## MUSSOLINI AROUSES ITALIAN PARLIAMENT

### PRINCE RUPERT MILL IS EXPECTED TO BE IN OPERATION BY APRIL NEXT

#### Magnetic Power of Premier Mussolini Stirs the Italian Chamber of Deputies in Speech

ROME, Jan. 5.—Premier Mussolini demonstrated to the Chamber of Deputies that he has not lost his magnetic power of stirring the imagination of an audience. So great was the enthusiasm at the close of a speech made by him that the Fascist deputies shouted and jumped and embraced each other.

The Premier created a sensation when he declared that the present situation would be cleared up within 48 hours and that the government had strength to destroy the avenging opposition of those deputies who have refused to participate in the work of parliament.

#### BANK ROBBERS IDENTIFIED

Thought to be Men Who Held up  
Portland Financial In-  
stitution

SEATTLE, Jan. 5.—Three of the five men held here for the British Columbia police in connection with the \$12,000 Nanaimo bank robbery on December 12 were identified yesterday by witnesses from Portland, Oregon, as members of a gang of five bandits who held up George W. Bates and Company's bank at Portland on October 15 last, according to the police here. Three members of the bank staff are alleged to have recognized Harry Stone, T. H. Johnson and George Bagley as three of the men who held them up.

Some of the leaders believe that Mussolini intends to order a state of siege. He has already virtually suppressed the opposition press.

Having shown his determination that the entire responsibility for the situation should rest on Fascism and his intention of accentuating the Fascist completion of the cabinet, the Liberal ministers Sarraelli and Casti have placed their portfolios at his disposal.

#### RAILWAY OPERATOR GETS TWO YEARS

George E. Poulin Sentenced at  
Prince George for Theft of  
Registered Parcel Con-  
taining \$1,500

George E. Poulin, formerly telegraph operator for the Canadian National Railways at McBride, was sentenced at Prince George on December 31 by Judge Robertson to two years' imprisonment at New Westminister penitentiary for stealing a registered parcel from the Canadian National Railway containing \$1,500. Accused made a complete confession and also restitution of most of the money. The theft took place at McBride.

#### NUMBER OF VOTES ON CHURCH UNION

Nine Are Against Amalgamation  
and 64 in Favor

Returns of the voting on Church Union received by the Bureau of the Joint Committee on Church Union, up to noon, December 30, show that seventy-three congregations voted in Saskatchewan, Alberta and Ontario.

Of these sixty-four voted for going forward into union and nine voted against. Among the last returns is Knox Church, Regina, making that city solid for union, all five Presbyterian churches voting in favor. No less than thirty-four churches where union has already been in operation, voted unanimously in favor of union while most of the others gave overwhelming majorities. Broadview, Sask., was the only exception, the vote there being thirty-six to thirty-four in favor of union. Anti-unionists carried Weyburn, Sask., and Prince Rupert, B.C.

#### VANCOUVER AND CALGARY VICTORS IN HOCKEY

VANCOUVER, Jan. 5.—Two games were played Saturday in the Western Canada Hockey League, one at Victoria and the other at Calgary. In the first Vancouver beat Victoria three goals to nothing and in the second Calgary won over Saskatoon, two goals to one.

#### FINE CONCERT LAST EVENING

Prince Rupert Amateur Orchestral Society Scores Success at Recital

The sacred concert which was given in the Westholme Theatre last night by the Prince Rupert Amateur Orchestral Society under the capable direction of Professor H. A. Pryce of the Prince Rupert School of Music was a most successful and enjoyable affair. It was attended by an audience which filled the theatre almost to capacity.

The program was as follows: March—"Jollification." Overture—"Lustspiel." Solo—"My Faith in Thee," Miss G. Jones.

Entracte—"Simple Ayeu." Selection—"Echoes from Naples." Selection—"Steigh Bells," by the Juvenile Six, consisting of Miss Audrey Parkin, Victor Thomas, Marno Sigurdson, Preno Vaecher, Wizer Bryant and Gordon Clark.

Solo—Miss Jones. Entracte—"Pilgrim's Love Song." Selection—"Dear Old Ireland." March—"Land of the Maple." God Save the King.

Mrs. H. C. Fraser was also to have been a vocal soloist but illness prevented her attendance.

#### PERSONNEL OF ORCHESTRA

The orchestra consisted of Miss Marjorie Lancaster, leader and first violinist; Miss Hester Black, Miss Osborne, Miss Ina Woods, Mrs. Martin, Peter Black Jr., B. L. Mann, James L. Lee, Eric Dingwall, Eddie Walters and Frank Cameron, violins; A. J. Lancaster, cello; H. Eastman, saxophone; C. W. Kirkendall and J. Gawthorn, cornets; W. H. Derry, trombone; W. N. Hoss, bass; W. F. Browne, drums.

#### CARDENA GOT DUSTING CROSSING THE SOUND

One of Worst Trips Since Vessel  
Went into Service

The Union steamer Cardena, Capt. A. E. Dickson, which arrived yesterday at 5:30, had one of the roughest trips since she entered the service. Due to a gale outside there was a big swell in Queen Charlotte Sound which seemed to come from several directions. Most of the passengers went to bed and remained there during the three hours of the crossing. Groceries and other moveables on board were broken and dinner was delayed an hour or more.

In Millbank Sound there was also a short shakeup but it occurred in the night and nobody seemed to suffer any ill effects.

The Cardena was delayed through making a run into Ocean Falls with the returning teachers among whom was Miss Laura Tingley, formerly of this city.

#### First Woman Governor Sworn in Today for Wyoming State Widow Takes Husband's Place

CHEYENNE, Wyoming, Jan. 5.—Dedicating her efforts to the state and relying on divine help for strength and guidance, Mrs. Nellie Taylor Ross today was sworn in as governor of Wyoming and became the first woman executive of any state in the U.S. commonwealth.

Mrs. Ross was garbed in mourning for her husband, the late Governor William Bradford Ross, into whose place his widow stepped three months after his sudden death.

#### ALL-BLACKS CLEAN SLATE

New Zealand Football Team  
Wins 28 Games in Britain  
and Loses None

LONDON, Jan. 5.—The New Zealand All-Blacks, the famous football team that has been touring in England, completed its tour at the week end having won every game it played.

The All-Blacks tested their strength against 28 British teams and made the huge total of 654 points with 98 against them.

The team will return by way of the United States and will play games in California on their way home.

#### IMPORTANT CORNER HAS CHANGED HANDS

Nick Gurvich Becomes Owner of  
Exchange Block—Something  
Slightly Under \$28,000  
is Involved

A deal has just been completed between Nick Gurvich and George Bryant whereby the former becomes owner of the Exchange Block and the double corner on Third Avenue at Sixth Street. Mr. Gurvich stated this morning that it was his intention to do some repairs to the building but it will be used for the same purposes as at present. He stated that something slightly less than \$28,000 was involved in the deal.

#### ENGLISH MONEY IS HIGHEST TODAY SINCE BEFORE WAR

NEW YORK, Jan. 5.—Sterling exchange reached the highest point since the war today when it was quoted here at 84.76 1/2.

This is within ten cents of parity.

Talk of the restoration of sterling to a gold basis is believed to have been responsible for the increase in value of the pound.

#### BIG FIRE TODAY CHICAGO STOCKYARD

CHICAGO, Jan. 5.—Damage estimated at \$400,000 was caused by a fire which destroyed a portion of the central building of the Chicago Packing Company. It was feared for a time that it would spread to the stockyards.

#### FRED HENNING BEING MARRIED

The wedding takes place today in Vancouver of Fred Henning of this city and Miss Alice Riley. They will spend their honeymoon in Seattle and San Francisco and will return here on January 20 to reside.

#### Bell Tells Further of Plans For The Prince Rupert Mill; Expenditures Will be Large

Seen in Vancouver at the week end J. A. W. Bell, one of the associates of John A. Smith, the prominent Vancouver lumberman who recently acquired the Prince Rupert mill, stated that they had not taken the mill as a speculation but intended to operate it, provided they could get reasonable treatment from the people of Prince Rupert. Primarily they had purchased the assets of the Emerson estate for the timber which is located on the Klutsemaleen and Quinimas rivers and on Wark Canal. The operation of the mill would depend entirely on the terms given them by the citizens here. If they were treated right they would commence at once. It would cost about \$150,000 to \$200,000 in preliminary expenditures before cutting could commence but it was hoped to have the mill in actual operation by April.

Their plan was to cut high grade spruce, a great deal of which would likely be shipped over the railway. They expected to get about fifty per cent of tappers from the lumber they planned to cut. The lower grades of lumber would be sold in Prince Rupert or shipped out by water possibly using the assembly dock for storing and making shipments jointly with the other mills of the district.

While it was the plan to use the mill only in immediate operations, the new owners had expectations of putting in a pulp mill in the near future. This would be necessary to handle the large quantities of pulp timber on their limits. In addition to the timber they owned, there was a mass of pulp timber surrounding Prince Rupert which would be utilized and the cutting of which would make the district very busy. Also the Government owned a number of timber limits which could be acquired for the purpose of supplying a pulp mill. There was plenty of timber in sight and eventually, Mr. Bell said, he thought they would have to build a paper mill. These developments depended largely on the success of the preliminary operations. Mr. Smith had been induced to go into the business on the assurance that the Prince Rupert people would treat him right and they had no doubt but this would be done. The operation of the mill meant a great deal to Prince Rupert and he thought they could work together for their mutual benefit. As soon as the new council was chosen the matter would be taken up with them.

Mr. Bell said he would come to Prince Rupert soon and explain their plans and discuss matters with the city council with a view to losing as little time as possible in getting work under way. This was not a promotion scheme. They had the money to go ahead just as soon as their plans were perfected. Mr. Smith had had a wide experience in lumber operations and he hoped to see the new venture a success.

#### WILL DISCUSS ALLIED DEBTS

Winston Churchill to Take up  
Matter at Conference This  
Week

LONDON, Jan. 5.—Winston Churchill, chancellor of the exchequer, will carry on private discussions on the subject of the inter-allied debts with various representatives at a conference of allied finance ministers in Paris on Wednesday, it is understood.

The cabinet is understood to have acquiesced in Mr. Churchill's suggestion that the debt problem be brought up at the official sessions of the conference because of the desire of the United States to avoid open discussion of the subject.

#### EQUALIZATION FREIGHT RATES

Committee Will be Appointed to  
Make Uniform Structure  
Throughout the Do-  
minion

(Special to Daily News)  
OTTAWA, Jan. 5.—It is said that the government is considering the creation soon after the session opens of a special committee to go into the whole question of freight rates having in view a uniform national freight structure. This would take in all Canada. Whether or not the Crow's Nest rates are wiped out, efforts will be made to get nation wide equalization.

**Will B.C. Railway Problems Be Settled?**

One of the most important issues which has ever been raised in British Columbia is the disposition of the Pacific Great Eastern Railway. That acknowledged "white elephant," has cost the taxpayers of the province tremendous sums, and a sale of the property would mean a saving of enough money each year to decrease materially the public expenditures. Premier Oliver has received assurance from Ottawa that the Federal railway conference will be held in January. He will attend and present British Columbia's case. First of all will come the disposition of the provincial line and secondly the question of linking up the great Peace River country with the British Columbia coast. The Premier has been trying for years to get rid of the P.G.E. but without success. Following his representations to Premier Mackenzie King, a general conference was arranged. After this is over it is expected that some solution will be reached as to the future of the line and the settlement of the transportation problems of Peace River. The potential wealth of the latter district is conceded to be of inestimable value in the fuller development of British Columbia.

**Canada Biggest Wheat Producer.**

As the value of the wheat crop on the prairie is normally about fifty per cent of the total value of the entire annual agricultural production of the prairie provinces, it is interesting to learn how the yields of this important crop in Canada compare with those in other countries. Briefly stated, Canada has a much higher average yield per acre than any other important wheat exporting country. Some countries which import wheat have a higher average yield per acre than Canada but there are only a few of these, such as the United Kingdom, Germany and Denmark, which have a yield considerably higher, while the total quantity produced by these countries is relatively very small. Moreover, the expense of producing wheat in these countries is extremely high. Even such an important wheat producing country as France has an average yield of only two bushels per acre higher than Canada, while both Italy and Roumania have lower yields per acre.

The outstanding fact in the Canadian production of wheat are that the average yield per acre is much better than in any other exporting country in the world but that, unfortunately, the variation from year to year is also greater than in any other country. The reason for this great variation in yield is due predominately to variation in rainfall. When the season is dry the yield is small. The high average yield per acre, which Canada now enjoys in comparison with that of other countries, is due in quite a large part to the results of scientific agriculture. There remains yet the difficult task of reducing the losses suffered in dry years. This is one of the big objects of experimental farms.

**By Their Fruits Ye Shall Know Them.**

Russia has another famine on its hands. It's six years since the Bolsheviks took charge. In that time Poland, Roumania, Serbia, Bulgaria, all devastated more or less by the Great War, managed to restore production and transportation to such an extent that famines are unheard of. Germany, Austria, and Hungary, defeated, emasculated, penalized, have become self-supporting. Even Greece, having gone through four wars to Russia's one, gets along with a minimum of outside help.

Last summer the weather was uniformly unfavorable to crop production throughout Europe; the Far West suffered from an unprecedented drought fully as bad and as extensive as Russia's. But in all Europe except Russia there is no famine; no one dreams of collecting relief funds for American farmers. In Russia, on the contrary, millions of peasants are reported to be hungry.

What's the answer? Could the principles of applied communism have something to do with Russia's failure to recuperate? Even Trotsky is complaining bitterly of bureaucratic inefficiency under communism and blaming it for the continuing distress of the masses.

By their fruits—or lack of fruits—ye shall know them.—January Sunset.

**ENGLISH PICTURE ON BILL TONIGHT**

"In the Shadows of Whitechapel" is Unusual Story of Old Country Life

Tonight and tomorrow the famous English comedy melodrama, "In the Shadows of Whitechapel," will be presented at the Westholme Theatre. It is an unusual story of Old Country life, with its atmosphere, humor, heart interest and romance of dear old London. Henry Edwards, the popular English comedian, appears in the role of Bill, a part that calls upon him to register every human emotion, while Chrissie White handles the part of Liza to perfection. This is probably the best melodrama that has ever been presented in this country, and folks from the Old Land, as well as native born sons, will delight in the many thrills furnished by this phenomenal attraction.

**TRICK RIDING IS SHOWN IN PICTURE**

"Western Luck," Coming Wednesday and Thursday, Has Many Sensational Features

Daring riding and "cowboyship" of the most sensational order are among the many features of interest in "Western Luck," a new William Fox production starring Chas. Jones, which will be the attraction at the Westholme Theatre on Wednesday and Thursday nights. As usual Jones leads all others in wild riding and hair-raising acts of daring.

The story of "Western Luck," takes place for the most part in the West, although there is an exciting sequence later in the picture wherein Jones, as Larry Campbell, visits New York and has to fight his way through a gang of hired thugs. His long, flying leap through the air from his horse to the steps of a speeding train is one of the high spots of the production. Beatrice Burnham plays opposite the star. George Beranger directed the picture from a story by Robert Lee. The supporting cast is further distinguished by the presence of Pat Hardigan, Tom Lingham, J. Farrell McDonald, Gordon Bruce and Edith Kenrick, all familiar and well liked figures in pictures.

**WELL KNOWN STORY IS PUT ON SCREEN**

Natural Color Used Throughout "Wanderer of the Wasteland" Which is Week-end Feature

"Wanderer of the Wasteland," Zane Grey's greatest story and the most popular of all the books he has given to the American public, is the first full-length Paramount picture to be produced completely in color. This is an announcement of significance to every movie patron because it means that colored photography at last has been perfected for practical purposes. In this picture the Technicolor process was used—the same perfected process that was used in the biblical sequences of Cecil B. DeMille's monumental screen achievement, "The Ten Commandments."  
"Wanderer of the Wasteland" is an outdoor picture but with an entirely new background, never before shown on the screen. Scenic comparisons are out of order as the entire production was photographed on the actual locations described in the book.

### Local Druggists Have Modern Remedy for Colds

A Vaporizing Salve which is Rubbed Over Throat and Chest for Colds.

When Vicks VapoRub, the "external" method of treating sore throat, bronchitis, deep chest colds, or croup, is applied over throat or chest, the ingredients are released as vapors by the body heat.

These vapors, inhaled with each breath carry the medication directly to the affected air passages, loosening the phlegm and relieving the congestion. At the same time Vicks acts as a counter-irritant, stimulating the skin, and thus helps the vapors inhaled to break up the inflammation.

Colds are usually relieved over night.

### WHITES OF EYES TINGED WITH YELLOW? MUDDY COMPLEXION? YOUR LIVER IS OUT OF ORDER!

Mrs. Wm. Bourque, Fox Creek, N.B., writes:—"I have been troubled with my liver for a long time, and was so bad I could not do any work. I had severe pains in my stomach that were so bad, at times, I could hardly stand them. My tongue became coated; I had a bad taste in my mouth, especially in the morning; the whites of my eyes were tinged with yellow, and I had a muddy and yellow complexion.

I had read a great deal about MILBURN'S LAXA-LIVER PILLS so decided I would try a trial, and after taking three of them I was greatly improved and felt more like living, and I can now do my own work without any trouble."

MOTHERS LIKE TO TREAT COLDS WITH VAPORS

Direct Treatment with Vaporizing Salve Immediately Reaches Inflamed Air Passages.

It is no longer necessary constantly to dose the children in treating croup, bronchitis, sore throat, or deep chest colds. Many Canadian mothers now use the "outside" remedy, Vicks VapoRub, for the cold troubles of all the family, because it is just rubbed over throat and chest—there is nothing to take. When so applied Vicks gives off medicated vapors which are inhaled directly into the inflamed air passages, loosening the phlegm and making the breathing easier.

Elks. A bumper crowd is expected at the Elks' Home to start off a schedule which it is anticipated will be an interesting one from start to finish.

The City Billiard League will resume its schedule for the second half of the season next week. The schedule, which is published elsewhere, provides for the opening game of the second division on January 13 and that of the first division on January 14. At a well attended meeting of the delegates in the Great War Veterans' Rooms last night it was decided to carry on with the same regulations as governed the first half of the season. President J. J. Walsh was in the chair.

NEW YEAR NOVELTY BALL AT SMITHERS

Annual Event was Largely Attended and Proved Most Enjoyable

SMITHERS, Jan. 5.—The Smithers Athletic Club held its annual novelty ball on New Year's Eve and although it was not so largely attended as in previous years, those that did turn out voted it one of the best and most lively dances held here in a long time. President Al Finerty, ably assisted by Thos. This and an energetic committee had everything working smoothly and in a very short time had the dancers in a happy mood which increased with each dance until the midnight circle-one-step was announced when it seemed that Beilium had broken loose.

The committee had a big supply of paper hats, horns, ticklers and serpentine on hand, and this was opened up for dancers and for awhile the dance was turned into a carnival as they tested their lung power on the horns and pelted each other with serpentine. When the time for ushering in the New Year arrived everybody joined hands in the big circle and to the accompaniment of the Gray orchestra joined

ed in the singing of "Auld Lang Syne."

Although the pace was beginning to tell on some, the merry-makers did not want to stop and it was four o'clock before they allowed the musicians to pack up their instruments and bring the dance to an end.

SMITHERS

Mrs. Alexander, sr., arrived in Smithers last Thursday morning on an extended visit to her sons, Dr. Alexander and W. J. O'Neil.

Smithers' merchants and business houses observed an extra holiday last week, being closed all day Friday as well as on New Year's Day. Some of the merchants took advantage of this and were busy taking stock.

A surprise party was tendered Miss Marjorie Roberts and her guest Miss Glover on Friday night when a number of young folks, laden with good things to eat, marched into the Roberts home and took possession for a few hours. A most enjoyable time was spent at dancing and games. At the supper hour some of the boys donned kitchen attire and served a most delightful repast, after which dancing was resumed until about "three o'clock in the morning."

After spending the Christmas holidays in town with her parents Mr. and Mrs. J. G. Stephens Miss Muriel Stephens left on Sunday morning for Prince Rupert where she will resume her studies at St. Joseph's Academy.

G. L. Dimock of the public works department left on Sunday morning for Victoria where he has been called by the Government to attend a conference of Provincial road superintendents and district engineers.

Mr. and Mrs. Clarence Goodenough arrived in town last week and intend to reside here for awhile. Mr. Goodenough having resumed his position as pole inspector with the Hanson Tie & Lumber Co.

Miss Muriel Adams, daughter of Mr. and Mrs. J. Mason Adams left on Sunday morning for Prince Rupert to attend school for the next term at St. Joseph's academy.

Miss Glover who has been the guest of Miss Marjorie Roberts during the holiday season, returned to Terrace on Sunday morning to resume her duties as school teacher in that town.

After a series of bouts with the weather man and difficulties in obtaining water, Manager Hann has at last got a good sheet of ice on the skating rink, and it was thrown open to the public for the first time on Saturday night. A number of the boys turned out for a short hockey practice but it will be a few days yet before they settle down in earnest to get in shape for hockey games.

MANY CLAIMS TO VALUABLE LEGACY Correct Use of Famous Title has Encouraged Pretenders

About the year 1880 the pioneer prospectors of British Columbia discovered a remarkable coal. After many trials and tests it was positively established that this coal represented the acme of economy, efficiency and comfort.

To this fuel they gave the new famous name of "Nanaimo-Wellington" representing all that was best in coal.

No sooner was it found that the public insisted on getting this Wonder Fuel than other coals were put on the market under very similar names. So much so that the public were at a loss to say which was the genuine and which the imitation. Of course it was easy after a trial—a single sack will prove it—more lasting and more powerful heat from a few shovelfuls hardly any ash, no clinker or rock, all these points stand out when you make a practical test in furnace, fireplace, heater or cook-stove.

This famous Nanaimo-Wellington coal is sold only by Albert & McCaffery to whom all orders should be phoned direct. Prompt delivery service given by their own teams and trucks. Their phone numbers are 116 and 564.

### Queen Charlotte Islands Have Grand Fishing Beds; Success of Colony would be Assured

(By C. Harrison)

In regard to the deep sea fisheries the Queen Charlotte Islands, have, I am firmly convinced, the grandest fishing beds in the entire world. The late Sir Richard McBride, Premier of the Province of British Columbia, says:—"Experiments have established that an hour's trawling on the Atlantic coast of Canada will yield more fish than six hours in the North Sea. British Columbia's fisheries are immensely more productive than those of the Atlantic. Our fisheries would support 1,000,000 people." In the waters surrounding these islands we have the largest halibut banks known to mankind. Up to the present time exploration of our fishery resources has advanced scarcely further than the initial stage, still sufficient ground is available for the statement that even in resources of cod the waters surrounding these islands are just as productive as those of the far famed banks of the Atlantic. That there is a plentiful abundance of halibut and herring in our waters has also been established beyond guesswork. It is no matter for surprise that the time should be looked forward to when Queen Charlotte Islands will become the scene of the greatest fishing depots in Canada. It is beyond doubt that these islands must figure conspicuously in the development of the deep sea fishing industries. That is settled by their geographical position, and their adaptation to the conditions which surround the harvesting of these huge products of the briny depths.

Becate Straits is over thirty miles wide at the north and over seventy miles at the south. Dixon's entrance is the supposed cradle of the halibut in these waters. Graham Island is nearer the coast archipelago than any other part of the group, and it is thirty miles away at the nearest point. The Americans frequently poach, I have been informed, our fish in these waters and very few up to the present time have been caught. The United States fishermen acknowledge they have no right to fish within the three mile limit, and always profess that they catch their fish outside of this zone, yet many on the islands know that they do nothing of the kind. The question to be decided is whether or not such fishermen

have any right within the Straits at all, i.e., if the whole body of this water which is bounded on the north by Canadian waters and on two sides by Canadian land should not be classed as a closed sea. If there were anything in the matter of use and custom the American fishermen can only claim that they have been allowed to fish in these waters through the persistent neglect of the Dominion government to prevent them. I hope the authorities at Ottawa will see their way clear to enact legislation to protect our fish before our waters get depleted like those of the Atlantic coast. By preserving our fish from the aliens we are thereby affording employment for our Canadian fishermen.

#### Fishing Colony

The late Mr. Moreton Frewen in an article printed in the Daily Telegraph, July 24, 1922, says: "A fishing colony on the Queen Charlotte Islands, with headquarters at beautiful Massett, with branch establishments further west on Naden Harbor, or fishing the wonderfully rich waters around Langara Island, could not, if properly organized, fail of success. Today the life of a fisherman on Graham Island must be a hard life, involving exposure and discomfort but I say emphatically that he should get rich. What Thiers said finely for the French "physicists"—that "the soil is the wet nurse of all industries," is far more true of the ocean around the "Charlottes" with its endless harvest garnered today so largely by aliens, and it made me sad to see all that readily transferable wealth being financed by American capital in American bottoms and conveyed away so largely to the port of Seattle 600 miles south, thus creating an economic hemorrhage of millions of dollars annually, building up Seattle and Portland also, and weakening the Canadian Exchange fatally all down the coast. The want of good houses—good homes—not mere cottages—at Langara, at Naden, and at Massett, where a British Columbia fishing fleet could winter, at work in the heart of the fisheries, instead of going south to lay up, would mark the dawn of a new financial day for British Columbia, for the fisher folk would at once become citizens instead of nomads. "In no part of the Empire is the right kind of settler so likely to 'make good' as there, next door to Alaska." I can only write that the prospects of a well-organized settlement there appears to me more promising today than at any other spot in our Empire which is known to me."

(Editor's Note.—This is the seventh of a series of articles on the Queen Charlotte Islands by Mr. Harrison. The next will appear in an early issue.)

#### RETURNED AFTER ATTENDING SESSION

John Stevens Was Minister of Municipalities in Boy's Parliament at Victoria

J. R. Stevens, Prince Rupert's representative at the boys' parliament which sat recently at Victoria, returned yesterday. He represented the district of Skeena officially and was chosen from the local group of Tuxis Boys associated with the Methodist Church here. He was the only representative from the north and was chosen minister of municipalities. The session lasted three days, December 29, 30 and 31, and during that time the boys were very busy. One of the most important bills passed was known as the "Three C's." It provided for clean living, clean speech and clean athletics. A bill introduced with the object of adopting the party system by parliament was rejected by a

large majority. Jack was met in true parliamentary style last night at the dock by a delegation of his supporters.

#### SCHOOL TEACHERS BACK ON CARDENA

### AGED OSLAND WOMAN IS BURIED SATURDAY

Entire Population of Icelandic Settlement Turned Out For Rites of Mrs. J. Johnson

Obsequies for the late Mrs. J. Johnson, who died last week at the advanced age of 91 years, were conducted last Friday afternoon at Osland, Smith Island, and the remains were brought here on Saturday for interment in Fairview Cemetery. The entire Icelandic settlement at Osland turned out for the service held there and Canon W. F. Rushbrook officiated.

The late Mrs. Johnson migrated from Iceland to this country three years ago and, despite her age, was active until the end. She was the relict of the late Mr. Johnson of Winnipeg. Two daughters, Mrs. Th. Eyoelson of Osland and Mrs. G. Hjalmsen of Ewart, Alberta, and one son, Christopher Johnson of Chicago; a well known poet and translator of the Icelandic language, survive.

The B.C. Undertakers of this city were in charge of funeral arrangements.

### NEW OFFICER OF RAILWAY TAKES UP HIS DUTIES

Dr. W. J. Black, Director of Colonization and Development, Arrives in Montreal

MONTREAL, Jan. 5.—Dr. W. J. Black, director of colonization and development for Canadian National Railways, is now in Montreal and has established his headquarters at the general office of the company, McGill Street. Prior to his recent appointment to the newly created position, Dr. Black was European manager of colonization and development of the C.N.R. with offices at London, England.

The change announced by W. D. Robb, vice-president in charge of colonization and development, indicates an even more active policy in colonization of the lands located along the line of the Canadian National. As director, Dr. Black will undertake the direction of all activities connected with colonization and development and headquarters have been established here because it is considered that such work can better be directed from Canada.

Later on in January Dr. Black will accompany Mr. Robb, when the latter proceeds to Winnipeg to participate in the round table conference on immigration there at which will be present representatives of the railways, the minister of immigration and colonization, and the premiers of Manitoba, Saskatchewan and Alberta and at which there will be presented for discussion an important agenda upon the subjects of immigration and colonization.

The Canadian National Railways colonization service has a very definite policy, one of the principles being to influence the immigration and satisfactory settlement in Canada of the largest possible number of people of productive capacity that the country can absorb and assimilate.

DON'T LET STOP THAT COUGH NOW! WITH A FEW DOSES OF DR. WOOD'S NORWAY PINE SYRUP

Mrs. Alex Foster, R.R. No. 2, Proton, Ont., writes: "I took a severe cold which settled on my lungs, and my cough was so bad, at times, it seemed as if it were tearing my lungs to pieces. I sent and got a bottle of Dr. Wood's Norway Pine Syrup and I got relief after the first few doses, and by the time I had finished the rest of the bottle I was completely relieved of both my cold and cough."

"Dr. Wood's" has been on the market for the past 35 years; you don't experiment with some new and untried remedy when you buy it; put up only by The T. Milburn Co., Limited, Toronto, Ont.
