ANOTHER DISTRICT INDUSTRY TO RESUME

GOVERNMENT'S ATTITUDE ON HOME BANK RELIEF TO BE DISCLOSED SOON

Buckley Bay Mill Will Open Soon and Ship Lumber to Los Angeles Instead of Square Cants

In future all logs will be completely manufactured to the state of rough green lumber and no more cants will be shipped to the United States from the Massett Timber Co.'s mill at Buckley Bay. Preparations for the re-opening of the big plant in March or April after the recent shutdown of several months are being made. Such was the interesting and important announcement made yesterday afternoon by S. M. Bump, vice-president and general manager of the Los Angeles Lumber Products Co., controlling the Buckley Bay mill, who is making an inspection of the plant preparatory to its reopening. Mr. Bump, together with a party of friends, arrived from the south on the G.T.P. steamer and proceeded almost at once by zashoat to Buckley Bay.

The announcement that the mill is to be reopened in the near future is gratifying but it is made more so by reason of Mr. Bump's statement that the future policy of the company will be to completely manufacture lumber at Buckley Bay instead of shipping cants as has been largely the practice in the past. This will mean that more work with the timber will be done at Buckley Bay than has been the case and the employment of more men will probably be involved.

The mill, since its closedown, has undergone a thorough overhaul and renovation and is now ready to resume operations at short notice. Mr. Bump stated the scale of operations, for the time being at least, would not be increased. With the resumption of lumber cutting, the company's fleet of steam schooners will once again ply between Buckley Bay and California. Recently they have been running between Seattle and the Atlantic seaboard.

Mr. Bump announces that Earl Leat has resigned as president of the Los Angeles Lumber Products Co. and has been succeeded by Dan Murphy of Los Angeles. H. F. Dunning, local manager at Buckley Bay, after spending a vacation in California, has already returned to the Islands. Accompanying Mr. Bump on his trip are E. W. Kent, C. E. Frost and J. Kearnes of Seattle and H. M. Wade and P. Swan of Portland, Oregon. The party will be back in the city on Sunday or Monday and will return south by rail from here.

LEAGUE MAY MEET OTTAWA

Proposal to Have Famous World Court Hold Session in Canada

GENEVA, Feb. 12.—The idea of holding some future assembly of the League of Nations in Canada, presumably in Ottawa, is being quietly broached at Geneva. It was learned last night that the suggestion originated with Herbert Ames, Canadian director of the League's finances and it is said that, if adopted, it will have the hearty support of the Canadian Government and the British Dominions.

EXPLOSION IN GERMAN MINE

Over Thirty Dead and One Hundred Entombed in Collapsed Galleries

DORTMUND, Germany, Feb. 12.—Over thirty are known to be dead and a hundred missing as a result of a violent explosion of fire damp last night in the mine. The force of the impact caused underground galleries to collapse and it is feared that all the entombed men were instantly killed by poisonous gas.

DEER DYING BY THOUSAND

Appeal to Sportsmen of Washington to Send Hay for Alaska Game

SEATTLE, Feb. 12.—Washington state sportsmen were appealed to today by Petersburg, Alaska, commercial club in a cablegram asking for hay with which to feed thousands of dying deer. The message stated that the snow in southeastern Alaska was too deep for the deer to get feed and that they were dying by the thousands.

BUY SUPPLIES IN THIS CITY

Elevator Will as Far as Possible Make Purchases Here is Announced

DREDGE IS DELAYED

Work Being Laid Out Today by Officials of Contracting Firm

Further officers of the Northern Construction Co. arrived from Vancouver on the Prince Rupert yesterday afternoon to make arrangements for the starting of work on the foundation of the elevator here next week.

J. M. Mercer, second vice-president and construction manager, is looking over the ground in order to lay out the work and Alex. D. McLean, the purchasing agent, in making arrangements for the buying of supplies including sand and lumber. In connection with the supplies, William Small, chief engineer of the company, said this morning that, as far as possible, they would be bought here.

There also arrived from the south yesterday, Mack Cameron, who will be in charge of the company's office here.

Mr. Small, Mr. Howe, Mr. Mercer and Mr. McLean will return south tomorrow.

W. C. Arnold's dredging outfit will not reach here until the first of next week, it is now expected. The tugs and the tows were delayed by wind just after leaving Vancouver at the end of last week but are now understood to be proceeding up the coast.

REVERSION TO GOLD STANDARD

British Chancellor Says Government Favors it at Earliest Possible Moment

LONDON, Feb. 12.—Winston Churchill, chancellor of the exchequer, said in the House of Commons today that the British government was fully agreed to reversion to gold standard at the earliest possible moment.

Here is Dazzy Vance, strikeout artist of the Brooklyn baseball team, and picked as the best player of the National League in 1924, having a session with "Blossom" on his farm near Omaha

Artists' Feud Between Maria Jeritsa and Beniamino Gigli Denied but Speculation Rife

NEW YORK, Feb. 12.—While rumors of an artists' feud between Maria Jeritsa, the famous Austrian prima donna, and Beniamino Gigli, the Italian tenor, are denied at the Metropolitan Opera House, theatre goes are discussing incidents which took place recently in the performance of La Tosca and Fedora. Tears of the soprano and unusually violent acting by both singers is commented upon.

Recently, in La Tosca, Gigli threw Jeritsa completely off the stage into the orchestra circle and medical attention was necessary. It was said that the happening was entirely accidental, Gigli having misguaged his strength.

RESIDENT OF CITY DROWNS

Magnus Sigurdson Lost His Life on Skeena River Yesterday Near Oslund

Word was received here last night that Magnus Sigurdson, an old timer and resident of the city, had been accidentally drowned while attempting to cross the Skeena River from Cassiar Cannery to Oslund, Smith Island. The accident occurred early yesterday morning and the body was recovered in a few hours. It was brought to the city today for interment.

The body was picked up on the shore of Smith Island by T. Jonsson at one o'clock yesterday. It was lying on the beach just below tide water. The skull was upturned on a rock. The body was brought on the powerboat Iceland and is in charge of the B.C. Undertakers.

Deceased, who was a salmon fisherman and also worked for the city, leaves a widow and step-son residing at 516 Fifth Avenue East. He was 45 years of age, a native of Iceland and had resided here about twelve years.

Norman Wall, coroner, this morning held an inquiry into the circumstances of the death and found that it was clearly a case of accidental drowning.

Ray Commons of the Royal Bank staff at Burns Lake, who has been on a holiday trip south, has returned to the city on the Prince Rupert yesterday afternoon after a fortnight's trip to Vancouver and Victoria.

Depositors and Shareholders in Defunct Concern Will Know Their Chances Within Few Days

OTTAWA, Feb. 12.—Home Bank depositors and shareholders will know within a few days what their chances are of government reimbursement for their losses occasioned by the bank's failure. Premier King has announced that he will state the government's intentions at the conclusion of the debate on the speech from the throne.

Unofficially, it is understood that there is a good chance of the government recognizing the moral claim in equity which the committee of the House last year gave the depositors after considering Justice McKeown's report.

URGES HIGHER FRUIT DUTIES AGREEMENT IS REACHED

Atlantic Combine Discussed and Proposed Subsidy Remedy of Government

OTTAWA, Feb. 12.—The debate on the address continued yesterday in the House of Commons speeches being made on various subjects by members of all three parties. Dr. B. K. Anderson, Conservative of Halton, urged higher tariff on American fruit commensurate with its price and observed that if the embargo on exported pulp wood resulted in reprisals from the United States, "We have had reprisals before."

A. J. Lewis gave his views on the proposal to subsidize the Peterson line of ships to break the North Atlantic combine. He applauded the idea of government intervention to reduce ocean freight rates but against subsidizing any more steamships. That he argued, was simply asking the whole Canadian people to bear part of the burden of those steamship companies fortunate enough to receive the subsidy.

From the Liberal ranks P. Michaud of Restigouche pleaded the cause of New Brunswick potato growers.

JAP SEAMEN ARE CREMATED

Private Investigation into Cause of Accident Being Made by Admiral

VANCOUVER, Feb. 12.—Remains of the Japanese seamen, who are dead as a result of Saturday night's tragedy, were cremated yesterday afternoon. The ashes will be sent to Tokyo where they will be enshrined.

The departure of the cruisers has been delayed until Saturday morning on account of a private investigation as to the cause of the accident which is being held by vice-admiral Hyakutake and other officers of the Izumo.

SEATTLE DRY SQUAD BUSY

Eight Bars Wracked and Eleven Arrested in Big Raid Staged Last Night

SEATTLE, Feb. 12.—The equipment of eight bars was demolished with axes and eleven men were arrested, charged with violation of the prohibition act, in one of the largest raids staged in many months. A large amount of moonshine was seized, the proceedings of the dry squad all taking place in the downtown section.

MINK WANTED

Goldbloom has received an order for 5,000 mink skins for the East. So, you trappers and fur buyers, fetch your minks to Goldbloom's, the old reliable fur house.

This order must be delivered within two months even if I lose money.

DAILY EDITION

Thursday, Feb. 12, 1925.

Making Demands For Lower Freights.

Acting on behalf of British Columbia, G. G. McGeer, K.C., who is at Ottawa, made demands from the Dominion government for cuts in the shipping freight rates amounting to approximately thirty per cent to bring them in line with the Atlantic demands. He pointed out that if steamship lines were subsidized to bring down the cost of shipping on the Atlantic it would be unfair discrimination against shipping from the Pacific by the Panama Canal, and British Columbia would be paying her share of the subsidy to induce competition with herself.

Take wheat shipments as an instance. If rates on wheat are reduced even ten per cent, that would practically stop shipments going from Prince Rupert unless rates from here to Europe were also reduced the same amount. And we help pay the subsidy which brings about that reduction. We must insist that any subsidies paid on the Atlantic must also apply to Pacific shipments going by the Panama Canal.

Hope Nothing Will Stop Avenue Improvement.

It is to be hoped that the bond holders of the Prince Rupert Club will not now stop the improvement of Second Avenue by voting down the proposal to remove the rock from beneath the club. Even though the city is removing the rock, the cost to the club will be a very considerable sum and there may be objection on the part of the present bondholders. In view of the fact that this work will be of great benefit to the city and especially to Second Avenue, nothing should be allowed to stop the work proceeding. While the club is just as useful to the members located on the top of the rock, a public spirited view of the situation would indicate that it would improve the city a great deal to have the rock removed.

Buckley Bay Mill To Operate Again.

Following a shut down of some months the Buckley Bay mill is to reopen soon and it is announced that henceforth the lumber will be shipped in the form of rough boards instead of large cants as was done last summer. The result will be that more work will be put on it at the mill and more men will be employed. This is a welcome change. There has been some criticism in the past at the action of the company in shipping the big timbers and spending the money on manufacture in the United States. Now this cause for criticism will have been removed.

Newspaper Gives Views On Many Questions.

The opinions seems to obtain in many quarters that the Daily News should not publish news or views except such as are pleasing to its readers. This is absolutely contrary to the views of modern journalism. The newspaper of today is willing to tell about anything new if the information is available and is considered of sufficient interest to the readers. We do not hold ourselves responsible for such views. There is never a day but what some person doubtless does not like something published. If it were otherwise the newspaper would have little interest to the average reader. We shall continue the policy which we have set out to carry through. We expect to give every side a hearing and to make the newspaper as interesting as possible to every one of its readers, be he Liberal, Conservative or Labor, Catholic or Protestant or atheist, old or young. Often we shall fail but the attempt will be continued.

"Liver Trouble so Severe I Had to Quit Work"

Mr. Thomas Honey, Brantford, Ont., writes:
"I was a great sufferer from enlargement of the liver for ten months, and finally I had to quit work. I would wake up in the mornings with a bitter taste in my mouth, had frequent headaches, yellow complexion, and pain in my right side, and between the shoulder blades. It was almost unbearable, and terribly weakening. I could not sleep at night and my heart also bothered me. But the whole trouble has now left me, thanks to that wonderful medicine, Dr. Chase's Kidney-Liver Pills."

Dr. Chase's Kidney-Liver Pills

MINISTER HERE FOR A HOLIDAY

Hon. T. D. Pattullo Sees General Outlook For Province This Year Good

SPEAKS OF ROYALTY ACT
Urges Dealing with Power Question as Means to Ending Troubles

Hon. T. D. Pattullo, minister of lands and local representative for this district, arrived in town yesterday for a short holiday.

Speaking of matters generally, the minister said:

"The general outlook for 1925 is good. Leading men in all parts of the country look for a fair year. British Columbia is peculiarly situated to benefit by any general movement.

"I am glad to see that this northern country and that my home town of Prince Rupert continue to preserve a hopeful spirit of optimism and I would like to compliment the editor of the Daily News on the buoyant, but sane spirit of optimism which characterizes his editorial column. Some people are afflicted with a disease called pessimism and it is astonishing how easily pessimism can become a serious disease. If you tell people that you are sick and broken down and worn out they are very apt to take you at your word and you are not likely to get half the sympathy that you expect. On the other hand, if you make the most of your vigility and strength you will always find somebody ready to help you out.

"I am pleased to see that the city council is struggling with the power question. If Prince Rupert had a large body of cheap power which it could advertise for sale, I think the troubles of the city would soon be over.

Work of Session

"With regard to the work of last session, we got through in gratifying shape. The work was well in hand before the session began, in addition to which, the members showed a splendid spirit of co-operation and collaboration in putting through the business of the House. Many measures of importance were put through, the most important probably being amendments to the Royalty Act. In this regard, the discrimination against the Fort George district, as compared with the Vancouver district, was reduced. Under the old Royalty Act Prince Rupert district was on the same basis as Vancouver. This was manifestly unfair and I am glad to say that the Vancouver timbermen themselves agreed that it was only right and fair that an adjustment should be made."

Mr. Pattullo expects to spend some little time in the north. He is accompanied by his nephew, Neil Pattullo, recently arrived from Aberdeen, Scotland.

VANCOUVER PROVINCE AND PEACE RIVER LINE

Urges That Matter be Approached With an Open Mind But Looks to Western Route

The Vancouver Province, discussing the Peace River outlet says:

The Manitoba Free Press lends welcome aid to the plan for opening up the Peace River, in a sensible editorial declaration that the project is more urgent than the development of eastern waterways; that egress should be by the Pacific coast; and that no new direct line to the coast should be built, or a new deepsea port created.

Not Necessarily P.G.E.

It is on sound ground, too, when it declares that the purchase of the P.G.E. should not necessarily be made a part of the plan. But it is wrong when it holds that the exclusion of that route should be made conditional to the undertaking. Few who know the Peace River country will share the Winnipeg paper's conviction that the Brule cutoff is the only practical outlet for it. "A look at the map," on which its opinions are seemingly founded, and to which it invites its readers, is by no means so conclusive as in the strictly prairie country with which, perhaps, the Free Press is more familiar. The country southwest of Grande Prairie, toward Brule, is not attractive in a farming sense; the district west

and southwest of the same point, is. The use of some of the western passes, should they prove feasible, would give direct relief to the most promising part of the western Peace, and would probably bring the line closer to the great coal measures than the Brule road. It might even be shorter than the latter, if it tapped the C.N.R. not at Fort George, but at a point further east.

In that alternative there is nothing that necessarily involves the acquisition of a part of the P.G.E. But a common development of the territory by the two Canadian railways might make both Fort George and the P.G.E. logical factors in the scheme. If so, they should not be ignored because of some hasty preliminary decision to either adopt one route, or exclude another.

Study Facts

The eventual outlet should be chosen, not by a casual "look at the map," but should be based on engineering and economic facts. Its selection will to some degree be influenced by possible colonization plans of the government, and the degree to which existing lines can be utilized and co-ordinated profitably in those plans. The Free Press, which can contribute so powerfully to a solution, will still further help if it can induce all concerned to approach the question with an open mind.

The Man in the Moon SAYS:-

LIFE is dreary. Weather's bad and the girl has given me the air.

AN intelligent person is one who knows a lot about things that don't matter.

PUBLIC speakers often wonder what they said after they have concluded their orations. They are not sure until they read the newspapers.

THERE are two kinds of skunks. One leaves no doubt of his identity, but the other is difficult to locate.

FOR Sale: Home only two years old, scarcely used. Apply to the head of the House Sunday at noon, promptly, to insure personal interview.

ONCE upon a time there was a city where the people cared more about the health and welfare of the children than they did about making money. It was a fairy tale.

SOME people spend much time in the public service and others spend much time criticizing them for not doing it right.

WHEN a noted Englishwoman was spoken of as "a woman with a serpent's tongue" the idea was that she "listened in" when she should not have done so. It is said that the serpent hears with its tongue.

SOME girls are so careful they won't even play with the joker when it's wild.

THE city council seems to be making some progress. It actually does a little business occasionally.

TORONTO the Good has always been looked on as the shining light of Canadian life. Now some little bit of a New Zealand school teacher has the audacity to say that the people there are ill-mannered, and Toronto feels the sting and is angry.

IT is not a good precedent to have visitors go away and say unkind things about a city. They may visit Prince Rupert some day.

Ten Years Ago in Prince Rupert

February 12, 1915.

There was nearly 200 persons in costume at the Eagles' masquerade ball in the McIntyre Hall last night. On the committee were W. H. Derry, George Leek, W. A. Selig and Mr. Ross.

Reduction in the city hall staff is proposed this year but the council decided at a special meeting last night to defer action until the return of Mayor Newton to the city.

Mrs. Gordon C. Emmerson,

The Gin for You is H. & U.

THE juniper berry, which forms the basis for all good Gin, is extremely valuable in its medicinal qualities. The finest juniper berries the world grows are used to distil Hills & Underwood London Dry Gin, the standard of purity for over 160 years.

Here and There

At the close of Montreal's 1924 season of ocean traffic on December 3, the Harbor Master announced that 1,222 ocean and coasting ships arrived in the port during the year as against 1,114 in 1923 and 1,194 in 1922, the best previous season. It is believed that a new record has also been established in the number of lake vessels visiting the port.

The service operated by the Laurentide Air Service to the gold-fields of Rouyn, Que., which was successfully inaugurated this summer, will be continued during the coming winter. Travellers will make the journey in luxury, closed machines with plush seats and a carrying capacity of six passengers being employed.

Canada stands out to the intending British emigrant as the most attractive of the Dominions, according to General Bramwell Booth, head of the Salvation Army, who has just completed a tour of this country. The army is now considering the establishment in western Canada of a training school for boys who wish to take up farming there.

Another fine new station was made available to the public by the Canadian Pacific Railway when the company's new building at Schreiber, Ont., was opened by H. J. Humphrey, general superintendent of the Algoma district, on December 11. This structure, which replaces the former frame building, is of modern fireproof construction. It will also house the superintendent of the Schreiber division and his staff.

Three times winner of the world's champion wheat prize at the Chicago Live Stock Show, including this year's prize, J. C. Mitchell, Agoma, Alta., sailed for the Old Country on a demonstration tour aboard the Canadian Pacific steamship "Montlaurier" on December 12. Mr. Mitchell states that prize wheat is improving each year and that exhibits which would have won first prize twelve years ago now seldom take higher than fifteenth place.

Within a radius of forty miles from Taber, a small town in the heart of the settled southern district of Alberta, antelopes estimated to number 1,000 are running wild. The prairie antelope was once almost extinct but protective measures put into force have saved the species and present indications are that this splendid game animal may soon increase to an extent rendering an open season possible and adding greatly to Alberta's attraction for sportsmen.

One of the heaviest rushes ever experienced by the Canadian Pacific Railway in connection with its traditional Christmas sailings to the British Isles was experienced this year. A special train from the West to Montreal was required for the accommodation of passengers for the company's steamship, the "Montlaurier," sailing December 12 from St. John, N.B., while one or two specials or extra sections from Montreal to St. John and extra sections on the Imperial, the Canadian Pacific transcontinental, were required daily for steamship passengers during that same week.

After loading one million feet of lumber for the Atlantic coast, C.G.M.M. steamer Canadian Miller, Capt. Boulton, left Swanson Bay at midnight last night for Port Alberni where she will complete cargo.

WAYNE MUNN THREW STANISLAUS ZBYSZKO

Proves that he has Wrestling Ability and Did not Win on Fouls

KANSAS CITY, Feb. 12.—Wayne "Big" Munn last night defeated Stanislaus Zbyszko in two straight falls, removing skepticism as to the ability held by many who claimed he won the heavyweight wrestling championship from Strangler Lewis on fouls.

WIRELESS REPORT

8 a.m.
DIGBY ISLAND.—Clear, calm; barometer, 30.09; temperature, 28; sea smooth; 8 p.m. spoke steamer Anyox towing Grif, Anyox for Ladysmith, 525 miles from Ladysmith.

HARD BOILED

The waitress was very much out of sorts. She sailed haughtily up to the table at which sat the grouchy customer. She slammed down the cutlery, snatched a napkin from a pile and tossed it in front of him. Then, striking a furious pose, she glared at him.
"Whatcha want?" she snapped.
"Couple of eggs," growled the diner.
"How yo want 'em?"
"Just like you."—From Everybody's Magazine for February.

DEBUT OF NEW TROUP ACTORS

Excellent Entertainment Put on at the Booth School to be Repeated Tonight

It is impossible to take a group of ordinary young people and in the course of a few weeks turn them out as finished actors but by close application to their work and the use of ordinary intelligence and good coaching they can be made to produce good results. That is what has taken place in regard to "Pardor Matches" which was produced last night at the Booth School auditorium by a group of local young people under the capable direction of H. H. Little. The play is a comedy in two acts and some of those taking part seemed to the manner born. They played their parts well and doubtless the hall will be crowded tonight, the only opportunity they will have of witnessing it.

Characters

The leading part in the play is taken by Miss May Burgess who as Mrs. Selloun, the head of the Seltoun household, mother of two of the young ladies and given to matchmaking, was really excellent. Her part was an onerous one and she had it thoroughly prepared. Her make up was good and she carried off the somewhat aristocratic pose with the property dignity. Three young ladies, Misses E. M. Harding and F. Altheeson as engaged daughters of Mrs. Selloun and

PRINCE RUPERT HOTEL COMPANY LIMITED, Per: H. B. Rochester, Manager, Applicant.

HER NERVES SO BAD SHE COULD NOT SLEEP.

Mrs. Grace Kitchen, St. George, Ont., writes:—"After having a severe attack of pneumonia I was left in a weak and run down condition. My nerves were so bad I could not sleep nights, and in the day time I had terrible fainting spells, caused by my heart being weak. Finally I got so bad I had to take to my bed for weeks at a time, but one day I read about

MILBURN'S

HEART AND NERVE PILLS so decided to try them. After taking one box I felt a slight improvement. I have now taken five boxes, and have gained 35 pounds in weight. I am now more than able to do all my own housework as well as considerable outside work. I cannot recommend Milburn's H. & N. Pills too highly for those suffering as I did."

Miss Winnie Larson the niece each in turn was worthy of much praise, the singing part by Miss Harding being an outstanding feature. Miss Mary Carter as the maid who used big words and wore exasperating colors was inimitable.

Of the men the part of Jopkes the butler, taken by Ed. Jenner, was an outstanding one. With side whiskers and brass buttons and with a proper dignity combined with a frequent shedding of the letter "h" he caused much amusement. The young men included W. M. Watts as Vance Telford, otherwise Adrian Lee, the movie actor, Bob Barlett as Don Radey and George Mitchell as Ferdinand Poppleton, all eligible young men, and two of them engaged. All carried out their roles with much ability and with accent on the love scenes in which they seemed to be naturally proficient, Miss Irwin prompted and Miss Jean Kier aided with the makeup.

Music and Dances

In the early part of the program the dances by the school children were excellent. Miss Mercer trained two groups, one for folk dances and the other for a Dutch dance with excellent effect and an Indian dance by girls trained by Miss Rivett showed marked ability. An interlude duet was played by Miss Margaret Lancaster and Miss Leone Parker and was much appreciated. J. W. Morrison sang well. Those taking part in the dances were:

Folk dance: Irene Mitchell, Elsie Finley, Rose Wosch, Evelyn Rivett, Doris Robinson, May Ness, Mabel Buchanan and Viola Johnson. Dutch dance: Marion Quinn, Annie Gilchrist, Jean Wilson, Hilda Murray, Kathleen Duncan and Joan Arthur. Indian dance: Paulina Cameron, Nellie Gurvich, Oral Ross, Verna Brochu, Pauline Johnston, Bernice Ross, Alberta Richmond, Erny Zarelli, May Thompson and Enid Williams.

The entertainment was organized by Miss Stewart, principal of Seal Cove school for the piano fund. R. C. Parsons had charge of tickets at the door.

The session of the court of revision on the municipal assessment roll for 1925 resumed this afternoon when the appeal of the C.N.R. railway was proceeded with. There are also a couple of other minor appeals to be dealt with and the adoption of the roll will conclude the business.

MRS. M. A. DUPUIS, Owner and Manager of Haystack Hotel, Applicant.

VICTORIA CRYSTAL GARDEN PROGRESSES

Swimming Tank Almost Completed and Walls of Building Partly up

VICTORIA, Feb. 11. — Rapid progress is being made on the construction of the Crystal Gardens by Messrs. Luney Bros., contractors, and there seems little doubt that the building will be completed in ample time for the official opening on May 24. A force of eighty men is engaged on the work.

The red brick walls have already been erected to a height of eight feet from the ground and in a fortnight's time will have reached the maximum called for in the plans.

Inside the walls the swimming pool is already in existence, not in its finished state, to be sure, but in rough concrete. A lining of pullo, a hard substance resembling Portland cement, will soon be placed over the concrete, and, in three week's time, the first of thousands of glistening white tiles will be laid above the pullo. The tiles are already here, having arrived recently from the East where they were manufactured.

All the steel trusses, columns and girders, and the steel framework for the glass roof, have been brought to the scene by Messrs. Lord & Burnham, the Eastern contractors for this branch of the construction activities. Two of the company's experts for this specialized work have arrived in the city and a start will be made on the erection of the steel supports for the roof. This work will proceed simultaneously with the building of the brick walls. As soon as the supports have been completed the framework for the glass roof will be installed.

The eight-inch wooden pipe for the supply of fresh salt water from the Strait, has not yet arrived in the city and the digging of the trench to receive it from the building along Douglas Street to the sea front has not yet been commenced. As soon as the pipe has reached the city, excavation of the trench will be begun and construction of the pump house on the shore at the end of Douglas Street will be started.

AMATEUR RADIO

The 23,000-ton liner Aorangi, the world's largest motor ship, is the first ship to be fitted with apparatus whereby radio broadcasting can be heard all over the ship. The installation, a ship's orchestra repeater, can be used for music, lectures, concerts, or any other purpose for which simultaneous hearing on all parts of the vessel is desired.

The onerous duties of caring for the country's weal as member of parliament will be greatly lightened for Austrian law makers through the installation of radio in the House of Parliament. The service is to be powerful enough to permit of listening in on London, Berlin, Rome and even New York.

It is predicted that attendance at sessions of parliament will improve greatly, but that the radio room will be much more crowded than the chamber.

KGO program tonight will include the melodramatic farce "Seven Keys to Baldpate" in two acts and selections by the Arion Trio. After ten there will be dance selections.

Dr. Frederick W. Clampett, editorial writer and platform lecturer, will deliver an address at KGO, Saturday evening, February 14. His subject will be "Contentment." The California String Quartet, assisted by Cecil Hanson, harpist, will offer several selections from Mendelssohn, Bach, Tschaiikowsky and Raff. Soloists on the program will include S. Duke Smith, trumpet player, and Winston Petty, cellist.

NEW ROOF NEEDED LIBRARY BUILDING

The library board at a special meeting last evening decided to place in the estimates for the year a sum sufficient to cover the cost of a new iron roof on the building. The roof is leaking

The Iron Pots of Gondricourt
JUST after daybreak a traveler along the narrow byways of a small French village can see the housewife beginning her day. Through the open doorway her fireplace glows like a forge. A heavy iron pot, which she has filled with water from the town pump, is lifted and swung upon the crane. At the other end of the village, perhaps, runs the little stream where she washes her family's clothes upon the rocks. Throughout the village life of much of Europe, such pictures are multiplied by thousands. Quaint, to be sure, but what grinding and incessant toil these primitive household arrangements mean! In contrast to this, even the remote districts of Canada boast comfort unknown to the rural life of other countries. Conveniences are found that could not be duplicated in any save the wealthiest city homes of foreign nations. Adequate heating systems, the farm lighting plant, the washing machine, the vacuum cleaner, the telephone and numberless labor-saving devices have lifted modern life in Canada to unprecedented levels of comfort and ease. To a large measure this has been due to advertising. Advertising has familiarized all of us with new inventions. Advertising has made possible the wide distribution of new products. By increasing sales, advertising has reduced the price of modern household utilities to the reach of the modest purse. By reading advertisements we keep abreast of modern progress

HIGHER TEA PRICES EXPECTED ANY DAY
The estimated increase in the consumption of tea in 1924 over 1923 has amounted to over 39 million pounds. An increase in production of only seventeen million pounds during the same period has resulted in tea prices advancing in primary markets from ten to fourteen cents per pound since last summer. The price to the consumer today is on the basis of much lower primary costs, so a general increase to tea drinkers is inevitable in the near future.

VANDERHOOF
Vanderhoof is still considering the matter of incorporation as a village and George Ogston, secretary of the Board of Trade, is in communication with municipalities of such a class in the province on the subject. The Vanderhoof creamery is in a bad financial condition and has been running behind but steps are being taken to put the institution on a sounder financial basis.

At the Presbyterian Manse last Saturday, Rev. E. B. Arrol officiating, the marriage took place of Herman Arthur Kelley of Longworth and Evelyn Grace Rhindress of Mapes. T. P. Calhoun has returned from Prince George where he was called on account of the serious illness of his elder daughter who is now recovering. Advertise in the Daily News.

RATTLESNAKE'S TONGUE IS ALSO ITS EAR SAYS LOS ANGELES SCIENTIST

LOS ANGELES, Feb. 12.—The original antenna for radio, according to Jack Allman, Los Angeles curator of reptiles, was the rattlesnake's tongue. "When a rattlesnake is dormant or sleeping," Mr. Allman said recently, "its tongue is idle. But when aroused it starts shooting that forked tongue from its mouth and seems to both feel and hear through it. I have seen rattlesnakes appear as though uninformed of my approach when their tongues were not moving back and forth from their mouths, but the moment they became conscious of it the tongues started. Rattlesnakes have no ears, but those little tentacles on the end of the tongue serve the purpose."

LOGANBERRY JIM IS OFF TO LOOK FOR MINE

SEATTLE, Wash., Feb. 12.—Staking his faith on a map por-

HAD BOILS ALL OVER HIM

There is only one way to get rid of boils and that is by going right to the seat of the trouble—the blood—as the bad blood must be made pure before the boils will disappear.

BURDOCK BLOOD BITTERS

cleanses the system and removes all the foul matter from the blood in a way that few medicines will do. Mrs. Chas. Rankin, Bulyea, Sask., writes: "A few years ago my husband had a terrible time with boils. On one arm he had 16 between his elbow and wrist; five on the back of his neck, and several more on different parts of his body. He tried everything he could think of, but got no relief until he took Burdock Blood Bitters, and to his surprise it completely relieved him of his boils, in a very short time." B.B.B. has been on the market for the past 46 years; be sure you get it when you ask for it; put up only by The T. Wilburn Co., Limited, Toronto, Ont.

traying the location of an Arctic bonanza James Townsend Fullerton, former mayor of Port Townsend, Wash., and the founder of a loganberry industry on the Olympic Peninsula of Washington, is to make a search with a friend in April for a rich mine in Alaska. The mine was discovered and mapped many years ago by a prospector who died suddenly after bringing out 282 pounds of nuggets, said Mr. Fullerton.

HERE IS THE COST OF A GIRL'S BOBBING

The Winnipeg Free Press has been estimating the cost of hair bobbing. The difficulty is that Winnipeg is very close to the cent bell and prices there do not obtain in this part of the world where any manipulating of the base coin is frowned upon. Here are the Winnipeg figures: Bob \$ 1.50 Haircut (1 a month for 12 months at 50c 6.00 Marcel (1 a month for 12 months at \$1.00) 12.00 Explaining how little trouble short hair is (1 hour a day for 365 days at 10c an hour) 36.50 Hair curlers bought in experimental moods 4.21 Time wasted in business hours telling friends how convenient short hair is (20 min. a day for 200 days at 2c a minute) 80.00 \$140.24

PRESENTATION MADE TO MILTON GILLIS ON OCCASION OF BIRTHDAY

Members of the Trail Rangers last night invaded the home of Mr. and Mrs. J. J. Gillis, Seventh Ave. West, to surprise one of their members, Milton Gillis, on the occasion of his birthday. The evening was spent in games and music and a splendid repast was served. At the conclusion Milton was presented with a fountain pen as a birthday gift.

BREAD KEEPS FRESH FOR OVER A YEAR

PULLY, Switzerland, Feb. 12.—Jean Matti, a baker of this village, claims to have discovered a method of keeping bread fresh for two years. After bread has been baked in the ordinary way, Matti merely puts it again into an oven which has a temperature of 104 degrees Fahrenheit. Experts who have investigated Matti's bread say that specimens which he turned over to them 11 months ago are still fresh and edible.

CANADA EMERGING INTO REAL NATION

Says the Winnipeg Free Press: The halibut treaty between Canada and the United States having been filed at Geneva by Canada in keeping with her obligations as a member of the League of Nations, an analogy is sought to be drawn by cable

WESTHOLME THEATRE

Tonight Only, 7 and 9 p.m.

TOM MIX

—in—
"The Last of the Duanes"
Tom and Tony in a screen presentation of Zane Grey's gripping story of the vast, open spaces. A tale of the Texas Rangers in the flaming West when life hung on a hair trigger. During adventures west of the Great Divide mingled with sweet romance. Breathless escapades in a country where to flirt with a married lady was not dangerous—but suicide. Hard riding, swift shooting, outlaws, Texas Rangers, a dashing hero and his wonder horse. Strong cast: Tom Mix, Marian Nixon, Brindsley Shaw, Frank Nelson, Harry Lonsdale, Lucy Beaumont, and others.

MACK SENNETT COMEDY—"PICKING PEACHES."
TOPICS OF THE DAY. Admission 35c and 10c.
