THORNTON PROPOSES RAIL AMALGAMATION

LOCAL CANNERYMAN DECLARES BIG SALT PRODUCTION HERE IS POSSIBLE

Merger of Canadian National and C.P.R. Would Effect Great Saving Declares Railway Head

Sir Henry Thornton Defends Administration of Line and States Will Advertise When Necessary

OTTAWA, April 23.—"A merger of the Canadian National and Canadian Pacific Railways," declared Sir Henry Thornton before the parliamentary committee on railways yesterday, "would result in an enormous saving providing there were sufficient net earnings to meet the fixed charges of both railways."

Sir Henry declared that the suggestion that the deficit on the National lines was due to state ownership was nonsense. The deficit was due to conditions which existed previously and had been forced upon the management.

CONFERENCE IS NOT COMBINE

Colonel Gear Declares it is Benefit to Shippers and Not Hindrance

OTTAWA, April 23.—"The conference is in no way a combine as generally understood by the word," asserted Colonel Gear of the Robert Reford Company before the special committee on ocean rates. To strangle trade by going to extremes in ocean rates is not the object of the North Atlantic conference, he declared. Not only did the conference not extort excessive rates but it conferred numerous benefits on the shippers in the line of regularity of service, reduction of premiums, improved accommodation, etc. He denied that New York governs the conference.

Seal Herd Now Passing Off Mouth of Hecate Strait and Moving Northward Bering Sea

If sealing were legal many of the small fishing boats could now be out off Dixon Entrance gathering the valuable pelts which would be marketed here. The main seal herd has passed a little north of that point now and is steadily moving northward to Bering Sea where the seals breed on the Pribiloff Islands, but the smaller herds are now outside.

The seals are being protected by the coast guard cutter Unalaga, Lieut. Commander R. C. Weightman and the cutter Suohomish.

LIFE USELESS WITHOUT WIFE

Agassiz Man Shot Himself When Better Half Left Him

AGASSIZ, B.C., April 23.—Archibald Boyd, 60 years of age, stipendiary magistrate, was found yesterday in his home with his brains blown out. The police state it is a clear case of suicide.

Boyd had quarrelled with his wife the previous day and she left him to take up a separate residence.

142 BEER LICENSES

VANCOUVER, April 23.—There are now 142 beer licenses issued in this province, the latest being to the Kingsway at Port Alberni and the Pretoria at Ladysmith.

GROW TOBACCO VANCOUVER ISD.

Experimental Farm at Sidney to Make Experiments This Season

VICTORIA, April 23.—The possibilities of Vancouver Island for tobacco growing is to be tested at the experimental farm at Sidney under the Dominion department of agriculture. Various kinds of tobacco will be planted and tests made. So far seeds of seven different varieties are being grown under glass at the station and the seedlings will be set out just as soon as they are large enough.

Tobacco has been grown here by private persons and also at the experimental farm but no tests as to its commercial and curative value have been made so far.

TRYING TO STIR UP OTTAWA GOVERNMENT

Hon. John Oliver and General Odium Gone to Capital to Urge Action

VANCOUVER, April 23.—Before leaving for Ottawa Hon. John Oliver said he was unable to give out anything for publication except that he was going there to try to find out what was being done and what was likely to be done. Brig.-Gen. Victor Odium, M.P., is also gone to lend a helping hand in trying to solve the Peace River problem.

Vancouver business interests are urging the Government to try to arrange for the Peace River project to be taken up this year with a view to construction being actually commenced.

AMELIUS JARVIS LIBERATED TODAY

Fine of \$60,000 Paid Before Former Financier Was Allowed to go

TORONTO, April 23.—Amelius Jarvis, prominent financier and yachtsman, was released from the prison farm this morning after a fine of \$60,000 imposed upon him had been paid.

Jarvis was convicted for his part with Peter Smith, former provincial treasurer, in connection with Ontario government bond scandals.

T. B. BOOTH CHOSEN LIBERAL CANDIDATE TO CONTEST NANIMO

DUNCAN, B.C., April 23.—T. B. Booth of Nanaimo was chosen to represent the Liberal party in the Nanaimo riding at the federal election by the party convention here last night. The vote stood 89 for Booth and 26 for C. H. O'Halloran of Victoria.

Booth is a Nanaimo newspaperman and O'Halloran a lawyer living at Oak Bay.

Alexa Stirling, woman golf champion of the United States, is shown with her husband, Wilbert G. Fraser of Ottawa, after their recent marriage at East Lake, Georgia.

Grain Elevators Burned At Chicago Last Night Loss Over Two Million

CHICAGO, April 23.—A fire last night destroyed two wooden elevators of the Rosenbaum Grain Corporation containing two million bushels of corn and oats with a monetary loss estimated at \$2,250,000.

For a time it was feared a large industrial section of the city would be wiped out, the heat being so intense that the firemen were unable to approach to within fifty feet of the burning structures at times.

The blazing grain poured into the south branch of the Chicago River clogging the stream and threatening shipping. Also it caused the withdrawal of two fire tugs.

COLLINS' BODY RESCUED TODAY

Directly After Removal Lateral Slid into Deep Pit Beneath It

CAVE CITY, April 23.—The body of Floyd Collins was freed today from the underground trap where he met a slow death two months ago, following seventeen days of suffering.

Miners yesterday reached the body and found a large stone right across the ankles with morsels of food, rope, chisels and hammers by its side.

A few minutes after the recovery of the body the lateral caved in and slid 100 feet below into a black pit, substantiating the remark of Collins to those who attempted to rescue him that there was a deep pit right behind him.

The body was in a good state of preservation. Burial took place on the top of the Crystal Cave, another cavern discovered by Collins.

SMALLPOX BANN IS LIFTED AT VANCOUVER

SEATTLE, April 23.—The quarantine against smallpox, which went into effect on March 17, requiring all persons entering the United States from Vancouver to be vaccinated, was lifted today.

Passengers on Homeric Think Japanese Might Likely Been Rescued

Say They Saw Men Swimming Toward Vessel Who Might Have Been Picked up but Others Disagree

NEW YORK, April 23.—The White Star liner Homeric docked last night with the passengers divided in regard to the possibility that at least some of the 38 members of the crew of the Japanese freighter Raifuku Maru which sank on Tuesday night had been saved.

Many passengers reported that they had seen Japanese seamen swimming or being swept toward the Homeric after the freighter foundered and that they believed they might have been saved had the lifeboats been lowered from the liner.

At least an equal number declared everything possible had been done.

Captain Roberts' statement declared it was impossible to effect a rescue. No seamen or bodies were seen.

WOULD REDUCE PARLIAMENT

Senator Proposes Basis of Representation Be Changed from 65 to 50

OTTAWA, April 23.—Reduction in the membership of the House of Commons is sought in the petition to the King of which notice had been given by Senator Lynch Staunton. He suggested that the representation from Quebec which was a fixed factor on which Dominion representation from the rest of the country was based be reduced from 65 to 50 so that the unit of representation could be reduced all over the country.

Direct Shipments From Here to Orient of Herring Would Help Industry Says Miller

That it should be possible to have trans-Pacific steamers come here in the very near future to load general cargo for the Orient is the opinion of Francis Miller, head of the Miller Cannery Co. This morning, in discussing a shipment of 300 tons of salt herring that was recently loaded from his floating cannery Laurel Whalen to coasting vessels for delivery to Seattle and Vancouver where it was transferred to steamers for Japan, Mr. Miller stated that, could that cargo have been loaded direct here, \$5 per ton would have been saved in coastal freight rates. However, to have boats come here it is necessary to have general cargo including such commodities as wheat and lumber in addition to fish. Every year 20,000 tons of salt herring is shipped from Nanaimo to the Orient. Just as much as this could be produced here, the only difficulty is obtaining direct transportation. There is always a ready market in the Orient for salt herring and almost any quantity can be absorbed there if the price is right. Mr. Miller says that next year his company will endeavor to get direct transportation for its product from here to the Orient.

The floating cannery Laurel Whalen, which has been salting herring during the winter, is now being outfitted to start canning salmon. About the first of July the vessel will be taken to Barnard Cove on Princess Royal Island where she is to be used.

Work on the extension plant at Seal Cove which the Miller Co. recently acquired to make it into a full-fledged salmon cannery is proceeding, Mr. Miller reports.

AUSTRALIA NOT REOPEN TREATY

Canada Must Pass Upon it as it Stands States Premier Bruce

MELBOURNE, April 23.—Premier Bruce cabled Premier King regretting his inability to reopen the discussion on the proposed trade treaty. The Commonwealth premier states that they are now awaiting the decision of the Canadian Parliament on the treaty.

FIVE WOMEN ARE ON JURY

VANCOUVER, April 23.—Five of the twelve persons on the jury in the Chang Sing murder trial are women. They will help decide whether Sing will swing for his alleged crime or go free. It is the second trial of the Chinaman who is charged with being the slayer of David C. Lew, the brilliant young Chinaman, who was shot to death last September.

The women are not allowed to talk to their husbands until the trial is over but are being quartered in the Dunsmuir Hotel under charge of a police matron.

W. L. Stamford, engineer for the marine department, sailed last night on the Prince George for Anyox on departmental business in connection with the changing of a light in the steamer passage near Anyox.

Hope No Election Until Elevator Built.

Prince Rupert people will hope there will be no election this year until the elevator is completed. No matter what our particular political beliefs all will agree that the one thing needed above everything else is the completion of the elevator here and its continuous operation after it is built. Other things are subsidiary to that.

There are signs pointing to an election in the summer or autumn, but it may not be brought on. It is to be hoped it will not. Let the elevator be built and then we do not care so much what happens. Our success as a city depends on the carrying out of the present policy. We may not be getting all we want but we are least getting the one important thing just now.

Prince Rupert Must Go After Business.

Without knowing what the government intends to do with the Prince Rupert elevator, it is perhaps a little early to decide on what course to take locally to bring this port before the people of the prairie. When J. E. Dalrymple, vice-president of the C.N.R. was here, he expressed the opinion it would be best for the government to lease the new elevator, when it is completed. That seems to be the logical thing to do, if a firm can be induced to take it over. Failing that, it is to be presumed that it will be operated as a government institution.

In any case it will be wise for Prince Rupert to consider what action she will take to induce business to come here. Vancouver is about to send a representative, J. A. McColl, to travel through the provinces telling about the advantages of the western route through Vancouver. Later Prince Rupert may have to do the same thing. The representative should have all possible information available and should be prepared to lecture at the larger points and discuss with grain dealers and others. Wherever he goes he would put Prince Rupert on the grain map.

Prince Rupert cannot afford to sit back and be idle in this matter of grain shipping. This is the opportunity, now that the elevator is being built. We shall have to select our territory and canvass it well.

Fishermen's Refuge Needed Here.

Ketchikan, it is reported, is likely to have a fishermen's refuge constructed by the Federal Government at Washington. The Canadian Federal Government also owes a similar duty to the fishermen here. The construction of docks and wharves is specifically a federal matter and should be undertaken by them.

In the House of Commons the other day in answer to a question it was stated that about one hundred thousand dollars was expended on the purchase and excavation of a site for a federal building here during the Borden regime. So far the city has not benefited one cent as a result of that expenditure. What we need now is something that will really benefit the port. A comparatively small amount of money spent for the benefit of the fishermen would at once benefit a large and worthy part of the population.

Ottawa Government And Sealing Treaty.

Despatches sent from Ottawa by different correspondents give different ideas of what will be done with the sealing treaty. The Province correspondent thinks there will be no change while correspondents of other papers think a modification of the treaty likely. As a matter of fact the government at Ottawa will do whatever the people want. If they find that the people really want the treaty abrogated, that course will be followed. There must be some general movement in that direction or it cannot be expected the government will listen to it. The matter will be brought before the Board of Trade at its next meeting with a view to action being taken by them.

Charles G. D. Roberts Coming Next Week.

The coming of Charles G. D. Roberts, poet, novelist and writer of nature stories is an event of considerable importance. He is one of the outstanding literary men of Canada and his coming next week to lecture here will be an opportunity for Prince Rupert people to meet one of the men who are making Canada famous.

"Headaches, Bilious Spells, Are Now All Gone"

Mrs. John Ireland, Nobleton, Ont., writes:

"I was a great sufferer from severe headaches and bilious spells. I tried a number of remedies without obtaining any benefit until I was advised to use Dr. Chase's Kidney-Liver Pills. These completely relieved me, and made me feel like a new person. I am very grateful to Dr. Chase's Medicines for what they have done for me, and you may use my letter for the benefit of others."

TALK ON FISH SEATTLE HOLDUP
GYRO LUNCHEON GAME THWARTED

T. H. Johnson Gives Address and Gyro Loughhead Brings Greetings Two Men Captured Because Notice Got Wind of Proposed Raid

T. H. Johnson, manager of the Canadian Fish & Cold Storage Co., gave an interesting address before the Gyro Club yesterday afternoon on the subject of fishing. He explained a theory tracing the development of man from the creatures of the sea, the several stages of such development being illustrated from the eel which had no legs or members, the crab or lobster which had developed legs, the frog which lived on water and land and breathed with lungs, the seal, and, finally, through the higher animals to man.

There were many strange fish, Mr. Johnson said, such as fish that carried their own lights and fish that flew. Describing such fish might give rise to discredit but, nevertheless, they existed.

Prince Rupert, having had as its first real industry the fishing, might take heart from that fact Mr. Johnson said. Such great cities as Marsilles, Venice and Tyre had been founded on the fishing industry. The Dutch people had been the first to take up commercial fishing when they prepared herring and exported it into Germany and Russia. These nations were still great consumers of salt herring, the use of it having been handed down from generation to generation.

Clarence Loughhead

Clarence Loughhead, governor of District No. 8, who was a guest of the club, was called upon. He extended the greetings not only of the Calgary Club but District No. 8, which contains the Edmonton, Lethbridge, Grandbrook and Nelson clubs, to Prince Rupert and said that members of the local club would always find a welcome awaiting them from Gyros of those cities.

Miss Nada Johnstone, accompanied by Miss Blanche Curtin, favored the club with vocal solos and there was also community singing.

President Roy McNaughton was in the chair, there was a large attendance of members and the following were guests: Norman Loughhead of Calgary; T. H. Johnson, Miss Nada Johnstone, Miss Blanche Curtin, A. E. Wakefield, F. G. Dawson, Robert Mann, Dr. W. T. Kergin and W. E. Williams of Prince Rupert; Jack Crawford and Arnold Evans of the steamer Prince George, and J. E. Merryfield of Vancouver.

FISHING BOATS IN ALASKA EXEMPT FROM SEIZURE FOR DEBT

JUNEAU, April 22.—The Alaska House of Representatives passed a bill exempting from execution any fishing vessel the value of which does not exceed \$2,500. This puts the fishing boat in the same class with workmen's tools as being necessary to his livelihood.

Another bill passed by the House was one for an appropriation of \$25,000 to pay for the compilation of the laws of Alaska.

TEA AND SALE

Successful Affair Took Place Yesterday in Aid of Ridley Home Bazaar

In aid of the forthcoming Ridley Home Bazaar, a very successful tea and sale of home cooking was held yesterday afternoon at the home of Mrs. S. Horgan, 1026 Ninth Avenue East. Many ladies patronized the affair and the sum of \$36 was realized. Mrs. Whatman, Sr. and Mrs. C. Hills had charge of the home cooking table, Mrs. E. C. Phillips and Miss Marguerite Casey presided over the tea tables and Mrs. Goodsell was cashier.

AN ALIBI FOR HOMER.

A new and disputed light has been shed on the disputed authorship of the Homeric poems. An English schoolboy wrote: "It is said that writing was not invented when Homer composed his poems. He must therefore have lived a good deal later."

SEATTLE, April 22.—Bandits were frustrated in an attempt to hold up a messenger of Frederick & Nelson. Two of the would-be bandits are in jail and three others are being sought.

The bandits were all set for the robbery. They had their automobile in waiting but they had been tipped off. Instead of the messenger they were encountered by Captain Tennant, head of the detective bureau, and officials of the store. Lee H. Waite and Charles E. Pearl were the men arrested.

Tennant said after the arrests that the two men made a proposition to an employe of the department store and promised to let him share in the loot in exchange for the information which he was to furnish.

Last summer bandits succeeded in getting away with \$3,000 in a holdup.

"Clothes last longer when washed properly"

says Mrs. Experience, who tells how to wash them.

"Some women actually rub holes in clothes trying to get them clean with harsh, ordinary laundry soaps, which are only half soap anyway. No wonder they say, 'Washing is so wearing on clothes'."

"The easiest way I've found to wash clothes—easiest on clothes and easiest on myself—is by using Sunlight Soap. No boiling or hard rubbing is needed—the pure Sunlight suds penetrate through and through each fabric, loosening dirt and dissolving grease spots. Then in rinsing, all dirt and soapy matter just runs away."

"And as every bit of Sunlight is pure, cleansing soap, it lathers generously, does not fade anything washable and is far more economical. Sunlight keeps your hands nice and soft. Lovers, Toronto make it."

HELIGOLAND SHORES RAPIDLY CAVING IN

Bathing Beaches are Washed Away and Public Roads Have to be Closed

HAMBURG, April 23. — The shores of the island of Heligoland are caving in with startling rapidity. For years the sea has been steadily encroaching on this little island, and all that was left of the bathing beach has been almost completely claimed by the sea as its own. Recently a huge slice of approximately 3,000 cubic yards, plunged into the sea with a terrific roar.

The villa of a prominent Berlin banker, just completed, is now seriously imperilled, while an adjoining building is being torn down. A solitary garden pavilion hangs on the verge of the precipice as though at any moment it might drop into the depths below.

As the erosions of the waves have of late produced a number of deep crevices in the rocks, it has been found necessary to close the public road over the cliffs.

OLD TIME DANCES RETURN IN BRITAIN

Society Adopts Polka, Mazurka, Lancers and Barn Dances Once More

LONDON, April 23.—Dances of 25 years ago have come back as one of the season's novelties in society. On these occasions the dancers wear costumes of the period. The polka, the mazurka, lancers and the barn dance have all been reintroduced with favor and even that known as the Washington Post, danced to the march of that name which is often heard on the London radio these days as played by England's best known jazz orchestra.

One of the first "quarter-century-ago" dances was arranged by Miss Belle Harding, a social favorite, who was attired in a black dress worn originally by her mother and which revealed a pink petticoat, considered a true symbol of Victorian days.

MARMOT METALS WORK TO BEGIN

Company Will Commence Developing Montana Group About May 1

VICTORIA, April 23.—The Marmot Metals Mining Company Limited, Non-Personal Liability, was incorporated last week under the laws of British Columbia for the purpose of taking over and developing and operating the well known Montana Group of six claims, situated on the south fork of the Marmot River five miles by trail from tidewater at an elevation of from a 1,000 to 3,500 feet. This was the first property staked on the Marmot River, and has long been recognized by mining men of all spheres as a property of very great promise. Staked and owned by H. C. Magee of Stewart and Vancouver, George W. Bruggy of Alice Arm, and Angus McLeod of Stewart, considerable work has from time to time been done consisting of a great deal of surfacing prospecting, and open cuts; a total of 140 feet of tunnels and a twenty foot shaft. Small shipments that can only be looked upon as smelter tests have from time to time been made, that gave a return of over \$100 in gold, silver and lead. Assays taken by Mr. Magee have given returns as high as 1616 ounces silver, with good gold and heavy lead content. A large mineralized zone from 100 to 200 feet wide traverses the entire length of the four upper claims, below which two veins five to six feet wide carrying high grade ore have been located and to an extent developed, these two veins head directly for the big zone, and at their intersection with it should make large and valuable ore bodies. Owing to the nature of the ground great depths can be easily obtained.

A good horse trail runs from tidewater at the mouth of the Marmot River right up to and past the foot of the property. Capital of \$1,500,000. The new company has a capitalization of \$1,500,000 divided into 3,000,000 shares par value 50 cents. One-third of the capital stock, 1,000,000 shares are paid to the vendors in full payment for the property and to cover incorporation and organization costs. This stock is to be placed in escrow for two years. The balance or 2,000,000 shares are placed in the treasury for public subscription, for the purpose of financing development and later equipping the property. The new company takes over the ground clear of all liabilities, and with no payments to be made.

In the interests of economy the head office will be for the time being at least, in Stewart. Angus McLeod, one of the owners and a well-known northern mining man of experience and repute, will be the managing director. Work is to be commenced on or about May 1, and energetically prosecuted summer and winter.

MUSICAL CLUB CANADIAN DAY

Enjoyable Time Spent Yesterday by Members at Home of Mrs. George Bushby

The Ladies' Musical Club held a very enjoyable and instructive meeting yesterday afternoon at the home of Mrs. George Bushby, Fourth Avenue, the afternoon being devoted to a study of Canadian composers with examples of their work. The program consisted of:

Piano solos by Mrs. R. P. Ponder, "Barefoot"; "Interlude" and "Pro Patria," Clarence Lucas.

Vocal solos by Mrs. B. Blance, "The World is Waiting for the Sunrise," Ernest Seitz, and "A Problem," Parkin.

Vocal solos by Mrs. C. Gullin, "I Bring Thee Heart East," Jean Branscombe, and "A Little Fellow," William Diekmont.

Vocal solos by Mrs. L. O. Larson, "A May Song" and "The Little Brook," Gene Gilley of New Westminster.

Paper on "Canadian Composers," Mrs. George Woodland.

Violin solo by Miss Marjorie Lancaster, "O Day Most Fair,"

BRINGING UP FATHER

By George McManus

Henry Morey of New Westminster. Piano solo by Mrs. Hubert Ward, "Indian Love Lyrics." Vocal solos by Miss Nada Johnstone "Duna," McGill, and "South Wind," William Diekmont.

It was brought to the attention of the club that Madame Albani the famous Canadian singer is in distressing circumstances and a donation to a fund to help her was made by the club.

HAD BOILS ALL OVER HIM

There is only one way to get rid of boils and that is by going right to the seat of the trouble—the blood—as the bad blood must be made pure before the boils will disappear.

BURDOCK BLOOD BITTERS

cleanses the system and removes all the foul matter from the blood in a way that few medicines will do.

Mrs. Chas. Rankin, Bulyea, Sask., writes: "A few years ago my husband had a terrible time with boils. On one arm he had 16 between his elbow and wrist; five on the back of his neck, and several more on different parts of his body. He tried everything he could think of, but got no relief until he took Burdock Blood Bitters, and to his surprise it completely relieved him of his boils, in a very short time."

WORK WILL BE DONE AT DUNWELL MINE BY THE PREMIER COMPANY

No Decision as to Purchase Will be Made Until Concern is Satisfied

VICTORIA, April 23.—The crew of men from the Premier Mine, under charge of the assistant manager, Bert Smith, will do considerable work in the mine in addition to taking samples before it is decided whether to purchase the mine or not.

News that the Premier was likely to purchase the Dunwell caused a little flurry in Bear River stocks during the past few days. R. T. Elliott, who is acting as agent for the sale of the property has still nothing to say in regard to the proposed deal.

SWEATERS FOR BOYS' TEAMS

Parent Teachers Agree to Provide Three Sets, One for Each School

A meeting of the Prince Rupert Parent Teachers' Association was held in the Auditorium of the Booth Memorial school last evening at 8 p.m. There was a good attendance of parents and teachers and an interesting meeting was held.

Delegates from the Prince Rupert Football Association addressed the meeting, expressing the desire of that Association to foster the love of outdoor sports among the school boys of this city by forming a Junior League and to ask the aid of the Parent Teacher Association in providing sweaters for the teams of the three schools. The meeting unanimously voted that such financial aid be given and asked the delegation to convey their thanks to the Football Association for their efforts in helping the boys.

Dr. Tremayne, school medical officer, gave a much appreciated address on the medical inspection of schools, the value of a school nurse and a dental clinic and on the prevention and cure of the various diseases, infectious and otherwise, prevalent among children.

Miss K. Jones delighted the audience with her songs which were accompanied by W. Vaughan Davies.

A social half-hour was spent in the sewing room and refreshments were served.

Sport Chat

The football season will open on May 1 with the first game of the Stuart Shield series between the Great War Veterans' Association and the Sons of England it is announced by the Association. The making of further definite arrangements for the season's activities is, however, being delayed by the Association until next week when it will be known whether or not there is to be a fourth team to take the place of the Sons of Canada who have announced that they will not enter into football competition this year.

The Commercial Grads of Edmonton, on their way home from the coast last week, played a game at Kamloops winning over the all-star ladies' team of that city by 32 to 7. Southern papers in describing the game, said the score was not indicative of the play although the Grads gave a finished display and left no doubt as to why they are the world's champions.

ROBERTS INVITED TO ADDRESS CLUBS

President Telegraphs Him to Vancouver Asking Him to be Guest of Honor

W. S. Fisher has telegraphed to Charles G. D. Roberts asking that he address the Canadian Club at a luncheon to be given in his honor Thursday of next week, if he can find it possible to attend. He is coming to lecture at a public gathering in the Booth School auditorium Wednesday evening and it is thought that while here he should be given some recognition officially as one of the greatest Canadian authors. If he accepts the invitation it is understood the Women's Canadian Club will join with the men at the luncheon.

JANET SMITH MURDER CASE

Public Proceedings May be Expected Soon Says Attorney General

That the Janet Smith murder case is still engaging the attention of the authorities and that more will soon be heard of it seems certain from news received in the mail yesterday. The Vancouver Star of Saturday says:

If Wong Foon Sing, missing Chinese houseboy from the R. P. Baker home on Osler Avenue, was kidnapped, as stated in a sensational article published in a weekly paper Friday, the kidnapping took place some time after midnight and the Chinese and his captors, if they crossed the international boundary line, did so early in the morning when to custom or other guards would be on duty in manner described in the article, according to provincial police detectives working on the case.

Descended Stairs

R. P. Baker left his home for a dinner party at the Jericho Club shortly before 7 o'clock on the night in question, and did not return until some time after midnight, according to his statement to the police, so that if four men were in the Baker home when he descended the stairs after his return they must have been admitted or gained entrance during his absence, and the Chinese must still have been at liberty at that time.

Mr. Baker also states that he did descend the stairs to the basement to put the lights out after his return, but does not remember carrying his coat at that time.

He heard no disturbance and saw no signs of intruders at that time, and heard nothing subsequently.

Detectives working on the case made an effort to quiz the writer of the article, but found that he was out of the city over the week-end. An unsuccessful effort was also made to get a copy of the photograph referred to, but without result so far.

M. B. Jackson, K.C., and Hon. A. M. Manson are both in the city today and the former conferred with provincial police officials regarding the latest developments in the case.

Gathering Clues

Monday's Star tells of it this way:

Clues unearthed in the past two weeks by investigators working on the Janet K. Smith case and the mysterious disappearance of Wong Foon Sing, Chinese houseboy, from the R. P. Baker home, who alleges he was the only one in the Osler Avenue house when the Scottish nurse

WHITE GOD IN CANNIBAL LAND

Jackie Coogan has Exciting Experiences at Wanda Islands With Friday

Mickey Hogan's father, a San Francisco policeman, is shot in the performance of his hazardous duties and Mickey (Jackie Coogan) is left an orphan. The boy's mother died in Mickey's infancy, but a sister, Mickey's aunt, living in Australia, proposes to raise the child.

Captain Dynes, of the steamer "Sara Winch," a tramp ship, is Mickey's uncle—brother of the sister in Australia to whom Mickey is to be sent. On board the "Sara Winch," under the unkindly care of Skipper Dynes, Mickey is making his way to his home on the far off Island Continent. The ship is wrecked in a typhoon that strikes the ill-fated vessel off the Wanda group of islands in the South Seas.

A Cannibal Island

All on board are lost, except Mickey, who, like Robinson Crusoe, escapes and is miraculously washed up on the beach of Wanda. The cat, the mascot of the ship, is also saved—and Mickey names him "Friday."

The island is inhabited by a tribe of man-eating savages and by members of a small copra settlement of whites, whose presence on the island has hitherto restrained the blacks from their cannibalistic tendencies.

Cruelties practiced upon members of the tribe by the brutish white overseer of the copra settlement excite an uprising.

The Little White God

Mickey is the innocent cause of this disaster, for the natives think he is a god and misunderstand his speech, which they interpret as encouraging them in their uprising.

Having been the unwitting cause of the impending calamity, Mickey undertakes to save the lives of the whites, and this he does after a series of adventures that thrill and amuse, entertain and astonish, and abound in comedy situations.

Following Mickey's brief career as a white god in a cannibalistic land, is a triumphant return to San Francisco, his home town, where he is restored to the arms of his friend and protector, Capt. MacDavitt, of the San Francisco police, who had been the pal of the boy's gallant father.

That is the story of "Little Robinson Crusoe" to be seen here tomorrow.

SAYS WIFE KISSED BY BILL COLLECTOR AND DAMAGE WERE ASKED

Case Came Before Montreal Court but Judge Thinks Story was Invented

MONTREAL, April 23.—Whether he should award \$495 damages to Charles Knox because the latter alleged that his wife had been kissed three times by a bill collector was the problem set Justice Lane of the Superior court. Knox declared that the defendant, who is 52 years of age, came to his home to collect a bill. But instead of asking for the amount of the bill, said Knox, the defendant seized Mrs. Knox, put his arms around her waist, and although she re-

HER NERVES SO BAD SHE COULD NOT SLEEP

Mrs. Grace Kitchen, St. George, Ont., writes:—"After having a severe attack of pneumonia I was left in a weak and run down condition. My nerves were so bad I could not sleep nights, and in the day time I had terrible fainting spells, caused by my heart being weak. Finally I got so bad I had to take to my bed for weeks at a time, but one day I read about

MILBURN'S HEART AND NERVE PILLS

so decided to try them. After taking one box I felt a slight improvement. I have now taken five boxes, and have gained 35 pounds in weight. I am now more than able to do all my own housework as well as considerable outside work. I cannot recommend Milburn's H. & N. Pills too highly for those suffering as I did."

BETTER THAN RICHES

Under the dome of the Board of Trade in Manchester, England, is this inscription: "A good name is rather to be chosen than riches." The thought is considerably more than mere sentiment. It is good business.

A good name is recognized as the biggest individual asset a business can have. It is the very keystone of modern industry. Business today is done on such a broad scale—every merchant and every manufacturer has such a long list of customers—that it would not do to have a reputation for "slipping something over"

Advertising has standardized almost every article you can buy. You don't have to bargain and dicker and haggle to know that you are getting as good as you give.

That's why it pays to read the advertisements and to buy advertised goods. A product's advertising is the best guarantee of its faithful performance and lasting usefulness or of definite value. The advertiser would not dare risk his good name by advertising an unworthy product.

If you value satisfaction—if you want to get your full money's worth every time—READ THE ADVERTISEMENTS and buy advertised merchandise.

Take advantage of the advertisements and get real value

sisted, kissed her three times. The plaintiff declared his wife was alone at the time except for her two small children.

The court came to the conclusion that the plaintiff's wife had invented the story of the kissing possibly, in the words of the judge, to relieve the financial stringency from which she was suffering by a contemplated contribution from the defendant either by way of a settlement or by a favorable judgment.

FOOD MANUFACTURERS AIM AT BEST QUALITY

Much has been done in recent years by the application of scientific knowledge to food production. It can be definitely stated that food products in general today are of a much higher quality than those of thirty years ago.

This improvement is very true in regard to all the products of wheat. Our daily food, "Bread," represents purity of materials throughout when made by the Electric Window Bakeries.
