ARE PREPARING TO BUILD NEW CANNERY

PLANS ALL READY FOR BURNS' ABBATOIR; AWAITING ACTION OF RAILWAY

Work on New Cannery Begins in Two Weeks Clearing is going on

Actual construction of the new Millard salmon cannery at Seal Cove will start about February 20 so that the plant may be ready for operation when gill net fishing season starts on June 20, announced W. J. Jefferson, manager of the plant, this morning. Already work of clearing away for the plant is in progress. Work on the wharf will be the first step and this will be followed by the erection of the main building.

The Millard cannery will be similar in size to that of the Canadian Fish & Cold Storage Co. at Tucks Inlet. It will be the type of a plant known as a two line cannery.

SNOWDRIFTS ON RAILWAY CAUSE TRAIN'S DELAY

Drifts extend intermittently for forty miles between Kwinitsa and Amsbury. Snowplows working. One hundred men sent to scene but unable to work and return to city.

With snowdrifts from 10 to 30 feet deep piled up on the track at various points between Kwinitsa and Amsbury, a distance of some forty miles, the local division of the Canadian National Railway is experiencing the worst tie-up from snow on record. The trouble is accentuated by the continuation of heavy snowfalls, cold weather and bitter winds.

The railway company has all possible equipment at the scene of the trouble endeavoring to clear the track and a rotary snow plow is being pushed through. Yesterday about 400 men were sent out from here but it was found that their services would be of little use owing to the nature of the work, so they were sent back.

It was stated at the general superintendent's office today that the train, due from the East at 7 o'clock this morning, could not be expected in until after midnight tonight. The train, scheduled to leave for the East at 5 o'clock this afternoon, will not pull out until tomorrow morning at 8.30.

TAYLOR WRATHY OVER HIS BEER

Wants Humanizing of Places Where it is to be Sold as he Recommended

VANCOUVER, Feb. 4.—Mayor Taylor declared that he declined the responsibility of enforcing the beer regulations laid down by Attorney General Manson, which he termed "impracticable and unworkable." He expressed surprise that the government did not pay more attention to the recommendations of the city solicitor and himself and said: "These regulations will not close down blind pigs, unless the places where beer is to be sold are humanized to some extent. People will not care to patronize them. We recommended the sale of tobaccos and light lunches be allowed."

ORME IS NEW CHAIRMAN OF SCHOOL BOARD

Estimates Considered at First Meeting of Year Held Last Night.

BOOTH SCHOOL WORRY.

Need of More Playgrounds Emphasized by Principals and Considered.

C. H. Orme is the new chairman of the schoolboard. He was appointed at the first meeting of the year held last night in the city hall. Most of the time of the meeting was devoted to a discussion of the estimates for the year, which totalled \$72,442, exclusive of repairs to the buildings, the amount of which is yet to be decided on.

Extraordinary expenditures including an amount for a new playshed were also passed.

The sum of \$400 was set aside for the domestic science department for supplies and to purchase three new sewing machines, which are badly needed by the pupils.

Extensive repairs will have to be made this year at Booth, Borden and King Edward schools. A letter from the janitor of Borden Street school told of repairs needed to the roof of that building and other improvements.

The condition of the walls at the Booth school was discussed and in connection with this a consultation will be held with Architect Cox, who is expected in the city shortly and who has offered his services without cost in that respect. Until this consultation has been held it will be impossible to tell what the estimate for repairs will be.

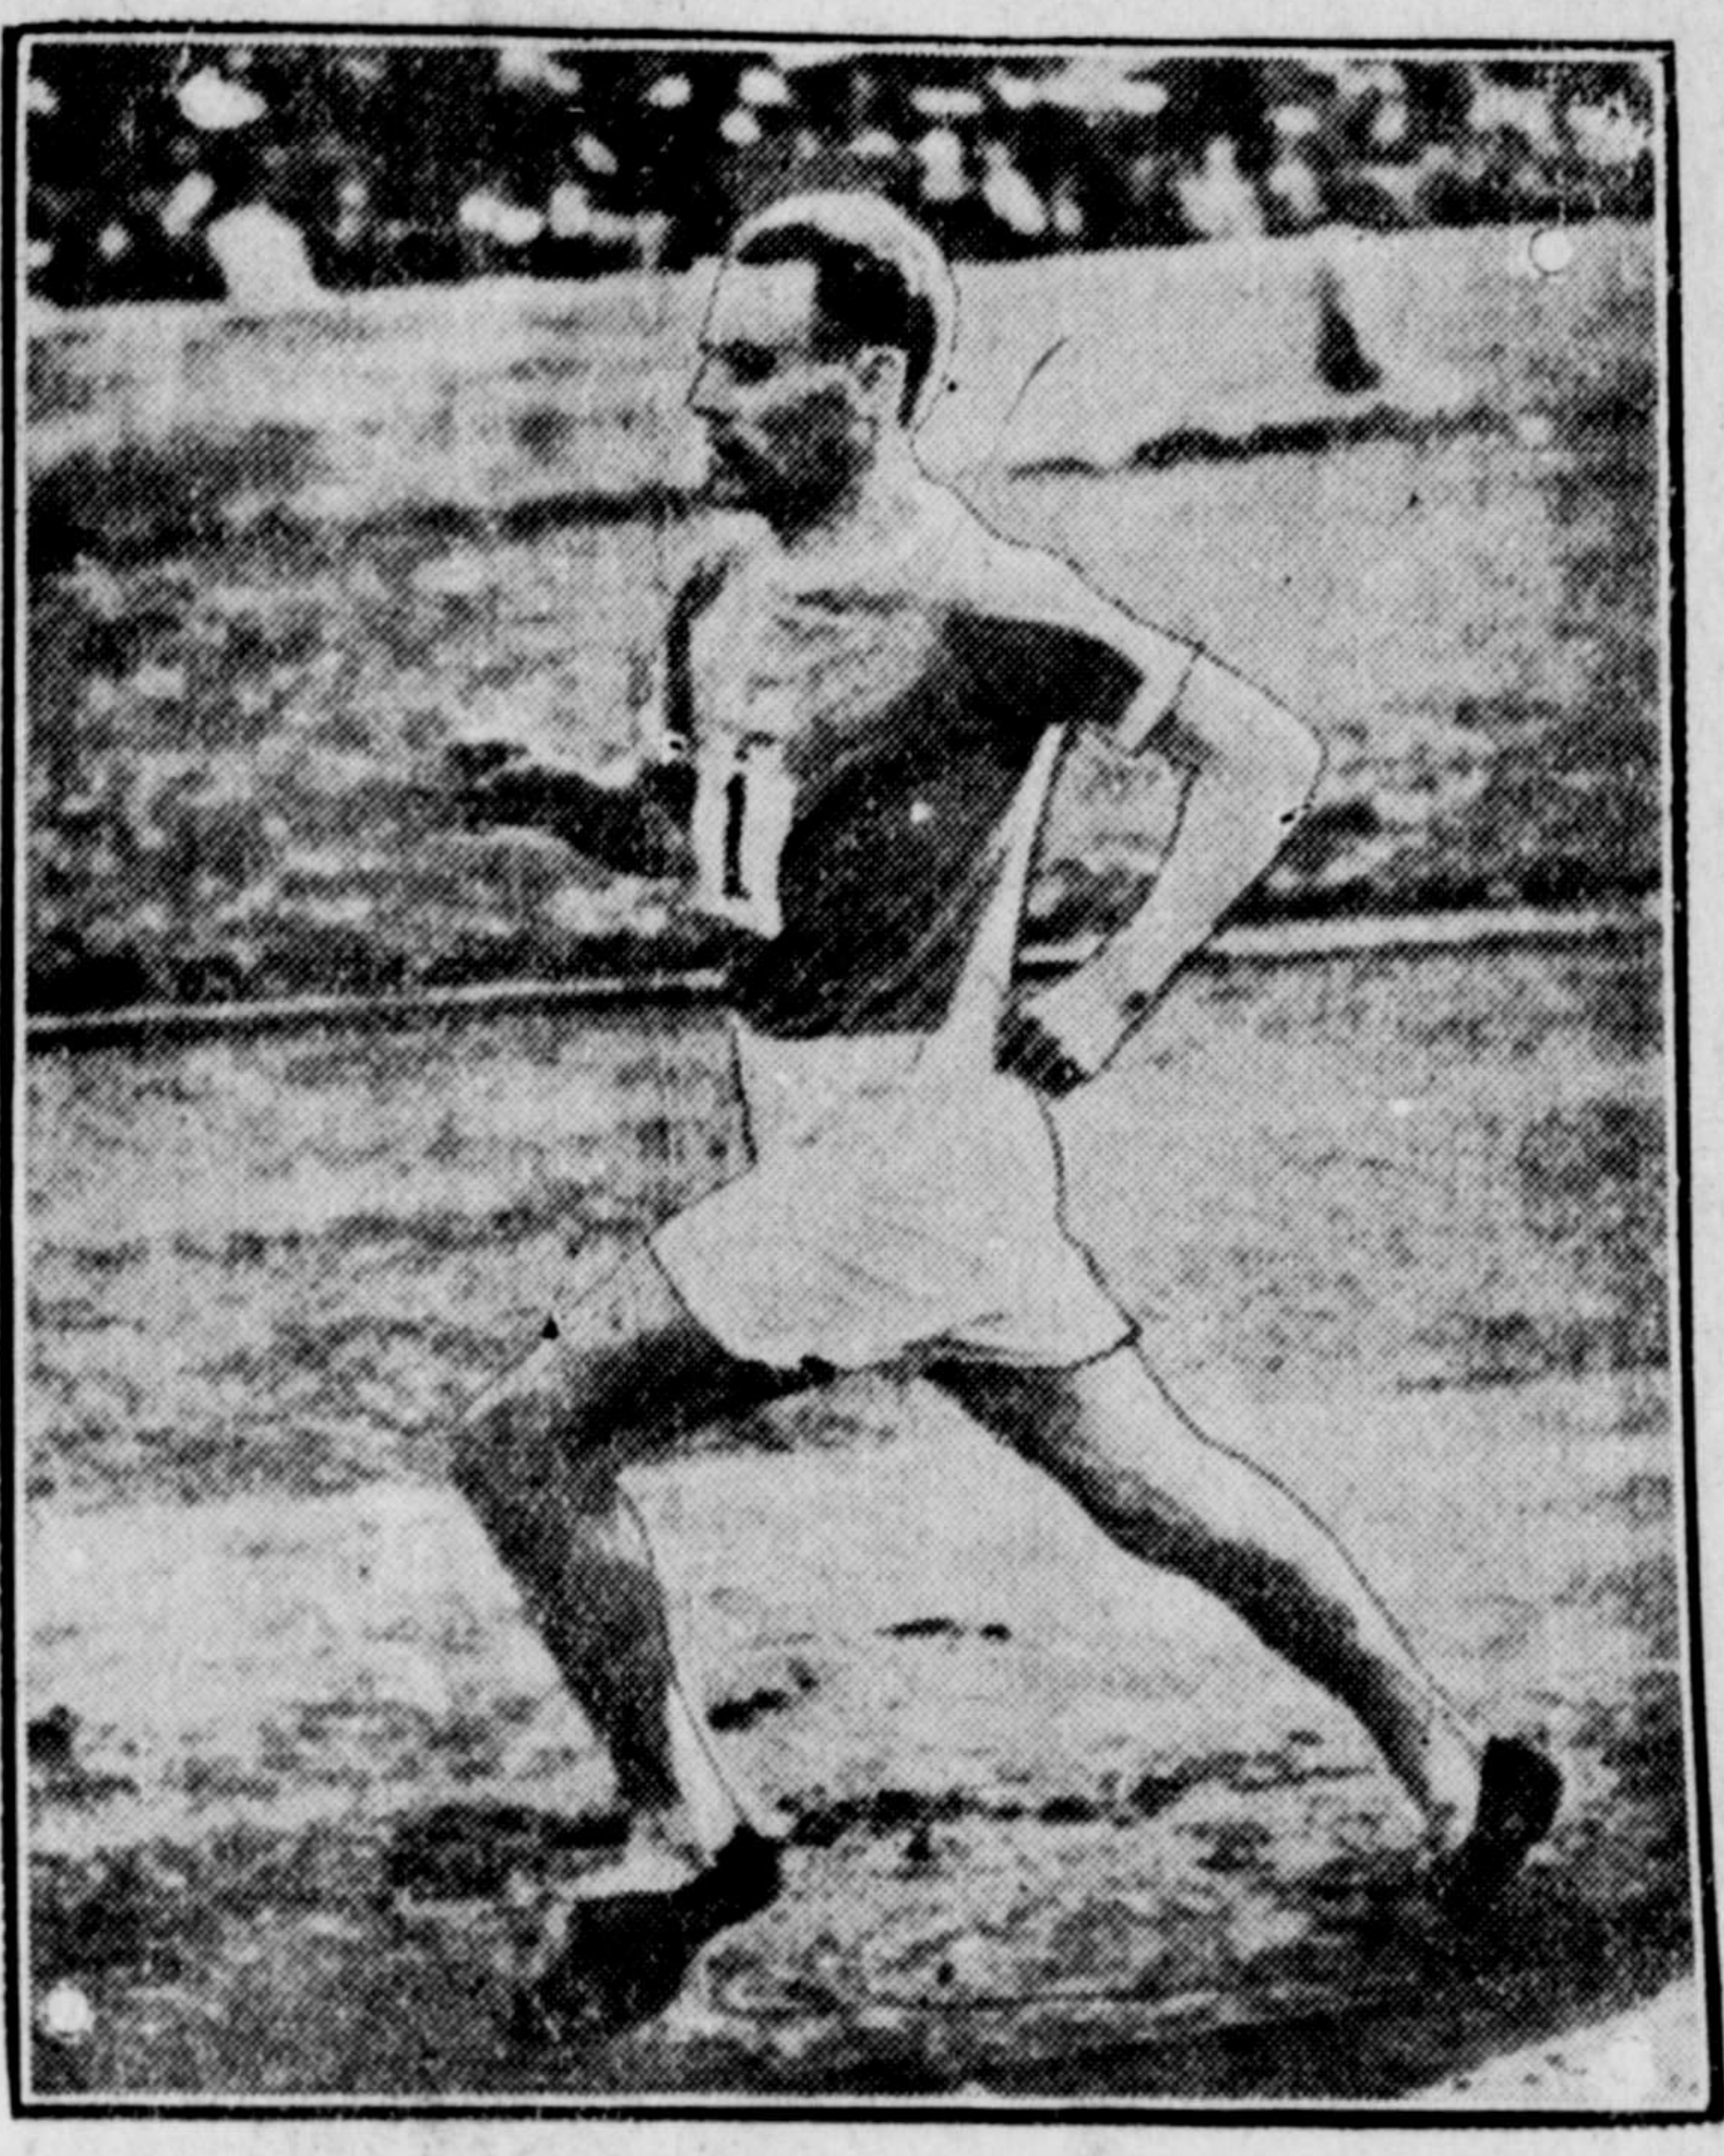

The school library is to get better treatment this year. An encyclopedia is to be purchased for the High School and at the other schools more books will be provided for the use of the pupils.

J. C. Brady spoke to the Board on the need for more playgrounds and Principal Harness also emphasized the same thing, particularly in connection with the Booth School. The matter will be taken up with the city with a view to improvements.

The question of providing a piano for the Seal Cove school came up for discussion but it was pointed out that an entertainment was being put on next week at Booth School auditorium to raise money for that purpose and the Board will probably supplement the amount so raised in order that a piano may be purchased. The entertainment is being arranged by Miss Stewart, who is now in the hospital. It consists of a humorous play in which a number of local young people are taking part.

The sum of \$800 was set aside for transportation of pupils from the outlying sections of the city. The estimates will be completed at the regular meeting of the board.

Reporting on behalf of the building and grounds committee of which he was chairman last year, Fred Seaden reported at the annual fair meeting last night an examination of the building had been made lately and minor leaks had been found in the roof. President Greer pointed out that this was an annual condition which was to be expected.

Here is one of the few photographs of Paavo Nurmi, great Finnish runner and breaker of world's records in action. It shows how he carries his body to win so many races.

Building of Abattoir Awaits Action of Railway Company in Laying Out Tracks says Manager

Just as soon as the Canadian National Railways have definitely decided on trackage facilities to be put in, P. Burns & Co. Ltd. will proceed with the erection of the abattoir at Gow Bay according to a statement made this morning by R. E. Moore, local manager of the company. Plans are out for the structure and everything is in readiness for the actual building operations.

An official of the railway company is expected here at any time from Winnipeg to lay out the trackage. He left Winnipeg recently but is understood to have gone to Vancouver.

The Edison Coal Co. and the Consumers Coal Co. are also awaiting the decision as to the laying out of the tracks before proceeding with the building of coal storage facilities at Gow Bay.

SWANSON BAY CARRYING ON

Word received from recent arrivals from Swanson Bay was to the effect that the employees at Swanson Bay all had notice to leave at the end of January. Further advices today indicate, however, that the mill is still running and carrying on as usual.

At present the mill is being operated by the receiver.

CHARTER PRINCESS LOUISE FOR TOUR

California Knights of Columbus to Make a Trip up This Coast

SAN FRANCISCO, Feb. 4.—California Council No. 880 of the Knights of Columbus is chartering the C.P.R. steamer Princess Louise to convey the members of the council through the famed inland passage to Prince Rupert and Alaska to the land of the midnight sun, next summer. Grand Knight Dan Maher is in charge of the outing which will take seventeen days. A special train will convey the passengers from California to Seattle and will meet them on their return so that no time may be lost.

The tentative plans provide that the party leaves here June 13 and arrives back on June 27 or 30. The cost of the round trip is set at about \$262 for each person.

NEW DIRECTORS OF FAIR BOARD

Annual Meeting of Northern B. C. Agricultural Association Last Night.

The annual meeting of the Northern B. C. Agricultural and Industrial Association took place last night in the city council chamber, President Joe Greer in the chair.

Election of nine directors for the year who will serve in addition to Ald. Brown and Ald. Perry, representing the city council, and managing director D. McD. Hunter, resulted in the following being chosen: Frank Dibb, Ben Self, Fred Scadden, Dan Jabour, W. D. Vance, W. H. Sherman Jr., S. D. Macdonald, John Bulger and A. D. Plant. The last mentioned was elected after having been tied on the first ballot with Dr. F. P. Kenny. Others nominated for the directorate were Fred Henning, Geo. Kerr, W. J. Kirkpatrick and H. N. Delmonico. President Joe Greer declined to have his name put before the meeting.

George Borie was chosen auditor for the Association.

A vote of thanks was passed to the retiring president and board of directors. Members of the Association present at the meeting were: Joe Greer, Frank Dibb, D. McD. Hunter, Fred Scadden, D. Jabour, John Bulger, W. J. Kirkpatrick, George Kerr, H. N. Delmonico, J. Jabour, A. D. Plant, W. H. Sherman Jr., G. A. Hunter and W. J. Raymond.

FUNERAL OF LATE PETER JUDGE WAS HELD THIS MORNING

The funeral of the late Peter Judge took place at 10.30 this morning from the chapel of Hayner Bros. Undertakers to Fairview Cemetery. Rev. Archdeacon G. A. Rix officiated and there was a good assemblage of friends of the deceased present.

The pallbearers were L. Peterson, A. Cadwallader, H. Swanson, H. Hayes, P. Wills and E. Campbell. Flowers were sent by the Longshoremen's Union, Robert Hanna, Mr. and Mrs. F. Brochu, W. E. Bailey, Robert McMillan, and "A Friend."

TO SHIP MORE PALLADIUM ORE

Another Boat Expected to Alternate With Prosperity In Coming Here

It is planned at an early date to increase shipments of palladium concentrates through this port from the Salt Chuck mine at Alaska to the Irvington smelter in New Jersey. For several months, these shipments have been coming through here at the average rate of about thirty tons a week on the power boat Prosperity. Increasing of the shipments may mean the obtaining of a new boat for the bringing of the ore here to be shipped East on the Canadian National Railway. The Salt Chuck mine is owned by J. E. Chibberg, well known Seattle financier. The ore is worth something like \$400 per ton.

The Prosperity was in during the night with another shipment. She arrived shortly before midnight and returned north at noon today.

FED CHILDREN GROUND GLASS

Death of Children in Manitoba Said Due to Food

LOS ANGELES, Feb. 4.—When members of the Platt family refused to eat a mixture of paste sulphuric acid offered by Alsa Thompson to the seven year old boarder, she became angered and slashed the wrists of the Platt child with a razor. Alsa told the police. She later fed the twin sisters ground glass causing their death, when the family resided at Dauphin, Manitoba.

Winnipeg officials say there was nothing to warrant the suspicion that the death of the Thompson twins was not due to pneumonia.

ARREST MADE MURDER CASE

Taxicab Case Sunday in Which Victoria Woman Was Victim

SEATTLE, Feb. 4.—Elmer Manheart, 40 years of age, a carpenter, wanted in connection with the murder of Mrs. Morley, 29 years of age, of Victoria, in a taxicab here Sunday, has been arrested.

BOAT OWNERS WILL MEET FISHERMEN

Hoped That Agreement Will be Reached at Joint Conference to be Held This Evening

At a meeting of the Canadian Halibut Fishing Vessel Owners' Association held in the city police court last night, the proposed agreement between the boat owners and fishermen was discussed in detail and it was decided to hold a conference with members of the Deep Sea Fishermen's Union in their hall tonight when the whole matter will be threshed out in the hope of coming to an agreement on a few outstanding points. There was a large attendance at the meeting last night which was presided over by Dan Larsen, president of the association.

DIPHTHERIA AT NOME TREATED

SEATTLE, Feb. 4.—Diphtheria epidemic, which has been raging in Nome is under control. Twenty-nine cases have been treated with a portion of the anti-toxin which arrived from Senaua by dog team relays.

The Cold Storage plant will have just one fishing boat out on the independent lay this year, the Silka, with the same skipper as last year.

C. N. R. Steamer Prince Rupert, Capt. D. Donald, is due to arrive from the south on time at 3 o'clock this afternoon.

Striking Out For Things That Are New.

The person who always goes on the same old way becomes a mossback. The person who is always ahead looking out for something new is characterized as unstable, flighty or perhaps a crank. The safe midway is where the money is made and the credit is given. Yet we always admire the man who is willing to take a chance. That is, we admire him if he wins. If he fails we are apt to say "I told you so," or "I could have told you that before he began."

Eddie Guest, the rhyming philosopher, has something to say about this. He takes the side of the man in the front rank saying:

"The things that haven't been done before, those are the things to try; Columbus dreamed of unknown shores at the rim of the far-flung sky; and his heart was bold and his faith was strong as he ventured in danger's new, and he paid no heed to the jeering throng or the fear of the doubting crew. The many will follow the beaten track, with guideposts on the way; they live and have lived for ages back with a chart for every day. Someone has told them it's safe to go on the road he has travelled o'er, and all that they ever strive to know are things that were known before. A few strike out, without map or chart, where never man has been; from the beaten paths they drey apart to see what no man had seen. There are deeds they hunger alone to do; though battered and bruised and sore, they blazed the path for the many, who do nothing not done before. The things that haven't been done before are the tasks worth while today; are you one of the flock that follows, or are you one that shall lead the way? Are you one of the timid souls that quail at the jeers of a doubting crew, or dare you, whether you win or fail, strike out for a goal that's new?"

Way Of Leader Is Usually Difficult.

The person in the vanguard finds the going difficult. The story of the telephone is a case in point. This invention received no welcome from the business world. It was considered an interesting toy. Bell was even called an imposter. The Times alluded pompously to it as "the latest American humbug," and explained elaborately why speech could not be sent over a wire, because of the intermittent nature of the electric current.

The Saturday Review said, even after it had advanced a considerable amount in America

"It is inferior to the well-established system of air tubes." It was hailed everywhere as a subject of ridicule.

"Mothers-in-law would be able to send their voices around the habitable globe."

This was the first or ridicule phase, and it lasted ten years. Then came the struggle for efficiency and reliability. The earth return with its electrical disturbances was done away with; underground cables were substituted for overhead wires, instruments, switchboards and receivers were improved; long distance work became possible. This period lasted some ten years, and then came the period of expansion.

Report of Manager of Fair to Association at Annual Meeting Shows Excellent Work was Done

A comprehensive statement of the activities of the Fair Board during the year 1924 was submitted by D. McD. Hunter, managing director, in making his report at the annual meeting of the Northern B.C. Agricultural & Industrial Association which was held last night.

Active work in preparation for the Fair had commenced in January and the result had been a big and successful exhibition. From every quarter, the effort of the board during the year had been acclaimed a distinct success. The 1924 prize book stood out as a reminder of the ceaseless collaboration of many competent committees.

An outstanding feature of the year's work was the further improvement of the Exhibition building. The exterior had been painted, interior alterations made and a complete new lighting system was installed removing an element of danger that had prevailed.

Great Credit Due

Referring to the responsibilities of the sports and attractions, carnival queen contest and band committees, Mr. Hunter's report declared that it was to the very great credit of those in charge that, in the face of various disappointments together with broken weather during the Fair Week, that the association's finances had been kept solvent. "To cover the overhead of a dry weather program designed for field sports, industrial and band parades, carnival scenes and the like with a wet weather revenue is not often recorded and I cannot refrain from saying that here, as elsewhere, the willing sacrifice of time and energy and experience was very great."

Mr. Hunter acknowledged support and assistance that had come from many sources, both local and outside. Ladies had done valuable work in various capacities such as on sub-committees, and in connection with the tea room, baby show, etc. The board was fully appreciative of their services. School authorities had done valuable work in their department of the Exhibition.

Experience Gained

"The experience gained has been helpful and is of a constructive nature," concluded the report. "You have had vigorous service—the only kind that is worthy of you. Our governments are somewhat concerned over the numerous organizations of this kind throughout the country. It is hardly necessary to remind you that such institutions exist under very powerful and determining laws. The survival of the fittest is the definition of that law. It is your privilege and duty to see that the Northern B.C. Agricultural & Industrial Association continues to be an educating, practical and potent factor in the development of northern and central British Columbia.

"In conclusion, permit me to say that while your executive has been able to pilot the affairs of the association through without any deficit, and while under more favorable weather conditions an unusually large surplus would have remained, this latter condition was not the chief aim of the board of directors. District exhibitions as such differ essentially from private enterprise. Their aim is rather to demonstrate our industries, to display our natural resources, to incite our people to healthy competition, in short to foster all lines of industrial endeavor.

Support of District

"We have had many good exhibitions, and the people of this district are to be congratulated on the foresight displayed and on their growing tendency to face the tasks of development by showing a united front. It goes without saying that on request your office could get on its files an unmistakable expression of this feeling just as speedily as the mails could operate.

"Our aim then is development and the medium employed co-operation not only among those interested locally, but among the citizens and organizations throughout the country.

"As we understand it, the annual meeting is chiefly for the delegation of executive authority for the coming year. It has been conspicuously noticeable during the year just ended that where the most excellence was shown was where special sub-committees took it in hand to give of their time and experience. We need only refer you to the fin-

ished effect of our exhibits, the preparation and arrangement of inside booths, the more comfortable appearance of the tea rooms. It will be possible to build upon this experience and you are invited to place upon your Board those who are known to work and wear well.

Encouraging Outlook

"Your attention is drawn to the outlook for 1925. To say the least it is most encouraging. It is not improbable that Western Canada is on the eve of appreciable development and to very greatly assist in giving stimulus and direction your association will be called upon to exert itself as perhaps it has never done before."

WHIST DRIVE AND DANCE GIVEN BY ODDFELLOWS

Benefit Affair Well Attended in Boston Hall Last Night

Between 250 and 300 persons attended a benefit whist drive and dance which was held last night by the Rebekahs and Oddfellows in the Boston Hall. A very enjoyable evening was spent.

Winners at whist were: Ladies' first, Mrs. H. J. Smith; ladies' second, Mrs. J. Parks; men's first, L. C. Ely; men's second, W. Rothwell. The prize for the highest ladies' score at one table went to Mrs. K. Hallberg.

Raffles resulted as follows: Five-dollar gold piece won by Mrs. J. Boulter.

Cut glass vase, donated by Mrs. E. Ireland, won by Miss Heilbronner.

Refreshments were served and dancing was then enjoyed, music being furnished by Miss St. Cyr's orchestra which donated its services.

A. R. Phillips was master of ceremonies. P. J. Solem was on the door and the committee consisted of Mrs. S. V. Cox (convener), Mrs. W. McLean, Mrs. J. Boddie, Mrs. W. S. Hammond, Mrs. James Irvine, C. G. Minns, P. J. Solem, George Leek, S. V. Cox and a number of others.

BETTER BABIES' CONTEST VALUE

Lives of at Least Two Children Saved as Result of Doctors' Examinations.

Speaking of the value of the Better Babies' Contest in connection with the annual exhibition, Frank Dibb, chairman of the committee in charge of the department, stated at the annual meeting of the Northern B. C. Agricultural and Industrial Association last night that through advice that had been given by the examining doctors last year, lives of at least two babies had been saved.

Mr. Dibb acknowledged invaluable assistance that had been given by Dr. Tremayne, Dr. Cade, Dr. L. W. Kergin, Dr. West, Mrs.

DON'T LET YOUR BOWELS GET CONSTIPATED

A free motion of the bowels every day should be the rule of every one who aspires to perfect health, for once the bowels become constipated and clogged up, all the other organs of the body become deranged.

Keep Your Bowels Regular by Using

MILBURN'S LAXA-LIVER PILLS

They will clear away all the effete and poisonous matter which has collected in the system, give you a free, easy and natural motion of the bowels every day, start the sluggish liver working, and give tone and vitality to the whole intestinal tract.

Milburn's Laxa-Liver Pills are for sale at all druggists and dealers; put up only by The T. Milburn Co. Limited, Toronto, Ont.

"Bring me a . . ."

At the top are seen the chefs at work on the new train which operates between Montreal and Winnipeg over Canadian Pacific lines in 39 hours 45 minutes, daily. Below, a comfortable meal with a landscape changing many times with each course.

How would you like to be called upon to prepare a meal for 125 or more people in a kitchen 21 feet long and a little over 6 feet wide, in which four other than yourself were working, and in which all your stores and supplies were kept? You might consider it a fairly tall order, and yet day after day many men are doing this very same thing at least three times a day in the kitchens of the railway dining cars which render travelling hotel service across the continent. In addition to the space mentioned, the kitchen and dining room staff have only a pantry seven feet by six in which to work, yet who has not wondered at the seeming magic with which the waiters produce at very short notice the choicest of foods and drinks, cooked and garnished to tempt the most dainty appetite and appease the most hungry?

The key note of this remarkable service is, of course, system, and then training. Investigating, one finds that each class of food has its own refrigerator, and that each refrigerator and ice-well, each drawer and each of the innumerable lockers are so arranged as to permit of ready access with the minimum amount of lost motion. Everything has and is in its place, the separate refrigerators being provided in order to avoid absorption of odors from the pungent variety of foodstuffs by those of a more delicate quality. The cooking is done on a broiler in the case of steaks, fish and ham, etc., or on the large coal range. Dairy products and fruits are stored in the pantry where silver, glass-ware and crockery is kept.

The preparation of the menu card is done under the personal supervision of the superintendent and a full

set of bills of fare covering all meals to be served the run, are handed to the steward and chef. They run out a requisition for the necessary quantity of supplies basing their estimate on the average travel, and all the stuffs are checked and examined as to quality by the Chef personally as they are placed in the car, and into the receptacles provided. Everything is then ready for the preparation of the meal. There is, however, a great deal of work to be done before the "first call" made.

Stock has to be prepared for soup, poultry and cleaned, garnitures cut, vegetables cut and many other things. The Chef sees that everything possible is prepared ahead, but will not permit the preparation ahead of items as require to be prepared as ordered. All the foodstuffs and such things as toast and eggs for instance must be prepared only as ordered.

As to the division of duties, the Chef prepares sauces, cooks all roasts, fries and grills all meats, generally supervises the work of the kitchen staff. The cook makes all pastry, puddings, cakes, muffins and coffee; third cook peels all vegetables and assists second cook with the other work; fourth cook is a general utility man and does the washing of dishes, pots and pans. The fifth cook, sometimes called the pantry cut, brad, butter and prepares salads, grape oranges, etc. This division of labor permits of the serving of meals just as quickly as passengers can partake them, and very often one kitchen staff in the Canadian Pacific dining car service will turn out nearly 400 meals the course of one day.

Alex. McRae, Mrs. G. A. Hunter, Mrs. J. L. Lee, Mrs. Blanche, Mrs. Barton and others, and moved a vote of thanks to them, which was carried with enthusiasm.

Ten Years Ago in Prince Rupert

February 4, 1915

Judge Young has tendered his resignation as a member of the Prince Rupert General Hospital Board. Following the suggestion being publicly made that the board had degenerated into a political machine, he states that it is impossible for him to be dragged into a controversy of such a nature.

An appropriation of \$60,000 made by the provincial government for the purpose of attracting immigration to British Columbia is criticized by Jack Place, M.P. for Nanaimo.

The annual meeting of the Presbyterian Church was held last evening. Rev. H. R. Grant presiding. The report of the board of managers was read by George R. Naden, that of the Ladies' Aid by Mrs. Sinclair and Mrs. D. C. McRae, the Sunday school report by J. M. Gar-michael while R. McFarlane reported for the boys' brigade. J. H. Thompson and Thomas McClymont were elected to the board of managers.

The Man in the Moon SAYS:-

THERE is hope for Opportunity. He knocks but once in every man's life, according to tradition.

BECAUSE a few people made money out of buying wheat, is no reason that everyone should buy wheat. Be original.

MORE people get rich by the five per cent interest route than by the high speed gamble.

LOOKING for a husband is a game played by both single and married women. These men are so elusive.

tional. All children welcome.

Capt. J. B. Gillatt, of Sand-
spit, who has been a patient in
the local hospital for the past
week, was discharged from the
institution yesterday, and is reg-
istered at the Prince Rupert
hotel.

Louis Ross, charged in the city
police court this morning with
having liquor unlawfully in his
possession at the Port Clements
club premises, was fined \$50 in
the city police court this morn-
ing.

Passengers sailing for Van-
couver on the Union steamer
Gardena last night included W.
J. Lewis, S. L. Aird, Mrs. Agnes
Lockhart, R. H. Miller, L. Bos-
wick, H. S. Wallace, G. Hopkins,
W. H. Blake and Mrs. E. Killas.

At the annual meeting of the
Northern B. C. Agricultural and
Industrial Association last night
the retiring president, Joe Greer,
referred to the generous support
that had been given the 1924
Exhibition by the public gener-
ally. He voiced the appreciation
of the board to the mayor and
city council, city engineer, su-
perintendent of utilities, press and
others, who had given their as-
sistance so freely.

At a meeting of the St. An-
drew's Society last night, ar-
rangements were made for the
presentation at the evening ser-
vice in the Presbyterian church
next Sunday of the memorial
window for members of the So-
ciety who were killed in the
Great War which has been erect-
ed in the new church. The win-
dow will be formally presented
by Thomas McGlymont, president
of the society, and Rev. Dr. H.
R. Grant will receive it on be-
half of the church.

Baby's restless nights might be avoided

Scalded skin and other skin
troubles are common causes
of restlessness, and often
could be avoided by care-
ful bathing with Baby's
Own Soap.

Its fragrant lather cleanses and
heals Baby's skin, and prepares
for restful sleep.
"Best for you and Baby too"

As far
back as I can
remember Baker's
was the best

**BAKER'S
COCOA**

is better because
it is made of
better beans by a
better process
and has a better
flavor than other
kinds.

MUCH MONEY DONATED TO EDUCATIONAL AND RELIGIOUS PURPOSES

Name of University Changed in
Order to be Able to Use
Bequest

A short time ago J. B. Duke,
of New Jersey, a well known
United States millionaire, set
aside property valued at \$40-
000,000 for educational, charita-
ble, and religious purposes, and
of this amount \$6,000,000 was
to go to Trinity College, Dur-
ham, N.C., on condition that it
changed its name to Duke Uni-
versity.

The Board of Trustees met on
December 29, and decided to
change the name and pocket the
\$6,000,000. The new University
will also receive 32 per cent. of
the income from the property;
22 per cent. will go to the main-
tenance of hospitals, 10 per cent.
to the support of orphans, both
white and colored, 10 per cent.
to build and maintain churches
in North Carolina, 2 per cent.
will go to support superannuated
preachers and the widows and
orphans of deceased preachers,
and 14 per cent. will go to three
other educational institutions,
one of them colored. Practically
all of this money is to be spent
in North and South Carolina.

Many Endowments

The Central Christian Advoca-
cate takes occasion to mention
that George Eastman, the kodak
manufacturer, has given away
\$58,000,000; Milton S. HERSHEY
has given away \$60,000,000 to
found a home for orphan boys,
Henry Huntington has given
\$15,000,000 to found and endow
a library; the Allman fortune of
\$30,000,000 goes to the fine arts;
the University of Chicago has
benefited largely from the Rocke-
feller gifts, and \$135,000,000 of
Mr. Rockefeller's money has gone
to the General Education Board
and another \$80,000,000 has gone
to the Laura Spellman Rocke-
feller Memorial to "better the
condition of women and children
throughout the world."

Colleges Too

Colleges have been largely en-
dowed by private generosity;
Harvard has \$60,000,000; Yale,
\$35,700,000; Chicago, \$32,254,-
000; and Stanford has \$27,279,-
000. During the past ten years
it is reckoned that private gifts
of this character have totalled
\$2,000,000,000. Whether we can
approve or not of all the gifts, at
least they do seem to testify in
eloquent fashion to the fact that
wealthy men today are coming to
recognize that their wealth is
really a trust for the good of the
people.

CANADIAN MILLER IS 148 MILES OUT BOUND FOR RUPERT

C.G.M.M. freighter Canadian
Miller reported her position this
afternoon 148 miles from Prince
Rupert bound in. The local of-
fice has not been advised of the
approach of the vessel and no
arrangements have yet been
made for the sending out of a
pilot.

At the end of washday— how old do you feel?

—And a few years of this tiring
toil will make you actually as old
in appearance as one day's work
now makes you feel.
Keep your youth by using our
Thrift-T-service. Its cost is very
slight, yet your entire bundle will
be washed carefully, the flat work
will be ironed, and just the wearing
apparel left for you to finish. And
this comes back to you damp,
ready to starch and iron or hang on
the line.
May we send for your bundle—next
washday?

Situate in the Skeena Mining Division of the Range 5, Coast District, where located, South of Falls Creek, Kitsumkum Lake, and adjoining the Whistler on the East end of it. Lawful holders, W. Preston and D. Wilson; No. of Holders' Free Miners' Certificate, Treston 67040C, Wilson 67040C.

TAKE NOTICE that we, W. Treston, F.M.C. No. 67040C, and David Wilson, F.M.C. No. 67040C, intend at the end of sixty days from the date hereof to apply to the Mining Recorder for a Certificate of Improvements for the purpose of obtaining a Crown Grant of the above claim and furthermore take notice that Action under Sec. 85 of the Mineral Act must be commenced before the issuance of such Certificate of Improvements.

Dated this 30th day of Nov., 1924. W. F. TRESTON, and DAVID WILSON, owners. E. T. Kenny, Agent.

NOTICE OF CANCELLATION OF RESERVE. NOTICE IS HEREBY GIVEN that the reserve covering Lots 6526 to 6529, inclusive, Range 5, Coast District, is cancelled.

GEO. B. NADEN, Deputy Minister of Lands, Department of Lands, Victoria, B.C., November 19th, 1924.

BRINGING UP FATHER

KING'S POLICY COMMENTED ON

Ottawa Paper Outlines What is Likely to Happen and Why

The speech of the Dominion premier in Toronto last Monday contained nothing very radical, nor is there any likelihood of any radical measure being introduced from the government side in the coming session of parliament. The policy of the government is plainly to go as far as Canadian public opinion is ready to move forward. Until there is more advanced political thinking in the country, there will be no more advanced legislation.

The government of the country is being carried on reasonably in accordance with Liberal experience. It is useless to try to move very far ahead of the level of political intelligence in parliament.

At the same time, Liberal policy is different from Conservative, to the extent that Liberalism is constantly seeking for opportunities to go forward, while the attitude of Conservatism is to resist progressive change until it is forced to make the move by the pressure of public opinion. The Liberal leader is more responsive than the Conservative to the desire of the community for social progress.

It is apparently the intention of the government to ask parliament to give more consideration to the revision of railway freight rates, than to tariff revision, in the coming session. This constructive policy should commend itself to most Canadian people.

In many respects, the tariff is an incubus. It is an obstacle to Canadian trade. It is also a tax, as Premier King pointed out in Toronto, "and when it is levied on the instruments of production it constitutes a burden to be borne by industry, a burden which makes its presence felt at each stage of the manufacturing and distributing process and a burden to be carried ultimately by the consumers."

It is called protection, but the tariff is a very unreliable method of protection for Canadian industry, as fifty years of trial has demonstrated. But until the people of Canada, including the financial controllers and practical operators of industry, know how to give the country effective protection, no government can do much through minor changes in the tariff.

When the path to better times is barred in one direction, the Liberal leader's policy is to look for progress along another path. Some progress can be made towards trade improvement in Canada through the proposed revision of railway freight rates.

Progress could be made, too, along the lines of a broad-visioned plan of colonization, not only to bring in more British migrants, but to establish them in reasonable security, on the road to prosperous production. The government's problem is to raise the necessary financial credit to carry out a new national policy of colonization. It should be possible to secure the co-operation of the British government in finding the money to finance bigger settlement projects.

A constructive policy of colonization, coupled with general revision of freight rates, would give Premier King a substantial platform on which to appeal to the electorate this year, if it is considered necessary to secure a

STEWART

The Stewart Board of Trade is petitioning the provincial government and asking the co-operation of the Vancouver, Victoria and Prince Rupert Boards of Trade towards obtaining a road between Stewart and Telegraph Creek, a distance of 175 miles.

The Trop Group, at the head of the Salmon basin, recently bonded by Neil McDonald and Charles H. Lake to E. O. Weston, has been taken over by the Northland Mining Co., Ltd., of Vancouver.

The directors of the recently incorporated Porter Idaho Mining Co., Ltd., and Clay Porter and Ernest Blue, of Hyder; H. W. M. Rolston, of Stewart; J. E. Dickson and W. O. Wallace, of Victoria, and Lieut. Col. Montizambert and Lieut. Col. Foster, of Vancouver.

Harry Thomey, formerly foreman of the Dunwool Mine, has been appointed to a similar position with the Victoria Mines Ltd.

Ernest Blue, attorney of Hyder, was married on January 19 in Chicago, to Miss Dorothy Brown of Minneapolis. Mr. and Mrs. Blue expect to arrive in Hyder about April 1, to take up their residence.

ALICE ARM

There was a large attendance at an interesting dance which was held in the Coliseum Hall last Wednesday night to celebrate the birthdays of Mrs. Al. Falconer, George Young and H. Butler. The orchestra comprised Mrs. T. W. Falconer, Mrs. J. Laidlaw, C. Hutchinson, Lorne Falconer and R. G. Gordon.

Among local people who have bought shares in the Kitsault River Mining and Development Co., recently incorporated by Elmer Ness, are Art Beaudin, P. Williamson, J. Strombeck, Ed. Peterson, A. Serbich, T. W. Falconer, Al. Falconer, Steve Duncan, S. Winstrom, B. Turbitt, P. Monchal, S. F. D. Roe, J. Hanna and A. D. Yobko. Development work on the company's property will commence as soon as the Dolly Varden railway and pack trail is open.

Harry Owen has returned from Vancouver where he spent two months' vacation.

Dick Sullivan, pioneer miner and prospector, has returned to town after an absence of about two years.

Bob McGinnis, who was struck in the eye by a hockey puck, which broke his glasses, has lost the sight of one eye. This was ascertained in an examination at the Anxox Hospital following the accident.

TONNAGE AT ANYOX.

The total tonnage of ore handled at Anyox from the Hidden Creek mine for the month of January up to the 27th was 87,802 tons. Of this 59,005 tons went to the smelter and the remainder to the concentrator.

Sport Chat

Walter Johnson, famous pitcher of the Washington American Leaguers, would rather be a star on the baseball diamond than in vaudeville or the movies. According to a story going the rounds in Eastern baseball circles, Walter has turned down an offer of \$3,000 a week to appear in vaudeville for twelve weeks. In addition it is said that Johnson was wanted to participate in the moving pictures. While the purported offer would give Johnson as much as he receives from Clark Griffith in three seasons, the big leaguer refused to consider it, it is said, Johnson is spending the winter in California at a summer resort off the southern coast. This story is said to have emanated from there.

Fred Fulton, former aspirant to the crown of heavyweight champion, along with others, has been charged in Los Angeles with conspiracy to violate the California boxing laws. The charges were brought following a match between Fulton and Tony Fuente, so called "champion of Mexico," which Fuente won by a knock-out in short order and after which it was charged that the fight was a "frame-up." Investigators claim that they obtained evidence confirming the opinion of many who witnessed the bout that Fulton "laid down" to Fuente falling to the floor after being struck by a light punch from the Mexican fighter. Fulton is said to have admitted receiving \$6,000 for the fight which is said to have been a violation of the law. Fuente is also charged.

The line-up in the senior billiard league tournament tomorrow night is as follows: Don Brown (Grotto) vs. Geo. McIlmoyle (P.R.B.P.). G. Waugh vs. C. Balagno; J. Hillman vs. F. Stephens; E. Pierce vs. Art Easson; B. Morgan vs. B. Jolich.

The schedule of games in the Alice Arm Hockey League was brought to a close last week with all three teams, Tigers, Wildeast and Bears, on level footing with four wins and four losses each. To decide the championship it was decided to play another series of games this week. Games played in the league last week resulted as follows: Bears 5, Tigers 2; Tigers 3, Wildeast 0; Bears 6, Tigers 2.

SWIMMING BATHS IN THE CITY OF OTTAWA

A correspondent of the Ottawa Citizen writing in that paper of the conduct of the public baths in that city says:

"Scarcely Ottawa does not enter into the bathing business with the intention of making money to help pay part of the civic expenses of administration at the city hall. In these two edifices the city has a valuable asset conducive to the health of its citizens. There is no exercise that more fully develops all parts of the body and makes for better manhood and womanhood than swimming, and nothing can develop grace more than diving. These two buildings stand as monuments to the foresight of the city fathers who founded them and we hope will long aid in the development of healthy citizenship in Ottawa. "Health and happiness in a community are not expressible in terms of dollars and cents."

BURNS CONCERT GIVEN ANYOX

Fine Program of Music, Reading and Dancing for Great Occasion.

ANYOX, Feb. 4.—Under the auspices of the Union Church a concert was staged in Recreation Hall during the week, in commemoration of Robert Burns and was one of the most enjoyable ever attended by an Anyox audience. All the numbers on the program were well received by the gathering present, encores being demanded again and again, and were graciously responded to by those participating. The program contained something for everybody. There were songs, dances, readings, instrumental numbers and orchestral selections, the latter by the Elks' orchestra, under the leadership of Stewart Steele.

Already a great favorite with Anyox audiences, R. W. Murdoch, a recent arrival in camp, gained new admirers by the splendid manner in which he rendered his choice of songs. He was in particularly fine voice, and with Miss Violet McKay gave the audience a treat in the singing of two duets, "Crooked Bawbee" and "Will Ye Gang Awa?" For solo numbers Miss McKay chose "Sing to me the Auld Scotch Songs" and for an encore "Comin' Through the Rye," the rendering of this latter old favorite being very good, indeed.

The readings were well done. J. Murdoch reading "Man was made to mourn," while J. Webster created considerable merriment with "Wee Puggy." The comedy of the evening was supplied by J. Thompson in Scottish characterizations. Most enjoyable were the violin solos by W. Jack. J. Mitchell received well-merited encores for his singing of two songs, "Lassie of Mine" being particularly well done. D. McCaulley sang "Mary of Argyll" and was generously applauded.

The solo dances by Miss Mabel Stevens were well executed, the "Sailor's Hornpipe" especially so. In the "Highland Scottish"e

Flo Kelley and Edna Herrin gave a very graceful exhibition of child dancing. The chairman of the concert was T. Kirkwood. Accompanists for those taking part were Mesdames Pynn and Herrin and Messrs. Southam, Dresser and Harris.

COMMUNITY PLAYERS ORGANIZE AT ANYOX

In order to occasionally provide amusement of a dramatic nature for the benefit of Anyox folk who care for this particular sort of entertainment, an organization, to be known as the "Community Players" was formed in Anyox during the past week, and preparations for immediate rehearsals of the first play to be presented were completed. Officers elected were: Manager, George Warwick; secretary-treasurer, Miss Rowena Champion; stage manager, F. M. Kelley. A casting committee was also chosen, consisting of Mrs. D. Cole Jr., H. D. Southam and the stage manager.—Granby News.

ANYOX BIRTHS

There were born at the Anyox hospital recently a son to Mr. and Mrs. Jack Carr, and a daughter to Mr. and Mrs. P. McDougall.

WORD PUZZLE

The following word puzzle was made by a local lady. Each number is represented by one word and the initial letters of all of them spells the name of one of Canada's natural resources. The correct answer will be published on Thursday.

- 1—A fish.
- 2—An attack.
- 3—A mood.
- 4—Useful in the kitchen.
- 5—A tree.
- 6—Silent.
- 7—A garment.
- 8—Beyond reach.
- 9—Necessary to life.
- 10—A beverage.
- 11—Part of the body.
- 12—To swell.
- 13—A headland.
- 14—A pronoun.

A GOOD WAY TO INCREASE BUSINESS

Many advertising messages fail to attract attention because they are either unattractive or are too stereotyped.

This is the opinion of one of our busiest and most successful business firms—Albert & McCaffery, Ltd. They have succeeded in interesting many new customers in the story of the famous Nanaimo—Wellington coal and since the coal itself lives up to its reputation these customers are coming back daily for more. Nanaimo—Wellington coal is the premier fuel for the fireplace, range and furnace. More heat—less ash—no rock or clinkers.

You should try Nanaimo—Wellington as soon as your present supply gets low. Better still, if you order some now you can test it out with the coal you are now using. Nanaimo—Wellington stands supreme when a comparative test is made.

To secure a supply phone Albert & McCaffery Ltd., who are sole agents here. Their phone numbers are 116 and 564. tf

Is your wife wiser than you?

IF YOU read only the stock and sporting pages, and your wife is like other women, she is wiser than you. She reads the shopping news.

She likes to hear you jingle money in your pockets. She likes to stretch money to the limit, so she won't have to ask for more. She likes to shop strategically. Know what she does.

Comfortably at home in a cushiony arm-chair, she scans advertising columns. She compares, judges and selects the goods she desires; maps her route; with least effort and minimum time, goes direct to the planned store and buys.

She obtains what she wants at the lowest price it is offered. She is certain of full satisfaction, for she knows advertised goods live up to their claims. She saves time and steps, and returns sufficiently alert to enjoy new advertisements—and to prepare you an appetizing dinner.

These advertisements are written for your benefit too. Read them. Help her help you save.

Buying advertised products is a bond investment—not a stock speculation

Amateur Radio

A good deal of regulating is needed in connection with radio. Take as an example the situation in Vancouver. There fans complain that a loud station has just sprung into being which makes it impossible to get any other station either in the city or outside. The fans there are wild with indignation but they seem to have no recourse. Radio has become so important a factor in the life of the people that its further neglect should be resented by radio fans. Apparently it is a matter for the Dominion Government to handle.

Nelson has a broadcasting station, yet Nelson is not any larger place than Prince Rupert. Entertainments and news items are sent out regularly in that city by a club formed for the purpose and this makes Nelson a centre for the radio district. So it should be in Prince Rupert. The news items contain facts about the city development and prices paid for produce there.

Eeny, Meeny, Miney, Mo,
Catch a song on the radio;
If it's squeaky, don't let go,
Tune it in a little mo'.

Vienna is about to erect a municipal radio sending station which is to cost 1,000,000,000 crowns. It is to be used solely for official business. The fire department especially is to use it extensively.

Nine of the KGO players directed by Wilda Wilson Church, audio drama technician and empressario, will produce the three-act farce "Mrs. Temple's Telegram," by Frank Wyatt and Wil-

SERVICE NOT SERVITUDE

Has it ever occurred to you that the multitude of "Household Helps" offered for sale are of themselves lifeless and incapable of service unless controlled and directed by the already overburdened housewife.

Laundry service alone is alive, vital, imposing no new obligations, and asking nothing but your friendly disposition, to change servitude into service.

COMPENSATION IN MANITOBA

Weekly Allowance to be Reduced for Men but for Children Increased

Legislation to amend the Workmen's Compensation act, based on terms of an agreement reached by the special committee appointed by the provincial government to review the situation, will be introduced in the legislature at an early date, Hon. R. W. Craig, attorney-general, indicated.

Declaring the solution a most satisfactory one, Mr. Craig stated that it would ensure a period of quietness in connection with the various matters brought up both by employers and employees for several years to come.

No Additional Burden
The agreement, he said, was based on the principle that no additional burden be laid on industry by any change in the act, but a certain readjustment in benefits under the act will be recommended.

The principal adjustment pro-

THE COUGH OR COLD THAT SETTLES ON THE LUNGS IS HARD TO GET RID OF

These are the kind that are dangerous; the kind that weaken the lungs, the kind that allow the germs of consumption to get a foothold in the system.

Mr. John E. Luloff, Golden Lake, Ont., writes:—"Last year I had a cold, and a cough which seemed to stick on my chest. I tried different preparations, but they did not seem to help me any. I was advised, by a friend, to try

DR. WOOD'S NORWAY PINE SYRUP

and when I had taken a few doses I began to feel that it was doing me good, so I kept at it and inside of a week I was relieved of my trouble."

"Dr. Wood's" has been on the market for the past 35 years; you don't experiment when you buy it; put up only by The T. Milburn Co., Limited, Toronto, Ont.

posed is a reduction in the minimum weekly allowance made under the act from \$15 to \$12.50. The saving effected by this means will be applied toward an additional allowance for children under the act on a scale similar to that prevailing in Alberta. There will be no change in widows' allowances, however. As regards dependent children, instead of the \$7.50 rate as at present, a monthly allowance of \$12 a month will be made for the first child, \$10 for the second, \$9 for the third and \$8 for the fourth, and others.

Demands Ignored

The employees' demand that the amount of compensation for total disability be increased from 66 2-3 per cent. of the average earnings to 75 per cent.; and the employers' demand that it be decreased to 55 per cent., were not acted upon at the meeting. The 66 2-3 rate being permitted to stand by agreement. The one-cent a day contribution from workmen, to cover cost of medical aid, also was excluded in the final arrangement. The committee decided against fixing a maximum to be paid under the act.

The agreement came unexpectedly, but proved satisfactory to all parties represented.

SMOKE ELIMINATED FROM COAL FIRES

Glasgow Scientist Solves Difficult Problem After Years of Experiment

GLASGOW, Feb. 4.—A Glasgow scientist has achieved a simple and effective solution of the problem which is very much to the fore at the moment—the smoke nuisance.

At a demonstration held in his home in Bridgeton, Charles M. Macnamara, M.A., B.Sc., C.E., satisfied a committee of experts from H.M. Office of Works of the efficiency of his device for the elimination of smoke in domestic and industrial consumption. His invention has been adopted by the Commissioner of Works.

It seems peculiarly appropriate that this achievement should fall to the credit of a Glasgow man. It is on record that fully fourteen thousand tons of soot fall in the municipal area, and is responsible for the incalculable harm to health, to buildings, and to plant life.

PRINCE RUPERT ASSESSMENT DISTRICT.

NOTICE IS HEREBY GIVEN that a Court of Revision and Appeal under the provisions of the "Taxation Act" and Amendments thereof and "Public Schools Act" respecting the assessment roll for the Prince Rupert Assessment District for the year 1925, will be held at the Provincial Assessor's Office in the Court House Building, Prince Rupert, B.C.; on Saturday, the 28th day of February, 1925, at 2 o'clock in the afternoon.

Dated at Prince Rupert, B.C., February 3rd, 1925.

Tonight and Tomorrow Night, 7 and 9 p.m.

William De Mille Presents
'The Fast Set'

An adaptation for the screen of the brilliant stage success "Spring Cleaning." A picture that sets the pace for dramas of smart society and tells the truth brilliantly about husbands who lose their wives' love. The story of a husband's clever experiment to save his wife from a crowd of society fast steppers. Wives! Here's a photo-play that shows you how to make your husbands love you. Husbands! Here's a film that shows you how to hold your wives. Superb cast.

Betty Compson, Elliott Dexter, Adolphe Menjou, Edgar Norton, Fred Walton, Zasu Pitts and others.
FELIX COMEDY CARTOON. FOX NEWS-GAZETTE
Admission 35c and 10c

adjusted, there are dense fumes, but immediately the globe is adjusted, the fumes disappear.
A Simple Expedient
Mr. Macnamara realised the possibility of adapting this principle to coalfires. But the application of the theory proved a difficult proposition, and it was only after exhaustive and expensive experiments that Mr. Macnamara evolved his device, which is now being taken up by government officials and large firms.

atmosphere.
The fire, except through the combustion chamber, is detached from the flue, and this accounts for a feature in the device which will appeal to housewives. There is a complete absence of the common nuisance, "blow down."
Big Edinburgh Bakery
In addition to being endorsed by the order from the Office of Works, the invention is to be introduced into the furnaces and ovens of M'Vitie and Price's biscuit factory, on the recommendation of Sir Alexander Grant, who was very much impressed with the idea.
HELPED THEMSELVES
Cockney motorists, riding near a farm orchard, stopped the car, got out, climbed the wall and gathered half a peck of apples.
To complete the "joke" they slowed down as they went by the farmhouse and called out to the owner "We helped ourselves to your apples. Thought we'd tell you."
"Oh, that's all right," the farmer called back. "I helped myself to your tools while you were in the orchard."
CO-OPERATION IN RELIGION TRIED
KEYSTONE, Neb., Feb. 4.—Co-operation and religious toleration are receiving a thorough test in a little church here where both Roman Catholics and Protestants worship. In one end of the edifice is the Catholic altar. Opposite is the pulpit for Protestant services. Seats are arranged like those of a railroad coach so that the backs face either end of the building. Reversal of the benches thus changes the church from one denomination to the other as desired. The church seats about 75 persons.

your apples. Thought we'd tell you."
