CROW'S NEST PASS RATES ARE TO REMAIN

SO MUCH HALIBUT OFFERED FOR SALE TO-DAY, MARKET IS DEMORILIZED

Parliament is Supreme in the Setting of Railway Rates says Privy Council Appeal Judgment

OTTAWA, Feb. 26.—The appeal against the action of the board of Railway Commissioners in ignoring the Crow's Nest Pass rates set by the Parliament of Canada has been won. It indicates that specific acts of parliament cannot be set aside by commissions, although such a commission may be given very wide powers.

SUPPLY OF ORE FOR TEN YEARS

What is What Wall Street Journal Says of Anyox Copper Mines

NEW YORK, Feb. 26.—On the reserves alone the Anyox property of the Granby company has an assured life of ten years according to an estimate of the position of that company published in the Wall Street Journal.

In addition Granby is the owner of the Copper Mountain property in Southern British Columbia, a coal mine at Cassidy on Vancouver Island and modern equipment at its centres of operation that places it in a position to earn dividends soon. It is just beginning to derive benefit from the building program commenced two years ago.

FROM MANSION TO APARTMENT

Daughter of John D. Rockefeller, Jr. to Marry Humble New York Lawyer

NEW YORK, Feb. 26.—One of the world's richest girls will step from her parents' mansion into the modest and small apartment of a young lawyer when Miss Abby Rockefeller, only daughter of John D. Rockefeller, Jr. is married next May to David Milson. They announce that, after marriage, their standard of living will be set not by the millions of the bride's parents but by the comparatively small salary of the groom.

FIREMEN BURNED ON STEAMSHIP ALASKA

Caught in Steam Cloud as Vessel Was Shifting Her Position in Seattle Harbor

SEATTLE, Feb. 26.—Caught in a steam cloud which filled the engine room on the passenger steamer Alaska yesterday as she was shifting her position in the harbor, three firemen were seriously burned, two probably fatally.

JAPANESE TRAINING VESSEL IS LOST AND TEN OF CREW DROWN

TOKYO, Feb. 26.—The Ossima, a Japanese training ship was wrecked off Izu peninsula on Tuesday and it is reported that ten members of the ship's company including the captain of the vessel were lost.

Legislative Library, Parliament Buildings, Mar. 31

HOUSES ROCKED IN ALASKA AGAIN EARTHQUAKE SHOCK

CORDOVA, Feb. 26.—Several earthquake shocks have been reported here and in other parts of Alaska during the past 48 hours. The most severe shock recorded locally rocked the buildings here yesterday. The steamship Alameda jarred as she entered the harbor. Tides were reported abnormally high at Anchorage.

KILLS GIRL AND SUICIDES

Lover's Quarrel in Manitoba ends Tragically—Miss Marguerite Anderson and J. Wallis Dead

WINNIPEG, Feb. 26.—A lover's quarrel, broken engagement and attempt at reconciliation resulted in the killing of Miss Marguerite Anderson, young school teacher in a school house at Westwood, Manitoba. J. Wallis, who allegedly killed the girl, used the same gun to commit suicide. The tragedy occurred a few minutes after Miss Anderson had dismissed her class for the day on Wednesday.

GET LEASE FOR COAL AND FEED WHARVES HERE

Applications of P.R. Feed Co. and Consumer's Coal Accepted

Thomas Trotter, manager of the Prince Rupert Feed Co. has received word that his application for a site for a wharf has been accepted. The concern gets two hundred feet on the waterfront next the Imperial Oil property and on this he will build a wharf at once for the coal business of the Edison Coal Company which they represent. Mr. Trotter says they will build at once and in the fall will put in a mill for crushing feed grain.

The Consumers Coal Co. also has a lease alongside and adjoining the lease to the P. Burns Co. and as soon as these are signed up it is understood they will also build a dock.

WAS ON ROCKS

The Canadian halibut schooner Verna, Capt. P. Thompson, arrived in port this morning with a short catch of 1,000 pounds after having run on the rocks down the coast. The vessel is to go into dry dock for repairs.

Leading in the first stages of the fight to save Floyd Collins, the explorer, trapped in Sand Cave, Cave City, Kentucky, were his father, Lee Collins, left, and his brother Marshall Collins, right

Twenty Thousand Miners Rush to Gold Mines of Siberia and Soviet Closes Camp to Others

SEATTLE, Feb. 26.—Twenty thousand miners rushed to the scene of a gold discovery in southeastern Siberia on the head waters of the Alton River, according to Olaf Swenson, president of the wholesale fur company, who is here from Vladivostok.

Owing to the great excitement throughout Russia over the discovery the Soviet government has closed the camp and no additional prospectors are being permitted to enter the district, said Swenson.

HAYWARD MILL IS TO RESUME

Second Plant at Usk to Cut Lumber This Summer States G. E. Hayward of Edmonton

The Canada Products sawmill at Usk is to resume operations this summer stated G. E. Hayward of Edmonton, head of the Hayward Lumber Co. operating the plant, who was in the city yesterday afternoon. Mr. Hayward arrived from Vancouver on the steamer Prince Rupert and proceeded East by train. He is stopping off at Usk enroute to Edmonton.

Mr. Hayward stated that, when operations are resumed at the Usk mill, it will be on the basis of 40,000 feet daily. The plant was acquired by the Hayward Lumber Co. last year and during the fall one million feet was cut. This was shipped to the prairies. The mill only had one boiler running then and was cutting 25,000 feet. With the operation of a second boiler, the production will be increased to 40,000 feet daily. Mr. Hayward agrees that the establishment of waterborne shipments for export through this port will be the practical solution of problems that will lead to the permanent operation of his as well as other mills in the interior. Present meek connections hardly warrant the operation of these plants he thinks. Mr. Hayward is hopeful that shipping through this port will be developed this year with the operation of the Seal Cove mill here.

Capt. Fred Dorin of the Salvation Army left on last night's train for Prince George.

No Disposal Yet Made of Half Million Pounds of Fish on Exchange

There is a glut on the local halibut market today. As a result, bidding on the exchange this morning was very listless. The buyers spent the entire morning at their desks apparently not anxious whether they bought or not. The consequence was that when noon arrived none of the catches offering had been disposed of. The exchange reopened at 2 o'clock this afternoon with the situation standing thus.

There are nineteen boats in with a total of 493,000 pounds and more are arriving. The catches listed on the Exchange this morning were as follows:

- American**
- Hazel H. 14,000 pounds; Allen, 70,000 pounds; Majestic, 49,000 pounds; Akulan, 42,000 pounds; Pioneer, 50,000 pounds; Rainier, 50,000 pounds; Sentinel, 22,000 pounds; Daly, 23,000 pounds; Chancellor, 13,000 pounds; Thelma H. 14,000 pounds; J. P. Todd H. 14,000 pounds; Democrat, 24,000 pounds; Resolute, 68,000 pounds; Pelican, 13,000 pounds.
- Canadian**
- Eagle, 5,500 pounds; D.S.T., 4,500 pounds; Cape Swain, 9,000 pounds; Johanna, 10,000 pounds; Verna, 4,000 pounds.

VOYAGEUR IS COMING HERE

C.G.M.M. Vessel Expected in Port on Sunday to Undergo Overhaul at Dry Dock

C.G.M.M. steamer Canadian Voyager will leave Vancouver tonight and is due here about Sunday to enter the local dry dock for overhaul. The job, it is expected, will take about a week's time. W. E. Baillie, chief engineer of the steamer Prince Rupert, will supervise the work on behalf of the company. He will stop off here when his ship returns from Anyox and Stewart tomorrow morning and his place is being taken by C. F. Davis, chief engineer of the Prince John.

This will be the first call here of the Canadian Voyager which is a vessel about the same size as the Canadian Volunteer which is well known in the port. She was built in Montreal in 1918 and has been in service on the Atlantic coast.

HEAVY SNOWS IN INTERIOR

Prevent Public Works Being Done — Working on Telkwa Bridge, Engineer Reports

On account of heavy snows there is little public work of any extent going on in the interior at the present time with the exception of the building of the new bridge across the Telkwa River near the railway bridge at Telkwa, states G. C. McKay, district public works engineer, who returned to town on last night's train from Burns Lake where he landed over Omameca district from his jurisdiction to that of Arthur Dixon, district engineer with headquarters at Prince George. In the past, part of Omameca district has come under the local public works office. Now it is all controlled from Prince George.

The work being done on the Telkwa bridge at the present time consists of the putting in of concrete piers, Mr. McKay reports.

Gripping is being taken out over the snow at Hazelton for road work that will be done in the spring.

ROAD ON ISLAND

The public works department is getting its program for the year lined up now but the extent of the work to be done will depend on the money that is appropriated at Victoria. Mr. McKay hopes to get a large appropriation for the Kaien Island highway this year so that it may be put in good enough shape to travel over by fall to Galloway Rapids.

NOT ON ROCKS

The American halibut schooner Allen, reported yesterday to have been on the rocks, came into port last night. Her captain states that the delay in reaching here was due to engine pump trouble.

KING GEORGE MUCH BETTER

Their Majesties Will Travel Overland to Mediterranean — to Stay Until End of April

LONDON, Feb. 26.—King George is progressing favorably toward recovery. Their Majesties now plan to travel overland to the Mediterranean where the King is going to recuperate. This will be in order to avoid the roughness of the Bay of Biscay. They will probably not return to England before the last of April.

AMERICAN SURVEY VESSELS FOR NORTH

SEATTLE, Feb. 26.—Preparatory to the summer's work in the North, the United States coast and geodetic survey will send several vessels north in the near future. The Explorer will leave on March 15 by way of the inside passage to remove submarine obstacles in Chatham Straits. The Surveyor will sail north on March 20, going to Sitka and Cape Ommaney, and later to Cape Spencer. The motorship Natoma, brought from San Francisco to handle the work at Kaigami Strait near Cape Muzon, will go north the latter part of March. The Discoverer will proceed to Shumagin Islands in March and the Pioneer will go to False Pass.

Death Occurred on Tuesday of Mrs. Frank Jackson from Blood Poisoning

STEWART, Feb. 26.—Mrs. Frank Jackson died here on Tuesday of blood poisoning. The funeral took place at 2 o'clock this afternoon.

DAILY EDITION

Thursday, Feb. 26, 1925.

All Get Trouble

Passing Through Mountains.

All the railway lines have trouble passing through or alongside mountains. This year we have been having delayed trains on the Canadian National but yesterday we read of trouble on the C.P.R. and we know of many delays of which no one ever read except possibly officials of the line. The American lines also have their troubles at certain seasons of the year. When there are heavy snows and rapid thaws, snow is bound to come down and interfere with traffic occasionally, and this line gets as little as any. Most of the troubles are along the banks of the Skeena River where the mountains are very steep and it seems almost impossible to avoid a tieup now and then.

Would You Like To Be An Oriental

No white person wants to be an Oriental, wonderful as are some of the races of Asia. Yet any person is so classed who does not vote. The only way to be sure of getting a vote is to see that the name is placed on the list. Just now the provincial list is being made up and all those who did not vote at the last provincial election will have their names taken off. Any such who wish to have the name retained on the list must register again.

It was noticed that Prince Rupert did not vote as large a proportion as in some constituencies. This is the time to act. A person registering now is sure to be qualified for a provincial election, whenever it may take place and probably for a Dominion election as the provincial list is usually used.

Support Program Of Good Roads.

Prince Rupert people will be ready to back up the program of good roads outlined by Hon. Dr. Sutherland. The gasoline tax was imposed for the special purpose of building and improving the roads of the province. Of this Prince Rupert is now getting her share. The road is to be built to Galloway Rapids and already the slashing on this section has been completed and the other work will proceed, we are told, just as soon as weather conditions permit.

In the past our objection to spending money on roads has been that none was being spent here. The argument no longer holds good and we are wholeheartedly with the scheme, not only to improve the main highways in the south but also to complete the connection between Alberta and the Pacific Coast through British Columbia. Later we shall hope to have a road built through the northern part of the country connecting with Edmonton and Jasper. It is a difficult work and it will take some time to complete but undoubtedly will have to go through.

Variety Needed In Winter Sports.

There is plenty to do in Prince Rupert in the winter. The winter is the time when people are apt to go to seed from lack of proper exercise and recreation.

During the winter just closing there has been little doing here in the way of sport except basketball, badminton and billiards. Each of these is very interesting and helpful in its way but only a hundred or two players have taken part. The mass of the people have done nothing but mope or read.

Action is necessary to life. We must be doing things else we die of inanition. Athletic sports are a means of keeping fit, yet there is little sport here in the winter when it is needed most. Mention of this is made just now in the hope that by next winter some effort will be made to put in swimming baths, gymnasium or some other means of exercising and that many who have moped the present winter away will be induced to arouse themselves and take a real interest in the welfare of their bodies.

"Nerves in Bad State Could Not Sleep"

Mrs. H. N. Tardell, Harrowsmith, Ont., writes:

"My nerves were in a very bad state, and for nearly six months I did not know what it was to have a good night's rest. I could not eat, and never felt well. I heard about Dr. Chase's Nerve Food, and thought I would try it. After taking it for a few days I began to feel better, and soon was able to sleep well at night. My appetite also returned, and I felt stronger and better, and after taking three boxes of Dr. Chase's Nerve Food I was quite well. I have also given the Nerve Food to my little girl, with good results."

Dr. Chase's Nerve Food
60 cts. a box of 60 pills, Edmondson, Bates & Co., Ltd., Toronto

Famous Duthie Mines, Smithers, Still Lying Idle Because of Failure to Settle a Dispute

(Ninth of Series of Articles on Mining in Bulkley Valley, based on Smithers Board of Trade Report)

No intimation has yet been given as to whether a settlement has been arrived at between J. F. Duthie and the Federal Mining and Smelting Co. in regard to the operation of the mines on Hudson Bay Mountain, near Smithers, on which there is a peculiar joint control. The work on the mines stopped suddenly last June at a time when all operations of the Federal Company were closed in the district. Since that nothing has been heard from them although there have been a number of rumors current.

Telling of these mines, L. S. McGill, in his report prepared for the Smithers Board of Trade says they are situated on the southwest slope of the mountain about sixteen miles from Smithers. These consist of twenty-four claims in all, including the Mamie, the Henderson, and the White Swan properties, as well as a number of claims on which little or no development has yet taken place. The vicinity was prospected some twenty years ago and a number of locations made. Individual prospectors struggled along for many years endeavoring to open up their claims. But without assistance from outside capital little progress was made until November, 1921, when J. F. Duthie of Seattle took the Mamie under bond from the owner, J. A. Aldrich of Smithers.

Mamie

Here a well-defined vein from four to eight feet in width had been proven on the surface by open cuts and stripping, for a distance of 1,500 feet. Important values in silver and gold were found. A shaft was sunk on the vein. This was followed by the driving by J. R. Turner, Duthie's engineer, of a drift tunnel for a distance of 170 feet, and sinking from this tunnel. Satisfied by the result of this that there was a good body of milling ore, Mr. Turner made a start at driving a 900 foot tunnel from the gorge of Henderson Creek to cut the vein at 350 feet of depth. Later this plan was abandoned in favor of a shorter tunnel to reach the vein 150 feet below the drift tunnel. In May, 1924, this work was completed with satisfactory results.

Henderson

In June, 1922, Mr. Duthie added to his holdings by taking an option on the Henderson Claim from the owners, the Ashman brothers. Although located in 1905, practically nothing had been done on any of the veins to be seen on the property until Duthie took hold. Then Mr. Turner commenced an aggressive development on a silver-lead vein to which little attention had been paid by the prospectors. The results achieved were phenomenal. The vein was established for 1400 feet in length, three main drift tunnels were driven, and high grade ore found in quantity in all three. The ore bodies range from one to sixty inches in width, sixteen inches being a fair average. Ruby silver, native silver, and grey copper are found in several places. Permanent buildings were constructed, a compressor and power plant installed, and hand-sorted ores hauled to the railway at Smithers and shipped from there. A new road was built in 1923 from the mine to Smithers, partly at the expense of the government, partly by Mr. Duthie. The claim was paid for out of the first year's shipments. Up to the end of 1923 approximately 1,000 tons of ore had been shipped, reputed to average \$175 per ton through-out.

In July, 1923, a controlling interest in the properties was acquired by the Federal Mining & Smelting Company, allied to the Guggenheim interests. All of Duthie's holdings on Hudson Bay Mountain were turned over to Duthie Mines Limited, a new company in which the Federal Company hold 55 per cent of the stock. In June, 1924, operation was stopped, since when the mine has been under the care of a watchman. It is said that differences of opinion between the owners resulted in the closure. No announcement has yet been made as to when the mining and shipment of the large body of high grade ore now in sight on the Henderson claim will be resumed.

White Swan

Another of the properties which was bonded to the Duthie Mines is the White Swan Group, taken over by Duthie in September, 1922, from Hanna & Charlton. Since being taken up very little work has been done, attention being concentrated on the Mamie and the Henderson. There are several showings, two principal veins—the White Swan and the Dome—being opened up. The values in these are in silver and lead and the work done consists of some open cuts, stripping of the vein, shafts, and three short tunnels.

Ten Years Ago in Prince Rupert

February 26, 1915.

The following will take part in the send-off program at the Exhibition Hall tonight to Prince Rupert's second overseas contingent: Acting Mayor G. W. Kerr, address; Rev. W. E. Collison, address; Principal Brady, recitation; Miss Elsie Nauman, song; the Bailey sisters, Spanish dance; Rev. J. H. Dimmick, address; Mrs. Birch, recitation; Mr. Scott, solo; Canon Rix, address; Miss Beatrice Killen, Highland Fling. Capt. W. Barrett Clayton will be called upon to reply on behalf of the contingent.

Amid a great concourse of Indians among whom he had served for thirty years, the late Rev. R. H. Gurd was laid to rest at Metlakalla yesterday afternoon. Many friends of the late missionary's family went over from Prince Rupert in the launches Northern Cross, Evelyn and Laura F. Rev. Archdeacon Collison, Rev. W. E. Collison, Canon G. A. Rix and Rev. W. S. A. Larrier conducted the service.

George R. Naden was the speaker at the monthly Board of Trade luncheon on the steamer Prince George yesterday afternoon. His subject was "Boards of Trade and their Development." President D. G. Stewart presided.

The Man in the Moon

POETRY and other guff!
I wonder how they read the stuff,
But here is nothing more than rhyme
You may peruse at any time.

A GENIAL old chief of police,
As a joke once greeted his niece
For patting his pants
With a quilt of her aunt's
Which, he said, was a breach of the piece.

A NUMBER of Prince Rupert people are in a seagily business. They deal in fish.

THE moon may not affect the tide, but usually the honeymoon affects the tie.

AT the church banquet the other night the chairman intimated that with the exception of

HAD BOILS ALL OVER HIM

There is only one way to get rid of boils and that is by going right to the seat of the trouble—the blood—as the bad blood must be made pure before the boils will disappear.

BURDOCK BLOOD BITTERS

cleanses the system and removes all the foul matter from the blood in a way that few medicines will do.
Mrs. Chas. Rankin, Eulyea, Sask., writes:—"A few years ago my husband had a terrible time with boils, on one arm he had 16 between his elbow and wrist; five on the back of his neck, and several more on different parts of his body. He tried everything he could think of, but got no relief until he took Burdock Blood Bitters, and to his surprise it completely relieved him of his boils, in a very short time."

B.B.B. has been on the market for the past 46 years; be sure you get it when you ask for it, put up only by The T. Millburn Co., Limited, Toronto, Ont.

The most popular men and women!

THEY are the ones who take care of themselves—healthy, attractive people.

They are constantly moving upwards, making new friendships, holding old ones. Everybody seems to like them.

And nothing is so attractive as personal cleanliness. That's why Lifebuoy Health Soap is today used by all classes of people, the world over. Its liberal, creamy lather contains a gentle antiseptic quality which penetrates into every pore, and leaves the skin purified and refreshed—glowing with health. Lifebuoy goes right to the root of "body odours"—and removes them. The wholesome odour of Lifebuoy vanishes quickly after using.

Buy one cake of this wonderful health soap, use it, and then you'll know why it's getting more and more popular every day. There's something about Lifebuoy that you can't resist!

Here and There

He tried to cross the railroad track, Before the rushing train; They put the pieces in a sack, But couldn't find the brain!

One hundred British farm families are due to reach British Columbia early next spring. These are the fore-runners of 3,000 families that are to come out to settle in Canada on the land. Provincial and British Government assistance is being given them to get started.

A remarkable statue modelled entirely in ice is to be seen at Quebec. It represents one of the latest or 2300-type locomotives of the Canadian Pacific Railway, about one-fourth full size and is perfect in every detail. Ice statuary has been brought to a fine art in the Ancient Capital.

Skaters from New York, Boston, Montreal, Toronto and Ottawa will compete with Quebec champions in a great international amateur figure skating contest, to be held in Quebec city February 23-24, for handsome trophies and medals donated by the Frontenac Winter Sports Clubs. A record attendance of spectators is expected.

Skiing parties over the week-end are being conducted by the Laurentian Winter Club in different points in the Laurentian Mountains, the tours being superintended by a competent skier. To those remaining in Montreal the big six-chute toboggan slide on Mount Royal has an added attraction in toboggan races every Saturday, winners receiving prizes.

That Canada is on the verge of a trade boom which may last until the end of this year was the statement made in Toronto recently by Richard Conway, Vice-President of the Brookmire Forecasting Service of New York. The main factor responsible for the upswing of Canadian business, he said, is the opening of the foreign markets to the grains of the past year.

Federal control of United States railroads, adopted as a war measure during the period December 31, 1917, February 29, 1920, cost the country \$1,674,500,000, of which \$1,123,500,000 was total loss, \$538,000,000 estimated expenses and \$15,000,000 was required to reimburse small deficit roads, according to James C. Davis, Director General of Railroads, who has just submitted his annual report.

Remarkable absence of timidity is being shown by wild animals in the neighborhood of Banff, Alberta, it is reported, as a result of kindly treatment. Heavy snows recently brought elk and deer into the main part of the town, where a parade by these animals is not an uncommon sight. They make the rounds of the houses, looking for tit-bits, which are not denied them. One big elk, with a magnificent set of antlers, is as regular on his schedule of calls as the milkman.

The most recent addition to the Canadian Pacific Railway's British Columbia fleet of 28 passenger ships, freighters, barges, ferries and tugs is the British Admiralty Rescue type tug, "St. Florence," which will leave Glasgow at an early date to make the 8,500 mile journey to Victoria under her own steam via the Panama Canal. She will be one of the largest towing tugs in Pacific coast waters and is capable of towing the biggest liners making use of ports in that ocean.

Mr. and Mrs. J. Field Strang arrived from Vancouver on the Prince Rupert yesterday afternoon enroute to Sunnyside.

Mrs. W. J. Smith arrived from Vancouver on the Prince Rupert yesterday afternoon to join her husband who is engaged as a millwright at the Seal Cove saw-mill.

Mrs. Everett Nixon arrived from Vancouver on the Prince Rupert yesterday afternoon to visit her daughter, Mrs. S. W. Taylor, Graham Avenue.

Stanley A. Griffiths, son of Capt. Griffiths, head of the Coastwise Steamship & Barge Co., arrived from Seattle on the Prince Rupert yesterday afternoon enroute to Anyox.

Miss Eleanor Peck, who has discontinued training for a nurse in the local hospital, is to sail on the Prince Rupert tomorrow morning for Vancouver where she will join her mother, Mrs. Hal Peck.

Gilbert Campbell, who was head sawyer here when the Emerson interests operated the sawmill at Seal Cove, is expected to return to the city to resume that position under the new management.

James H. Blake, mechanical engineer for the Forest Branch arrived from Victoria on the Prince Rupert yesterday afternoon, his visit here being in connection with the construction of a cruiser for the department at the local dry dock.

George Clothier, resident mining engineer, expects to leave next week for Victoria where he will turn in his annual report on the mining situation in this district. He will spend several weeks in the capital and will be accompanied by Mrs. Clothier.

Art Easson, who has been transferred to Vancouver in the service of the Royal Bank, expects to leave for the south about March 15. He will be succeeded as accountant in the local branch of the bank by David S. Barlow, assistant accountant in the Robson Street branch, Vancouver.

The City of Prince Rupert have for immediate sale a limited number of trees including Lilacs, Laburnums, Mountain Ash, Horse Chestnut, Planes, Hollies, Beeches and Broom. Property holders wishing to purchase will kindly make application to the office of the City Engineer where prices and full particulars are available.

Local and Personal

In the current issue of "McLean's Magazine" is a eulogistic article on the work and capabilities of Sir Henry Thornton, president of the Canadian National Railways, from the pen of John Nelson of Vancouver. It deals with the question of whether or not Canada shall re-engage Sir Henry when the three year term of his probation as head of the railway system expires in October this year.

IMPRESSIONS OF THE EAST

W. E. Williams Tells Gyros About Recent Trip to New York and Other Cities

That a spirit of hero-worship inherent in the American people was a factor that was responsible for the accomplishment of miracles by those peoples was one of the impressions gained by W. E. Williams on his recent trip east he told the Gyro Club in an address delivered last night.

Mr. Williams whose address was on "Impressions Gained in the East," also dealt with the city of Montreal and Ottawa in a humorous vein. He described in an interesting manner how he had spent New Year's Eve in the former city.

It was the regular monthly open meeting of the club and there were present the following guests: F. E. Robertson, Harry Birch, W. E. Williams, Alex. Rix, Jack Barnsley, and J. J. Muldoon of Prince Rupert; G. E. Hayward of Edmonton; Capt.

MISS JUDITH LAMBLY AND WILLIAM STEPHEN MARRIED YESTERDAY

A quiet but interesting wedding was solemnized at the Presbyterian Manse at 6 o'clock last night when Miss Judith Lambly, daughter of Mr. and Mrs. R. E. Lambly, Lewis Island, was united in marriage to William Stephen, son of Mrs. P. Stephen, Third Avenue West, Rev. Dr. J. R. Grant officiating.

EGG PRICES ON DECLINE

Spinach Arriving and Good California Cabbage — Potato Market Uncertain — Oranges Firm

Egg prices are down this week. Shipments to the East have ceased and, consequently, the local British Columbia market is absorbing all supplies.

Table of egg prices: Butter (Brookfield, Shamrock, Woodland, etc.), Lard (Pure, Compound), Cheese (Alberta solids, Ontario solids, etc.), Eggs (B.C. Fresh Pullets, B.C. Fresh Firsts, etc.), Vegetables (Green Peppers, Sweet Potatoes, etc.).

CANADA'S NEW LINK WITH ALASKA

It is not many years since Alaska was one of those countries whose geographical location was indicated with a grandiloquent sweep of the arm northwards. It has always been a land of mystery, romance and adventure.

Some of the scenes along this magnificent sea voyage are shown in the photographs: (1) A view of Skagway, Alaska, where visitors will be given ample time to see this famous town and also to visit White Horse and the Atlin Lake district.

possessing many associations with the period when Alaska was a Russian possession. The next point touched will be Juneau, the capital of Alaska, and a modern city with good motor roads and many points of interest, including the Mendenhall Glacier and mines which have made this country famous.

RUPERT MARKET BENEFIT ALASKA

Happy Day When Poindexter Amendment was Defeated says Alaska Fisherman

The Alaska Fisherman, published in Ketchikan, as part of an argument against a monopoly of the salmon fishing refers to the halibut business at Prince Rupert as follows:

The splendidly prosperous condition that now obtains in the halibut fishing industry should awaken the people of the Territory to the fact that the same conditions that prevail in halibut fishing can be made to apply to other branches of fishing and there is no good reason why they should not apply.

You cannot today find a single halibut fisherman who is dissatisfied with conditions that govern his branch of fishery but on the contrary every halibut fisherman you meet is loud in his words of approval of these conditions.

There is no monopoly in the halibut fishery either in fishing or marketing. All halibut is sold in open competitive market and as the demand for this fish is strong good prices are paid to the fishermen for their catch.

Fortunate Day

It was indeed a fortunate day for the halibut fishermen of the North Pacific when the Poindexter amendment to close the market at Prince Rupert announced a monopolistic market at Ketchikan was defeated in the U.S. Senate. It was also a fortunate day for the town of Ketchikan, as the confinement with the present conditions on the part of the halibut fishermen is evidenced in the increase of trade at this port. A satisfied con-

SYNOPSIS OF LAND ACT AMENDMENTS

PRE-EMPTIONS
Vacant, unreserved, surveyed Crown lands may be pre-empted by British subjects over 18 years of age, and by aliens on declaring intention to become British subjects, conditional upon residence, occupation, and improvement for agricultural purposes.
Full information concerning regulations regarding pre-emption is given in Bulletin No. 1, Land Series, "How to Pre-empt Land," copies of which can be obtained free of charge by addressing the Department of Lands, Victoria, B.C., or to any Government Agent.

Records will be granted covering only land suitable for agricultural purposes, and which is not timberland, i.e., carrying over 3,000 board feet per acre west of the Coast Range and 5,000 feet per acre east of that Range.
Applications for pre-emption are to be addressed to the Land Commissioner of the Land Recording Division, in which the land applied for is situated, and are made on printed forms, copies of which can be obtained from the Land Commissioner.
Pre-emption must be occupied for five years and improvements made to value of \$10 per acre, including clearing and cultivating at least five acres, before a Crown Grant can be received.
For more detailed information see the Bulletin "How to Pre-empt Land."

PURCHASE
Applications are received for purchase of vacant and unreserved Crown lands, not being timberland, for agricultural purposes; minimum price for first-class (arable) land is \$5 per acre, and second-class (grazing) land \$2.50 per acre. Further information regarding purchase or lease of Crown lands is given in Bulletin No. 10, Land Series, "Purchase and Lease of Crown Lands."
Mill, factory, or industrial sites on timber land, not exceeding 40 acres, may be purchased or leased, the conditions including payment of stumpage.

HOMESITE LEASES
Unsurveyed areas, not exceeding 20 acres, may be leased as homesites, conditional upon a dwelling being erected in the first year, title being obtainable after residence and improvement conditions are fulfilled and land has been surveyed.

LEASES
For grazing and industrial purposes areas not exceeding 640 acres may be leased by one person or a company.

GRAZING
Under the Grazing Act the Province is divided into grazing districts and the range administered under a Grazing Commissioner. Annual grazing permits are issued based on numbers ranged, priority being given to established owners. Stock-owners may form associations for range management. Free, or partly free, permits are available for settlers, campers and travellers, up to ten head.

REV. W. E. GALLOWAY ADDRESSES TEACHERS OF SUNDAY SCHOOLS

A meeting of Sunday school teachers was held last night in the Presbyterian Church to hear an address by Rev. W. E. Galloway, field secretary of religious education for Alberta and British Columbia. Rev. H. R. Grant, D.D., presided. Mr. Galloway stressed the fact that the Sunday school teachers ranked among the makers of Canada.

Following the address there was a general discussion of Sunday school work which proved very instructive. About 35 teachers were present representing the Baptist, Salvation Army, Presbyterian and Methodist denominations.

Mr. Galloway left later for Anxox and will be back Tuesday, remaining here for several days during which he will address the boys and girls in the respective groups.

One of the groups meets tonight to hear the report of Jack Stephens on his visit to Victoria as representative of Prince Rupert at the Boys' Parliament.

METHODISTS ARE MOST NUMEROUS IN CONGRESS

WASHINGTON, Feb. 26. — More than 90 per cent of the members of the incoming congress are adherents of some religious denomination, according to a statement from the Board of Temperance Prohibition and Public Morals of the Methodist Episcopal Church, Washington, D.C., which has just completed its investigation.

"Methodists lead in both the senate and house," says the statement, "with Presbyterians and Episcopalians following closely. In the house of representatives there are 90 Methodists, and 27 in the senate. The Presbyterians have 63 members of the house, and there are 11 Presbyterian senators. The Episcopalians number 57 representatives and 22 senators. Thirty-two representatives are members of the Roman Catholic Church, with four senators of that church. There are eight Hebrews in the house and none in the senate.

ADDRESS IS GIVEN GIRLS IN TRAINING

Miss Jean Kier Speaks to Two Groups at Methodist Club Rooms

Two groups of the Canadian Girls in Training were given a treat at the club house in the Methodist Church last night when Miss Jean Kier of the public school staff gave a most interesting address on "Religion in Present Day Poetry." She referred to the older poets and then gave examples from the poets of today showing the general trend of religious thought and giving examples.

Keen interest was shown by the young people in the address which was much appreciated.

BEARS WERE NUISANCE WOODS OF MINNESOTA

Interfered Great Deal With Campers and Others and Often Became Thieves

ST. PAUL, Feb. 26.—The mischievous black bear has become so annoying to settlers, tourists, campers, villagers and others in Minnesota's vast forest lands that he has been made the object of proposed legislation.

A bill introduced in the Minnesota Legislature would appropriate money "for the relief of individuals for injuries suffered to their persons and properties by reasons of attacks from bears."

Under the protection of a state law the bears, according to game wardens, have rapidly increased and these officers liken their number to Minnesota's famous 10,000 lakes.

Flour, vegetables, jams, fruit and other delicacies brought into the woods for human consumption offer the greatest temptations to the bear family, game wardens says. Last summer the wild berry crop was exceptionally poor in Minnesota and the hungry bears frequently pried the screens or doors from frail summer cabins to help themselves.

JAPANESE AND THE FISHERIES

Attempt Being Made to Allow Those Here to Work but Prevent Others from Coming

A special despatch to the Vancouver Star by Bruce Hutchinson who represents them at Ottawa says:

A proposal under which Canada would not restrict Japanese in the British Columbia fishing industry further in return for a reduction in or cessation of general Japanese immigration is being considered by legal representatives of Japanese fishing interests here, it was learned today.

This plan is being suggested as a result of intimation from British Columbia members of the House of Commons that the fishermen's latest petitions against reductions in the fishing licenses will not have much effect.

Japanese May Argue

British Columbia members who have been informed of latest developments believe that Japanese fishermen of the coast would eagerly accept any arrangement by which the Canadian government would abandon its policy of gradually eliminating them from the fishing business, even though this arrangement involved a reduction in immigration.

It is understood that the fishermen's representatives will consult with the Japanese on the question further, with a view to making a concrete proposal to the Canadian government, if the fishermen are favorable to the idea. Whether the Canadian and Japanese government would consider the scheme is not known.
