## LIQUOR RUNNERS GET HEAVY SENTENCES

### EFFORT MADE TO GET SUSPECTS IN BANK ROBBERY OUT OF SEATTLE JAIL

#### WEST INDIES AND CANADA

Report of Official Visit to Islands by Special Commissioner

OTTAWA, April 4.—Variation in the tenor of the budget debate came Friday when Hance Logan, Liberal, gave the House a report of his official visit to the West Indies last year when he carried an invitation to the commercial conference to be held at Ottawa in June for the purpose of improving trade relations between Canada and the islands.

Response to his invitation was enthusiastic, he said, and its acceptance general. He said he thought that on his visit to the West Indies and several South American countries he met but two Canadian trade commissioners. He recommended the appointment of a number of other commercial centres. Development of the interchange of commodities with southern countries was Canada's opportunity for trade expansion, Logan declared.

Mr. Reid Dick, A.R.A., well-known English sculptor, is shown with his beautiful work of Miss Joyce Wethered, the famous lady golfer, whom he has immortalised in stone.

#### Fines and Jail Terms for Liquor Smugglers Notorious Quadra Case

SAN FRANCISCO, April 4.—Ten defendants in the Quadra liquor running case who were found guilty by a jury in the Federal Court, which returned a verdict late last night, were immediately sentenced by Judge John Partridge. Thirty-two members of the crew were acquitted. Sentences were: Captain George Ford, two years imprisonment and \$1,000 fine.

Vincent Quarataro, San Francisco agent of the Consolidated Exporters of Vancouver, B.C., two years and a fine of \$10,000.

Charles Balanger, of San Francisco, director of the Consolidated Company, two years and a fine of \$10,000.

First mate, George Harris, of the Quadra, 13 months imprisonment.

Second mate, Jave Evelyn, 10 months.

J. B. Mason, chief engineer of the Quadra, \$500 fine.

Jack Allen, Carl Nielsen, Ed. McKenzie, and Emilio Pensotti of San Francisco, operators of small liquor running boats, eight months imprisonment each.

Defendants were found guilty of conspiracy to violate the federal prohibition enforcement laws.

The disposition of the Quadra is to be made today.

#### CAGE DROPPED IN COAL MINE

Number of Dead and Some Injured While Many Escaped Almost Wholly

BERLIN, April 4.—When the winding engine broke down this morning at the Stinnes Colliery at Karnap near Essen eighty miners dropped with the cage to the bottom of the shaft. Latest reports state that 63 men are accounted for, two being dead, three badly injured, and 43 slightly hurt, while 15 suffered no harm. Seventeen are still missing and are believed to be dead.

#### VERY LITTLE GRAIN LEFT ON PRAIRIES

Canadian National has only 6,398,000 as Against 36,000,000 Last Year

WINNIPEG, Apr. 4.—Last year at this time there was in storage on the prairies over 36,000,000 bushels of grain, but this year only 6,398,000 bushels are left to be moved.

Since August 1, the Canadian National Railways has delivered to Vancouver 3,618 cars of grain out of 80,718 loaded altogether. The total amount of grain handled by the National Railway this year is to date 108,855,000 bushels.

Union steamer Venture, Capt. A. Johnstone, returned from Port Simpson and the Naas River at 8 o'clock this morning and sailed at 10 for Vancouver and wayports.

Coastwise Steamship & Barge Co.'s steamer Marmion this morning came off the pontoons at the dry dock where she had repairs effected to her propeller.

#### Attempt Made to Deliver Saw Blades to Prisoners Connected with Nanaimo Bank Robbery

SEATTLE, April 4.—Chicago gangsters gathering here made what is declared by the sheriff, Matt Stalwich, to be their first attempt last night to effect the liberty of three pals held in the county jail here for the Nanaimo bank robbery and failed.

In a sack of fruit delivered by a woman at five o'clock last evening there were found five hacksaw blades, each cleverly inserted and concealed in bananas. The girl asked that the fruit be delivered to L. S. Brockway, another prisoner, but the sheriff stated that this was merely a ruse. Stalwich said he was in possession of confidential information

destined for the three Nanaimo robbery suspects, one of whom, T. H. Johnson, is confined in the same tank with Brockway. For more than a month, the sheriff stated, delivery of the saws for Johnson had been attempted.

Harry Stone and William Bagley have already been ordered extradited to British Columbia but are awaiting the results of an appeal.

#### MANY BRITISH ARE ARRIVING

Total Immigrants at Halifax This Week End 1445 is Record for Season

MONTREAL, Apr. 4.—Acting as the advance guard of a large body of new settlers who are coming to Canada under the auspices of various governments and private colonization organizations, forty Hollanders reached Montreal last night on board the Maritime express of the Canadian National railways from Halifax and afterward transferred to the Continent! Limited which left Bonaventure station for western points. This party came to Canada on board the Volendam.

**Largest Number Yet**  
 The week end landings at Halifax form the largest number of arrivals at that Atlantic port during the current year, passengers from seven steamers totalling 1,445 and exceeding the previous week's total which had then established a record. The majority of the new comers are of British origin.

**What Is Value Of Government House.**

The action of the Alberta Legislature in voting to do away with Government House at Edmonton, the official residence of the Lieutenant Governor, is one that seems to have received a great deal of sympathetic support here. It is argued that even in British Columbia, Government House does not mean anything to the people of British Columbia except a place for the socially elect to foregather. Now and then there is an official reception, which is supposed to be for everyone who wishes to attend, but it is noticeable that very few people of those who have to labor with their hands ever take advantage of it. The place is for the business and professional groups and of those mostly the ones of a particular social set make a practice of attending. Officers of the army and navy go, but none of the rank and file. Yet the place is kept up from the taxes, which everybody pays. True the cost is not very heavy but the principle of paying it is undemocratic. While everyone cannot expect to get an invitation to a ball at Government House, there does not seem to be any reason why the people at large should pay for an institution which caters only to a select few. That seems to be the view of the farmers in Alberta and it is the view of a great many people in British Columbia.

**Rights Of Railway And Of People.**

The settlement of the Peace River railway controversy seems to be dependent on the two railways at present in a position to serve that part of the country. It is a new country but there is already considerable tonnage offering so that a railway is not starting right at the bottom as is usually the case. The result is that each of the railways would like to get control and the C.P.R., being first in the field, has to some extent the whip hand. The advantage the Canadian National has is the fact that it is the government line and is supposed to have all the government backing. Of course that is all supposition, as the C.P.R. interests are always represented in any government.

The Canadian National has the natural outlet for the district. It has the shortest route to the ocean which is what should count. There does not seem to be any good reason why the country should be held up because the railway heads cannot agree on a policy. The needs of the country should be the first thing to be considered. If the C.P.R. and the C.N.R. cannot agree it will be for W. L. Mackenzie King to carry on and build the railway without their help and then give it to Sir Henry to operate.

**Difficulty Is With Senate.**

The difficulty in taking independent action seems to be with the Senate. That body is pretty well controlled by the C.P.R. If the C.P.R. does not agree with the policy carried out, it means that the Senate will turn it down. The Senate is at present a Tory organization and is used largely to further the interests of the party. Pretty soon, if the Senators continue to die as they have been doing of late, the august body will become Liberal and it is to be presumed it will be a Liberal machine. The composition of the body does not make for the best interests of the country.

**Tariff Being Debated At Ottawa.**

The debate on the budget has brought out a number of points in connection with the tariff, but this is an unending subject that can be expected to be before Parliament every year in some form or other. The farmers of the prairies want low tariffs because all they have to sell is wheat and a few other food products. The manufacturing districts favor high tariffs because they believe it helps them to keep their factories going. Fruit growers always want a duty on imported fruit to protect them against competition from without. The whole thing is selfish and has nothing to do with the best interests of the country generally.

When an election comes up, the tariff will be discussed once more from A to Z and we shall be none the wiser. There are really no new arguments. All are selfish and the party that can persuade the people that they are to gain by the tariff or lose by it, will win or lose.

**"Worth \$100 to Me Relieved Eczema and Piles"**

Mrs. Peter A. Palmer, Saltburn, Sask., writes:  
"Dr. Chase's Ointment has completely relieved me of eczema and piles. I also used this Ointment for my baby, who broke out in eczema. A few applications were all that was necessary in her case. Dr. Chase's Ointment has been worth a hundred dollars to me, before using it I had spent a great deal more than that in unsuccessful treatment from doctors. We have also used Dr. Chase's other medicines, the Nerve Food having restored my health after suffering from severe nerve trouble when a girl."

**CHATS ABOUT LONDON PEOPLE**

Mail Letter From World's Capital Tells of Doings Across the Atlantic

(By Sylvia Mayfair)  
LONDON, April 4.—(By Canadian Press)—The Throne Room at Buckingham Palace where the Prince of Wales held his first levee—his father, King George not being well enough to appear—is flanked on one side by some small windows, hardly noticeable by those in the Throne Room itself.

Nobody, indeed, seems to have noticed that when the Prince of Wales, looking very resplendent, though rather shy, in his uniform of a Colonel of the Welsh Guards, was receiving 900 diplomats, officers and ministers, his mother, Queen Mary, was watching him through one of the windows. No women are ever present at a levee, and her actual presence therefore was not possible. Wales evidently fulfilled his first monarchical duties to perfection for his mother beamed approvingly throughout.

By the way, one the eve of leaving England for the Mediterranean in the sumptuous Royal Yacht, the King and Queen suddenly realised that if they went ashore at any of the small Italian ports that they hope to call at, neither of them would be able to speak French or Italian very fluently. The Queen used to be the linguist of the family but has not practised for years.

So Lady Joan Verney, a lady-in-waiting, is going with them to pilot them through any expedition they may venture on.

**Princely Parties**

Entertaining is going to be on a princely and extravagant scale this summer. Lady Gunard who entertained at dinner for the great Ancester ball on Wednesday night had ordered a kind of aquarium dinner table decoration. Rare and beautiful species of fish loaned from the London Zoological Society swam about in crystal tanks and bowls which had been sunk into the table and illuminated. Real seaweed and fungi grew in the bowls.

Lord and Lady Granard are back at their lovely house in Halkin Street, Mayfair. The Earl's famous Napoleon dinner service, in which every fork and spoon bears inset a rare jewel, will be in constant use and the Granard menage is one of those where all the servants wear silk knee breeches and powder their hair.

**Tetrazzini Sings**

Tetrazzini is the most unconventional of divas, and when she was dining in the Savoy restaurant the night after she had broadcast by radio to the world, about 1,500 diners were suddenly thrilled to hear somebody singing.

Signor Moschetto, who used to play at Monte Carlo, thought he would pay the Prima Donna a compliment by playing her favorite aria, Donizetti's "O luce di quest'"; but it was too much for Tetrazzini, who, accompanied as usual with the famous ostrich fan—surely the biggest ever—began singing.

This is not the first time she has sung in the Savoy Restaurant. She sang one Christmas night three years ago, but this last event was quite unexpected and unconventional.

**Theatre Box Passes**

The new London theatres that are now being built have no boxes. Managers say that the day of the box is over, and are surprised that it has taken the public so long to see what uncomfortable parts of the theatre they are. The young theatres hardly ever use a box but much prefer being on the front row of the stalls. It has been noticed that the Prince of Wales whenever he visits the theatre is almost invariably to be found in the front row of the stalls right at the left hand side, and he generally slips in just after the curtain has risen.

Big hats are returning to favor so rapidly that the London General Omnibus Company are trying to re-arrange the seating of their buses. It is no longer possible for two women wearing the new cart-wheel headgear, to sit side by side in comfort on the seats at their present size.

A Saville Row tailor gave a show for men two mornings ago, but men mannequins are not quite used to this sort of

thing. Cocktails, of course. The Duchess of York is going to publish her diary of her African tour on her return.

London women are re-stringing their ropes of pearls and wearing them as bracelets. A contrast is provided by the wearing of cubes of jade strung tightly around the wrist between the row of pearls.

**ONTARIO TEACHERS WILL VISIT CITY**

Big Special Tour Party Will Arrive Here by C.N.R. Train in July

TORONTO, April 4.—On July 9 a large tour party consisting principally of Ontario teachers will leave here on Canadian National special train for the West. The party will visit Jasper Park and Prince Rupert and go down the Pacific coast by steamer to Vancouver. The entire trip will take thirty days.

The tour is being arranged under the direction of A. E. Bryson, principal of Silverthorn School, Toronto, and Martin Kerr, principal of Earl Kitchener School, Hamilton.

**The Man in the Moon SAYS:**

Some ideas are sound and nothing more.

Everything comes to him who waits. Whiskers will come if he does not shave, dinners will come if he does not pay, hunger will come if he will not work.

The jay walker is a nuisance but the jay talker should be slain.

Who was Cain's wife? The missing link.

Suppose the world had been created by Parliament it would not have been half finished yet and then the Senate would likely have vetoed half our luxuries.

If Alberta gets rid of its Government House what will the Four Hundred do for a meeting place?

Next thing we shall expect to hear about is that the Government House at Victoria is to be used for a hotel and that the Lieut.-Governor will move into a two-roomed apartment.

Manitoba has had snow, rain, hail, frost, fog, blizzards and floods and now it is suggested that the only thing needed to round out the list would be an earthquake.

Following the winning of the world hockey championship by Victoria it is mentioned that while the east may have the culture, the west is developing the speed and stamina. I should say so. Look at our girls!

Mothers and primary school teachers spend a lot of time teaching children to talk and as they grow older one of the big jobs is to shut them up.

There must be an election just round the corner because all the political parties are assuring everybody that they still retain the confidence of the great majority of the people of Canada.

## NERVOUS WRECK FROM BOWEL TROUBLE

Ten Years of Suffering Ended by "Fruit-a-tives"

Mr. F. M. SULLIVAN

"For over ten years, I was a complete nervous wreck, owing to severe Bowel Trouble and Acute Indigestion. Though a big man, I could hardly lift the smallest weight without suffering pain. As a last resort, I started using "Fruit-a-tives." Like a cloud, the nervousness left me after using the first box. I use the tablets according to directions and follow carefully your diet rules. The result is, today I am free of Indigestion and Bowel Troubles, and cannot recommend the wonderful Fruit Treatment too highly."

Thus writes Mr. Sullivan of 19 Pine St., Geneva, N. Y. "Fruit-a-tives" are made from intensified juices of luscious fruits—there is no other medicine like them. 25c & 50c at all dealers.

### Here and There

Under the joint Canadian-British Government scheme, 3,000 families are being brought to Alberta this year and the first party of families will arrive in April. They will first be guaranteed employment and later will take up their own land.

Henry E. Suckling, Treasurer of the Canadian Pacific Railway since 1908, died recently at Atlantic City after an illness of several months. He was born at Gibraltar in 1851 and had been associated with railways in a treasury capacity since his early manhood.

J. C. Mitchell, of Dahinda, Sask., known as the "world's champion wheat grower" returned home recently from a lecture tour of the British Isles. "Go West, young man, go West," is his advice to all who wish to try their fortunes in the Dominion.

Speaking at Toronto, Hon. Charles McCrea, Minister of Mines for Ontario, said that the estimated output of the mines of the province this year will be around \$75,000,000. In regard to gold he stated that by 1928 Ontario was expected to top the total production of the United States.

A new Silver Trophy donated by the English Football Association to the Dominion of Canada Football Association for annual competition among Canadian clubs has arrived in Canada and will be on exhibition at Canadian Pacific stations at Montreal, Toronto, Winnipeg and right across the West.

An expedition which will try to climb Mount Logan (19,350 feet) in the Yukon, the loftiest peak in Canada, is to leave Vancouver in April. It will be headed by A. H. McCarthy and Col. W. E. Foster, of Vancouver, and six other gentlemen, including a representative of the English Alpine Club, will complete the party.

Agricultural products in the Province of Manitoba during the year 1924 reached a total estimated value of \$164,312,857, according to figures issued by the Provincial Department of Agriculture. This amount is nearly double that of the previous year and is accounted for largely by the big upturn in the price of wheat.

The shield which was taken from the gates of Old Quebec when the city was captured by General Wolfe, and now in the possession of the town of Hastings, will be returned to the Ancient Capital. The Hastings Council have decided to return the shield which was presented to them by General Wolfe Murray, a descendant of the famous soldier.

Miss Ethel Loginska, temperamental pianist, gave another taste of her quality when she lectured a socially prominent audience for coughing in the middle of a concert at Englewood, N.J. "If you can't control yourselves, please don't stay here," she remarked. About fifteen disgruntled members of the audience left the hall indignantly.

Trail Riders of the Canadian Rockies have developed the idea of using snow shoes for horses over the heavy snow tracks of that region. In this way great quantities of supplies are brought considerable distances across trails that would otherwise be impassable to heavy loads. Trail Orders are holding their second great Pow-Wow early in August next.

Devising a new kind of motion picture camera with a built-in motor that is almost noiseless in operation, Burton S. Moore, proprietor of the Nictau Camps in New Brunswick, has succeeded in taking about 4,000 feet of film of wild life in action which will be shown in due course, on Canadian and United States screens. It has been particularly successful in depicting every motion in that special phenomenon by partridges known as drumming.

Over half of last year's western grain crop was handled by the Canadian Pacific Railway according to data just issued by the Dominion Bureau of Statistics. Of the total grain inspections numbering 172,856 cars during the seven months to February 28 last, 99,237 cars were on the company's lines, representing 57 1/2 per cent, while of the 130,157 cars delivered at Fort William and Port Arthur during the same period 58,880 or 52.8 per cent are credited to the company.

Hubert Ward is sailing this afternoon on the Princess Beatrice for Vancouver on a business trip.

### HER FACE WAS COVERED WITH PIMPLES

SHE GOT RID OF THEM BY USING

BURDOCK BLOOD BITTERS

Miss T. Hunter, R.R. No. 8, London, Ont., writes: "I wish to recommend Burdock Blood Bitters to all women who are suffering from pimples or any other facial blemishes. About two years ago I was greatly troubled with pimples and sores breaking out on my face, and could get no relief until, finally, a friend recommended me to take B.B.B. This I did, and I am now glad to say that your remedy has given me the desirable results, and I now have a nice smooth, clear skin, as it has eliminated all the impurities from my blood."

Get B.B.B. when you ask for it; it has been on the market for the past 46 years; put up only by The T. Milburn Co., Limited, Toronto, Ont.

# PUT PHEASANTS ON KAIEN ID.

### Local Fur Dealer Thinks That Given Proper Care, They Would Multiply Very Rapidly

A. J. Phillipson, the well known fur dealer, is responsible for the suggestion that pheasants could be most successfully propagated in this district by putting them out right on Kaien Island. He says that the location is ideal for raising them and that, given proper protection which they may not get on such islands as Porcher and Banks where snow is heavy and wild enemies, such as the hawks, etc. are numerous, their increase would be rapid and soon the birds would abound in all parts of this district.

Mr. Phillipson is of the opinion that it would be money well spent by the game department of the provincial government to employ a man or men to look after the well being of the birds and also to see that the game regulations are strictly enforced on Kaien Island which is a game preserve.

The part of the townsite lying southwest of acropolis hill grounds, Mr. Phillipson says, would be a splendid location for putting out the birds. He emphasizes the importance to the city from a tourist standpoint that an abundance of wild life would be.

## Sport Chat

Entry forms for the Dominion of Canada interscholastic championships and the 54th annual McGill interscholastic track meet to be held at Percival Molson Memorial Stadium, Montreal, on May 30 have been received at the Daily News office. There are various field events divided into three classes—junior class, 14 and 15 years of age; intermediate class, 16 and 17 years; senior class, under 19 years. The events are open to all school boys in the Dominion regularly enrolled at authorized public, high or preparatory schools. Entries must be in by May 21.

Three quarters of a million dollars! That is to be Dempsey's purse for a bout to be staged this fall with Harry Wills, the negro, according to an announcement made in the New York World. The world's champion looks to be out for one grand clean-up and the fans will give it to him. They will pay \$50 or so a seat to see the battle. Will it be worth it to them? The sooner the public come to the realization that they are being made "suckers" as far as pugilism, at least big game stuff, is concerned, the sooner will the exaggerated values which go to make fortunes in a few minutes for fighters and promoters be reduced towards the place where they belong. Boxing nowadays, from the financial point of view, is away out of proportion to any other sport, in fact any other manner of entertainment.

The Badminton championship tournament which has now been twice postponed is to be played next week at the Prince Rupert Badminton Club courts. The committee in charge announces that it will take place Wednesday and Thursday evenings rain or shine.

## SURPRISE PARTY FOR MISS JEAN BAILEY

### Local Lady to be Agent For Bacon Fisheries on the Prairie

The residence of Mr. and Mrs. A. H. Bailey, 929 Sixth Avenue, East, was entered last night at an early hour by some 20 young people who sprang a surprise party upon their daughter, Jean, the occasion being her early departure for Edmonton where she will act as western agent for the Bacon Fisheries. The evening was delightfully spent in listening-in, music, community singing and dancing. Delicious refreshments were served at midnight when the company presented the guest of honor with a beautiful snapshot album as a token of their regard and a souvenir of pleasant memories.

**Prices Slightly Improve**  
The feature of the week's halibut business has been the slight rise in prices offered over those prevailing last week for both Canadian and American first class fish, while on two occasions Canadian boats have been successful in getting a little the better of their American counterparts.

Good fishing weather has prevailed on the deep sea banks and the lengthening days have been the means of enabling the boys to haul in maximum catches.

The refrigerator car shortage which existed last week, has been taken care of with the arrival of a special train of 25 cars and additional cars are returning from the east daily.

Activity is still pronounced in trolling fleet circles and with the continued good weather and rise in temperature the little fellows are getting anxious to be out on the salmon grounds. While a number of trollers have already left port for the Dundas and Hippo Island waters there are still a number getting ready to join the trolling fleet.

**Fish Business**  
From Monday to Friday 629,600 pounds of halibut has been marketed on the Fish Exchange. Canadians were high at 11.4c and 6c, and low at 8.6c and 3c. Americans were high at 13c and 6c, and low at 8c, and 3c. Arrivals: Canadian—Prosperity A., Atli, Atlas, Ringleader, Tillie S., Inez H., Nuba, Gibson, Westernor, Karen (salmon), Western, Minnie V., Dolphin, Joe Baker, Bingo, and White Lily.

American—Venus, Rainier, Cora, Prosperity, Imperial, Allen, Kanaga, Tafoosh, Enroka, Star, Wireless, Leviathan, Virginia, Yukon, Lincoln, Tordenskjold, Pioneer, Sumner, Akulan, Albatross, Tahoma, Blue Bird, Paragon, Middleton, Lancing and Wash.

**Money! Money! Money!** It awaits you Mr. Trapper. Bring in your furs and get the surprise of your life at the high prices I am offering. W. Goldbloom, Second Avenue.

**Billy Miller Arrives**  
There was hum of excitement around the Prince Rupert Boat-house on Thursday morning when the good ship Asawalgal, with her owner and skipper Capt. Billy Miller, mayor of Poreher Island, on the bridge was sighted on the starboard bow. A delegation consisting of Capt. A. Swanson, skipper Jeff Lambie, and Bob Thomas, chief salvage boss, were on hand to greet the mayor as he stepped ashore. Billy is in port for a few necessities for use in connection with his increasing ranching activities including lumber for building extension purposes.

The native power boat Markwell arrived in port on Monday with a large party of citizens from Hartley Bay who came with the express purpose of doing

some shopping prior to leaving for the summer's distant fields in the salmon canning and salmon trolling. The Markwell returned to Hartley Bay on Thursday.

**A Big Time**  
Pedestrians along the fish dock on Saturday evening last were greatly disturbed by the shaking of the planking, which reminded them of a jolly in convulsions, and visions of a pending earthquake flitted through their anxious minds. Upon passing the residence of "Doc" Clapperton, situated upon the provincial wharf, the shaking was found to be due to some fifty friends of the family, who had foregathered to pay homage to Mrs. Clapperton on the occasion of her birthday, enjoying quadrilles and Scotch dances to the snappy strains extracted by Chief engineer Sutherland, of the light-house tender Estevan, from his wind jammer. The fun started early in the evening when some 26 ladies captured the residence by storm before any plan of defence could be drawn up. Later on reinforcements were called upon in the person of the husbands and escorts of the visitors, who, as one man, jumped into the ring of jollification and gave the K.O. to Bill Blues and Tommy Grouch. Delectable refreshments were served by the ladies present during which two useful presentations were made to the honored lady, consisting of a lace nightingale trimmed with canary lace and a silver cake basket. Among the nautical celebrities present were Capt. Ormiston, master of the lighthouse tender Newington, Capt. Bilton, master of the lighthouse tender Estevan, and chief engineer and accordion player Sutherland, of the Estevan.

Overhaul work has been completed at the Cow Bay Creek yards on W. Balagno's launch, which has been entirely remodelled, and also to Jack Lindsay's pleasure boat which has practically had a new hull built. Geo. Nickerson's launch has also been put through her paces in readiness for the coming of the balmy days.

**Yacht Club Active**  
With the spring season well advanced the pleasure boat owners are out in force on the Yacht Club wharf armed with every conceivable kind and make of paint and paint brush and the "slap dabbing" can be heard far afield day and night. The fashions in boat coloring this year seem to be confined to a ghostlike white tinged with raven black while the fashions in brushes remain the same as in the days of yore and range from the hairless wonder to the more-hair-than-handle variety. The usual spring rush to get up on the ways for copper painting is on in full swing and a long list of boats await the accommodation. Benson's speed boat Poinsettia put herself on the grid on Thursday morning and refuses to budge until she has been redecorated.

The runabout Bruce, formerly owned by W. H. Waldorf, has been purchased by Sid Webb.

Geo. Badland arrived in port early in the week from Oona River, aboard his power boat Royal III, which he is re-conditioning in readiness for an early dash to the Hippo Island trolling grounds.

The Canadian halibut schooner Nuba was taken up on the Ward ways on Thursday morning to have a propeller trouble remedied.

**Representative Here**  
J. Tandy, consulting engineer for the Canadian Vickers-Petters Engine Company, arrived in the city this week to supervise the installation of the 60 h.p. Vickers-Petters engine in the new forestry patrol boat which is nearing completion at the dry dock, and also to visit the Ward

Electric Co., local agents. Mr. Tandy, who recently arrived in Canada from England and is on loan to the Vancouver interests, is very much pleased with Canadian business conditions and will probably make overtures to his superiors for permission to stay out here.

John Lindseth, the well known northern logger who has a logging camp established at Union Bay, north of Port Simpson, has recently completed the overhauling of his power boat Jiggs and has proceeded north to continue his logging operations.

**Blew on Rocks**  
The troller Knox, Capt. Wells, went up on the Ward ways on Wednesday for hull examination, as the result of being blown on the rocks of Lewis Island in last week's gale. Cap was able to beach the boat and do temporary repairs to enable her to make port under her own power. The completion of the repair work is being carried out in Cow Bay Creek.

The Canadian halibut boat Ringleader, Capt. Sollows, is undergoing a spring painting and general overhaul.

**Floating Fish Trap**  
A boom of logs has been built at the Albert & McCaffery dock for towing to the Wales Island cannery, owned by the Canadian Fishing Co. Ltd., which will be used in the making of a floating fish trap. The cannery tug Kitlap and the tugboat M.T.3, the flagship of the Busby towing fleet, will tow the boom to the cannery.

The Currie pile driver has commenced the work of driving 30 creosoted piles and 15 hemlock fender piles in connection with the repair work on the Big Bay Lumber Co.'s dock.

**Georgetown Activities**  
The tug M.T.3 Capt. B. Green, arrived at daybreak Wednesday morning at the Georgetown mill with a boom of logs from the John Lindseth logging camp. Two scowloads of fish boxes arrived in port Wednesday evening for the Gold Storage and the fish dock. The M.T.3 left on Thursday morning for Georgetown with a scow of supplies and had aboard George McAfee, general manager of the northern mill who had come down to attend the special Board of Trade meeting held on Tuesday night.

The tug Eastholme will arrive from Vancouver on Monday with 200 tons of Nanaimo-Wellington coal for the Albert-McCaffery interests.

Pete Leighton arrived in port this week from Metlakatla aboard his power boat Verna L. and has been busy overhauling the machinery at the Akerberg-Thomson shops. Pete will beach the box of tricks for hull overhaul and will leave for the salmon trolling grounds in the Naas river district as soon as the work is completed.

The nautical definition of love—Love is a sea of emotion entirely surrounded by expense.

**Busby Fleet Active**  
The Busby tugboat fleet has been on the busy side of life this week, what with taking the elevator dock piling over to Digby Island for storage, shifting the Laurel Whalen from the dry dock to the Summerville Cannery, delivering a boom of logs to Georgetown sawmill from Work Channel, helping the Kitlap to tow a raft of fish trap logs to Wales Island, slacking the thirst of Arnett's dredge with daily trips of the water scow and weekly journeys with oil fuel to keep things warm, and last but not least a trip to Georgetown to return Mr. McAfee home after his strenuous evening at the Board of Trade in connection with helping to maintain friendly relations with the United States in relation to the fisheries situation, oh yes, and we forgot to mention how Capt. Reg. Green brought in a Georgetown scow floating on her ear with an overload of lumber, but not a stick lost, after a hard all night session to keep her right side up.

**Injured Shoulders**  
As the result of a scaffolding giving way on Wednesday causing him to fall upon his head, Bert Greer, of the contracting firm of Greer, Beattie & Douglas, which is responsible for the erection of the new Swift cold

# Shop-windows on parade

IN THE quiet and comfort of your home, newspaper in hand, the shop-windows of the town's best stores pass in review. Look at that charming little hat—just the style you have been looking for, and so reasonable!

And say, isn't that coat a darling? . . . Not only do you see illustrations of the merchandise, but you are told in detail of its merits and prices. A passing panorama that may be halted and started and halted at will. A shopping trip at home!

How long do you suppose it would take you to reverse the process—to go up one street and down another, until you had visited personally every worth-while store in town? And how exhausted you would be, physically and nervously.

There's no doubt about it. The modern way to shop is to read the advertisements, then make notes of the stores and the particular offerings that appeal to you. What a lot of time and bother such a method saves. You know beforehand what you want to look at, who has it, and what you will have to pay.

Read the advertisements. Make it a daily habit. The regular reader of advertisements is better informed, makes the family budget stretch further, has more time for recreation, gets more value for her money, and profits in many other ways. Advertisements are frequently the most interesting news in the paper.

Every day these shop-windows are lined up for your inspection in this newspaper

storage plant, suffered injuries to his neck and shoulders. Although able to be around Bert is feeling considerable inconvenience from the after effects of the mishap.

**Liza Jane In**  
Sam Larson arrived from the Queen Charlotte Islands aboard his power boat Liza Jane early in the week and is busy installing a new 5 h.p. Regal engine in place of the old 3 1/2 h.p. Regal. When the installation of the new engine is completed Sam is going out to the deep sea trolling grounds off the west coast.

The Miller cannery people are waiting for the pile driver in order to start work on their cannery extension. In the meantime they are preparing to can spring salmon.

**Chooses Petters Engine**  
The Ward Electric Co., Cow Bay, agents for the Canadian Vickers-Petters semi-diesel engine, have closed a deal with Capt. John Wicks, who has purchased a 24 h.p. Vickers-Petters semi-diesel engine which will be installed in his new halibut boat now being built at the N. M. McLean yards. This is the first of the Vickers-Petters semi-diesel type of engine to be sold to the local halibut fishing fleet and its installation is being watched with keen interest among local boat owners. The big feature of this engine is the low cost of operation for fuel and lubricating oil. These engines are built in England by one of the largest and most reliable engineering concerns in the world. Capt. Wicks' engine is expected to arrive within the next ten days from the Vancouver headquarters where all sizes of engines and spare parts are kept in stock.

## ANOTHER SCOTTISH DANCE LAST NIGHT

St. Andrew's Entertained at Enjoyable Function in Recently Renovated Auditorium

Another successful and enjoyable Scottish dance was given last night in the Auditorium by the St. Andrew's Society. There were some 80 or 90 persons present.

Music for the program, which was distinctly Caledonian in nature, was dispensed by an orchestra consisting of John Bremner, James Watt, J. B. MacKay, W. Vaughan Davies, James N. Kelly and Alex. Mitchell. Special numbers were played by Piper James Sturgeon who also accompanied Miss Jean Scott who gave an exhibition of the Highland Fling.

James Simpson was master of ceremonies. A Clapperton presided at the door and the committee comprised Howard Steen, James Simpson, Charles Taylor, Ben Dalgarino and James Irvine. Refreshments were served at midnight, Scottish style.

Many comments were made as to the excellence of the Auditorium for dancing purposes since its recent renovation.

## HEART TROUBLE SHORTNESS OF BREATH

Mrs. Geo. E. Bowdoin, Morrisburg, Ont., writes: "I am writing you a few lines to let you know of my experience with Milburn's Heart and Nerve Pills. Two years ago I became very poorly with my heart and nerves and whenever I took the least little bit of exercise my heart would start to jump and flutter. I could not walk up stairs without having to sit down and rest before I was half-way up, on account of my breath becoming so short.

I commenced taking

## POLITE EVEN WHEN ROBBING

Pirates in China Made up Purse For Family of Murdered Man

FOOCHOW, China, Apr. 4.—With consideration for their victims worthy of Robin Hood, pirates recently took possession of the Chinese steamer Kingshin, ran her into a harbor near Amoy and proceeded to loot her most systematically, according to a report brought here by William Overholt and family, American missionaries, passengers and witnesses of the occurrence. The quartermaster bravely refused to turn over his keys to the pirate chief and was killed, but the pirates made up a purse of \$300 and entrusted it to another of the ship's officers to be given to the family of the murdered man.

The pirates boarded the ship in Shanghai in guise of passengers. When nearing Amoy they overpowered the officers and crew, acting with precision and with practically no violence. They politely warned the Chinese-speaking passengers not to get excited, informing them that their object was primarily the seizing of 90,000 pounds of silver bars consigned to the American Oriental bank at Foochow. Nevertheless, it was explained somewhat apologetically, the pirates needed some clothing and would be obliged to accept some from the passengers. Only the passengers in the private cabins were robbed, the less fortunate ones in the matter of comforts being unmolested. Toward the foreign travelers the pirates were extremely polite. From them they took nothing, evidently under orders from their chief.

Under compulsion the crew piloted the Kingshin into a harbor where, in a concealed location, appeared a fort suggestive of medieval days. Boats put out from shore in great numbers to take off the treasure. Many of the wild looking boatmen attempted to board, but the pirate chief stood them off at the point of a revolver while his followers brought the loot to the ship's side. He explained to the passengers: "If these fellows get on board I can't control them, and they certainly will rob you of everything you have."

As soon as the silver was unloaded into the small boats the captain of the ship was ordered to put to sea, and as the boats dropped astern the pirates fired a salute with their small arms, the chief bowing low and swinging his hat in a wide theatrical gesture.

### SOME GIRLS LOOK BETTER WITH BOBS

LONDON, Apr. 4.—That the bobbed hair fashion will stay with us for a good many years is the opinion of H. J. Harper Roberts, of Liverpool.

Speaking before an audience in Bloomsbury Mr. Roberts said that the advantages of bobbed hair were that it was becoming to women of a certain type. Women with round faces looked well but the round bob did not suit women with long, thin faces. If a woman had a shapely head why should she not have it shingled and show its beauty? Bobbed hair gave freedom. It was easier to dress and, what was more important, it was easier to wash and keep clean.

But it was a fallacy to suppose that cutting hair short made it coarser or stronger or stopped it from falling out. It would not improve the hair in the least, because the growing hair was not affected by what happened to the tips. People were often given to understand that cutting did strengthen it, and the hairdresser, when asked, would naturally give that assurance, because it meant more business. For the same reason singeing was often recommended, but it had little effect.

There was virtually nothing in the suggestion that the freer access of air to the roots of short hair was very beneficial. A suggested disadvantage of bobbing was that it exposed a sensitive part of the skin at the back of the neck to the irritation caused by dyes when dyed furs were worn, and the lecturer seemed to consider that this was a real danger.

Answering questions put to him, Mr. Roberts said curly hair

might become straight for a time and straight hair curly after being cut short in an illness, but the change would not be permanent. The essential difference was that the straight hair that curled was oval or flattened and its structure would not be altered by cutting. If hair looked darker after being bobbed it was because the ends were always several shades lighter than the roots.
