FOOD SCARCE IN IRELAND

Partial Famine Conditions Exist
But Relief Measures Well
Under Way

DUBLIN, Jan. 31.—Energetic measures are being taken by the government to relieve the food scarcity in the west of Ireland, which is admittedly serious. It is the worst since 1884 but it is not regarded here as a famine.

In addition to partial crop failure the peat fires water-soaked in the bogs suffice for burning. Free meals are distributed to 15,000 school children. Coal and wood is being supplied at nominal prices. Seed potatoes have been sent to the affected areas and the sum of £250,000 has been distributed to give employment on roadwork and forestry operations.

HOSPITAL HAS NEW DIRECTORS

Annual Meeting Held Last Night
Elects Those Who Will
Carry On

ONE MEDICAL MAN

The annual meeting of the Prince Rupert General Hospital Association took place last night in the city council chamber. There was a large and representative attendance and various business of importance was disposed of including the receiving of annual reports of officers, the election of new directors for 1925 and other matters. President D. G. McRae was in the chair.

Those elected directors for the ensuing year were S. K. Campbell, J. H. Thompson, John L. Christie, C. H. Elkins, and H. H. Little. Besides these elected directors, the full board will include Ald. W. M. Brown and Ald. John McKechnie, and one director each appointed by the provincial government, the Ladies' Auxiliary and the Prince Rupert Medical Association.

Representation of the Medical Association on the board with voting power had been discussed by the Association last year but final decision had been deferred until the annual meeting. Last night the matter was settled when a resolution, moved by S. K. Campbell and seconded by D. G. Stewart, permitting the Medical Association one appointed director was carried. To allow of this, the Ladies' Auxiliary had consented to have its membership on the board reduced from two to one. D. G. Stewart stated that, whereas he had before opposed representation of the Hospital Board with voting power of the Medical Association, he had since gone more fully into the matter and had decided that it would be in the best interests of the hospital to have such representation.

T. Ross Mackay felt that the representative of the Medical Association should be elected at large instead of appointed. D. G. McRae explained that appointment instead of election had been considered advisable insofar as it would tend to prevent any single doctor obtaining special advantages. Mr. Campbell's resolution was then put and carried.

Principal John Millar, D.D., of Robertson Presbyterian College, Edmonton, will officiate at both services. Morning at 11 a.m. Evening at 7:30 p.m. All cordially welcome.

Russia is Buying Much Cotton and Yarn from North of England Mills

MANCHESTER, Jan. 31.—Soviet agents have been busy here for some days placing orders for cotton waste and yarn. It is understood that more than a million pounds of American yarn already has been sold and impending orders are considerably larger. Firms dealing with Russians receive guarantees they demand.

Reopening of the Russian market after ten years inactivity is arousing great interest here.

Mine Company Promoter is Arrested in London Charged With Fraud and Falsifying

WINNIPEG, Jan. 31.—Joseph Myers, managing director of the Bingo gold mines at the Pas, Manitoba, has been arrested in London charged with fraud and circulating false statements in regard to the Bingo property.

The information was laid by the Attorney General of Manitoba following representations made on behalf of the British shareholders.

Myers was associated with a number of local business men in the organization of the Bingo mines, a Canadian company, following which he went to England and formed the Bingo Gold Mines with a capital of £500,000 which later was increased to £150,000.

It is understood the recent annual report showed there had been no production and debts to the extent of £676,755 were revealed.

The bodies of a woman and baby could be seen in the debris and are believed to be Mrs. Elizabeth Prisoner, mother of Loretta and a baby daughter.

Fishermen Resent Imputation That They Have Broken Treaty With United States on Halibut

Fishermen here resent the imputation contained in a telegram from Washington that Canadian and American boats are violating the spirit of the treaty in regard to the three months close season. They say that no boats have been fishing out of this port.

"From my certain knowledge no boats have been fishing out of Prince Rupert," declared John Dyhavn, representing the fish buyers this morning. The boats are tied up here and I have heard of no case where halibut are being caught or offered for sale."

Jarvis McLeod, customs collector, stated this morning that no fishing boats had cleared for the banks and in fact he knew they were tied up here. He scoffed at the idea that Prince Rupert fishermen were breaking the treaty. He said that boats would be cleared for the open sea in time to reach the banks for the opening of the season and he was awaiting information as to the action being taken at Alaskan ports before deciding just how early that clearance would be granted. Of course boats could clear for an Alaskan port at any time.

The despatch to which objection is taken was received here last night as follows:

WASHINGTON, Jan. 31.—The treasury has ordered coast guard boats to patrol the Canadian and Alaskan coast to help enforce the treaty recently negotiated with Canada affecting the closed season for halibut fishing.

Both American and Canadian boats are alleged to be violating the spirit of the convention, which forbids the taking of halibut between November 15 and February 15.

CONFERENCE ON
OPIUM IS FAILURE

GENEVA, Jan. 31.—The International Opium Conference leaders failed to agree today on the problem of suppression of opium smoking in the near East as had been hoped. Viscount Cecil of Great Britain and other delegates decided to make public statements on their position later.

INFLUENZA IN ENGLAND BAD

LONDON, Jan. 31.—Influenza is causing considerable suffering throughout England and a great many deaths have resulted from the epidemic although the death tolls are not as high as a year ago. The deaths in the principal cities and towns last week were 200.

The epidemic this winter is characterized by stomach trouble and is worst in the midlands, Yorkshire and Lancashire. Many schools have been closed because of it.</p

This Good Time To Register As Voter.

This is a good time to register as a voter. The list is open and the court of revision will sit in the spring and pass on the list. Every Canadian should want the opportunity to vote and it can be secured only if the name is on the list. It should be the business of each person to see that he or she is a qualified voter. Delay in this matter is dangerous.

It is the opinion of those who know the situation that there will be no election this year. Yet conditions may change and an election be sprung at any time and it is well to be prepared. It is only votes that count at an election. The voice of the person not qualified to vote is not worth much. If there is no election this year, there will probably be next and then the vote will be required.

Americans Like The Spectacular.

The American people like to do things in a spectacular manner. Just now there is a race going on to carry anti-toxin to the diphtheria stricken people of Nome. Dog teams are repositioned to get into the country and experienced mushers are driving them to the limit. Meantime arrangements are made for an airplane to be used and it is a question which will arrive first. The weather is cold and conditions for either dogs or plane are not of the best. Day by day we shall hear of the progress of the race and all take an interest in it. Yet it is hundreds of miles away, in a country almost unknown to most people.

Proposed Creamery For This City.

At Smithers this week a proposal was made to the Board of Trade that a creamery be established at Prince Rupert to serve the whole district. The suggestion seems to have come from Telkwa and will be considered by the Smithers board at a future meeting.

If it should be decided to erect the creamery here, it might be well for the city to consider its attitude toward such an institution. The Provincial Government also encourages creameries elsewhere and possibly might consider providing a site for it. There is no doubt that the products could be marketed here with advantage just as the Fraser Valley uses Vancouver as its marketing centre and establishes its creamery there. While Prince Rupert does not wish to encroach on the privileges of other centres or to appear anxious to grab everything, if it should be decided that this is the best place for the creamery the people would welcome its establishment.

Outdoor Life For Girls As Well As Boys.

Outdoor life for girls as well as boys is being urged by those interested in the welfare of the race. Organizations such as the Girl Guides help to interest girls in the woods and fields. Here is what the magazine Sunset has to say on the subject:

"We are all agreed that it is good for boys to get out-of-doors, to sleep on the ground under the stars, cook their own meals, chop wood, climb steep trails, learn to cast a fly and acquire that self-reliant independence which comes only from intimate contact with that rough old lady, Nature. It's only recently, though, that the gander sauce has been applied to the goose, that the outdoor-life recipe has been administered to girls as well as boys. There have been summer camps for girls ever since the outdoors became fashionable, but these 'camps' in reality were mere summer residences requiring practically no readjustment or effort on the part of the visitors. Yet it is this readjustment, this extra effort necessary to provide the essentials of life through one's own ingenuity and strength, that make camping valuable. There is no character-building value in the effort necessary to lie in a summer resort hammock or jazz on a smooth floor to radio music, but it is of permanent value to every girl to learn how to build and operate a cooking fire, how to make a comfortable bed in the woods, how to walk six hours with a pack without collapsing, how to sleep in the open without fear, how to find her way without a tax, how to be content and happy without movies, male admirers or georgette waists for a while."

"Child's Eyelids Inflamed, Stuck Together and Bleed"

Mr. E. P. Kimball, Entwhistle, Alta., writes:

"Our little girl from birth was troubled with inflamed eyelids and in spite of several remedies, grew worse until at the age of sixteen months her eyes could not be opened after sleep without bleeding, a waxy discharge sticking the lids together and adhering with great tenacity. The child's grandmothers were consulted by mail, and both responded with a little sample box of Dr. Chase's Ointment. These were used as directed, and lasted until we could obtain a further supply from Edmonton. Improvement was very marked from the first application. The waxy discharge was easily removed and did not reappear. Inflammation subsided and has not returned."

STORK SPEAKS ON POLITICS

Addresses Liberal Association at Annual Meeting Last Night on Interesting Topics

VOTES OF CONFIDENCE

Colonel McMordie Optimistic on Retiring from Presidency of Organization

Dealing with the subject, the Loyalty of the Mackenzie King Government, Fred Stork at the Liberal Association annual meeting last night, stated that this was evidently an election cry in anticipation of a dissolution of Parliament this year and an appeal to the people. He wanted to make the position of the Liberal Government clear in regard to this. It was one of the things they would be confronted with at the next general election, which he opined, would not come this year.

At the Canadian Club dinners and on other public occasions the people of the Dominions were urged to buy within the Empire, yet it was found that the people of Great Britain did not themselves live up to that principle. Danish farm products were sold in England prior to the war in large quantities. When war broke out these were sent to Germany and Britain could not get any. After the war the Danes again looked to the British market and got it and today Denmark found Great Britain her best customer ousting the Canadian products from the British market. This was one thing of which Canadians complained.

Wembley Affair

A similar condition of affairs existed in almost every line. Canada erected a million dollar exhibit at Wembley to show what could be done with Canadian products including British Columbia timber. Yet, when timber was needed for any other work at the exhibition, Baltic or United States timber was utilized. British people dealt with Argentina, when they might just as well deal with Canada. B.C. salmon was replaced in England by Japanese salmon canned in Siberia by men trained to do the canning in British Columbia.

"What we maintain is that when we insist that Britain must go fifty-fifty in the matter of trade, there is nothing disloyal in that. Loyalty has to work both ways. When Premier Mackenzie King says Canada must be listened to, there is nothing disloyal about that. It is only Tory propaganda that tried to make it appear so."

In connection with the Canadian debt and consequent taxation, they did not complain about having to pay their war bills. Canada was the richest country in the world in natural resources and will eventually be the greatest country on the face of the globe, Mr. Stork said. What they objected to was for the Tory Governments to go in for an orgy of spending and then the moment King comes into power, for the cry to go up that the country must be rehabilitated.

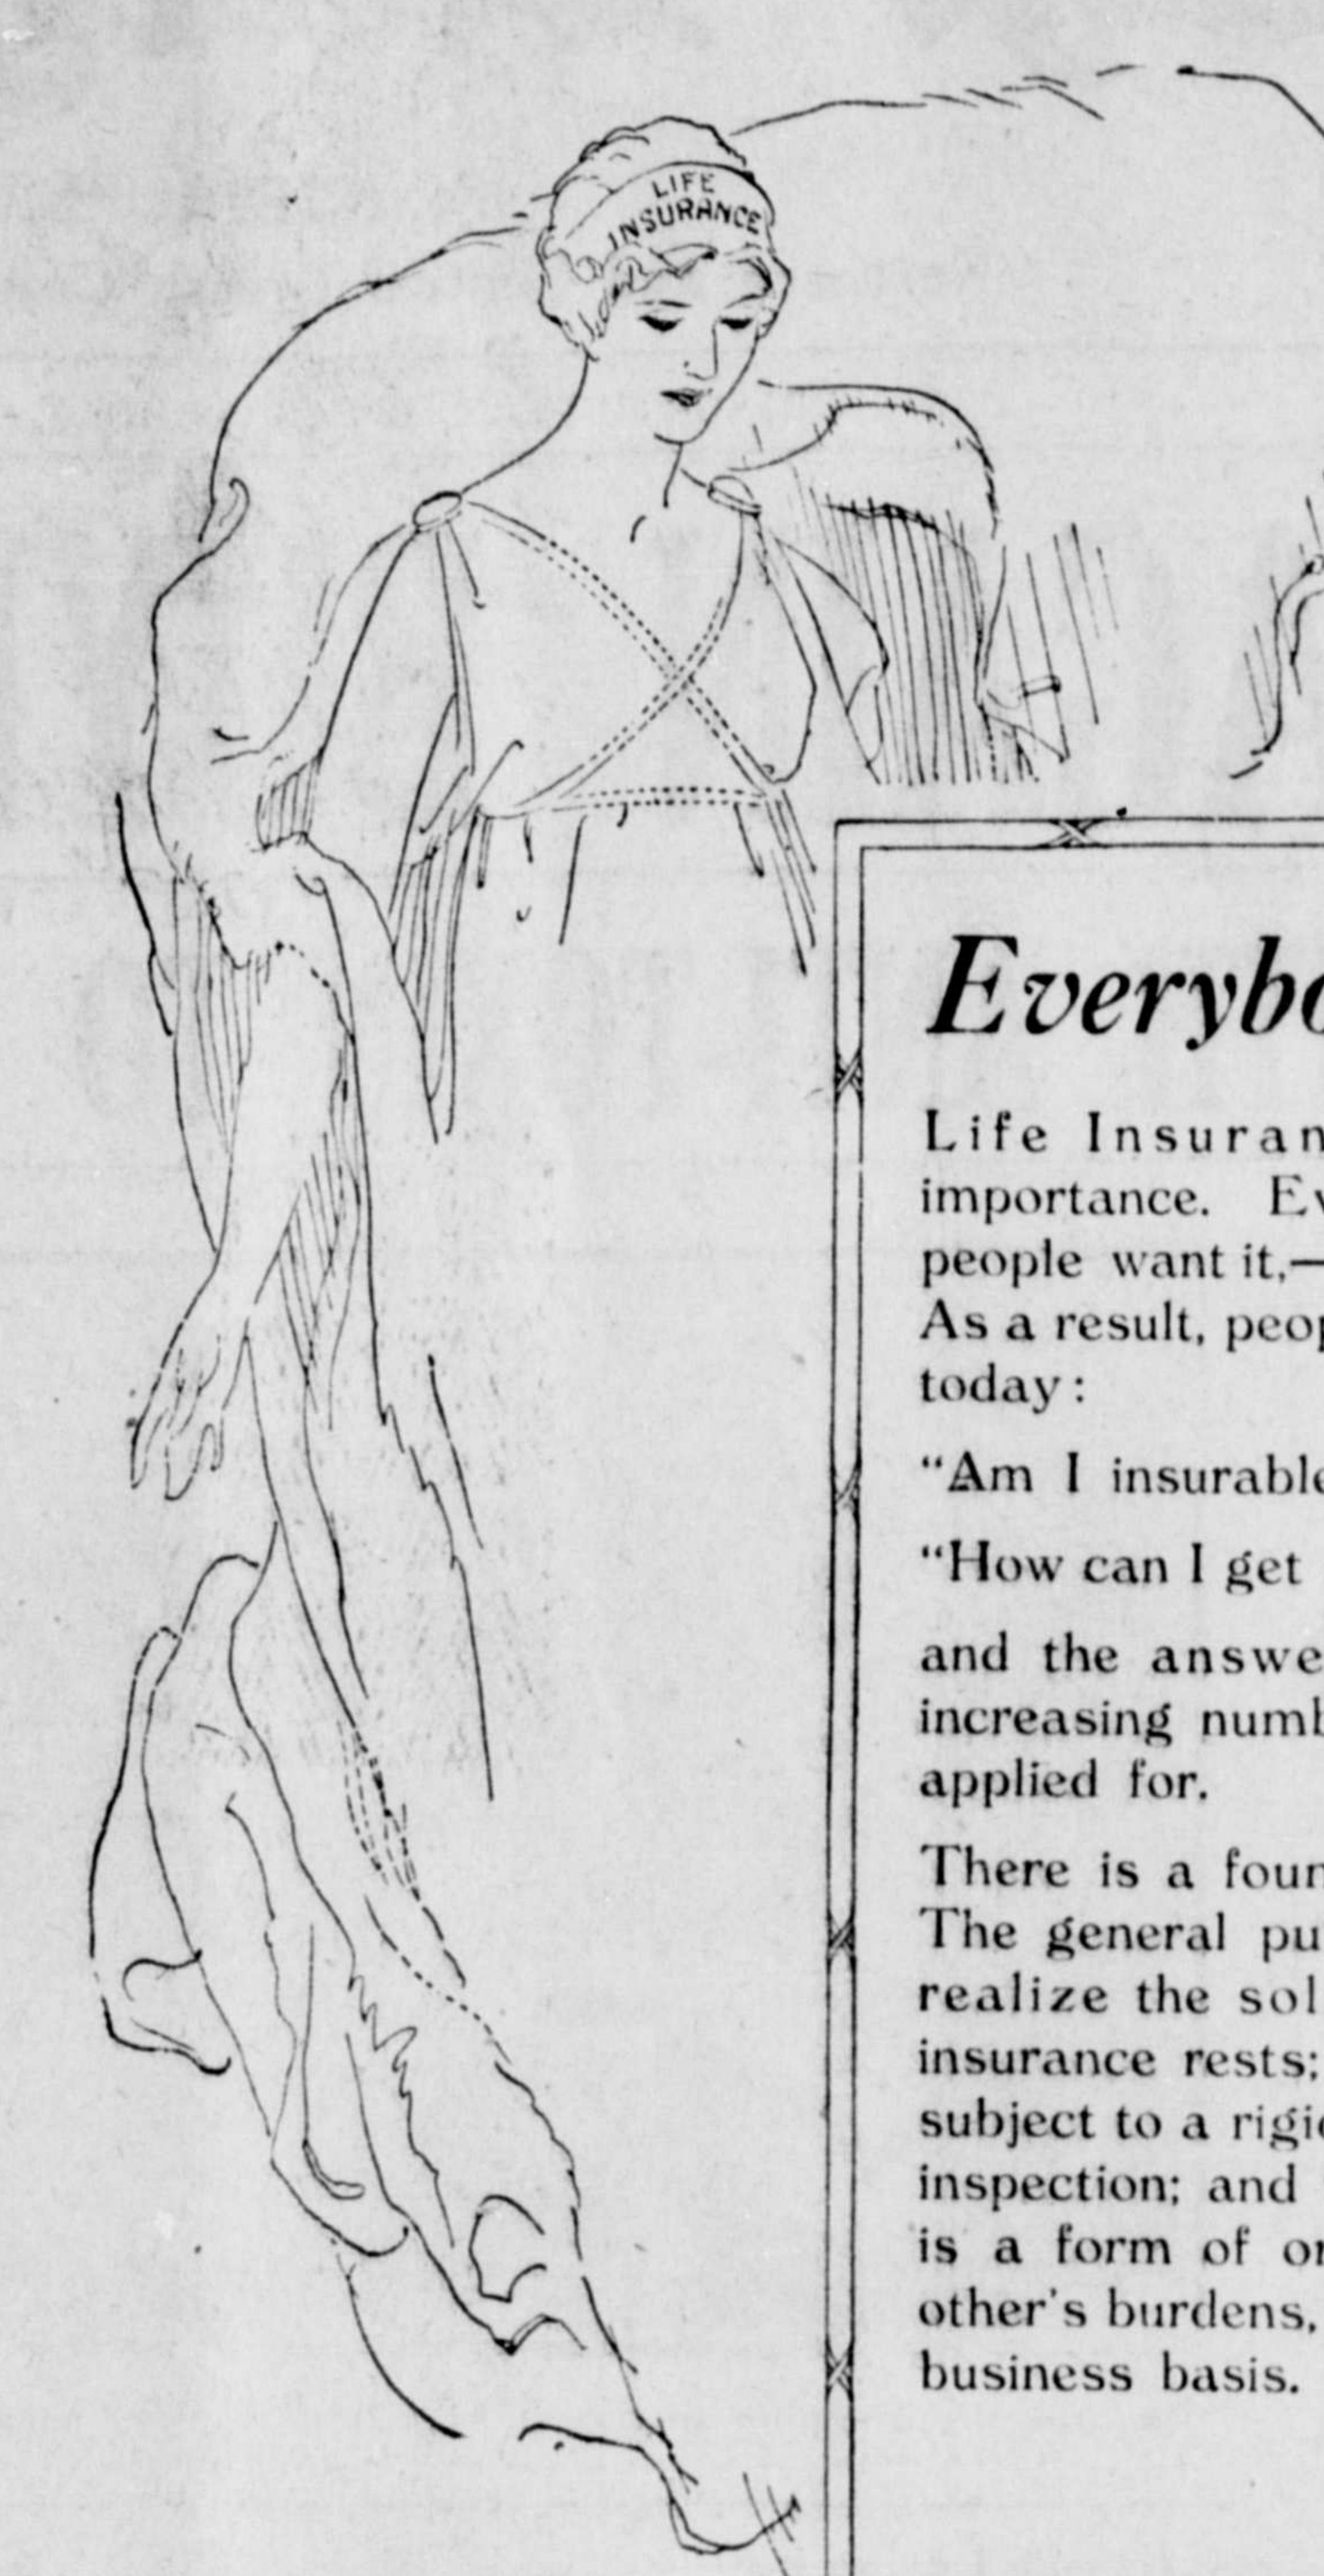

Makes Comparisons

Mr. Stork drew attention to the treatment Prince Rupeert received under Conservative administration and to the prospects now before the city as a result of the effort of the Mackenzie King Government to begin to carry out the Laurier policy. He spoke of the reduction of licenses issued to Orientals by forty per cent and the fact that another fifteen per cent reduction went into force this year. The policy of elimination, if continued, would eventually place the fisheries where they belonged.

Dealing with the tie question, Mr. Stork mentioned that in the past most of the ties were cut on the Mackenzie & Mann limits, but when the Liberal administration took charge they were cut between Prince George and the coast. From 60,000 the number jumped to 1,600,000 and then to two millions and it was only the action of the Senate in defeating the branch line bills that necessitated cutting down on the number this winter. They were to blame for the condition. The building of the branch line by the C.N.R. was held up and meanwhile the C.P.R. built into the territory. They must place the blame for the present condition where it belonged.

Colonel McMordie

In his opening address before retiring from the office he has

Everybody's Friend

Life Insurance has taken on a new importance. Everybody needs it, most people want it—it is everybody's friend. As a result, people are asking themselves today:

"Am I insurable?"

"How can I get sufficient life insurance?" and the answer is found in the ever-increasing number of policies now being applied for.

There is a foundation for this success: The general public is rapidly coming to realize the solid basis upon which life insurance rests; that the business is subject to a rigid system of Government inspection; and that while Life Insurance is a form of organized sharing of each other's burdens, it is managed on a sound business basis.

FINANCES OF THE HOSPITAL

Healthy Condition Shown in Report Presented Last Night

The financial statement for the Prince Rupert General Hospital for the year 1924 submitted at the annual meeting last night showed the institution to be in a healthy financial condition with liquid assets at the end of the year standing at something over \$7,000, including accounts receivable worth 100c on the dollar and cash on hand. In speaking to the report, S. K. Campbell, chairman of the finance committee, pointed out that against these liquid assets were immediate liabilities totaling something in the neighborhood of \$6,000, leaving an actual surplus of only about \$2,000.

Mr. Campbell, continuing, went into details of the report, mimeographed copies of which were furnished the meeting. Accounts written off totalled \$13,000, many of which it was felt might still be collectable. During the year, hospital fees charged had totalled \$41,000.

Among the more important items of expenditure on the statement of general revenue account were the following:

Expenditure

Hospital fuel	2,633.85
Meat and fish	2,885.69
Groceries	5,464.69
Bread	708.50
Milk	1,809.32
Ice	240.00
Laundry	3,722.80
Light and phone	2,513.30
Surgical supplies	5,081.29
Salaries	19,404.36
Accounts written off	13,165.65

Income

Items of income included the following:

Hospital fees	\$44,193.09
Accounts recovered	2,413.97
Gov. per capita	8,347.90
Liquor profits	3,631.50
City per capita	9,177.00
City, special	4,600.00
Red Cross Society	400.00
City of Prince Rupert	2,314.65
Nursing services (Isolation Hospital)	335.00
Membership fees	227.50
X-ray operations	202.76

Collecting Accounts

Mr. Campbell, having entered into a defense of the action of the hospital finance committee in placing long due accounts in the hands of an international collecting agency, there was some discussion in the meeting on this matter. S. D. Macdonald and Archdeacon Rix were not in favor of such a policy. Mr. Campbell stated that it had not been adopted except in what seemed hopeless cases. There was always immediate recourse, however, by communicating with the secretary. Mr. Campbell admonished debtors of the hospital to take things up squarely with the secretary, whether or not they were able to pay, and unpleasant entanglements that otherwise might follow could be avoided. D. G. Stewart advised the board to be careful before passing accounts over to such an agency. Every other effort to collect should first be exhausted and the ability of parties thus proceeded against to pay should be ascertained.

BRINGING UP FATHER

ANNUAL REPORT ON HOSPITAL

Retiring President, D. C. McRae, Tells of Splendid Work Being Done

In submitting his report for 1924 at the sixteenth annual meeting of the Prince Rupert General Hospital Association last night D. C. McRae, the retiring president, announced that 912 patients had received treatment in the hospital during the year. Of this total, 713 patients had been from the city and 199 from outside points. Of the latter number all but 19 from Vancouver and five from Seattle had been from the district contiguous to Prince Rupert showing that this was the hospital centre for Northern B.C.

The figures also showed that one out of eight of the population of the city had received treatment in the hospital during the year.

My husband went and got me two boxes, and after the first one was finished, I felt like a different woman. I cannot recommend them enough to all those who suffer with anything wrong with their heart or nerves."

Milburn's H. & N. Pills have been on the market for the past 30 years and are put up only by The T. Milburn Co., Limited, Toronto, Ont.

HAD BAD SPELLS WITH HER HEART

Mrs. C. Martin, D.D., No. 2, Orillia, Ont., writes: "I have been troubled with my heart for long time and very often had bad spells with it. I would take fainting spells, and my husband had to have someone to stay with me all the time. He got me everything he could think of to see if they would do me any good, but nothing seemed to help me. One day a friend was in to see me and advised me to try

Tiny Tims—Y. Katsuyama, L. Katsuyama, G. Thompson, E. Dingwall and H. Walker.

Colts—S. Gurvich, S. Joy, M. Comadina, J. McNulty, G. Camron and H. Macdonald.

tinued, and there was an operating surplus for the year of almost \$5,000. It was the first year that Miss McCaul and Mr. Birch had been in charge and the satisfactory condition of affairs reflected much credit on the efficiency of their management. The board was fully appreciative of their splendid services.

Official Thanks

In concluding his report, Mr. Metlæ extended official thanks to the members of the 1924 board for their co-operation in the work of the year which had been consistently harmonious to the Ladies' Auxiliary for their splendid assistance which included the purchasing of upwards of \$900 worth of supplies to the Adair Cars Chapter I.O.D.E., and the Restmore Co. for furnishing wards, to the Municipal Chapter I.O.D.E. for blankets and sheets, to the Red Cross Society for the donation of \$100, to the Rotary Club, city council, Pine Min Chinese Association who were staging a concert for the benefit of the hospital and, finally, to the press for generous assistance when publicity was indicated that it was doing its work and doing it well.

Due to the fact that hospital membership fees had been reduced during the year from \$5 to \$2, the object of increasing revenue and general interest for the institution had been realized. This year \$227.50 had been derived from fees which was \$200 better than the average for past years.

During the past year, the Nurses' Home had been completed. On completion it had cost \$20,465 with a mortgage of \$5,000 against it and \$834 due the bank. Since completion, the bank had been paid in full and the mortgage had been reduced to \$4,000 in addition to paying \$232 interest. The Rotary Club had handed the board a check for \$1,000 making it possible to finish the top floor of the home.

For the successful completion of the Nurses' Home project, thanks were due to D. G. Stewart more than any other person, Mr. Metlæ declared.

SONS OF CANADA DEFEATED ELKS

Standing of Senior Basketball League Changed as Result of Last Night's Game

The Sons of Canada trimmed the wings of the Elks and incidentally took the lead of the Senior Basketball League when they won last night's fixture by a score of 29 to 13. Out at full strength and keen to win, the Canucks had no difficulty in putting it over the Elks and were full value for their victory. It was one of the season's most interesting games and was watched by a good crowd of enthusiastic fans.

E. A. Mann referred and the team lined up as follows:

Sons of Canada—Alex Mitchell, R. B. Skinner, Vic Menzies, Harry Menzies and G. Shenton.

Elks—Will Lambie, Eddie Smith, Dave Balfour, Arthur Phillips and Mike Budenich.

Intermediate League

The Grotto scored an easy victory over the Regiment in the Intermediate League game by a score of 35 to 10. Ralph Smith was referee and the players were listed on all occasions.

During the year, the X-ray equipment at the hospital had been considerably renovated and extended. The cost had been \$3,500 of which \$2,500 had already been paid.

Notwithstanding extra expenditures, the finances of the hospital were in a satisfactory condition, Mr. McRae's report con-

tinued, by a score of 24 to 7 over the Tiny Tims. Ralph Smith was referee and the line-ups were as follows:

Tiny Tims—Y. Katsuyama, L. Katsuyama, G. Thompson, E. Dingwall and H. Walker.

Colts—S. Gurvich, S. Joy, M. Comadina, J. McNulty, G. Camron and H. Macdonald.

ALL things, even the best, come to an end and some sport writers are predicting that Jack Dempsey's heavyweight championship of the world title is going to end soon whether he marries Estelle Taylor and retires gracefully or not. Not long ago when Dempsey entered the ring to do his stuff, he usually went in with a half inch of jowls sticking all over his face and a nose that could not be busted. Things have changed, however. Now he has a rebuilt terra cotta nose and—hard to go with it they say the Manassa Man Eater has grown some pink side whiskers. Mr. Dempsey has been unable to resist the urge to beauty, grace and sentiment. He has not fought since he met Firpo a year ago last September. One writer on the Chicago Tribune says: "We fear that the next time he enters the ring, particularly if it should happen to be a middle-aged dusky freight-handler named Wills, there will be a sudden display of aurora borealis and his sink whiskers will take flight. Half an hour later he will be asking how come the limited hit him when he was half a mile from the tracks."

Eloquent and Inspired Address
Delivered Last Night Before
St. Andrew's Society

An eloquent and inspiring address was delivered before the St. Andrew's Society last night by Principal J. C. Brady who gave an interesting discourse of well over an hour on the career of Thomas Carlyle, famous Scottish author and poet. Mr. Brady traced the life and work of Carlyle from his birth to his death and entered with spirit into his subject.

There were vocal solos by Mrs. A. R. Hunter and John McLean and a violin solo by John Bremer. W. Vaughan Davies was accompanist.

Thomas McClymont, president of the society, occupied the chair and there was a good attendance.

During the evening, President McClymont presented to Ben Ferguson a handsome pipe as a prize for having won the society's recent cribbage tournament.
