices have started to climb and, from reports on stocks in storage, demand exceeds supply and a high market can be looked for. Flour has been going up lately and there has been a stiffening on meats.

Retail prices prevailing here today are as follows:
