Life in Prince Rupert is like a continuous procession. People are constantly coming and going. New friends are made the interior. and it is not long before they leave and others take their places. Perhaps this is good for the people as it keeps them from rusticating.

Change is necessary in order to develop and keep alive. So also a certain amount of stability is desirable. It all gets back to the principle that moderation in everything is the right way of life. Dominion Linoleum, costing so little in the first place, lasts for years. The colors will not fade. Light mopping or brushing keeps its firm, smooth surface spotlessly clean and as brigit and fresh looking as the day it was laid.

Dominion Linoleum is a practical floor for day-in and day-out use, a floor the kiddies can really play on, a floor that defies the heaviest grown-up tread. Dominion Linoleum comes in widths sufficient to cover any ordinary room from wall to wall without seam or crack. Enjoy its comfort, beauty and economy in YOUR home.

And say, isn't that coat a darling? . . . Not only do you see illustrations of the merchandise, but you are told in detail of its merits and prices. A passing panorama that may be halted and started and halted at will. A shopping trip at home!

How long do you suppose it would take you to reverse the process-to go up one street and down another, until you had visited personally every worth-while store in town? And how exhausted you would be, physically and nervously.

There's no doubt about it. The modern way to shop is to read the advertisements, then make notes of the stores and the particular offerings that appeal to you. What a lot of time and bother such a method saves. You know beforehand what you want to look at, who has it, and what you will have to pay.

Read the advertisements. Make it a daily habit. The regular reader of advertisements is better informed, makes the family budget stretch further, has more time for recreation, gets more value for her money, and profits in many other ways. Advertisements are frequently the most interesting news in the paper.
