ALASKA TOWNS SHOCKED BY EARTHQUAKE

CAPTAIN ZANNI LEAVES TOKIO FOR RUPERT AND SAN FRANCISCO MAY 1

Earthquake Shocks in Alaska Severe Causing Damage to U.S. Cable

Patients are Thrown from Beds in Hospital at Anchorage; People fled from Homes at Seward

ANCHORAGE, Feb. 24.—One of the most severe earthquake shocks ever felt here rocked the buildings of anchorage 19 1/2 seconds shortly before two o'clock. There were two distinct tremors. The dishes in many homes were broken and patients in Anchorage hospital were shaken out of their beds. At Garry near here all clocks stopped.

SEWARD, Feb. 24.—The United States signal corps cable Valdez, 200 miles northwest of here was broken by the earthquake shocks yesterday. At Morraine, 62 miles north, the tremors forced the water out of the water tanks on the railway line. Heavy shocks were felt at many points on the Alaska railroad.

When first the shock was felt here, people fled from their homes and places of business to the streets for safety. Pioneers said the tremors were the heaviest felt in this section for many years.

VANCOUVERITES TO VISIT HERE

Board of Trade Plans Tour of Central B.C. in July

STOP AT RUPERT FIRST

Itinerary Includes Calls at Terrace, Smithers, Vanderhoof, Prince George

The Vancouver Board of Trade is planning a visit to Prince Rupert and interior points toward the end of July or early in August. Invitations will be extended also to other lower mainland and the Vancouver Island towns to join them and make a visit a memorable one. The trip will take twelve days and will include visits to Prince Rupert, Terrace, Smithers, Vanderhoof, Prince George, Quesnel, and possibly Ashcroft, although the return may be made by way of the P.E.

A few years ago a similar trip was taken and the members of the Vancouver Board who were present enjoyed the visit very much and expressed determination to do it again at the first possible opportunity.

Doubtless they would be suitably entertained here and at other centres along the line and the visit would tend to the cultivation of closer relations between the great commercial centre of the province and the outlying portions.

LIQUOR STORE SAFE LOOTED

Cash and Checks to Extent of \$7,000 Taken Over Week End

BATTERED UP DIAL

VANCOUVER, Feb. 24.—Cash and checks to the extent of \$7,000 of Saturday's receipts were taken from the safe at the corner of the government liquor store over the week end. Evidently it was an "inside job" as the thieves had looted the safe they turned off the communication and then battered off the dial, probably intending to make the theft the appearance of a "professional job."

PROGRESSIVES NOT IN FAVOR ELECTION NOW

Mackenzie King More Firmly in Power Than Ever as Term Nears End

(Special to Daily News)
OTTAWA, Feb. 24.—If there is no election this year it is because the Progressives do not want it. They are in no hurry to again meet the electors as they cannot hope to be returned to Ottawa with a majority of adherents in the House and after the election some of them may not even reach the House, a fact which they appreciate. The Liberals do not want an election as long as they get Progressive support, and the Conservatives, although they fuss about it quite a lot, are as reluctant to face the electorate as anyone. In private they will admit that the present outlook is not encouraging.

From this time on the Mackenzie King government is likely to be manufacturing election ammunition. The fight with the shipping combine is one example of this. It is particularly a sop to the prairie farmers but will prove popular everywhere in the West. It is understood that the West will also be placated by being included in the subsidy plan.

The Conservative policy just now is to show how bad things are in the country and to urge that they would be improved by a policy of high protective duties. The Liberal and Progressive policies are to lower transportation and give an impetus to immigration by opening up the Peace River country.

The Liberal party has been strengthened by the fact that they have been held together for several years by a leader who has their confidence and who has at any rate the respect of the opposition.

NORTHERN ROAD TO BE BUILT

Hon. W. H. Sutherland Announced Three Million Dollar Project

VANCOUVER, Feb. 24.—Hon. W. H. Sutherland yesterday announced that the Government's three million dollar road building program includes the completion of the Quesnel-Fort George link and probably from hence to Hazelton.

He said that private interests were erecting a summer resort hotel at Fort St. John.

CANNONBALL BAKER WAY TO VANCOUVER

Will There be Tried on Charge of Murdering Captain Gillis and Son

WINNIPEG, Feb. 24.—On the way to Vancouver from New York to face a murder charge in connection with the killing of William Gillis and his son William during a hi-jacking expedition last September, William "Cannonball" Baker was lodged in the Winnipeg police station last night. He is in charge of two British Columbia officers. The trip to the coast is to be continued tonight.

Claude V. Symes is Committed for Trial for Causing Death of Little Norma Munro recently

After both counsel for the defence and crown had expressed the opinion in their summing up that the evidence submitted would not warrant a verdict of manslaughter being returned against the accused, Magistrate Thomas McElroy in the city police court this morning committed Claude V. Symes to trial by jury on a charge of unlawful killing in connection with the death of three-year-old Norma Munro whom he ran down with his automobile on Fifth Avenue East on the afternoon of February 12. The preliminary trial evidence having been taken last Saturday, remand had been made until this morning when argument of counsel took place and the magistrate delivered his decision. City Solicitor E. F. Jones had the case for the crown while Symes was represented by W. O. Fulton.

Fulton's Argument
Mr. Fulton submitted that there was no evidence of negligence which was necessary to establish the case of the crown. From the evidence presented, the car had been travelling at a reasonable rate of speed. There had at first appeared ample space for accused to pass with his car. When the child had run in front of the car, he had made a sudden swerve and had gone on to the sidewalk. Rather than of negligence there was evidence of care. Accused had sounded his horn on coming over the brow of the hill when he saw the children in the road and the brakes had been applied. The circumstances made the accident an inevitable one. After all, if the car had not slowed up the child might not have been struck for it would have passed her before she had had time to run in front. It was perhaps the saddest accident of its kind that had ever occurred in Prince Rupert. Everybody agreed that cars generally were driven too fast in the city and perhaps there should be special local regulations to govern traffic on account of the peculiarities of the streets. It was a wonder that such an accident as this had not occurred before but none of these circumstances constituted reason why accused should be made a public scapegoat on an occasion when he was not to blame. There was nothing to be gained in committing accused (continued on page six)

Stewart's Year of Development Says Portland Canal News Editor Telling of Prospects in His Camp

This will be Stewart's year of big development, according to W. R. Hull, news editor of the Portland Canal News, who arrived from the north this morning on his way to Vancouver for a holiday. He says they are not expecting a boom but just healthy growth and development. Wherever development has been done the results have proved satisfactory and this is now bearing fruit. Last year preparatory work was done, surveying and laying out of properties with a view to the big work this year. As soon as spring opens the work will commence and in every case something worth while has already been found. Enough money is in sight to warrant owners in going ahead with the work.

The news feature of the camp just now is the opening of an entirely new ore body on the B.C. Silver, a property which adjoins the Premier on the north. It is 15 feet wide and averages from \$28 to \$40 a ton, which is the average of Premier ore which they are today shipping to Tacoma.

Silverado Strike

The Silverado drove through Number 1 vein at 364 feet from the portal and found it barren but a drift northerly broke into high grade silver ore similar to ore shipped to the Vancouver interests when they had it under bond and which went \$2,000 ounces of silver to the ton. They are now driving to reach Number 3 vein. This property is owned chiefly by the Stewarts.

KING GEORGE MUCH BETTER

No Further Bulletins to be Issued if Present Progress Maintained

LONDON, Feb. 24.—King George passed a good night and if the present progress is maintained no further bulletins will be issued.

The Prince of Wales will take his father's place at two receptions at Buckingham Palace, affording his first opportunity of presiding over such important ceremonies of state.

Captain Zanni to Visit Prince Rupert and then South to San Francisco

VICTORIA, Feb. 24.—The most spectacular of the three world flights that were started last year was the one yet to be completed under Captain Zanni, the Argentine aviator, who expects to get away from Tokio on May 1. He will fly across the Pacific to Prince Rupert by way of the Aleutian Islands and Western Alaska, thence going south to Vancouver and San Francisco. Crossing the continent from there he will visit New York and passing up the East coast make his final leap from Newfoundland to Cork.

This is the latest route outline given in a statement issued by Patricio D. Murphy, attaché of the Argentine legation at Tokio, who arrived here last night to make final arrangements for the flight along this coast.

BROWN MOVES WAGE INCREASE

Implementing an election pledge made by himself, Ald. W. M. Brown gave notice at last night's meeting of the city council that he would move for an increase in the minimum common labor wage scale of the city from 50c to 57 1/2c per hour. The matter will come up for discussion at next week's council meeting. Considerable opposition is expected although the four Labor members of the council will probably favor the increase. It is probable that the mayor's casting vote will finally decide the issue.

TWO AVIATORS WERE KILLED

Lost Lives When Plane Crashed Following Collision in Midair

CAMP BORDEN, Feb. 24.—Flight Lieut. J. H. White, a Winnipeg flight officer and R. H. Gross of Toronto were killed when their machine collided in midair with another plane piloted by flying officer A. L. Morfee. White's plane crashed while Morfee was able to guide his to the earth and escaped unhurt.

White was considered one of the premier aces of the Great War, making a record in bringing down the greatest number of enemy machines in the shortest time. Going to France just before the armistice he is credited with bringing down 31 planes. He was one of a patrol which got the German ace Richthofen.

GERMAN PRESIDENT UNDERGOES OPERATION

BERLIN, Feb. 24.—President Ebert underwent an operation for appendicitis today and his condition is satisfactory.

LIEUT. ERIC NELSON HAS BEEN KNIGHTED BY KING OF SWEDEN

NEW YORK, Feb. 24.—King Gustav V. of Sweden has conferred the rank of Knight of the Order of the Sword upon Lieut. Eric Nelson, pilot of the plane New Orleans in the successful United States round the world flight. Nelson is a naturalized American but a native of Sweden.

SWEDISH STATESMAN BRANTING DIED TODAY

STOCKHOLM, Feb. 24.—Hjalmar Branting, 64 years of age, three-time Premier of Sweden and one of the most active statesmen in League of Nations affairs, died today.

CLASH BETWEEN CATHOLICS IN MEXICO CITY

Women of Orthodox Body Attack Priest of Separatist Organization

MEXICO CITY, Feb. 24.—One person was killed and seven injured in a clash yesterday between followers of the recently proclaimed Mexican Catholic Church and the orthodox Catholics, when women parishioners attacked the so-called separatist priest, who attempted to celebrate mass in the Soledad Church. The separatists have declared their church supported by the Mexican labor organizations.

AUSTRALIA TO SELL VESSELS

Has Been Operated at Loss With No Prospect of Betterment

MELBOURNE, Feb. 24.—Premier Bruce issued a statement showing the Commonwealth line of steamers has been operating at a heavy loss. In its report to the Government the board of directors expressed the opinion that the line cannot run without further loss while shipping under Australian register. The government therefore is immediately inviting tenders for the purchase of the line on condition it be retained in the Australian trade with an efficient service and no increase of rates and with the added proviso that no arrangements be made with any shipping combine.

As Unconquerable As Russia.

The United States is as unconquerable as Russia but an invader could mess up the ports very badly and do an immense lot of damage to shipping. Canada is in a somewhat similar position. No country but the United States could attack her with much hope of ultimate success and even the experience of the U.S. in the past is not such as to encourage them to repeat the experiment. In fact the feeling between United States and Canada is likely to be such as will preclude any chance of war between the countries.

Because of her impregnable position, President Coolidge suggests that the United States can well lead in the cause of armament limitation. It would be a great advantage to the world if the money now expended in war preparations could be spent in the arts of peace. We all hope that the president's scheme for lessening of armaments will succeed.

Conditions Bad Following Boom in California.

California is no exception to the general rule in regard to booms. The reaction is on there and the people who are not very solidly established are in danger of going to the wall. Working men are suffering from lack of work and inability to earn enough to pay their way out.

It is not that California has not the resources, the natural attraction, the climate, the fruit, the oil and a great many other things that make for wealth. All these things tend to make the place prosperous but when a place is boosted as it was and people flock from every part of the continent and prices go up beyond reach of the common people, then the end is near and the place is due for a fearful slump. It will come back but it will be years before it is again really prosperous.

All Will Regret Illness Of King.

Everyone in Canada will regret the illness of the King. He is the silent figure around which the Empire revolves. The sovereign people govern themselves but they are bound together by a sentimental tie exemplified by the monarchy. With the passing of a monarch a certain amount of uneasiness prevails. Happily the young men who take the monarchy are well trained for the duties ere it falls to them. In spite of the fitness of the Prince of Wales for the position, all will hope that King George may live for many years to carry on the effective work he is doing as nominal head of the Empire.

Mineral Riches Of Interior B.C.

The interior of the province and particularly that part near the line of the Canadian National Railways, is worthy of attention from any who contemplate taking an interest in mining. The series of articles published in this paper are being read with interest as being a careful review of the whole situation insofar as the country in and around the Bulkley Valley is concerned. There are, however, other mining districts in the interior which are not covered by this series. We have mentioned them from time to time. There are the Terrace and Usk districts, the properties at Hazelton and others north from Burns Lake that are well worthy of mention. British Columbia is a mining province and the northern and central portion of the province are at present attracting a great deal of attention from mining men.

Valuable Mining Discoveries in Telkwa Mountains and in Owen Lake and Sibola Districts

(Seventh of Series of Articles on Mining in Bulkley Valley, based on Smithers Board of Trade Report)

Southwest of Telkwa, in the Telkwa Range of mountains, is a large area drained by the Telkwa River and its tributaries. Many valuable discoveries have been made in this region, chiefly in silver-copper ores, though in some veins both gold and lead values are prominent. As long as 1903 locations were made in this section and at one time there was marked activity. In recent years little progress has been made, however, due to inadequate financing, distance from the shipping point, and lack of transportation.

Hunter Basin

Most of the finds have been made in the basins at the heads of the various creeks. Nearest to Telkwa is the Hunter Basin, fifteen miles southwest of the town and reached by a road and trail. Here there have been located a number of silver-copper showings of promise, very high silver values having been obtained on the King, the Colorado, and the Hunter properties. The latter is, like the basin itself, named after the late William Hunter, the pioneer prospector who first located in the basin. This property is now being developed by the owners under the direction of O. A. Reigle, one of them. The latest work, begun in the summer of 1924, is to drive a cross-cut tunnel over 200 feet to cut some showings at depth.

Hankin Basin

Hankin Basin, at the head of the Goat Creek, is about sixteen miles from Telkwa and in it are some of the first claims staked in the district. One has been found with good values in gold, silver and copper, and there is one very large body of low grade silver-copper ore. Little development has taken place in recent years.

Milk Creek

At the head of the North Fork of the Telkwa, in the vicinity of Milk Creek, there are some notable silver-lead finds. These are reached by road and trail from Telkwa, over thirty miles distant. Among the promising claims are the properties of the Glusholm brothers, known as the Big Four, and the Goodwill property, on which there is a large body of gold-silver ore. In 1924 Gillespie & Wilson worked at Milk Creek in the opening up, with good results, of a vein three to eight feet in width showing very high silver content in some assays, also good values in gold, copper and lead.

Howson Basin

At the head of the south fork of the Telkwa, and about thirty miles from the town are the Howson, the Sunset, and the Seallon Creek basins. In this vicinity there was considerable activity some years ago. On the Santa Maria property development work opened up a large body of silver-copper ore, some of high grade. On the Duchess there was established a large body of ore of similar character, but low grade. In Sunset Basin finds were made of silver-copper ore, with some grey copper and some native silver. Work has been at a standstill during the last few years.

Dominion Basin

Further south, in the headwaters of the Morice River, are the Dominion Basin, Starr Creek, and Gabriel Creek. In all of these promising discoveries have been made, chiefly in gold, silver and copper. They are, however, a long way from the railway, and development may be slow.

Silver Queen

About twenty-five miles southwest of Houston, near Owen Lake, is the Silver Queen Group of five crown-granted claims, owned by Dr. H. G. Winch, M.L.A., of Hazelton. This is a silver-copper-zinc property with several promising veins. In 1923 the Federal Mining & Smelting Company took an option on the group. They developed the showings continuously until June, 1924, when they closed down all their operations in the district. During that time \$7,500 was expended in work, several tunnels driven, and the showings opened up well. Though some distance from the railway this is a likely prospect.

Diamond Belle

Near the Silver Queen is the Diamond Belle Group, owned by J. P. Cole of Houston. Gold, silver, copper and zinc are all important values in this property, which has a number of strong veins. It was under option to the Federal Mining Company with the Silver Queen Group.

There are, in addition to these, a number of other groups of claims in this vicinity with good silver showings.

Peacock

About twelve miles southwest of Houston E. G. Bellicini has a group of claims called the Peacock. Good values are found in gold, silver and copper. The development so far carried on is of a limited nature.

Sibola District

In the Sibola district, near White Sail Lake, about seventy miles southwest of Houston, some remarkable finds in silver have been made. They are a long way from existing transportation facilities but the showings are so good that sooner or later this handicap will be overcome.

Emerald Group

The leading property is the Emerald Group, owned by Wm. Sweeney of Smithers and others. It has been under development for the past ten years by the owners. A vein twenty feet in width and traced on the surface for some fifteen hundred feet shows very high silver values, also a large percentage of lead. Some day this is likely to become a great mine.

Silver Tip

The Silver Tip property between White Sail and Big Entuck Lakes is another of the showings in this region well meriting consideration. High values have been obtained in silver, lead and zinc.

When the transportation difficulty has been solved it is safe to prophesy that few fields will equal the Sibola District for silver properties.

HEATING OF CITY HALL DISCUSSED

Proposed to get Two Extra Sections for Present Oil Burning Furnace Boiler

A report from the Board of Works recommending the purchase of two extra sections for the City Hall furnace boiler was sent back to the committee by the council last night for further information.

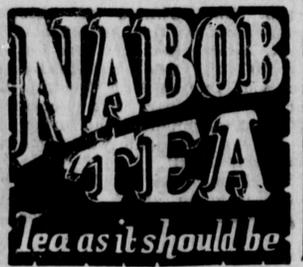

Ald. Perry explained that the extra sections were deemed necessary in view of the women's jail having been added to the system. With the extra sections, better service would be given with the same amount of fuel. He was unable to say definitely what the cost would be.

Ald. Brown thought there would not be enough radiation to warrant the two new sections, especially, if before the addition of the jail, the present plant was capable of heating the building. He also thought the putting in of the extra sections would be costly.

In referring the matter back to the committee, Mayor Newton said that the present plant was not capable of heating the building adequately in a cold snap. The city engineer had concurred in the recommendation to obtain the extra sections.

REPAIRS OF BOOTH SCHOOL WILL NOT COST SO VERY MUCH

A report from the finance committee that \$1,000 be added to the 1925 extraordinary estimates of the school board to cover

A new Victor product

Album complete with five 12 inch double-sided Red Seal Records \$13.00

The Music Arts Library of Victor Records

Just as a certain amount of reading is part of everybody's life experience, so too there is a proportionate amount of music with which every man and woman wishes to be familiar. That is the key-note of the Music Arts Library of Victor Records, the first volume of which is now ready. The Music Arts Library of Victor Records represents a great variety of achievement by the world's greatest artists, and provides a wholly new outlook on the collecting of recorded music. The first volume includes five new double-sided Red Seal Records. Three contain Schubert's "Unfinished Symphony" by Stokowski and the Philadelphia Symphony Orchestra, two the Schumann Quintette by Gabrielowitz and the Flonzaley Quartet.

Ask the nearest "His Master's Voice" dealer to show you this album, or write us for a descriptive circular.

"Worth \$100 to Me Relieved Eczema and Piles"

Mrs. Peter A. Palmer, Saltburn, Sask., writes:
"Dr. Chase's Ointment has completely relieved me of eczema and piles. I also used this Ointment for my baby, who broke out in eczema. A few applications were all that was necessary in her case. Dr. Chase's Ointment has been worth a hundred dollars to me,—before using it I had spent a great deal more than that in unsuccessful treatment from doctors. We have also used Dr. Chase's other medicines, the Nerve Food having restored my health after suffering from severe nerve trouble when a girl."

HEART WAS WEAK NERVES ALL GONE

Mrs. J. H. Hallenbeck, 147 1/2 Welland Avenue, St. Catharines, Ont., writes:—"I was in a gas explosion; it left me with a weak heart, and my nerves were all gone. I suffered everything; couldn't sleep, or endure any excitement, and when left alone I felt as if I could scream. I took dizzy spells, often falling and bruising myself. My mother read about your Muburn's Heart and Nerve Pills, and bought me a box, but having taken so many different kinds of medicine it just seemed that I did not have any confidence in any of them. I took one box of H. & N. Pills, and felt so much better I continued with them until I had used five boxes, and after I had taken them I did not need any more. I cannot praise, or recommend, Muburn's Heart and Nerve Pills too highly after all they have done for me!"

Put up only by The T. Muburn Co., Limited, Toronto, Ont.

RETAIL MERCHANTS ELECT OFFICERS

George Bryant is New President
—Road to Exhibition Hall is Favored

At the regular monthly meeting of the Retail Merchants' Association, the following officers were elected for the ensuing year:

President—Geo. Bryant.
Vice-President—P. H. Linzey.
Directors—T. McMeekin and A. D. Plant.
Sec.-Treas.—C. G. Minns.

The association went on record as being strongly in favor of the grading of Sixth Avenue West, in time for the 1925 exhibition. This resolution was passed to strengthen the hands of the new Fair Board in an endeavor to get the approach to the exhibition building properly graded.

A court of revision on various local improvement bylaws will sit on March 30. It was appointed at last night's council meeting and will consist of Mayor Newton, Ald. McMordie, Ald. Brown, Ald. Stephens and Ald. Larsen.

Major M. J. Crehan has been re-elected president of the Vancouver Army and Navy Veterans of Canada. Major Crehan, during the early days of the Great War, was here as second in command of the Irish Fusiliers who were on garrison duty.

There were five fire alarms during the month of January and the total damage from fire in the city during that period was \$25 according to the monthly report of the fire chief submitted to the city council last night. Expenses of the department for the month, including salaries, had totalled \$4106.55.

On recommendation of the finance committee, the city council last night decided to accept the offer of W. D. Vance of \$205 cash for tax sale lots 111, 112, 113 and 114, block 34, section 8; that of William Smeeton of \$400 cash for lots 56 and 57, block 27, section 1, and that of F. Vickers of \$93.40 for lot 24, block 31, section 6.

The city council last night adopted a recommendation from the finance committee that an account from the Vancouver General Hospital of \$50 against Rose Hoffman of this city be paid and that the city solicitor be instructed to take proceedings to collect from the woman. Mr. Jones pointed out that she was not a property owner.

A letter from J. R. Murray claiming damages from the city in the sum of \$200 for injuries sustained when he fell from a sidewalk on Alfred Street on January 4 was received and filed at last night's council meeting. The city solicitor reported that the city could not be considered liable for the accident that had befallen Mr. Murray.

The Prince Rupert Club will assume responsibility for any damage to its own building while the city will be responsible for adjoining property under an agreement that was adopted by the city council last night providing for the excavation of rock from under the club building with a view to lowering it to street grade. Under the agreement, the city will excavate the club's property to two feet below street grade and leave enough crushed rock for the club to build a foundation. In return, the club would deed over to the city 14 feet frontage on Second Avenue. The agreement, which has now passed the council, has not yet been accepted by the club itself.

If you like a porridge

If you like a hot porridge in Winter why not eat a real whole wheat porridge? Put several Shredded Wheat Biscuits in a small saucepan; add enough water to cover the bottom of the pan; add a little salt; stir and boil until it thickens, then serve with milk or cream. Not a pasty, mushy porridge. It is made of crisp shreds of baked whole wheat. Better for children than any ordinary porridge, and so easy to prepare.

The Canadian Shredded Wheat Company, Ltd.
Niagara Falls, Ontario

Shredded Wheat
"It's All in the Shreds"

S. C. Thompson left on last evening's train for Woodcock.

Mrs. Edgar Trethewey is a passenger from Alice Arm to Vancouver going through on the Cardena today.

A. Maguire, Alice Arm logging contractor for the Georgetown mill, is visiting the city on business and will return north Wednesday night.

Union steamer Cardena, Capt. J. A. Findlay, returned from Anyox, Stewart and Alice Arm at 9:45 this morning and will sail at 5 this afternoon for Vancouver and waypoints.

J. Fred Riteau, president of the Indian Mines Ltd., returned today on the Cardena from Stewart where he has been inspecting diamond drilling that has been in progress on the property.

The city council last night decided to purchase ten tons of Cadomin steam coal from the Consumers' Coal Co. for the street roller. This company submitted the only tender—\$11.15 per ton.

C.P.R. steamer Princess Mary, Capt. C. C. Sainley, northbound from Vancouver to southeastern Alaska, was in port from 6 to 10:30 last night. The vessel had aboard a number of prospectors who will delark at Wrangell with the intention of getting into the Cassiar gold fields over the Stikine river ice before the spring break-up. The steamer called at the ocean dock to unload its automobile.

Rev. W. E. Galloway, field secretary for religious education for various Protestant Churches under a co-operative plan, will arrive in the city on tomorrow's train after having worked his way along the line from his headquarters at Calgary with his last stops at Smithers, Hazelton and Terrace. Tomorrow afternoon he will address a gathering of girls in the Presbyterian Church and at the same place in the evening will meet teachers and officers of various Sunday schools in the city. He will proceed afterwards on the steamer Prince Rupert to Anyox returning here next Tuesday when there will be further activities to mark his visit.

TWO HOCKEY TEAMS PLAYED AT SMITHERS

SMITHERS, Feb. 24. — Two more games of hockey in the Would-be and Has-been's class have been played. The first on Saturday night when the C.N.R. office staff gave the Round-house crew a beating with a score of 8 to nil. The game was better than the score indicates as the car knockers were without the services of their regular goal-tender.

The second game was played on Sunday afternoon between teams representing the 3rd and 4th blocks on Main Street. Their former game ended in a tie for all and this one finished three all, so it will take yet another game to decide who buys the sack of flour for the hospital. Dr. Hankinson starred in goal for the third blockers this time, after a mix up in front of his goal in the second period Doc emerged with a nice souvenir on his nose that would call for some of his professional services after the game. The "Keg-of-Nails" from the hardware store also got a crack on the nose that would not be considered a beauty mark. But at that all the players voted it a great game and are eagerly looking forward to the next. There was argument as to the number of goals scored, and the matter was turned over to the lawyers to thrash out. H. L. Robinson being on one team and L. S. McGill on the other.

BRINGING UP FATHER

Stop Falling Hair! Money Back if it Doesn't

The big problem with scalp specialists is to get the public to form a consistent habit of taking care of their hair. Van Ess Liquid Scalp Massage comes in a patented bottle with a special rubber application attached. The method of application is easy—and cleanly. The applicator feeds the treatment through rubber nipples direct to the roots of the hair. One minute a day with Van Ess is sufficient. Stops falling hair, cures dandruff, grows new hair. We give you a positive 90-day guarantee.

HOW TO PLAY FOOTBALL

Combination makes a Speedy Forward Line—How to Attack

(By "Andy" Ducat, Manager of Fulham Club.)

Managers who have built up a forward line that is dashing in attack and sturdy in retreat have built up a treasure. Years ago good judges thought that five men could not be brilliant as well as sound. Today we know that the forward line certainly can—providing your men are trained to combine.

You want a "flying five"; yet they must all fly together. And it is an extraordinary fact that men who may be slow everywhere else can become sparkling and invincible when they get in line together.

Five of the finest players matched up hurriedly would go down before five lesser players who knew and respected each other. Shrewd managers do not drop a man because he fails to distinguish himself at first. They say, "Here is a man who has all the makings of a good forward—yet he doesn't 'come off.' Shall we replace him? No, we will give him a chance to catch the spirit of the others."

Thoughtful coaching like this has time and time again turned five not exceptional men into a forward line that opponents voted very exceptional indeed. You ask: "How am I to know if I have the makings of a good forward?"

Strength is the first thing—can you run as fast as the others in your team, and hold out as long as the match lasts? Or rather, could you if you trained yourself, and are you willing to train?

Many experts will tell you that speed is everything to a forward. That is not so. Staying power is better than sprinting power. Anyway, it is not much good for the fast man to get up to the net only to have the rest of the line come level with him when one of the opposition backs has relieved him of the ball.

What you want is a man who can—and is willing to—keep in line with the others.

Fast Wingers Preferred One winger a little faster is good. He encourages the rest of the team.

Straight lines are not desirable. You want your two speediest men on the wings. Your centre forward should be capable of keeping a level with them in a dash when a quick goal seems likely. The two inside men need not be so fast, because they should generally hold back.

A sound tactic is for the extreme winger, when harassed, to pass the ball back to his inside man. The inside man passes back to the wing half, who lets forward winger have it again straight along the touch line. This is called the triangle game. You must have noticed that many goals have been scored sharply just a second or so after the opposition have been swarming all over the victor's goal. Some people call these lucky goals. Not a bit. They are almost always the direct result of shrewd play on the part of the centre forward. Instead of jobbing his companions down in the middle, he stayed up a little

way, taking care to place himself in a favorable position for a sharp dash through what was left of the opposition. Then, when his inside man managed to get the ball out to him, he was just ready to dash through the gap he had marked and secure that "lucky" goal.

Shooting is the chief duty of the inner forwards. More goals are scored by well-placed kicks than are secured by hard kicking. When you break through, you should not shoot. Just keep straight on and place the ball past the goal keeper. This cool style always wins.

Straight Shooting Shooting from twenty yards away you need to kick the ball just as hard as you can. Slam it home, but note that the best kicks are secured from the instep rather than the toes. When you get nearer than twenty yards, aim for accuracy, not force. Putting a medium-paced ball clean away from the goal keeper is a certain winner, whereas a forceful shot may miss by an inch.

Where the game is going on round your own goal post, both the inside wingers should keep out with the centre, while the outside men may dash into the crush. Three men going up together can beat the opposition more easily than one—provided they know the off-side rule.

Here is an important fact. If the forwards keep behind the ball they need never fear this rule. You can only be offside when the ball is passed forward. Keep behind, and the ball never can be passed forward. And note this: it doesn't matter how you stand in relation to the others when you take the ball. What the referee looks at is how you were standing when the ball was kicked.

Anticipation is important. Don't expect the others to do everything in the passing line when they have the ball. You must make it easy by getting into a position that makes a pass to you the best possible thing.

Confident Passes Fine forwards—used to playing together—will get into these positions without making a noise. Shouting only calls attention to your favorable position. Your opponents rush to remedy the matter. If the man with the ball knows his game at all, he will notice your good position without any help.

Forwards who control the ball are more useful than those who rush faster with it a few yards ahead. You must keep the ball at your feet. You will be astonished to find what extra confidence it gives you, and how you seem to work in better with the others. Keep the ball within a short distance of your foot.

Learn variety—so that you can always produce something at critical moments that your opponents have not seen before. Forwards need that "will to win"—people call it the "match-winning temperament"—highly developed. Never let your opponents' good play worry you. You can do just as well if you will keep together, keep your head and keep saying "We are going to win this match!"

(More hints for forwards appear shortly. Next week help for half backs. Mr. Ducat's articles already are tremendously popular. Make sure of getting your copy for next week.)

ORIBBAGE LEAGUE

The cribbage games played last night in the league series resulted as follows: S.O.C. beat St. Andrews..... 17-10 Elks beat Moose..... 16-11 L. O. L. beat Grotto..... 17-13 Drydock beat G.W.V.A..... 16-11 The Regiment drew a bye.

Sport Chat

Interest of the billiard fans this week will centre on the first division tournament on Wednesday night between the Grotto and Great War Veterans, the result of which will decide whether the latter team or that of the Billiard Parlor is to be the champion city aggregation. It is the last game of the schedule and the Vets can cop off the season's honors provided they do not lose more than forty-nine points out of the possible aggregate of 1250. If they get more than 1200, they will displace the Billiard Parlor; if they get less they will not. Should they come out with an even total of 1200, the two teams would be tied. The supporters of the Veterans are confident that they will be able to successfully grasp this eleventh-hour chance for the season's honors.

Each of the six teams in the second division of the billiard league have one tournament yet to play. With the Billiard Parlor holding a fairly substantial lead in first place, the only team that now has any kind of a chance to wrest the position as the St. Andrew's. The Grotto in third place have only a very remote chance, their chances having practically disappeared when the Great War Veterans beat them so severely in last week's tournament. With the situation standing thus, the St. Andrew's will tonight meet the Callies, a team that they have consistently beaten all through the season. The Billiard Parlor, in the last game of the season on Tuesday next, will meet the Great War Veterans who made such a good showing over the Grotto last week. The Canadian Fish & Cold Storage Co. and Grotto will play on Thursday night this week.

MODERN LAUNDRY FOR TOWN OF STEWART

The town of Stewart is to have a modern steam laundry in the near future. It will be erected by J. P. Hawkinson, the well-known restaurant man. Mr. Hawkinson, who is spending a few days in the city, stated last night that he had purchased a lot for the plant which he expected would cost him about \$1,000 to put in operation. It will be run by electric power and will employ a staff of about four people. Mr. Hawkinson believes this will be a profitable undertaking. The most of Stewart's laundry now comes to the Prince Rupert laundries.

TRAIN OF FISH OUT TONIGHT

Landings Here Totalled 187,000 Pounds and Two Car Loads Frozen Going

The local Fish Exchange today had its first regular full day's business since the close season went into effect last November. Five American boats and three Canadian sold substantial catches totalling 187,000 pounds. Some of the catches were unusually large. With the supply better, the price, of course, dropped. A special train will leave tonight taking today's landings to the eastern market together with two carloads of frozen halibut that arrived last night from Kelchikan.

Arrivals and sales were as follows:

American
Mildred H. 21,000 pounds, at 13.6c and 7c, to the Royal Fish Co.

COAST LAND DISTRICT, REGARDING DISTRICT OF COAST.

TAKE NOTICE that Pacific Mills, Limited, of Vancouver, British Columbia, 1919 and Paper Manufacturers, intends to apply for a lease of the following described lands, in Coast District, Range 3, in the Province of British Columbia, and being a water lot on the west side of Cousins Inlet, more particularly described as follows:

Commencing at a post planted on high tide line on the west shore of Cousins Inlet distant southerly along same 300 ft. from the southeast corner of Lot 1453, Coast District, Range 3; thence north 13deg. E., a distance of 6,500 ft., more or less, to the southeast corner of Water Lot 1169; thence north 47deg. 36' W. along the south boundary of said water lot 1169, a distance of 35.5 ft. to the southwest corner of said lot 1169; thence following the high tide line southerly a distance of 2,000 ft., more or less, to the point of commencement, containing 70 acres more or less.

DATED January 9th, 1925.
PACIFIC MILLS, LIMITED,
By JAMES H. LAWSON,
Assistant Secretary,
1318 Standard Bank Building,
510 Hastings Street, West,
Vancouver, B.C.

NOTICE.

IN THE MATTER OF AN APPLICATION for the issue of a fresh Certificate of title for Lots thirty (30) and thirty-one (31), Block seven (7), Section five (5), City of Prince Rupert, Map 923.

Satisfactory proof of the loss and destruction of the Certificate of title covering the above lands having been produced to me it is my intention to issue, after the expiration of one month from the first publication hereof, a fresh Certificate of title in the name of Edward H. Pierce, for the said land, which Certificate of title is dated the 30th June 1913, and is numbered 35831.

H. F. MACLEOD,
Registrar of Titles,
Land Registry Office,
Prince Rupert, B.C.
January 20th 1925

LAND ACT.

In Skeena Land District of Prince Rupert Recording District.

TAKE NOTICE that George Little, of Terrace, B.C., occupation lumberman, and C. L. M. Giggie, of Terrace, B.C., occupation lumberman, intend to apply for permission to purchase the following described lands, for industrial site, commencing at a post planted at south end of island situated near mouth of Kit-sunkallum River and lying near west bank of said river; thence following shore line around island to point of commencement, containing 25 acres, more or less.

GEORGE LITTLE and
CLAUDE L. M. GIGGIE,
Applicants

DOES EVERY MEAL CAUSE YOU DISTRESS? IF IT DOES YOU SHOULD TAKE BURDOCK BLOOD BITTERS

Mr. M. P. Eldridge, Beaver Harbor, N.B., writes—"I was troubled with my stomach for some time, and everything I ate seemed to distress me. I tried many different medicines, but without any results. Finally I was advised to try B.B.B., and after having taken several bottles I was completely relieved of my trouble. I can now eat anything I wish, thanks to B.B.B."

Burdock Blood Bitters puts the stomach into perfect shape by promoting proper digestion; and during the past 46 years it has been on the market has made a reputation, second to none, for relieving all stomach troubles.

Put up only by The T. Munro Co., Limited, Toronto, Ont.

13.6c and 7c, to the Royal Fish Co.

Arcic, 42,000 pounds, at 12c and 7c, to the Albin Fisheries.

GEORGE G. FRIZZELL,
Name of Applicant,
Dated January 8th, 1925.

ENJOYABLE WHIST DRIVE LAST NIGHT

Pythian Sisters Entertained Friends at Affair in Boston Hall—Twelve Tables

An enjoyable whist drive and social evening was held last night in the Boston Hall by the Pythian Sisters.

Twelve tables of whist resulted in the following winners: Ladies' first, Mrs. A. J. Large; ladies' second, Mrs. Ed. Unger; men's first, Walter McLeod; men's second, A. Ivarson.

After card playing, refreshments were served and the rest of the evening was spent in an informal social manner.

The committee in charge consisted of Mrs. D. McCullough (convener), Mrs. P. J. Ryan, Mrs. W. Gilchrist and Mrs. A. Ivarson.

CLAUDE V. SYMES IS COMMITTED FOR TRIAL FOR CAUSING DEATH LITTLE NORMA MUNRO RECENTLY.

(continued from page one)

and no jury could convict him of negligence or manslaughter on the evidence presented. Negligence could not be inferred directly or indirectly. He thought the prosecutor himself should ask for dismissal.

Not Much Evidence

Mr. Jones explained that it was the duty of the crown prosecutor to bring out the facts of the case. The question was whether or not accused was guilty of culpable homicide. He had admitted that he was aware of conditions on Fifth Avenue East and that children were in the habit of frequenting this thoroughfare. The accused might or might not have exercised the extra care that would devolve upon him under such circumstances. There was not much evidence to show it but, perhaps, he had been going a little faster than the occasion warranted. "I do not think, however," said Mr. Jones, "that there is enough evidence to warrant a conviction of manslaughter but it is up to Your Worship to decide whether or not accused should be committed." Mr. Jones said that the subsequent conduct of accused was in his favor. He had shown that he was extremely sorry for the unfortunate occurrence.

Is Committed

"I have decided on the evidence, to send you before a jury," said His Worship in addressing his decision to Symes. "I do not feel that I have been carried away by the sadness of the case." Accused had nothing to say when the deposition was read to him. Bail is being arranged in the County Court.

STEWART'S YEAR OF DEVELOPMENT SAYS PORTLAND CANAL NEWS EDITOR TELLING OF PROSPECTS IN HIS CAMP.

(continued from page one)

Dunwell on the north. It has the same vein system and the engineer reports that the rock now being penetrated is identical with the dyke rock passed through before the Dunwell vein was encountered.

The people in the north, Mr. Hull says, are looking for machinery and supplies to arrive within the next few weeks while the snow crust is still on for a number of properties, including the Silver Crest, United Empire, Rufus, Ruby Silver, Emperor and others.

Heavy Machinery

Under the direction of Manager R. F. Hill the heavy concentrator machinery for the Lakeview is being dragged up the hill in record breaking time. The heaviest piece is 4,400 pounds. This property is east of Dunwell. A block and tackle is being used in getting it past the bad places with six horses. A compressor house is being built and by the time the machinery is all on the ground it will be completed.

There is an undercurrent of excitement in regard to the Indian Mines of which J. Fred Ritchie is president and general manager. Mr. Ritchie has been at the mine almost a month checking up the diamond drill
