PRESIDENT'S APPOINTEE WAS VOTED DOWN

SMITHERS BACKS UP PROPOSAL TO ESTABLISH CREAMERY AT RUPERT

Nominee of President Coolidge Refused by Senate as Attorney General on a Very Close Vote

Result Looked Upon as Slap in Face for Chief Executive; Reconsideration is Being Asked

WASHINGTON, Mar. 11.—After a fight extending over a week the Senate yesterday afternoon rejected the nomination of Charles B. Warren to be attorney general of the United States. The vote is looked upon as a direct slap in the face for President Coolidge. It stood 49 for confirmation and 40 against, but Senator Reed of Pennsylvania changed his vote, making it 39 and 41 against. He said he did this in order that he might have for a reconsideration.

As soon as the outcome of the vote was officially announced reconsideration was asked, and that makes it again a subject of debate.

Plea For President

In the course of discussion yesterday morning Senator Cummins said the President deserved a free choice of the members of his cabinet and "should be held responsible for the faithful execution of the law." He added that Warren's sole interest in the sugar interests was to place the Michigan Sugar Co. on its feet so that it could produce sugar.

Replying to Senator Cummins, Senator Walsh of Montana said that the administration argument rested on an "entire misapprehension of the facts." He presented letters to show that Warren was the active personal agent of H. O. Havemeyer and "helped to fix the price of sugar in the United States."

Galleries Applauded

In the afternoon when Senator Moses, president pro tem, announced the rejection of the appointment, applause swept the galleries. Nine Republicans were among those who voted against the president with Senator Shipstead, the Farmer-labor member, and 30 Democrats. Senator Overman of North Carolina was the only Democrat voting for the appointment.

VICTORIA CHILD IS KILLED BY MOTOR TRUCK ON STREET

VICTORIA, Mar. 11.—Edna Munro, six years of age, was almost instantly killed when she was struck by a motor truck. She was attempting to cross the street in response to her mother's call to lunch. She was the daughter of Mr. and Mrs. J. W. Munro.

War Rumors come from Poland on Borders of Germany where Conditions are Very Unsettled

PARIS, Mar. 11.—"Danzig is like a powder magazine," says a correspondent of Le Journal, who with a representative of Le Matin went to Free City to investigate the difficulties between it and Poland.

"The day Europe blows up it will be because Danzig has exploded," the correspondent continues. "Two Prussian artillerymen await one at Koenigsburg and another at Berlin, fuse in hand ready to act when the time comes."

The correspondent states that instead of a few hundred police he found 3,000 in Danzig, all former officers or non-commissioned officers, while 20 to 30 German officers and soldiers, camouflaged as police or functionaries are preparing the dynamite to blow off the Treaty of Versailles and again unchain war in Europe.

PASSENGER TRAFFIC IS LOOKING UP ON CANADIAN NATIONAL

Passenger traffic through this port is beginning to pick up. Today the C.N.R. steamer Prince Rupert, Capt. D. Donald, which arrived from the south on time at 3 o'clock this afternoon, had, in addition to a good number of local travellers, 27 passengers who will go east by train. Twenty are for points east of Prince George and seven for points west.

The Prince Rupert will sail at 11 tonight for Stewart and Moyox and, returning here Friday morning, will enter dry dock, the Prince George replacing her then and continuing the run south.

SEATTLE TURNS DOWN MANAGER

Decides Against New Plan of City Government by Majority of Over Four Thousand

A proposal to abolish the office of mayor and establish a city manager form of government was defeated by 4,472 votes in the municipal election here yesterday. Councilmen elected were E. L. Blaine, O. T. Erickson, and Mrs. Henry Landes.

GRAVE DANGER JAPANESE SHIP

Drifting off Strait of Juan de Fuca near Tatoosh Island

VICTORIA, Mar. 11.—The Hokyo Maru from Japan to load lumber at Vancouver was reported in distress off Tatoosh Island near the entrance of the straits of Juan de Fuca. Messages said the vessel was drifting off the rocks and the rudder was broken. Three vessels have gone to its assistance.

What is believed to be the first house in London to be built of steel and timber is shown in process of erection. It is claimed that dwellings of this type could be built in one week.

Mira the Wonderful Found to be Second Largest Star in Universe Being Second in Size to Antares

WASHINGTON, March 11.—Measurements at the Mt. Wilson Observatory of the Carnegie Institution have established that Mira, the remarkable star discovered by David Fabricius in 1596 in the constellation Cetus, is the second largest known star, thereby displacing the noted Betelgeuse for that honor.

With an angular diameter of about 250,000,000 miles, it is exceeded only by Antares, chief star of the constellation Scorpio with a diameter of 400,000,000 miles. It is larger by about 25 per cent than Betelgeuse in the constellation Orion, which was measured for the first time about four years ago.

Appearing but a speck in the sky to the naked eye, the measurements of Mira were made by Dr. Francis G. Pease with the 20-foot Michelson interferometer attached to the observatory's 100-inch telescope, the same with which the first measurements of Betelgeuse were obtained.

Announcement of the measurement was made today by the Carnegie Institution on the basis of advices from Mt. Wilson. "The results indicate," the announcement says, "an angular diameter for Mira of about six hundredths of a second of arc, a value about 25 per cent larger than Betelgeuse. The most probable value of the distance is 165 light years. Assuming this distance, the diameter of the star is 250,000,000 miles.

"The star varies greatly in light through a period of about 41 months, its brightness changing as much as 200-fold in that interval. The measurements of the star's diameter were made when it was near its recent maximum.

"The name Mira, or 'The Wonderful,' was given to the star soon after the discovery of its remarkable variations of light by Fabricius in 1596. It is the most noted example of a class of variable stars of similar type, of which there are about 150 known. They are deep red in color and are doubtless all stars of immense size, low temperature and exceedingly low density.

"As a class these stars are moving very rapidly in the sky, some of them having velocities of more than 100 miles a second toward or away from the earth."

Dougal Park was fined \$25 in the city police court this morning for intoxication.

Prince Rupert Creamery Scheme was Endorsed by Smithers Board of Trade

Meeting also Favors Peace River Pass for Railway; Invites Rupert People to Visit Bulkley Valley

(Special to Daily News)

SMITHERS, Mar. 11.—The question of establishing a creamery and milk distributing station at Prince Rupert was discussed at length by the board of trade at their meeting Monday evening, L. S. McGill presiding. When the matter had been thoroughly canvassed a motion was passed authorizing the secretary to write to the minister of agriculture and the members for Skeena and Omineca, stressing the need for action by the government to assist the farmers of Central B.C. in the dairying industry, and that as a measure of relief, the government should establish at Prince Rupert a creamery and milk distributing depot to handle the dairy products of the district.

Experimental Farm

With reference to the Board's request for an experimental farm, a letter from the Minister of Agriculture, Ottawa, was read, stating that the financial condition of the government did not permit the establishing of an experimental farm in Central B.C. The meeting showed strong disapproval of this and decided not to let the matter drop, recommending that the matter be taken up with the member, Fred Stork.

Peace River Route

A. Brooksbank, secretary of the Prince Rupert Board of Trade was present and outlined the action being taken by that board in connection with railway transportation for the Peace River district and requested that the local organization prepare a paper submitting their views on the subject which would be inserted in the memorandum they were preparing dealing with the question. The meeting endorsed the Peace River Pass route, leaving the point of junction with the G.T.P. an open question, and appointed a committee to prepare a statement on the matter, to be handed to Mr. Brooksbank before his return to Prince Rupert.

Rupert Invited

The Secretary was also instructed to write the Prince Rupert Board of Trade inviting the members to join the party of Vancouver Board of Trade members when they make their tour through this district next summer.

A communication was received from M. B. Jackson chairman of the Game Conservation Board, in which he accepted the invitation to address the members at a luncheon, and advising that he would probably be coming north in June.

Applications for membership were accepted from Geo. Oulton, Smithies and Wm. Grotzau, Telkwa.

FIERCE STORM IN ILLINOIS

INDIANAPOLIS, Mar. 11.—Many buildings were levelled or partially destroyed in a storm which swept Indiana and part of Illinois last night. All communication was hampered and several hundred people injured, but not seriously. The property damage is estimated at \$500,000.

ABOLISH TWO ALASKA OFFICES

No Longer to be Lieutenant Governor or Surveyor General in Territory

JUNEAU, Mar. 11.—The offices of Lieutenant Governor and Surveyor General or ex-officio territorial secretary and acting governor in the absence or disability of the governor is to be abolished on June 30 because legislation eliminating the territorial surveyor generals did not provide for a secretary of the territory the interior department yesterday notified surveyor general Karl Theile.

AMERICANS BUY LOCAL COMPANY

Port Edward Plant to be Enlarged and Operated as Skeena Packing Co. Ltd.

BELLINGHAM, Mar. 11.—The purchase of the Port Edward Salmon cannery at the mouth of the Skeena River from the Queen Charlotte Fisheries is announced by E. B. Deeming, president of the Pacific-American Fisheries.

The cannery will be enlarged for the coming season and operated as the "Skeena Packing Co. Ltd."

MINER KILLED AT BRITANNIA BEACH BLASTING A ROCK

(Special to Daily News)
BRITANNIA BEACH, Mar. 11.—J. Plecas was killed and L. Mina injured yesterday afternoon by an explosion at the 600 foot level in the Fairview section when blasting a huge rock preparatory to loading it on the car.

CLOTHIER ADVISING ON DEASE LAKE SURVEY

VICTORIA, Mar. 11.—G. A. Clothier, mining engineer, is here to confer with Hon. William Sloan, minister of mines, regarding scientific exploration of the Dease Lake district early in the summer.

Council Did Well In Backing Up Engineer.

The city council certainly did the right thing in backing up the city engineer in regard to choosing the men whom he employs. He is responsible to the council for the conduct of the work and if he fails he is the one who will be blamed. To let individual members of the council dictate who shall be employed is a reversion to the ward politics of the American cities. There should be no such thing as applying to the mayor or to any individual member of the city council for a job. Any person who does that should be disqualified from getting a job with the city. There should be but one way to a position and that through the engineer.

Employment Of Local People Desirable.

The position of the city council in regard to giving employment to local residents and married people is quite correct and should be carried out in a general way. It must be remembered, however, that a man who served the city faithfully when men could not be secured and who won recognition for faithful work and was given a promotion, is still worthy of recognition if the best results are to be obtained. Naturally when the engineer gets a good man he wants to keep him. He is appointed by the whole council and is expected to produce results and the only thing to do is to back him up all the time.

Questions like this are bound to arise under the present system. The Board of Works is given certain authority and it is to some extent held responsible by the citizens for the success of the construction work in the city. In this case, however, there is no question of competency. It is simply one of who is to have charge of the city work, the engineer or individual members of the city council, and we are emphatic in saying that the engineer is the man. It is to be hoped the members of the city council will stand firm on this question, because it is the very basis of all good government. If every member of the city council is to be given the right to say who shall be employed by the engineer, we might as well throw up our hands, so far as securing efficiency is concerned.

Engineer Pearson has done good work under most difficult conditions. He has carried on and produced results and the people of the city appreciate it. Possibly he has made mistakes. If he has not, he is not human. It is to be hoped that all citizens read the report of the proceedings of the city council yesterday, so that they may realize what a difficult position the engineer holds.

Everyone Realizes Difficulty Of Task.

Everyone realizes the difficulty of the task of running a business as large as that of the city. An alderman who can do that ought to be able to make a pretty good thing for himself if he devoted his time to it. If he is a good man in handling city business he ought to be efficient in his own. It must be very unpleasant to a self-respecting alderman to have men coming to him for jobs all winter, especially when he knows he is in no position to hand them out. There ought to be some better way of conducting city business than that. Either a man is suited for the position that is vacant or he is not, and the person best likely to know is the engineer. If he is not suited, the engineer or his foreman will soon find it out. Under our system he is the man who can best undertake the work. If there were a city manager, he would do it and the mayor and aldermen would not have the obnoxious task thrust on them as seems to be the case now.

BIG BUSINESS ALASKA LUMBER

Prospects Never Better and Mills Preparing to Take Care of English Spruce Demands

"Alaska shipped 2,000,000 feet of clear spruce through Seattle last year, and will far surpass that figure this season," declared B. F. Heintzleman, assistant U.S. district forester, with headquarters at Juneau, to the Post-Intelligencer in Seattle last week.

"Lumber prospects never were better. Large orders for clear spruce are coming in from England. The Ketchikan Spruce Mills are now installing a new electric sawmill of 100,000 feet daily capacity, the Juneau mill is being enlarged and improved, and extensive changes are being made in Wrangell mill and loading facilities to take care of the increased demand.

Practically all Alaska's lumber comes to Seattle for shipment, either by rail or boat. "Government foresters," says Heintzleman, "have cruised and mapped 500,000 acres of pulp timber and blocked it into units for sale. We have mapped water power sites to be used by concerns buying the pulp rights. In addition, we have leased 125 islands of from 2,500 acres down to private firms or individuals for blue fox farming which is rapidly becoming a leading industry."

TELKWA

The last few days, the weather has been decidedly like spring, but the nights are very cold and frosty.

Mrs. A. Walker left last week for the coast, where she will spend several weeks visiting her daughter.

On Friday night, a Boy Scout concert under the direction of F. B. Chattleburg, was given in the Telkwa Hall. It was a very great success and credit is due many local artists who so willingly gave their services.

Mrs. J. Green entertained the ladies of St. Stephen's Guild at the Mission House on Tuesday. Work is being prepared for the Easter tea.

The bridge over the Telkwa river is growing fast and when completed will be most useful.

The various contracts for ice have been completed, so the stores are all ready for a hot summer.

The dance in aid of the Telkwa Library which was to have been held on March 17, has been changed to Friday, March 13, as is not to conflict with a dance on that date in Smithers.

All the teachers in this part of the district attended the convention in Smithers and found it a very pleasant and interesting break in the term's work.

SMITHERS

E. E. Orchard, proprietor of the Buckley Hotel, returned to town on Sunday, after a long a pleasant holiday spent sight-seeing in the coast cities from Vancouver to Los Angeles.

Miss Helen Grant until receipt on the staff in the Public Works office left on Sunday for a visit to her parents in Hazelton.

On Monday, March 9, a son was born to Mr. and Mrs. H. Salembier of Smithers.

Mrs. A. F. Ford and young daughter, left on Tuesday's east bound train on an extended trip to be spent visiting friends and relatives on the prairies and in the eastern states.

A. Brooksbank, a member of the Dybhavn & Hanson staff at Prince Rupert, is spending a few days in town.

E. G. Belicini, of Houston was a business visitor in town early in the week.

M. G. McLeod, an official of the Forestry branch stationed at Finlay Forks, was a visitor in

town, looking up old acquaintances. Mr. McLeod has a fund of first hand information on the subject of a railway for Peace River, and his views on the most feasible route were sought by those interested in this question.

Chief Constable W. J. Service left for the west on Tuesday night's train, at Kitwanga he picked up a man charged with robbery whom he took on to Prince Rupert for trial. Mr. Service expects to go as far as Victoria before returning to Smithers.

Ten Years Ago in Prince Rupert

March 11, 1915.

Fears are expressed for the safety of Father Leroux and Father Rouvère, Roman Catholic priests, and it is believed that they may have been murdered in the Mackenzie River country. They have been missing for some time and an Indian is said to have been seen recently wearing their vestments.

Edward Brown of the Queen Charlotte Petroleum Co. intends to diamond drill on Graham Island in order to test oil possibilities. The management believes that a drill will show beyond all doubt that oil exists in the district in commercial quantities.

With the development of the halibut fisheries out of this port, it is believed that the local dry dock will be used extensively for the building of fishing vessels.

The Man in the Moon SAYS:

IF exercise gave slender lines, some tongues would be nothing but length without breadth.

THERE once was a woman who apologized, but that was long, long ago.

THE man I should like to be is the city engineer. I like to be nagged.

EVERYONE is entitled to an opinion as long as he does not express it or whispers it softly. However there are exceptions to even this rule.

WHY be always looking for cures when there's nothing wrong?

VIRTUE is all right, but why must it always be so plain?

TWO things necessary to happiness in summer are a clear conscience and a motorboat, says Jake. And, he adds, if it's to be a choice of the two, give me the little boat.

FOR a good place to learn the art of polite conversation, give me the city council every time.

NOW I come to think of it, I

Baker's Cocoa

CHILD IS TORN FROM MOTHER

Four Year Old Daughter of Mrs. Carl Johnson Taken by Father this Morning

Guests at the Prince Rupert Hotel this morning were startled to hear the screams of a child there soon after seven o'clock and this was followed by the frantic efforts of a young woman to reach the front door ahead of a man with a child, accompanied by a policeman.

Inquiries elicited the fact that the woman was Mrs. Carl Johnson and that it was her little four year old child who was taken away by the father.

The story as told by Mrs. Johnson is that she was preparing to leave on the Princess Mary for the south when there was a knock at the door and on opening it she found Johnson accompanied by Sergeant Bailey. Johnson said he had come for the child which she was not to take away. She asked what authority he had and he, pointing to the officer, asked if she wanted more authority than that.

Johnson then grabbed the child, tore it from her mother's arms and rushed off down to a waiting car and drove away and since that the mother has not been able to find it and she is nearly frantic over the loss.

Mrs. Johnson is divorced from her husband under U.S. laws.

Mother is the Health Doctor

She knows that dust and dirt contain dangerous disease germs. So she guards the health of her family by the use of Lifebuoy. Its soothing, creamy lather carries a wonderful health element deep into every pore, removing all impurities from the skin. The health odour vanishes quickly after use.

FORMER KLONDIKER COMMITTED SUICIDE

John Moran Aced Hotel Proprietor at Esquimalt Cut Throat with Razor

VICTORIA, B.C., Mar. 11.—John Morgan, 85 years old, proprietor of the Coach and Horse Inn at Esquimalt, a Klondike soundough, who served as mate on ships plying to Alaska during the gold rush days, committed suicide yesterday by slashing his throat with a razor.

Some years ago he lost a leg when caught in the cable of one of the vessels on which he was working. He is survived by a widow and four children.

HALIBUT PRICES STILL MOVING UP

The steady rise in halibut prices at the local Fish Exchange continues. This morning American boats were paid over 14c and 6c, while the Canadian bid was 14c and 4c.

Arrivals and sales were as follows:

American
Paragon, 63,000 lbs., at 14.1c and 6c, to the Altn Fisheries.
Venus, 31,000 lbs., at 16.9c and 6c, to the Canadian Fish & Cold Storage Co.

Canadian
Nuba, 1,500 lbs., at 14c and 4c, to the Canadian Fish & Cold Storage Co.

REMOVE ROCK AT ACROPOLIS

Proposal of Baseball and Football Associations to Tax Selves to Raise Cash

At the meeting of the exhibition association last night it was reported on behalf of the Football and Baseball associations that they were willing to allow from five to ten per cent of the proceeds of the games to go to a fund toward removal of the big rock which at present spoils the grounds on Acropolis Hill and to building a grand stand. It was thought that if this was removed the grounds might become a good revenue producer. It might be used for races among other things.

The associations have no money at present but if the city advanced the cash they would tax themselves to repay it.

The matter will be further considered.

STEWARD OF PRINCE GEORGE FOUND IN AN UNCONSCIOUS STATE

J. L. Dibbs in Hospital with Serious Injuries Following Fall at Dry Dock

On Monday night J. L. Dibbs, a steward aboard the steamer Prince George, was found lying on the floor of the pontoon on which the vessel has been raised. He was in an unconscious condition, having apparently fallen from a ladder when boarding or leaving the ship. He received internal injuries and is now in the General Hospital in a condition which is reported to be serious.

C.N.R. steamer Prince John, Capt. E. Mabbs, is due on Friday from Vancouver via the Queen Charlotte Islands.

At 5.30 yesterday afternoon, the fire department had a call to a grass fire on Ambrose Avenue which did not damage.

Mrs. J. Anthony and child of Remo, B.C. are visiting with Mr. and Mrs. P. Gamula and will return to Remo on Monday.

Passengers sailing last night on the Camosun for Vancouver included J. Chapot, Mrs. J. Meadley, Nick Murchie, M. J. McKay and J. H. Pearce.

Peter Hole is now purser of the C.P.R. steamer Princess Mary replacing Norman Taylor who has gone to the Princess Louise in the Vancouver triangle service.

Southbound from Alaska to Vancouver, C.P.R. steamer Princess Mary, Capt. C. C. Sautrey was in port from 7 to 8.30 this morning. The vessel will be here again on Monday next northbound.

Art Easson sailed this morning on the Princess Mary for Vancouver. A large number of his friends assembled at the government dock as the boat pulled out and gave him an enthusiastic farewell.

Union steamer Camosun, Capt. J. A. Findlay, returned to port from northern mining and canneries points at 9.30 last night and, after taking on halibut at the fish houses, continued her voyage to Vancouver.

Found guilty of committing a statutory offence, Herbert H. Valpey was fined \$50 and sentenced to six months at Okalla by Magistrate McClymont in the city police court this morning. E. F. Jones prosecuted and L. W. Patmore defended.

J. L. McCloskey, at one time in the local C.P.R. office, more recently at Juneau and now transferred to the city freight department in Seattle, is to be joined in the south by his mother and sister, Miss Laura McCloskey, who were passengers bound south from Juneau on the Princess Mary this morning.

SHAMROCKS MUST GO BACK TO IRELAND

Bottle of Something to Keep Them Green Found in One Package

BOSTON, Mar. 11.—More than 1,000 packages of shamrocks must be returned to Ireland under the immigration ruling regarding the importation of live plants to prevent the encroachment of pests.

Inspectors found a bottle of whiskey in one box with a note reading "This will keep ten shamrocks fresh, so St. Patrick said."

FINGER PRINTS ARE IDENTIFIED

Only Few Minutes Required to Pick One From Seven Million

WASHINGTON, Mar. 11.—Finger print identification has been developed by the army to the point of efficiency where its application at times vies with the thrills of detective fiction. Any unidentified man who has served in the regular army can be located in from 10 to 20 minutes, and his full record laid bare. In that short time a searcher finds him among the more than 7,000,000 men who have been in the army since 1906, when the finger print system was introduced. He may have been one of the 50,328 Smiths, the 40,101 Johnsons, the 28,902 Browns, or one of the 27,938 named Williams. All army needs is his finger print to turn up his record.

Walter S. Kaye, in charge of the bureau, says the indexing has been worked out so efficiently that even a new clerk, one never before having had knowledge of the system, can begin work as a searcher with little preliminary instruction.

The science of finger print reading is based on the study of the various, circling network of all but invisible lines on the ball of the thumb and each finger. Examination of millions of specimens shows that the normal formation is the whorl, or the scroll which winds these lines from the outer edge in a gradually reducing circle to their termination at the core of the network. A majority of human beings are marked with this scroll, but there are others whose finger print lines run in flattened figures or in complicated combinations of figures far removed from the simple, easily read whorls. The first step in identification has to do with determining the broad general division in which the prints under examination are to be sought.

Four Main Groups
There are but four main groups or classifications of prints, arches, loops, whorls and composites. Each type has its gradational cases. The whorls have 1,024 values or combinations and the loops, arches and

Grows Hair In 90 Days Money Back if it Fails

A minute a day is sufficient time to devote to this new method scalp treatment. Van Ess Liquid Scalp Massage is applied with a patented rubber applicator attached directly to the bottle. ENGLAND EATS MANY APPLES

Fruit Campaign Has Diverted Business from Meat Shops of London

CORN ON COB THERE

LONDON, March 11.—An "eat more fruit" campaign throughout England has recently brought the American apple into more prominence than it ever has enjoyed heretofore. The fruit is now being sold in the groceries and the luxury shops, and from push carts in the streets of London.

Canadian Fruit

The campaign has brought to the fore also the American apple's neighbor, the Canadian apple, but in most cases the product of Oregon and Washington appear to be a favorite. American apples retail here at a few cents a pound more than they do in cities of the United States.

In addition to American cranberries, Florida and California grape fruit and oranges, various other fruits from the other side of the Atlantic, Americans in London this winter have enjoyed the privilege of being able when they were willing to pay the price, to treat themselves to fresh corn on the cob, at about one shilling the ear. The corn, in the husk, has full white grains and is imported in barrel lots from South Africa. It has much the same appearance as the corn from America, excepting that the ears, perhaps, are a trifle longer and more slender.

Insult to Butchers

Butchers are far from happy over the efforts to popularize the eating of fruit. Boosters for the apple recently set going a song, "Don't eat mutton, don't eat lamb," which made them particularly wrathful. In complaints to various official sources they described the song as an insult to the trade, and retaliated with another composition extolling "beef for brawn and brains."

IRELAND TO ABOLISH MANY DRINKING SHOPS

Half the Number Likely to go Following Report of Commission

DUBLIN, Mar. 11.—The Free State government has appointed a commission of nine persons to inquire into the excess in the number of drink shops. There are more than 15,000 in the 26 counties. Some small towns have as many as 70 shops where drink is sold. It is agreed that at least half the number should be abolished, and the work of the commission is to find out what scale of reduction should be adopted.

As in England, which has seen a large reduction in the number of drink shops, the problem of compensating the dispossessed

DO YOU COUGH, COUGH ALL NIGHT LONG?

Terribly distressing and wearing on the system is the cough that comes on at night and you cough, cough all night long and can't get to sleep.

DR. WOODS NORWAY PINE SYRUP WILL GIVE YOU RELIEF

Mrs. John Lyman, Enterprise, Ont., writes:—"After having had whooping cough I contracted bronchitis, and for days and nights I coughed continually, and could get no rest or sleep, but after taking one bottle of Dr. Woods' Norway Pine Syrup I found great relief, and after having taken several bottles I was relieved of my trouble."

This valuable cold and cough remedy has been on the market for the past 35 years; you don't experiment when you buy it; put up only by The T. Milburn Co., Limited, Toronto, Ont.

composites have each their respective values to simplify segregation for filing and to make them easily located when identifications are sought. The valuation of prints thus made has overcome all difficulties of dealing with large collections of finger markings, such as are in the army files.

KICKS AT HAVING TO PAY SO MANY CALLS

Merchants are Often Sore but Here is One Who Lets off More Steam than Usual

Merchants of Prince Rupert can appreciate what it means to get sore at the continual calls made upon them for help to various organizations and for taxes on everything they possess. Sometimes they protest. Here is a protest made by an oppressed one during the later days of the war which still to a large extent expresses what many feel: "Assessment Department. "Dear Sir—For the following reasons I am unable to send you my income return for at least ten days from this date. "I have been held up, held down, sandbagged, walked on, sat on, flattened out and squeezed. First by the dominion for federal income tax, the excess profit tax, and for Victory Bonds, thrift and luxury tax, capital stock tax, merchants' licenses and auto tax, and by every society and organization the inventive mind of man can invent to extract what I may or may not possess. "From the Society of St. John the Baptist, the G.W.V.A., the G.A.U.V., the Women's Relief, the Navy League, the Red Cross, the Black Cross, the Purple Cross and the Double Cross, the Y.M.C.A., the Y.W.C.A., the Boy Scouts, the Jewish Relief and every hospital in town. Then on top comes the Associated Charities.

"The government has so governed my business that I don't know who owns it. I am inspected, suspected, examined and re-examined, informed, required and commanded, so I don't know who I am, where I am, or why I am here. All I know is, I am supposed to be an inexhaustible supply of money for every known need, desire or hope of the human race, and because I will not sell all I have and go out and beg, borrow or steal money to give away, I have been cussed, discussed, boycotted, talked to, talked about, lied to, lied about, held up, hung up, robbed and nearly ruined, and the only reason I am clinging to life is to see what in h— is coming next. Yours truly,

CANADIAN FOXES ARE BRED IN GREAT BRITAIN

Farms Have Been Started in Scotland and Down in Oxfordshire

LONDON, Mar. 11.—British farmers are watching with much interest the experiments which are being made here in an effort to make silver fox farming in England a paying proposition. Farms have been started at Ainess in Scotland, and Oxfordshire and Bexhill-on-Sea. What effect this move will have on the price of silver-fox fur in Great Britain cannot at present be stated, but it has been proved during the last 15 years that the best and most costly examples of the silver fox are those of animals bred in captivity. The foxes have been brought here from Canada.

THAT'S DIFFERENTIAL

A man who had just started to drive a car was accosted by a friend who asked him for a lift. They soon found themselves in a crowded thoroughfare. The friend said: "Jim, your engine is knocking badly." "Don't be a fool," was the reply. "That's my knees."

Were the "Good Old Days" Really Good?

WHEN you hear an old-timer sigh for the days of his forefathers, smile quietly to yourself and think of this.

The ancients got along without automobiles, soap, stoves, tooth-brushes, window-glass, breakfast foods, tele-phones—without practically all of the things we consider the bare essentials of life.

There never has been a time when life bettered itself so rapidly and so consistently as now. New conveniences and new comforts are continually being thought out and brought out for your benefit.

In order to reap the advantages that are yours to-day, you must read the advertisements. They bring you news of all that the world of invention and discovery is doing to make your work easier, your home life more pleasant, your clothing and food problems less difficult. They keep you informed of all that is new in the markets and stores. They tell you not only about the goods, the styles, the varieties and prices, but also where and when these things are to be had.

The advertisements are messages from the business world to you. Heed them.

Don't overlook the advantages that are yours Read the advertisements

JEW'S SUPPORTING LEAGUE OF NATIONS

Palestine Society Formed at Suggestion of Brussels Organization

JERUSALEM, March 11.—The Jews of Palestine, whose political status in the national home is safeguarded by the League of Nations mandate entrusted to Great Britain, are being organized as supporters of the League.

A meeting was called recently in response to a suggestion from headquarters of the League of Nations Union in Brussels to organize a Palestine society for the support of the League. The conference was attended by leading Jewish residents, including the editors of the Hebrew press, and it was decided to proceed with the formation of a Jewish League of Nations Society.

THREE HUNDRED YEARS IMPRISONMENT MADRID

MADRID, Spain, Mar. 11.—An official of the municipal corporation of Bejar, a town near Salamanca, has been sentenced to imprisonment for periods aggregating 308 years. The man was accused of falsifying public documents, and his punishment was fixed by the law courts of Bejar at a little under 15 years imprisonment, for each of 21 counts, with a fine of \$150.

The same court not long ago sentenced a former mayor to a series of terms of imprisonment totaling 396 years and 27 1/2 days. Both men have been serving their jail sentences.
